The proposed prices of the coals produced at all mines listed in the schedule in Canon #2 Sub-District on each of the foregoing Size Groups be, and the same are hereby, modified accordingly, and the classifications of such coals are changed to reflect these modifications. Such revised classifications and prices appear in the Appendix for District No. 17.

A protest was filed before the Commission by McNeil Coal Corporation asking that a differential be established for its coal below prices of the coals of Mt. Harris sub-District No. 5, as follows:

Size Groups 1, 2, 3, 4, 50¢ per ton.
Size Group 5, 30¢ per ton.
Size Group 6, 35¢ per ton.
Size Group 8, 15¢ per ton.
Size Groups 11, 15, 17, 10¢ per ton.

The evidence submitted by the protestant is confined entirely to the quality of lump coal prepared at the McNeil Coal Company mine as against the quality of lump coal prepared in the Mt. Harris sub-District. The record indicates that the protestant's mine is on a separate and distinct seam from all other operations in the Mt. Harris District; that the coal is duller in appearance and softer; also, it possesses a higher ash content than other Mt. Harris coals.

Analyses submitted by this protestant indicate a higher ash content of approximately 4 per cent in the protestant's coal than the composite ash as shown for the other Mt. Harris District mines.

The Commission finds upon the evidence in the record that the coal of the McNeil Coal Corporation should be classified and priced under Mt. Harris sub-District mines as follows: 25¢ per ton on Size Groups 1, 2, 3, 4; 20¢ per ton on Size Group 5; 15¢ per ton on Size Group 6; 10¢ per ton on Size Group 8; with no differential on Size Groups 9 to 17, inclusive. The proposed prices of the coals produced at the mine of the McNeil Coal Corporation on each of the foregoing size groups are hereby modified accordingly, and the classifications of such coals are changed to reflect these modifications. Such revised classifications and prices are set forth in the Appendix for District No. 17.

A protest was filed before the Commission by the Southern Colorado Power Company requesting that protestant, a consumer, be allowed the so-called "sugar differential" which the schedule proposes for certain sugar companies. This protest is disposed of by the deletion of the "sugar differential" clauses from the schedule in accordance with the findings of the Commission hereinafter made.

The Commission finds, in accordance with the recommendation of the District Board for District No. 17, which is supported by the evidence, that the proposed price schedule (Exhibit #150, pp. 8, 11, 12, 18 and 19) should be, and the same is hereby, modified by the following changes in classifications and prices:

Code member	Mine name	Subdist.	Page	Column	Classification
American Smelt. & Ref. Co	Bon Carbo	8	8	15	Letter C to read A.
Colo. Fuel & Iron Co	Morley	8	11	15	Letter C to read A.
Deldosso Coal Co	Sopris	8	11	15	Letter C to read A.
Dick Coal Co	Dix	8	12	15	Letter C to read A.
Dolinar & Fatur	Bloom	8	12	15	Letter C to read A.
Santa Fe Coal Co	Santa Fe	8	18	15	Letter C to read A.
St. Louis, Rky. Mtn. & Pac	Sugarite	9	19	15	Letter A to read C.

The foregoing revised classifications and prices appear in the Appendix for District No. 17.

The Commission finds from the evidence that the proposed price schedule (Exhibit No. 150, p. 11), where it shows that the Colorado Fuel and Iron Company, Frederick Mine, is now listed as sub-District No. 7, should be amended and modified to read sub-District No. 8.

The Commission finds that *page 21* of *Exhibit No. 150* should be amended so as to include a classification of "A–1" preceding the classification "A," and in classification "A–1," Size Group Number 13, should be the figures "250;" also, to include a classification of "D–1" preceding the classification "D," and in classification "D–1," Size Group Number 6, should be inserted the figures "345;" also, to include a classification of "E–2" following the classification "E–1," and in classification "E–2," Size Group Number 5, should be inserted the figures "345," and under Size Group Number 6 should be inserted the figures "335."

The Commission finds from the evidence that *page 3* of *Exhibit No. 150*, reading as follows, should be deleted:

"DESCRIPTION OF SUB-MARKET AREAS

"132–A. Counties of Archuleta, Dolores, La Plata, Montezuma, San Juan and San Miguel, Colorado.

"133–A. City of Steamboat Springs, (Routt County) Colorado, and rail points west to, but not including, Craig (Moffat County), Colorado.

"133–B. City of Craig (Moffat County), Colorado.

"133–C. Cities of Leadville, Salida and Climax, Colorado, and intermediate points.

"133–D. All points in the Counties of Logan and Morgan, Colorado.

"133–E. Destinations on and south of the line of Denver & Rio Grande Western Railroad beginning just south of Mears Junction in Market Area 133 to and including Alamosa, thence west to Creede, thence following the line of the D. & R. G. W. Railroad south from Alamosa to and including Antonito in Market Area 133, thence following the line of the D. & R. G. W. Railroad south of Alamosa to and including Santa Fe, New Mexico, in Market Area 128."

The Commission finds that *Item 1* on *page 4* of *Exhibit No. 150*, should be deleted.

The Commission finds that *Item 4* of *Exhibit No. 150*, reading as follows, should be deleted:

"All prices herein are per net ton of 2,000 pounds f. o. b. transportation facilities at the mines, unless otherwise designated,"

and insert in lieu thereof the following language:

"The prices listed herein are in cents per net ton of 2,000 pounds f. o. b. transportation facilities at the mines."

The Commission finds that *Item 5*, *page 4*, of *Exhibit No. 150*, reading as follows, should be deleted:

"If any size is made for which a price is not designated herein, such size shall be sold at the price applicable to the next larger size,"

and insert in lieu thereof the following language:

"When any size of coal is sold in which the maximum top or bottom size exceeds the sizes scheduled, then such coal must be included in the next higher priced size group and priced accordingly."

The Commission finds that *Item 6*, *page 4*, of *Exhibit No. 150*, reading as follows, should be deleted:

"Not less than the actual cost of transportation of coal over the ordinary loading facilities at the mines to any consumer shall be added to the established minimum prices f. o. b. transportation facilities at the mines. The cost of such transportation is subject to review by the Commission on complaint or upon its own motion. In every case reviewed by the Commission the code members shall have the burden of establishing or proving that the cost so charged was an accurate cost for actual service rendered."

The Commission finds that *Item 9*, *page 4*, of *Exhibit No. 150*, reading as follows, should be deleted:

"The price of $2.50 applies on 'bone' coal from all Colorado sub-districts. 'Bone' coal is defined as slatey coal or carbonaceous shale carrying a minimum of 25 per cent ash."

The Commission finds that *Items 10 and 11*, on *page 4* of *Exhibit No. 150*, reading as follows, should be deleted:

"10. Industries located in the Counties of Logan and Morgan, Colorado, Sub-Market Area 133–D, which industries have storage facilities accommodating 30 per cent of their annual coal requirements and who place those facilities at the disposal of the producers, permitting producers to make shipments at their convenience during the year, may be granted a price of 30 cents per net ton below the standard list prices on slack coal."

"11. Industries located in the County of Delta, Colorado, Sub-Market Area 132, which industries have storage facilities accommodating 30 per cent of their annual coal requirements and who place those facilities at the disposal of the producers, permitting the producers to make shipments at their convenience during the year, may be granted a price of 15 cents per net ton below the standard list prices on slack coal."

The Commission finds that *page 5* of *Exhibit No. 150* should be amended so that the first item at the bottom, which reads as follows:

"When any size of coal is sold in which the maximum top or bottom size exceeds the sizes scheduled above, then such coal must be included in the next higher size group and priced accordingly,"

should be deleted.

The Commission finds that the changes and modifications hereinbefore made in the price schedule will increase the realization in the amount of 8.44 cents. This increased amount added to the realization computed by the District Board shown by Exhibits Nos. 152 and 153, totals $2.8644 per ton. The evidence in the record shows that it will not disturb the price relationships between the various kinds, qualities and sizes of coal if a certain number of cents per ton be added to or deducted from all of the prices shown in the schedule, in order to bring the realization to a figure that will yield as nearly as may be the weighted average cost of production of the price area.

The Commission finds that a reduction of 10 cents per ton should be made on all prices contained in the proposed price schedule as hereinbefore modified, in order to arrive at a realization more nearly equal to the weighted average cost of Minimum Price Area No. 6. The price schedule is amended accordingly and, as revised, is set forth in Appendix for District No. 17. The resulting realization is $2.7644 as compared with the weighted average cost of Minimum Price Area No. 6 of $2.758.

And now, upon the record herein, upon the evidence, both documentary and otherwise, and upon the above and foregoing facts found to exist, the Commission finds:

That the District Board for District No. 17, as directed in Order No. 245 of the Commission, proposed minimum prices free on board transportation facilities at the mines for kinds, qualities and sizes of coal produced within the District, classification of coal and price variations as to mines and consuming market areas.

That the District Board for District No. 17, as directed in Order No. 245 of the Commission, submitted to the Commission a schedule of such proposed mini-

mum prices, together with the data upon which same were computed, including, but without limitation, the factors considered in determining the price relationships.

That the minimum prices proposed by the District Board for District No. 17, as herein modified, reflect, as nearly as possible, the relative market value of the various kinds, qualities and sizes of coal produced within the district; are just and equitable as between producers within the District; have due regard to the interests of the consuming public, and do not permit dumping.

That the minimum prices proposed by the District Board for District 17 for any kind, quality or size of coal for shipment into any consuming market area, as herein modified, are just and equitable between producers within the District.

That the minimum prices proposed by the District Board for District 17, as herein modified, yield a return per net ton for the District equal as nearly as may be to the weighted average of the total costs per net ton of the tonnage of Minimum Price Area 6, the price area in which District 17 is placed under the Act.

That the schedule of proposed minimum prices, as amended, and submitted to the Commission by the District Board for District 17, as amended, corrected, modified and revised, as hereinabove set forth, conforms to Order No. 245 of the Commission and to the requirements of Section 4–II (a) of the Act, and as so amended, corrected, modified and revised, said schedule should be, and the same is hereby, approved by the Commission to serve as a basis for the coordination provided for in Section 4–II (b) of the Act. A copy of said schedule as amended, corrected, revised and modified appears in the Appendix for District 17.

APPENDIX FOR DISTRICT NO. 17

Schedule of Minimum Prices, As Modified and Approved, to Serve as a Basis for Coordination

NOTE.—The prices in this schedule are not the final prices that will be established on coal for shipment by Code Members within this district into consuming markets of this district. In the ultimate establishment of the effective minimum prices, Pursuant to subsection (b) of Part II, Section 4 of the Act, the minimum prices in this schedule are subject to such increase or decrease respectively, as may be necessary to carry out the provisions of subsections (a) and (b) of Part II, Section 4 of the Act.

F. W. MCCULLOUGH,
Secretary.

Issued: December 9, 1938.

TABLE OF CONTENTS

Code members.
Identification of sub-districts.
Prices.
Size groups.
Instructions and exceptions.
Description of consuming market areas.

PRICE INSTRUCTIONS AND EXCEPTIONS

1. All prices are subject to the Marketing Rules and Regulations issued by the National Bituminous Coal Commission.

2. In the sale of coal to destined points outside the boundary of the United States, prices stipulated herein are for payment in U. S. funds.

3. The prices listed herein are *in cents* per net ton of 2,000 pounds, f. o. b. transportation facilities at the mine.

4. When any size of coal is sold, in which the maximum top or bottom size exceeds the sizes scheduled, then such coal must be included in the next higher *priced* size group and priced accordingly.

5. An extra charge of 25¢ per ton shall be made for the "bulkheading" of coal in railroad cars, that is, permitting the loading of two or more sizes in the same car.

6. Where coal is subject to any chemical, oil or waxing process an additional charge of not less than 10¢ per ton shall be made on nut coal and all larger sizes, and not less than 25¢ per ton on pea and slack.

7. Washed coal all sizes from all subdistricts shall sell at 10¢ per net ton over the price on raw coal.

Size Groups

Size group No.	Lump maximum screen size	Double screened sizes	
		Maximum top size	Maximum bottom size
1	8″		
2	6″		
3	3″	8″	3″
4	1½″	6″	3″
5		8″	1¼″
6		6″	1¼″
7		3″	2¾″
8		3″	1″
9		1¼″	¾″
10		1¼″	0″
11		1¼″	0″
12		1″	0″
13		¾″	0″
14		¾″	0″
15	Mine run	12″	0″
16	Modified Mine Run	12″	0″
17	Modified Mine Run	8″	0″

All sizes are predicated on screen descriptions as published in the railroad tariffs. All sizes are predicated on perforated plates and when bar screens are used, the space between bars must conform to the standard equivalent.

IDENTIFICATION OF SUB-DISTRICT NUMBERS

Sub-District Number and Identification

1. *Walsenburg.*—All mines in Huerfano County, Colorado, excluding that portion served by the C. & S. and D. & R. G. W. Railroads, Mayne to and including Bunker Hill, Huerfano County, Colorado.

2. *Canon No. 1.*—Mines in Fremont County, Colorado.

3. *Canon No. 2.*—Mines in Fremont County, Colorado.

4. *Oak Hills.*—That part of Routt County, Colorado, lying on and adjacent to the main line of the D. & S. L. Railroad, at and adjacent to the town of Oak Creek, and extending north along the line of the D. & S. L. Railroad, Phippsburg to Steamboat Springs, Colorado.

5. *Mount Harris.*—That part of Routt and Moffat Counties, Colorado, lying on and adjacent to the main line of the D. & S. L. Railroad, extending west from Steamboat Springs, Colorado, to the town of Craig in Moffat County, Colorado, and including all mines in Moffat County, Colorado.

6. *Aguilar.*—That part of Huerfano County, Colorado, served by the C. & S. and D. & R. G. W. Railroads, Mayne to Bunker Hill, and that portion of Las Animas County, lying north of the Apishapa River, north to Bunker Hill, Huerfano County, Colorado.

7. *Trinidad No. 1.*—Mines in Las Animas County, Colorado, excluding the Aguilar Sub-District.

8. *Trinidad No. 2.*—Mines in Las Animas County, Colorado, excluding the Aguilar Sub-district.

9. *New Mexico No. 1.*—Mines in Colfax County, New Mexico.

10. *New Mexico No. 2.*—Mines in Colfax County, New Mexico.

11. *Crested Butte.*—All mines in Gunnison County, Colorado, lying on and adjacent to the branch lines of the D. & R. G. W. Railroad to the towns of Crested Butte and Baldwin.

12. *Somerset.*—All mines in Delta County, Colorado, located east of a line drawn north and south through the town of Hotchkiss, and those mines in Gunnison County located on and adjacent to the Somerset branch line of the D. & R. G. W. Railroad.

13. *Cedaredge No. 1.*—Mines in Delta County, Colorado, located west of a line drawn north and south through the town of Hotchkiss, Colorado.

14. *Cedaredge No. 2.*—Mines in Delta County, Colorado, located west of a line drawn north and south through the town of Hotchkiss, Colorado.

15. *Grand Junction No. 1.*—That part of Mesa and Garfield Counties, Colorado, lying on or adjacent to the main line of the D. & R. G. W. Railroad, extending from Mack to Cameo, both in Mesa County, and both inclusive.

16. *Grand Junction No. 2.*—That part of Mesa and Garfield Counties, Colorado, lying on or adjacent to the main line of the D. & R. G. W. Railroad, extending from Mack to Cameo, both in Mesa County, and both inclusive.

17. *Meeker.*—All mines in Rio Blanco County, except Rio Blanco Mine.

18. *Rifle-New Castle.*—That part of Garfield County lying north and south of the main line of the D. & R. G. W. Railroad, extending from the town of Rifle to the town of Glenwood Springs, and including Rio Blanco Mine in Garfield County, and the Rio Blanco Mine in Rio Blanco County.

19. *Durango-Cortez No. 1.*—Mines located in La Plata and Montezuma Counties, Colorado.

20. *Durango-Cortez No. 2.*—Mines located in La Plata and Montezuma Counties, Colorado.

21. *Montrose.*—All mines in Montrose, San Miguel and Ouray Counties, Colorado.

GEOGRAPHICAL DESCRIPTION OF CONSUMING MARKET AREA TO WHICH PRICES APPLY

Market Area No. 33.—Beginning at the Minnesota-Iowa-Wisconsin state line running west on the Minnesota-Iowa state line to a point west of the C. M. St. P. & P. R. R.; thence northwest including all points on the C. M. St. P. & P. to but excluding Mankato; thence east excluding points on the main line of the C. & N. W. to the Mississippi River; thence down the Mississippi River to the starting point of this area.

Market Area No. 34.—Beginning at a point just south of and including Mankato; thence east including all points on the main line of the C. & N. W. to the Mississippi River including Minnesota City; thence northwest following the Mississippi River to a point just south of Hastings, Minn.; thence north including points on the C. M. St. P. & P. R. R. to and including Stillwater and Duluth Junction; thence west and southwest including points on the M. St. P. & S. S. M. to and including Minneapolis; thence southwest to a point just west of Chaska, including Chaska; thence south including points on the Minneapolis and St. Louis R. R. to and including Montgomery; thence southwest including points on the C. M. St. P. & P. R. R. to and including Kasota; thence south including points on the C. M. St. P. & P. from Kasota to Mankato, inclusive, the starting point of this area.

Market Area No. 101.—Beginning at the South Dakota-Minnesota-Iowa state line running east on the Minnesota-Iowa state line to a point just west of the C. R. I. & P. R. R. just southeast of Glenville, Minnesota; thence northwest, excluding points on the C. R. I. & P. R. R. to and excluding Albert Lea; thence northwest excluding points on the C. M. St. P. & P. R. R. to and excluding Wells; thence west and north excluding points on the C. M. St. P. & P. R. R. to and excluding Mankato; thence west excluding points on the main line of the C. & N. W. R. R. to the point of beginning.

Market Area No. 104.—Beginning at a point southeast of Sioux City, excluding Sioux City, running southeast on an airline to a point immediately north of Minden; thence east excluding points on the C. R. I. & P. R. R. to and excluding Atlantic; thence crossing the C. R. I. & P. R. R. east of Atlantic including points thereon, to and including Des Moines, thence crossing the railroad continuing east excluding points on the C. R. I. & P. R. R. to but excluding Grinnell; thence north excluding points on the Minneapolis and St. Louis R. R. to, but including Marshalltown; thence west excluding Minerva Junction; thence north excluding points on the Minneapolis & St. Louis R. R. to and excluding Eldora; thence northwest excluding points on the C. & N. W. R. R., excluding Iowa Falls, Alden, Dows, and Clarion; thence northeast excluding points on the Chicago, Great Western R. R. to and excluding Mason City; thence north excluding points on the C. R. I. & P. R. R. to the Minnesota-Iowa state line; thence west following the state line to the South Dakota-Iowa-Minnesota state line; thence south following the Iowa-South Dakota state line to the point of beginning, excluding Sioux City.

Market Area No. 105.—Beginning at a point just northwest from Eldora; thence north excluding points on the Minneapolis and St. Louis R. R. to and excluding Hampton; thence north including points on the C. R. I. & P. R. R. to but excluding Mason City; thence southwest including points on the C. G. W. R. R. to and including Clarion; thence southeast on an airline to the point of beginning, including Clarion, Dows, and Alden.

Market Area No. 106.—Points in eastern Iowa. Beginning at the northeast corner of Iowa on the Mississippi River; thence south down the river, excluding points on the C. M. St. P. & P. R. R. from Clinton to Davenport, both excluded; thence west following the river to a point south of Muscatine; thence west including points on the C. R. I. & P. R. R. to and including Thornburg; thence west on an airline to a point southwest of New Sharon, including New Sharon; thence north including points on the Minneapolis & St. Louis R. R. to but excluding Marshalltown; thence west including Minerva Junction; thence north including points on the Minneapolis & St. Louis R. R. to and including Hampton; thence north excluding points on the C. R. I. & P. R. R. to Mason City but including Mason City; thence north to the Minnesota-Iowa state line, including points on the C. R. I. & P. R. R.; thence east following the Minnesota-Iowa state line to the point of beginning.

Market Area No. 107.—Beginning at a point just south of Muscatine, Iowa; thence west excluding points on the C. R. I. & P. R. R. to and excluding Thornburg; thence west to a point just south of New Sharon, Iowa; thence south including points on the Minneapolis & St. Louis R. R. to and including Oskaloosa; thence southeast excluding points on the C. R. I. & P. R. R. to and excluding Ottumwa; thence east including points on the C. B. & Q. R. R. to and including Burlington, Iowa; thence north up the Mississippi River to the point of beginning.

Market Area No. 108.—Beginning at a point on the Missouri-Iowa state line due south of Bloomfield, Iowa; running north excluding points on the Wabash to and excluding Ottumwa; thence east excluding points on the C. B. & Q. R. R. to the Mississippi River; thence south down the River to the Iowa-Illinois-Missouri state line; thence northwest and west on the Missouri-Iowa state line to the point of beginning.

Market Area No. 109.—Beginning at a point south of Sioux City, Iowa running on an airline southeast to a point just north of Minden; thence east including points on the C. R. I. & P. R. R. to and including Atlantic; thence crossing the railroad east of Atlantic and excluding points on the C. R. I. & P. R. R. to and excluding Des Moines; thence continuing east including points on the C. R. I. & P. R. R. to a point just west of Grinnell; thence south excluding points on the Minneapolis and St. Louis R. R. to and excluding Oskaloosa; thence southeast including points on the C. R. I. & P. R. R. to and including Ottumwa; thence northwest including points on the C. B. & Q. R. R. to but excluding Frederic; thence west excluding points on the C. B. & Q R. R. to the Missouri River; thence north up the Missouri River to the starting point of this area, excluding Council Bluffs, Omaha, and Sioux City.

Market Area No. 110.—Beginning at the Missouri-Iowa state line south of Bloomfield, Iowa; thence north including points on the Wabash R. R. to but excluding Ottumwa; thence northwest excluding points to but including Frederic; thence west including points on the C. B. & Q. R. R. to the Missouri River; thence south following the Missouri River to the Nebraska-Iowa-Missouri state line; thence east on the Iowa-Missouri state line to the point of beginning.

Market Area No. 111.—Omaha and Council Bluffs. Switching limits of Omaha, Nebraska, and Council Bluffs, Iowa.

Market Area No. 112.—Sioux City. Greater Sioux City.

Market Area No. 113.—Northwest Missouri. The counties of Andres, Atchison, Buchanan except St. Joseph, Clinton, De Kalb, Gentry, Holt, Nodaway, Platte, and Worth in the state of Missouri.

Market Area No. 114.—St. Joseph, Switching limits of St. Joseph, Missouri.

Market Area No. 115.—North Missouri. Bounded on the north by the Iowa-Missouri state line; bounded on the east by the territory west of but not including towns on the main line of the C. B. & Q. Railroad, St. Louis north to the Iowa state line; on the west by the western county lines of Harrison, Daviess, Caldwell, and Clay counties; and on the south by the south boundary lines of Clay, Ray, Saline, Howard, Boone, Callaway, Montgomery, Warren, and St. Charles counties, and including the cities of Boonville, Missouri, and Jefferson City, Missouri, located on the south bank of the Missouri River.

Market Area No. 116.—Greater Kansas City. In Wyandotte and Johnson Counties, Kansas; Missouri Pacific River Route to a point approximately even with the Western University Annex on the West; thence to Welborn on the Leavenworth Electric Line; thence to Muncie on the Union Pacific and K. S. K. V. & W.; thence to Turner on the A. T. & S. F.; thence through Shawnee to Merriam on the Frisco; thence to Overland Park on the Missouri & Kansas Railroad. In Jackson County, Missouri; Martin City on the Missouri Pacific to the south; Grand View on the K. C. S. and Frisco; Raytown on the C. R. I. & P.; Independence on the Alton and Missouri Pacific.

Market Area No. 124.—States of Oklahoma and Texas except that portion described in Market Areas Nos. 125 and 128.

Market Area No. 125—General description.—Clovis, New Mexico to Amarillo, Brownwood, Spofford and west to El Paso, including the Pecos Valley Lines; Clovis, New Mexico to Pecos, Texas, and Southern Pacific Lines, Torrance to El Paso.

Specific description.—Following the eastern boundary of Market Area No. 129 from a point just southeast of Belen Junction at the convergence of Market Areas Nos. 126 and 129 to El Paso, crossing the S. P. between El Paso and Fort Bliss, and crossing the S. P. just west of Alfalfa; thence running in a southeasterly direction south of the T. & N. O. (S. P.) crossing the P. & S. F. just south of Paisano continuing south along the S. P. to and including Spofford; thence running in a northerly direction just west of Eden, excluding Eden; thence northeast crossing the P. S. & F. east of Brownwood; thence continuing northwest, north of the P. S. & F. to Sweetwater Junction; thence in a northwesterly direction just east of Crosbyton, continuing north on an airline to a point immediately east of Silverton; thence northwesterly on an airline to a point east of Amarillo; thence curving around Amarillo, including Amarillo, and crossing the C. R. I. & G. west of Amarillo; thence running in a southwesterly direction north of the P. & S. F. and Santa Fe to the boundary of No. 126 at a point near Melrose; thence continuing on the southern boundary of No. 126 to the point of beginning.

Market Area No. 126—General description.—Points east of Belen Junction, New Mexico, to and including Melrose and including Estancia Valley.

Specific description.—Beginning at a point southeast of Belen Junction at the point of beginning of No. 129, not including Belen Junction; thence running in an easterly direction south of the A. T. & S. F. crossing the S. P. at Torrance, thus continuing in an easterly direction to and including Melrose, rounding Melrose, and returning in a westerly direction north of the A. T. & S. F., crossing the S. P. just north of Vaughn; thence running to a point northeast of Willard; thence running north (east of the A. T. & S. F.) to a point south of Kennedy, excluding Kennedy, returning in a southwesterly direction crossing the A. T. & S. F. line from Willard to Kennedy just south of Kennedy to the starting point of this area near Belen Junction.

Market Area No. 127—General description.—Belen Junction, New Mexico to Santa Fe, New Mexico, inclusive.

Specific description.—Beginning at a point immediately south of Belen Junction, (at the conjunction of Nos. 125,

126, and 129) running north on the west boundary line of No. 126 to a point just southeast of Kennedy; thence crossing the A. T. & S. F. just east of Lamy; thence northwest running east of Santa Fe to a point northeast of Santa Fe; thence southwest, including Santa Fe but excluding Rio Grande, crossing the Denver and Rio Grande midway between Santa Fe and Rio Grande, continuing in a southwesterly direction in a curved line so as to include points on the Santa Fe, crossing both lines of the Santa Fe just east of Dalies where it joins Market Area No. 129; thence following No. 129 to the point of beginning.

Market Area No. 128—General description.—Points east of Lamy.

Specific description.—Beginning at the tip of Market Area No. 127 just northeast of Santa Fe; thence running north (east of the D. & R. G. W.) to the New Mexico-Colorado state line; thence east on the Colorado-New Mexico state line to the New Mexico-Oklahoma state line; thence south on the Oklahoma-New Mexico state line to the Texas-New Mexico-Oklahoma state line; thence east on the Oklahoma-Texas state line to a point on the state line just east of Stratford: thence south on the east side of the P. & S. F. to its convergence with Market Area No. 125 at Amarillo, not including Amarillo; thence following the boundary of No. 125 in a southwesterly direction to the boundary line of No. 126 near Melrose; thence following the northern boundary of No. 126 to the boundary of No. 127 just southeast of Kennedy; thence following the boundary line of No. 127 to the point of beginning.

Market Area No. 129—General description.—Points on the Santa Fe Railroad south of but not including Belen Junction, New Mexico, to El Paso, Texas, inclusive, and west thereof, except as described in Market Area No. 130.

Specific description.—Beginning at a point just southeast of Belen Junction east of the A. T. & S. F. and running south crossing the S. P. between Fort Bliss and El Paso, curving around and including El Paso; thence west on the New Mexico state line to the Arizona state line; thence west to the Colorado River; thence north following the Colorado River to a joint just south of Parker Cut-off; thence southeast on an airline to a point just south of Matthie and west of Griggs, but keeping south of the A. T. & S. F.; thence on an air line to a point southwest of Hassayampa but northwest of the S. P.; thence in a general easterly direction excluding points on the S. P. (W. Chandler, Florence, Winkelman, Christmas Sta.) but running north of the S. P. line from Yuma to Tucson via Maricopa; thence curving around Christmas Sta. crossing the Gila River just east of Christmas Sta.; thence in a northwesterly direction between Superior and Miami; thence curving gently to the northeast crossing Salt River; thence on an airline running just south of McNary to a point immediately south of Dalies and immediately west of Belen Junction; thence to the point of beginning.

Market Area No. 130—General description.—Santa Fe Lines, Dalies, New Mexico, to Needles, California, inclusive, including the Phoenix Branch and the Parker Cut-off.

Specific description.—That remaining innermost portion of Arizona and western New Mexico bounded on the north, east and south by Areas Nos. 126, 127, 129, and 131, and on the west by a line joining Areas Nos. 129 and 130, running north and south (west of the Colorado River) and including Needles, California.

Market Area No. 131—General description.—Points north of but not including Santa Fe, New Mexico.

Specific description.—Beginning at a point just northeast of Santa Fe on the boundary line of No. 128; thence following the boundary line of No. 128 north to the Colorado-New Mexico state line; thence west on the New Mexico-Colorado state line to a point just east of where the D. & R. G. W. crosses the Colorado-New Mexico state line just south of Antonito, Colorado, not including Antonito, where it joins Market Area No. 132; thence following the boundary line of Market Area No. 132 to the Colorado-Utah state line; thence following the Utah-Arizona state line to the Nevada-Arizona state line; thence south to the Colorado River; thence following the Colorado River to a point north of Needles, California at the vertex of the Colorado River and Nevada state line; thence in a northeasterly direction excluding all points on the Santa Fe to a point just north of Grand Canyon, Arizona; thence running in a gradual southeasterly direction excluding all points on the A. T. & S. F. to the boundary of No. 127 west of Isleta; thence following the western boundary of No. 127 to the point of beginning.

Market Area No. 132—General description.—Tennessee Pass and west.

Specific description.—To points in western Colorado and eastern Utah beginning at a point on the Colorado-Wyoming state line at the boundary line of Market Area No. 133 and running west on the Wyoming-Colorado state line to the Colorado-Utah state line; thence south on the Colorado-Utah state line to and including Watson, Rainbow Junction, Rainbow, and Dragon, Utah, to the Utah-Colorado state line; thence south to the junction of Colorado, New Mexico, Arizona and Utah; thence east to a point west of the Farmington branch line, dropping south including said branch line and returning to the state line; thence following the D. & R. G. W. (south of the D. & R. G. W.) to the vertex of Market Area No. 133 south of Antonito, Colorado; thence continuing on the boundary of No. 133 to the point of beginning.

Market Area No. 133—General Description.—Colorado east of Tennessee Pass.

Specific description.—To points in Colorado not included in Market Areas 135 and 134 east of a line beginning at the Wyoming-Colorado state line just west of Slater, Colorado; thence on an air-line south to a point just southwest of Craig; thence east to a point just west of Steamboat Springs; thence south crossing the D. & R. G. W. just southwest of Orested; thence southeasterly running north of Watts; thence south crossing the D. & R. G. W. just south of Deen; thence running south just west of the D. & R. G. W., crossing the D. & R. G. W. between Poncha Junction and Salida, again crossing the D. & R. G. W. west of Mears Junction; thence south to and including Center, Colorado; thence west to and including Creede; thence southeast to the state line where it converges with the boundary of Market Area No. 131 on the Colorado-New Mexico state line immediately south of Antonito, including Antonito; thence east to the Colorado-Kansas state line; thence north on the Colorado-Kansas state line to the Colorado-Nebraska state line; thence west on the Colorado-Nebraska state line to the starting point of this area.

Market Area No. 134.—Pueblo.

Market Area No. 135.—Includes the following cities and towns in the State of Colorado *and all intermediate points and all railroad sidings or stations serving said cities and towns:*

City or town	County location
Denver	Denver.
Englewood	Arapahoe.
Littleton	Do.
Aurora	Do.
Derby	Adams.
Westminster	Do.
Morrison	Jefferson.
Golden	Do.
Ralston	Do.
Edgewater	Do.
Arvada	Do.
Blackhawk	Gilpin.
Central City	Do.
Idaho Springs	Clear Creek.
Dumont	Do.
Lawson	Do.
Empire	Do.
Georgetown	Do.
Silver Plume	Do.

Market Area No. 136.—Points south of the main line of the Union Pacific Railroad, west of Market Area No. 139 in Kansas.

Market Area No. 137.—Kansas points on and north of the main line of the Union Pacific excluding Salina and points in Market Area No. 138.

Market Area No. 138.—Salina, Kansas.

Market Area No. 139.—Points on and east of a line from Marysville, Irving, Garrison, Manhattan, Salina (excluding Salina), McPherson, Newton, Wichita, and South Haven, Kansas to the Kansas State Line.

Market Area No. 140.—Nebraska points on and east of a line from the Missouri River at Running Water through, but not including Bloomfield, Randolph, to and including Norfolk, thence southeast to and including Scribner, Fremont, and thence through Linwood to Wahoo, Valparaiso, Lincoln, Crete, DeWitt, Beatrice, and Wymore to the Kansas state line, excluding Lincoln and Omaha.

Market Area No. 141.—Lincoln, Nebraska; switching limits of Lincoln.

Market Area No. 142.—Western Nebraska C. & N. W. Wyoming line to, but not including Eli, Nebraska; C. B. & Q. Wyoming line to, but not including Grand Island, Nebraska.

Market Area No. 143.—Remainder of Nebraska.

Market Area No. 144.—That part of South Dakota west of and including Rapid City and known as the Black Hills District and south of Market Area No. 147.

Market Area No. 145.—That portion of South Dakota east of Rapid City to and west of the Missouri River not included in Market Areas Nos. 144 and 147.

Market Area No. 146.—That portion of South Dakota east of the Missouri River not included in Market Area No. 147.

Market Area No. 147.—All of North Dakota and that part of South Dakota north of a line drawn east and west one mile south of Watertown.

Market Area No. 148.—All points in the state of Montana except that portion described in Market Area No. 149.

Market Area No. 149.—All points on the main line of the C. B. & Q. Railroad from the Wyoming-Montana state line to and including Billings via Toluca, Montana.

Market Area No. 150.—State of Wyoming.

Market Area No. 151.—To points in Utah south of a line running east and west through Ogden except that portion in Utah described in Market Area No. 132.

Market Area No. 152.—General Description: States of Nevada, California, and to points in extreme southeastern Idaho.

Specific description.—Beginning at a point on the northern boundary of No. 151 near Wahsatch, Utah, continuing westward on this boundary to the Nevada-Utah state line; thence south following the state lines of California and Nevada, following the western boundary of Nos. 130, 131, where possible, thus excluding Needles, returning northward via the Pacific Coast to the northwest corner of California; thence east on the state lines of California, Oregon, Nevada, and Idaho to a point just west of the "Ogden-Malad Line" of the O. S. L.; thence due north, excluding Malad, to a point just southwest of McCammon, Idaho; thence due east to the Idaho-Wyoming state line, excluding McCammon and Grace; thence south on the Wyoming state line to the point of beginning.

Market Area No. 153.—Oregon, Washington, and Idaho, except that area described in Market Areas Nos. 152, 154, 155, and 156.

Market Area No. 154.—City of Spokane, Washington, and adjacent points where freight rates on coal from Producing Areas on the Canadian Pacific and Spokane & International R. R. are as low or lower than the rates on the Northern Pacific R. R. from Roslyn and Bayne rate groups.

Market Area No. 155.—Points in Washington on the Great Northern R. R. east of the Cascade Tunnel to Wenatchee and north thereof.

Market Area No. 156.—City of Seattle, Washington.

MINIMUM PRICE AREA NO. 6—DISTRICT NO. 18

PROPOSED MINIMUM PRICES

In compliance with order No. 245 of the Commission the District Board for District No. 18 at a meeting commencing on August 5, 1938, at which more than 96% of the tonnage of bituminous coal produced in that District during the year 1937 was represented, a tentative schedule of proposed minimum prices free on board transportation facilities at the mines for kinds, qualities and sizes of coal produced within the District, classification of coals, price variations as to mines, consuming market areas, values as to uses and seasonal demand was prepared. A copy of said schedule was transmitted to each and every code member of record August 12, 1938. At the time the schedule was transmitted each code member was advised by letter that a hearing would be held by the District Board August 19, 1938, for the purpose of permitting each code member to advise the District Board of any protest or objection such code member might have with regard to the tentative schedule of such proposed minimum prices.

The District Board conducted a hearing as noticed and as a result of the protests and further discussions relative to the prices which had been proposed in the tentative schedule a final schedule of proposed minimum prices was adopted and the required number of copies of such schedule were forwarded to the Commission and to each of the code members within the District. That schedule is the one on which testimony and evidence was taken before the full Commission at the hearing conducted in Denver, Colorado, and appears in the record as Exhibit No. 165. The District Board was represented at the hearing by the Secretary of the Board, a man thoroughly familiar with the problems of marketing and distributing of coals produced in District No. 18.

The schedule of proposed minimum prices, Exhibit No. 165, contains sixteen size groups which were determined in the following manner: the District Board through its Secretary requested all the coal operators in the District to advise the District Board of the total tonnage of each size of coal which they shipped during the year 1937. In compliance with that request more than 96% of the tonnage which the operators in the district distributed during that year was reported to the District Board. Upon receipt of that information the District Board determined from that data the various sizes of coal which was produced within District No. 18 that could be grouped together for price purposes, that is on which sizes the same price should apply for each mine in each producing subdistrict. Each size group specifies the maximum top and maximum bottom size of the sizes of coals which fell into each size group.

The District Board divided the producing District into eight subdistricts, namely, Gallup, Cerrillos, La Ventana, Rio Arriba, White Oaks, Carthage, Hagan, and San Juan. It was testified by the Secretary of the Board that the producing District had been so subdivided for many years and that the coals in each of those sub-districts are known generally by the name of the sub-district in which such coals are produced.

The Gallup and Cerillos sub-districts are the largest producing sub-districts. Approximately 93% of the total production of District No. 18 is produced in those sub-districts, 83% of the production of the District being from the Gallup sub-district.

The District Board designated the market areas into which the producers of District No. 18 shipped their coals on page 10 of the schedule, Exhibit No. 165. The market areas are designated by States, namely, New Mexico, Arizona, California, Texas and Colorado. Those market areas were more specifically identified by the District Board by numbers which were the same as those formerly given to such areas by the Commission, to wit, 125, 126, 127, 128, 129, 130, 131, 132, 133 and 152. A specific description of each numbered area appears in the record as Exhibit No. 186.

The District Board classified the coals of the code members within the District. The coals produced at the mines in subdistrict 1, namely, the Gallup sub-district, were determined to be comparable in quality, marketability, consumer acceptance and physical characteristics and such coals were therefore classified alike in all size groups. The coals produced in all of the other subdistricts were similarly classified. The "A" classification represents the highest price coal in each size group. The "B" and "C" classifications represent prices of coal which are values less than the "A" coals in descend-

ing orders of value. The same order of price values applies also to "D" and "E" classifications. The coals which were grouped together in a single size group by the District Board were designated by size group numbers 1 to 15 inclusive and are more specifically described on page 5 of the schedule, Exhibit No. 165. Size group number 16 was used as a designation for all sizes between 8" top and ½" bottom which the code members of the District sold for railroad locomotive fuel use. The coals in each of the size groups 1 to 15 inclusive were likewise arranged in their descending orders of value. The coals classified as "A" in size group number 1 were taken as the base or starting point for the proper pricing of other coals produced in the District in point of value.

Due to the varying conditions in the market areas of sub-districts 1 (Gallup) and 2 (Cerrillos) variations in differentials between certain sizes prepared by sub-districts 1 and 2, namely, size groups 1 and 4, do not remain constant into all markets, that is, in District No. 18, price variations between coals shipped from the Gallup and Cerrillos districts will change according to consumer acceptance in various markets. These price variations as to market areas appear in the record as Exhibit No. 166. The price differentials appearing on page 9 of Exhibit No. 165 existing between the size groups in the sub-districts, with the exception of those existing between the Gallup and Cerrillos sub-districts, remain constant and uniform into all market areas. As shown in Exhibit No. 166, the differential for size group 1 between sub-district No. 1 and sub-district No. 2 in market areas 125, 126 and 129, is 25 cents; in market areas 127, 128 and 131, the differential is 65 cents; in market area 130, the differential is 25 cents; in market area 152, the differential is 50 cents; and for size group 4, the differential between sub-district 1 and sub-district 2 is 60 cents in market areas 125 and 126; in market areas 127, 128 and 131, the differential is 10 cents; and in market areas 129 and 130, the differential is 20 cents.

Exhibit No. 166 shows a differential of 25 cents between the coals of sub-district 1 (Gallup) and sub-district 2 (Cerrillos) in size group 1 when such coals move into market areas 125, 126 and 129, the sub-district 2 coal having such differential over sub-district 1 coal; whereas, when these same coals move into market areas 127, 128 and 131, the sub-district 1 coal has a differential of 65 cents over sub-district 2 coal. Neither transportation charges nor costs due to the difference in transportation methods were taken into consideration in proposing any of such differentials. The reason for the variance in the differentials between the coals in size groups 1 and 4 of sub-district 1 and sub-district 2 is that the coals of sub-district 1 and sub-district 2 are not identical type coals. Such coals have different uses and are not competitive in certain areas due to outside factors, such as competition with other fuels. Thus, the differential relationship between such coals into the different markets is not constant. The proposed differentials have existed over a long period of years due to the specialized conditions encountered in the various market areas into which such coals have been shipped. Consumer demand and customer acceptance indicates, and has indicated, that such differentials are fair and equitable as between producers and give due regard to the interests of the consuming public. It was the judgment of the District Board for District No. 18 that the price differentials shown on page 9 of Exhibit No. 165 and supplemented by Exhibit No. 166 are just and equitable as between the producers in District No. 18 for the reason that, if differentials other than those shown in Exhibit No. 165 as supplemented by Exhibit No. 166 were different, same would not only be unjust and inequitable as between producers within the District but would disturb the normal flow of coal. It was also the judgment of the District Board for District No. 18 that the differentials shown on Exhibit No. 165, as supplemented by Exhibit No. 166, have due regard to the interests of the consuming public. This for the reason that consumers' demand and acceptance have set such differentials between various coals in each of the market areas in District No. 18.

The coals produced in sub-district No. 2 (Cerrillos) in District No. 18 are semi-coking bituminous coals, excellent for furnace use. The coals in sub-district No. 1 (Gallup) in District No. 18 are free burning sub-bituminous coals excellent for domestic purposes. The coals produced in the Gallup sub-district are similar, the characteristics being sub-bituminous, non-coking, free burning, and are used for domestic and commercial business. The coals produced in the Cerrillos sub-district are of a bituminous, semi-coking character, are friable and are used for commercial and industrial business. The general distinction between the coals produced in the Gallup and Cerrillos sub-districts is that the coal produced in the Gallup sub-district is a sub-bituminous friable, free burning, high moisture, long flame coal while that produced in the Cerrillos sub-district is a semi-coking coal, of low moisture content and less friable. There is a difference in the structure of said coals and in their appearance. The coals produced in sub-district No. 3 (La Ventana) in District No. 18 are sub-bituminous in nature, free burning, friable, and extremely high in moisture content. The coals produced in sub-district No. 4 (Rio Arriba) are bituminous in nature. Such coals are soft in nature and are excellent for coking, steam and domestic purposes. The coals produced in sub-district No. 5 (White Oaks) are bituminous in nature, free burning and excellent for steam raising purposes. Such coals are also used for domestic purposes. The coals produced in sub-district No. 6 (Carthage) are bituminous in nature and are excellent coals for coking and smithing purposes. The coals produced in sub-district No. 7 (Hagan) are free burning and similar to the coals produced in the Gallup sub-district. Such coals are hard in nature and of a very high grade and comparable with the coals produced in the Cerrillos sub-district. Such coals are for the most part used domestically. The coals produced in sub-district No. 8 (San Juan) are hard in structure, blocky, chunky and dull in appearance. They are high ash coals even to the extent of being flinty at times. Such coals are used for the most part domestically and are not comparable to any of the coals produced in the other sub-districts.

The differentials for the coals produced in District No. 18, as reflected in the schedule of proposed minimum prices submitted to the Commission by the District Board for District No. 18, are necessary. Such differentials could not be uniform for the reason that, if same were uniform, existing fair competitive relationships would be disturbed.

As shown in Exhibits Nos. 165 and 166, the prices as proposed would yield a return of $3.00 per net ton as an average for the production of District No. 18. Exhibits Nos. 165 and 166 were based upon tonnages for the year 1937 furnished the District Board for District No. 18 by the code members in District No. 18. Such tonnages were broken down into sizes and then applied to the prices proposed for each size. In making this computation, over 96% of the tonnage produced in District No. 18 for the year 1937 was used. Exhibit No. 169 shows a detailed breakdown of the 1937 distribution into size groups and shows the respective weighted average realization per ton for the district at the prices proposed. Exhibit No. 169 shows the 1937 production of code members in District No. 18 broken down into size groups showing the respective realization and the weighted average realization per ton for the district at prices proposed by the District Board for District No. 18 and submitted to the Commission. The weighted average cost of Minimum Price Area No. 6, the Minimum Price Area in which District No. 18 is located, as determined by the Commission is $2.758. There is, therefore, a difference of approximately 25 cents between the yield upon the tonnage under the prices as proposed by the District Board for District No. 18 and the weighted average cost of production for Minimum Price Area 6, as determined by the Commission. If an identical amount were deducted from each figure on the price schedule as submitted to the Commission by the District Board for District No. 18, such deduction would not disturb the price relationships as proposed by the District Board.

The District Board for District No. 18 is composed of producers experienced in the production and sale of coals in District No. 18 for many years. Said District Board is composed of nine members, six of whom participated in the preparation and adoption of the final minimum price schedule submitted to the Commission. In addition to the District Board members who participated in the preparation of said schedule, there were other producers who, together with the members of the District Board, represented more than 96% of the total tonnage produced in District No. 18. The District Board for District No. 18 approved the schedule of proposed minimum prices before submitting same to the Commission and, in the judgment of said Board, the prices proposed to the Commission under its Order No. 245 are just and equitable between the producers within the district, have due regard to the interests of the consuming public and do not, and will not, permit dumping. It was also the judgment of said Board that the prices as proposed to the Commission under its Order No. 245 reflect, as nearly as possible, the relative market values of the various kinds, qualities and sizes of coal produced in District No. 18; reflect price variations as to values and as to uses; reflect price variations as to consuming market areas of the various kinds, sizes and qualities of coals produced within the district; and conform to the requirements of Order No. 245 of the Commission.

The District Board for District No. 17 protested the schedule of minimum prices submitted to the Commission by the District Board for District No. 18. The protest involved relationships between sizes of coal inter-district. No relationships between sizes of coal intra-district were involved. The protest, therefore, is improperly before the Commission at this time as same involves issues to be considered in the coordination of prices under Section 4–II (b) of the Act. The Commission so rules and such ruling, for the present, sufficiently disposes of said protest.

The testimony of the witness for the District Board relative to the price proposed in size group No. 16 for coals sold to railroads for locomotive fuel use was to the effect that said price reflected the relative value of the various kinds, qualities and sizes of coals included in that size group when such coals were sold for such use. There was no testimony or evidence to the contrary. Hence the Commission finds that the price so proposed reflects a proper differential for coals sold included in that size group as compared with the coals included in the other size groups in terms of prices proposed in the schedule, Exhibit No. 165.

And now, upon the record in this cause, upon the evidence, both documentary and otherwise, and upon the above and foregoing facts found to exist, the Commission finds:

That the schedule of proposed minimum prices as submitted to the Commission by the District Board for District No. 18 should be and same is hereby further modified as hereinafter set forth in order that same may better conform to Order No. 245 of the Commission and to the provisions of Section 4–II (a) of the Act:

Item 1 on page 3 of the schedule which reads "Prices listed herein are per net ton of 2,000 pounds f. o. b. transportation facilities at the mines," shall be revised to read, "The prices listed herein are in cents per net ton of 2,000 pounds f. o. b. transportation facilities at the mines."

Item 3 on page 3 of the schedule which reads, "All size designations herein are for round hole screens. When other types of screens are used the round hole equivalent shall control the size" shall be revised to read, "All size designations herein are for round hole screens, or their equivalent, except when otherwise designated. When other types of screens are used, the District Board shall determine the actual size designation of the coal so prepared, with the approval of the Coal Commission."

Item 6 on page 3 of the schedule which reads, "When any size of coal is sold, in which the maximum top or bottom size exceeds the sizes scheduled, then such coal must be included in the higher size group and priced accordingly" shall be revised to read, "When any size of coal is sold, in which the maximum top or bottom size exceeds the sizes scheduled, then such coal must be included in the next higher priced size group and priced accordingly."

Page 4 of the schedule shall be deleted entirely as same is duplicated on page 5 of the schedule.

The notes at the bottom of page 5 of the schedule shall be stricken since the subject matter is covered by the above and foregoing revisions relative to the price instructions on page 3 of the schedule.

Page 5 of the schedule shall be revised as to Size Groups 1, 2, 5, 6, 7, 8, 14 and 16. Size Group 1 is corrected so as to read, "All lump 4 inch round or larger, or 2½-inch bar or larger." Size Group 2 is corrected so as to read "2 inch lump." Size Group 6 is corrected by omitting the word "round" following "2½ inches" under maximum bottom size. Size Group 7 is corrected by adding the word "square" following "1½ inches" under maximum bottom size. Size Group 8 is corrected by deleting the word "round" following "1¼ inch" under maximum bottom size. Size Group 14 is corrected to read "screened mine run" under the heading "maximum top size." Size Group 16 is corrected to read "All engine coal for railroad and locomotive use—all sizes between 8 inch maximum top size and ½ inch minimum bottom size." The order of Size Groups 5 and 6 is reversed, making Size Group 5 read Size Group 6 and vice versa and pages 7, 8, and 9 of the schedule are corrected to reflect such changes.

Page 6 of the schedule is amended by the addition of "County" identification, as follows:

Subdistrict and Identification

1. Gallup—McKinley County, New Mexico, and Navajo County, Arizona.
2. Cerrilles—Santa Fe County, New Mexico.
3. LaVentana—West of Rio Grande River in Sandoval County, New Mexico.
4. Rio Arriba—Rio Arriba County, New Mexico.
5. White Oaks—Lincoln County, New Mexico.
6. Carthage — Socorro County, New Mexico.
7. Hagan—East of Rio Grande River in Sandoval County, New Mexico.
8. San Juan—San Juan County, New Mexico.

Page 7 of the schedule is corrected by striking therefrom the names of Mutual Coal, Light & Power Company (Mutual Mine) and Steve Poklar (White Ash Mine) as such code members are no longer producers.

The schedule of minimum prices as proposed by the District Board for District No. 18 is amended so as to incorporate therein Exhibit No. 166 showing the varying differentials by market areas; Exhibit No. 186 defining the geographical boundaries of the market areas.

That the District Board for District No. 18, as directed in Order No. 245 of the Commission, proposed minimum prices free on board transportation facilities at the mines for kinds, qualities and sizes of coal produced within the district, classification of coal and price variations as to mines, consuming market areas, values as to uses and seasonal demand.

That the District Board for District No. 18, as directed in Order No. 245 of the Commission, submitted to the Commission a schedule of such proposed minimum prices, together with the data upon which same were computed, including, but without limitation, the factors considered in determining the price relationship.

That the minimum prices proposed by the District Board for District No. 18 reflect, as nearly as possible, the relative market value of the various kinds, qualities, and sizes of coal produced within the district; are just and equitable as between producers within the district; have due regard to the interests of the consuming public; and do not permit dumping.

That the minimum prices for any kind, quality or size of coal for shipment into any consuming market area, as proposed by the District Board for District No. 18, are just and equitable as between producers within the district.

That the minimum prices, as proposed by the District Board for District No. 18, are not proposed in such manner as to yield a return per net ton for the district equal as nearly as may be to the weighted average of the total costs, per net ton, of the tonnage of Minimum Price Area No. 6, the Minimum Price Area in which District No. 18 is placed under the Act. The return, or net realization, per net ton for District No. 18, under the minimum prices as proposed for said district, is $3.00; whereas, the weighted average of the total costs, per net ton, of the tonnage of Minimum Price Area No. 6, as heretofore determined by the Commission, is $2.758. The difference resulting between cost and realization, therefore, is approximately twenty five cents (25¢). With such difference of 25 cents existing between cost and realization under the prices as proposed, the realization under such proposed prices is not equal "as nearly as may be" to the area cost of Minimum Price Area No. 6. By reducing each of the minimum prices, as proposed for said district, 25 cents, such prices will then yield a return per net ton for the district equal as nearly as may be to the weighted average of the total costs, per net ton, of the tonnage of the price area in which District No. 18 is located. Such reduction is proper and the schedule of proposed minimum prices submitted to the Commission by the District Board for District No. 18 should be modified, and the same is hereby modified, to such extent.

That the schedule of proposed minimum prices submitted to the Commission by the District Board for District No. 18 as amended, corrected, modified, and revised, as hereinabove set forth, conforms to Order No. 245 of the Commission and to the requirements of Section 4–II (a) of the Act and as so amended, corrected, modified, and revised, said schedule should be and the same is hereby approved by the Commission, to serve as the basis for the coordination provided for in Section 4–II (b) of the Act. A copy of said schedule as amended, corrected, revised, and modified appears in the Appendix for District No. 18.

APPENDIX FOR DISTRICT NO. 18

Schedule of Minimum Prices, as Modified and Approved, to Serve as a Basis for Coordination

NOTE.—The prices in this schedule are not the final prices that will be established on coal for shipment by Code Members within this district into consuming markets of this district. In the ultimate establishment of the effective minimum prices, pursuant to subsection (b) of Part II, Section 4 of the Act, the minimum prices in this schedule are subject to such increase or decrease respectively, as may be necessary to carry out the provisions of subsections (a) and (b) of Part II, Section 4 of the Act.

F. W. MCCULLOUGH,
Secretary.

Issued: December 9, 1938.

PRICE INSTRUCTIONS AND EXCEPTIONS

Item No. 1.—Prices listed herein are in cents per net ton of 2,000 lbs. f. o. b. transportation facilities at the mine.

Item No. 2.—All prices are subject to the Marketing Rules and Regulations issued by the National Bituminous Coal Commission.

Item No. 3.—All size designations herein are for round hole screens, or their equivalent, except when otherwise designated. When other types of screens are used, the District Board shall determine the actual size designation of the coal so prepared, with the approval of the Coal Commission.

Item No. 4.—When coal is subjected to any chemical, oil or waxing process, an additional charge of not less than 25 cents per net ton shall be made.

Item No. 5.—In the sale of coal to destined points outside the boundary of the United States, the prices stipulated herein are for payment in United States funds.

Item No. 6.—When any size of coal is sold, in which the maximum top or bottom size exceeds the sizes scheduled, then such coal must be included in the next higher priced size group and priced accordingly.

Size Groups

Size group No.	Maximum top size	Maximum bottom size
1		All lump 4" round or larger or 2½" bar or larger.
2		2" Lump.
3	8"	3".
4	6"	1¼".
5	2½" Bar	2½".
6	3"	1¼".
7	2½"	1¼" Square.
8	1¼" Square	¾".
9	1¼"	⅜".
10	¼"	31/64".
11	1¼"	0".
12	1"	0".
13	⅜"	0".
14	Screened Mine Run	⅜".
15	Straight Mine Run	
16	All engine coal for railroad and locomotive use—all sizes between 8" maximum top size and ¼" minimum bottom size.	

IDENTIFICATION OF SUB-DISTRICT NUMBERS

Sub-District Number and Identification

1. *Gallup.*—McKinley County, New Mexico, and Navajo County, Arizona.
2. *Cerrillos.*—Santa Fe County, New Mexico.
3. *La Ventana.*—West of Rio Grande River in Sandoval County, New Mexico.
4. *Rio Arriba.*—Rio Arriba County, New Mexico.
5. *White Oaks.*—Lincoln County, New Mexico.
6. *Carthage.*—Socorro County, New Mexico.
7. *Hagan.*—East of Rio Grande River in Sandoval County, New Mexico.
8. *San Juan.*—San Juan County, New Mexico.

PRICE VARIATIONS AS TO MARKET AREAS

Size Group 1

Market Areas 125, 126, 129.—Sub-district 1, 4.25 (A); Sub-district 2, 4.50 (C).

Market Areas 127, 128, 131.—Sub-district 1, 4.25 (A); Sub-district 2, 3.60 (C).

Market Area 130.—Sub-district 1, 4.75 (A); Subdistrict 2, 4.50 (C).

Market Area 152.—Sub-district 1, 4.00 (A); Sub-district 2, 3.50 (C).

Size Group 4

Market Areas 125, 126.—Sub-district 1, 3.35 (A); Sub-district 2, 3.95 (A).

Market Areas 127, 128, 131.—Sub-district 1, 3.35 (A); Sub-district 2, 3.45 (A).

Market Areas 129, 130.—Sub-district 1, 3.75 (A); Sub-district 2, 3.95 (A).

See "Price instructions and exceptions."

GEOGRAPHICAL DESCRIPTION OF CONSUMING MARKET AREAS TO WHICH PRICES APPLY

The prices apply to the following geographical market areas: To the States of New Mexico; Arizona; California; Texas and Colorado.

Market Area No. 125—General description.—Clovis, New Mexico, to Amarillo, Brownwood, Spofford and west to El Paso, including the Pecos Valley Lines; Clovis, New Mexico, to Pecos, Texas, and Southern Pacific Lines, Torrance to El Paso.

Specific description.—Following the eastern boundary of Market Area No. 129 from a point just southeast of Belen Junction at the convergence of Market Areas Nos. 126 and 129 to El Paso, crossing the S. P. between El Paso and Fort Bliss, and crossing the S. P. just west of Alfalfa; thence running in a southeasterly direction south of the T. & N. O. (S. P.) crossing the P. & S. F. just south of Paisano continuing south along the S. P. to and including Spofford; thence running in a northerly direction just west of Eden, excluding Eden; thence northeast crossing the P. S. & F. east of Brownwood; thence continuing northwest, north of the P. S. & F. to Sweetwater Junction; thence in a northwesterly direction just east of Crosbyton continuing north on an airline to a point immediately east of Silverton; thence northwesterly on an airline to a point east of Amarillo; thence curving around Amarillo; including Amarillo, and crossing the C. R. I. & G. west of Amarillo; thence running in a southwesterly direction north of the P. & S. F. and Santa Fe to the boundary of No. 126 at a point near Melrose; thence continuing on the southern boundary of No. 126 to the point of beginning.

Market Area No. 126—General description.—Points east of Belen Junction, New Mexico, to and including Melrose and including Estancia Valley.

Specific description.—Beginning at a point southeast of Belen Junction at the point of beginning of No. 129, not including Belen Junction; thence running in an easterly direction south of the A. T. & S. F. crossing the S. P. at Torrence, thus continuing in an easterly direction to and including Melrose, rounding Melrose, and returning in a westerly direction north of the A. T. & S. F., crossing the S. P. just north of Vaughn; thence running to a point northeast of Willard; thence running north (east of the A. T. & S. F.) to a point south of Kennedy, excluding Kennedy, returning in a southwesterly direction crossing the A. T. & S. F. line from Willard to Kennedy just south of Kennedy to the starting point of this area near Belen Junction.

Market Area No. 127—General description.—Belen Junction, New Mexico, to Santa Fe, New Mexico, inclusive.

Specific description.—Beginning at a point immediately south of Belen Junction (at the conjunction of Nos. 125, 126 and 129), running north on the west boundary of No. 126 to a point just southeast of Kennedy; thence crossing the A. T. & S. F. just east of Lamy; thence northwest running east of Santa Fe to a point northeast of Santa Fe; thence southwest, including Santa Fe but excluding Rio Grande, crossing the Denver and Rio Grande midway between Santa Fe and Rio Grande, continuing in a southwesterly direction in a curved line so as to include points on the Santa Fe, crossing both lines of the Santa Fe just east of Dalies where it joins Market Area No. 129; thence following No. 129 to the point of the beginning.

Market Area No. 128—General description.—Points east of Lamy.

Specific description.—Beginning at the tip of Market Area No. 127 just northeast of Santa Fe; thence running north (east of the D. & R. G. W.) to the New Mexico-Colorado state line; thence east on the Colorado-New Mexico state line to the New Mexico-Oklahoma state line; thence south on the Oklahoma-New Mexico state line to the Texas-New Mexico-Oklahoma state line; thence east on the Oklahoma-Texas state line to a point on the state line just east of Stratford; thence south on the east side of the P. & S. F. to its convergence with Market Area No. 125 at Amarillo, not including Amarillo; thence following the boundary of No. 125 in a southwesterly direction to the boundary line of No. 126 near Melrose; thence following the northern boundary of No. 126 to the boundary line of No. 127 just southeast of Kennedy; thence following the boundary line of No. 127 to the point of beginning.

Market Area No. 129—General description.—Points on the Santa Fe Railroad south of but not including Belen Junction, New Mexico, to El Paso, Texas, inclusive, and west thereof, except as described in Market Area No. 130.

Specific description.—Beginning at a point just southeast of Belen Junction east of the A. T. & S. F. and running south crossing the S. P. between Fort Bliss and El Paso, curving around and including El Paso; thence west on the New Mexico state line to the Arizona state line; thence west to the Colorado River; thence north following the Colorado River to a point just south of Mathie and west of Griggs, but keeping south of the A. T. & S. F.; thence on an airline to a point southwest of Hassayampa but northwest of the S. P.; thence in a general easterly direction excluding points on the S. P. (W. Chandler, Florence, Winkelman, Christmas Sta.) but running north of the S. P. line from Yuma to Tucson via Maricopa; thence curving around Christmas Sta. crossing the Gila River just east of Christmas Sta.; thence in a northwesterly direction between Superior and Miama; thence curving gently to the northeast crossing Salt River; thence on an airline running just south of McNary to a point immediately south of Dalies and immediately west of Belen Junction; thence to the point of beginning.

Market Area No. 130—General description.—Sante Fe lines, Dalies, New Mexico, to Needles, California, inclusive, including the Phoenix Branch and the Parker Cut-off.

Specific description.—That remaining innermost portion of Arizona and western New Mexico bounded on the north, east and south by Areas Nos. 126, 127, 129, and 131, and on the west by a line joining Areas Nos. 129 and 130, running north and south (west of the Colorado River) and including Needles, California.

Market Area No. 131—General description.—Points north but not including Sante Fe, New Mexico.

Specific description.—Beginning at a point just northeast of Santa Fe on the boundary line of No. 128; thence following the boundary line of No. 128 north of the Colorado-New Mexico state line; thence west on the New Mexico-Colorado state line to a point just east of where the D. & R. G. W. crosses the Colorado-New Mexico state line just south of Antonito, Colorado, but including Antonito, where it joins Market Area No. 132; thence following the boundary line of Market Area No. 132 to the Colorado-Utah state line; thence following the Utah-Arizona state line to the Nevada-Arizona state line; thence south to the Colorado River; thence following the Colorado River to a point north of Needles, California, at the vertex of the Colorado River, and Nevada state line; thence in a northeasterly direction excluding all points on the Sante Fe to a point just north of Grand Canyon, Arizona; thence running in a gradual southeasterly direction excluding all points on the A. T. & S. F. to the boundary of No. 127 west of Isleta; thence following the western boundary of No. 127 to the point of beginning.

Market Area No. 132—General description.—Tennessee Pass and west.

Specific description.—To points in western Colorado and eastern Utah beginning at a point on the Colorado-Wyoming state line at the boundary line of Market Area No. 133 and running west on the Wyoming-Colorado state line to the Colorado-Utah state line; thence south on the Colorado-Utah state line to and including Watson, Rainbow Junction, Rainbow, and Dragon, Utah, to the Utah-Colorado state line; thence south to the junction of Colorado, New Mexico, Arizona, and Utah; thence east to a point west of the Farmington branch line, dropping south including said branch line and returning to the state line; thence following the D. & R. G. W. (south of the D. & R. G. W.) to the vertex of Market Area No. 133 south of Antonito, Colorado; thence continuing on the boundary of No. 133 to the point of beginning.

Market Area No. 133—General description.—Colorado east of Tennessee Pass.

Specific description.—To points in Colorado not included in Market Areas 135 and 134 east of a line beginning at the Wyoming-Colorado state line just west of Slater, Colorado; thence on an air-line south to a point just southwest of Craig; thence east to a point just west of Steamboat Springs; thence south crossing the D. & R. G. W. just southwest of Orestod; thence southeasterly running north of Watts; thence south crossing the D. & R. G. W. just south of Deen; thence running south just west of the D. & R. G. W., crossing the D. & R. G. W. between Poncha Junction and Salida, again crossing the D. & R. G. W. west of Mears Junction; thence south to and including Center, Colorado; thence west to and including Creede; thence southeast to the state line where it converges with the boundary of Market Area No. 131 on the Colorado-New Mexico state line immediately south of Antonito, including Antonito; thence east to the Colorado-Kansas state line; thence north on the Colorado-Kansas state line to the Colorado-Nebraska state line; thence west on the Colorado-Nebraska state line to the starting point of this area.

Market Area No. 152—General description.—States of Nevada, California, and to points in extreme southeastern Idaho.

Specific description.—Beginning at a point on the northern boundary of No. 151 near Wahsatch, Utah, continuing westward on this boundary to the Nevada-Utah state line; thence south following the state lines of California and Nevada, following the western boundary of Nos. 130, 131, where possible, thus excluding Needles, returning northward via the Pacific Coast to the northwest corner of California; thence east on the state lines of California, Oregon, Nevada and Idaho to a point just west of the "Ogden-Malad Line" of the O. S. L.; thence due north, excluding Malad, to a point just southwest of McCammon, Idaho; thence due east to the Idaho-Wyoming state line, excluding McCammon and Grace; thence south on the Wyoming state line to the point of beginning.

MINIMUM PRICE AREA NO. 7—DISTRICT NO. 19

PROPOSED MINIMUM PRICES

District Board No. 19 prepared a schedule of proposed minimum prices which was in its best judgment a compliance with the Commission's Order No. 245. It then transmitted a copy of these proposed prices to each Code Member within the District. No protests being received to these proposed prices, the District Board thereafter filed a copy of same, together with the data upon which it was computed, with the Commission, which schedule of proposed minimum prices was received in evidence as Exhibit No. 175.

Testimony in support of the minimum prices proposed by District Board No. 19 was adduced by an expert witness, to wit, the Chairman of the District Board, who was thoroughly familiar with the marketing and distribution of coals in District No. 19. His knowledge of the coals in said District was based upon years of experience in the District. It appears that the District Board consists of nine members, all of whom are thoroughly familiar with producing and marketing coal in said District. They have each had many years of experience and are thoroughly representative of all the Code Members within the District, and are men who, by reason of their intimate knowledge of their own coals and their familiarity with their competitor's coals, are fully capable of judging the price differentials and relationships between the kinds, qualities, and sizes of coal produced within the District.

The expert witness and the other members of the District Board prepared the schedule of proposed prices. The evidence shows that, while there were no protests received to this schedule of proposed prices, there was an objection to the method used by the Board in increasing the basic proposed prices by 8.22 per cent in order to arrive at a realization equal as nearly as may be to the weighted average cost of minimum price area No. 7, as determined by the Commission to be $2.235. These resulting prices are shown on page eleven of Exhibit No. 175. It appears from the evidence that the District Board recognized that, by using the percentage method, it had the effect of distorting the differential relationships as between the different sizes and qualities of coals. They found that, instead of adding 8.22 per cent, if they would add 15 cents per ton to each such basic proposed price, this would produce a realization of $2.235. A new page was prepared entitled "Prices for Shipment into all Market Areas, showing the average price per ton for each size group based upon the minimum prices which will return the producing cost of Area No. 7 of $2.235 per ton." The only difference between this sheet and the original page eleven in Exhibit No. 175 was that in this schedule sheet the realization of $2.235 per ton was reached by adding 15 cents per ton to each classification of coal in a size group instead of 8.22 per cent, as has been done on the original page eleven of Exhibit No. 175. This new revised schedule sheet was sent to each Code Member with instructions to insert it in lieu of the original page eleven of Exhibit No. 175. The new revised schedule sheet was received in evidence as Exhibit No. 177. It was never adopted by the Board. However, the evidence shows that differentials reflected in Exhibit No. 177 were fair and equitable in the opinion of the Board and in the opinion of the Code Members, and that no protests were received concerning it. It appears that this Exhibit No. 177 reflected all the factors that were considered by the Board in determining the relationships of the various coals produced within the District. As stated before, Exhibit No. 177 is entitled "Prices for Shipment into all Market Areas, showing the average price per ton for each size group based upon minimum prices which will return the producing cost of Price Area No. 7 of $2.235 per ton," the evidence shows that the word "average" used on this Exhibit should be deleted and the Commission so finds.

It appears that while Exhibit No. 177 was never adopted in just the form set forth in the Exhibit, the same method was used by the Board in adopting another amendment to the proposed price schedule. This amendment was adopted at a meeting of the Board held September 12, 1938. It was received in evidence as Exhibit No. 178, a document consisting of five pages entitled "District No. 19 Prices in Cents Per Ton of 2,000 Pounds for Shipment into Market Areas as Shown." The Board recommended that Exhibit No. 175 be amended by striking out page eleven and inserting in lieu thereof Exhibit No. 178. The price realization in Exhibit No. 178 was reached in the same manner and the same factors were considered as were considered in Exhibit No. 177, the difference between the two Exhibits being that Exhibit No. 177 shows the same f. o. b. mine prices or price differentials for shipment into all consuming markets of District No. 19, while Exhibit No. 178 shows the prices broken down into the various consuming market areas of the District. In view of the fact that the uncontradicted evidence in the record, as will be recited later, shows that the price relationships are different in the different consuming market areas of District No. 19, the Commission finds that Exhibit No. 178 should be substituted for page eleven of Exhibit No. 175.

The schedule of minimum prices proposed by District No. 19 divides the District into nine sub-Districts, as follows:

Sub-District No. 1, Kemmerer.
Sub-District No. 2, Rock Springs.
Sub-District No. 3, Hanna-Rawlins.
Sub-District No. 4, Evanston.
Sub-District No. 5, Gebo-Kirby.
Sub-District No. 6, Hudson.
Sub-District No. 7, Sheridan.
Sub-District No. 8, Gillette.
Sub-District No. 9, Great Plains.

These nine sub-Districts are the natural geographical divisions that have been recognized and accepted by common practice for many years in the past. The coals within each of the sub-Districts are generally comparable with a few minor exceptions, which exceptions have been recognized in the price schedule with a suitable separate classification.

The Commission finds from the record that page 6 of Exhibit No. 175 should be amended so that the sub-Districts will be described so as to read as follows:

"Sub-District No. 1, Kemmerer, Lincoln and Teton Counties.

"Sub-District No. 2, Rock Springs, Sweetwater County.

"Sub-District No. 3, Hanna-Rawlins, Albany and Carbon Counties.

"Sub-District No. 4, Evanston, Uinta County.

"Sub-District No. 5, Gebo-Kirby, Hot Springs, Big Horn, Park and Washakie Counties.

"Sub-District No. 6, Hudson, Fremont County.

"Sub-District No. 7, Sheridan, Sheridan County.

"Sub-District No. 8, Gillette, Campbell County.

"Sub-District No. 9, Great Plains, Converse, Johnson and Natrona Counties."

The coal production in the Great Plains sub-District is small. The coal from these counties, and others making up the sub-District of Great Plains, being of the same general characteristics and located in the same general area, are grouped together for price-fixing purposes. The coals produced in sub-Districts of Hudson, Sheridan, Gillette and Great Plains, will vary somewhat in quality, are of subbituminous character. These coals are high in moisture, degrading rapidly when exposed to the air, and are very fragile. Gebo-Kirby District coals are of a higher quality than other coals produced in northern Wyoming, and are more nearly comparable to the coals produced in the Kemmerer and Rock Springs sub-Districts. The coals produced in the Kemmerer and Rock Springs sub-Districts are of a higher quality than those produced in northern Wyoming, with the exception of the Gebo-Kirby sub-District coals. They are all lower in moisture than those described in the northern part of the State, and, while fragile, stand exposure to the air better than the northern Wyoming coal. Kemmerer District coals are approximately the same as those of Rock Springs District. They are lower in moisture than Rock Springs, and they stand handling and exposure somewhat better than Rock Springs coal. They are higher in ash. Hanna-Rawlins coals are high in moisture and high in ash, and are used mostly as furnace coal. The coals in the Evanston District are subbituminous in character and are used almost exclusively in the local market.

The Mine Inspector's report for the State of Wyoming shows the production of that State for the year 1937 to be 5,950,230 tons. Of this tonnage approximately 4,000,000 tons were sold to railroads, the balance being sold to industrial plants, and to retail dealers for resale to domestic consumers.

Exhibits received in evidence, other than those heretofore stated, were:

Exhibit No. 176, which was a letter dated August 18, 1938, sent to all Code Members, together with the schedule of proposed prices;

Exhibit No. 179, Description of Market Areas;

Exhibit No. 180, Table showing "District No. 19, Realization or Yield per ton, Based on Proposed Prices to Return Price Area No. 7 Producing, Administrative and Selling Cost of $2.235 per ton."

Exhibit No. 181, Table showing "District No. 19, Realization of Yield per ton, Based on Proposed Prices to Return Price Area No. 7 Producing, Administrative and Selling Cost of $2.235 per ton."

Exhibit No. 182, Table showing "District No. 19, Additional Tonnage Reported by Truck Mines on the Coal Commission Form D-2 Not Included in the preceding Statement."

Exhibit No. 188, Marketing Rules and Regulations, Incidental to the Sale and Distribution of Coals of Code Members within District No. 19 (Proposed).

The District Board in its schedule of proposed prices sets up fourteen size groups. These size groups are the outgrowth of dealer and consumer demand over a period of years, and represent the best judgment of the Board. The evidence supports the various size grouping, proposed by the Board, as a proper basis for co-ordination of size groups with other Districts.

The evidence shows that District Board No. 19 used as a basis to establish the proposed f. o. b. mine prices set forth in the schedule, standard lump as the base coal. It decided upon a price for standard lump for each sub-District, and related all other sizes differentially to that price. The prices proposed for the various kinds, qualities and sizes of coal above or below the prices of standard lump, were arrived at by taking into consideration the kinds and qualities of each coal in each of the sizes prepared in each sub-District, applying thereto the standard differentials which had been recognized and accepted for a period of many years. In making these determinations,

chemical analyses were not considered by the Board. This was due to the fact that coals in District No. 19 are not generally sold on an analysis basis.

The determination was based upon the knowledge and experience of the members of the Board and their familiarity with the marketability of the coals in the District.

The Board computed the total realization that would be derived from the sale of the tonnage of the various kinds, qualities and sizes of coal that were known to be sold in the year 1937, at the prices it fixed, reflecting these differentials. The realization shown on this basis was 16 cents below the average weighted cost of minimum price area No. 7. The Board then adjusted its prices are shown in Exhibits Nos. 177 and 178 by adding 15 cents per ton to each price proposed. By doing this the relationships were not disturbed.

Coals of comparable price, based on long experience were given the same letter classification in a particular size group. Letters are indices to the prices in each particular size group, the letter "A" representing the highest priced coal in each size group.

The evidence shows that the price differentials between the various sizes and kinds and qualities of coals, as reflected in the proposed price schedule, as amended, represent the combined judgment of the members of District Board No. 19, and that said differentials have for the most part prevailed for many years.

An examination of the proposed price schedule, as amended, shows that the prices provided for the larger sizes are considerably higher than the prices for the smaller sizes. The evidence shows that consumers require larger sizes, and, in order to satisfy the demand for prepared sizes, most operators are compelled to build a tipple at the mine, and extra power and labor are required to operate same. This entails a great expense to the operator, as well as a large investment.

Exhibit No. 178, as heretofore stated, shows "prices in cents per ton of 2,000 pounds for shipment into Market Areas as Shown." This Exhibit shows fluctuating differentials of the coals when sold in different consuming market areas. Such differences appear mostly in the Kemmerer and Rock Springs sub-Districts. The varying differentials between the prices of the various coals in the Kemmerer sub-District No. 1, Rock Springs, sub-District No. 2, Hanna-Rawlings, sub-District No. 3, and Evanston, sub-District No. 4, are based on dealer and consumer acceptance, and are the result of long experience in markets served by these coals. Such differentials as reflected in the Exhibit are approximately the same as have prevailed for a number of years. The coals from Kemmerer, sub-District No. 1, and Rock Springs, No. 2, serve different requirements and are not highly competitive. Rock Springs coal is sold to dealers for resale to be used mostly in stoves and ranges and in homes in which the construction is adaptable to this coal rather than that of a heavier grade. Due to the friability and high moisture content of Rock Springs coal, there is but little demand for the prepared sizes during the summer months.

Kemmerer coals are lower in moisture than Rock Springs coal, and are not so friable. Besides being used in limited quantities in domestic grates, it is used in large quantities for furnaces. There are many homes in states west of the mines where it cannot be burned as successfully as the Rock Springs coal, while, on the other hand, due to its handling qualities, it has greater dealer and consumer acceptance than Rock Springs coal. Rock Springs coal, because of its character, does not have the dealer and consumer acceptance in the territory east of the mines as does Kemmerer coal. Rock Springs coal, being a non-coking, clean coal, has greater dealer and consumer acceptance for stoker use than has Kemmerer.

The evidence shows that the true quality and size relationships are now reflected in Exhibit No. 178 between the various coals produced in District No. 19 for shipment into the consuming market areas specified.

The evidence shows that in making up the varying differentials for shipment into different consuming market areas, the District Board did not take into consideration the factor of differences in transportation charges. Exhibit No. 178, which shows price variations into the consuming market areas, should be incorporated into and made a part of the proposed price schedule, Exhibit No. 175, taking the place of page eleven, which should be deleted.

The consuming market areas referred to in Exhibit No. 178 are the same market areas that were previously established by the Commission, and are set out in Exhibit No. 179. These consuming market areas are the same consuming market areas in which the coals produced in District No. 19 have been sold for many years and in which they are now being sold.

The Commission finds that the description of these consuming market areas set forth in Exhibit No. 179 should be incorporated in and made a part of the proposed price schedule, Exhibit No. 175.

The Commission finds that, by the adoption of Exhibit No. 178, page 2 of Exhibit No. 175 serves no useful purpose, and should be deleted.

The Commission finds from the evidence that Item 3, page 4, of Exhibit No. 175, which reads as follows:

"All size designations herein are for round hole screens. When other types of screens are used the round hole equivalent shall control the size,"

should be deleted, and the following language should be inserted in lieu thereof:

"All size designations herein are for round hole screens, or their equivalent. When other types of screens are used, the District Board shall determine the actual size designation of the coal so prepared, with the approval of the Coal Commission."

The Commission finds from the evidence that Item 4, page 4, of Exhibit No. 175, which reads as follows:

"All prices herein are per net ton 2,000 lbs. f. o. b. transportation facilities at the mines unless otherwise designated,"

should be deleted, and the following language should be inserted in lieu thereof:

"The prices listed herein are *in cents* per net ton of 2,000 pounds, f. o. b. transportation facilities at the mine."

The Commission finds from the evidence that Item 6, page 4, of Exhibit No. 175, which reads as follows:

"If any size is made for which a price is not designated herein, such shall be sold at the price applicable to the next larger size,"

should be deleted, and the following language should be inserted in lieu thereof:

"When any size of coal is sold, in which the maximum top or bottom size exceeds the sizes scheduled, then such coal must be included in the next higher priced size group and priced accordingly."

It appears from the evidence that District Board No. 19 recommends that the words "all pea size not included in Group No. 7," shown under Size Group 8, page 5, of Exhibit 175, should be deleted, and the Commission finds that these words should be deleted as is recommended.

The evidence shows that the District Board recommends that Exhibit No. 175, page 5, under Size Group 9, be amended by adding: "and railroad locomotive fuel," so that it will read: "Mine Run 8" Resultant and Railroad Locomotive Fuel." The Commission finds that this amendment should be made.

And now upon the record herein, upon the evidence, both documentary and otherwise, and upon the above and foregoing facts found to exist, the Commission finds:

That the District Board for District No. 19 as directed in Order No. 245 of the Commission, proposed minimum prices free on board transportation facilities at the mines for kinds, qualities and sizes of coal produced within the district, classification of coal and price variations as to mines and consuming market areas.

That the District Board for District No. 19, as directed in Order No. 245 of the Commission, submitted to the Commission a schedule of such proposed minimum prices, together with the data upon which same were computed, including, but without limitation, the factors considered in determining the price relationships.

That the minimum prices proposed by the District Board for District No. 19, as herein modified, reflect, as nearly as possible, the relative market value of the various kinds, qualities, and sizes of coal produced within the district; are just and equitable as between producers within the district; have due regard to the interests of the consuming public, and do not permit dumping.

That the minimum prices proposed by the District Board for District 19 for any kind, quality or size of coal for shipment into any consuming market area, as herein modified, are just and equitable between producers within the district.

That the minimum prices proposed by the District Board for District 19, as herein modified, yield a return per net ton for the district equal as nearly as may be to the weighted average of the total costs, per net ton, of the tonnage of Minimum Price Area 7, the price area in which District 19 is placed under the Act.

That the schedule of proposed minimum prices, as amended, and submitted to the Commission by the District Board for District 19, as amended, corrected, modified and revised, as hereinabove set forth, conforms to Order No. 245 of the Commission and to the requirements of Section 4–II (a) of the Act, and as so amended, corrected, modified and revised said schedule should be and the same is hereby approved by the Commission to serve as a basis for the coordination provided for in Section 4–II (b) of the Act. A copy of said schedule as amended, corrected, revised and modified appears in the Appendix for District 19.

APPENDIX FOR DISTRICT NO. 19

Schedule of Minimum Prices, as Modified and Approved, to Serve as a Basis for Coordination

NOTE.—The prices in this schedule are not the final prices that will be established on coal for shipment by Code Members within this district into consuming markets of this district. In the ultimate establishment of the effective minimum prices, pursuant to subsection (b) of Part II, Section 4 of the Act, the minimum prices in this schedule are subject to such increase or decrease respectively, as may be necessary to carry out the provisions of subsections (a) and (b) of Part II, Section 4 of the Act.

F. W. McCULLOUGH,
Secretary.

Issued: December 9, 1938.

PRICE INSTRUCTIONS AND EXCEPTIONS

Item No. 1.—The schedule of prices shown herein applies f. o. b. transportation facilities at mines on all coal produced by Code Members in the District shown on the title page hereof.

Item No. 2.—All prices are subject to the Marketing Rules and Regulations issued by the National Bituminous Coal Commission.

Item No. 3.—When any size of coal is sold, in which the maximum top or bottom size exceeds the sizes scheduled, then such coal must be included in the next higher *priced* size group and priced accordingly.

Item No. 4.—All prices herein are in cents per net ton of 2,000 lbs. f. o. b. transportation facilities at the mines.

Item No. 5.—When coal is subjected to any chemical, oil or waxing process, an additional charge of not less than 25 cents per net ton shall be made.

Item No. 6.—All size designations herein are for round hole screens, or their equivalent. When other types of screens are used, the District Board shall determine the actual size designation of the coal so prepared, with the approval of the Coal Commission.

Item No. 7.—In the sale of coal to destined points outside the boundary of the United States, prices stipulated herein are for payment in United States funds.

Size Groups

Size group No.	Sizes included
1	6″ Lump. 7″ Lump. 8″ Lump. 9″ Lump.
2	3″ Lump. 4″ Lump. 5″ Lump.
3	¼″ to 2¾″ Lump. 2¼″ x 9″ Lump.
4	2¼″ x 6″, 7″ or 8″ 3″ x 6″, 7″ or 8″ — Stove or grate.

Size Groups—Continued

Size group No.	Sizes included
5	1½″ x 6″, 7″ or 8″ 1⅝″ x 6″, 7″ or 8″ 2½″ or 3″ x 5″ — Fancy nut or grate nut.
6	1″ x 3″ 1½″ x 2½″, 3″, 4″ or 5″ 1⅝″ x 3″, 4″ or 5″ 2″ x 4″ — Egg nut or standard nut.
7	1½″ x ¾″ or 1″ 1⅝″ x 1″ or 1¼″ — No. 1, pea.
8	1⅝″ x ¼″, No. 2, Pea.
9	Mine run.
10	8″ resultant and railroad locomotive fuel.
11	6″ resultant.
12	7″ resultant.
13	2″ x 0″ 2½″ x 0″ — Slack.
14	1¼″ x 0″ 1½″ x 0″ 1⅝″ x 0″ — Slack.
	1″ x 0″, Screenings.
	Maximum top size: ½″; Maximum bottom size: 0″ — Dust.

IDENTIFICATION OF SUB-DISTRICT NUMBERS

Sub-District Number and Identification

1. *Kemmerer.*—Lincoln and Teton Counties.
2. *Rock Springs.*—Sweetwater County.
3. *Hanna-Rawlins.*—Albany and Carbon Counties.
4. *Evanston.*—Uinta County.
5. *Gebo-Kirby.*—Hot Springs, Big Horn, Park and Washakie Counties.
6. *Hudson.*—Fremont County.
7. *Sheridan.*—Sheridan County.
8. *Gillette.*—Campbell County.
9. *Great Plains.*—Converse, Johnson and Natrona Counties.

DESCRIPTION OF MARKET AREAS (IN DETAIL)

Market Area No. 33.—Beginning at the Minnesota-Iowa-Wisconsin state line running west on the Minnesota-Iowa state line to a point west of the C. M. St. P. & P. R. R.; thence northwest including all points on the C. M. St. P. & P. to but excluding Mankato; thence east excluding points on the main line of the C. & N. W. to the Mississippi River; thence down the Mississippi River to the starting point of this area.

Market Area No. 34.—Beginning at a point just south of and including Mankato; thence east including all points on the main line of the C. & N. W. to the Mississippi River including Minnesota City; thence northwest following the Mississippi River to a point just south of Hastings, Minn.; thence north including points on the C. M. St. P. & P. R. R. to and including Stillwater and Duluth Junction; thence west and southwest including points on the M. St. P. & S. S. M. to and including Minneapolis; thence southwest to a point just west of Chaska, including Chaska; thence south including points on the Minneapolis and St. Louis R. R. to and including Montgomery; thence southwest including points on the C. M. St. P. & P. R. R. to and including Kasota; thence south including points on the C. M. St. P. & P. from Kasota to Mankato, inclusive, the starting point of this area.

Market Area No. 100.—All points in northern Minnesota north and west of the following described line. Beginning at a point on the state line south of Elkton, South Dakota, and including all points on the C. & N. W. to and excluding Mankato; thence northeast excluding points on the C. M. St. P. & P. R. R. from Mankato to Montgomery, excluding Montgomery, Kasota, and Mankato; thence north excluding points on the Minneapolis & St. Louis R. R. to and excluding Carver and Chaska; thence northeast on an airline to a point north of Minneapolis; thence northeast excluding points on the M. St. P. & S. S. M. R. R. to the Wisconsin-Minnesota state line.

Market Area No. 101.—Beginning at the South Dakota-Minnesota-Iowa state line running east on the Minnesota-Iowa state line to a point just west of the C. R. I. & P. R. R. just southeast of Glenville, Minnesota; thence northwest, excluding points on the C. R. I. & P. R. R. to and excluding Albert Lea; thence northwest excluding points on the C. M. St. P. & P. R. R. to and excluding Wells; thence west and north excluding points on the C. M. St. P. & P. R. R. to and excluding Mankato; thence west excluding points on the main line of the C. & N. W. R. R. to the point of beginning.

Market Area No. 104.—Beginning at a point southeast of Sioux City, excluding Sioux City, running southeast on an airline to a point immediately north of Minden; thence east excluding points on the C. R. I. & P. R. R. to and excluding Atlantic; thence crossing the C. R. I. & P. R. R. east of Atlantic including points thereon, to and including Des Moines; thence crossing the railroad continuing east excluding points on the C. R. I. & P. R. R. to but excluding Grinnell; thence north excluding points on the Minneapolis and St. Louis R. R. to, but including Marshalltown; thence west excluding Minerva Junction; thence north excluding points on the Minneapolis & St. Louis R. R. to and excluding Eldora; thence northwest excluding points on the C. & N. W. R. R., excluding Iowa Falls, Alden, Dows, and Clarion; thence northeast excluding points on the Chicago, Great Western R. R. to and

excluding Mason City; thence north excluding points on the C. R. I. & P. R. R. to the Minnesota-Iowa state line; thence west following the state line to the South Dakota-Iowa-Minnesota state line; thence south following the Iowa-South Dakota state line to the point of beginning, excluding Sioux City.

Market Area No. 105.—Beginning at a point just northwest from Eldora; thence north excluding points on the Minneapolis and St. Louis R. R. to and excluding Hampton; thence north including points on the C. R. I. & P. R. R. to but excluding Mason City; thence southwest including points on the C. G. W. R. R. to and including Clarion; thence southeast on an airline to the point of beginning, including Clarion, Dows, and Alden.

Market Area No. 106.—Points in eastern Iowa. Beginning at the northeast corner of Iowa on the Mississippi River; thence south down the river, excluding points on the C. M. St. P. & P. R. R. from Clinton to Davenport, both excluded; thence west following the river to a point south of Muscatine; thence west including points on the C. R. I. & P. R. R. to and including Thornburg; thence west on an airline to a point southwest of New Sharon, including New Sharon; thence north including points on the Minneapolis & St. Louis R. R. to but excluding Marshalltown; thence west including Minerva Junction; thence north including points on the Minneapolis & St. Louis R. R. to and including Hampton; thence north excluding points on the C. R. I. & P. R. R. to Mason City but including Mason City; thence north to the Minnesota-Iowa state line, including points on the C. R. I. & P. R. R.; thence east following the Minnesota-Iowa state line to the point of beginning.

Market Area No. 107.—Beginning at a point just south of Muscatine, Iowa; thence west excluding points on the C. R. I. & P. R. R. to and excluding Thornburg; thence west to a point just south of New Sharon, Iowa; thence south including points on the Minneapolis & St. Louis R. R. to and including Oskaloosa; thence southeast excluding points on the C. R. I. & P. R. R. to and excluding Ottumwa; thence east including points on the C. B. & Q. R. R. to and including Burlington, Iowa; thence north up the Mississippi River to the point of beginning.

Market Area No. 108.—Beginning at a point on the Missouri-Iowa state line due south of Bloomfield, Iowa, running north excluding points on the Wabash to and excluding Ottumwa; thence east excluding points on the C. B. & Q. R. R. to the Mississippi River; thence south down the River to the Iowa-Illinois-Missouri state line; thence northwest and west on the Missouri-Iowa state line to the point of beginning.

Market Area No. 109.—Beginning at a point south of Sioux City, Iowa running on an airline southeast to a point just north of Minden; thence east including points on the C. R. I. & P. R. R. to and including Atlantic; thence crossing the railroad east of Atlantic and excluding points on the C. R. I. & P. R. R. to and excluding Des Moines; thence continuing east including points on the C. R. I. & P. R. R. to a point just west of Grinnell; thence south excluding points on the Minneapolis and St. Louis R. R. to and excluding Oskaloosa; thence southeast including points on the C. R. I. & P. R. R. to and including Ottumwa; thence northwest including points on the C. B. & Q. R. R. to but excluding Frederic; thence west excluding points on the C. B. & Q. R. R. to the Missouri River; thence north up the Missouri River to the starting point of this area, excluding Council Bluffs, Omaha, and Sioux City.

Market Area No. 110.—Beginning at the Missouri-Iowa state line south of Bloomfield, Iowa; thence north including points on the Wabash R. R. to but excluding Ottumwa; thence northwest excluding points to but including Frederic; thence west including points on the C. B. & Q. R. R. to the Missouri River; thence south following the Missouri River to the Nebraska-Iowa-Missouri state line; thence east on the Iowa-Missouri state line to the point of beginning.

Market Area No. 111.—Omaha and Council Bluffs. Switching limits of Omaha, Nebraska, and Council Bluffs, Iowa.

Market Area No. 112.—Sioux City. Greater Sioux City.

Market Area No. 113.—Northwest Missouri. The counties of Andew, Atchison, Buchanan except St. Joseph, Clinton, DeKalb, Gentry, Holt, Nodaway, Platte, and Worth in the state of Missouri.

Market Area No. 114.—St. Joseph, Switching limits of St. Joseph, Missouri.

Market Area No. 115.—North Missouri. Bounded on the north by the Iowa-Missouri state line; bounded on the east by the territory west of but not including towns on the main line of the C. B. & Q. Railroad, St. Louis north to the Iowa state line; on the west by the western county lines of Harrison, Daviess, Caldwell, and Clay counties; and on the south by the south boundary lines of Clay, Ray, Saline, Howard, Boone, Callaway, Montgomery, Warren, and St. Charles Counties, and including the cities of Boonville, Missouri, and Jefferson City, Missouri, located on the south bank of the Missouri River.

Market Area No. 116.—Greater Kansas City. In Wyandotte and Johnson Counties, Kansas; Missouri Pacific River Route to a point approximately even with the Western University Annex on the West; thence to Welborn on the Leavenworth Electric Line; thence to Muncie on the Union Pacific and K. S. K. V. & W.; thence to Turner on the A. T. & S. F.; thence through Shawnee to Merriam on the Frisco; thence to Overland Park on the Missouri & Kansas Railroad. In Jackson County, Missouri; Martin City on the Missouri Pacific to the south; Grand View on the K. C. S. and Frisco; Raytown on the C. R. I. & P.; Independence on the Alton and Missouri Pacific.

Market Area No. 117.—Bounded on the north by the Missouri River from Sibley, Missouri, east to the western county boundary line of Saline County, thence south to the southern boundary of Saline County, thence east and northeast following the boundary line of Saline County to the Missouri River, thence the Missouri River east to St. Louis, except the towns of Boonville and Jefferson City on the south bank of the Missouri River, bounded on the west by an imaginary line drawn from Sibley, Missouri, on the Missouri River south and west to Lees Summit in Jackson County, thence southward and east of the line of the Missouri Pacific Railroad, Lees Summit to Lamar, and excluding all points on the Missouri Pacific Railroad, thence eastward and north of the main line of the St. Louis and San Francisco Railroad, Lamar to Cape Girardeau and excluding all points on the main line of the St. Louis and San Francisco Railroad; bounded on the east by the Mississippi River, St. Louis to Cape Girardeau.

Market Area No. 132—General description.—Tennessee Pass and west.

Specific description.—To points in western Colorado and eastern Utah beginning at a point on the Colorado-Wyoming state line at the boundary line of Market Area No. 133 and running west on the Wyoming-Colorado state line to the Colorado-Utah state line; thence south on the Colorado-Utah state line to and including Watson, Rainbow Junction, Rainbow, and Dragon, Utah, to the Utah-Colorado state line; thence south to the junction of Colorado, New Mexico, Arizona and Utah; thence east to a point west of the Farmington branch line, dropping south including said branch line and returning to the state line; thence following the D. & R. G. W. (south of the D. & R. G. W.) to the vertex of Market Area No. 133 south of Antonito, Colorado; thence continuing on the boundary of No. 133 to the point of beginning.

Market Area No. 133—General description.—Colorado east of Tennessee Pass.

Specific description.—To points in Colorado not included in Market Areas 135 and 134 east of a line beginning at the Wyoming-Colorado state line just west of Slater, Colorado; thence on an air-line south to a point just southwest of Craig; thence east to a point just west of Steamboat Springs; thence south crossing the D. & R. G. W. just southwest of Orestod; thence southeasterly running north of Watts; thence south crossing the D. & R. G. W. just south of Deen; thence running south just west of the D. & R. G. W., crossing the D. & R. G. W. between Poncha Junction and Salida, again crossing the D. & R. G. W. west of Mears junction; thence south to and including Center, Colorado; thence west to and including Creede; thence southeast to the state line where it converges with the boundary of Market Area No. 131 on the Colorado-New Mexico state line immediately south of Antonito, including Antonito; thence east to the Colorado-Kansas state line; thence north on the Colorado-Kansas state line to the Colorado-Nebraska state line; thence west on the Colorado-Nebraska state line to the starting point of this area.

Market Area No. 134.—Pueblo.

Market Area No. 135.—Denver and environs including Clear Creek Valley to and including Silver Plume.

Market Area No. 136.—Points south of the main line of the Union Pacific Railroad, west of Market Area No. 139 in Kansas.

Market Area No. 137.—Kansas points on and north of the main line of the Union Pacific excluding Salina and points in Market Area No. 138.

Market Area No. 138.—Salina, Kansas.

Market Area No. 139.—Points on and east of a line from Marysville, Irving, Garrison, Manhattan, Salina (excluding Salina), McPherson, Newton, Wichita, and South Haven, Kansas to the Kansas State Line.

Market Area No. 140.—Nebraska points on and east of a line from the Missouri River at Running Water through, but not including Bloomfield, Randolph, to and including Norfolk, thence southeast to and including Scribner, Fremont, and thence through Linwood to Wahoo, Valparaiso, Lincoln, Crete, DeWitt, Beatrice, and Wymore to the Kansas state line, excluding Lincoln and Omaha.

Market Area No. 141.—Lincoln, Nebraska; switching limits of Lincoln.

Market Area No. 142.—Western Nebraska C. & N. W. Wyoming line to, but not including Eli, Nebraska; C. B. & Q. Wyoming line to, but not including Grand Island, Nebraska.

Market Area No. 143.—Remainder of Nebraska.

Market Area No. 144.—That part of South Dakota west of and including Rapid City and known as the Black Hills District and south of Market Area No. 147.

Market Area No. 145.—That portion of South Dakota east of Rapid City to and west of the Missouri River not included in Market Areas Nos. 144 and 147.

Market Area No. 146.—That portion of South Dakota east of the Missouri River not included in Market Area No. 147.

Market Area No. 147.—All of North Dakota and that part of South Dakota north of a line drawn east and west one mile south of Watertown.

Market Area No. 148.—All points in the state of Montana except that portion described in Market Area No. 149.

Market Area No. 149.—All points on the main line of the C. B. & Q. Railroad from the Wyoming-Montana state line to and including Billings via Toluca, Montana.

Market Area No. 150.—State of Wyoming.

Market Area No. 151.—To points in Utah south of a line running east and west through Ogden except that portion in Utah described in Market Area No. 132.

Market Area No. 152—General description.—States of Nevada, California, and to points in extreme southeastern Idaho.

Specific description.—Beginning at a point on the northern boundary of No. 151 near Wahsatch, Utah, continuing westward on this boundary to the Nevada-Utah state line; thence south following the state lines of California and Nevada, following the western boundary of Nos. 130, 131, where possible, thus excluding Needles, returning northward via the Pacific Coast to the northwest corner of California; thence east on the state lines of California, Oregon, Nevada, and Idaho to a point just west of the "Ogden-Malad Line" of the O. S. L.; thence due north, excluding Malad, to a point just southwest of McCammon, Idaho; thence due east to the Idaho-Wyoming state line, excluding McCammon and Grace; thence south on the Wyoming state line to the point of beginning.

Market Area No. 153.—Oregon, Washington, and Idaho, except that area described in Market Areas Nos. 152, 154, 155 and 156.

Market Area No. 154.—City of Spokane, Washington, and adjacent points where freight rates on coal from Producing Areas on the Canadian Pacific and Spokane & International R. R. are as low or lower than the rates on the Northern Pacific R. R. from Roslyn and Bayne rate groups.

Market Area No. 155.—Points in Washington on the Great Northern R. R. east of the Cascade Tunnel to Wenatche and north thereof.

Market Area No. 156.—City of Seattle, Washinton.

Market Area No. 157.—Territory of Alaska.

MINIMUM PRICE AREA NO. 7—DISTRICT NO. 20

PROPOSED MINIMUM PRICES

In compliance with Order No. 245 of the Commission, the District Board for District 20 proposed minimum prices free on board transportation facilities at the mines for kinds, qualities and sizes of coal produced within the district and submitted a schedule of same, together with the data upon which same were computed, to the Commission. Said schedule of minimum prices as proposed by the District Board for District 20 and submitted to the Commission appears in the record as Exhibit No. 136.

Upon receipt of Order No. 245 of the Commission, the District Board for District 20 called a meeting to be held on August 9, 1938, the purpose of said meeting being to proceed to propose minimum prices as directed in said order. The District Board for District 20 held said meeting and the schedule of minimum prices proposed by the District Board for District 20 and submitted to the Commission was, at said meeting, passed upon and adopted by the Board.

After said schedule had been adopted by the District Board for District 20, a copy of same was transmitted to each of the code members within the district. Subsequent to the transmittal of copies of said schedule to the code members within the district, certain protests against same were received. Upon receipt of such protests, the District Board for District 20 issued a call for a special meeting to be held on August 22, 1938, for the purpose of considering the protests filed against said schedule. The above meeting failed for want of a quorum but a meeting was held later on August 31, 1938. At this meeting all protests to the schedule were considered and acted upon.

A protest was filed by the Independent Coal and Coke Company against the proposed price of $1.45 per ton on $\frac{3}{4}$'' x 0'' dust. The protest of the Independent Coal and Coke Company was granted by the Board by resolution (Exhibit 137), and a price of $1.70 per ton on $\frac{3}{4}$'' x 0'' dust was approved. A protest was also filed against said schedule by the Lion Coal Corporation. The protest of the Lion Coal Corporation was, after due consideration, denied. The change due to granting the protest of the Independent Coal and Coke Company does not appear in the price schedule submitted to the Commission by the District Board.

Another amendment to the schedule was found proper and by resolution was adopted by the Board. This amendment relates to additional charges to be made upon oiling, waxing, or otherwise chemically processing coal. The resolution appears in the record as Exhibit 138 and authorizes a charge of 25 cents per ton on all sizes of coal below and including $1\frac{5}{8}$'' x 0'' slack when so treated and a charge of 10 cents per ton upon $1\frac{5}{8}$'' x 1'' (Pea coal) and an additional charge of 10 cents per ton on all other sizes.

Testimony in support of minimum prices proposed by District Board No. 20 was adduced by an expert witness, namely, the Secretary of the District Board who is thoroughly familiar with the marketing and distribution of coals in District No. 20. His knowledge of the coals in said District is based upon years of experience in the District. It appears that the members of the District Board of District No. 20 are all experienced coal men, familiar with producing and marketing coal in said District.

The coals principally produced in Utah (District 20) are from the Book Cliffs Coal Field and the Wasatch Plateau Field. These fields extend over a distance of 150 miles. The Cliffs are from 1,000 to 2,000 feet higher than the lowlands lying south of the Cliffs and at points

reach a height of 6,000 feet above same. The outcrops occurring so far above the canyon floors are reached by long surface incline tramways necessary to bring the coal down to tipple sites accessible to the railroads. The coal beds in the Book Cliffs and Wasatch Plateau Fields range from five feet in thickness to thirty feet in thickness. More than 90% of the coal mined in Utah comes from Carbon and Emery Counties. The coal from this area is a high grade bituminous coal carrying from over 12,000 to 13,000 B. t. u.'s on an air dried basis, and is an excellent domestic and steam fuel. Analyses show that such coal contains a high percentage of volatile matter which makes it ignite readily. Such coal is hard and stores well. The coal beds in Grand, San Pete and Sevier Counties are an extension of those in Carbon and Emery Counties and have the same general characteristics. The above counties constitute Sub-district No. 1 in the schedule (Exhibit 136), namely, Castlegate - Hiawatha. Such coals have a proximate analysis of approximately 5% moisture, 42% volatile matter, 47% fixed carbon or coke, 6% ash, and 1% sulphur, and 12,800 B. t. u.'s. All the above coals in all sizes in the schedule take the price classification "A."

The coals in Sub-district No. 3, namely, "Coalville-Vernal," range from sub-bituminous to bituminous of a fair quality. All of the coals from this sub-district in all sizes as shown in the schedule (Exhibit 136) are classified for price purposes as "B". The sub-bituminous coal in the "Coalville" group has a heating value of from 10,000 to 11,000 B. t. u.'s but because of its high moisture content such coal crumbles and slacks on exposure to the air and is, therefore, not suitable for storage. When used soon after mining, such coal makes a good fuel for domestic and steam purposes. Such coals are generally known to analyze approximately 15% moisture, 38% volatile matter, 43% fixed carbon or coke, 4% ash, 1.5% sulphur, and B. t. u.'s, 10,800.

The coals mined in the Vernal group are very friable, soft and have poor stocking qualities. Such coals have a high ash content and are far removed from railroads and serve only local communities within the area known as the Uintah Basin.

Such coals generally analyze approximately 10% moisture, 33% volatile matter, 45% fixed carbon, 12% ash, 1% sulphur, and B. t. u.'s, 10,700.

The coals of Sub-district No. 2 identified as "Cedar City" in the schedule (Exhibit 136), mined in Garfield, Kane, Iron and Washington Counties, are classified in the price schedule in all size groups for price classification under the letter "B". Such coals are remote from railroads and are mined only to the extent necessary to meet the needs of the several communities. Coals produced in this field are used exclusively for domestic purposes.

The tonnage produced in District No. 20 in the year 1937 was 3,676,088 tons, of which 1,761,372 tons were consumed by the railroads, sugar companies, cement plants, milk plants, smelters, ice companies, metal mines, the United States Government and public utilities, including captive tonnage produced; 1,543,392 tons were consumed by domestic consumers; and 371,324 tons were consumed by small industries.

The District Board for District No. 20 proposed 15 size groups for the coals in said district, ranging from Size Group No. 1 (lump coal) with a maximum top size of eleven inches and maximum bottom size of eight inches to Size Group No. 15 (mine run), top size three inches, maximum bottom size zero.

The history of the various sizes produced and sold in the State of Utah was considered by the Board in determining the size groups in the schedule. The sizes appearing in the schedule, with but two exceptions, have been constantly and regularly sold in District 20 for many years in the past and constitute all of the sizes marketed in the past. The two exceptions are that with the advent and development of mechanical methods of burning coal and especially the development of the domestic stoker, it was found that a smaller size of slack was required. There was then produced Size Group 11, 1" x 0" slack, a size suitable for such type of equipment. Certain manufacturers and certain consumers demanded a coal with a proportion of the extreme fines removed. This occasioned Size Group 9, 1" x 3/16".

The evidence supports the various size groupings proposed by the Board as a proper basis for coordination of size groups with other districts.

In establishing the f. o. b. mine prices appearing in its schedule of proposed minimum prices, the District Board for District 20 first determined what should be the price of 8" x 11" lump, the top size, so that this price, when correlated with other sizes, would result in a proposed price schedule yielding approximately the weighted average cost of Minimum Price Area 7, as determined by the Commission, to wit: $2.235.

Many different samples of proposed minimum price schedules were considered by the District Board for District No. 20 before reaching a final determination. Said Board by its action established price relationships between the various sizes and qualities of coal which it considered to be fair and equitable as between code members in District 20 and to consumers.

The classification of coals in District No. 20 as "A" and "B" were determined by the Board in this manner. Class "A" coals are all of a very comparable character and meet equally in competitive markets. All the coals classified "B" are, from the standpoint of their acceptability in the market in the past, comparable. The differentials between coals classified "A" and coals classified "B," and between the sizes in each class, represent the considered judgment of the District Board as to the relative prices obtainable in the markets served by Utah producers making allowances for past customer practice, the expectation of demand of the trade, and the quality and preparation of the production. The judgment of the members of the Board was based upon their knowledge and experience and their familiarity with the marketability of the coals in the District.

In the judgment of the District Board, if the code members classified "B" had not been so classified and had been placed in "A" classification, the existing fair competitive relationships would have been destroyed and same would not be equitable as between the producers within the district. In addition, a substantial displacement of tonnage would result which would destroy the business of certain producers. Physical characteristics of coal reflecting its burning, weathering and storing ability are predominant factors in determining consumer demand and consumer acceptance. Such factors governed the District Board in its classification of coals marketed in District No. 20.

Analyses practically played no part in determining the classification of coals in District No. 20 by the Board. This for the reason that coals are not generally sold on an analysis basis in District No. 20.

The price differentials in the judgment of the District Board for District No. 20 correctly reflect the relative market value of the various kinds, qualities and sizes of coal to which they are applicable. Price differentials between coals, f. o. b. transportation facilities at the mines, are constant and remain the same in all markets during normal periods except for differences in transportation methods and charges.

The consuming market areas determined by the District Board as set forth in the price schedule reflect the markets in which coals from District No. 20 have been sold for many years in the past.

Values as to uses were not proposed by the District Board for District No. 20 for the reason that the coals in District No. 20 are considered an all-purpose fuel.

In the judgment of the members of District Board No. 20 and in the opinion of the expert witness who testified on behalf of the Board, the minimum prices proposed by District Board No. 20 conformed to the standards set out in Commission Order No. 245 and in Section 4–II (a) of the Act.

The United States Fuel Company filed a protest against the Resolution adopted by the District Board for District No. 20 (Exhibit 137). The protestant urged the Commission to establish a price of $1.45 per ton on 3/8" x 0" dust as originally proposed by the District Board for District No. 20, and in support of its protest, the protestant introduced evi-

dence to the effect that 3/8" x 0" is a dust coal and not a slack coal; that the market for dust coal is limited; that 3/8" x 0" dust is suitable only for use in powdered coal equipment and is not as desirable a fuel for such purpose as the slack sizes, either 1 5/8" x 0" or 1" x 0", both of which are used not only for powdered fuel but are used in chain grate stokers and hand-fired plants; that there is a greater difference in use value between 3/16" x 0" dust and 1" slack than there is between 1" slack and 1 5/8" slack, yet 1" slack and 1 5/8" slack are both generally used in steam plants with practically the same type of equipment; that a differential of 15 cents between 1" slack and 1 5/8" slack has existed for many years; that the realization from 1" x 3/8" stoker coal and 3/8" x 0" dust at the respective proposed prices of $2.10 and $1.45 per ton is $1.86 as against the proposed price of $1.70 per ton on 1" x 0" slack; and that 3/8" x 0" dust has never been actually sold at the price of $1.70 and a price on 3/8" x 0" dust lower than on 1" x 0" slack will not divert tonnage to the lower priced coal.

In view of the price variation shown between 1" slack and 1 5/8" slack, both of which are more or less interchangeable, a price variation should exist between 3/8" x 0" dust coal and 1" slack which sizes are not wholly interchangeable, and the schedule of proposed minimum prices as submitted to the Commission by the District Board for District No. 20 should be approved to the extent of establishing a differential of 25 cents on 3/8" x 0" under 1" x 0", retaining the price of $1.45 per ton on 3/16" x 0" dust originally proposed by the District Board.

As shown in Exhibits 139 to 142 inclusive, the minimum prices proposed by the District Board for District No. 20 would yield $2.2590 per ton as an average for the production of District 20.

Exhibit 139 contains a computation setting up the percentages according to sizes produced by Utah producers in the year 1937 and shows the application of the price schedule proposed and the return resulting from the application of the price schedule to the percentages of sizes. The realization resulting from this computation is shown to be $2.2349.

Exhibit 140 is supplemental to Exhibit 139. Exhibit 140 contains computations upon captive tonnage of 283,872 tons and truck mine tonnage of 82,485 tons. Said Exhibit also includes an additional charge of 25 cents per ton on 276,088 tons of coal treated chemically, etc. These elements were not taken into consideration in Exhibit 139. After such elements had been taken into consideration, the realization resulting was $2,2590. The realization computed in Exhibit 140 did not give effect to the District Board's increase in the price on 3/8" x 0" dust from $1.45 to $1.70. Accordingly, the modification of the schedule of minimum prices by reducing the price of 3/8" dust to $1.45, as originally proposed by the District Board, does not change the realization.

And now upon the record herein, upon the evidence, both documentary and otherwise, and upon the above and foregoing facts found to exist, the Commission finds:

That the schedule of minimum prices, as amended, and submitted to the Commission by the District Board for District No. 20 should be corrected and revised in order that same may better conform to Order No. 245 of the Commission and to the provisions of Section 4–II (a) of the Act, and said schedule is in the following respects modified:

Item 5 on page 3 of the schedule should be revised to read, "The prices listed herein are in cents per net ton of 2,000 pounds, f. o. b. transportation facilities at the mines."

Item 6 on page 4 of the schedule should be revised to read, "When any size of coal is sold, in which the maximum top or bottom size exceeds the sizes schedule, then such coal must be included in the next higher priced size group and priced accordingly."

Item 3 on page 3 of the schedule should be revised to read, "All size designations herein are for round hole screens or their equivalent, except that sizes smaller than 1 5/8" may be screened other types of screens. When other types of screens are used, the District Board shall determine the actual size designation of the coal so prepared with the approval of the Coal Commission."

Page 3 of the schedule should be amended by adding a new item thereto to be known as Item 7, the item so added to read, "When coal is subjected to any oil, wax, or chemical process, the following charges shall be made: Upon Size Groups Nos. 10, 11 and 12, a charge of 25 cents per ton shall be made; upon all other Size Groups, a charge of 10 cents per ton shall be made."

Page 4 of the schedule should be revised by deleting both notes at the bottom of the page since the subject matter in such notes is already covered by clauses on page 3 of the schedule.

Page 11 of the schedule should be amended by striking therefrom the price of $1.25 from Size Group 12, Classification "B". This, for the reason that no code member in District 20 produces "B" coal in such size group.

The schedule of proposed minimum prices as amended and submitted to the Commission by the District Board for District 20 should be revised by reducing the price on 3/16" x 0" dust from $1.70 to $1.45, establishing a differential of 25 cents on 3/16" x 0" under 1" x 0".

That the District Board for District No. 20, as directed in Order No. 245 of the Commission, proposed minimum prices free on board transportation facilities at the mines for kinds, qualities and sizes of coal produced within the district, classification of coal and price variations as to mines and consuming market areas.

That the District Board for District No. 20, as directed in Order No. 245 of the Commission, submitted to the Commission a schedule of such proposed minimum prices, together with the data upon which same were computed, including, but without limitation, the factors considered in determining the price relationships.

That the minimum prices proposed by the District Board for District No. 20, as herein modified, reflect, as nearly as possible, the relative market value of the various kinds, qualities, and sizes of coal produced within the district; are just and equitable as between producers within the district; have due regard to the interests of the consuming public; and do not permit dumping.

That the minimum prices proposed by the District Board for District 20 for any kind, quality, or size of coal for shipment into any consuming market area, as herein modified, are just and equitable between producers within the district.

That the minimum prices proposed by the District Board for District No. 20, as herein modified, yield a return per net ton for the district equal as nearly as may be to the weighted average of the total costs, per net ton, of the tonnage of Minimum Price Area No. 7, the Price Area in which District 20 is placed under the Act.

That the schedule of proposed minimum prices, as amended, and submitted to the Commission by the District Board for District No. 20, as amended, corrected, modified and revised as hereinabove set forth, conforms to Order No. 245 of the Commission and to the requirements of Section 4–II (a) of the Act, and as so amended, corrected, modified and revised, said schedule should be and the same is hereby approved by the Commission to serve as a basis for the coordination provided for in Section 4–II (b) of the Act. A copy of said schedule, as amended, corrected, revised and modified, appears in the Appendix for District No. 20.

APPENDIX FOR DISTRICT NO. 20

Schedule of Minimum Prices, As Modified and Approved, To Serve as a Basis for Coordination

NOTE.—The prices in this schedule are not the final prices that will be established on coal for shipment by Code Members within this district into consuming markets of this district. In the ultimate establishment of the effective minimum prices, pursuant to subsection (b) of Part II, Section 4 of the Act, the minimum prices in this schedule are subject to such increase or decrease respectively, as may be necessary to carry out the provisions of subsections (a) and (b) of Part II, Section 4 of the Act.

F. W. MCCULLOUGH,
Secretary.

Issued: December 9, 1938.

PRICE INSTRUCTIONS AND EXCEPTIONS

Item No. 1.—The schedule of prices shown herein applies f. o. b. transportation facilities at mines on all coal produced by code members in the District shown on the title page hereof.

Item No. 2.—All prices are subject to the Marketing Rules and Regulations issued by the National Bituminous Coal Commission.

Item No. 3.—All size designations herein are for round hole screens, or their equivalent, except that sizes smaller than 1⅝" may be screened over other types of screens. When other types of screens are used the District Board shall determine the actual size designation of the coal so prepared with the approval of the Coal Commission.

Item No. 4.—In the sale of coal to destined points outside the boundary of the United States, prices stipulated herein are for payment in U. S. funds.

Item No. 5.—The prices listed herein are in cents per net ton of 2,000 pounds, f. o. b. transportation facilities at the mine.

Item No. 6.—When any size of coal is sold, in which the maximum top or bottom size exceeds the sizes scheduled, then such coal must be included in the next higher priced size group and priced accordingly.

Item No. 7.—When Coal is subjected to any oil, wax or chemical process, the following charges shall be made: Upon Size Groups Nos. 10, 11 and 12 a charge of 25 cents per ton shall be made; upon all other Size Groups a charge of 10 cents per ton shall be made.

Size Groups

Size group No.	Lump, maximum screen size	Double screened sizes	
		Maximum top size	Maximum bottom size
1	Lump	11"	8"
2	All lump over 8"		
3	All lump over 3"		
4	All lump over 1¾"		
5	Stove	8"	3"
6	Egg	8"	1¾"
7	Nut	3"	1⅜"
8	Pea	1⅜"	1"
9	Slack	1"	¾"
10	Slack	1¾"	0"
11	Slack	1"	0"
12	Dust	¾"	0"
13	Straight mine run		
14	Mine run	8"	0"
15	Mine run	3"	0"

IDENTIFICATION OF SUB-DISTRICT NUMBERS

Sub-District Number and Identification

1. *Castlegate - Hiawatha.*—All bituminous mines in Carbon, Emery, Grand, Sevier and Sanpete Counties.

2. *Cedar City.*—All bituminous mines in Garfield, Kane, Iron and Washington Counties.

3. *Coalville - Vernal.*—All bituminous mines in Summit, Uintah, and Daggett Counties.

GEOGRAPHICAL DESCRIPTION OF CONSUMING MARKET AREAS TO WHICH PRICES APPLY

Area No. and Description

1. Utah.
2. Idaho.
3. Oregon.
4. Washington.
5. Montana.
6. Nevada.
7. California.
8. Kansas.
9. Nebraska.
10. Territory of Alaska.
11. Colorado: That portion lying north of a line extended west from Curecanti, Colorado, to the Colorado-Utah state line, and west of a line extended north from Curecanti through Slater, Colorado, to the Colorado-Wyoming state line.
12. Also that portion lying east of a line extended from a point on the Colorado-Wyoming state line south of Carpenter, Wyoming, south to Pueblo, Colorado, and north of a line extended southeast from Pueblo just south of, and parallel to the Atchison, Topeka & Santa Fe Railroad to the Colorado-Kansas state line.
13. South Dakota: That portion lying west of the Missouri River and south of a line drawn east and west just north of Newell, South Dakota.
14. Iowa: That portion lying west of a line beginning at the Iowa-Minnesota state line north of Ocheyedan, Iowa, and extended south through Ocheyedan and Hamburg, Iowa, to the Iowa-Missouri state line.

MINIMUM PRICE AREA NO. 9—DISTRICT NO. 22

PROPOSED MINIMUM PRICES

District Board No. 22 prepared a schedule of proposed minimum prices for the kinds, qualities and sizes of coal produced within the District, which was, in the best judgment of the District Board, a compliance with Commission's Order No. 245. It then transmitted a copy of these proposed prices to each code member within the District. Five protests were filed with the District Board by code members within the District. Thereafter, the District Board filed a copy of the schedule of proposed prices, together with the data upon which it was computed with the Commission, which schedule of proposed minimum prices was received in evidence as Exhibit No. 160.

The code members who filed protests to the schedule of proposed prices were: Arthur Mills, Fred Nies, Whittle Brothers, Otto Pust and A. C. Elder. The District Board, after receiving these protests, held two meetings; one on August 23, 1938, and the other on September 3, 1938, to consider and determine what action, if any, should be taken in regard to the protests. The protest of A. C. Elder was in effect withdrawn by him; that of Otto Pust was tabled pending the decision of the Commission in regard to his application for exemption from the Bituminous Coal Act on the ground that he is producing lignite coal and does not come within the Act. The action of the Board on the other protests which were filed and heard is embodied in a resolution adopted by the District Board at a meeting held on September 10, 1938, which resolution was received in evidence as Exhibit No. 161. The protest of Fred Nies was denied by the District Board, because, in the opinion of the Board, there was no difference in the quality of his coal as compared with other coals in the same grouping. The District Board in its resolution (Exhibit No. 161) recommended that the price schedule be modified as to Arthur Mills on certain size groups, because the Board had been misinformed as to the seam of coal worked by Mills. The Board found that the seam in which he was working carried a higher moisture content and that the coal was inferior to other coals within the Roundup sub-District. The protest of Whittle Brothers was granted by the District Board because the Board found on investigation that the seam of coal mined by Whittle Brothers was of a lower grade than the Roundup seam and had an ash content greatly in excess of the Roundup seam, making the marketability very much inferior.

The District Board recommended that the proposed schedule of minimum prices (Exhibit No. 160) be amended as set out in two resolutions, one adopted by District Board in a meeting held September 10, 1938, and the other at a meeting held by the District Board on September 13, 1938, which resolutions were received in evidence as Exhibits Nos. 162 and 163.

Testimony in support of the schedule of proposed minimum prices proposed by District Board No. 22 was adduced by an expert witness, to wit: The Vice-Chairman of the District Board, who was thoroughly familiar with the marketing and distribution of coal within District No. 22. The witness has been engaged in the mining of coal practically all of his life, holding various positions in and around the mine from foreman to mine manager. He has resided in Montana for the past fourteen years, during which time he has been assistant manager or general manager of the coal operations of the Anaconda Copper Mining Company, and has been in charge of the production and marketing of coals produced by that Company. He has had many years' experience in the marketing of coals produced in Utah, Wyoming, Oregon and Montana. His knowledge of the coals in District No. 22 was based on years of experience in that District.

It appears that the District Board consists of seven members, each of whom, with the exception of a labor member, is an operator and is in charge of the production and marketing of coal for an operating company in the State of Montana. All of these seven members took an active part in the preparation of the proposed schedule of minimum prices. This Board represents approximately eighty per cent of the commercial tonnage in District 22. The members of this Board are all men who, by reason of their intimate knowledge of their own coals and their familiarity with their competitors' coals, are fully capable of judging the price differentials and relationships between the kinds, qualities and sizes of coal produced within District No. 22.

The schedule of minimum prices proposed by District No. 22, as set out in Exhibit No. 160, divides the District into twelve sub-Districts as follows:

Sub-District Number and Description

1. *Roundup.*—All mines operating in the Roundup and Carpenter Creek Seams in Musselshell County, north of Klein, and all mines operating in the Painted Robe and Franklin Seams in Golden Valley and Yellowstone Counties.
2. *Red Lodge.*—All mines in Carbon and Stillwater Counties.
3. *Rosebud.*—All mines in Custer, Rosebud, Big Horn, Garfield, Powder River, McCone and Prairie Counties.
4. *Lewistown.*—All mines in Fergus County.
5. *Great Falls No. 2.*—All mines in Judith Basin County except the mines in the Belt Creek Seam in Judith Basin County.
6. *Trail Creek.*—All mines in Park and Gallatin Counties.
7. *Great Falls No. 1.*—All mines in Cascade and Chouteau Counties, including the mines in the Belt Creek Seam in Judith Basin County.
8. *Havre.*—All mines in Hill, Blaine and Phillips Counties.
9. *Bull Mountain.*—All mines in Musselshell, Treasure, and Yellowstone Counties, except the Roundup Sub-District.

10. *Plentywood No. 1.*—All mines in Opheim and Glentana Fields in Valley County, Wolf Point Field in Roosevelt County, and Scobey Field in Daniels County.

11. *Plentywood No. 2.*—All mines in Dawson, Valley, Sheridan, Richland, Roosevelt and Daniels Counties, except Plentywood No. 10 Sub-District.

12. *Valier.*—All mines in Pondera, Teton, Glacier, Toole and Flathead Counties.

These sub-Districts were determined by the coal deposits in the State and represent all of the different producing areas within the State. These sub-Districts have been generally known by these names for a long number of years, and they are recognized by producers in the District as the natural geographical coal-producing areas. The total tonnage produced in the year 1937 in these sub-districts was 2,900,000 tons. Of that amount approximately 2,000,000 tons were controlled tonnage and the balance was commercial tonnage. Of this commercial tonnage approximately 235,000 tons were used by public utilities, cement plants and sugar beet factories. The remainder was used for domestic purposes and small steam plants.

The coals produced in the twelve sub-Districts of District No. 22 are described as follows:

Subdistrict No. 1.—The coal of this sub-District is subbituminous, it is bright in color, is reasonably free from impurities, and is free burning. All of these coals, with one or two exceptions, in this sub-District are comparable, and have been classified accordingly in the proposed price schedule.

Subdistrict No. 2.—The coals in this sub-District are similar in quality to the coals produced in sub-District No. 1. The same classification exists, except on four groupings. These exceptions are due to the fact that these sizes contain more impurities than the same sizes in sub-District No. 1.

Subdistrict No. 3.—The coals in this sub-District are subbituminous, bordering on lignite; their excessive moisture retards their burning ability. The coal degrades rapidly after being mined. Because of the non-storing characteristics of this coal, it is obvious that it must be utilized soon after it is mined.

Subdistrict No. 4.—The coals in the Lewistown Field of this sub-District are bituminous in character, quite firm in structure, handle and store with small amount of degradation. The seam is from 3½ to 4 feet in thickness. The coal is relatively free from impurities, and has good burning qualities. In the Winifred Field of this sub-district, the coal is of inferior quality as compared with the Lewistown Field.

Subdistrict No. 5.—This is low grade bituminous coal. The market for it is limited to a sparsely settled part of the State at or near the mines.

Subdistrict No. 6.—The coal in the Chestnut and Timberline Fields is of good quality. Some of it will coke. The coal in the Trail Creek Field of this sub-District is of inferior quality to the Chestnut and Timberline Fields, because of its fracture and friability.

Subdistrict No. 7.—Several seams of coal are being worked in this sub-District. The coal is of a low rank bituminous. The coal in color is black to a grayish-black. The various seams contain considerable impurities. The commercial sizes undergo expensive preparation process to remove the impurities.

Subdistrict No. 8.—The coal in this sub-district is subbituminous. The Havre and Goldstone Fields of this sub-District contain a lower grade of coal than the adjoining sub-Districts, and this is reflected in lower prices. The Chinook Field, the other field in this sub-District, produces a fair quality of bituminous coal. It is of a better grade than the Havre and Goldstone Fields, better prepared, and has a better appearance. These elements are reflected in the prices proposed for this coal.

Subdistrict No. 9.—This sub-District adjoins sub-District No. 1, and the coals are somewhat similar except that they contain more moisture and degrade more rapidly in storage.

Subdistrict Nos. 10 and 11.—A proceeding is pending before the Commission to determine whether the coal in this sub-District is lignite, as lignite is defined in the Act. Pending a decision by the Commission the Board proposed the same prices for this sub-District as were established in 1937.

Subdistrict No. 12.—The coal in Pondera and Toole Counties is a good grade of bituminous coal, but the seam is thin, being less than 30 inches in thickness, and contains bone partings. The mines in the District are located in a sparsely settled region and are wholly dependent on local markets, which markets are not sufficient to absorb all of the smaller sizes produced, with very little outlet for the smaller sizes. Flathead County has only one code member. The coal is subbituminous, with a high moisture content.

The Exhibits received in evidence are as follows:

Exhibit No. 160.—"Schedule of proposed minimum prices of District No. 22 pursuant to Order No. 245."

Exhibit No. 161.—"Resolution adopted at meeting of District Board No. 22 on protest of Arthur Mills, Fred Nies, Whittle Bros., and Alex Landice."

Exhibit No. 162.—"Resolution adopted at meeting of District Board No. 22 on revisions to be made in the schedule of proposed prices."

Exhibit No. 163.—"Resolution adopted at meeting of District Board No. 22 that prices for controlled tonnage as they appear in the proposed schedule of minimum prices be revised."

Exhibit No. 164.—"Tabulation Showing Tonnage and Realization Distribution in District No. 22 Based on 1937 Tonnage Using Proposed Minimum Prices."

Exhibit No. 194.—"Marketing Rules and Regulations, Incidental to the Sale and Distribution of Coals of Code Members within District No. 22."

The evidence shows that the schedule of minimum prices submitted by District Board No. 22 (Exhibit No. 160) as amended, proposes minimum prices f. o. b. transportation facilities at the mine for the various kinds, qualities and sizes of coal produced by code members in the District.

District Board No. 22, as shown by its Exhibit No. 162, proposes fourteen size groups ranging from Size Group No. 1, lump coal 6 inch and over, to Size Group No. 14, railroad mine run. These size groups are the outgrowth of dealer and consumer demand over a period of years, and represent the best judgment of the Board. They have been established as a result of marketing experience. Sizes having the same relative value according to sub-districts were grouped together by the Board under a letter classification, since they took the same price. The price variations between the various size groups were considered by the Board to be proper. In the opinion of the expert witness for the Board, they satisfy the requirements of the consumer and preserve, as nearly as possible, the normal production and distribution of the various sizes in accordance with the requirements of the consumer.

The evidence shows that District Board No. 22, in proposing these f. o. b. mine prices set forth in the schedule, first took the commercial tonnage. It determined the relative value one to the other of the various kinds and qualities of coal within the District, and the relative values one to the other of the various sizes of such coal, this determination being based upon the knowledge of the members of the Board, who were all experienced coal men, and their familiarity with the marketability of the coals in the District. As a starting point, the Board took the prevailing price for 2" lump from sub-Districts Nos. 1 and 2. It determined the proposed minimum prices of the other kinds, qualities and sizes of coal by relating them to that base, taking into consideration the differentials which had previously been determined. They then multiplied the tonnage of each of the kinds, qualities and sizes which were found to have been sold in the year 1937, by prices applicable to such coal, and arrived at the potential realization for the commercial coal on that basis. This realization was somewhat above the known weighted average cost of the commercial tonnage of $2.28½, as determined by the Commission. They then adjusted the price in a sufficient amount to be near that figure. At that time the Board was of the opinion that the minimum prices for the controlled tonnage should be proposed on the basis of its cost of production, and accordingly, it added to the sum of money which should be realized from the sale of commercial coal a sum which would be realized from the sale of the controlled coal on the basis of its cost of production for the year 1937. The result of this computation was the weighted average realization of $1.53 plus per net ton for all of the coal sold from District 22 for the year 1937.

After the Board had submitted the proposed minimum price schedule, it was advised that minimum prices for controlled coal must be proposed on the same basis as commercial coal, also that the prices proposed must yield a realization as near as may be to the figure which the Commission had determined as the weighted average cost of all the coal produced in Price Area No. 9 for the year 1937, namely, $1.59 per ton. Thereafter, the Board recomputed the realization for the controlled coal, applying to the controlled tonnage produced during the year 1937 the revised proposed minimum prices for this coal. It then weighted the new realization from the controlled tonnage with the realization which it had determined from the commercial tonnage. The District Board recommended that the prices set out in the original price schedule (Exhibit No. 160) be amended so as to conform to the changes for controlled tonnage contained in Exhibit No. 163.

From the evidence it appears that coals in the various sub-Districts in District No. 22 were grouped by the Board in letter classifications according to their relative value. The letters are indices to the prices in each size group. The letter "A" represents the highest priced coal in each size group. The letter classification for each mine is set forth on pages 6 to 6–j, inclusive, of Exhibit No. 160.

In determining the price relationships set up in the proposed minimum price schedule as amended, the evidence shows that analyses played a very small part in the price relationship, because coals sold in District 22 are seldom sold on an analysis basis.

It appears from the evidence that the market areas, as set out in the proposed schedule of minimum prices (Exhibit No. 160), as amended, were determined by the sale of Montana coal into these territories over a period of a great many years. These market areas represent the natural markets. Practically all of the controlled tonnage is sold within the State of Montana. As to the commercial tonnage, about eighty per cent of the entire production is consumed within the State, and the remainder is shipped into the following markets named in the order of their importance: North and South Dakota, Washington, Idaho, Minnesota, eastern Oregon, Wyoming and Iowa.

The evidence shows that the schedule of proposed minimum prices, as amended by District Board No. 22, will yield a return for the District equal as nearly as may be to the weighted average cost of the total cost per net ton of the tonnage of minimum Price Area No. 9 as determined by the Commission, namely, $1.59 per ton. The realization submitted will yield $1.60 per ton, being a difference of one cent per ton.

It appears from the evidence that the differentials shown on the proposed price schedule, as amended, correctly reflect the relative market value of the various kinds, qualities and sizes of coal to which they are applicable.

The expert witness for the District Board testified that the price classifications and price differentials reflected in the proposed schedule of minimum prices, as amended, were, in his judgment and in the judgment of the District Board, equitable as between code members in the District, and gave due regard to the interest of the consuming public. The evidence shows that the members of the District Board, before proposing such schedule of minimum prices, gave serious consideration to all of the factors in determining what they deem the proper relationship between the coals of the mines in the District. Every producer in the District had the opportunity to protest the proposed schedule. Except for the five protests heretofore mentioned, none of the code members protested to the price classifications and price relationships. The differentials between the proposed prices have in the main existed over a period of many years, and have proved acceptable to the consuming public. The consumers in the past have had a choice of any size of coal that would be suitable to their needs and have paid approximately the same differentials between the sizes.

The schedule of proposed prices, as amended, does not show any price variation due to seasonal demand. It was the opinion of the District Board that seasonal demand should have no effect on the prices in District No. 22. And neither do they show any price variation occasioned by value as to uses. This is due to the fact that the coals from District No. 22 are all-purpose coals.

In the opinion of the witness, the proposed prices do not permit dumping, for the reason that the prices proposed are fair, with fair differentials between the various kinds, qualities and sizes of coals produced in the District.

In order to make the price schedule proposed by District Board No. 22 (Exhibit No. 160) conform to the recommendations of the District Board contained in Exhibit Nos. 161, 162 and 163, and to conform to the evidence given in support of these Exhibits, the Commission finds that the proposed price schedule should be corrected modified and amended in the following respects, to-wit:

Item 1, page 3 thereof, which reads as follows:

"Prices listed herein are per net ton of 2,000 pounds f. o. b. transportation facilities at the mine,"

should be deleted, and the following language should be inserted in lieu thereof:

"The prices listed herein are in cents per net ton of 2,000 pounds f. o. b. transportation facilities at the mine."

The Commission finds that page 3 should be amended so as to include Item 4, which will read as follows:

"When any size coal is sold in which the maximum top or bottom size exceeds the size scheduled, then such coal must be included in the next higher priced size group and priced accordingly."

Page 3 should be amended so as to include Item 5, which reads as follows:

"All size designations herein are for round hole screens or their equivalent. When other types of screen are used, the District Board shall determine the actual size designation of the coal so prepared, with the approval of the Coal Commission."

The Commission finds that page 4 should be deleted.

The Commission finds that page 4–A should be amended and corrected in the following respects:

The two paragraphs at the bottom of the page should be deleted. Said paragraphs read as follows:

"When any size of coal is sold, in which the maximum top or bottom size exceeds the size scheduled above, then such coal must be included in the next higher size group and priced accordingly."

"(a) All maximum screen sizes mentioned herein are based on round hole or the equivalent thereof."

Delete "(a)" at the head of "Maximum top sizes" and "Maximum bottom sizes."

The words "Fancy Lump over 6'', 7'', 8'' and 9'' ", under Side Group 1, should be deleted, and the following language inserted in lieu thereof: "Lump 6'' and over."

The words "Standard Lump over 2'' " appearing under Size Group 2, should be deleted and the following language inserted in lieu thereof: "2'' Lump."

Size Group 9, which reads: "Stoker maximum top size 1¼'' " should be amended to read: "Stoker maximum top size 1¼'', maximum bottom size ½'' ".

Page 5 should be corrected and amended as follows: sub-District No. 5 should be amended to read as follows:

"Great Falls No. 2.—All mines in Judith Basin County except the mines in the Belt Creek Seam in Judith Basin County."

Sub-District No. 7 should be amended to read as follows:

"Great Falls No. 1.—All mines in Cascade and Chouteau County, including

the mines in the Belt Creek seam in Judith Basin County."

Sub-District No. 10 should be amended to read:

"*Plentywood No. 1.*—All mines in Opheim and Glentana Fields in Valley County, Wolf Point Field in Roosevelt County, and Scobey Field in Daniels County."

Sub-District No. 11 should be amended to read:

"*Plentywood No. 2.*—All mines in Dawson Valley, Sheridan, Richland, Roosevelt, and Daniels County, except Plentywood No. 10 Sub-District."

The Commission finds that on pages 6 to 6–j inclusive, (Exhibit No. 160) wherever the seam or kind is designated "unknown", that the word "unknown" should be deleted, and the word "unnamed" should be inserted in lieu thereof.

The Commission finds that the price classification for Arthur Mills, as contained on page 6–f should be amended so that the same will read:

Size group:	Classification
1	C
2	G
3	C
5	B
7	B
8	A
9	C
10	A
11	C
12	B

The Commission finds from the evidence that the price classification for Alex Landice, page 6–e, should be amended to read as follows:

Size group:	Classification
1	D
2	H–1
3	A
5	E
7	B
8	A
9	D
10	A
11	D
12	B

The Commission finds that the price classification for Whittle Brothers on page 6–i should be amended so as to read:

Size group:	Classification
1	D
2	H–1
3	A
5	E
7	B
8	A
9	D
10	A
11	D
12	B

The Commission finds that the price classification for Whittle Brothers on page 6–i should be amended so as to read:

Size group:	Classification
1	D
2	H–1
3	A
5	E
7	B
8	A
9	D
10	A
11	D
12	B

The Commission finds from the evidence that the price schedule (Exhibit No. 160) page 7, should be amended so as to show a price classification "H–1," and the price under that classification in size group 2 should be "300."

The Commission finds that the proposed price schedule, pages 6 to 6–j, inclusive, should be amended in such a way as to put all of the code members in their alphabetical order.

The Commission finds that page 6–g, wherein it shows the price classifications and size groups for Roundup Coal Mining Company, should be amended so as to place an "A" classification under Size Group 14.

The Commission finds that page 6–c (Exhibit No. 160), wherein the price classification and size groups for Eagle Coal Company are set out, should be amended so as to put an "A" classification in Size Group 13, and an "A" classification in Size Group 14.

The Commission finds that pages 6 to 6–j, inclusive, (Exhibit No. 160) should be amended so as to add in their proper alphabetical order the names of the following code members and their classification:

Code member	Mine name	Sub-dist. No.	Seam or kind	Price classifications and size gronp Nos.													
				1	2	3	4	5	6	7	8	9	10	11	12	13	14
Brown, Reuben A	Mission	7	Unnamed	B	E	B	A	B	A	A	B	D	..	B	A	..	..
Erickson, Carl	Erickson	7	....do	B	E	B	A	B	A	A	B	D	..	B	A	..	..
Frame, Archibald	Frame	7	....do	A	D	..	..	B	..	..	..	D	..	B	..	..	..
Hover, Harold B		8	....do	..	D	..	..	..	..	D	..	D	..	B	A	..	..

Smith, Jasper	Skaggs	4	....do	..	D	..	..	..	..	..	..	D	A	..	..	..	..
Stinson, J. A		7	....do	B	E	B	A	B	A	A	B	D	..	B	A	..	..
Kent Coal Co	Kent	2	....do	B	E	A	..	B	..	C	B	D	A	C	B	..	..
Mus Coal Co		2	....do	B	E	A	..	B	..	C	B	D	A	C	B	..	..
Snyder Coal Co		2	....do	B	E	A	..	B	..	C	B	D	A	C	B	..	..

The Commission finds that page 7 (Exhibit No. 160), wherein it reads as follows:

"Price Classification A, Size Group 14, 155;

"Price Classification B, Size Group 14, 140;

"Price Classification C, Size Group 14, 100."

should be amended and changed to read as follows:

"Price Classification A, Size Group 14, 165;

"Price Classification B, Size Group 14, 150;

"Price Classification C, Size Group 14, 110."

And now upon the record herein, upon the evidence, both documentary and otherwise, and upon the above and foregoing facts found to exist, the Commission finds:

That the District Board for District No. 22 as directed in Order No. 245 of the Commission, proposed minimum prices free on board transportation facilities at the mines for kinds, qualities and sizes of coal produced within the district, classification of coal and price variations as to mines and consuming market areas.

That the District Board for District No. 22, as directed in Order No. 245 of the Commission, submitted to the Commission a schedule of such proposed minimum prices, together with the data upon which same were computed, including, but without limitation, the factors considered in determining the price relationships.

That the minimum prices proposed by the District Board for District No. 22, as herein modified, reflect, as nearly as possible, the relative market value of the various kinds, qualities, and sizes of coal produced within the district; are just and equitable as between producers within the district; have due regard to the interests of the consuming public; and do not permit dumping.

That the minimum prices proposed by the District Boad for District 22 for any kind, quality or size of coal for shipment into any consuming market area, as herein modified, are just and equitable between producers within the district.

That the minimum prices proposed by the District Board for District No. 22, as herein modified, yield a return per net ton for the district equal as nearly as may be to the weighted average of the total costs, per net ton, of the tonnage of Minimum Price Area No. 9, the Price Area in which District 22 is placed under the Act.

That the schedule of proposed minimum prices, as amended, and submitted to the Commission by the District Board for District No. 22, as amended, corrected, modified and revised as hereinabove set forth, conforms to Order No. 245 of the Commission and to the requirements of Section 4–II (a) of the Act and as so amended, corrected, modified and revised, said schedule should be and the same is hereby approved by the Commission to serve as a basis for the coordination provided for in Section 4–II (b) of the Act. A copy of said schedule as amended, corrected, revised and modified appears in the Appendix for District No. 22.

APPENDIX FOR DISTRICT NO. 22

Schedule of Minimum Prices, as Modified and Approved, to Serve as a Basis for Coordination

NOTE.—The prices in this schedule are not the final prices that will be established on coal for shipment by Code Members within this district into consuming markets of this district. In the ultimate establishment of the effective minimum prices, pursuant to subsection (b) of Part II, Section 4 of the Act, the minimum prices in this schedule are

subject to such increase or decrease respectively, as may be necessary to carry out the provisions of subsections (a) and (b) of Part II, Section 4 of the Act.

F. W. MCCULLOUGH,
Secretary.

Issued: December 9, 1938.

Geographical Description of Consuming Market Area to which Coal Produced in District No. 22 is shipped.

PRICE INSTRUCTIONS AND EXCEPTIONS

Item No. 1.—Prices listed herein are in cents per net ton of 2,000 lbs. f. o. b. transportation facilities at the mine.

Item No. 2.—All prices are subject to the Marketing Rules and Regulations issued by the National Bituminous Coal Commission.

Item No. 3.—When coal is subjected to any chemical, oil, or waxing process, an additional charge of not less than 25 cents per net ton shall be made.

Item No. 4.—When any size of coal is sold, in which the maximum top or bottom size exceeds the sizes scheduled, then such coal must be included in the next higher *priced* size group and priced accordingly.

Item No. 5.—All size designations herein are for round hole screens, or their equivalent. When other types of screens are used, the District Board shall determine the actual size designation of the coal so prepared, with the approval of the Coal Commission.

IDENTIFICATION OF SUB-DISTRICT NUMBERS

Subdistrict No. and Identification

1. *Roundup.*—All mines operating in the Roundup and Carpenter Creek Seams in Musselshell County, north of Klein, and all mines operating in the Painted Robe and Franklin Seams in Golden Valley and Yellowstone Counties.

2. *Red Lodge.*—All mines in Carbon and Stillwater Counties.

3. *Rosebud.*—All mines in Custer, Rosebud, Big Horn, Garfield, Powder River, McCone, and Prairie Counties.

4. *Lewistown.*—All mines in Fergus County.

5. *Great Falls No. 2.*—All mines in Judith Basin County except the mines in the Belt Creek Seam in Judith Basin County.

6. *Trail Creek.*—All mines in Park and Gallatin Counties.

7. *Great Falls No. 1.*—All mines in Cascade and Chouteau Counties, including the mines in the Belt Creek Seam in Judith Basin County.

8. *Havre.*—All mines in Hill, Blaine and Phillips Counties.

9. *Bull Mountain.*—All mines in Musselshell, Treasure, and Yellowstone Counties, except the Roundup Sub-District.

10. *Plentywood No. 1.*—All mines in Opheim and Glentana Fields in Valley County, Wolf Point Field in Roosevelt County, and Scobey Field in Daniels County.

11. *Plentywood No. 2.*—All mines in Dawson, Valley, Sheridan, Richland, Roosevelt, and Daniels Counties, except Plentywood No. 10 Sub-District.

12. *Valier.*—All mines in Pondera, Teton, Glacier, Toole and Flathead Counties.

GEOGRAPHICAL DESCRIPTION OF CONSUMING MARKET AREA TO WHICH COAL PRODUCED IN DISTRICT 22 IS SHIPPED

Shipments of coal originating in District No. 22 are made to points in Montana, Idaho, eastern Oregon, and Washington as far west generally as the Columbia River; also shipments easterly, are made to points in North Dakota, South Dakota, Minnesota, Iowa, and Wyoming.

PRICE AREA NUMBER 10—DISTRICT 23

PROPOSED MINIMUM PRICES

In compliance with Order No. 245 of the Commission, the District Board for District No. 23 transmitted Order No. 245 to a standing committee, composed of long experienced coal operators and principal coal salesmen thoroughly familiar with the production and distribution of coal within District No. 23, including each of the sub-districts. This standing committee after careful compilations and consideration prepared a tentative schedule showing sub-districts, classifications of coal, sizes of coal and price relationships. This schedule was then presented to the District Board for District No. 23.

Upon receipt of said tentative schedule, the District Board for District 23 duly considered same and after revising and amending same in such manner as it deemed advisable, said District Board transmitted copies of same to each and every code member within the District.

The District Board for District 23 requested each of the code members within District 23 to study carefully said schedule and invited them to attend a formal hearing to be held by the District Board on August 15, 1938, at which hearing protests, objections, or suggestions relative to said schedule would be received. The District Board convened on said date and duly opened said hearing. Said hearing lasted four days and practically every code member of the State of Washington and representatives from Oregon and Alaska were present. At the close of said hearing after various inconsistencies in the tentative schedule had been pointed out, considered and passed upon, the District Board for District No. 23 unanimously approved a schedule of proposed minimum prices to be submitted to the Commission, all code members present apparently being in complete accord.

The District Board for District No. 23 submitted said schedule of proposed minimum prices, together with the data upon which same were computed, to the Commission. Said schedule appears in the record as Exhibit No. 183.

Subsequent to the submission of said schedule to the Commission by the District Board for District No. 23, certain changes as to the form of said schedule were deemed advisable. These changes were merely formal in nature for the most part and were deemed advisable to be made for purposes of uniformity and clarification. A meeting of the District Board for District No. 23 was called to be held September 12, 1938, at which meeting said changes and revisions were approved. The original schedule was redrafted to incorporate said changes together with revisions as to three price relationship items. Copies of said revised schedule were transmitted to all the code members within the District, same having been officially approved for submission to the Commission. Said revised schedule of minimum prices as proposed to the Commission by the District Board for District No. 23 appears in the record as Exhibit 184.

Testimony in support of minimum prices proposed by District Board No. 23 was adduced by an expert witness, namely, a member of the District Board, who was thoroughly familiar with the marketing and distribution of coals in District No. 23. His knowledge of the coals in said District was based upon years of experience in the District. It appears that the members of the District Board of District No. 23 are all experienced coal men, familiar with producing and marketing coal in said District.

At the meetings of the District Board for District No. 23 held for the purpose of proposing minimum prices, approximately 95% of the tonnage produced in District No. 23 was represented.

The revised schedule of proposed minimum prices (Exhibit 184) as submitted to the Commission by the District Board for District No. 23 differs from the original schedule (Exhibit 183) in that the Oregon and Alaska mines are included in the alphabetical size and price list of the members of the entire district. In the original schedule, the Oregon and Alaska mines were reported separately. In addition to the above, the revised schedule differs from the original schedule in that the various sizes of coals have been regrouped and consolidated, the revised schedule providing for twenty-six size groups, whereas in the original schedule forty size groups were provided. Such regrouping of the size groups in said revised schedule was, in the opinion of the District Board for District No. 23, more practical, allowing less change of misunderstanding and dispute, each group having been given specific maximum top and bottom size designations with no tolerance variations permitted.

The revised schedule contains a new set of letters representing the price relationships. This new set of letters was made necessary through bringing the Oregon and Alaska code members into the alphabetical list and through consolidating the sizes as set out above.

The changes appearing in the revised schedule have not effected any change in the price relationships, or prices, appearing in the original schedule with these exceptions. A slight inconsistency was found in the relationship of one price in the Bellingham, or "D" sub-district and one in the Cumberland, or "G" sub-district. One price in the Southwest, or "C" sub-district was overlooked in the original schedule. The above inconsistencies in the original schedule have been appropriately changed in the revised schedule and the prices overlooked have been added in the revised schedule.

The revised schedule also reflects a change in realization. At the time the original schedule of proposed prices was drawn up, the District Board for District No. 23 did not understand that the prices proposed should yield a return per net ton for the District equal as nearly as may be to the weighted average of the total costs, per net ton, of the tonnage of Minimum Price Area No. 10, the price area in which District 23 is placed under the Act. Upon re-examination of the involved tonnage of District No. 23, the District Board for District No. 23 found that five cents per ton should be added to each individual price in the original schedule to effect the above. Such addition was agreeable to the code members within the District and was unanimously approved by the District Board. The prices appearing in the revised schedule show this revision and the prices appearing in the revised schedule result in a weighted average realization in substantial conformance to the weighted average cost of Minimum Price Area No. 10.

The District Board for District No. 23 in revising its original schedule, made no changes in price differentials or relationships applicable to Oregon or Alaska coals and the method of including the prices applicable to coals for code members in Oregon and Alaska in the revised schedule was approved by the representatives of code members in Oregon and Alaska.

The changes appearing in the revised schedule as made in the Bellingham, or "D" sub-district group, the Cumberland, or "G" sub-district group, and the Southwest, or "C" sub-district group, were as follows:

In the original schedule in its Size Group 6, "3¼ x 1¾ nut," the Bellingham sub-district "D" mines were given a price of $4.50 per net ton. In Size Group 5, "3¾ x 1¾ nut," coals of those mines were given a price of $4.25 per net ton. The price relationship so proposed was obviously a mistake since the sizes of those coals were competitively comparable and should take the same price classification. Hence, the schedule was revised so as to give the price of $4.30 to each size group.

In the original schedule Size Group 8, "2¾ x 1⅝ nut," the Cumberland sub-district "G" mines were given a price of $4.00 per net ton. In Size Group 13, "plus ¾-inch steam" and Size Group 9, "3¼ x 1 steam," the same mines were given a higher price of $4.25 per ton. The District Board believed that such prices did not properly reflect the dif-

ferential in values of the coals in those size groups and that the price proposed on those coals in Size Group 8 should be raised to $4.30 per net ton, hence, the revision.

In the revised schedule, the mines of Southwest Washington, sub-district "C" are placed at a price relationship of $2.40 on "1⅝ x ¼" special pea coal produced in said district. Such sub-district is small and detached, having small mines and strictly local markets and coming into but little contact with any of the coals from the other sub-districts of the state. The price relationship on the size referred to is consistent with the local marketing problems.

The above and foregoing changes are in line with other price relationships on the revised schedule. The addition of five cents to each of the prices proposed on the original schedule did not affect the price relationships as set forth in the original schedule but merely resulted in proposed prices which more nearly equalled the weighted average cost of production of the coals produced in Minimum Price Area 10 as that cost had been determined by the Commission.

The original schedule of proposed minimum prices as submitted to the Commission by the District Board for District No. 23 provided for forty sizes. These forty sizes represent the separate sizes and kinds of coals that are regularly, or at times during a normal year, produced and sold by one or more of the mines in the District. In the revised schedule twenty-six sizes are provided. The District Board believes that this number of sizes represents the minimum to which sizes of coals in District No. 23 could be reduced by groups which would include sizes of comparable value. If the sizes were further reduced, certain operators within the District would be prevented from continuing the production and sale of sizes of coals for which a legitimate market had been established and which certain consumers desired to continue to purchase.

The re-grouping and consolidation of sizes into twenty-six (26) size groups, as shown in the revised schedule, does not prevent the production and sale within the size limits set for those groups of the sizes and kinds of coals that were provided in the original forty size groups. To further reduce the number of size groups was deemed impractical since such would necessitate unwarranted physical changes and would more than likely subject many code members to tonnage losses in their markets which would result in upsetting long-standing relationships in the industry. Twenty-six sizes of coals in District No. 23 is not abnormal. The small tonnage area in said District is composed of the two far distant coal fields of Oregon and Alaska. In Washington there are seven separate and distinct fields as different in mining conditions and coal characteristics as if they were located in widely spread geographical areas in the United States. No single field, or sub-district, has an unusual number of sizes within itself. It was the judgment of the members of the District Board for District No. 23 that twenty-six size groups for the District would be sufficient to equitably cover its needs and that a less number than twenty-six sizes would cause irregularities and perhaps result in some injustices.

The realization resulting from the minimum prices proposed by the District Board for District No. 23 was determined in this manner. A study of the 1936 and 1937 tonnages produced at and sold from the various mines in the district showed clearly that the record of those years would not necessarily reflect the current market conditions prevailing in the district. The District Board for District No. 23, after consultation with practical men from each of the fields, decided to construct a readjusted year based upon 1937. Knowledge of changes that had taken place and were taking place in the fundamental items of marketing, as well as knowledge of the normal seasonal fluctuations, prompted such decision. Such a year in the belief of the District Board for District No. 23 would be representative of a normal year of production and distribution in each of the fields. Applying schedule prices to the various sizes in such a year, the average normal realization could be calculated.

Following this method, the District Board for District No. 23 took the actual figures for 1937 and added or deducted the fundamental items which the District Board knew had completely changed, such as the going out of business of a very large mine (Coronado) which mine produced practically all of the tonnage produced in one of the principal sub-districts. In addition, some large consumers of coal had gone to oil, or other kind of fuel. Taking into account the above factors known to exist, the District Board for District No. 23 readjusted the tonnage of the year 1937 in such manner as would be representative of present conditions.

The Secretary of the District Board for District No. 23 collected from the code members within the District their production and distribution of sizes shipped during 1937. With this information as a base, the Committee of practical men making the calculations for the District Board, added to or deducted from the 1937 individual figures those tonnages that they knew had been either increased or lost. Then applying the scheduled prices to the resultant individual figures of each sub-district, the District Board found the average realization of each sub-district as is shown on Exhibit No. 185. These were then recapitulated into the average for the District which also appears in Exhibit No. 185. As shown in Exhibit 185, the realization is $3.1999. This realization was increased to $3.2499 by the addition of five cents to each price (Exhibit 184). This realization is equal as nearly as may be to the weighted average cost of $3.2656 as previously determined by the Commission for Minimum Price Area No. 10, the price area in which District 23 is placed under the Act.

Coal production in District 23 is less than 2,000,000 tons annually. Less than 1,500,000 tons of such production is commercial coal. Of this quantity approximately 5% is lump coal, approximately 15% is egg and nut size, and 80% will pass through a 1¾ inch screen. While the above percentages will vary greatly in the different fields and mines, yet the average will be as above set forth. In District 23 there are mines with practically no large coal. More than 75% of the coal produced at such mines will pass through a one-half inch screen, some mines in the District having important tonnages which pass through a 3/32 inch screen. Practically all the coal of the District must be washed and most of the mines have a serious reject loss as high in some cases as 25%.

The District Board for District No. 23 placed what it considered consistent price relationships between the large variation of sizes and between the many areas and mines producing such widely different qualities and types of coal in the District in this manner. The various kinds of coal produced in the state of Washington enter the same general markets. Coals produced in Oregon and Alaska do not enter the markets reached by Washington coals nor do Washington coals enter the markets reached by the Oregon and Alaska fields. Such areas in the District are completely isolated. Some of the coal produced in the state of Washington enters southwestern Alaska which is so far away from the Alaska mines that none of their coals reach that market. Some of the sizes and grades of coals produced in the state of Washington and sold in Washington markets go to the same general type of consumers and are, therefore, directly competitive. Other sizes and grades appeal to, or are usable by, quite different types of consumers and, at times, in the same consuming areas. The tonnage represented by these special consuming requirements is a substantial one containing all of the railroad and most of the industrial demand.

Long experience in the field alone can enable one to differentiate between values of certain coals necessary for or desired by the consumers for these special demands. As to one use, experience and purchase over years may show an advantage in some size of a relatively poorer general grade of coal while in other cases there are uses for which certain sizes of the highest grades are almost exclusively demanded by the consumer. In its consideration of relationship of prices between sizes and between fields and grades of coal, the District Board for District 23 was fully possessed of an intimate knowledge of all of the above and foregoing factors. Such knowledge was equitably employed by the District Board in determining the relationships submitted in its schedule.

The District Board for District No. 23 was of opinion and concluded that the price breaks or differentials used in the various sizes and between the several grades of coals and fields, or sub-districts, will permit continuance of, and not cause disruption of, long standing competitive relationships between the districts, mines and fields in production, distribution and selling and that rather than causing any disadvantage to the consumer, they will enable the industry better to serve the interests of the consuming public. The prices as proposed will maintain conditions which have over the years been brought about largely by and because of consumers' demands and desires. In consideration of such price relationships, the District Board considered competition with cheap water borne oil, low cost of wood products, cheap hydro-electric power and unrestricted foreign fuels.

In the revised schedule (Exhibit No. 184) there appears double letters as well as the usual single letters designating price levels. The District Board for District 23 determined that by the use of double letters the mines of either Oregon or Alaska could better determine the prices set for their coals. Such method of lettering does not, in any manner, disturb the proposal of relative prices, or price relationships. Double "A" ("AA") is simply that price next above single "A," double "C" ("CC") is that price lying between single "B" and single "C" and so on. All are shown in proper rotation and relationship in the schedule. An operator of a mine in Alaska can, under this method, easily locate the prices for his coal without having to search through a confusing maze of price classifications proposed for coals produced in the Washington and Oregon fields, and the operators in those fields are similarly convenienced.

As shown in its schedule, the District Board for District No. 23 divided the Washington mines into seven sub-districts and those of Oregon and Alaska into two sub-districts, respectively, making a total of eleven sub-districts. This number of sub-districts and the groupings of same were determined in this manner.

The two sub-districts respectively in Oregon and Alaska were requested by the members of those fields in order that two distinctly different types of mines might be segregated. In Oregon there is a quite low grade sub-bituminous coal area and a slightly higher grade sub-bituminous coal area, in which areas the mining conditions and marketing characteristics of coal vary considerably.

In Alaska one group is a medium grade sub-bituminous area while the other group approaches a bituminous grade. In such area the mining conditions and marketing characteristics of coal are also quite different.

In Washington the causes for the seven-group segregation have existed for years. The mines in the several groups have quite different mining conditions and necessities of preparation and their coals are different in quality as well as in their marketing purposes.

The sub-districts of Oregon and Alaska have been heretofore generally described. Oregon produces approximately 7/10 of 1% of the total tonnage produced in District 23, while Alaska produces about 7%.

Sub-district "A" in Washington is on the eastern slope of the Cascade Mountains with comparatively easy mining conditions which permits mechanical production. Its coal is of a bituminous grade producing normal percentages of coarse sizes. In addition to being popular in the general domestic and steam markets, such sub-district contains the mines which produce the only large railroad fuel tonnage in the state. The railroad and commercial production is approximately 40% of the production in District 23.

Sub-district "B" is high up in the western foothills of the Cascade Mountains. Its coal is of high grade coking and heavy steaming grade but being in broken country its production is all of fine sizes. Its mining conditions are most unfavorable and costly and its preparation problems difficult. The last of the large mines in this sub-district closed early in 1937 because of high cost of production and the final disappearance of a formerly large coal market. Its present mines are very small, and being unable to equip themselves with machinery for washing and preparing their coals the shipments of such coals have deteriorated in quality and value. This accounts for the lower price relationships placed on such coals in the revised schedules. This sub-district at the present time produces only 2% of the production of District 23.

Sub-district "C" is a small field far off to itself in the southwestern part of the state of Washington. Its coal is of low sub-bituminous grade, high in moisture and closely approaches lignite. Its production, approximately 4% of the district's total, comes from small mines, largely truck operations. Its coal is limited to domestic and very light steaming purposes. Its coal disintegrates quickly in storage and its market is strictly a local one. Coals from this sub-district come into little competition with other coals of the district.

Sub-district "D" is off to itself in the extreme northwestern part of the state of Washington. Sub-district "F" is in the immediate vicinity of the City of Seattle. The coals from both of these sub-districts are of the same general quality being a good grade of sub-bituminous. The mines in sub-district "F" have less favorable mining conditions and the several seams worked at its different mines vary considerably in necessities of preparation and marketing characteristics. These coals need extensive washing and preparation facilities. Sub-district "D" produces approximately 12% of the total production of District 23 while Sub-district "F" produces approximately 19%. The coals from Sub-district "D" are used principally in cement plants while the coals from Sub-district "F" are used principally by domestic consumers and consumers using the larger powdered coals.

Sub-district "E" is distinctly different from all the other sub-districts. Its mines are all on one seam which for years past has been the principal producer of western Washington. Its larger resources have been depleted and smaller mines are being worked. The coal is very low in ash, of a free burning bituminous grade and is principally used for domestic and industrial purposes. It produces but small percentages of coarse sizes. It is this seam that necessitated the unusually small size of "3/32 x 0" appearing in the schedule. The reason for such a size is that same must be extracted to free the steam sizes of objectionable physical difficulties but its quantity is so large that it must be saved and marketed. There is a limited but important market for this small size, it being preferred by industrial consumers, but only in keen competition with oil. This sub-district produces approximately 12% of the total production in District 23.

Sub-district "G" lies close to Groups "E" and "F." The coals of "F" and "G" go into the same markets to a considerable extent. The coal in sub-district "G" is of a distinctly heavier grade than the coals in Sub-district "F," is a straight bituminous coal and has medium coking qualities. Its seams require extensive washing and preparation. Approximately 5% of the total production of District 23 is produced in this sub-district.

The market areas appearing in the revised schedule (Exhibit 184) are the market areas into which the producers in District No. 23 ship their coals. These market areas appear at page 9 of the revised schedule and are Alaska, British Columbia, Idaho, Oregon, and Washington, and it is to such areas that the minimum prices are proposed by the District Board for District No. 23 to apply (Exhibit 184, p. 9).

The District Board for District No. 23 is composed of members thoroughly experienced in the production and sale of coals in District 23. Said District Board approved the schedule of proposed minimum prices, as revised (Exhibit 184), before submitting same to the Commission and, in the judgment of said Board, the prices proposed to the Commission as they appear in the revised schedule are just and equitable between the producers within the district; have due regard to

the interests of the consuming public; and do not, and will not, permit dumping. It was also the judgment of the District Board for District No. 23 that the prices proposed in the revised schedule reflect, as nearly as possible, the relative market values of the various kinds, qualities, and sizes of coals produced in District No. 23; reflect price variations as to values and as to uses; reflect price variations as to consuming market areas of the various kinds, sizes and qualities of coals produced within the district; are just and equitable as between producers within the District for shipment into any consuming market area; and conform to the requirements of Order No. 245 of the Commission and to the provisions of Section 4–II (a) of the Act.

In establishing the proposed f. o. b. mine prices set forth in the schedule, both original and revised, the District Board for District No. 23 started with the largest size proposed of the largest producing district (Roslyn Sub-District "A") and then related the other sizes to that base, according to what the District Board considered to be the proper differentials. Then the costs of other sub-districts were related to those prices. The difference in prices appearing between the larger sizes and smaller sizes is due to salability. The differentials, or price relationships, as proposed by the District Board for District No. 23, are carried into the consuming markets.

And now, upon the record in this cause, upon the evidence, both documentary and otherwise, and upon the above and foregoing facts found to exist, the Commission finds:

That the revised schedule of minimum prices (Exhibit 184), as submitted to the Commission by the District Board for District 23, should be substituted in lieu of the original schedule of proposed minimum prices submitted to the Commission by the District Board for District No. 23, and accepted by the Commission as the schedule of proposed minimum prices submitted to the Commission by the District Board for District No. 23.

That the revised schedule of proposed minimum prices (Exhibit 184) as submitted to the Commission by the District Board for District No. 23 should be corrected and revised in order that same may better conform to Order No. 245 of the Commission and to the provisions of Section 4–II (a) of the Act, and said schedule is in the following respects modified:

Page 3 of the revised schedule should be deleted entirely for the reason that same is not necessary to the schedule.

Item 3 on page 4 of the revised schedule should be revised to read, "All size designations herein are for round hole screens, or their equivalent. When other types of screens are used, the District Board shall determine the actual size designation of the coal so prepared, with the approval of the Coal Commission."

Item 4 on page 4 of the revised schedule should be revised and corrected to read, "The prices listed herein are in cents per net ton of 2,000 pounds f. o. b. transportation facilities at the mine."

Item 7 on page 4 of the revised schedule should be revised and corrected to read, "When any size of coal is sold, in which the maximum top or bottom size exceeds the sizes scheduled, then such coal must be included in the next higher priced size group and priced accordingly."

Item 1 on page 4 of the revised schedule should be deleted as same is not necessary to the schedule.

Item 6 on page 4 of the revised schedule should be revised and corrected to read, "When washed Mine Run is shipped from Sub-district 'A,' a charge of 25¢ per ton shall be added to Mine Run price."

The table of Size Groups on page 5 of the revised schedule should be revised and rearranged as follows:

Size group No.	Single screened	Double screened
1	4" Lump.	
2	3½" Lump.	
3	2" Lump.	
4	¾" Lump.	
5	⅜" Lump.	
6		4" x 2".
7		3½" x 2½".
8		3¼" x 1¾".
9		3½" x 1¼".
10		3" x 1¼".
11		2½ x ⅞".
12		2" x 1".
13		2" x ¾".
14		1¼" x ⅞".
15		1½" x ¾".
16		⅞" x ⅜".
17		1⅛" x ⅜".
18		1" x ⅜".
19	Mine Run.	
20	3½" x 0".	
21	2" x 0".	
22	1¼ x 0".	
23	1" x 0".	
24	¾" x 0".	
25	⅜" x 0".	
26	Railroad locomotive fuel—all sizes.	

The tables of classifications and of prices on pages 7, 7A and 8 of the revised schedule should be rearranged in conformity with the rearrangement of size groups. This is done in the "Schedule of Minimum Prices as Modified and Approved", attached hereto as an appendix to District 23.

That the District Board for District No. 23, as directed in Order No. 245 of the Commission, proposed minimum prices free on board transportation facilities at the mines for kinds, qualities and sizes of coal produced within the district, classification of coals and price variations as to mines, consuming market areas, and values as to uses. Seasonal demand was not taken into consideration.

That the District Board for District No. 23, as directed in Order No. 245 of the Commission, submitted to the Commission an original and revised schedule of such proposed minimum prices, together with the data upon which same were computed, including but without limitation, the factors considered in determining the price relationship.

That the minimum prices proposed by the District Board for District No. 23 as appear in its schedule, as revised, reflect, as nearly as possible, the relative market value of the various kinds, qualities, and sizes of coal produced within the district; are just and equitable as between producers within the district; have due regard to the interests of the consuming public; and do not permit dumping.

That the minimum prices for any kind, quality, or size of coal for shipment into any consuming market area, as proposed by the District Board for District 23 in its revised schedule, are just and equitable as between producers within the district.

That the minimum prices as proposed by the District Board for District 23 in its revised schedule are proposed in such manner as to yield a return per net ton for the district equal as nearly as may be to the weighted average of the total costs, per net ton, of the tonnage of Minimum Price Area 10, the Minimum Price Area in which District 23 is placed under the Act.

That the revised schedule of proposed minimum prices (Exhibit No. 184) submitted to the Commission by the District Board for District No. 23 as amended, corrected, modified and revised, as hereinabove set forth conforms to Order No. 245 of the Commission and to the requirements of Section 4–II (a) of the Act and as so amended, corrected, modified and revised, the schedule should be and the same is hereby approved by the Commission, the same to serve as the basis for the coordination provided for in Section 4–II (b) of the Act. A copy of said schedule as amended, corrected, modified and revised appears in the Appendix for District No. 23.

APPENDIX FOR DISTRICT NO. 23

Schedule of Minimum Prices, as Modified and Approved, to Serve as a Basis for Coordination

NOTE.—The prices in this schedule are not the final prices that will be established on coal for shipment by Code Members within this district into consuming markets of this district. In the ultimate establishment of the effective minimum prices, pursuant to subsection (b) of Part II, Section 4 of the Act, the minimum prices in this schedule are subject to such increase or decrease respectively, as may be necessary to carry out the provisions of subsections (a) and (b) of Part II, Section 4 of the Act.

F. W. MCCULLOUGH,
Secretary.

Issued: December 9, 1938.

Item No. and Price Instructions and Exceptions

1. All prices are subject to the Marketing Rules and Regulations issued by the National Bituminous Coal Commission.

2. All size designations herein are for round hole screens, or their equivalent. When other types of screens are used, the District Board shall determine the actual size designation of the coal so prepared, with the approval of the Coal Commission.

3. All prices herein are in cents per net ton of 2,000 lbs. f. o. b. transportation facilities at the mines.

4. When coal is subjected to any chemical, oil or waxing process, an additional charge of not less than 10 cents per net ton shall be made.

5. When Washed Mine Run is shipped from sub-district A, an additional 25 cents per ton shall be added to Mine Run price.

6. When any size of coal is sold, in which the maximum top or bottom size exceeds the sizes scheduled, then such coal must be included in the next higher priced size group and priced accordingly.

7. In the sale of coal to destined points outside the boundary of the United States, prices stipulated herein are for payment in United States funds.

proposed by District Board No. 16 with the rules proposed by District Board No. 17. In the opinion of the witness for District Board No. 16, the rules testified to by the witness for District Board No. 17 were reasonable and suitable for District No. 16 except as to such differences in the rules proposed by District No. 16 which the witness testified were justifiable.

District Board No. 16 in defining a "sales agent" in Rule 2 of Section I specifically excludes from the definition "an employee of the code member." The witness testified that the purpose of this exclusion was to make certain that an employee of a Code member could not be considered or construed in the rules and regulations as a "sales agent." The witness testified that the sales agent does not take title to the coal. In order to fully effectuate the purpose of excluding from the definition of a "sales agent" an employee of a Code member and also a person who purchases the coal, we are of the opinion that the definition should be modified and clarified in the manner that we modified the definition of the same term proposed by District Board No. 17 in Section I, Rule 2 of Exhibit No. 187. (See Rule 2 of Section I of Composite Findings for District No. 17).

The Board restricted the definition of a "sales agent" to a person who sells coal at wholesale only for and on behalf of a Code member. The witness for the District Board justified this restriction on the ground that District Board No. 16 does not want to permit the granting of commissions to persons who sell in less than carload quantites. We are of the opinion that the restriction of the definition of a sales agent to those persons who, as agents, sell coal at wholesale for and on behalf of a Code member is improper. We construe the purpose of Section I of the rules proposed by the District Board to define certain terms which have been used in those rules. The District Board has propsed no rule prohibiting the payment of a commission to a person who, as agent in law and in fact, sells coal in less than wholesale quantities. As proposed by the District Board, the restriction contained in the definition of "sales agent" cannot be construed to have that effect. Furthermore, this Commission is not authorized by law to promulgate a rule which would prohibit the payment of commissions by Code members to sales agents who sell in less than wholesale quantities.

We are of the opinion that definitions 17 to 22 contained in Section I of the composite findings hereinafter given are reasonable and desirable. The District Board did not define these terms although they appeared in various rules proposed by the Board.

Rule 5 of Section V provides for the review by the Commission of the reasonableness of the amount of commission paid to sales agents and of the amount of discount allowed to Registered Wholesalers or Registered Farmers' Cooperatives. It was the opinion of the witness that this rule should be eliminated. The rule in so far as it provides for review of the reasonableness of the amount of discounts paid is unnecessary for the reason that the Commission contemplates the establishment of maximum discounts pursuant to Section 4 II (h) of the Act before the marketing rules and regulations and minimum prices become effective. The Commission has jurisdiction to review the amount of commission paid to sales agents upon complaint of violation of the provision relating to the unfair methods of competition contained in the Act. Accordingly we modify Rule 5 of Section V to read as follows:

"Subject to further order of the Coal Commission, the amount of commission to be paid by a Code member to his sales agent shall be fixed by agreement of the parties, subject, however, that upon complaint of violation of the provisions relating to unfair methods of competition, as provided in the Act, the amount of such commission shall be subject to review by the Coal Commission."

The witness stated that he concurred in the testimony of the witness for District Board No. 17 with respect to the elimination of a rule proposed by District Board No. 17 which is similar to Rule 1 of Section VI of the rules proposed by District Board No. 16. The testimony of the witness for District Board No. 17 was merely that such proposed rule would be unnecessary if there was in existence an order of the Commission similar in substance. We are of the opinion that all rules which are properly marketing rules and regulations should be contained in these rules and regulations. We are likewise of the opinion that Rule 1 of Section VI of the rules proposed by District Board No. 16 should be modified in the same manner and for the same reasons as the similar rule proposed by District Board No. 17 in Section VI, Rule 1, was modified in the findings of fact in respect to rules proposed by the latter District Board. (See Rule 1 of Section IV of Composite Findings for District No. 17.)

It was the opinion of the witness that the allowable over-shipment or under-shipment specified in Rule II C, Section VI, of Exhibit No. 189 should be increased from ten (10%) per cent to twenty (20%) per cent. The witness gave no reason for this suggested change except in so far as he concurred with the reasons given by the witness for District Board No. 17 to justify such change. We are of the opinion that Rule II C, Section VI, should be modified in like manner and for the reasons stated in the findings of fact for District Board No. 17 in respect to the modification of Rule II C, Section VI, proposed by the latter District Board. (See Rule II C of Section IV of Composite Findings for District No. 17.)

The witness testified that the Board did not want any rule permitting penalty and premium contracts for the reason that such contracts would encourage "chiseling" and cutting prices. The District Board, however, did not propose any rule prohibiting penalty and premium contracts. We are of the opinion that a Code member should not be permitted to enter into a contract made upon a penalty and premium basis which would permit the sale of coal at an aggregate contract price below the applicable minimum price for coal sold and delivered under such agreement subsequent to the effective date of the Marketing Rules and Regulations.

The witness testified that when the rules under Section IX, "Terms of Payment," were originally discussed, they were unsatisfactory to the District Board and the Code members; and that it was found necessary to appoint a special committee to meet with similar committees from Districts No. 17 and 19 with a view to working out acceptable rules. While the committees were unable to work out uniform rules satisfactory to the three District Boards, the Committee for District No. 16 was able to reach an agreement on rules as to terms of payment and a report rendered in respect thereto was found satisfactory by District Board No. 16. The special committee recommended certain changes in the rules as contained in Exhibit No. 189. It was recommended that Rule 2, Section IX, be amended to read as follows:

"Coals sold to an industrial consumer for its own use shall not be sold on more favorable terms than net cash on the 20th of each calendar month, for all coal shipped during the preceding calendar month, except as otherwise provided in this proposal, and paragraph 1, Section 9, hereof; no coal shall be sold on more favorable terms than net cash on the 10th of each calendar month for all coal shipped during the preceding calendar month. This paragraph, paragraph 1 of Section 9, hereof shall not be construed as requiring producers to extend to each purchaser the full credit terms herein permitted, but each producer shall be free to determine as to each purchaser whether credit be extended, and the terms of credit, if allowed, provided such terms are not more favorable than as herein provided for."

The committee also recommended the amplification of Rule 5, Section IX, to read as follows:

"Where payment is made by note, trade acceptance, or other form of indebtedness, the seller shall charge, and the buyer shall pay interest at the current market rate. Every code member, sales agent, registered wholesaler, and registered farmers' cooperative organization shall each month report to the Statistical Bureau, and the District Board for the district in which he is located, every case in which a note, trade acceptance, or other form of indebtedness, has been accepted in settlement of any account, setting forth all conditions of said note,

MINIMUM PRICE AREA No. 6—DISTRICT BOARD No. 16

PROPOSED MARKETING RULES AND REGULATIONS

A witness for District Board No. 16, properly qualified as an expert in the marketing of coal in that District, introduced into evidence, as Exhibit No. 189, the marketing rules and regulations proposed by District Board No. 16, pursuant to Commission Order No. 244. The witness testified that these proposed rules and regulations were properly submitted, in compliance with the aforementioned Commission Order, to the Code Members within District No. 16, and that no protests were filed in respect thereto with the District Board.

As a basis for determining what rules and regulations should be submitted to the Commission, the District Board used the marketing rules and regulations which were promulgated by the Commission under date of December 16, 1937. A committee appointed to consider the subject, and the Board members, made a detailed study of each rule promulgated by the Commission. Where no good reason was found for changing the original rule, it was adopted and duly proposed by the Board.

The witness for District Board No. 16 testified that the rules proposed by District Board No. 16 are substantially similar to the rules proposed by District Board No. 17. The witness introduced into evidence Exhibit No. 191 which consists of extracts from rules proposed by District Board No. 17 as testified to by the witness for District Board No. 17. This exhibit contains rules which have been in substance proposed by both District Boards 16 and 17. The witness in testifying compared generally the rules

trade acceptance, or other form of indebtedness."

It is our opinion that the former amendment to the proposed rules of the District Board is reasonable, consistent with the requirements of Section 4 of the Act, and in conformity with the standards of fair competition as established in Section 4, Part II (i) of the Act.

As to the latter amendment, a discrimination appears in that no provision is made for the charging of interest in the case where payment is not made at the due date of the account, whether by default of the buyer or pursuant to an agreement for an extension of the term of credit, and where such extension of the term of credit is not evidenced by a note, trade acceptance or other form of indebtedness. We therefore find that such amendment is unreasonable, as submitted and should be amended to include a provision for the charging of interest under any circumstances when the account is not paid at the due date thereof.

In respect to the rules contained in Section X, relating to registration of devices for the crushing and pulverizing of coal with the Coal Commission, the witness for the Board concurred in the opinion of the witness for District Board No. 17 that such procedural rules be left out of the Marketing Rules and Regulations and be the subject of a separate rule or order promulgated by the Commission.

We are of the opinion that the words "except as provided in paragraph (i) following" in Rule 6 of Section XI and that paragraph (i) of Rule 8 of Section XI should be deleted for the reason that these provisions exempt captive or controlled coal which is not exempt under Section 4 II (1) of the Act from the prohibition against screening of mine run or re-screening of other grades of coal for the buyer's account and would permit the uncontrolled substitution upon a sale of the size of coal at a relatively low established minimum price, of a size or sizes of coal for which a higher minimum price was established. These provisions would obviously result in defeating the realization by a Code member of the amount of the return required by the Act.

We are also of the opinion that Rule 6 of Section XI should be modified to provide that all coal must be sold and invoiced on a price per ton basis. This modification, in our opinion, is necessary for a uniform procedure and method to govern the selling and invoicing of coal. We believe this rule is necessary or otherwise the Commission must either establish supplementary prices based simply on thermal efficiency or else the Commission must undertake to translate sales made on such a basis into a price per ton basis in order to determine whether the minimum price has been violated or evaded.

We are of the opinion that the second paragraph of Rule 8 (e) of Section XI should be deleted for the reason that it is impractical to enforce. Likewise, Rule 8 (f) of Section XI should be deleted for the reason that it creates an unreasonable discrimination.

Except as he testified specifically to the contrary, the witness for District Board No. 16 concurred, in his own opinion, with the opinions and testimony given by the witness for District Board No. 17 as to rules which were in substance proposed by both District Boards. After due consideration of all the testimony in the record, relating to the rules proposed by District Board No. 16, we are of the opinion that such of these rules as are referred to immediately hereunder should be modified and clarified in the same manner and for the same reasons that similar rules proposed by District Board No. 17, referred to immediately hereunder, have been modified and clarified in the composite findings for District Board No. 17:

DISTRICT BOARD NO. 16

Exhibit No. 189

Section I: Rules 2, 3, 4, 10.
Section II: Rules 3, 4, 7.
Sections III and IV: Rule 1.
Section V: Rules 2 and 5.
Section VI: Rules I, II, III, IV.
Section VII: Rules 1 and 3.
Section IX: Rule 5.
Section XI: Rules 3, 5, 7.

DISTRICT BOARD NO. 17

Exhibit No. 187

Section I: Rule 2 (Findings for Dist. 17, Rule 2, Sec. I), Rule 3 (Findings for Dist. 17, Rule 3, Sec. I), Rule 4 (Findings for Dist. 17, Rule 4, Sec. I), Rule 10 (Findings for Dist. 17, Rule 7, Sec. I).

Section II: Rule 3 (Findings for Dist. 17, Rule 3, Sec. II), Rule 4 (Findings for Dist. 17, Rule 4, Sec. II), Rule 7 (Findings for Dist. 17, Rule 7, Sec. II).

Sections III and IV: Rule 1 (Findings for Dist. 17, Rule 1, Sec. III).

Section V: Rule 3 (Findings for Dist. 17, Rule 1, Sec. III), Rule 6 (Findings for Dist. 17, Rule 8, Sec. II).

Section VI: Rule 1 (Findings for Dist. 17, Rule 1, Sec. IV), Rule 2 (Findings for Dist. 17, Rule 2, Sec. IV), Rule 3 (Findings for Dist. 17, Rule 2 (F), Sec. IV), Rule 4 (Findings for Dist. 17, Rule 2 (G), Sec. IV).

Section VII: Rules 1 and 2 (Findings Dist. 17, Rule 1, Sec. V), Rule 4 (Findings for Dist. 17, Rule 4, Sec. V).

Section IX: Rule 4 (Findings Dist. 17, Rule 4, Sec. VII).

Section XI: Rule 3 (Findings for Dist. 17, Rule 3, Sec. VIII), Rule 5 (Findings for Dist. 17, Rule 5, Sec. VIII), Rule 7 (Findings for Dist. 17, Rule 7, Sec. VIII).

After due consideration of all the testimony in the record, relating to the rules proposed by District Board No. 16, we are of the opinion that the following rules proposed by District Board No. 16, contained in Exhibit No. 189, should be deleted for the same reasons that similar rules proposed by District Board No. 17, referred to below, were deleted in the findings of fact for District No. 17:

DISTRICT BOARD NO. 16

Exhibit No. 189

Section I: Rules 5, 6, 7.
Section III: Rules 2, 3, 4, 5, 6.
Section IV: Rules 2, 3, 4, 5.
Section V: Rules 1 and 3.
Section X: Rules 1, 2, 3.

DISTRICT BOARD NO. 17

Exhibit No. 187

Section I: Rules 5, 6, 7.
Section III: Rules 2, 3, 4, 5, 6.
Section IV: Rules 2, 3, 4, 5.
Section V: Rules 1 and 4.
Section X: Rules 1 and 2.

After due consideration of all the testimony in the record relating to the rules proposed by District Board No. 16, we find the following rules and regulations incidental to the sale and distribution of coal by Code members in District No. 16, reflecting the deletions and modifications hereinbefore referred to, are reasonable, consistent with the requirements of Section 4 of the Act, and in conformity with the standards of fair competition established by Section 4, Part II (i) of the Act:

MARKETING RULES AND REGULATIONS INCIDENTAL TO THE SALE AND DISTRIBUTION OF COAL BY CODE MEMBERS WITHIN DISTRICT NO. 16 AS PROPOSED BY DISTRICT BOARD NO. 16 AND AS APPROVED, DISAPPROVED, OR MODIFIED FOR THE PURPOSE OF COORDINATION

Section I.—Definitions

1. The term "person" as used herein, includes individuals, firms, associations, partnerships, corporations, trusts, trustees, co-operatives, receivers and trustees in bankruptcy and in other legal proceedings, and any other recognized forms of business organizations.

2. A "sales agent" is a person who, as agent of a code member (and therefore without purchasing the coal), sells coal produced by such code member for him or on his behalf: Provided, that "sales agent" shall not include an individual (herein referred to as a "Salesman") regularly and continuously employed by a code member, and who regularly devotes the major portion of his time to the solicitation of purchases of coal produced by his code member employer.

3. A "commission" is the total of all compensations and allowances received by a sales agent from a code member for services rendered in the sale of coal.

4. A "registered distributor" is a person who has been duly registered by the Coal Commission pursuant to the rules and regulations prescribed by the Commission for the administration of Section 4 II (h) of the Act.

5. A "spot order" is a legal obligation for the sale and purchase of coal, the delivery of which is stipulated to be made within not more than thirty (30) days from the date upon which the order was accepted.

6. A "contract" is a legal obligation for the sale and purchase of coal, the deliveries of which are stipulated to be made during a period longer than that specified for a spot order.

7. A "commitment" is the status of a contract between the time a quotation is accepted or an option is exercised and the time the contract is formally reduced to writing.

8. A "quotation" is an offer for the sale of coal at a price which the offerer may withdraw prior to its being acted upon by the offeree.

9. An "option" is an offer for the sale of coal at a price to be accepted within a time certain, during which time the offerer may not withdraw the offer without consent of the offeree.

10. "Coal Commission" as used herein, shall mean the National Bituminous Coal Commission established under the provisions of the Bituminous Coal Act of 1937.

11. "Act" as used herein, shall mean the Bituminous Coal Act of 1937.

12. "District Board" as used herein, shall mean any District Board established under the provisions of Section 4, Part I (a) of the Act.

13. "Statistical Bureau" shall mean, unless otherwise specifically stated, the Statistical Bureau of the Commission for the district in which the coal involved in any transaction is produced, or the district in which is located a mine of a Code member affected by any order or regulation.

14. "Minimum Price" shall mean a minimum price established and made effective by the Coal Commission.

15. "Maximum Price" shall mean a maximum price established and made effective by the Coal Commission.

16. "Registration and Register" as used herein, shall refer to registration with the Coal Commission pursuant to rules and regulations prescribed by the Commission for the administration of Section 4 of the Act.

17. The term "producer" includes all individuals, firms, associations, corporations, trustees, and receivers engaged in the business of mining coal.

18. The terms "reconsignment" and "diversion" as used herein shall mean the change in the original consignee or in the destination or route.

19. A "code member" means a producer who has accepted and holds membership in the Bituminous Coal Code promulgated under the Bituminous Coal Act of 1937.

20. "Coal" as used herein shall mean bituminous coal.

21. The term "bituminous coal" includes all bituminous, semi-bituminous, and sub-bituminous coal and shall exclude lignite, which is defined as a lignitic coal having calorific value in British thermal units of less than seven thousand six hundred per pound and having a natural moisture content in place in the mine of 30 per centum or more.

22. The term "control" means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting securities, by contract, or otherwise.

Section II.—Sales Agents

1. All appointments of sales agents by Code members or their agents or authorized representatives, and the terms and conditions of such appointments shall be subject to the Marketing Rules and Regulations from time to time established by the Coal Commission.

2. Each Code member shall require all his sales agents and agents and employees of sales agents to comply with the provisions of the Bituminous Coal Code and of all rules and regulations.

3. (a) Every contract for the appointment of a sales agent by Code members or by agents or authorized representatives of Code members, or any modification thereof, shall be in writing, and shall fully set forth therein all the terms and conditions of such contract, including the amount or basis of the sales agent's commission. Certified copies of all such agency contracts entered into on or prior to the effective date of the establishment of these rules and regulations and in effect on such date, shall be filed by the Code member with the Statistical Bureau, or Bureaus, within twenty (20) business days after such date.

(b) Certified copies of all contracts appointing sales agents or of agreements modifying any sales agency contract, entered into subsequent to the effective date of these rules and regulations, shall be similarly filed by the Code member within ten (10) business days after the date upon which such contracts or agreements have been entered into.

(c) Upon the expiration, termination, or rescission of any sales agency contract, the Code member principal shall make a report thereof to the Statistical Bureau, or Bureaus, within ten (10) business days after the date of such expiration, termination, or rescission.

4. (a) As to all coal sold by a Code member otherwise than through a sales agent or through an employee regularly employed as a salesman by the Code member, such Code member shall, not later than the fifteenth day of each month, file with the Statistical Bureau, or Bureaus, a list of all persons through whom, directly or indirectly, any such coal was sold during the preceding calendar month, with a statement of the duration and character of their employment, the tonnage sold by, and the rate and amount of compensation paid to, each of them.

(b) Not later than the fifteenth day of each month, each Code member shall also file with the Statistical Bureau, or Bureaus, similar information obtained from his sales agents concerning sales of coal made during the preceding calendar month, by the sales agents' representatives and employees other than salesmen regularly employed.

(c) Not later than the fifteenth day of each month, each Code member shall also file with the Statistical Bureau, or Bureaus, a statement showing the names and addresses of distributors to whom the Code member or his sales agents sold coal during the preceding calendar month, the tonnage sold, and the amount of discount allowed to each such distributor.

5. A list showing the names and addresses of sales agents and the Code members for whom such agents act shall be published by the Coal Commission from time to time.

6. All agency contracts and other information filed by Code members in conformity with the foregoing regulations, other than the names and addresses of sales agents, shall be held by the Coal Commission as the confidential records of said parties and shall not be made public without the consent of the Code member from whom the same shall have been obtained, except where such disclosure is required in any proceeding before the Coal Commission by way of enforcement of the Act or upon the order of any court of competent jurisdiction.

7. From and after twenty (20) business days following the effective date of these Marketing Rules and Regulations no Code member or sales agent of Code member shall allow or pay, directly or indirectly, any commission or compensation to any sales agent

(a) Unless the contract of agency shall have been filed with the Coal Commission, as hereinbefore required, and

(b) Unless the sales agent shall have agreed, in writing, with the Code member to conform to and observe the minimum and maximum prices and Marketing Rules and Regulations established by the Coal Commission and the Fair Trade Practice Provisions of the Act, as well as proper Orders of the Commission, and

(c) Unless the sales agent shall have in good faith complied with the agreement as in paragraph (b) above provided.

8. No commission shall be paid to a sales agent by a Code member where the coal is delivered or sold to any person who, financially or otherwise, controls such agent in whole or in part.

Section III.—Discounts and Allowances

1. No Code member or sales agent of a Code member shall pay or allow any discount from minimum prices to any person unless such person has been registered by the Coal Commission as authorized to receive such discount at the time of the sale.

2. Subject to further order of the Coal Commission, the amount of commission

to be paid by a Code member to his sales agent shall be fixed by agreement of the parties subject, however, that upon complaint of violation of the unfair methods of competition, as provided in the Act, the amount of such commission shall be subject to review by the Coal Commission.

Section IV.—Quotations, Options and Contracts

1. Subject to further order of the Coal Commission no Code member or sales agent of a Code member shall enter into any agreement or order for the sale of coal providing for delivery for a period in excess of that authorized for a spot order, and no prices shall be less than the applicable minimum prices in effect at the time of the making of the agreement; Provided, however, that contracts for periods not exceeding one (1) year may be made with agencies of the Federal Government or with such agencies of State or local governments, as are required by law to purchase coal for periods in excess of thirty (30) days, at the following applicable minimum prices:

(a) For deliveries during the first thirty (30) days of the contract, at not less than the applicable minimum prices in effect at the time of the making of the agreement;

(b) For deliveries thereafter, at not less than the applicable minimum prices in effect at the time of delivery if such price is higher than the contract price.

In the case of governmental agencies, options may be given for a period not exceeding forty-five (45) days. Subject to further order of the Coal Commission, no option for the sale of coal may be given, except as herein specifically provided.

2. Upon the revocation or suspension of Rule 1 of this Section, Code members or sales agents of Code members may thereafter enter into contracts for the sale and delivery of coal at prices not less than the minimum price in effect at the time of the making of the contract, upon the following conditions:

(a) No contract for the sale of coal shall provide for delivery over a period in excess of twelve (12) months, except by special permission from the Coal Commission upon a showing of the necessity of meeting long term contract competition of oil, gas, or other fuels or forms of power, or for such other reasons as the Commission may deem appropriate in order to further the effectual administration of the Act.

(b) No contract for the sale of coal shall provide for deliveries to commence at a time later than ninety (90) days from the date upon which such contract was entered into.

(c) All contracts shall be in writing and shall express the entire agreement between the parties. The contract shall clearly state the date of execution, the effective date, the expiration date, the price agreed upon, the terms of payment, the size and grade of coal sold, the number of cars or tonnage to be shipped, the name of the originating mine, and, where the coal is purchased for consumption, the use to which the coal is to be applied. Contracts may also be made either (1) calling for a buyer's entire requirements or a stated percentage of his requirements, showing the maximum tonnage to be shipped thereunder, or (2) covering a buyer's requirements and specifying the tonnage to be shipped with an allowable overshipment or undershipment of not exceeding twenty (20) percent of the tonnage specified.

The provisions of the rule stated in the foregoing paragraph relating to quantity shall not apply to contracts made with agencies of the Federal, State or local Governments.

(d) Every contract shall express the entire agreement between the parties and no modification thereof shall be made except by written agreement which shall conform to all the requirements set forth in these rules and regulations.

(e) Each contract shall contain the following provisions, the meaning and effect of which shall not be changed or altered by any other provision of the contract:

"(1) This contract and the performance of all provisions thereof are expressly subject to the Bituminous Coal Act of 1937 and the lawful orders and regulations issued thereunder by the National Bituminous Coal Commission.

"(2) No shipment consigned to any destination point may be diverted or reconsigned without the consent of the seller confirmed in writing. In case of any reconsignment or diversion, the seller shall charge and the buyer shall pay not less than the minimum price prescribed for such coal for delivery to the destination to which such shipment is actually delivered and for the use to which it is actually applied.

"(3) The coal shipped pursuant to this contract is sold and purchased upon the following conditions:

"(A) If the coal is sold for consumption, it shall be used in the plant or plants named herein and for the use stated herein;

"(B) In case of diversion by the buyer to a use other than that stated herein, the buyer shall notify the seller in writing and the seller shall charge and the buyer shall pay not less than the applicable minimum price for such coal at the time of diversion for the use to which it is actually applied."

(f) In any case where a contract is made by a sales agent of a Code member, such sales agent shall not exercise the rights of the seller as defined in Item (e) (2) of rule 2 of this section without first securing the consent of the Code member producing such coal to be confirmed in writing.

(g) Upon the revocation or suspension of Rule 1 of this Section, quotations and options for the sale of coal may be given for a period not exceeding fourteen (14) days. If the minimum price is increased beyond the quoted price within such fourteen (14) days, any quotation or option not accepted or exercised prior to the effective date of the price change shall, without notice, be considered withdrawn and no longer effective. Every quotation or option shall contain a provision to the foregoing effect and shall further stipulate that any contract or spot order entered into thereunder shall be subject to these Marketing Rules and Regulations.

(h) The provisions of this Rule 2 (g) shall not apply to sealed bids on business of the United States Government or States or political subdivisions thereof, in which cases quotations and options at not less than the minimum price in effect at the time the bid is filed may be given for a period not exceeding forty-five (45) days from the final filing date of bids.

3. A report of every commitment shall be filed by the Code Member or his sales agent with the Statistical Bureau or Bureaus within fifteen (15) business days from the date of the making of the agreement. Such reports shall set forth all the terms and conditions of the commitment. A true copy of every contract and of any agreement for modification thereof shall be filed with the Statistical Bureau within fifteen (15) business days from the date of execution of such contract or agreement for modification: Provided, however, that a report of the commitment need not be filed if a copy of the contract is filed within fifteen business days.

Section V.—Spot Orders

1. A spot order shall be in writing or confirmed in writing within five (5) business days from the date of the making thereof.

2. Each spot order shall be subject to the following conditions which shall either be endorsed upon the form of the order or upon the written confirmation thereof by the Code member or his sales agent, the meaning and effect of which shall not be changed or altered by any other provision of the order:

"(a) No shipment consigned to any destination may be diverted or reconsigned without the consent of the seller confirmed in writing. In case of any reconsignment or diversion, the seller shall charge and the buyer shall pay not less than the minimum price prescribed for such coal for delivery to the destination to which such shipment is actually delivered and for the use to which it is actually applied.

"(b) The coal shipped pursuant to this order is sold and purchased upon the following conditions:

"(1) If the coal is sold for consumption, it shall be used in the plant or plants named herein and for the use stated herein;

"(2) In case of diversion by the buyer to a use other than that stated herein, the buyer shall notify the seller in writing and the seller shall charge and the buyer shall pay not less than the applicable minimum price prescribed for such coal at the time of diversion for the use to which it is actually applied.

"(c) If shipments called for by this order are not completed within thirty (30) days from the date of this order, the unfilled portion of the order shall be cancelled and no delivery of such tonnage shall be made."

3. In any case where a sale is made by a sales agent of a Code member, such sales agent shall not exercise the rights of the seller as defined in Item 2 (a) of this Section without first securing the consent of his Code member principal to be confirmed in writing.

4. All the terms and conditions of a sale of coal must be fully and expressly set forth either in the order or in the written confirmation thereof, and such order or written confirmation thereof shall specifically contain all the terms required by Rule 2 (c) of Section IV of these marketing rules and regulations. Within ten (10) business days after the date of the making of the spot order or date of the written confirmation thereof, the Code member or his sales agent shall file with the Statistical Bureau or Bureaus a copy of such spot order or confirmation. Any modification of a spot order must also be made in writing and filed with the Statistical Bureau or Bureaus in the same manner.

Section VI.—Use of Coal Analyses

1. No analysis of coal shall be utilized by a Code member, sales agent, sales representative or wholesaler, or farmers' co-operative organization making a resale, in selling or offering for sale any coal produced by the Code member, unless such Code member shall have previously filed with the Statistical Bureau of the Coal Commission and the District Board for the district in which the coal is produced, copies of such analysis, together with a certificate setting forth the time and manner of obtaining the sample analyzed, the name and address of the person or firm making the analysis and stating that such analysis is truly representative of the grade and size of coal as regularly produced by the Code member. Each such analysis shall be not less than a proximate analysis showing ash, volatile matter, fixed carbon, sulphur and British Thermal Units and ash softening temperature. Each analysis shall further show whether made on an "as received" or moisture "free" basis, and if on an "as received" basis, the analysis shall include moisture content.

2. All analyses so filed shall be subject to inspection at the office of the Statistical Bureau at any time during office hours by any interested person, and may be used by the District Board and the Coal Commission in determining from time to time proper classifications of the coals produced by the Code member.

3. From and after the effective date of these rules and regulations, no Code member shall enter into or perform any agreement made upon a penalty or a premium and penalty basis which will permit the sale of coal at an aggregate contract price below the applicable minimum price established by the Coal Commission for the coal sold and delivered upon such agreement subsequent to said effective date: Provided, that where a Code member has entered into an agreement made upon a penalty or a premium and penalty basis, this rule shall not be considered as affecting any claim that the buyer might otherwise have had for substandard preparation or quality under Section IX of these marketing rules and regulations.

Section VII.—Terms of Payment

The price and fair trade practice provisions of the Act shall not be evaded or violated by a Code member or his sales agent through the use of terms of payment, and in no instance shall terms of payment be more favorable than the following:

1. On railroad fuel, the date of payment shall be on or before the 25th of the month following the date of shipment.

2. Coals sold to an industrial consumer for its own use shall not be sold on more favorable terms than net cash on the 20th of each calendar month, for all coal shipped during the preceding calendar month, except as otherwise provided in this proposal, and paragraph 1, Section 7, hereof; no coal shall be sold on more favorable terms than net cash on the 10th of each calendar month for all coal shipped during the preceding calendar month. This paragraph, paragraph 2 of Section 7 hereof, shall not be construed as requiring producers to extend to each purchaser the full credit terms herein permitted, but each producer shall be free to determine as to each purchaser whether credit be extended, and the terms of credit, if allowed, provided such terms are not more favorable than as herein provided for.

3. Payment shall be made in full and on a net cash basis. No portion of the invoice price may be withheld by agreement by reason of any unadjusted claim of the buyer, nor shall any portion be withheld or deposited in escrow by reason of any alleged agreement relating to the constitutionality of any provision of the Act or the validity of any order of the Coal Commission.

4. Where payment is made by note, trade acceptance, or other form of indebtedness, or where payment is made under any circumstances after the due date of the account, the seller shall charge, and the buyer shall pay interest from and after the due date of account at the current rate in the locality to which the coal is shipped to the vendee. Every Code member or his sales agent shall each month report to the Statistical Bureau, and the District Board for the district in which he is located, every case in which an overdue payment or a note, trade acceptance, or other form of indebtedness, has been accepted in settlement of any account, setting forth all conditions of such overdue payment, note, trade acceptance, or other form of indebtedness.

5. Freight on rail shipments shall not be paid by a Code member or his sales agent, except to prepay stations as published in current railway tariffs, or to the United States Government, States or political subdivisions thereof. Where freight is thus prepaid, the amount thereof shall immediately upon receipt of freight bill or notice of sight draft payment, be invoiced to the buyer for immediate payment.

6. The agreement by a Code member, express or implied, to extend credit for a period longer than that authorized by these rules and regulations, with the effect of violating the price provisions or the unfair methods of competition of the Act, shall constitute a violation of the Code.

Section VIII.—Miscellaneous

1. No deduction or allowance from invoice prices shall be granted by any code member or his sales agent to any purchaser for advertising.

2. Code members (or their agents or representatives) either individually or collectively, with or without financial participation by retailers of coal, may conduct advertising campaigns seeking to increase the use of coal. The amount of expenditures incurred by a code member, his agent or representative for advertising shall be subject to review by the Coal Commission as to the good faith of the transaction.

3. Where coal is refused by a consignee in transit or at destination, the Code member may sell the same at the best obtainable price; Provided, that in each case the Code member shall file with the Statistical Bureau, within five (5) days from the date of such resale a statement giving the name and address of the consignee and the reasons for the refusal, the price at which the coal was originally sold, the name and address of the purchaser upon resale and the price received by the seller upon resale, a copy of the carrier's notice of refusal or notice of reconsignment and such other pertinent facts as may be offered in proof of the necessity of such resale, and that in making such resale the provisions of the Code and the Marketing Rules and Regulations of the Coal Commission other than as to price have not been violated or evaded.

4. All Code members shall promptly furnish to the Statistical Bureau of the Coal Commission for the District in which the coal originated, full reports of all reconsignments and shall authorize the carrier making such reconsignments to furnish complete information thereon to such Statistical Bureau.

5. No allowance shall be made for any shipment of coal of substandard prepa-

ration or quality unless formal claim duly executed by or on behalf of the buyer and verified by affidavit setting forth the amount claimed by way of allowance and reasons for the claim is filed with the Code member or his sales agent within ten (10) days after the receipt of the coal.

The Code member or sales agent with whom such claim for allowance is filed shall immediately notify the Statistical Bureau and the District Board, furnishing an authentic copy of the buyer's claim together with a statement of the producer's views as to the validity of the claim, setting forth:

(a) The name and address of the consignee and the reason for the allowance.

(b) The amount of allowance or adjustment made.

(c) The price at which the coal was sold.

(d) The tonnage delivered.

(e) The name of the mine and the Code member.

(f) Date of shipment.

(g) Grade and size of coal and destination.

(h) A statement that the adjustment has not been made with the purpose or intent of evading the price or fair trade practice provisions of the Act.

6. The screening of mine run or re-screening of other grades of coal sold and billed as such for the buyer's account for the purpose of keeping the resultant products separate in the shipment thereof is prohibited. All coal must be sold and invoiced on a price per ton basis and under the designation shown therefor in the price schedule published by the Coal Commission.

7. All coal confiscated or lost in transit shall be invoiced to the carrier at not less than the minimum price established for such coal for shipment to the destination and use to which the coal was sold or the established price for sale to the carrier at the place of confiscation or lost, whichever may be the higher.

8. No substitution may be made upon any spot order or contract, of any grade or size of coal taking a minimum price higher than the price specified in such order or contract, except upon the following conditions:

(a) The proposed substitution shall not be an express or implied condition of the order or contract.

(b) The coal substituted must be coal which the Code member has already produced and loaded into transportation facilities and which cannot be sold promptly by the exercise of the usual sales effort, such substitution to be limited to a specific tonnage for shipment on a specific order and from a specific mine.

(c) The substitution must be reasonably necessary as an emergency measure in order to continue operation of the mine of the Code member.

(d) The substitution shall be acceptable to the purchaser of the coal, and shall not be made with the purpose or effect of conferring any advantage on the purchaser or securing any preference or advantage for the Code member over his competitors.

(e) Such substitution may be made only with the approval of a duly designated representative of the Commission and in such instance formal application therefor shall be made upon forms provided by the Commission and permits shall be issued prescribing the conditions of substitution in each case approved.

(f) Copies of substitution permits shall be mailed daily to the office of the District Board and weekly summaries of substitution permits shall be mailed to all District Boards within the Price Area. The Commission may from time to time publish the essential facts as to all substitution permits granted.

(g) In each case of coal shipped under a substitution permit each invoice shall specifically show the permit number and the size and grade of coal substituted.

(h) Pea or slack shall not be loaded for shipment in box cars.

9. Failure to file information required by the within Marketing Rules and Regulations or the filing of false information, wilfully made, will subject the party failing to file the information required or the party so filing, to the penalties of the Act and other penalties imposed by law.

10. These Marketing Rules and Regulations are subject to revision and amendment by further order of the Coal Commission.

MINIMUM PRICE AREA NO. 6—DISTRICT BOARD NO. 17

PROPOSED MARKETING RULES AND REGULATIONS

A witness for District Board No. 17, properly qualified as an expert in the marketing of coal in that District, introduced into evidence as Exhibit No. 187 the rules and regulations proposed by District Board No. 17 in compliance with Commission Order No. 244. This witness testified that these rules and regulations were properly submitted to Code Members within said District and that no protests concerning such proposals were received from Code Members. Accordingly, the Board, on August 3, 1938, adopted said rules and regulations and later submitted them to the Commission.

District Board No. 17 proposed the following definition of a sales agent, Exhibit No. 187, Section 1, paragraph 2:

"A 'sales agent' is a person who as agent, in law or in fact, sells coal for or on behalf of a code member."

Rule 4, Section 2, of Exhibit No. 187, providing for the filing with the Commission of certain data, differentiates a sales agent from a sales representative regularly employed as salesmen. It is apparent from this rule that the District Board did not intend that a sales representative regularly employed as a salesman should be included in the definition of a "sales agent". We are of the opinion that the definition of a "sales agent" should be clarified so as clearly to indicate this differentiation. For the purpose of further clarification, and to prevent the granting of discounts in the form of commissions, we are of the opinion that the definition of a sales agent should clearly indicate that persons who purchase coal do not come within the scope of the definition. Accordingly, we modify the definition of a "sales agent" contained in Section 1, rule 2, to read as follows:

"A 'sales agent' is a person who, as agent of a code member (and therefore without purchasing the coal), sells coal produced by such code member for him or on his behalf: Provided, that 'sales agent' shall not include an individual (herein referred to as a 'salesman') regularly and continuously employed by a code member, and who regularly devotes the major portion of his time to the solicitation of purchases of coal produced by his code member employer."

For the purpose of clarification, we modify the definition of a "commission" contained in Section 1, rule 3, to read as follows:

"A 'commission' is the total of all compensations and allowances received by a sales agent from a code member for services rendered in the sale of coal."

The witness for the District Board testified that by the use of the terms "wholesaler" and "farmers' cooperative organization" in the Board's rules relating to registration contained in Sections 3 and 4 of Exhibit No. 187, the District Board meant distributors as referred to in Section 4 II (h) of the Act. The witness for the District Board was of the opinion that a more effective compliance with the Act would be secured if the registration of the "wholesalers" and "farmers' cooperative organizations" would be complete before these marketing rules and regulations became effective. Accordingly, it was the witness' opinion that the rules relating to the registration of wholesalers and the rules relating to the registration of farmers' cooperative organizations proposed by the District Board should not be submitted in this hearing. Consideration of such rules in this hearing is improper for the reason that Order No. 244 only directed the various District Boards to propose rules and regulations incidental to the sale and distribution of coal by Code Members. It was the opinion of the witness, however, that rules providing that no discount should be granted except to persons properly registered with the Commission were proper in this hearing and the witness is correct in this respect.

In light of these views, we are of the opinion that any definition purporting to define what persons come within the term "distributor," as used in Section 4 II (h) of the Act, is improperly submitted in this hearing and that, accordingly, the definitions of a "wholesaler" and "farmers' cooperative organizations" proposed by the District Board in Section I, paragraph 4 and 5, should be deleted and that the following definition of a "registered distributor" is proper:

"A 'registered distributor' is a person who has been duly registered by the Coal Commission pursuant to the rules and regulations prescribed by the Commission for the administration of Section 4 II (h) of the Act."

We are of the opinion that the definition of a "wholesale discount" proposed in Section I, paragraph 6, is not a proper subject for consideration in this hearing but should be determined in a hearing held pursuant to Section 4 II (h) of the Act.

The term "retailing" appears only in a rule which provides that "no discount from minimum or other prices shall be paid or allowed on coal sold to any person for retailing by him."—Section V, rule 4, Exhibit No. 187. The term is defined as the selling of coal in lots of less than a cargo or railroad carload. It is apparent that the District Board intended to prohibit the payment of all discounts except as authorized by Section 4 II (h) of the Act. Since such a rule is in fact determinative of those persons who may receive discounts under Section 4 II (h) of the Act, we are of the opinion that it is not properly the subject of this hearing. Accordingly, the definition of "retailing" contained in paragraph 7 of Section I should be deleted.

For the purpose of clarification, we modify the definition of a "commitment" contained in paragraph 10 of Section I to read as follows:

"A 'commitment' is the status of a contract between the time a quotation is accepted or an option is exercised and the time the contract is formally reduced to writing."

We are of the opinion that definitions 17 to 22 contained in Section I of the composite findings hereinafter given are reasonable and desirable. The District Board did not define these terms although they appear in various rules proposed by the Board.

Rule 3 of Section II requires all contracts for the appointment of sales agents by Code Members, or authorized representatives of Code Members, to be in writing and that copies of such agency contracts shall be filed with the Statistical Bureau. It is obvious that the purpose of this rule is to furnish necessary information to the Commission to enable it to determine whether or not the code is being violated by sales agents or by Code Members through the use of sales agents. In order fully to effectuate the purpose of this rule, we are of the opinion that the rule should be modified as hereinafter set forth in rule 3 of Section II of the composite findings, so as clearly to indicate that the contract shall set forth all the terms and conditions of the contract, including the amount or basis of the sales agents' commission, and, furthermore, that all agreements modifying sales agency contracts should likewise be in writing and filed with the Statistical Bureau. The District Board leaves a blank date for the time of filing such contracts entered into prior to the effective date of these rules and regulations. The witness for the District Board testified that dates were left blank in the District Board's proposals so that the Commission could fill in the effective date. We believe that a period of twenty (20) days after the establishment of the rules and regulations is a reasonable period within which to require the filing of sales agency contracts entered into on or prior to the effective date of these rules and regulations.

Rule 5 of Section II provides that the Commission should publish a list showing the names and addresses of sales agents and the Code Members for whom such agents act. In order that the Commission may properly carry out this rule and so that the lists published shall be accurate, we are of the opinion that the Code Member principal shall report to the Statistical Bureau the expiration, termination or rescission of all sales agency contracts as provided in rule 3 (c) of Section II of the composite findings hereinafter set forth.

It is apparent that the District Board, by rule 4, Section II, intended that each Code Member shall file monthly with the Statistical Bureau a statement showing the tonnage sold to wholesalers and the amount of discounts paid or allowed to them. We are of the opinion that this rule should be clarified so as clearly to require such filing as provided in rule 4 (c) of Section II in the composite findings hereinafter set forth.

It is apparent that the blank date in rule 7 of Section II was meant to conform to the blank date in rule 3; therefore, the period after which no Code Member shall pay any commission to a sales agent under this rule should be twenty (20) days after the effective date of these marketing rules and regulations. Furthermore, we are of the opinion that this rule should be clarified as set forth in rule 7 of Section II of the composite findings subsequently given.

Section V, rule 6, prohibits the payment of a commission to a sales agent where the coal is delivered or sold to any person who controls in whole or in part such sales agent. This rule, as it relates to sales agents, should be properly contained in Section II which is entitled "Sales Agents." Witness for the District Board testified that in his opinion the rule should be modified so as also to prohibit the payment of commissions where the sales agent controls the purchaser. In our opinion, this modification is improper for the reason that it is obviously intended to prevent possible price evasion through the use of subsidiaries or affiliated sales agencies. Such a rule comes within the provisions of Section 4 II (g) of the Act and, accordingly, should only be considered at a hearing held pursuant to the provisions of that section.

As previously stated, the witness for the District Board was of the opinion that rules relating to the registration of wholesalers and to the registration of farmers' cooperative organizations should not be considered in this hearing. In light of this testimony and in view of the fact that the Commission's Order related solely to the rules concerning the sale of coal by Code Members, we are of the opinion that rules 2, 3, 4, 5, and 6, of Section III, and rules 2, 3, 4, and 5, of Section IV, should be deleted and that rules I of Sections III and IV should be combined and modified to read as follows:

"No Code Member or sales agent of a Code Member shall pay or allow any discount from minimum prices to any person unless such person has been registered by the Coal Commission as authorized to receive such discount at the time of the sale."

Rule 2 of Section V would permit the payment of a discount to a wholesaler or farmers' cooperative organization merely upon the filing of an application for registration. The witness was of the opinion that such a rule would not be desirable and that, in fact, the District Board only intended that a discount should be granted where registration had actually taken place. Accordingly, rule 2 of Section V should be deleted.

As previously stated, rule 4 of Section V, in light of the definition of "retailing" as proposed by the Board is determinative of the persons entitled to a discount under Section 4 II (h) of the Act, and accordingly, is not a proper subject for consideration in this hearing.

Witness for the District Board testified that rule 5 of Section V would not be desirable if the Commission were to establish maximum discounts before the prices became effective. The Commission contemplates the establishment of such maximum discounts prior to the effective date of minimum prices and, accordingly, rule 5 of Section V should be deleted.

In so far as rule 6 of Section V prohibits the payment of a discount to a wholesaler where the coal is delivered or resold to any person who controls in whole or in part the wholesaler, we are of the opinion that this rule cannot be properly enforced and, accordingly, should be deleted. In a proceeding against a Code Member for violation of this rule, a Code Member must be charged with knowledge of the fact that the wholesaler intended to resell the coal to a person who controls the wholesaler. It would be extremely difficult to prove such knowledge on the part of a Code Member. From the point of view of enforcement, the purpose of this rule could be properly effectuated only by a rule which would prohibit the wholesaler from receiving a discount on coal resold

to any person who controls him in whole or in part, and such a rule is the subject of consideration under a hearing held pursuant to Section 4, Part II (h) of the Act.

In proposing rule 1 of Section VI, prohibiting any agreement or order providing for delivery in excess of thirty (30) days, the District Board in its proposal left blank the period during which this rule was to be operative. The witness for the District Board testified that this rule should reasonably be in effect for a period of only sixty (60) days after the establishment of minimum prices, although the District Board in rule II of Section VI indicated that ninety (90) days would be a reasonable period. This rule is a drastic curtailment of the right to contract and is justified only by the absolute necessity of prohibiting inequities between Code Members as a result of long term contracts based upon prices which experience may prove to be incorrect. Since the time of revocation of the rule is dependent upon experience under regulated prices, such revocation date cannot be predetermined, but must be made subject to order of the Commission.

Rule II of Section VI, relating to the right to enter into contracts, provides that contracts may be entered into for the sale or delivery of coal at prices not less than the minimum price in effect at the time of the making of the contract. The Act does not authorize the establishment of a different governing minimum price based simply on the maximum length of time for which contracts may be made. Accordingly, we are of the opinion that the governing minimum price while rule 1 is in effect should likewise be the price in effect at the time of the making of the contract. However, rule 1 provides an exception for sales to governmental agencies in that contracts may be made with such agencies for a period not exceeding one (1) year at prices not less than the minimum price in effect at the time of the delivery. In order to minimize the possible unfairness that might result from permitting contracts to be made for one (1) year to governmental agencies, we are of the opinion that the governing minimum price as to such contracts should be the price established by the Coal Commission in effect at the time of delivery. However, for deliveries during the first thirty (30) days of such a contract, the governing minimum price should be the price in effect at the time of the making of the contract, in order to place governmental agencies and other purchasers on an equal basis during the spot order period. Accordingly, we modify rule 1, Section VI of Exhibit 187 in the manner set forth in rule 1 of Section IV, of the composite findings subsequently given.

Rule II C of Section VI provides that all contracts shall be in writing and shall specify the date of execution, the effective date and expiration date, and the number of cars or tonnage to be shipped. While this rule is properly construed as to require that such writing shall specify all the essential terms of the contract, we are of the opinion that, for the purpose of clarification, the rule should specifically require that the writing should likewise state the price agreed upon; the terms of payment; the size and grade of the coal sold; the name of the Code Member producer and the originating mine; and, where the coal is purchased for consumption, the use to which the coal is to be applied.

In testifying as to the restrictions contained in this rule on an allowable over or under shipment where the contract covers a buyer's requirement and specifies the amount of tonnage to be shipped, the witness, in answer to a question whether twenty (20%) per cent would be a fairer percentage than the ten (10%) per cent, testified that, in his opinion, flexibility is required in certain exceptional instances as on sales to governmental agencies. The witness likewise testified that the ten (10%) per cent restriction is not desirable on sales to railroads and that on sales to governmental agencies as much as fifty (50%) per cent is sometimes necessary. In light of this testimony, we are of the opinion that the ten (10%) per cent restriction should be changed to twenty (20%) per cent and that an exception from the rule relating to quantity should be made in the case of contracts with agencies of the Federal, State, or local Government. Accordingly, we modify rule II C of Section VI in the manner set forth in rule 2C of Section IV of the composite findings subsequently given.

Rule II of Section VI provides that no contract shall be made for the delivery of coal for retailing at less than the minimum price in effect at the time of shipment. This rule makes an exception to the general rule contained in rule II, which provides that contracts may be entered into for the sale of coal at prices not less than the minimum price in effect at the time of the making of the contract. The witness for the District Board, on cross-examination, testified that this exception was justified in that industrial consumers must be protected by contracts at a price fixed at the time of the making of the contract and that such rule, if applied to retail dealers, would destroy the possibility of any satisfactory operation of the Act. It is our opinion that such discrimination as to retail dealers is unwarranted and unreasonable, and therefore Rule II E of Section VI should be deleted.

As stated by the witness for the District Board, rule II F 2 is necessary in order to prevent the sale below the minimum price by absorbing transportation charges. Accordingly, this rule should be deleted and considered separately in a hearing held pursuant to Section 4 II (g) of the Act, which prohibits such absorption.

We are of the opinion that rules 3 and 4 under paragraph 11 F of Section VI should be clarified as hereinafter set forth in rules 2 E 2 and 3 of Section IV of the composite findings hereinafter given.

Paragraph 5 of Rule II F of Section VI should be deleted for the reason that the witness for the District Board testified that the Board was never in favor of the rule as stated in such paragraph and was not interested in its inclusion in the proposed marketing rules.

Witness for the District Board testified that the second paragraph of rule IV of Section VI should be modified so as to delete the reference to coal purchased for the performance of governmental functions and that the rule should permit the giving of quotations and options on all proposed sales of coal to the United States Government or States or political subdivisions thereof. In light of this testimony, we are of the opinion that the suggested modification should be made.

The District Board did not propose any rule providing for the filing of contracts or the reporting of commitments. All contracts are required to be filed with the Statistical Bureau by Section 4 Part II (a) of the Act. We are of the opinion that a rule providing for the filing of a copy of every contract and of any agreement for modification thereof, within fifteen (15) business days from the date of execution, is desirable.

In order fully to inform the Commission as quickly as possible of every agreement for the sale of coal, we are also of the opinion that a report of every commitment should be filed within fifteen (15) days from the date of the making of the agreement unless the written contract itself has been filed in that period. Accordingly we are of the opinion that rule 3 of Section IV in the composite findings hereinafter set forth is reasonable and desirable.

Rule 1 of Section VII contained in Exhibit No. 187 should be clarified as hereinafter set forth in rule 1 of Section V of the composite findings. While a witness for the Board testified that in his opinion a copy of the invoice, if it covers a transaction, should be accepted as an acknowledgment of an order for the purpose of filing, we are of the opinion that such a rule is not desirable for several reasons. Section 4, Part II (a) of the Act required Code Members to report all spot orders to the Statistical Bureau. Furthermore, in order fully to effectuate the Act, it is necessary to require that all buyers of coal agree to certain conditions and in order to inform the Commission as to whether such conditions have actually been incorporated as part of the agreement, we are of the opinion that there should be filed with the Commission either an order or a written confirmation thereof, upon which such conditions are endorsed.

Rule 2 (a) of Section VII should be deleted for the same reason as previously given for the deletion of the same provision in Section VI, Rule II F 2.

In the light of the testimony given by the witness with reference to Rules 2 (b) and 2 (c) of Section VII, and for the purposes of clarification, these rules have been reworded in the manner set out in rules 2 (a) and (b) of Section II of the composite findings subsequently given.

The District Board does not propose any rule expressly requiring the filing of spot orders or any written confirmation thereof. However, the Board in Rule 4 of Section VII provided that any modification of the spot order must be made in writing and filed in the same manner as an order. We are of the opinion that rule 4 of Section V of the composite findings subsequently given expressly requiring the filing of spot orders or the written confirmation thereof, and requiring that any modification of spot orders must be made in writing and filed with the Statistical Bureau in the same manner as an order, is desirable and reasonable.

The District Board in Rules 4 and 5 of Section VIII provides that where agreements for the sale of coal are entered into upon a premium and penalty basis a statement setting forth the full terms of the premium and penalty provisions shall be filed with the Statistical Bureau. We are of the opinion that as a matter of law no Code Member may enter into or perform any agreement made upon a premium or a premium and penalty basis which will permit the sale of coal at an aggregate contract price below the applicable minimum price for the coal sold and delivered after the effective date of these rules and regulations, although the buyer under any premium and penalty contract may nevertheless be entitled to a claim for substandard preparation or quality. Accordingly, rule 6 of Section VI, of the composite findings subsequently given, is, in our opinion, r e a s o n a b l e and desirable.

With reference to Rule 1, Section IX, the witness for the District Board said that in his opinion and in the opinion of the Board the rule should be modified as follows:

"On railroad fuel and on coal sold to industrial consumers for their own use, the date of payment shall be on or before the twenty-fifth (25th) of the month following the date of shipment."

Rule 4 of Section IX does not indicate as of what time interest at the current market rate should be charged where payment is made by note, trade acceptance, or other form of indebtedness. For the purpose of clarification, we believe the rules should be modified so as to provide that interest shall be charged from the due date of the account.

Furthermore, a discrimination appears and no provision is made for the charging of interest in the case where payment is not made, at the due date of the account, whether by default of the buyer or pursuant to the agreement for the extension of the term of credit, and where such extension of the term of credit is not evidenced by a note, trade acceptance or other form of indebtedness. We therefore find this rule is unreasonable in this respect and should be amended to include a provision for the charging of interest under any circumstances when the account is not paid at the due date thereof.

While the District Board provided in Section IX, relating to terms of payment, that the price and fair trade provisions of the Act shall not be violated by the use of terms of payment and that, in no instance, shall the term of payment be more favorable than as specified in the rules, the District Board did not propose any specific rule making the agreement, express or implied, to extend credit for a period of longer than that authorized by the rules, a violation of the code. We are of the opinion that such a rule as set forth in paragraph 6 of Section IX of the composite findings is necessary and reasonable in order fully to effectuate the rules proposed by the District Board relating to terms of payment.

An expert witness testified that Item 7 under Rule 2 of Section X could not be answered accurately and that the only way this information could be furnished would be by guessing. The witness further stated that although the registration of crushing devices might be valuable for the information of the Commission, he was of the opinion that such registration is an administrative requirement and not necessarily a rule or regulation. We are of the opinion that Section X should be deleted.

In order more fully to effectuate the purpose of Rule 3 of Section XI and so that the Commission will be informed of all relevant facts, we are of the opinion that the statement to be filed with the Statistical Bureau, where coal is refused by consignee in transit, should state the price at which the coal was originally sold.

With reference to Rule 5 of Section XI, we are likewise of the opinion that the statement to be filed with the Statistical Bureau should be of real value to the Commission and should, accordingly, contain all relevant information which is necessary to determine whether adjustments for substandard preparation or quality have been made bona fide and not with the intention of evading prices. We are of the opinion that the statement should show, in addition to the information required in the rule as proposed by the Board, the price at which the coal was sold, the tonnage delivered, the name of the mine, the code member, date of shipment, grade and size of coal, and the destination.

We are of the opinion that rule 6 of Section XI should be modified to provide that all coal must be sold and invoiced on a price per ton basis. This modification, in our opinion, is necessary for a uniform procedure and method to govern the selling and invoicing of coal. We believe this rule is necessary or otherwise the Commission must either establish supplementary prices based simply on thermal efficiency or else undertake to translate sales made on such a basis into a price per ton basis in order to determine whether the minimum price has been violated or evaded.

Rule 7 of Section XI provides that coal confiscated or lost in transit shall be invoiced to the carrier at the market value of the coal, but in no event at less than the minimum price therefor established by the Coal Commission. This Commission has no jurisdiction to compel the Code Member to invoice such coal at any price above the minimum price. Accordingly, this rule should be modified so as to provide that such coal shall be invoiced to the carrier at not less than the established minimum price therefor.

We are of the opinion that the second paragraph of rule 8 (e) of Section XI should be deleted for the reason that it is impractical to enforce. Likewise, rule 8 (f) of Section XI should be deleted for the reason that it creates an unreasonable discrimination.

The witness testified that he recommended an additional rule which would provide that every wholesaler, distributor or sales agent shall cause to be clearly set forth upon any form of solicitation, order, invoice and statement covering coal offered for sale or sold, the following: (1) Either the name of the producer or (2) the trade name established and generally used by the producer in designation of coal produced from the mine from which shipment was made or is to be made. Such a rule cannot be directed against distributors at this hearing, but we are of the opinion that this rule is desirable and reasonable with reference to sales agents.

The witness for District Board No. 17 testified generally that the rules proposed by the District Board were reasonable, not inconsistent with the requirements of Section 4 of the Act, and in conformance with the standards of fair competition contained in the Act, although the witness on examination, as already stated, likewise testified that certain clarifications and modifications of such rules would, in his opinion, be desirable. Except as to such rules which we have already stated should be modified, we are of the opinion that the rules proposed by the District Board are in accordance with the above requirements.

Accordingly, we find that the following rules and regulations incidental to the sale and distribution of coal by Code Members in District No. 17 are reasonable, not inconsistent with the requirements of Section 4 of the Act, and in

conformance with the standards of fair competition established in the Act:

MARKETING RULES AND REGULATIONS INCIDENTAL TO THE SALE AND DISTRIBUTION OF COAL BY CODE MEMBERS WITHIN DISTRICT NO. 17 AS PROPOSED BY DISTRICT BOARD NO. 17 AND AS APPROVED, DISAPPROVED, OR MODIFIED FOR THE PURPOSE OF COORDINATION

Section I.—Definitions

1. The term "person" as used herein, includes individuals, firms, associations, partnerships, corporations, trusts, trustees, cooperatives, receivers and trustees in bankruptcy and in other legal proceedings, and any other recognized forms of business organizations.

2. A "sales agent" is a person who, as agent of a code member (and therefore without purchasing the coal), sells coal produced by such code member for him or on his behalf: Provided, that "sales agent" shall not include an individual (herein referred to as a "salesman") regularly and continuously employed by a code member, and who regularly devotes the major portion of his time to the solicitation of purchases of coal produced by his code member employer.

3. A "commission" is the total of all compensations and allowances received by a sales agent from a code member for services rendered in the sale of coal.

4. A "registered distributor" is a person who has been duly registered by the Coal Commission pursuant to the rules and regulations prescribed by the Commission for the administration of Section 4 II (h) of the Act.

5. A "spot order" is a legal obligation for the sale and purchase of coal, the delivery of which is stipulated to be made within not more than thirty (30) days from the date upon which the order was accepted.

6. A "contract" is a legal obligation for the sale and purchase of coal, the deliveries of which are stipulated to be made during a period longer than that specified for a spot order.

7. A "commitment" is the status of a contract between the time a quotation is accepted or an option is exercised and the time the contract is formally reduced to writing.

8. A "quotation" is an offer for the sale of coal at a price which the offerer may withdraw prior to its being acted upon by the offeree.

9. An "option" is an offer for the sale of coal at a price to be accepted within a time certain, during which time the offerer may not withdraw the offer without consent of the offeree.

10. "Coal Commission" as used herein shall mean the National Bituminous Coal Commission established under the provisions of the Bituminous Coal Act of 1937.

11. "Act" as used herein, shall mean the Bituminous Coal Act of 1937.

12. "District Board" as used herein, shall mean any District Board established under the provisions of Section 4, Part I (a) of the Act.

13. "Statistical Bureau" shall mean, unless otherwise specifically stated, the statistical bureau of the Commission for the district in which the coal involved in any transaction is produced, or the district in which is located a mine of a code member affected by any order or regulation.

14. "Minimum Price" shall mean a minimum price established and made effective by the Coal Commission.

15. "Maximum Price" shall mean a maximum price established and made effective by the Coal Commission.

16. "Registration and Register" as used herein, shall refer to registration with the Coal Commission pursuant to rules and regulations prescribed by the Commission for the administration of Section 4 of the Act.

17. The term "producer" includes all individuals, firms, associations, corporations, trustees, and receivers engaged in the business of mining coal.

18. The terms "reconsignment" and "diversion" as used herein shall mean the change in the original consignee or in the destination or route.

19. A "code member" means a producer who has accepted and holds membership in the Bituminous Coal Code promulgated under the Bituminous Coal Act of 1937.

20. "Coal" as used herein shall mean bituminous coal.

21. The term "bituminous coal" includes all bituminous, semi-bituminous, and sub-bituminous coal and shall exclude lignite, which is defined as a lignitic coal having calorific value in British thermal units of less than seven thousand six hundred per pound and having a natural moisture content in place in the mine of 30 per centum or more.

22. The term "control" means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting securities, by contract, or otherwise.

Section II.—Sales Agents

1. All appointments of sales agents by code members or their agents or authorized representatives, and the terms and conditions of such appointments shall be subject to the Marketing Rules and Regulations from time to time established by the Coal Commission.

2. Each code member shall be responsible for the compliance by all his sales agents and agents and employees of sales agents with the provisions of the Bituminous Coal Code and of all rules and regulations, promulgations and determinations of the Coal Commission.

3. (A) Every contract for the appointment of a sales agent by Code Members or by agents or authorized representatives of Code Members, or any modification thereof, shall be in writing, and shall fully set forth therein all the terms and conditions of such contract, including the amount or basis of the sales agent's commission. Certified copies of all such agency contracts entered into on or prior to the effective date of the establishment of these rules and regulations and in effect on such date, shall be filed by the Code Member with the Statistical Bureau, or Bureaus, within twenty (20) business days after such date.

(B) Certified copies of all contracts appointing sales agents or of agreements modifying any sales agency contract, entered into subsequent to the effective date of these rules and regulations, shall be similarly filed by the Code Member within ten (10) business days after the date upon which such contracts or agreements have been entered into.

(C) Upon the expiration, termination, or rescission of any sales agency contract, the Code Member principal shall make a report thereof to the Statistical Bureau, or Bureaus, within ten (10) business days after the date of such expiration, termination, or rescission.

4. (A) As to all coal sold by a Code Member otherwise than through a sales agent or through an employee regularly employed as a salesman by the Code Member, such Code Member shall, not later than the fifteenth day of each month, file with the Statistical Bureau, or Bureaus, a list of all persons through whom, directly or indirectly, any such coal was sold during the preceding calendar month, with a statement of the duration and character of their employment, the tonnage sold by, and the rate and amount of compensation paid to, each of them.

(B) Not later than the fifteenth day of each month, each Code Member shall also file with the Statistical Bureau, or Bureaus, similar information obtained from his sales agents concerning sales of coal made during the preceding calendar month, by the sales agents' representatives and employees other than salesmen regularly employed.

(C) Not later than the fifteenth day of each month, each Code Member shall also file with the Statistical Bureau, or Bureaus, a statement showing the names and addresses of distributors to whom the Code Member or his sales agents sold coal during the preceding calendar month, the tonnage sold, and the amount of discount allowed to each such distributor.

5. A list showing the names and addresses of sales agents and the Code Members for whom such agents act shall be published by the Coal Commission from time to time.

6. All agency contracts and other information filed by Code Members in conformity with the foregoing regulations, other than the names and addresses of sales agents, shall be held by the Coal Commission as the confidential records of said parties and shall not be made public without the consent of the Code Member from whom the same shall have been obtained, except where such disclosure is required in any proceeding before the Coal Commission by way of enforcement of the Act or upon the order of any court of competent jurisdiction.

7. From and after twenty (20) business days following the effective date of these Marketing Rules and Regulations no Code Member or sales agent of Code Member shall allow or pay, directly or indirectly, any commission or compensation to any sales agent.

(a) Unless the contract of agency shall have been filed with the Coal Commission, as hereinbefore required, and

(b) Unless the sales agent shall have agreed, in writing, with the Code Member to conform to and observe the minimum and maximum prices and Marketing Rules and Regulations established by the Coal Commission and the Fair Trade Practice Provisions of the Act, as well as all proper Orders of the Commission, and

(c) Unless the sales agent shall have in good faith complied with the agreement as in paragraph (b) above provided.

8. No commission shall be paid to a sales agent by a Code Member where the coal is delivered or sold to any person who owns such sales agent or who, financially or otherwise, controls such agent.

9. Every sales agent shall cause to be clearly set forth upon any form of solicitation, order, invoice and statement covering coal offered for sale or sold, the following:

(1) Either the name of the producer, or

(2) The trade name established and generally used by the producer in designation of coal produced from the mine from which shipment was made or is to be made.

Section III.—Discounts

1. No Code Member or sales agent of a Code Member shall pay or allow any discount from minimum prices to any person unless such person has been registered by the Coal Commission as authorized to receive such discount at the time of the sale.

Section IV.—Quotations, Options and Contracts

1. Subject to further order of the Coal Commission no Code Member or sales agent of a Code Member shall enter into any agreement or order for the sale of coal providing for delivery for a period in excess of that authorized for a spot order, and no prices shall be less than the applicable minimum prices in effect at the time of the making of the agreement: Provided, however, that contracts for periods not exceeding one (1) year may be made with agencies of the Federal Government or with such agencies of State or local governments, as are required by law to purchase coal for periods in excess of thirty (30) days, at the following applicable minimum prices:

(a) For deliveries during the first thirty (30) days of the contract, at not less than the applicable minimum prices in effect at the time of the making of the agreement;

(b) For deliveries thereafter at not less than the applicable minimum prices in effect at the time of delivery if such price is higher than the contract price.

In the case of Governmental Agencies, options may be given for a period not exceeding forty-five (45) days. Subject to further order of the Coal Commission, no option for the sale of coal may be given, except as herein specifically provided.

2. Upon the revocation or suspension of Rule 1 of this Section, Code Members or sales agents of Code Members may thereafter enter into contracts for the sale and delivery of coal at prices not less than the minimum price in effect at the time of the making of the contract, upon the following conditions:

A. No contract for the sale of coal shall provide for delivery over a period in excess of twelve (12) months, except by special permission from the Coal Commission upon a showing of the necessity of meeting long term contract competition of oil, gas, or other fuels or forms of power, or for such other reasons as the Commission may deem appropriate in order to further the effectual administration of the Act.

B. No contract for the sale of coal shall provide for deliveries to commence at a time later than ninety (90) days from the date upon which such contract was entered into.

C. All contracts shall be in writing and shall express the entire agreement between the parties. The contract shall clearly state the date of execution, the effective date, the expiration date, the price agreed upon, the terms of payment, the size and grade of coal sold, the number of cars or tonnage to be shipped, the name of the originating mine, and, where the coal is purchased for consumption, the use to which the coal is to be applied. Contracts may also be made either (a) calling for a buyer's entire requirements or a stated percentage of his requirements, showing the maximum tonnage to be shipped thereunder, or (b) covering a buyer's requirements and specifying the tonnage to be shipped with an allowable overshipment or undershipment of not exceeding twenty (20) percent of the tonnage specified.

The provisions of the rule stated in the foregoing paragraph relating to quantity shall not apply to contracts made with agencies of the Federal, State or local Governments.

D. Every contract shall express the entire agreement between the parties and no modification thereof shall be made except by written agreement which shall conform to all the requirements set forth in these rules and regulations.

E. Each contract shall contain the following provisions, the meaning and effect of which shall not be changed or altered by any other provision of the contract:

"(1) This contract and the performance of all provisions thereof are expressly subject to the Bituminous Coal Act of 1937 and the lawful orders and regulations issued thereunder by the National Bituminous Coal Commission.

"(2) No shipment consigned to any destination point may be diverted or reconsigned without the consent of the seller confirmed in writing. In case of any reconsignment or diversion, the seller shall charge and the buyer shall pay not less than the minimum price prescribed for such coal for delivery to the destination to which such shipment is actually delivered and for the use to which it is actually applied.

"(3) The coal shipped pursuant to this contract is sold and purchased upon the following conditions:

"(a) If the coal is sold for consumption, it shall be used in the plant or plants named herein and for the use stated herein;

"(b) In case of diversion by the buyer to a use other than that stated herein, the buyer shall notify the seller in writing and the seller shall charge and the buyer shall pay not less than applicable minimum price for such coal at time of diversion, for the use to which it is actually applied."

F. In any case where a contract is made by a sales agent of a Code Member, such sales agent shall not exercise the rights of the seller as defined in Item E (2) of rule 2 of this section without first securing the consent of the Code Member producing such coal to be confirmed in writing.

G. Upon the revocation or suspension of Rule 1 of this Section, quotations and options for the sale of coal may be given for a period not exceeding fourteen (14) days. If the minimum price is increased beyond the quoted price within such fourteen (14) days, any quotation or option not accepted or exercised prior to the effective date of the price change shall, without notice, be considered withdrawn and no longer effective. Every quotation or option shall contain a provision to the foregoing effect and shall further stipulate that any contract or spot order entered into thereunder shall be subject to these Marketing Rules and Regulations.

H. The provisions of this Rule 2/G shall not apply to sealed bids on business of the United States Government or States or Political subdivisions thereof, in which cases quotations and options at not less than the minimum price in effect at the time the bid is filed may be given for a period not exceeding forty-five (45) days from the final filing date of bids.

3. A report of every commitment shall be filed by the Code Member or his sales

agent with the Statistical Bureau or Bureaus within fifteen (15) business days from the date of the making of the agreement. Such reports shall set forth all the terms and conditions of the commitment. A true copy of every contract and of any agreement for modification thereof shall be filed with the Statistical Bureau within fifteen (15) business days from the date of execution of such contract or agreement for modification: Provided, however, that a report of the commitment need not be filed if a copy of the contract is filed within fifteen (15) business days.

Section V.—Spot Orders

1. A spot order shall be in writing or confirmed in writing within five (5) business days from the date of the making thereof.

2. Each spot order shall be subject to the following conditions which shall either be endorsed upon the form of the order or upon the written confirmation thereof by the Code Member or his sales agent, the meaning and effect of which shall not be changed or altered by any other provisions of the order:

"(a) No shipment consigned to any destination may be diverted or reconsigned without the consent of the seller confirmed in writing. In case of any reconsignment or diversion, the seller shall charge and the buyer shall pay not less than the minimum price prescribed for such coal for delivery to the destination to which such shipment is actually delivered and for the use to which it is actually applied.

"(b) The coal shipped pursuant to this order is sold and purchased upon the following conditions:

"(1) If the coal is sold for consumption, it shall be used in the plant or plants named herein and for the use stated herein;

"(2) In case of diversion by the buyer to a use other than that stated herein, the buyer shall notify the seller in writing and the seller shall charge and the buyer shall pay not less than the applicable minimum price for such coal at the time of diversion for the use to which it is actually applied.

"(c) If shipments called for by this order are not completed within thirty (30) days from the date of this order, the unfulfilled portion of the order shall be cancelled and no delivery of such tonnage shall be made."

3. In any case where a sale is made by a sales agent of a Code Member, such sales agent shall not exercise the rights of the seller as defined in Item 2 (a) of this section without first securing the consent of his Code Member principal to be confirmed in writing.

4. All the terms and conditions of a sale of coal must be fully and expressly set forth either in the order or in the written confirmation thereof, and such order or written confirmation thereof shall specifically contain all the terms required by Rule 2 (c) of Section IV of these marketing rules and regulations. Within ten (10) business days after the date of the making of the spot order or date of the written confirmation thereof, the Code Member or his sales agent shall file with the Statistical Bureau or Bureaus a copy of such spot order or confirmation. Any modification of a spot order must also be made in writing and filed with the Statistical Bureau or Bureaus in the same manner.

Section VI.—Use of Coal Analyses

1. No analysis of coal shall be utilized by a Code Member of his sales agent, in selling or offering for sale any coal produced by the Code Member, unless such Code Member shall have previously filed with the Statistical Bureau of the Coal Commission and the District Board for the District in which the coal is produced, copies of such analysis, together with a certificate setting forth the time and manner of obtaining the sample analyzed, the name and address of the person or firm making the analysis and stating that such analysis is truly representative of the grade and size of coal as regularly produced by the code member. Each such analysis shall be not less than a proximate analysis showing ash, volatile matter, fixed carbon, sulphur and British Thermal units. Each analysis shall further show whether made on an "as received" or moisture "free" basis and if on an "as received" basis, the analysis shall include moisture content.

2. All analyses so filed shall be subject to inspection at the office of the Statistical Bureau at any time during office hours by any interested person, and may be used by the District Board and the Coal Commission in determining from time to time proper classifications of the coals produced by the code member.

3. Any analysis of the coal of a Code Member made by or on behalf of a consumer and accepted by the Code Member as the basis for an adjustment of price under any contract or order, shall be filed by the Code Member with the proper Statistical Bureau and District Board, within ten (10) days after such adjustment is made and shall be subject to the provisions of Rule 2 herein.

4. No agreement or order for the sale of coal produced by a Code Member, made upon a premium and penalty basis, shall be entered into or accepted by a Code Member unless the analysis upon which the premium and penalty clause is based has been previously filed as required in Rule No. 1. Such analysis shall be accompanied by a statement setting forth in full terms of the premium and penalty provisions of the proposed contract or order.

5. In the case of premium and penalty agreements entered into prior to the effective date of these regulations, and claimed to be continuing in effect, the Code Member shall file a statement containing the information required under Rule No. 4, within fifteen (15) days from such effective date.

6. From and after the effective date of these rules and regulations, no Code Member shall enter into or perform any agreement made upon a penalty or a premium and penalty basis which will permit the sale of coal at an aggregate contract price below the applicable minimum price established by the Coal Commission for the coal sold and delivered upon such agreement subsequent to said effective date: Provided, that where a Code Member has entered into an agreement made upon a penalty or a premium and penalty basis, this rule shall not be considered as affecting any claim that the buyer might otherwise have had for substandard preparation or quality under Section IX of these marketing rules and regulations.

Section VII.—Terms of Payment

The price and fair trade practice provisions of the Act shall not be evaded or violated by a Code Member, or his sales agent through the use of terms of payment, and in no instance shall terms of payment be more favorable than the following:

1. On railroad fuel and on coal sold to industrial consumers for their own use, the date of payment shall be on or before the twenty-fifth (25th) of the month following the date of shipment.

2. Other coals shall not be sold on more favorable terms of payment than net cash thirty (30) days from date of shipment.

3. Invoices shall be paid in full in United States currency, or funds equivalent thereto, not later than the due date.

No portion of the sale price may be withheld by agreement between the buyer and the seller based upon any unadjusted claim of the buyer.

No sales, delivery, or offer for sale of coal shall be made upon any condition, expressed or implied, that any portion of the sale price may be withheld by the buyer, or deposited in escrow, or made subject to rebate or refund by the seller, pending or based upon a determination of the constitutionality of any provision of the Act, of the jurisdiction of the Coal Commission, or of the validity or applicability of any order of the Coal Commission.

4. Where payment is made by note, trade acceptance, or other form of indebtedness, or where payment is made under any circumstances after the due date of the account, the seller shall charge and the buyer shall pay interest from and after the due date of the account at the current rate in the locality to which the coal is shipped to the vendee.

5. Freight on rail shipments shall not be paid by a Code Member or his sales agent except to prepay stations as published in current railway tariffs or to

the United States Government, States or political subdivisions thereof. Where freight is thus prepaid, the amount thereof shall immediately upon receipt of freight bill or notice of sight draft payment, be invoiced to the buyer for immediate payment.

6. The agreement by a Code Member, express or implied, to extend credit for a period longer than that authorized by these rules and regulations, with the effect of violating the price provisions or the unfair methods of competition of the Act, shall constitute a violation of the Code.

Section VIII.—Miscellaneous

1. No deduction or allowance from invoice prices shall be granted by any code member or his sales agent to any purchaser for advertising.

2. Code members (or their agents or representatives) either individually or collectively, with or without financial participation by retailers of coal, may conduct advertising campaigns seeking to increase the use of coal. The amount of expenditures incurred by a code member, his agent or representative for advertising shall be subject to review by the Coal Commission as to the good faith of the transaction.

3. Where coal is refused by a consignee in transit or at destination, the Code Member may sell the same at the best obtainable price: Provided, that in each case the code member shall file with the Statistical Bureau, within five (5) days from the date of such resale a statement giving the name and address of the consignee and the reasons for the refusal, the price at which the coal was originally sold, the name and address of the purchaser upon resale and the price received by the seller upon resale, a copy of the carrier's notice of refusal or notice of reconsignment and such other pertinent facts as may be offered in proof of the necessity of such resale, and that in making such resale the provisions of the Code and the Marketing Rules and Regulations of the Coal Commission other than as to price have not been violated or evaded.

4. All Code Members shall promptly furnish to the Statistical Bureau of the Coal Commission for the District in which the coal originated, full reports of all reconsignments and shall authorize the carrier making such reconsignments to furnish complete information thereon to such Statistical Bureau.

5. No allowance shall be made for any shipment of coal of substandard preparation or quality unless formal claim duly executed by or on behalf of the buyer and verified by affidavit setting forth the amount claimed by way of allowance and reasons for the claim is filed with the Code Member or his sales agent within ten (10) days after the receipt of the coal.

The Code Member or sales agent with whom such claim for allowance is filed shall immediately notify the Statistical Bureau and the District Board, furnishing an authentic copy of the buyer's claim together with a statement of the producer's views as to the validity of the claim, setting forth:

(a) The name and address of the consignee and the reason for the allowance.
(b) The amount of allowance or adjustment made.
(c) The price at which the coal was sold.
(d) The tonnage delivered.
(e) The name of the mine and the Code Member.
(f) Date of Shipment.
(g) Grade and size of coal and destination.
(h) A statement that the adjustment has not been made with the purpose or intent of evading the price or fair trade practice provisions of the Act.

6. The screening of mine run or rescreening of other grades of coal sold and billed as such for the buyer's account for the purpose of keeping the resultant products separate in the shipment thereof is prohibited. All coal must be sold and invoiced on a price per ton basis and under the designation shown therefor in the price schedule published by the Coal Commission.

7. All coal confiscated or lost in transit shall be invoiced to the carrier at not less than the minimum price established for such coal for shipment to the destination and use to which the coal was sold or the established price for sale to the carrier at the place of confiscation or loss, whichever may be the higher.

8. No substitution may be made upon any spot order or contract, of any grade or size of coal taking a minimum price higher than the price specified in such order or contract, except upon the following conditions:

(a) The proposed substitution shall not be an express or implied condition of the order or contract.

(b) The coal substituted must be coal which the Code Member has already produced and loaded into transportation facilities and which cannot be sold promptly by the exercise of the usual sales effort, such substitution to be limited to a specific tonnage for shipment on a specific order and from a specific mine.

(c) The substitution must be reasonably necessary as an emergency measure in order to continue operation of the mine of the Code Member.

(d) The substitution shall be acceptable to the purchaser of the coal, and shall not be made with the purpose or effect of conferring any advantage on the purchaser or securing any preference or advantage for the Code Member over his competitors.

(e) Such substitution may be made only with the prior approval of a duly designated representative of the Commission and in each instance formal application therefor shall be made upon forms provided by the Commission and permits shall be issued prescribing the conditions of substitution in each case approved.

(f) A monthly report of substitution permits shall be mailed by Code Members to the office of their Board. The Commission may from time to time publish the essential facts as to all substitution permits granted.

(g) In each case of coal shipped under a substitution permit each invoice shall specifically show the permit number and the size and grade of coal substituted.

9. Failure to file information required by the within Marketing Rules and Regulations or the filing of false information, wilfully made, will subject the party failing to file the information required, or the party so filing, to the penalties of the Act and other penalties imposed by law.

10. These Marketing Rules and Regulations are subject to revision and amendment by further order of the Coal Commission.

Section IX.—Unfair Methods of Competition

As provided in Section 4, Part II (i) of the Act, the following practices with respect to coal shall be unfair methods of competition and shall constitute violations of the code:

1. The consignment of unordered coal, or the forwarding of coal which has not actually been sold, consigned to the producer or his agent: Provided, however, that coal which has not actually been sold may be forwarded, consigned to the producer or his agent at rail or track yards, tidewater ports, river ports, or lake ports, or docks beyond such ports, when for application to any of the following classes: Bunker coal, coal applicable against existing contracts, coal for storage (other than in railroad cars) by the producer or his agent in rail or track yards or on docks, wharves, or other yards for resale by the producer or his agent.

2. The adjustment of claims with purchasers of coal in such manner as to grant secret allowances, secret rebates, or secret concessions, or other price discrimination.

3. The prepayment of freight charges with intent to or having the effect of granting a discriminatory credit allowance.

4. The granting in any form of adjustments, allowances, discounts, credits, or refunds to purchasers or sellers of coal, for the purposes or with the effect of altering retroactively a price previously agreed upon, in such manner as to create price discrimination.

5. The predating or postdating of any invoice or contract for the purchase or sale of coal, except to conform to a bona fide agreement for the purchase or sale entered into on the predate.

6. The payment or allowance in any form or by any device of rebates, refunds, credits, or unearned discounts, or

the extension to certain purchasers of services or privileges not extended to all purchasers under like terms and conditions, or under similar circumstances.

7. The attempt to purchase business, or to obtain information concerning a competitor's business by concession, gifts, or bribes.

8. The intentional misrepresentation of any analysis or of anlyses, or of sizes, or the intentional making, causing, or permitting to be made, or publishing, of any false, untrue, misleading, or deceptive statement by way of advertising, invoicing, or otherwise concerning the size, quality, character, nature, preparation, or origin of any coal bought, sold, or consigned.

9. The unauthorized use, whether in written or oral form, of trade-marks, trade names, slogans, or advertising matter already adopted by a competitor, or any deceptive approximation thereof.

10. Inducing or attempting to induce, by any means or device whatsoever, a breach of contract between a competitor and his customer during the term of such contract.

11. Splitting or dividing commissions, brokers' fees, or brokerage discounts, or otherwise in any manner directly or indirectly using brokerage commissions or jobbers' arrangements or sales agencies for making discounts, allowances, or rebates, or prices other than those determined under this Act, to any industrial consumer or to any retailers, or to others, whether of a like or different class.

12. Selling to, or through, any broker, jobber, commission account, or sales agency, which is in fact or in effect an agency or an instrumentality of a retailer or an industrial consumer or of any organization of retailers or industrial consumers, whereby they or any of them secure either directly or indirectly a discount, dividend, allowance, or rebates, or a price other than that determined in the manner prescribed by this Act.

13. Employing any person or appointing any sales agent, at a compensation obviously disproportionate to the ordinary value of the service or services rendered, and whose employment or appointment is made with the primary intention and purpose of securing preferment with a purchaser or purchasers of coal.

MINIMUM PRICE AREA No. 6—DISTRICT BOARD No. 18

PROPOSED MARKETING RULES AND REGULATIONS

A witness for District Board No. 18, properly qualified as an expert in the marketing of coal in that District, introduced into evidence as Exhibit No. 192, the marketing rules and regulations proposed by District Board No. 18 in compliance with Commission Order No. 244. This witness testified that these rules and regulations were properly submitted to Code Members within said District and that no protests concerning such proposals were received from Code Members. Accordingly, the District Board, on August 19, 1938, adopted said rules and regulations, and later submitted them to the Commission.

The witness testified that the definitions of "general sales agent" and "sales agent" could, in his opinion, be clarified and still stay within the meaning of the District Board by combining the two definitions as follows:

"A Sales Agent is a person who as agent, in law or in fact, sells coal for or on behalf of a Code Member."

Therefore, we are of the opinion that the above-mentioned definitions should be so combined and modified.

The witness testified that, in his opinion, registration of persons entitled to receive discounts is a matter of procedure and not a proper proposal under marketing rules and regulations. However, it was the witness' opinion that there should be a requirement of such registration. Order No. 244 directed various District Boards to propose rules and regulations incidental only to the sale and distribution of coal by Code Members. Any definitions purporting to define what persons come within the term "distributor", as used in Section 4 II (h) of the Act, is improperly submitted in this hearing and accordingly the definition of a "wholesaler" as proposed by the District Board in Section I, paragraph 6, should be deleted, and the following definition of a "registered distributor" should be substituted:

"A 'registered distributor' is a person who has been duly registered by the Coal Commission pursuant to the rules and regulations prescribed by the Commission for the administration of Section 4 II (h) of the Act."

We are of the opinion that the definition of a "wholesale discount" is not a proper subject for consideration in this hearing, but should be determined in a hearing held pursuant to Section 4 II (h) of the Act.

The term "industrial consumer" appears only in a section which has been deleted for the reasons later set forth. Therefore, this definition is superfluous and should be deleted.

The definition of a "retail dealer" should be deleted for the reasons hereinbefore set forth in the findings of fact for District No. 17.

The witness recommended that the definition of a "spot order" be clarified as follows:

"A 'spot order' is a legal obligation for the sale and purchase of coal, the deliveries of which are stipulated to be made within not more than thirty (30) days from the date upon which the order was accepted."

We are of the opinion that this modification is a desirable one and that the definition of a "spot order", as proposed by District Board No. 18, should be so modified.

The witness testified that the definition of "public institutions" was, in his opinion, superfluous. Moreover, the only section in which this definition appears has been deleted for reasons later set forth and, therefore, we are of the opinion that this definition should be deleted.

We are of the opinion that definitions 13 to 20 contained in Section I of the composite findings, hereinafter given, are reasonable and desirable. The District Board did not define these terms although they appear in various rules proposed by the Board.

The District Board for District No. 18 did not propose that contracts of sales agents should be filed with the Statistical Bureau of the Commission.

The witness testified that, in his opinion, some regulation of that character would be decidedly helpful in carrying out the purposes of the Act.

We are of the opinion that the filing of sales agency contracts with the Statistical Bureau is a necessary requirement in order to determine whether or not such contracts come within the unfair trade practices of the Act and we, accordingly, modify Section II in the manner set forth in the composite findings subsequently given.

As previously stated, the witness testified that registration of persons entitled to receive discounts is a procedural matter and should not be contained in the marketing rules and regulations.

The witness further stated that there should be some requirement of registration before such discounts could be granted. Furthermore, the witness stated that rules pertaining to discounts should properly be proposed in the discount hearing, which the Commission has opened and which has, at the present time, been continued. Accordingly, for these reasons, and for the reasons hereinbefore set forth in the findings of fact for District No. 17, we are of the opinion that Sections III, IV and V of the proposed rules and regulations of District No. 18, should be combined into one section as follows:

Discounts

1. No Code Member or sales agent of a Code Member shall pay or allow any discount from minimum prices to any person unless such person has been registered by the Coal Commission as authorized to receive such discount at the time of the sale.

2. Code Members or their sales agents may allow discounts from minimum prices on sales of coal to registered distributors, not in excess of the maximum discount or price allowances prescribed by the Coal Commission upon such sales. Only one such discount may be allowed on any such sale.

Section VII, entitled "spot sales," should be modified in accordance with the modification of the definition of "spot order" in Section I.

Rule 2 (a) of Section VIII pertains to the sale of coal below minimum price by absorbing transportation charges. Accordingly, this rule should be deleted and considered separately in a hearing held pursuant to Section 4 II (g) of the Act, which prohibits such absorption.

We are of the opinion that the fourth paragraph of Section IX should be modified so as to provide that all coal must be sold and invoiced on a price per ton basis. This modification, in our opinion, is necessary for a uniform procedure of method to govern the selling and invoicing of coal.

We are of the opinion that the paragraph relating to "Use of Crushers" in Section IX entitled "Miscellaneous" should be deleted because of illegality.

The witness for District Board No. 18 testified generally that the rules proposed by the District Board were reasonable, not inconsistent with the requirements of Section 4 of the Act, and in conformance with the standards of fair competition contained in the Act, although the witness, on examination, as already stated, likewise testified that certain clarifications and modifications of such rules would, in his opinion, be desirable. Except as to such rules which we have already stated should be modified, we are of the opinion that the rules proposed by the District Board are in accordance with the above requirements.

Accordingly, we find that the following rules and regulations, incidental to the sale and distribution of coal by Code Members in District No. 18, are reasonable, not inconsistent with the requirements of Section 4 of the Act, and in conformance with the standards of fair competition established in the Act:

MARKETING RULES AND REGULATIONS INCIDENTAL TO THE SALE AND DISTRIBUTION OF COAL BY THE CODE MEMBERS WITHIN DISTRICT NO. 18 AS PROPOSED BY DISTRICT BOARD NO. 18 AND AS APPROVED, DISAPPROVED, OR MODIFIED FOR THE PURPOSE OF COORDINATION

Section I.—Definitions

1. The term *Person* as used herein includes individuals, firms, associations, partnerships, corporations, trusts, trustees, trustees in bankruptcy, receivers, and all other recognized forms of business organizations.

2. A *Code member* as used herein designates one who is engaged in the operation of a coal mine and in the sale of coal produced therefrom and who has signed the Code and maintained his membership under Section 4 of the Bituminous Coal Act of 1937.

3. A *Sales agent* is a person who as agent, in law or in fact, sells coal for or on behalf of a Code Member.

4. A *Commission* is the total compensation granted by a Code Member to a Sales Agent for the services rendered by such agent.

5. A *Registered distributor* is a person who has been duly registered by the Coal Commission pursuant to the rules and regulations prescribed by the Commission for the administration of Section 4 II (h) of the Act.

6. A *Spot order* is a legal obligation for the sale and purchase of coal, the deliveries of which are stipulated to be made within not more than thirty (30) days from the date upon which the order was accepted.

7. A *Contract* is an agreement for the sale of coal covering shipments to be made for a longer period than that specified for a SPOT ORDER.

8. A *Commitment* is the status of a contract between the time a quotation is accepted or an option is exercised and the time the contract is formally reduced to writing.

9. A *Quotation* is an offer for the sale of coal which the offerer may withdraw to its being acted upon by the offeree.

10. An *Option* is an offer for the sale of coal, to be accepted within a time certain, during which time the offerer may not withdraw the offer without consent of the offeree.

11. *Minimum price* shall mean a minimum price established and made effective by the Coal Commission.

12. *Maximum Price* shall mean a maximum price established and made effective by the Coal Commission.

13. *Coal Commission* as used herein, shall mean the National Bituminous Coal Commission established under the provisions of the Bituminous Coal Act of 1937.

14. *Act* as used herein shall mean the Bituminous Coal Act of 1937.

15. *District Board* as used herein, shall mean any District Board established under the provisions of Section 4, Part I (a) of the Act.

16. The terms *reconsignment* and *diversion* as used herein shall mean the change in the original consignee or in the destination or route.

17. The term *transportation facilities* means railroad cars, ships, barges, trucks, or any other facilities used or useful in the transportation of coal.

18. *Coal* as used herein shall mean bituminous coal.

19. The term *bituminous coal* includes all bituminous, semi-bituminous, and sub-bituminous coal and shall exclude lignite, which is defined as a lignitic coal having calorific value in British thermal units of less than seven thousand six hundred per pound and having a natural moisture content in place in the mine of 30 per centum or more.

20. The term *control* means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting securities, by contract, or otherwise.

Section II.—Sales Agents

1. All appointments of sales agents by code members or their agents or authorized representatives and the terms and conditions of such appointments shall be subject to the Marketing Rules and Regulations from time to time established by the Coal Commission.

2. Each code member shall be responsible for the compliance by all his sales agents and agents and employees of sales agents with the provisions of the Bituminous Coal Code and of all rules and regulations, promulgations and determinations of the Coal Commission.

3. (A) Every contract for the appointment of a sales agent by Code Members or by agents or authorized representatives of Code Members, or any modification thereof, shall be in writing, and shall fully set forth therein all the terms and conditions of such contract, including the amount or basis of the sales agent's commission. Certified copies of all such agency contracts entered into on or prior to the effective date of the establishment of these rules and regulations and in effect on such date, shall be filed by the Code Member with the Statistical Bureau, or Bureaus, within twenty (20) business days after such date.

(B) Certified copies of all contracts appointing sales agents or of agreements modifying any sales agency contract, entered into subsequent to the effective date of these rules and regulations, shall be similarly filed by the Code Member within ten (10) business days after the date upon which such contracts or agreements have been entered into.

(C) Upon the expiration, termination, or rescission of any sales agency contract, the Code Member principal shall make a report thereof to the Statistical Bureau, or Bureaus, within ten (10) business days after the date of such expiration, termination, or rescission.

4. A list showing the names and addresses of sales agents and the Code Members for whom such agents act shall be published by the Coal Commission from time to time.

5. All agency contracts filed by Code Members in conformity with the foregoing regulations, other than the names and addresses of sales agents, shall be held by the Coal Commission as the confidential records of said parties and shall not be made public without the consent of the Code Member from whom the same shall have been obtained, except where such disclosure is required in any proceeding before the Coal Commission by way of enforcement of the Act or upon the order of any court of competent jurisdiction.

6. From and after twenty (20) business days following the effective date of these Marketing Rules and Regulations no Code Member or sales agent of Code Member shall allow or pay, directly or indirectly, any commission or compensation to any sales agent

(a) Unless the contract of agency shall have been filed with the Coal Commission, as hereinbefore required, and

(b) Unless the sales agent shall have agreed, in writing, with the Code Member to conform to and observe the minimum and maximum prices and Marketing Rules and Regulations established

by the Coal Commission and the Fair Trade Practice Provisions of the Act, as well as all proper Orders of the Commission, and

(c) Unless the sales agent shall have in good faith complied with the agreement as in paragraph (b) above provided.

Section III.—Discounts

1. No Code Member or sales agent of a Code Member shall pay or allow any discount from minimum prices to any person unless such person has been registered by the Coal Commission as authorized to receive such discount at the time of the sale.

2. Code Members or their sales agents may allow discounts from minimum prices on sales of coal to registered distributors, not in excess of the maximum discount or price allowances prescribed by the Coal Commission upon such sales. Only one such discount may be allowed on any such sale.

Section IV.—Quotations and Options

1. Quotations and options for the sale of coal may be given for a period not exceeding fourteen (14) days. If the Code price is increased beyond the quoted price within such fourteen days and the quotation or option shall not have been accepted or exercised at that time, the quotation or option thereupon shall become null and void. Every quotation and option shall contain a provision to the foregoing effect. These provisions do not apply to sealed bids on Federal, State, County, Municipal or Township business.

2. Every quotation and option shall contain a provision that it is subject to the conditions and provisions specified in the Section hereof captioned *Contracts*.

3. Acceptances of quotations and exercise of options must be in writing. They shall then have the status of commitments and shall be filed with such agency as the Coal Commission may prescribe.

Section V.—Spot Sales

1. A Spot Order is a legal obligation for the sale and purchase of coal, the deliveries of which are stipulated to be made within not more than thirty (30) days from the date upon which the order was accepted.

Section VI.—Contracts

1. (a) To further the objectives of subsection (a) of Part II—*Marketing*, of Section 4 of the Act, every contract shall contain the following provisions (whose meaning and effect shall not intentionally be changed or altered by any other provision of the contract):

"It is agreed that the purchasing price for all shipments made after an increase or decrease in either wage rates or hours per day or in hours per week, shall be increased or decreased proportionately in the exact amount determined by the District Board after full consideration of the various cost factors involved, subject to the approval of the same by the National Bituminous Coal Commission, provided, that the price specified herein shall not be so varied unless the increase or decrease in wage rates or in hours of work is a part of a general increase or decrease in wage rates or in hours of work occurring in the District in which the mine producing the coal is located; likewise, any increase or decrease in the cost of production, caused by the imposition, or revocation, by State or Federal statutes, of a direct tax on coal, or on the sale or on the mining thereof, or by subsequent changes in the rate of such tax, or by any other regulations, State or Federal, increasing or decreasing the cost of production, shall correspondingly increase or decrease said price of coal on any tonnage thereafter shipped thereunder."

(b) After the effective date of any such general increase or decrease, a Code member shall increase or decrease all invoices by the amount determined by the District Board (subject to the approval of the same by the Coal Commission as provided in the preceding paragraph), and with respect to any coal shipped subsequent to said effective date and already invoiced at the price previously in effect, a Code member shall promptly issue a debit or credit memorandum, as the case may be, for the amount of any such increase or decrease.

2. Every contract shall contain the following clauses:

"(a) If any shipment consigned to any destination point be reconsigned en route or otherwise to any other destination point, notice of such reconsignment shall be given by the Buyer to the Code member who produced and sold such coal, and in case of any such reconsignment the Code member shall charge and the buyer shall pay not less than the Code price prescribed for such coal for delivery to the destination point to which such shipment shall be actually delivered.

"(b) The coal covered by this contract is to be used only in the plant or plants of the Buyer named herein and for the use stated, and is not to be sold or diverted by the Buyer to other destination or to other purposes without the consent of the Seller. If so diverted the Seller shall charge and the Buyer shall pay not less than the Code price prescribed for such coal for delivery to the destination point to which such shipments shall be actually delivered."

Section VII.—Miscellaneous

No deduction or allowance from invoice prices shall be granted by any code member or his sales agent to any purchaser for advertising.

Code members (or their agents or representatives) either individually or collectively, with or without financial participation by retailers of coal, may conduct advertising campaigns seeking to increase the use of coal.

The amount of expenditures incurred by a code member, his agent or representative for advertising shall be subject to review by the Coal Commission as to the good faith of the transaction.

Resale of coal refused in transit or at destination.—Where coal is refused by consignee in transit or at destination, the shipper may sell the same at less than the Code price; provided, that in all cases the shipper shall file with the agency designated by the Commission, (1) a statement giving the name of the consignee and the reasons for refusal; (2) a copy of carrier's notice of refusal or notice of reconsignment; (3) the price received by the shipper for the coal so sold; and (4) a statement that in making such sale the shipper has not departed from any provisions of the Code or of the Rules and Regulations of the District Board other than as to price.

Allowance for substandard preparation or quality.—Where an allowance is demanded by the consignee on any shipment that is claimed to be of substandard preparation or quality, the shipper may settle with the consignee at less than the Code price; provided, that in all cases the shipper shall file with the agency designated by the Commission, (1) a statement giving the name of the consignee and the reason for the request for the allowance; (2) the amount of allowance or adjustment made by the shipper; (3) a statement that in making this adjustment the shipper has not departed from any provision of the Code or of the Rules and Regulations of the District Board other than as to price.

Screening for buyer's account.—The screening of mine run or other grades sold and billed as such, for the purpose of keeping the resultant products separate in the shipment thereof, is prohibited. All coal must be sold and invoiced on a price per ton basis and under the designation shown therefor in the price schedule published by the Coal Commission.

Substitution.—No substitution of grades or sizes of coal carrying a higher Code price may be made on spot orders or contracts, unless authorized by the District Board or by a committee thereof duly created for that purpose. Requests for permission to make substitutions shall be submitted to the Statistical Bureau in writing and shall be approved only upon satisfactory evidence that such substitution is necessary as a temporary and emergency measure and will not result in unfair advantage to either the Code member or the Buyer. Upon approval of a request for substitution, the Statistical Bureau will issue a permit to the Code Member in each instance, which permit shall be limited to a maximum number of tons for shipment during a period not to exceed thirty (30) days. No permit for substitution shall be issued in connection with the shipment of coal sold to a Retail Dealer. The issuance of such permits will be restricted for application to spot orders or contracts filed with such agency as may be prescribed by the Commission. All permits issued hereunder shall be consecutively numbered.

Mixed cars.—Mixed cars of more than one size of coal may be loaded for shipment.

Rules and regulations to effectuate subsection (g) part II section 4.—Established prices shall not be evaded or violated by or through the use of docks or other storage facilities or transportation facilities, or by or through the use of subsidiaries, affiliated sales or transportation companies or other intermediaries or instrumentalities, or by or through the absorption, directly or indirectly, of any transportation or incidental charge of whatsoever kind or character, or any part thereof.

Definition and establishment of consuming market.—The consuming market area for this district consists of the states of Texas, New Mexico, Arizona, California, Colorado.

Revision and amendment.—These Marketing Rules and Regulations are subject to revision and amendment by further order of the Coal Commission.

MINIMUM PRICE AREA NO. 7—DISTRICT BOARD NO. 19

PROPOSED MARKETING RULES AND REGULATIONS

A witness for District Board No. 19, qualified as an expert in the marketing of coal in that District, introduced into evidence as Exhibit No. 188, the Marketing Rules and Regulations proposed by District No. 19 in compliance with Commission Order No. 244. This witness testified that these rules and regulations were properly submitted to Code Members within said District, and that no protests concerning such proposals were received from Code Members. Accordingly, the Board, on August 9, 1938, adopted said rules and regulations and later submitted them to the Commission.

The witness testified that the rules proposed by District No. 19 are identical to those proposed by District No. 17; that their competitive markets are similar; that the two District Boards had the same factors under consideration in proposing their respective rules; and that the testimony given in behalf of the proposed rules for District No. 17 should be adopted as the testimony in support of the proposed rules of District Board No. 19. The witness further stated that the testimony with respect to certain desirable modifications of the proposals of District No. 17 was equally applicable to District No. 19, and should be applied to the rules proposed by District No. 19. Such modifications, in the opinion of the witness, would be reasonable; not inconsistent with the provisions of Section 4 of the Act, and in conformance with the standards of fair competition contained in the Act.

Accordingly, we are of the opinion that all deletions, modifications and clarifications determined by the Commission in the foregoing findings of fact for District No. 17 should apply to the proposed rules and regulations of District Board No. 19, and we, therefore, find that the following rules and regulations proposed by District Board No. 19, reflecting such deletions, modifications and clarifications, are reasonable; not inconsistent with the requirements of Section 4 of the Act, and in conformance with the standards of fair competition established in the Act:

MARKETING RULES AND REGULATIONS INCIDENTAL TO THE SALE AND DISTRIBUTION OF COAL BY CODE MEMBERS WITHIN DISTRICT NO. 19 AS PROPOSED BY DISTRICT BOARD NO. 19 AND AS APPROVED, DISAPPROVED, OR MODIFIED FOR THE PURPOSE OF COORDINATION

Section I.—Definitions

1. The term *person* as used herein, includes individuals, firms, associations, partnerships, corporations, trusts, trustees, cooperatives, receivers and trustees in bankruptcy and in other legal proceedings, and any other recognized forms of business organizations.

2. A *sales agent* is a person who, as agent of a code member (and therefore without purchasing the coal), sells coal produced by such code member for him or on his behalf: Provided, that "sales agent" shall not include an individual (herein referred to as a "salesman") regularly and continuously employed by a code member, and who regularly devotes the major portion of his time to the solicitation of purchases of coal produced by his code member employer.

3. A *commission* is the total of all compensations and allowances received by a sales agent from a code member for services rendered in the sale of coal.

4. A *registered distributor* is a person who has been duly registered by the Coal Commission pursuant to the rules and regulations prescribed by the Commission for the administration of Section 4 II (h) of the Act.

5. A *spot order* is a legal obligation for the sale and purchase of coal, the delivery of which is stipulated to be made within not more than thirty (30) days from the date upon which the order was accepted.

6. A *contract* is a legal obligation for the sale and purchase of coal, the deliveries of which are stipulated to be made during a period longer than that specified for a spot order.

7. A *commitment* is the status of a contract between the time a quotation is accepted or an option is exercised and the time the contract is formally reduced to writing.

8. A *quotation* is an offer for the sale of coal at a price which the offerer may withdraw prior to its being acted upon by the offeree.

9. An *option* is an offer for the sale of coal at a price to be accepted within a time certain, during which time the offerer may not withdraw the offer without consent of the offeree.

10. *Coal Commission* as used herein, shall mean the National Bituminous Coal Commission established under the provisions of the Bituminous Coal Act of 1937.

11. *Act* as used herein, shall mean the Bituminous Coal Act of 1937.

12. *District Board* as used herein, shall mean any District Board established under the provisions of Section 4, Part I (a) of the Act.

13. *Statistical Bureau* shall mean, unless otherwise specifically stated, the statistical bureau of the Commission for the district in which the coal involved in any transaction is produced, or the district in which is located a mine of a code member affected by any order or regulation.

14. *Minimum Price* shall mean a minimum price established and made effective by the Coal Commission.

15. *Maximum Price* shall mean a maximum price established and made effective by the Coal Commission.

16. *Registration and Register* as used herein, shall refer to registration with the Coal Commission pursuant to rules and regulations prescribed by the Commission for the administration of Section 4 of the Act.

17. The term *producer* includes all individuals, firms, associations, corporations, trustees, and receivers engaged in the business of mining coal.

18. The terms *reconsignment* and *diversion* as used herein shall mean the change in the original consignee or in the destination or route.

19. A *code member* means a producer who has accepted and holds membership in the Bituminous Coal Code promulgated under the Bituminous Coal Act of 1937.

20. *Coal* as used herein shall mean bituminous coal.

21. The term *bituminous coal* includes all bituminous, semi-bituminous, and sub-bituminous coal and shall exclude lignite, which is defined as a lignitic coal having calorific value in British thermal units of less than seven thousand six hundred per pound and having a natural moisture content in place in the mine of 30 per centum or more.

22. The term *control* means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting securities, by contract, or otherwise.

Section II.—Sales Agents

1. All appointments of sales agents by code members or their agents or authorized representatives, and the terms and conditions of such appointments shall be subject to the Marketing Rules and Regulations from time to time established by the Coal Commission.

2. Each code member shall be responsible for the compliance by all his sales agents and agents and employees of sales agents with the provisions of the Bituminous Coal Code and of all rules and

regulations, promulgations and determinations of the Coal Commission.

3. (A) Every contract for the appointment of a sales agent by Code Members or by agents or authorized representatives of Code Members, or any modification thereof, shall be in writing, and shall fully set forth therein all the terms and conditions of such contract, including the amount or basis of the sales agent's commission. Certified copies of all such agency contracts entered into on or prior to the effective date of the establishment of these rules and regulations and in effect on such date, shall be filed by the Code Member with the Statistical Bureau, or Bureaus, within twenty (20) business days after such date.

(B) Certified copies of all contracts appointing sales agents or of agreements modifying any sales agency contract, entered into subsequent to the effective date of these rules and regulations, shall be similarly filed by the Code Member within ten (10) business days after the date upon which such contracts or agreements have been entered into.

(C) Upon the expiration, termination, or rescission of any sales agency contract, the Code Member principal shall make a report thereof to the Statistical Bureau, or Bureaus, within ten (10) business days after the date of such expiration, termination, or rescission.

4. (A) As to all coal sold by a Code Member otherwise than through a sales agent or through an employee regularly employed as a salesman by the Code Member, such Code Member shall, not later than the fifteenth day of each month, file with the Statistical Bureau, or Bureaus, a list of all persons through whom, directly or indirectly, any such coal was sold during the preceding calendar month, with a statement of the duration and character of their employment, the tonnage sold by, and the rate and amount of compensation paid to, each of them.

(B) Not later than the fifteenth day of each month, each Code Member shall also file with the Statistical Bureau, or Bureaus, similar information obtained from his sales agents concerning sales of coal made during the preceding calendar month, by the sales agents' representatives and employees other than salesmen regularly employed.

(C) Not later than the fifteenth day of each month, each Code Member shall also file with the Statistical Bureau, or Bureaus, a statement showing the names and addresses of distributors to whom the Code Member or his sales agents sold coal during the preceding calendar month, the tonnage sold, and the amount of discount allowed to each such distributor.

5. A list showing the names and addresses of sales agents and the Code Members for whom such agents act shall be published by the Coal Commission from time to time.

6. All agency contracts and other information filed by Code Members in conformity with the foregoing regulations, other than the names and addresses of sales agents, shall be held by the Coal Commission as the confidential records of said parties and shall not be made public without the consent of the Code Member from whom the same shall have been obtained, except where such disclosure is required in any proceeding before the Coal Commission by way of enforcement of the Act or upon the order of any court of competent jurisdiction.

7. From and after twenty (20) business days following the effective date of these Marketing Rules and Regulations no Code Member or sales agent of Code Member shall allow or pay, directly or indirectly, any commission or compensation to any sales agent.

(a) Unless the contract of agency shall have been filed with the Coal Commission, as hereinbefore required, and

(b) Unless the sales agent shall have agreed, in writing, with the Code Member to conform to and observe the minimum and maximum prices and Marketing Rules and Regulations established by the Coal Commission and the Fair Trade Practice Provisions of the Act, as well as all proper Orders of the Commission, and

(c) Unless the sales agent shall have in good faith complied with the agreement as in paragraph (b) above provided.

8. No commission shall be paid to a sales agent by a Code Member where the coal is delivered or sold to any person who owns such sales agent or who, financially or otherwise, controls such agent.

9. Every sales agent shall cause to be clearly set forth upon any form of solicitation, order, invoice and statement covering coal offered for sale or sold, the following:

(1) Either the name of the producer, or

(2) The trade name established and generally used by the producer in designation of coal produced from the mine from which shipment was made or is to be made.

Section III.—Discounts

1. No Code Member or sales agent of a Code Member shall pay or allow any discount from minimum prices to any person unless such person has been registered by the Coal Commission as authorized to receive such discount at the time of the sale.

Section IV.—Quotations, Options and Contracts

1. Subject to further order of the Coal Commission no Code Member or sales agent of a Code Member shall enter into any agreement or order for the sale of coal providing for delivery for a period in excess of that authorized for a spot order, and no prices shall be less than the applicable minimum prices in effect at the time of the making of the agreement: Provided, however, that contracts for periods not exceeding one (1) year may be made with agencies of the Federal Government or with such agencies of State or local governments, as are required by law to purchase coal for periods in excess of thirty (30) days, at the following applicable minimum prices:

(a) For deliveries during the first thirty (30) days of the contract, at not less than the applicable minimum prices in effect at the time of the making of the agreement;

(b) For deliveries thereafter at not less than the applicable minimum prices in effect at the time of delivery if such price is higher than the contract price.

In the case of Governmental Agencies, options may be given for a period not exceeding forty-five (45) days. Subject to further order of the Coal Commission, no option for the sale of coal may be given, except as herein specifically provided.

2. Upon the revocation or suspension of Rule 1 of this Section, Code Members or sales agents of Code Members may thereafter enter into contracts for the sale and delivery of coal at prices not less than the minimum price in effect at the time of the making of the contract, upon the following conditions:

A. No contract for the sale of coal shall provide for delivery over a period in excess of twelve (12) months, except by special permission from the Coal Commission upon a showing of the necessity of meeting long term contract competition of oil, gas, or other fuels or forms of power, or for such other reasons as the Commission may deem appropriate in order to further the effectual administration of the Act.

B. No contract for the sale of coal shall provide for deliveries to commence at a time later than ninety (90) days from the date upon which such contract was entered into.

C. All contracts shall be in writing and shall express the entire agreement between the parties. The contract shall clearly state the date of execution, the effective date, the expiration date, the price agreed upon, the terms of payment, the size and grade of coal sold, the number of cars or tonnage to be shipped, the name of the originating mine, and, where the coal is purchased for consumption, the use to which the coal is to be applied. Contracts may also be made either (a) calling for a buyer's entire requirements or a stated percentage of his requirements, showing the maximum tonnage to be shipped thereunder, or (b) covering a buyer's requirements and specifying the tonnage to be shipped with an allowable overshipment or undershipment of not exceeding twenty (20) percent of the tonnage specified.

The provisions of the rule stated in the foregoing paragraph relating to quantity shall not apply to contracts made with agencies of the Federal, State or local Governments.

D. Every contract shall express the entire agreement between the parties and no modification thereof shall be made except by written agreement which shall conform to all the requirements set forth in these rules and regulations.

E. Each contract shall contain the following provisions, the meaning and effect of which shall not be changed or altered by any other provision of the contract:

"(1) This contract and the performance of all provisions thereof are expressly subject to the Bituminous Coal Act of 1937 and the lawful orders and regulations issued thereunder by the National Bituminous Coal Commission.

"(2) No shipment consigned to any destination point may be diverted or reconsigned without the consent of the seller confirmed in writing. In case of any reconsignment or diversion, the seller shall charge and the buyer shall pay not less than the minimum price prescribed for such coal for delivery to the destination to which such shipment is actually delivered and for the use to which it is actually applied.

"(3) The coal shipped pursuant to this contract is sold and purchased upon the following conditions:

"(a) If the coal is sold for consumption, it shall be used in the plant or plants named herein and for the use stated herein;

"(b) In case of diversion by the buyer to a use other than that stated herein, the buyer shall notify the seller in writing and the seller shall charge and the buyer shall pay not less than applicable minimum price for such coal at time of diversion, for the use to which it is actually applied."

F. In any case where a contract is made by a sales agent of a Code Member, such sales agent shall not exercise the rights of the seller as defined in Item E (2) of rule 2 of this section without first securing the consent of the Code Member producing such coal to be confirmed in writing.

G. Upon the revocation or suspension of Rule 1 of this Section, quotations and options for the sale of coal may be given for a period not exceeding fourteen (14) days. If the minimum price is increased beyond the quoted price within such fourteen (14) days, any quotation or option not accepted or exercised prior to the effective date of the price change shall, without notice, be considered withdrawn and no longer effective. Every quotation or option shall contain a provision to the foregoing effect and shall further stipulate that any contract or spot order entered into thereunder shall be subject to these Marketing Rules and Regulations.

H. The provisions of this Rule 2/G shall not apply to sealed bids on business of the United States Government or States or Political subdivisions thereof, in which cases quotations and options at not less than the minimum price in effect at the time the bid is filed may be given for a period not exceeding forty-five (45) days from the final filing date of bids.

3. A report of every commitment shall be filed by the Code Member or his sales agent with the Statistical Bureau or Bureaus within fifteen (15) business days from the date of the making of the agreement. Such reports shall set forth all the terms and conditions of the commitment. A true copy of every contract and of any agreement for modification thereof shall be filed with the Statistical Bureau within fifteen (15) business days from the date of execution of such contract or agreement for modification: Provided, however, that a report of the commitment need not be filed if a copy of the contract is filed within fifteen (15) business days.

Section V.—Spot Orders

1. A spot order shall be in writing or confirmed in writing within five (5) business days from the date of the making thereof.

2. Each spot order shall be subject to the following conditions which shall either be endorsed upon the form of the order or upon the written confirmation thereof by the Code Member or his sales agent, the meaning and effect of which shall not be changed or altered by any other provisions of the order:

"(a) No shipment consigned to any destination may be diverted or reconsigned without the consent of the seller confirmed in writing. In case of any reconsignment or diversion, the seller shall charge and the buyer shall pay not less than the minimum price prescribed for such coal for delivery to the destination to which such shipment is actually delivered and for the use to which it is actually applied.

"(b) The coal shipped pursuant to this order is sold and purchased upon the following conditions:

"(1) If the coal is sold for consumption, it shall be used in the plant or plants named herein and for the use stated herein;

"(2) In case of diversion by the buyer to a use other than that stated herein, the buyer shall notify the seller in writing and the seller shall charge and the buyer shall pay not less than the applicable minimum price for such coal at the time of diversion for the use to which it is actually applied.

"(c) If shipments called for by this order are not completed within thirty (30) days from the date of this order, the unfulfilled portion of the order shall be cancelled and no delivery of such tonnage shall be made."

3. In any case where a sale is made by a sales agent of a Code Member, such sales agent shall not exercise the rights of the seller as defined in Item 2 (a) of this section without first securing the consent of his Code Member principal to be confirmed in writing.

4. All the terms and conditions of a sale of coal must be fully and expressly set forth either in the order or in the written confirmation thereof, and such order or written confirmation thereof shall specifically contain all the terms required by Rule 2 (c) of Section IV of these marketing rules and regulations. Within ten (10) business days after the date of the making of the spot order or date of the written confirmation thereof, the Code Member or his sales agent shall file with the Statistical Bureau or Bureaus a copy of such spot order or confirmation. Any modification of a spot order must also be made in writing and filed with the Statistical Bureau or Bureaus in the same manner.

Section VI.—Use of Coal Analyses

1. No analysis of coal shall be utilized by a Code Member of his sales agent, in selling or offering for sale any coal produced by the Code Member, unless such Code Member shall have previously filed with the Statistical Bureau of the Coal Commission and the District Board for the District in which the coal is produced, copies of such analysis, together with a certificate setting forth the time and manner of obtaining the sample analyzed, the name and address of the person or firm making the analysis and stating that such analysis is truly representative of the grade and size of coal as regularly produced by the code member. Each such analysis shall be not less than a proximate analysis showing ash, volatile matter, fixed carbon, sulphur and British thermal units. Each analysis shall further show whether made on an "as received" or moisture "free" basis and if on an "as received" basis, the analysis shall include moisture content.

2. All analyses so filed shall be subject to inspection at the office of the Statistical Bureau at any time during office hours by any interested person, and may be used by the District Board and the Coal Commission in determining from time to time proper classifications of the coals produced by the code member.

3. Any analysis of the coal of a Code Member made by or on behalf of a consumer and accepted by the Code Member as the basis for an adjustment of price under any contract or order, shall be filed by the Code Member with the proper Statistical Bureau and District Board, within ten (10) days after such adjustment is made and shall be subject to the provisions of Rule 2 herein.

4. No agreement or order for the sale of coal produced by a Code Member, made upon a premium and penalty basis, shall be entered into or accepted by a Code Member unless the analysis upon which the premium and penalty clause is based has been previously filed as re-

quired in Rule No. 1. Such analysis shall be accompanied by a statement setting forth in full terms of the premium and penalty provisions of the proposed contract or order.

5. In the case of premium and penalty agreements entered into prior to the effective date of these regulations, and claimed to be continuing in effect, the Code Member shall file a statement containing the information required under Rule No. 4, within fifteen (15) days from such effective date.

6. From and after the effective date of these rules and regulations, no Code Member shall enter into or perform any agreement made upon a penalty or a premium and penalty basis which will permit the sale of coal at an aggregate contract price below the applicable minimum price established by the Coal Commission for the coal sold and delivered upon such agreement subsequent to said effective date: Provided, that where a Code Member has entered into an agreement made upon a penalty or a premium and penalty basis, this rule shall not be considered as affecting any claim that the buyer might otherwise have had for substandard preparation or quality under Section IX of these marketing rules and regulations.

Section VII.—Terms of Payment

The price and fair trade practice provisions of the Act shall not be evaded or violated by a Code Member, or his sales agent through the use of terms of payment, and in no instance shall terms of payment be more favorable than the following:

1. On railroad fuel and on coal sold to industrial consumers for their own use, the date of payment shall be on or before the twenty-fifth (25th) of the month following the date of shipment.

2. Other coals shall not be sold on more favorable terms of payment than net cash thirty (30) days from date of shipment.

3. Invoices shall be paid in full in United States currency, or funds equivalent thereto, not later than the due date.

No portion of the sale price may be withheld by agreement between the buyer and the seller based upon any unadjusted claim of the buyer.

No sales, delivery, or offer for sale of coal shall be made upon any condition, expressed or implied, that any portion of the sale price may be withheld by the buyer, or deposited in escrow, or made subject to rebate or refund by the seller, pending or based upon a determination of the constitutionality of any provision of the Act, of the jurisdiction of the Coal Commission, or of the validity or applicability of any order of the Coal Commission.

4. Where payment is made by note, trade acceptance, or other form of indebtedness, or where payment is made under any circumstances after the due date of the account, the seller shall charge and the buyer shall pay interest from and after the due date of the account at the current rate in the locality to which the coal is shipped to the vendee.

5. Freight on rail shipments shall not be paid by a Code Member or his sales agent except to prepay stations as published in current railway tariffs or to the United States Government, States or political subdivisions thereof. Where freight is thus prepaid, the amount thereof shall immediately upon receipt of freight bill or notice of sight draft payment, be invoiced to the buyer for immediate payment.

6. The agreement by a Code Member, express or implied, to extend credit for a period longer than that authorized by these rules and regulations, with the effect of violating the price provisions or the unfair methods of competition of the Act, shall constitute a violation of the Code.

Section VIII.—Miscellaneous

1. No deduction or allowance from invoice prices shall be granted by any code member or his sales agent to any purchaser for advertising.

2. Code members (or their agents or representatives) either individually or collectively, with or without financial participation by retailers of coal, may conduct advertising campaigns seeking to increase the use of coal. The amount of expenditures incurred by a code member, his agent or representative for advertising shall be subject to review by the Coal Commission as to the good faith of the transaction.

3. Where coal is refused by a consignee in transit or at destination, the Code Member may sell the same at the best obtainable price: Provided, that in each case the code member shall file with the Statistical Bureau, within five (5) days from the date of such resale a statement giving the name and address of the consignee and the reasons for the refusal, the price at which the coal was originally sold, the name and address of the purchaser upon resale and the price received by the seller upon resale, a copy of the carrier's notice of refusal or notice of reconsignment and such other pertinent facts as may be offered in proof of the necessity of such resale, and that in making such resale the provisions of the Code and the Marketing Rules and Regulations of the Coal Commission other than as to price have not been violated or evaded.

4. All Code Members shall promptly furnish to the Statistical Bureau of the Coal Commission for the District in which the coal originated, full reports of all reconsignments and shall authorize the carrier making such reconsignments to furnish complete information thereon to such Statistical Bureau.

5. No allowance shall be made for any shipment of coal of substandard preparation or quality unless formal claim duly executed by or on behalf of the buyer and verified by affidavit setting forth the amount claimed by way of allowance and reasons for the claim is filed with the Code Member or his sales agent within ten (10) days after the receipt of the coal.

The Code Member or sales agent with whom such claim for allowance is filed shall immediately notify the Statistical Bureau and the District Board, furnishing an authentic copy of the buyer's claim together with a statement of the producer's views as to the validity of the claim, setting forth:

(a) The name and address of the consignee and the reason for the allowance.
(b) The amount of allowance or adjustment made.
(c) The price at which the coal was sold.
(d) The tonnage delivered.
(e) The name of the mine and the Code Member.
(f) Date of Shipment.
(g) Grade and size of coal and destination.
(h) A statement that the adjustment has not been made with the purpose or intent of evading the price or fair trade practice provisions of the Act.

6. The screening of mine run or rescreening of other grades of coal sold and billed as such for the buyer's account for the purpose of keeping the resultant products separate in the shipment thereof is prohibited. All coal must be sold and invoiced on a price per ton basis and under the designation shown therefor in the price schedule published by the Coal Commission.

7. All coal confiscated or lost in transit shall be invoiced to the carrier at not less than the minimum price established for such coal for shipment to the destination and use to which the coal was sold or the established price for sale to the carrier at the place of confiscation or loss, whichever may be the higher.

8. No substitution may be made upon any spot order or contract, of any grade or size of coal taking a minimum price higher than the price specified in such order or contract, except upon the following conditions:

(a) The proposed substitution shall not be an express or implied condition of the order or contract.

(b) The coal substituted must be coal which the Code Member has already produced and loaded into transportation facilities and which cannot be sold promptly by the exercise of the usual sales effort, such substitution to be limited to a specific tonnage for shipment on a specific order and from a specific mine.

(c) The substitution must be reasonably necessary as an emergency measure in order to continue operation of the mine of the Code Member.

(d) The substitution shall be acceptable to the purchaser of the coal, and shall not be made with the purpose or effect of conferring any advantage on the purchaser or securing any preference or advantage for the Code Member over his competitors.

(e) Such substitution may be made only with the prior approval of a duly designated representative of the Commission and in each instance formal application therefor shall be made upon forms provided by the Commission and permits shall be issued prescribing the conditions of substitution in each case approved.

(f) A monthly report of substitution permits shall be mailed by Code Members to the office of their Board. The Commission may from time to time publish the essential facts as to all substitution permits granted.

(g) In each case of coal shipped under a substitution permit each invoice shall specifically show the permit number and the size and grade of coal substituted.

9. Failure to file information required by the within Marketing Rules and Regulations or the filing of false information, wilfully made, will subject the party failing to file the information required, or the party so filing, to the penalties of the Act and other penalties imposed by law.

10. These Marketing Rules and Regulations are subject to revision and amendment by further order of the Coal Commission.

Section IX.—Unfair Methods of Competition

As provided in Section 4, Part II (i) of the Act, the following practices with respect to coal shall be unfair methods of competition and shall constitute violations of the code:

1. The consignment of unordered coal, or the forwarding of coal which has not actually been sold, consigned to the producer or his agent: Provided, however, that coal which has not actually been sold may be forwarded, consigned to the producer or his agent at rail or track yards, tidewater ports, river ports, or lake ports, or docks beyond such ports, when for application to any of the following classes: Bunker coal, coal applicable against existing contracts, coal for storage (other than in railroad cars) by the producer or his agent in rail or track yards or on docks, wharves, or other yards for resale by the producer or his agent.

2. The adjustment of claims with purchasers of coal in such manner as to grant secret allowances, secret rebates, or secret concessions, or other price discrimination.

3. The prepayment of freight charges with intent to or having the effect of granting a discriminatory credit allowance.

4. The granting in any form of adjustments, allowances, discounts, credits, or refunds to purchasers or sellers of coal, for the purposes or with the effect of altering retroactively a price previously agreed upon, in such manner as to create price discrimination.

5. The predating or postdating of any invoice or contract for the purchase or sale of coal, except to conform to a bona fide agreement for the purchase or sale entered into on the predate.

6. The payment or allowance in any form or by any device of rebates, refunds, credits, or unearned discounts, or the extension to certain purchasers of services or privileges not extended to all purchasers under like terms and conditions, or under similar circumstances.

7. The attempt to purchase business, or to obtain information concerning a competitor's business by concession, gifts, or bribes.

8. The intentional misrepresentation of any analysis or of analyses, or of sizes, or the intentional making, causing, or permitting to be made, or publishing, of any false, untrue, misleading, or deceptive statement by way of advertising, invoicing, or otherwise concerning the size, quality, character, nature, preparation, or origin of any coal bought, sold, or consigned.

9. The unauthorized use, whether in written or oral form, of trade-marks, trade names, slogans, or advertising matter already adopted by a competitor, or any deceptive approximation thereof.

10. Inducing or attempting to induce, by any means or device whatsoever, a breach of contract between a competitor and his customer during the term of such contract.

11. Splitting or dividing commissions, brokers' fees, or brokerage discounts, or otherwise in any manner directly or indirectly using brokerage commissions or jobbers' arrangements or sales agencies for making discounts, allowances, or rebates, or prices other than those determined under this Act, to any industrial consumer or to any retailers, or to others, whether of a like or different class.

12. Selling to, or through, any broker, jobber, commission account, or sales agency, which is in fact or in effect an agency or an instrumentality of a retailer or an industrial consumer or of any organization of retailers or industrial consumers, whereby they or any of them secure either directly or indirectly a discount, dividend, allowance, or rebates, or a price other than that determined in the manner prescribed by this Act.

13. Employing any person or appointing any sales agent, at a compensation obviously disproportionate to the ordinary value of the service or services rendered, and whose employment or appointment is made with the primary intention and purpose of securing preferment with a purchaser or purchasers of coal.

MINIMUM PRICE AREA NO. 7.—DISTRICT BOARD NO. 20

PROPOSED MARKETING RULES AND REGULATIONS

A qualified expert on the marketing of coal in District No. 20 testified that the District Board, pursuant to Commission Order No. 244, prepared and submitted to Code Members for that District, reasonable marketing rules and regulations incidental to the sale and distribution of coal by Code Members within the District. The witness further testified that no protests were received from Code Members, and accordingly, the District Board adopted the proposed marketing rules and regulations.

These marketing rules and regulations were transmitted to the Commission and were introduced into evidence as Exhibit No. 193. The witness testified that he had participated in the preparation of and was thoroughly familiar with Exhibit No. 193, and that they were reasonable rules and regulations incidental to the sale and distribution of coal by Code Members within the District, were not inconsistent with the requirements of Section 4 and did conform to the standards of fair competition set forth in Section 4, Part II (i) of the Act.

We are of the opinion that definitions 17 to 22 contained in Section I of the composite findings hereinafter given are reasonable and desirable. The District Board did not define these terms although they appear in various rules proposed by the Board.

We are also of the opinion that rule (b) of Section IV should be deleted for the reason that this rule attempts to enlarge the Commission's jurisdiction over a subject matter which is covered by paragraph 13 of Section 4 II (i) of the Act.

The witness testified that he was familiar with Exhibit No. 191, entitled "Extracts from Rules Proposed by District No. 17" and with the other marketing rules and regulations proposed by District No. 17 that he had heard the testimony of the expert witness for District No. 17, and that in his opinion the rules and regulations set forth in Exhibit No. 191, subject to certain exceptions to which the witness subsequently testified, and the other rules and regulations proposed by District No. 17 in so far as the latter are not in conflict with the rules and regulations proposed by District No. 20, were reasonable and necessary rules and regulations for District No. 20.

The first exception which the witness took to the rules and regulations in Exhibit No. 191 was to that part of Rule 5 of Section IX which permits the prepayment of freight on coal shipped "to the United States Government, states or political subdivisions thereof". The witness' objection to this clause was that the freight was frequently double the

amount of the price of the coal and for the Code Member to prepay the freight entailed upon him a financial burden which frequently precluded his active bidding for such business. It was the opinion of the witness that it would be a simple matter for the United States Government to issue Government Bills of Lading which make it unnecessary to prepay freight, thereby relieving the code member of that additional financial burden. On the basis of this testimony we are of the opinion that rule (c) of Section IX of Exhibit 193 should be modified to conform to Rules of Section IX of Exhibit 191 except that the words "or to the United States Government, States or political subdivisions thereof" should be deleted from the rule.

The witness testified that with respect to the rules of Section XI of Exhibit 191, a certain formula should be developed governing the amount of adjustment which can be made upon an equitable basis. The witness testified that such a formula suitable for District 20 is contained in Section III of the Rules proposed by District 20, and has been in use in District 20 for several years. We likewise approve for District 20 the modification of Rule 5 of Section XI of Exhibit 191 made in Rule 5 of Section VIII of the composite finding for District 17.

The third exception which the witness took to the rules and regulations in Exhibit No. 191 was to paragraphs (a), (b), (c), (d) and (e) of Rule 8 of Section XI referring to substitutions. The witness testified that he had reference to substitutions of coal for other than railroad coal purchases. It was his opinion that a broad uncontrolled and unlimited provision covering substitution would be manifestly unjust and would permit price evasion. The witness testified that this was the history of substitution in the coal industry. His objection to the rule as contained in Exhibit No. 191 was that it was too broad and gave too much latitude and opportunity for price evasion. In light of this testimony we are of the opinion that Rule X (b) of Exhibit 193, District 20's proposed rules should be modified to read as follows:

No substitution of grades or sizes of higher price coal may be made, except for railroad locomotive fuel, on spot orders or contracts, unless the higher price be applied to such substituted size. Substitutions on orders for railroad locomotive fuel may be made only upon the following conditions:

(a) The proposed substitutions shall not be an express or implied condition of the order or contract

(b) The coal substituted must be coal which the Code Member has already produced and loaded into transportation facilities and which cannot be sold promptly by the exercise of the usual sales effort, such substitution to be limited to a specific tonnage for shipment on a specific order and from a specific mine.

(c) The substitution must be reasonably necessary as an emergency measure in order to continue operation of the mine of the Code Member.

(d) The substitution shall be acceptable to the purchaser of the coal, and shall not be made with the purpose or effect of conferring any advantage on the purchaser or securing any preference or advantage for the Code Member over his competition.

(e) Such substitution may be made only with the prior approval of a duly designated representative of the Commission and in each instance formal application therefor shall be made upon forms provided by the Commission and permits shall be issued prescribing the conditions of substitution in each case approved.

The witness further testified that subsection (d) of Section VII of Exhibit No. 193 relating to the modification of prices by reason of cost increases resulting from wage increases and taxes, was not a proper subject for marketing rules and regulations and therefore suggested its deletion. We therefore find that subsection (d) of Section VII of Exhibit No. 193 should be deleted.

The witness further testified that subsection (d) of Section X of Exhibit No. 193 relating to assistance given by a code member to retailers was an unfair trade practice which, in his opinion, was sufficiently provided for in the Act and therefore recommended its deletion. We, therefore, find that subsection (d) of Section X of Exhibit No. 193 should be deleted.

The witness testified that in his opinion the rules proposed by District No. 17, with the exceptions to which he specifically testified, were reasonable and applicable to District No. 20. Rule 4 of Section IX for District No. 17 was modified in the findings of fact for District No. 17 so as to provide that where payment is made under any circumstances after the due date of the account, interest must be paid from the due date of the account. We are of the opinion that this rule, as modified, should be incorporated in the composite findings for District No. 20.

District Board No. 17 likewise proposed in Rule 6 of Section XI that all coal must be sold and invoiced under the designation shown therefore in the price schedule published by the Coal Commission. This rule has been modified so as to also provide that all coal must be sold and invoiced on a price per ton basis. We are of the opinion that the rule, as modified, should also be included in the composite findings for District No. 20.

We disapprove rules (b) and (c) of Section III for the reason that they are impractical to enforce and administer. On the basis of the testimony, we approve rule (a) of Section III and we likewise approve for District No. 20 modification of rule 5 of Section XI of Exhibit No. 191 made in rule 5 of Section VIII of the composite findings for District No. 17.

In light of the testimony of the witness that the rules proposed by District No. 17 contained in Exhibit 191 and the other rules proposed by District No. 20 were reasonable and necessary rules and regulations for District No. 20 with such exceptions as the witness specifically testified to, we are of the opinion that the rules and regulations proposed by District No. 20 should be modified to conform to the composite findings for District No. 17 except as to those instances where we have found that certain modifications of the rules proposed by District No. 17 were reasonable for District No. 20.

After due consideration of all the testimony in the record relating to the rules proposed by District No. 20, we find that the following rules and regulations incidental to the sale and distribution of coal by Code Members in District No. 20, reflecting the modifications, deletions and additions hereinbefore referred to, are reasonable, not inconsistent with the requirements of Section 4 of the Act, and in conformance with the standards of fair competition established in the Act:

MARKETING RULES AND REGULATIONS INCIDENTAL TO THE SALE AND DISTRIBUTION OF COAL BY CODE MEMBERS WITHIN DISTRICT NO. 20 AS PROPOSED BY DISTRICT BOARD NO. 20 AND AS APPROVED, DISAPPROVED, OR MODIFIED FOR THE PURPOSE OF COORDINATION

Section I.—Definitions

1. The term *person* as used herein, includes individuals, firms, associations, partnerships, corporations, trusts, trustees, cooperatives, receivers and trustees in bankruptcy and in other legal proceedings, and any other recognized forms of business organizations.

2. A *sales agent* is a person who, as agent of a code member (and therefore without purchasing the coal), sells coal produced by such code member for him or on his behalf: Provided, that *sales agent* shall not include an individual (herein referred to as a *salesman*) regularly and continuously employed by a code member, and who regularly devotes the major portion of his time to the solicitation of purchases of coal produced by his code member employer.

3. A *commission* is the total of all compensations and allowances received by a sales agent from a code member for services rendered in the sale of coal.

4. A *registered distributor* is a person who has been duly registered by the Coal Commission pursuant to the rules and regulations prescribed by the Commission for the administration of Section 4 II (h) of the Act.

5. A *spot order* is a legal obligation for the sale and purchase of coal, the delivery of which is stipulated to be made within not more than thirty (30) days from the date upon which the order was accepted.

6. A *contract* is a legal obligation for the sale and purchase of coal, the deliveries of which are stipulated to be made during a period longer than that specified for a spot order.

7. A *commitment* is the status of a contract between the time a quotation is accepted or an option is exercised and the time the contract is formally reduced to writing.

8. A *quotation* is an offer for the sale of coal at a price which the offerer may withdraw prior to its being acted upon by the offeree.

9. An *option* is an offer for the sale of coal at a price to be accepted within a time certain, during which time the offerer may not withdraw the offer without consent of the offeree.

10. *Coal Commission* as used herein, shall mean the National Bituminous Coal Commission established under the provisions of the Bituminous Coal Act of 1937.

11. *Act* as used herein, shall mean the Bituminous Coal Act of 1937.

12. *District Board* as used herein, shall mean any District Board established under the provisions of Section 4, Part I (a) of the Act.

13. *Statistical Bureau* shall mean, unless otherwise specifically stated, the statistical bureau of the Commission for the district in which the coal involved by any transaction is produced, or the district in which is located a mine of a code member affected by any order or regulation.

14. *Minimum Price* shall mean a minimum price established and made effective by the Coal Commission.

15. *Maximum Price* shall mean a maximum price established and made effective by the Coal Commission.

16. *Registration and Register* as used herein, shall refer to registration with the Coal Commission pursuant to rules and regulations prescribed by the Commission for the administration of Section 4 of the Act.

17. The term *producer* includes all individuals, firms, associations, corporations, trustees, and receivers engaged in the business of mining coal.

18. The terms *reconsignment* and *diversion* as used herein shall mean the change in the original consignee or in the destination or route.

19. A *code member* means a producer who has accepted and holds membership in the Bituminous Coal Code promulgated under the Bituminous Coal Act of 1937.

20. *Coal* as used herein shall mean bituminous coal.

21. The term *bituminous coal* includes all bituminous, semi-bituminous, and sub-bituminous coal and shall exclude lignite, which is defined as a lignitic coal having calorific value in British thermal units of less than seven thousand six hundred per pound and having a natural moisture content in place in the mine of 30 per centum or more.

22. The term *control* means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting securities, by contract, or otherwise.

Section II.—Sales Agents

1. All appointments of sales agents by code members or their agents or authorized representatives, and the terms and conditions of such appointments shall be subject to the Marketing Rules and Regulations from time to time established by the Coal Commission.

2. Each code member shall be responsible for the compliance by all his sales agents and agents and employees of sales agents with the provisions of the Bituminous Coal Code and all rules and regulations, promulgations and determinations of the Coal Commission.

3. (A) Every contract for the appointment of a sales agent by Code Members or by agents or authorized representatives of Code Members, or any modification thereof, shall be in writing, and shall fully set forth therein all the terms and conditions of such contract, including the amount or basis of the sales agents' commission. Certified copies of all such agency contracts entered into or prior to the effective date of the establishment of those rules and regulations and in effect on such date, shall be filed by the Code Member with the Statistical Bureau, or Bureaus, within twenty (20) business days after such date.

(B) Certified copies of all contracts appointing sales agents or of agreements modifying any sales agency contract, entered into subsequent to the effective date of these rules and regulations, shall be similarly filed by the Code Member within ten (10) business days after the date upon which such contracts or agreements have been entered into.

(C) Upon the expiration, termination, or rescission of any sales agency contract, the Code Member principal shall make a report thereof to the Statistical Bureau, or Bureaus, within ten (10) business days after the date of such expiration, termination, or rescission.

4. (A) As to all coal sold by a Code Member otherwise than through a sales agent or through an employee regularly employed as a salesman by the Code Member, such Code Member shall, not later than the fifteenth day of each month, file with the Statistical Bureau, or Bureaus, a list of all persons through whom, directly or indirectly, any such coal was sold during the preceding calendar month, with a statement of the duration and character of their employment, the tonnage sold by, and the rate and amount of compensation paid to, each of them.

(B) Not later than the fifteenth day of each month, each Code Member shall also file with the Statistical Bureau, or Bureaus, similar information obtained from his sales agents concerning sales of coal made during the preceding calendar month, by the sales agents' representatives and employees other than salesmen regularly employed.

(C) Not later than the fifteenth day of each month, each Code Member shall also file with the Statistical Bureau, or Bureaus, a statement showing the names and addresses of distributors to whom the Code Member or his sales agents sold coal during the preceding calendar month, the tonnage sold, and the amount of discount allowed to each such distributor.

5. A list showing the names and addresses of sales agents and the Code Members for whom such agents act shall be published by the Coal Commission from time to time.

6. All agency contracts and other information filed by Code Members in conformity with the foregoing regulations, other than the names and addresses of sales agents, shall be held by the Coal Commission as the confidential records of said parties and shall not be made public without the consent of the Code Member from whom the same shall have been obtained, except where such disclosure is required in any proceeding before the Coal Commission by way of enforcement of the Act or upon the order of any court of competent jurisdiction.

7. From and after twenty (20) business days following the effective date of these Marketing Rules and Regulations no Code Member or sales agent of Code Member shall allow or pay, directly or indirectly, any commission or compensation to any sales agent

(a) Unless the contract of agency shall have been filed with the Coal Commission, as hereinbefore required, and

(b) Unless the sales agent shall have agreed, in writing, with the Code Member to conform to and observe the minimum and maximum prices and Marketing Rules and Regulations established by the Coal Commission and the Fair Trade Practice Provisions of the Act, as well as all proper Orders of the Commission, and

(c) Unless the sales agent shall have in good faith complied with the agreement as in paragraph (b) above provided.

8. No commission shall be paid to a sales agent by a Code Member where the coal is delivered or sold to any person who owns such sales agent or who, financially or otherwise, controls such agent.

Section III.—Discounts

1. No Code Member or sales agent of a Code Member shall pay or allow any discount from minimum prices to any person unless such person has been registered by the Coal Commission as authorized to receive such discount at the time of the sale.

Section IV.—Quotations, Options and Contracts

1. Subject to further order of the Coal Commission, no Code Member or sales agent of a Code Member shall enter into any agreement or order for the sale of coal providing for delivery for a period in excess of that authorized for a spot order, and no prices shall be less than the applicable minimum prices in effect at the time of the making of the agreement: Provided, however, that contracts for periods not exceeding one (1) year may be made with agencies of the Federal Government or with such agencies of State or local governments, as are required by law to purchase coal for periods in excess of thirty (30) days, at the following applicable minimum prices:

(a) For deliveries during the first thirty (30) days of the contract, at not less than the applicable minimum prices in effect at the time of the making of the agreement:

(b) For deliveries thereafter, at not less than the applicable minimum prices in effect at the time of delivery if such price is higher than the contract price.

In the case of Governmental Agencies, options may be given for a period not exceeding forty-five (45) days. Subject to further order of the Coal Commission, no option for the sale of coal m / be given, except as herein specifically provided.

2. Upon the revocation or suspension of Rule 1 of this Section, Code Members or sales agents of Code Members may thereafter enter into contracts for the sale and delivery of coal at prices not less than the minimum price in effect at the time of the making of the contract, upon the following conditions:

A. No contract for the sale of coal shall provide for delivery over a period in excess of twelve (12) months, except by special permission from the Coal Commission upon a showing of the necessity of meeting long term contract competition of oil, gas, or other fuels or forms of power, or for such other reasons as the Commission may deem sufficient.

B. No contract for the sale of coal shall provide for deliveries to commence at a time later than ninety (90) days from the date upon which such contract was entered into.

C. All contracts shall be in writing and shall express the entire agreement between the parties. The contract shall clearly state the date of execution, the effective date, the expiration date, the price agreed upon, the terms of payment, the size and grade of coal sold, the number of cars or tonnage to be shipped, the name of the originating mine, and, where the coal is purchased for consumption, the use to which the coal is to be applied. Contracts may also be made either (a) calling for a buyer's entire requirements or a stated percentage of his requirements, showing the maximum tonnage to be shipped thereunder, or (b) covering a buyer's requirements and specifying the tonnage to be shipped with an allowable overshipment or undershipment of not exceeding twenty (20) per cent of the tonnage specified.

The provisions of the rule stated in the foregoing paragraph relating to quantity shall not apply to contracts made with agencies of the Federal, State or local Governments.

D. Every contract shall express the entire agreement between the parties and no modification thereof shall be made except by written agreement which shall conform to all the requirements set forth in these rules and regulations.

E. Each contract shall contain the following provisions, the meaning and effect of which shall not be changed or altered by any other provision of the contract:

"1. This contract and the performance of all provisions thereof are expressly subject to the Bituminous Coal Act of 1937 and the lawful orders and regulations issued fhereunder by the National Bituminous Coal Commission.

"2. No shipment consigned to any destination point may be diverted or reconsigned without the consent of the seller confirmed in writing. In case of any reconsignment or diversion, the seller shall charge and the buyer shall pay not less than the minimum price prescribed for such coal for delivery to the destination to which such shipment is actually delivered and for the use to which it is actually applied.

"3. The coal shipped pursuant to this contract is sold and purchased upon the following conditions:

"(1) If the coal is sold for consumption at the applicable minimum price, it shall be used in the plant or plants named herein and for the use stated herein;

"(2) In case of diversion by the buyer to a use other than that stated herein, the buyer shall notify the seller in writing and the seller shall charge and the buyer shall pay not less than the applicable minimum price for such coal at the time of diversion for the use to which it is actually applied."

F. In any case where a contract is made by a sales agent or a Code Member, such sales agent shall not exercise the rights of the seller as defined in Item E (2) of rule 2 of this section without first securing the consent of the Code Member producing such coal to be confirmed in writing.

G. Upon the revocation or suspension of Rule 1 of this Section, quotations and options for the sale of coal may be given for a period not exceeding fourteen (14) days. If the minimum price is increased beyond the quoted price within such fourteen (14) days, any quotation or option not accepted or exercised prior to the effective date of the price change shall, without notice, be considered withdrawn and no longer effective. Every quotation or option shall contain a provision to the foregoing effect and shall further stipulate that any contract or spot order entered into thereunder shall be subject to these Marketing Rules and Regulations.

H. The provisions of this Rule 5 shall not apply to sealed bids on business of the United States Government or States or political subdivisions thereof, in which cases quotations and options at not less than the minimum price in effect at the time the bid is filed may be given for a period not exceeding forty-five (45) days from the final filing date of bids.

3. A report of every commitment shall be filed by the Code Member of his sales agent with the Statistical Bureau or Bureaus within fifteen (15) business days from the date of the making of the agreement. Such reports shall set forth all the terms and conditions of the commitment. A true copy of every contract and of any agreement for modification thereof shall be filed with the Statistical Bureau within fifteen (15) business days from the date of execution of such contract or agreement for modification: Provided, however, that a report of the commitment need not be filed if a copy of the contract is filed with fifteen business days.

Section V.—Spot Orders

1. A spot order shall be in writing or confirmed in writing within five (5) business days from the date of the making thereof.

2. Each spot order shall be subject to the following conditions which shall either be endorsed upon the form of the order or upon the written confirmation thereof by the Code Member or his sales agent, the meaning and effect of which shall not be changed or altered by any other provision of the order:

"(a) No shipment consigned to any destination may be diverted or reconsigned without the consent of the seller to be confirmed in writing. In case of any reconsignment or diversion, the seller shall charge and the buyer shall pay not less than the minimum price prescribed for such coal for delivery to the destination to which such shipment is actually delivered and for the use to which it is actually applied.

"(b) The coal shipped pursuant to this order is sold and purchased upon the following conditions:

"(1) If the coal is sold for consumption, it shall be used in the plant or plants named herein and for the use stated herein;

"(2) In case of diversion by the buyer to a use other than that stated herein, the buyer shall notify the seller in writing and the seller shall charge and the buyer shall pay not less than the applicable minimum price for such coal at the time of diversion for the use to which it is actually applied."

3. In any case where a sale is made by a sales agent of a Code Member, such sales agent shall not exercise the rights of the seller as defined in Item 2 (a) of this section without first securing the consent of his Code Member principal to be confirmed in writing.

4. All the terms and conditions of a sale of coal must be fully and expressly set forth either in the order or in the written confirmation thereof, and such order or written confirmation thereof shall specifically contain all the terms required by Rule 2 (E) of Section IV of these Marketing Rules and Regulations. Within ten (10) business days after the date of the making of the spot order or date of the written confirmation thereof, the Code Member or his sales agent shall file with the Statistical Bureau, or Bureaus, a copy of such spot order or confirmation. Any modification of a spot order must also be made in writing and filed with the Statistical Bureau, or Bureaus, in the same manner.

Section VI.—Use of Coal Analyses

1. No analysis of coal shall be utilized by a Code Member or his sales agent, in selling or offering for sale any coal produced by the Code Member, unless such Code Member shall have previously filed with the Statistical Bureau of the Coal Commission and the District Board for the District in which the coal is produced, copies of such analysis, together with a certificate setting forth the time and manner of obtaining the sample analyzed, the name and address of the person or firm making the analysis and stating that such analysis is truly representative of the grade and size of coal as regularly produced by the Code Member. Each such analysis shall be not less than a proximate analysis showing ash, volatile matter, fixed carbon, sulphur and British Thermal units. Each analysis shall further show whether made on an "as received" or moisture "free" basis and if on an "as received" basis, the analysis shall include moisture content.

2. All anlyses so filed shall be subject to inspection at the office of the Statistical Bureau at any time during office hours by any interested person, and may be used by the District Board and the Coal Commission in determining from time to time proper classification of the coals produced by the code member.

3. Any analysis of the coal of a Code Member made by or on behalf of a consumer and accepted by the Code Member as a basis for an adjustment of price under any contract or order, shall be filed by the Code Member with the proper Statistical Bureau and District Board, within ten (10) days after such adjustment is made and shall be subject to the provisions of Rule 2 herein.

4. No agreement or order for the sale of coal produced by a Code Member made upon a premium and penalty basis, shall be entered into or accepted by a Code Member unless the analysis upon which the premium and penalty clause is based has been previously filed as required in Rule No. 1. Such analysis shall be accompanied by a statement setting forth in full the terms of the premium and penalty provisions of the proposed contract or order.

5. In the case of premiums and penalty agreements entered into prior to the effective date of these regulations, and claimed to be continuing in effect, the Code Member shall file a statement containing the information required under Rule No. 4, within fifteen (15) days from such effective date.

6. From and after the effective date of these rules and regulations, no Code Member shall enter into or perform any agreement made upon a penalty or a premium and penalty basis which will permit the sale of coal at an aggregate contract price below the applicable minimum price established by the Coal Commission for the coal sold and delivered upon such agreement subsequent to said effective date: Provided, that where a Code Member has entered into an agreement made upon a penalty or a premium and penalty basis, this rule shall not be considered as affecting any claim that the buyer might otherwise have had for substandard preparation or quality under Section IX of these Marketing Rules and Regulations.

Section VII.—Terms of Payment

The price and fair trade practice provisions of the Act shall not be evaded or violated by a Code Member, or his sales agent through the use of terms of payment, and in no instance shall terms of payment be more favorable than the following:

1. The date of payment shall be within thirty (30) days from the date of shipment.

2. Invoices shall be paid in full in United States currency, or funds equivalent thereto, not later than the due date. No portion of the sale price may be withheld by agreement between the buyer and the seller based upon any unadjusted claim of the buyer.

No sale, delivery, or offer for sale of coal shall be made upon any condition, expressed or implied, that any portion of the sale price may be withheld by the buyer, or deposited in escrow, or made subject to rebate or refund by the seller, pending or based upon a determination of the constitutionality of any provision of the Act, of the jurisdiction of the Coal Commission, or of the validity or applicability of any order of the Coal Commission.

3. Where payment is made by note, trade acceptance or other form of indebtedness or where payment is made under any circumstances, after the due date of the account, the seller shall charge and the buyer shall pay interest from and after due date of account at the current rate in the locality to which the coal is shipped to the vendee.

4. Freight on rail shipments shall not be paid by a Code Member or his sales agent except to prepay stations as published in current railway tariffs. Where freight is thus prepaid, the amount thereof shall immediately upon receipt of freight bill or notice of sight draft payment, be invoiced to the buyer for immediate payment.

5. The agreement by a Code Member, express or implied, to extend credit for a period longer than that authorized by these rules and regulations shall constitute a violation of the code.

Section VIII.—Miscellaneous

1. No deduction or allowance from invoice prices shall be granted by any code member or his sales agent to any purchaser for advertising.

2. Code Members (or their agents or representatives) either individually or collectively, with or without financial participation by retailers of coal, may conduct advertising campaigns seeking to increase the use of coal. The amount of expenditures incurred by a code member, his agent or representative for advertising shall be subject to review by the Coal Commission as to the good faith of the transaction.

3. Where coal is refused by a consignee in transit or at destination, the Code Member may sell the same at the best obtainable price; Provided, that in each case the code member shall file with the Statistical Bureau, within five (5) days from the date of such resale a statement giving the name and address of the consignee and the reasons for the refusal, the price at which the coal was originally sold, the name and address of the purchaser upon resale and the price received by the seller upon resale, a copy of the carrier's notice of refusal, or notice of reconsignment and such other pertinent facts as may be offered in proof of the necessity of such resale, and that in making such resale the provisions of the Code and the Marketing Rules and Regulations of the Coal Commission other than as to price have not been violated or evaded.

4. All code members shall promptly furnish to the Statistical Bureau of the Coal Commission for the District in which the coal originated, full reports of all reconsignments and shall authorize the carrier making such reconsignments to furnish complete information thereon to such Statistical Bureau.

5. No allowance shall be made for any shipment of coal of substandard preparation or quality unless formal claim duly executed by or on behalf of the buyer and verified by affidavit setting forth the amount claimed by way of allowance and reasons for the claim is filed with the Code Member or his sales agent within ten (10) days after the receipt of the coal.

The Code Member or sales agent with whom such claim for allowance is filed shall immediately notify the Statistical Bureau and the District Board, furnishing an authentic copy of the buyer's claim together with a statement of the producer's views as to the validity of the claim, setting forth

(a) the name and address of the consignee and the reason for the allowance.
(b) the amount of allowance or adjustment made
(c) the price at which the coal was sold
(d) the tonnage delivered
(e) the name of the mine and the Code Member
(f) date of shipment
(g) grade and size of coal and destination
(h) a statement that the adjustment has not been made with the purpose or intent of evading the price or fair trade practice provisions of the Act.

Degradation in respect to sizes incident to its shipment and handling in the normal course of distribution in the regular retail channels of 3% of all sizes other than slack, is deemed to be standard or average and no adjustments or allowances shall be made for degradation except in excess of the said 3%.

6. The screening of mine run or rescreening of other grades of coal sold and billed as such for the buyer's account for the purpose of keeping the resultant products separate in the shipment thereof is prohibited. All coal must be sold and invoiced on a price per ton basis, under the designation shown therefor in the price schedule published by the Coal Commission.

7. All coal confiscated or lost in transit shall be invoiced to the carrier at not less than the minimum price established for such coal for shipment to the destination and use to which the coal was sold or the established price for sale to the carrier at the place of confiscation or loss, whichever may be the higher.

8. No substitution of grades or sizes of higher price coal may be made, except for railroad locomotive fuel, on spot orders or contracts, unless the higher price be applied to such substituted size. Substitution on orders for railroad locomotive fuel may be made only upon the following conditions:

(a) The proposed substitution shall not be an express or implied condition of the order or contract.

(b) The coal substituted must be coal which the Code Member has already produced and loaded into transportation facilities and which cannot be sold promptly by the exercise of the usual sales effort, such substitution to be limited to a specific tonnage for shipment on a specific order and from a specific mine.

(c) The substitution must be reasonably necessary as an emergency measure in order to continue operation of the mine of the Code Member.

(d) The substitution shall be acceptable to the purchaser of the coal, and shall not be made with the purpose or effect of conferring any advantage on the purchaser or securing any preference or advantage for the Code Member over his competitors.

9. Every sales agent shall cause to be clearly set forth upon any form of solicitation, order, invoice and statement covering coal offered for sale or sold, the following:

(1) Either the name of the producer or

(2) The trade name established and generally used by the producer in designation of coal produced from the mine from which shipment was made or is to be made.

10. Failure to file information required by the within Marketing Rules and Regulations or the filing of false information, wilfully made will subject the party failing to file the information required, or the party so filing, to the penalties of the Act and other penalties imposed by law.

11. These Marketing Rules and Regulations are subject to revision and amendment by further order of the Coal Commission.

Minimum Price Area No. 9—District Board No. 22

Proposed Marketing Rules and Regulations

The witness for District Board No. 22, properly qualified as an expert in the marketing of coal in that District, introduced into evidence as Exhibit No. 194, rules and regulations proposed by District Board No. 22 in compliance with Commission Order No. 244.

The witness testified that upon receipt of Order No. 244, the District Board took the former marketing rules and regulations which were in effect from January 3 to February 25, 1938 and, using these as a basis, formulated the rules and regulations which were proposed to the Commission on August 9, 1938.

District Board No. 22 proposes the following definition of a "sales agent";

"A 'sales agent' is a person who as agent, in law or in fact, sells coal for or on behalf of a Code Member."

For the reasons hereinbefore set forth in the findings of fact for District No. 17, we are of the opinion that this definition should be modified in the manner outlined in the composite findings subsequently given.

For the purposes of clarification, paragraph 3 of Section I has been modified to read as follows:

"A commission is the total of all compensations and allowances received by a sales agent from a Code Member for services rendered in the sale of coal."

For the same reasons outlined in the findings of fact for District No. 17, paragraphs 4 and 5 of Section I should be deleted and the definition of a "registered distributor", as later shown in the composite findings for District No. 22, should be substituted.

The definitions of "wholesale discount" and "retailing", contained in paragraphs 6 and 7 in Section I, should likewise be deleted for the reasons set forth in the findings of fact hereinbefore stated for District No. 17.

We are of the opinion that definitions 17 to 22, contained in Section I of the composite findings hereinafter given, are reasonable and desirable. The District Board did not define these terms, although they appear in various rules proposed by the Board.

For the reasons hereinbefore stated in the findings of fact for District No. 17, we are of the opinion that Section II, in its entirety, should be modified in the same manner as Section II of the proposed rules and regulations for District No. 17. Furthermore, we are of the opinion that Rule 6 of Section V, in so far as it pertains to sales agents, should properly be contained in Section II, which is entitled "Sales Agents".

The witness testified that, in his opinion, the rules in Sections III and IV, pertaining to the registration of wholesalers and farmers' cooperative organizations, should be deleted. The witness was of the opinion, however, that persons should be required to register with the Commission before receiving any discount. With respect to discounts, the witness further testified that Rule 5 of Section V was meant to cover only discounts and not commissions. Rules pertaining to discounts should properly be proposed in the discount hearing which the Commission has opened and which has, at the present time, been continued. Furthermore, Order No. 244 directed the District Boards to propose reasonable rules and regulations governing the sale and distribution of coal by Code Members, and any rules purporting to regulate persons entitled to receive discounts are not properly submitted in this hearing. For those reasons, and for the reasons hereinbefore stated in the findings of fact for District No. 17, we are of the opinion that Sections III, IV and V of the proposed rules and regulations for District No. 22, with the exception of the unfair methods of competition, should be modified and combined into one section as follows:

Discounts

"1. No Code Member or sales agent of a Code Member shall pay or allow any discount from minimum prices to any person unless such person has been registered by the Coal Commission as authorized to receive such discount at the time of the sale."

"2. Code Members or their sales agents may allow discounts from minimum prices on sales of coal to registered distributors, not in excess of the maximum discount or price allowances prescribed by the Coal Commission upon such sales."

We are of the opinion that Section VI, in its entirety, should be modified and clarified in the same manner and for the same reasons hereinbefore set forth in the findings of fact for District No. 17.

For the reasons hereinbefore set forth in the findings of fact for District No. 17, we are of the opinion that Rule 2 (a) of Section VII should be deleted and Rules 1, 2 (b) and 2 (c) should be modified in the manner set forth in the composite findings later outlined for District No. 22.

The District Board in Rules 4 and 5 of Section VIII provides that where agreements for the sale of coal are entered into upon a premium and penalty basis, a statement setting forth the full terms of the premium and penalty provisions shall be filed with the Statistical Bureau. We are of the opinion that as a matter of law no Code Member may enter into or perform any agreement made upon a premium or a premium and penalty basis which will permit the sale of coal at an aggregate contract price below the applicable minimum price for the coal sold and delivered after the effective date of these rules and regulations, although the buyer, under any premium and penalty contract, may nevertheless be entitled to a claim for substandard preparation or quality.

Rule 4 of Section IX does not indicate as to what time interest at the current market rate should be charged where payment is made by note, trade acceptance or other form of indebtedness. For the purpose of clarification, we believe the rule should be modified so as to provide that interest shall be charged from the due date of the account.

We are of the opinion that this rule should likewise be modified so as to provide that where payment is made under any circumstances after the due date of the account, interest must be charged. An unreasonable discrimination appears in this rule as it was proposed by the Board in that no provision is made for the charging of interest in a case where payment is not made at the due date of the account whether by default of the buyer or pursuant to an agreement for an extension of the term of credit and where such extension of the term of credit is not evidenced by a note, trade acceptance or other form of indebtedness.

While the District Board proposed in Section IX, relating to Terms of Payment, that the price and fair trade provisions of the Act shall not be violated by the use of terms of payment and that in no instance shall be terms of payment be more favorable than as specified in the rules, the District Board did not propose any specific rule making the agreement, express or implied, to extend credit for a period of longer than that authorized by the rules, a violation of the Code. We are of the opinion that such a rule is necessary in order fully to effectuate the rules proposed by the District Board relating to terms of payment.

We are of the opinion that Rule 6 of Section XI should be modified to provide that all coal must be sold and invoiced on a price per ton basis. This modification, in our opinion, is necessary for a uniform procedure and method to govern the selling and invoicing of coal. We believe this rule is necessary or otherwise the Commission must either establish supplementary prices based simply on thermal efficiency or else the Commission must undertake to translate sales made on such a basis into a price per ton basis in order to determine whether the minimum price has been violated or evaded.

For the reasons hereinbefore set forth in the findings of fact for District No. 17, we are of the opinion that Rules 3, 5 and 7 of Section XI should be modified and clarified in the manner set forth in the composite findings subsequently given.

The witness stated that he was of the opinion that the rules set forth in Exhibit No. 191 are reasonable and necessary for District No. 22. Rule 11 of Section XI of Exhibit No. 191 provides as follows:

"Every wholesale dealer, distributor or sales agent, shall cause to be clearly set forth upon any form of solicitation, order, invoice and statement covering coal offered for sale or sold, the following: (1) Either the name of the producer, or (2) the trade name established and generally used by the producer in designation of coal produced from the mine from which shipment was made or is to be made."

The rule cannot be directed against distributors at this hearing, but we are of the opinion that this rule is desirable and reasonable with reference to sales agents and should be included in the rules and regulations for District No. 22.

We are of the opinion that the second paragraph of Rule 8 (e) of Section XI should be deleted for the reason that it is impractical to enforce. Likewise, Rule 8 (f) of Section XI should be deleted for the reason that it creates an unreasonable discrimination.

The witness for District Board No. 22 testified generally that the rules proposed by the District Board were reasonable, not inconsistent with the requirements of Section 4 of the Act, and in conformance with the standards of fair competition contained in the Act, although the witness, on examination, likewise testified that certain clarifications and modifications of such rules would, in his opinion, be desirable. Except as to those rules which we have already stated should be modified, we are of the opinion that the rules proposed by the District Board are in accordance with the above requirements.

Accordingly, we find that the following rules and regulations incidental to the sale and distribution of coal by Code Members in District No. 22 are reasonable, not inconsistent with the requirements of Section 4 of the Act, and in conformance with the standards of fair competition established in the Act:

Marketing Rules and Regulations Incidental to the Sale and Distribution of Coal by Code Members within District No. 22 as Proposed by District Board No. 22 and as Approved, Disapproved, or Modified for the Purpose of Coordination

Section I.—Definitions

1. The term *Person* as used herein, includes individuals, firms, associations, partnerships, corporations, trusts, trustees, cooperatives, receivers and trustees and trustees in bankruptcy and in other legal proceedings, and any other recognized forms of business organizations.

2. A *Sales Agent* is a person who, as agent of a code member (and therefore without purchasing the coal), sells coal produced by such code member for him or on his behalf; provided, that "Sales Agent" shall not include an individual (herein referred to as a "salesman") regularly and continuously employed by a code member, and who regularly devotes the major portion of his time to the solicitation of purchases of coal produced by his code member employer.

3. A *Commission* is the total of all compensations and allowances received by a sales agent from a code member for services rendered in the sale of coal.

4. A *Registered Distributor* is a person who has been duly registered by the Coal Commission pursuant to the rules and regulations prescribed by the Commission for the administration of Section 4 II (h) of the Act.

5. A *Spot Order* is a legal obligation for the sale and purchase of coal, the delivery of which is stipulated to be made within not more than thirty (30) days from the date upon which the order was accepted.

6. A *Contract* is a legal obligation for the sale and purchase of coal, the deliveries of which are stipulated to be made during a period longer than that specified for a spot order.

7. A *Commitment* is a contract or spot order after a quotation is accepted or an option is exercised and not reduced to writing.

8. A *Quotation* is an offer for the sale of coal at a price which the offerer may withdraw prior to its being acted upon by the offeree.

9. An *Option* is an offer for the sale of coal at a price to be accepted within a time certain, during which time the offerer may not withdraw the offer without consent of the offeree.

10. *Coal Commission* as used herein, shall mean the National Bituminous Coal Commission established under the provisions of the Bituminous Coal Act of 1937.

11. *Act* as used herein, shall mean the Bituminous Coal Act of 1937.

12. *District Board* as used herein, shall mean any District Board established un-

der the provisions of Section 4 Part I (a) of the Act.

13. *Statistical Bureau* shall mean, unless otherwise specifically stated, the statistical bureau of the Commission for the district in which the coal involved in any transaction is produced, or the district in which is located a mine of a code member affected by any order or regulation.

14. *Minimum Price* shall mean a minimum price established and made effective by the Coal Commission.

15. *Maximum Price* shall mean a maximum price established and made effective by the Coal Commission.

16. *Registration* and *Register* as used herein, shall refer to registration with the Coal Commission pursuant to rules and regulations prescribed by the Commission for the administration of Section 4 of the Act.

17. The term *Producer* includes all individuals, firms, associations, corporations, trustees, and receivers engaged in the busines of mining coal.

18. The terms *Reconsignment* and *Diversion* as used herein shall mean the change in the original consignee or in the destination or route.

19. A *Code Member* means a producer who has accepted and holds membership in the Bituminous Coal Code promulgated under the Bituminous Coal Act of 1937.

20. *Coal* as used herein shall mean bituminous coal.

21. The term *Bituminous Coal* includes all bituminous, semi-bituminous, and sub-bituminous coal and shall exclude lignite, which is defined as a lignitic coal having calorific value in British thermal units of less than seven thousand six hundred per pound and having a natural moisture content in place in the mine of 30 per centum or more.

22. The term *Control* means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting securities, by contract, or otherwise.

Section II.—Sales Agents

1. All appointments of sales agents by code members or their agents or authorized representatives, and the terms and conditions of such appointments shall be subject to the Marketing Rules and Regulations from time to time established by the Coal Commission.

2. Each code member shall be responsible for the compliance by all his sales agents and agents and employees of sales agents with the provisions of the Bituminous Coal Code and of all rules and regulations, promulgations and determinations of the Coal Commission.

3. (A) Every contract for the appointment of a sales agent by Code Members or by agents or authorized representatives of Code Members, or any modification thereof, shall be in writing, and shall fully set forth therein all the terms and conditions of such contract, including the amount or basis of the sales agent's commission. Certified copies of all such agency contracts entered into on or prior to the effective date of the establishment of these rules and regulations and in effect on such date, shall be filed by the Code Member with the Statistical Bureau, or Bureaus, within twenty (20) business days after such date.

(B) Certified copies of all contracts appointing sales agents or of agreements modifying any sales agency contract, entered into subsequent to the effective date of these rules and regulations, shall be similarly filed by the Code Member within ten (10) business days after the date upon which such contracts or agreements have been entered into.

(C) Upon the expiration, termination, or rescission of any sales agency contract, the Code Member principal shall make a report thereof to the Statistical Bureau, or Bureaus, within ten (10) business days after the date of such expiration, termination, or rescission.

4. (A) As to all coal sold by a Code Member otherwise than through a sales agent or through an employee regularly employed as a salesman by the Code Member, such Code Member shall, not later than the fifteenth day of each month, file with the Statistical Bureau, or Bureaus, a list of all persons through whom, directly or indirectly, any such coal was sold during the preceding calendar month, with a statement of the duration and character of their employment, the tonnage sold by, and the rate and amount of compensation paid to, each of them.

(B) Not later than the fifteenth day of each month, each Code Member shall also file with the Statistical Bureau, or Bureaus, similar information obtained from his sales agents concerning sales of coal made during the preceding calendar month, by the sales agents' representatives and employees other than salesmen regularly employed.

(C) Not later than the fifteenth day of each month, each Code Member shall also file with the Statistical Bureau, or Bureaus, a statement showing the names and addresses of distributors to whom the Code Member or his sales agents sold coal during the preceding calendar month, the tonnage sold, and the amount of discount allowed to each such distributor.

5. A list showing the names and addresses of sales agents and the Code Members for whom such agents act shall be published by the Coal Commission from time to time.

6. All agency contracts and other information filed by the Code Members in conformity with the foregoing regulations, other than the names and addresses of sales agents, shall be held by the Coal Commission as the confidential records of said parties and shall not be made public without the consent of the Code Member from whom the same shall have been obtained, except where such disclosure is required in any proceeding before the Coal Commission by way of enforcement of the Act or upon the order of any court of competent jurisdiction.

7. From and after twenty (20) business days following the effective date of these Marketing Rules and Regulations no Code Member or sales agent of Code Member shall allow or pay, directly or indirectly, any commission or compensation to any sales agent

(a) Unless the contract of agency shall have been filed with the Coal Commission, as hereinbefore required, and

(b) Unless the sales agent shall have agreed, in writing, with the Code Member to conferm to and observe the minimum and maximum prices and Marketing Rules and Regulations established by the Coal Commission and the Fair Trade Practice Provisions of the Act, as well as all preper Orders of the Commission, and

(c) Unless the sales agent shall have in good faith complied with the agreement as in paragraph (b) above provided.

8. No commission shall be paid to a sales agent by a Code Member where the coal is delivered or sold to any person who owns such sales agent or who, financially or otherwise, controls such agent.

Section III.—Discounts and Allowances

As provided in Section 4, Part II (i) of the Act, the following practices with respect to coal shall be unfair methods of competition and shall constitute violations of the code:

1. The consignment of unordered coal, or the forwarding of coal which has not actually been sold, consigned to the producer or his agent: Provided, however, that coal which has not actually been sold may be forwarded, consigned to the producer or his agent at rail or track yards, tidewater ports, river ports, or lake ports, or docks beyond such ports, when for application to any of the following classes: Bunker coal, coal applicable against existing contracts, coal for storage (other than in railroad cars) by the producer or his agent in rail or track yards or on docks, wharves, or other yards for resale by the producer or his agent.

2. The adjustment of claims with purchasers of coal in such manner as to grant secret allowances, secret rebates, or secret concessions, or other price discrimination.

3. The prepayment of freight charges with intent to or having the effect of granting a discriminatory credit allowance.

4. The granting in any form of adjustments, allowances, discounts, credits, or refunds to purchasers or sellers of coal, for the purposes or with the effect of altering retroactively a price previously agreed upon, in such manner as to create price discrimination.

5. The predating or postdating of any invoice or contract for the purchase or sale of coal, except to conform to a bona fide agreement for the purchase or sale entered into on the predate.

6. The payment or allowance in any form or by any device of rebates, refunds, credits, or unearned discounts, or the extension to certain purchasers of services or privileges not extended to all purchasers under like terms and conditions, or under similar circumstances.

7. The attempt to purchase business, or to obtain information concerning a competitor's business by concession, gifts, or bribes.

8. The intentional misrepresentation of any analysis or of analyses, or of sizes, or the intentional making, causing, or permitting to be made, or publishing, of any false, untrue, misleading, or deceptive statement by way of advertising, invoicing, or otherwise concerning the size, quality, character, nature, preparation, or origin of any coal bought, sold, or consigned.

9. The unauthorized use, whether in written or oral form, of trademarks, trade names, slogans, or advertising matter already adopted by a competitor, or any deceptive approximation thereof.

10. Inducing or attempting to induce, by any means or device whatsoever, a breach of contract between a competitor and his customer during the term of such contract.

11. Splitting or dividing commissions, brokers' fees, or brokerage discounts, or otherwise in any manner directly or indirectly using brokerage commissions or jobbers' arrangements or sales agencies for making discounts, allowances, or rebates, or prices other than those determined under this Act, to any industrial consumer or to any retailers, or to others, whether of a like or different class.

12. Selling to, or through, any broker, jobber, commission account, or sales agency, which is in fact or in effect an agency or an instrumentality of a retailer or an industrial consumer or of any organization of retailers or industrial consumers, whereby they or any of them secure either directly or indirectly a discount, dividend, allowance, or rebates, or a price other than that determined in the manner prescribed by this Act.

13. Employing any person or appointing any sales agent, at a compensation obviously disproportionate to the ordinary value of the service or services rendered, and whose employment or appointment is made with the primary intention and purpose of securing preferment with a purchaser or purchasers of coal.

1. No Code Member or sales agent of a Code Member shall pay or allow any discount from minimum prices to any person unless such person has been registered by the Coal Commission as authorized to receive such discount at the time of the sale.

2. Code Members or their sales agents may allow discounts from minimum prices on sales of coal to registered distributors, not in excess of the maximum discount or price allowances prescribed by the Coal Commission upon such sales.

Section IV.—Quotations, Options and Contracts

1. Subject to further order of the Coal Commission no Code Member or sales agent of a Code Member shall enter into any agreement or order for the sale of coal providing for delivery for a period in excess of that authorized for a spot order, and no prices shall be less than the applicable minimum prices in effect at the time of the making of the agreement: Provided, however, that contracts for periods not exceeding one (1) year may be made with agencies of the Federal Government or with such agencies of State or local governments, as are required by law to purchase coal for periods in excess of thirty (30) days, at the following applicable minimum prices:

(a) For deliveries during the first thirty (30) days of the contract, at not less than the applicable minimum prices in effect at the time of the making of the agreement;

(b) For deliveries thereafter, at not less than the applicable minimum prices in effect at the time of delivery, if such price is higher than the contract price.

In the case of Governmental Agencies, options may be given for a period not exceeding forty-five (45) days. Subject to further order of the Coal Commission, no option for the sale of coal may be given, except as herein specifically provided.

2. Upon the revocation or suspension of Rule 1 of this Section, Code Members or sales agents of Code Members may thereafter enter into contracts for the sale and delivery of coal at prices not less than the minimum price in effect at the time of the making of the contract, upon the following conditions:

A. No contract for the sale of coal shall provide for delivery over a period in excess of twelve (12) months, except by special permission from the Coal Commission upon a showing of the necessity of meeting long term contract competition of oil, gas, or other fuels or forms of power, or for such other reasons as the Commission may deem appropriate in order to further the effectual administration of the Act.

B. No contract for the sale of coal shall provide for deliveries to commence at a time later than ninety (90) days from the date upon which such contract was entered into.

C. All contracts shall be in writing and shall express the entire agreement between the parties. The contract shall clearly state the date of execution, the effective date, the expiration date, the price agreed upon, the terms of payment, the size and grade of coal sold, the number of cars or tonnage to be shipped, the name of the originating mine, and, where the coal is purchased for consumption, the use to which the coal is to be applied. Contracts may also be made either (a) calling for a buyer's entire requirements or a stated percentage of his requirements, showing the maximum tonnage to be shipped thereunder, or (b) covering a buyer's requirements and specifying the tonnage to be shipped with an allowable overshipment or undershipment of not exceeding twenty (20) per cent of the tonnage specified.

The provisions of the rule stated in the foregoing paragraph relating to quantity shall not apply to contracts made with agencies of the Federal, State or local Governments.

D. Every contract shall express the entire agreement between the parties and no modification thereof shall be made except by written agreement which shall conform to all the requirements set forth in these rules and regulations.

E. Each contract shall contain the following provisions, the meaning and effect of which shall not be changed or altered by any other provision of the contract:

"1. This contract and the performance of all provisions thereof are expressly subject to the Bituminous Coal Act of 1937 and the lawful orders and regulations issued thereunder by the National Bituminous Coal Commission.

"2. No shipment consigned to any destination point may be diverted or reconsigned without the consent of the seller confirmed in writing. In case of any reconsignment or diversion, the seller shall charge and the buyer shall pay not less than the minimum price prescribed for such coal for delivery to the destination to which such shipment is actually delivered and for the use to which it is actually applied.

"3. The coal shipped pursuant to this contract is sold and purchased upon the following conditions:

"(a) If the coal is sold for consumption, it shall be used in the plant or plants named herein and for the use stated herein;

"(b) In case of diversion by the buyer to a use other than that stated herein, the buyer shall notify the seller in writing and the seller shall charge and the buyer shall pay not less than the applicable minimum price for such coal at the time of diversion for the use to which it is actually applied."

F. In any case where a contract is made by a sales agent of a Code Member, such sales agent shall not exercise the rights of the seller as defined in Item E (2) of Rule 2 of this section without first securing the consent of the Code Member producing such coal to be confirmed in writing.

G. Upon the revocation or suspension of Rule 1 of this Section, quotations and options for the sale of coal may be given for a period not exceeding fourteen (14) days. If the minimum price is increased beyond the quoted price within such

fourteen (14) days, any quotation or option not accepted or exercised prior to the effective date of the price change shall, without notice, be considered withdrawn and no longer effective. Every quotation or option shall contain a provision to the foregoing effect and shall further stipulate that any contract or spot order entered into thereunder shall be subject to these Marketing Rules and Regulations.

H. The provisions of this Rule 2 G shall not apply to sealed bids on business of the United States Government or States or Political subdivisions thereof, in which cases quotations and options at not less than the minimum price in effect at the time the bid is filed may be given for a period not exceeding forty-five (45) days from the final filing date of bids.

3. A report of every commitment shall be filed by the Code Member or his sales agent with the Statistical Bureau or Bureaus within fifteen (15) business days from the date of the making of the agreement. Such reports shall set forth all the terms and conditions of the commitment. A true copy of every contract and of any agreement for modification thereof shall be filed with the Statistical Bureau within fifteen (15) business days from the date of execution of such contract or agreement for modification: Provided, however, that a report of the commitment need not be filed if a copy of the contract is filed within fifteen (15) business days.

Section V.—Spot Orders

1. A spot order shall be in writing or confirmed in writing within five (5) business days from the date of the making thereof.

2. Each spot order shall be subject to the following conditions which shall either be endorsed upon the form of the order or upon the written confirmation thereof by the Code Member or his sales agent, the meaning and effect of which shall not be changed or altered by any other provision of the order:

"(a) No shipment consigned to any destination may be diverted or reconsigned without the consent of the seller confirmed in writing. In case of any reconsignment or diversion, the seller shall charge and the buyer shall pay not less than the minimum price prescribed for such coal for delivery to the destination to which such shipment is actually delivered and for the use to which it is actually applied.

"(b) The coal shipped pursuant to this order is sold and purchased upon the following conditions:

"(1) If the coal is sold for consumption, it shall be used in the plant or plants named herein and for the use stated herein;

"(2) In case of diversion by the buyer to a use other than that stated herein, the buyer shall notify the seller in writing and the seller shall charge and the buyer shall pay not less than the applicable minimum price for such coal at the time of diversion for the use to which it is actually applied."

3. In any case where a sale is made by a sales agent of a Code Member, such sales agent shall not exercise the rights of the seller as defined in Item 2 (a) of this section without first securing the consent of his Code Member principal to be confirmed in writing.

4. All the terms and conditions of a sale of coal must be fully and expressly set forth either in the order or in the written confirmation thereof, and such order or written confirmation thereof shall specifically contain all the terms required by Rule 2 (a) of Section IV of these marketing rules and regulations. Within ten (10) business days after the date of the making of the spot order or date of the written confirmation thereof, the Code Member or his sales agent shall file with the Statistical Bureau or Bureaus a copy of such spot order or confirmation. Any modification of a spot order must also be made in writing and filed with the Statistical Bureau or Bureaus in the same manner.

Section VI.—Use of Coal Analyses

1. No analysis of coal shall be utilized by a Code Member or his sales agent in selling or offering for sale any coal produced by the Code Member, unless such Code Member shall have previously filed with the Statistical Bureau of the Coal Commission and the District Board for the district in which the coal is produced copies of such analysis, together with a certificate setting forth the time and manner of obtaining the sample analyzed, the name and address of the person or firm making the analysis and stating that such analysis is truly representative of the grade and size of coal as regularly produced by the Code Member. Each such analysis shall be not less than a proximate analysis showing ash, volatile matter, fixed carbon, sulphur and British Thermal Units and ash softening temperature. Each analysis shall further show whether made on an "as received" or moisture "free" basis and if on an "as received" basis, the analysis shall include moisture content.

2. All analyses so filed shall be subject to inspection at the office of the statistical bureau at any time during office hours by any interested person, and may be used by the District Board and the Coal Commission in determining from time to time proper classifications of the coals produced by the Code Member.

3. Any analysis of the coal of a Code Member made by or on behalf of a consumer and accepted by the Code Member as the basis for an adjustment of price under any contract or order shall be filed by the Code Member with the proper Statistical Bureau and District Board, within ten (10) days after such adjustment is made and shall be subject to the provisions of Rule No. 2 herein.

4. No agreement or order for the sale of coal produced by a Code Member, made upon a premium and penalty or penalty basis, shall be entered into or accepted by a Code Member unless the analysis upon which the premium and penalty clause is based has been previously filed as required in Rule 1. Such analysis shall be accompanied by a statement setting forth in full the terms of the premium and penalty provisions of the proposed contract or order.

5. In the case of premium and penalty agreements entered into prior to the effective date of these regulations, and claimed to be continuing in effect, the Code Member shall file a statement containing the information required under Rule 4, within fifteen (15) days from such effective date.

6. From and after the effective date of these rules and regulations, no Code Member shall enter into or perform any agreement made upon a penalty or a premium and penalty basis which will permit the sale of coal at an aggregate contract price below the applicable minimum price established by the Coal Commission for the coal sold and delivered upon such agreement subsequent to said effective date: provided, that where a Code Member has entered into an agreement made upon a penalty or a premium and penalty basis, this rule shall not be considered as affecting any claim that the buyer might otherwise have had for substandard preparation or quality under Section IX of these marketing rules and regulations.

Section VII.—Terms of Payment

The price and fair trade practice provisions of the Act shall not be evaded or violated by a Code Member or his sales agent through the use of terms of payment, and in no instance shall terms of payment be more favorable than the following:

1. On rail shipments the date of payment of invoices for coal sold shall be on or before the twentieth day of the month following shipment.

2. On railroad locomotive fuel, the date of payment shall be on or before the twenty-fifth of the month following the date of shipment.

3. Payment shall be made in full and on a net cash basis. No portion of the invoice price may be withheld by agreement by reason of any unadjusted claim of the buyer nor shall any portion be withheld or deposited in escrow by reason of any alleged agreement relating to the constitutionality of any provision of the Act or the validity of any order of the Coal Commission.

4. Where payment is made by note, trade acceptance or other form of indebtedness, or where payment is made under any circumstances after the due date of the account, the seller shall charge and the buyer shall pay interest from and after due date of the account at the current rate in the locality to which the coal is shipped to the vendee.

5. Freight on rail shipments shall not be paid by a Code Member or his sales agent except to prepay stations as published in current railway tariffs or to the United States Government, States or Political subdivisions thereof. Where freight is thus prepaid, the amount thereof shall immediately upon receipt of freight bill or notice of sight draft payment, be invoiced to the buyer for immediate payment.

6. The agreement by a Code Member, expressed or implied, to extend the credit for a period longer than that authorized by these rules and regulations, with the effect of violating the price provisions or the unfair methods of competition of the Act, shall constitute a violation of the Code.

Section VIII.—Crushing and Pulverizing Coal

1. Each Code Member who maintains and operates at his mine or at any facility used in preparing coals for the market, any crushing or pulverizing device, shall register such device with the Statistical Bureau of the Coal Commission on forms submitted by the Coal Commission.

2. Such forms shall include the following:

1. Name and address of code member.
2. Name of mine or facility at which device is located.
3. Name and style or type of crushing or pulverizing device.
4. Hourly capacity of device.
5. Sizes of coal which device can crush and pulverize.
6. Sizes of coal resulting from crushing or pulverizing.
7. Number of tons crushed in 1936 and in each month of 1937.
8. Cost per ton of crushing or pulverizing in 1936.

3. Each Code Member shall on or before the tenth (10) days of each succeeding month, file with the Statistical Bureau on forms to be provided by the Coal Commission, a statement verified by affidavit, setting forth the following information for the preceding calendar month:

(a) Number of tons of each size crushed or pulverized.
(b) Number of tons of each size resulting from crushing or pulverizing.

Section IX.—Miscellaneous

1. No deduction or allowance from invoice prices shall be granted by any code member or his sales agent to any purchaser for advertising.

2. Code members (or their agents or representatives) either individually or collectively, with or without financial participation by retailers of coal, may conduct advertising campaigns seeking to increase the use of coal. The amount of expenditures incurred by a code member, his agent or representative for advertising shall be subject to review by the Coal Commission as to the good faith of the transaction.

3. Where coal is refused by a consignee in transit or at destination, the Code Member may sell the same at the best obtainable price; Provided, that in each case the Code Member shall file with the Statistical Bureau, within five (5) days from the date of such resale a statement giving the name and address of the consignee and the reasons for the refusal, the price at which the coal was originally sold, the name and address of the purchaser upon resale and the price received by the seller upon resale, a copy of the carrier's notice of refusal or notice of reconsignment and such other pertinent facts as may be offered in proof of the necessity of such resale, and that in making such resale the provisions of the Code and the Marketing Rules and Regulations of the Coal Commission other than as to price have not been violated or evaded.

4. All Code Members shall promptly furnish to the Statistical Bureau of the Coal Commission for the District in which the coal originated, full reports of all reconsignments and shall authorize the carrier making such reconsignments to furnish complete information thereon to such Statistical Bureau.

5. No allowance shall be made for any shipment of coal of substandard preparation or quality unless formal claim duly executed by or on behalf of the buyer and verified by affidavit setting forth the amount claimed by way of allowance and reasons for the claim is filed with the Code Member or his sales agent within ten (10) days after the receipt of the coal.

The Code Member or sales agent with whom such claim for allowance is filed shall immediately notify the Statistical Bureau and the District Board, furnishing an authentic copy of the buyer's claim together with a statement of the producer's views as to the validity of the claim, setting forth:

(a) The name and address of the consignee and the reason for the allowance.
(b) The amount of allowance or adjustment made.
(c) The price at which the coal was sold.
(d) The tonnage delivered.
(e) The name of the mine and the Code Member.
(f) Date of shipment.
(g) Grade and size of coal and destination.
(h) A statement that the adjustment has not been made with the purpose or intent of evading the price or fair trade practice provisions of the Act.

6. The screening of mine run or re-screening of other grades of coal sold and billed as such for the buyer's account for the purpose of keeping the resultant products separate in the shipment thereof is prohibited. All coal must be sold and invoiced on a price per ton basis under the designation shown therefor in the price schedule published by the Coal Commission.

7. All coal confiscated or lost in transit shall be invoiced to the carrier at not less than the minimum price established for such coal for shipment to the destination and use to which the coal was sold or the established price for sale to the carrier at the place of confiscation or lost, whichever may be the higher.

8. No substitution may be made upon any spot order or contract, of any grade or size of coal taking a minimum price higher than the price specified in such order or contract, except upon the following conditions:

(a) The proposed substitution shall not be an express or implied condition of the order or contract.

(b) The coal substituted must be coal which the Code Member has already produced and loaded into transportation facilities and which cannot be sold promptly by the exercise of the usual sales effort, such substitution to be limited to a specific tonnage for shipment on a specific order and from a specific mine.

(c) The substitution must be reasonably necessary as an emergency measure in order to continue operation of the mine of the Code Member.

(d) The substitution shall be acceptable to the purchaser of the coal, and shall not be made with the purpose or effect of conferring any advantage on the purchaser or securing any preference or advantage for the Code Member over his competitors.

(e) Such substitution may be made only with the approval of a duly designated representative of the Commission and in each instance formal application therefor shall be made upon forms provided by the Commission and permits shall be issued prescribing the conditions of substitution in each case approved.

(f) Copies of substitution permits shall be mailed daily to the office of the District Board and weekly summaries of substitution permits shall be mailed to all District Boards within the Price Area. The Commission may from time to time publish the essential facts as to all substitution permits granted.

(g) In each case of coal shipped under a substitution permit each invoice shall specifically show the permit number and the size and grade of coal substituted.

9. Every sales agent shall cause to be clearly set forth upon any form of solicitation, order, invoice and statement covering coal offered for sale or sold, the following:

(1) Either the name of the producer or

(2) The trade name established and generally used by the producer in designation of coal produced from the mine from which shipment was made or is to be made.

10. Failure to file information required by the within Marketing Rules and Regulations of the filing of false information, wilfully made, will subject the party failing to file the information required

or the party so filing, to the penalties of the Act and other penalties imposed by law.

11. These Marketing Rules and Regulations are subject to revision and amendment by further order of the Coal Commission.

MINIMUM PRICE AREA NO. 10—DISTRICT BOARD NO. 23

PROPOSED MARKETING RULES AND REGULATIONS

A witness for District Board No. 23, properly qualified as an expert in the marketing of coal in that District, introduced into evidence as Exhibit No. 195 the rules and regulations proposed by District Board No. 23 in compliance with Commission Order 244. This witness testified that these rules and regulations were properly submitted to Code Members within said District, and that no protests concerning such proposals were received from Code Members. Accordingly the Board on August 18, 1938, adopted said rules and regulations and later submitted them to the Commission.

District Board No. 23 proposed the following definition of a sales agent, Exhibit No. 195, Section I, paragraph 2:

"A 'sales agent' is a person who as agent, in law or in fact, sells coal for or on behalf of a Code Member."

Rule 4, Section II of Exhibit No. 195, providing for the filing with the Commission of certain data, differentiates a sales agent from a sales representative merely employed as salesman. It is apparent from this rule that the District Board did not intend that a sales representative merely employed as a saleman should be included in the definition of a "sales agent". Furthermore, to prevent the granting of discounts in the form of commissions, we are of the opinion that the definition of a "sales agent" should clearly indicate that persons who purchase coal do not come within the scope of the definition. Therefore, we are of the opinion that the definition of a "sales agent" should be clarified in the same manner as hereinbefore set forth for District No. 17.

For the purpose of clarification, we modify the definition of a "commission" contained in Section I, rule 3, to read as follows:

"A 'commission' is the total of all compensations and allowances received by a sales agent from a Code Member for services rendered in the sale of coal."

The witness for the District Board testified that he was in accord with the reasons expressed by the expert witness for District No. 17, Mr. Thompson, with respect to the deletion of the provisions pertaining to the registration of wholesalers and farmers' cooperative organizations. It was the opinion of Mr. Thompson that rules providing that no discounts should be granted except to persons properly registered with the Commission were proper in this hearing and it was not the intention of the witness that such rules be deleted. Order No. 244 directed various District Boards to propose rules and regulations incidental only to the sale and distribution of coal of Code Members. Any definition purporting to define what persons come within the term "distributor" as used in Section 4 II (h) is improperly submitted in this hearing, and accordingly the definitions of a "wholesaler" and "farmers' cooperative organization" proposed by the District Board in Section I paragraphs 4 and 5 should be deleted and the following definition of a "registered distributor" should be substituted:

"A 'registered distributor' is a person who has been duly registered by the Coal Commission pursuant to the rules and regulations prescribed by the Commission for the administration of Section 4 II (h) of the Act."

We are of the opinion that the definition of a "wholesale discount" is not a proper subject for consideration in this hearing, but should be determined in a hearing held pursuant to Section 4 II (h) of the Act.

The definition of "retailing" should be deleted for the reasons hereinbefore set forth in the findings of fact for District No. 17.

For the purpose of clarification, we modify the definition of a "commitment" contained in paragraph 10 of Section I to read as follows:

"A 'commitment' is the status of a contract between the time a quotation is accepted or an option is exercised and the time the contract is formally reduced to writing."

We are of the opinion that definitions 17 to 22 contained in Section I of the composite findings hereinafter given are reasonable and desirable. The District Board did not define these terms although they appear in various rules proposed by the Board.

Rule 3 of Section II requires all contracts for the appointment of sales agents by Code Members or authorized representatives of Code Members to be in writing, and that copies of such agency contracts shall be filed with the Statistical Bureau. It is obvious that the purpose of this rule is to furnish necessary information to the Commission to enable it to determine whether or not the Code is being violated by sales agents or by Code Members through the use of sales agents. In order fully to effectuate the purpose of this rule, we are of the opinion that the rules should be modified so as clearly to indicate that the contract shall set forth all the terms and conditions of the appointment, including the amount or basis of the sales agents' commission, and, furthermore, that all agreements modifying sales agency contracts should likewise be in writing and filed with the Statistical Bureau. The District Board leaves the time for such filing to be fixed by the Commission. We believe that a period of twenty (20) days after the establishment of the rules and regulations is a reasonable period within which to require the filing of sales agency contracts entered into on or prior to the effective date of the rules and regulations.

Rule 5 of Section II provides that the Commission shall publish a list showing the names and addresses of sales agents and the Code Members for whom such agents act. In order that the Commission may properly carry out this rule and so that the lists published shall be accurate, we are of the opinion that the Code Member principal shall report to the Statistical Bureau the expiration, termination or rescission of all sales agency contracts.

Rules 4 and 7 of Section II should be clarified for the same reasons hereinbefore set forth for District No. 17.

Section V, rule 6 prohibits the payment of a commission to a sales agent or discount to a wholesaler where the coal is delivered or resold to any person who controls in whole or in part the sales agent or wholesaler. The rule, as it relates to sales agent should be properly contained in Section II, which is entitled "Sales Agents." In so far as the rule prevents the payment of a discount to a wholesaler where the coal is delivered or resold to any person who controls in whole or in part the wholesaler, we are of the opinion that this rule cannot be properly enforced and accordingly should be deleted. In a proceeding against a Code Member for violation of this rule, a Code Member must be charged with knowledge of the fact that the wholesaler intended to resell the coal to a person who controls the wholesaler. It would be extremely difficult to prove such knowledge on the part of a Code Member and we are of the opinion that such a rule could be properly effectuated only by prohibiting the wholesaler from receiving a discount on coal resold to any person who controls him in whole or in part. Such a rule is the subject of consideration under a hearing pursuant to Section 4 II (h) of the Act, and is not the proper subject for consideration at this hearing.

For the reasons hereinbefore set forth in the findings of fact for District No. 17, the rules relating to the registration of wholesalers and farmers' cooperative organizations should be deleted with the exceptions of rules 1 of Sections III and IV, which should be combined and modified to read as follows:

"No Code Member or sales agent of a Code Member shall pay or allow any discount from minimum prices to any person unless such person has been registered by the Coal Commission as authorized to receive such discount at the time of the sale."

As previously stated, Rule 4 of Section V, in light of the definition of "retailing" as proposed by the Board, is determinative of the persons entitled to a discount under Section 4 II (h) of the Act; therefore, this rule is not a proper subject of consideration at this hearing and should be deleted.

For the reasons hereinbefore set forth in the findings of fact for District No. 17, rule 5 of Section V should be deleted.

We are of the opinion that the entire Section VI should be modified and clarified in the same manner and for the same reasons hereinbefore set forth in the findings of fact for District No. 17.

Rule 1 of Section VII contained in Exhibit No. 195 should be clarified as hereinafter set forth in the composite findings. Rule 2 (a) of Section VII should be deleted for the same reasons as hereinbefore given fo rthe deletion of Rule II F 2 of Section VI for District No. 17. Rules 2 (b) and 2 (c) of Section VII, for the purposes of clarification, have been reworded in the manner set forth in the composite findings as later outlined.

The District Board does not propose any rules specifically requiring the filing of spot orders or any written confirmation thereof. However, the Board in Rule 4 of Section VII provided that any modification of a spot order must be made in writing and filed in the same manner as an order. We are of the opinion that a rule specifically requiring the filing of spot orders or the written confirmation thereof, and requiring that any modification of spot orders must be made in writing and filed with the Statistical Bureau in the same manner as an order, is desirable and reasonable.

For the same reasons hereinbefore set forth in the findings of fact for District No. 17, Rule 6 should be added to Section VIII in the manner set forth in the composite findings subsequently given.

Rule 4 of Section IX does not indicate as of what time interest at the current market rate should be charged where payment is made by note, trade acceptance or other form of indebtedness. For the purpose of clarification we believe this rule should be modified so as to provide that interest shall be charged from the due date of the account.

We are of the opinion that this rule should likewise be modified so as to provide that where payment is made under any circumstances after the due date of the account, interest must be charged. An unreasonable discrimination appears in this rule as it was proposed by the Board in that no provision is made for the charging of interest in a case where payment is not made at the due date of the account whether by default of the buyer or pursuant to an agreement for an extension of the term of credit and where such extension of the term of credit is not evidenced by a note, trade acceptance or other form of indebtedness.

For the reasons hereinbefore stated in the findings of fact for District No. 17, we are of the opinion that there should be included in Section IX a rule making the agreement, express or implied, to extend credit for a period of time longer than that authorized by the rules, a violation of the Code.

For the reasons hereinbefore set forth in the findings of fact for District No. 17, we are of the opinion that Rules 3, 5 and 7 of Section XI should be modified and clarified in the manner set forth in the composite findings subsequently given.

We are of the opinion that rule 6 of Section XI should be modified to provide that all coal must be sold and invoiced on a price per ton basis. This modification, in our opinion, is necessary for a uniform procedure and method to govern the selling and invoicing of coal. We believe this rule is necessary or otherwise the Commission must either establish supplementary prices based simply on thermal efficiency or else the Commission must undertake to translate sales made on such a basis into a price per ton basis in order to determine whether the minimum price has been violated or evaded.

We are of the opinion that the second paragraph of rule 8 (e) of Section XI should be deleted for the reason that it is impractical to enforce. Likewise, rule 8 (f) of Section XI should be deleted for the reason that it creates an unreasonable discrimination.

The witness testified that he was in accord with the testimony given by Mr. Thompson, making specific exceptions to modifications with which he was not in agreement. The witness did not except to the rule providing that every wholesaler, distributor or sales agent shall clearly set forth on any form of solicitation, order and statement covering coal offered for sale or sold, as follows:

(1) Either the name of the producer, or

(2) The trade name established and generally used by the producer in designation of coal produced from the mine from which shipment is made or should be made.

Such a rule cannot be directed against distributors at this hearing, but we are of the opinion that this rule is desirable and reasonable with reference to sales agents.

The witness for District Board No. 23 testified generally that the rules proposed by the District Board were reasonable, not inconsistent with the requirements of Section 4 of the Act, and in conformance with the standards of fair competition contained in the Act, although the witness on examination likewise testified that certain clarifications and modifications of such rules would, in his opinion, be desirable. Except as to those rules which we have already stated should be modified, we are of the opinion that the rules proposed by the District Board are in accordance with the above requirements.

Accordingly, we find that the following rules and regulations incidental to the sale and distribution of coal by Code Members in District No. 23 are reasonable, not inconsistent with the requirements of Section 4 of the Act, and in conformance with the standards of fair competition established in the Act:

MARKETING RULES AND REGULATIONS INCIDENTAL TO THE SALE AND DISTRIBUTION OF COAL BY CODE MEMBERS WITHIN DISTRICT NO. 23 AS PROPOSED BY DISTRICT BOARD NO. 23 AND AS APPROVED, DISAPPROVED, OR MODIFIED FOR THE PURPOSE OF COORDINATION

Section I.—Definitions

1. The term *Person* as used herein, includes individuals, firms, associations, partnerships, corporations, trusts, trustees, co-operatives, receivers and trustees in bankruptcy and in other legal proceedings, and any other recognized forms of business organizations.

2. A *sales agent* is a person who, as agent of a code member (and therefore without purchasing the coal), sells coal produced by such code member for him or on his behalf: provided, that "sales agent" shall not include an individual (herein referred to as a "salesman") regularly and continuously employed by a code member, and who regularly devotes the major portion of his time to the solicitation of purchases of coal produced by his code member employer.

3. A *commission* is the total of all compensations and allowances received by a sales agent from a code member for services rendered in the sale of coal.

4. A *registered distributor* is a person who has been duly registered by the Coal Commission pursuant to the rules and regulations prescribed by the Commission for the administration of Section 4 II (h) of the Act.

5. A *spot order* is a legal obligation for the sale and purchase of coal, the delivery of which is stipulated to be made within not more than thirty (30) days from the date upon which the order was accepted.

6. A *contract* is a legal obligation for the sale and purchase of coal, the deliveries of which are stipulated to be made during a period longer than that specified for a spot order.

7. A *commitment* is the status of a contract between the time a quotation is accepted or an option is exercised and the time the contract is formally reduced to writing.

8. A *quotation* is an offer for the sale of coal at a price which the offerer may withdraw prior to its being acted upon by the offeree.

9. An *option* is an offer for the sale of coal at a price to be accepted within a time certain, during which time the offerer may not withdraw the offer without consent of the offeree.

10. *Coal Commission* as used herein, shall mean the National Bituminous Coal Commission established under the provisions of the Bituminous Coal Act of 1937.

11. *Act* as used herein, shall mean the Bituminous Coal Act of 1937.

12. *District Board* as used herein, shall mean any District Board established un-

der the provisions of Section 4, Part I (a) of the Act.

13. *Statistical Bureau* shall mean, unless otherwise specifically stated, the statistical bureau of the Commission for the district in which the coal involved in any transaction is produced, or the district in which is located a mine of a code member affected by any order or regulation.

14. *Minimum price* shall mean a minimum price established and made effective by the Coal Commission.

15. *Maximum price* shall mean a maximum price established and made effective by the Coal Commission.

16. "Registration and Register" as used herein, shall refer to registration with the Coal Commission pursuant to rules and regulations prescribed by the Commission for the administration of Section 4 of the Act.

17. The term *producer* includes all individuals, firms, associations, corporations, trustees, and receivers engaged in the business of mining coal.

18. The terms *reconsignment* and *diversion* as used herein shall mean the change in the original consignee or in the destination or route.

19. A *code member* means a producer who has accepted and holds membership in the Bituminous Coal Code promulgated under the Bituminous Coal Act of 1937.

20. *Coal* as used herein shall mean bituminous coal.

21. The term *bituminous coal* includes all bituminous, semi-bituminous and subbituminous coal and shall exclude lignite, which is defined as a lignitic coal having calorific value in British thermal units of less than seven thousand six hundred per pound and having a natural moisture content in place in the mine of 30 per centum or more.

22. The term *control* means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting securities, by contract, or otherwise.

Section II.—Sales Agents

1. All appointments of sales agents by code members or their agents or authorized representatives, and the terms and conditions of such appointments shall be subject to the Marketing Rules and Regulations from time to time established by the Coal Commission.

2. Each code member shall be responsible for the compliance by all his sales agents and agents and employees of sales agents with the provisions of the Bituminous Coal Code and of all rules and regulations, promulgations and determinations of the Coal Commission.

3. (A) Every contract for the appointment of a sales agent by Code Member or by agents or authorized representatives of Code Members, or any modification thereof, shall be in writing, and shall fully set forth therein all the terms and conditions of such contract, including the amount or basis of the sales agent's commission. Certified copies of all such agency contracts entered into on or prior to the effective date of the establishment of these rules and regulations and in effect on such date, shall be filed by the Code Member with the Statistical Bureau, or Bureaus, within twenty (20) business days after such date.

(B) Certified copies of all contracts appointing sales agents or of agreements modifying any sales agency contract, entered into subsequent to the effective date of these rules and regulations, shall be similarly filed by the Code Member within ten (10) business days after the date upon which such contracts or agreements have been entered into.

(C) Upon the expiration, termination, or rescission of any sales agency contract, the Code Member principal shall make a report thereof to the Statistical Bureau, or Bureaus, within ten (10) business days after the date of such expiration, termination, or rescission.

4. (A) As to all coal sold by a Code Member otherwise than through a sales agent or through an employee regularly employed as a salesman by the Code Member, such Code Member shall, not later than the fifteenth day of each month, file with the Statistical Bureau, or Bureaus, a list of all persons through whom, directly or indirectly, any such coal was sold during the preceding calendar month, with a statement of the duration and character of their employment, the tonnage sold by, and the rate and amount of compensation paid to, each of them.

(B) Not later than the fifteenth day of each month, each Code Member shall also file with the Statistical Bureau, or Bureaus, similar information obtained from his sales agents concerning sales of coal made during the preceding calendar month, by the sales agents' representatives and employees other than salesmen regularly employed.

(C) Not later than the fifteenth day of each month, each Code Member shall also file with the Statistical Bureau, or Bureaus, a statement showing the names and addresses of distributors to whom the Code Member or his sales agents sold coal during the preceding calendar month, the tonnage sold, and the amount of discount allowed to each such distributor.

5. A list showing the names and addresses of sales agents and the Code Members for whom such agents act shall be published by the Coal Commission from time to time.

6. All agency contracts and other information filed by Code Members in conformity with the foregoing regulations, other than the names and addresses of sales agents, shall be held by the Coal Commission as the confidential records of said parties and shall not be made public without the consent of the Code Member from whom the same shall have been obtained, except where such disclosure is required in any proceeding before the Coal Commission by way of enforcement of the Act or upon the order of any court of competent jurisdiction.

7. From and after twenty (20) business days following the effective date of these Marketing Rules and Regulations no Code Member or sales agent of Code Member shall allow or pay, directly or indirectly, any commission or compensation to any sales agent.

(a) Unless the contract of agency shall have been filed with the Coal Commission, as hereinbefore required, and

(b) Unless the sales agent shall have agreed, in writing, with the Code Member to conform to and observe the minimum and maximum prices and Marketing Rules and Regulations established by the Coal Commission and the Fair Trade Practice Provisions of the Act, as well as all proper Orders of the Commission, and

(c) Unless the sales agent shall have in good faith complied with the agreement as in paragraph (b) above provided.

8. No commission shall be paid to a sales agent by a Code Member where the coal is delivered or sold to any person who, financially or otherwise, controls such agent in whole or in part.

Section III.—Discounts

1. No Code Member or sales agent of a Code Member shall pay or allow any discount from minimum prices to any person unless such person has been registered by the Coal Commission as authorized to receive such discount at the time of the sale.

Section IV.—Quotations, Options and Contracts

1. Subject to further order of the Coal Commission no Code Member or sales agent of a Code Member shall enter into any agreement or order for the sale of coal providing for delivery for a period in excess of that authorized for a spot order, and no prices shall be less than the applicable minimum prices in effect at the time of the making of the agreement: Provided, however, that contracts for periods not exceeding one (1) year may be made with agencies of the Federal Government or with such agencies of State or local governments, as are required by law to purchase coal for periods in excess of thirty (30) days, at the following applicable minimum prices:

(a) For deliveries during the first thirty (30) days of the contract at not less than the applicable minimum prices in effect at the time of the making of the agreement;

(b) For deliveries thereafter at not less than the applicable minimum prices in effect at the time of delivery if such price is higher than the contract price.

In the case of Governmental Agencies, options may be given for a period not exceeding forty-five (45) days, Subject to further order of the Coal Commission, no option for the sale of coal may be given, except as herein specifically provided.

2. Upon the revocation or suspension of Rule 1 of this Section, Code Members or sales agents of Code Members may thereafter enter into contracts for the sale and delivery of coal at prices not less than the minimum price in effect at the time of the making of the contract, upon the following conditions:

A. No contract for the sale of coal shall provide for delivery over a period in excess of twelve (12) months, except by special permission from the Coal Commission upon a showing of the necessity of meeting long term contract competition of oil, gas, or other fuels or forms of power, or for such other reasons as the Commission may deem appropriate in order to further the effectual administration of the Act.

B. No contract for the sale of coal shall provide for deliveries to commence at a time later than ninety (90) days from the date upon which such contract was entered into.

C. All contracts shall be in writing and shall express the entire agreement between the parties. The contract shall clearly state the date of execution, the effective date, the expiration date, the price agreed upon, the terms of payment, the size and grade of coal sold, the number of cars or tonnage to be shipped, the name of the originating mine, and, where the coal is purchased for consumption, the use to which the coal is to be applied. Contracts may also be made either (a) calling for a buyer's entire requirements or a stated percentage of his requirements, showing the maximum tonnage to be shipped thereunder, or (b) covering a buyer's requirements and specifying the tonnage to be shipped with an allowable overshipment or undershipment of not exceeding twenty (20) percent of the tonnage specified.

The provisions of the rule stated in the foregoing paragraph relating to quantity shall not apply to contracts made with agencies of the Federal, State or local Governments.

D. Every contract shall express the entire agreement between the parties and no modification thereof shall be made except by written agreement which shall conform to all the requirements set forth in those rules and regulations.

E. Each contract shall contain the following provisions, the meaning and effect of which shall not be changed or altered by any other provision of the contract:

"1. This contract and the performance of all provisions thereof are expressly subject to the Bituminous Coal Act of 1937 and the lawful orders and regulations issued thereunder by the National Bituminous Coal Commission.

"2. No shipment consigned to any destination point may be diverted or reconsigned without the consent of the seller confirmed in writing. In case of any reconsignment or diversion, the seller shall charge and the buyer shall pay not less than the minimum price prescribed for such coal for delivery to the destination to which such shipment is actually delivered and for the use to which it is actually applied.

"3. The coal shipped pursuant to this contract is sold and purchased upon the following conditions:

"(a) If the coal is sold for consumption it shall be used in the plant or plants named herein and for the use stated herein;

"(b) In case of diversion by the buyer to a use other than that stated herein, the buyer shall notify the seller in writing and the seller shall charge and the buyer shall pay not less than the applicable minimum price for such coal at the time of diversion for the use to which it is actually applied."

F. In any case where a contract is made by a sales agent of a Code Member, such sales agent shall not exercise the rights of the seller as defined in Item E (2) of rule 2 of this section without first securing the consent of the Code Member producing such coal to be confirmed in writing.

G. Upon the revocation or suspension of Rule 1 of this Section, quotations and options for the sale of coal may be given for a period not exceeding fourteen (14) days. If the minimum price is increased beyond the quoted price within such fourteen (14) days, any quotation or option not accepted or exercised prior to the effective date of the price change shall, without notice, be considered withdrawn and no longer effective. Every quotation or option shall contain a provision to the foregoing effect and shall further stipulate that any contract or spot order entered into thereunder shall be subject to those Marketing Rules and Regulations.

H. The provisions of this Rule 2 (G) shall not apply to sealed bids on business of the United States Government or States or Political subdivisions thereof, in which cases quotations and options at not less than the minimum price in effect at the time the bid is filed may be given for a period not exceeding forty-five (45) days from the final filing date of bids.

3. A report of every commitment shall be filed by the Code Member or his sales agent with the Statistical Bureau or Bureaus within fifteen (15) business days from the date of the making of the agreement. Such reports shall set forth all the terms and conditions of the commitment. A true copy of every contract and of any agreement for modification thereof shall be filed with the Statistical Bureau within fifteen (15) business days from the date of execution of such contract or agreement for modification: Provided, however, that a report of the commitment need not be filed if a copy of the contract is filed within fifteen business days.

Section V.—Spot Orders

1. A spot order shall be in writing or confirmed in writing within five (5) business days from the date of the making thereof.

2. Each spot order shall be subject to the following conditions which shall either be endorsed upon the form of the order or upon the written confirmation thereof by the Code Member or his sales agent, the meaning and effect of which shall not be changed or altered by any other provision of the order:

"(a) No shipment consigned to any destination may be diverted or reconsigned without the consent of the seller confirmed in writing. In case of any reconsignment or diversion, the seller shall charge and the buyer shall pay not less than the minimum price prescribed for such coal for delivery to the destination to which such shipment is actually delivered and for the use to which it is actually applied.

"(b) The coal shipped pursuant to this order is sold and purchased upon the following conditions:

"(1) If the coal is sold for consumption it shall be used in the plant or plants named herein and for the use stated herein;

"(2) In case of diversion by the buyer to a use other than that stated herein, the buyer shall notify the seller in writing and the seller shall charge and the buyer shall pay not less than the applicable minimum price for such coal at the time of diversion for the use to which it is actually applied.

"(c) If shipments called for by this order are not completed within thirty (30) days from the date of this order, the unfilled portion of the order shall be cancelled and no delivery of such tonnage shall be made."

3. In any case where a sale is made by a sales agent of a Code Member, such sales agent shall not exercise the rights of the seller as defined in Item 2 (a) of this section without first securing the consent of his Code Member principal to be confirmed in writing.

4. All the terms and conditions of a sale of coal must be fully and expressly set forth either in the order or in the written confirmation thereof, and such order or written confirmation thereof shall specifically contain all the terms required by Rule 2 (c) of Section IV of these marketing rules and regulations. Within ten (10) business days after the date of the making of the spot order or date of the written confirmation thereof, the Code Member or his sales agent shall file with the Statistical Bureau or Bu-

reaus a copy of such spot order or confirmation. Any modification of a spot order must also be made in writing and filed with the Statistical Bureau or Bureaus in the same manner.

Section VI.—Use of Coal Analyses

1. No analysis of coal shall be utilized by a Code Member or his sales agent, in selling or offering for sale any coal produced by the Code Member, unless such Code Member shall have previously filed with the Statistical Bureau of the Coal Commission and the District Board for the District in which the coal is produced, copies of such analysis, together with a certificate setting forth the time and manner of obtaining the sample analyzed, the name and address of the person or firm making the analysis and stating that such analysis is truly representative of the grade and size of coal as regularly produced by the Code Member. Each such analysis shall be not less than a proximate analysis showing ash, volatile matter, fixed carbon, sulphur and British Thermal Units. Each analysis shall further show whether made on an "as received" or moisture "free" basis and if on an "as received" basis, the analysis shall include moisture content.

2. All analyses so filed shall be subject to inspection at the office of the Statistical Bureau at any time during office hours by an interested person, and may be used by the District Board and the Coal Commission in determining from time to time proper classifications of the coals produced by the code member.

3. Any analysis of the coal of a Code Member made by or on behalf of a consumer and accepted by the Code Member as the basis for an adjustment of price under any contract or order, shall be filed by the Code Member with the proper Statistical Bureau and District Board, within ten (10) days after such adjustment is made and shall be subject to the provisions of Rule 2 herein.

4. No agreement or order for the sale of coal produced by a Code Member, made upon a premium and penalty basis, shall be entered into or accepted by a Code Member unless the analysis upon which the premium and penalty clause is based has been previously filed as required in Rule No. 1. Such analysis shall be accompanied by a statement setting forth in full the terms of the premium and penalty provisions of the proposed contract or order.

5. In the case of premium and penalty agreements entered into prior to the effective date of those regulations, and claimed to be continuing in effect, the Code Member shall file a statement containing the information required under Rule No. 4, within fifteen (15) days from such effective date.

6. From and after the effective date of these rules and regulations, no Code Member shall enter into or perform any agreement made upon a penalty or a premium and penalty basis which will permit the sale of coal at an aggregate contract price below the applicable minimum price established by the Coal Commission for the coal sold and delivered upon such agreement subsequent to said effective date: Provided, that where a Code Member has entered into an agreement made upon a penalty or a premium and penalty basis, this rule shall not be considered as affecting any claim that the buyer might otherwise have had for substandard preparation or quality under Section IX of these marketing rules and regulations.

Section VII.—Terms of Payment

The price and fair trade practice provisions of the Act shall not be evaded or violated by a Code Member, or his sales agent through the use of terms of payment, and in no instance shall terms of payment be more favorable than the following:

1. On railroad fuel and on coal sold to industrial consumers for their own use, the date of payment shall be on or before the twenty-fifth (25th) of the month following the date of shipment.

2. Other coals shall not be sold on more favorable terms of payment than net cash thirty (30) days from date of shipment.

3. Invoices shall be paid in full in United States currency, or funds equivalent thereto, not later than due date.

No portion of the sale price may be withheld by agreement between the buyer and the seller based upon any unadjusted claim of the buyer.

No sales, delivery, or offer for sale of coal shall be made upon any condition, expressed or implied, that any portion of the sale price may be withheld by the Buyer, or deposited in escrow, or made subject to rebate or refund by the seller, pending or based upon a determination of the constitutionality of any provisions of the Act, of the jurisdiction of the Coal Commission, or of the validity or applicability of any order of the Coal Commission.

4. Where payment is made by note, trade acceptance, or other form of indebtedness, or where payment is made under any circumstances after the due date of the account, the seller shall charge and the buyer shall pay interest from and after the due date of the account at the current rate in the locality to which the coal is shipped to the vendee.

5. Freight on rail shipments shall not be paid by a Code Member or his sales agent except to repay stations as published in current railway tariffs or to the United States Government, States or political subdivisions thereof. Where freight is thus prepaid, the amount thereof shall immediately upon receipt of freight bill or notice of sight draft payment, be invoiced to the buyer for immediate payment.

6. The agreement by a Code Member, expressed or implied, to extend the credit for a period longer than that authorized by these rules and regulations, with the effect of violating the price provisions of the unfair methods of competition of the Act, shall constitute a violation of the Code.

Section VIII.—Crushing and Pulverizing Coal

1. Each code member who maintains and operates at his mine or at any facility used in preparing coals for market, any crushing or pulverizing device, shall register such device with the Statistical Bureau of the Coal Commission, on forms submitted by the Coal Commission.

2. Such forms shall include the following:

1. Name and address of code member.
2. Name of mine or facility at which device is located.
3. Name and style or type of crushing or pulverizing device.
4. Hourly capacity of device.
5. Sizes of coal which device can crush or pulverize.
6. Sizes of coal resulting from crushing or pulverizing.
7. Number of tons crushed in 1937 and in each month of 1938.
8. Cost per ton of crushing or pulverizing in 1937.

3. Each code member shall on or before the tenth (10th) day of each succeeding month, file with the Statistical Bureau on forms to be provided by the Coal Commission, a statement verified by affidavit, setting forth the following information for the preceding calendar month:

(a) Number of tons of each size crushed or pulverized.

(b) Number of tons of each size resulting from crushing or pulverizing.

Section IX.—Miscellaneous

1. No deduction or allowance from invoice prices shall be granted by any code member or his sales agent to any purchaser for advertising.

2. The price and fair trade practice provisions of the Act shall not be evaded by any payment or allowance by a Code Member, his agent, or representative, to any purchaser or purchaser's representative covering advertising, and the amount of expenditures for advertising shall be subject to review by the Coal Commission as to the good faith of the transaction.

3. Where coal is refused by a consignee in transit or at destination, the Code Member may sell the same at the best obtainable price: *Provided*, That in each case the code member shall file with the Statistical Bureau, within five (5) days from the date of such resale a statement giving the name and address of the consignee and the reasons for the refusal, the price at which the coal was originally sold, the name and address of the purchaser upon resale and the price received by the seller upon resale, a copy of the carrier's notice of refusal or notice of reconsignment and such other pertinent facts as may be offered in proof of the necessity of such resale, and that in making such resale the provisions of the Code and the Marketing Rules and Regulations of the Coal Commission other than as to price have not been violated or evaded.

4. All code members shall promptly furnish to the Statistical Bureau of the Coal Commission for the District in which the coal originated, full reports of all reconsignments and shall authorize the carrier making such reconsignments to furnish complete information thereon to such Statistical Bureau.

5. No allowance shall be made for any shipment of coal of sub-standard preparation or quality unless formal claim duly executed by or on behalf of the buyer and verified by affidavit setting forth the amount claimed by way of allowance and reasons for the claim is filed with the Code Member or his sales agent within ten (10) days after the receipt of the coal.

The Code Member or sales agent with whom such claim for allowance is filed shall immediately notify the Statistical Bureau and the District Board, furnishing an authentic copy of the buyer's claim together with a statement of the producer's views as to the validity of the claim, setting forth:

(a) the name and address of the consignee and the reason for the allowance
(b) the amount of allowance or adjustment made
(c) the price at which the coal was sold
(d) the tonnage delivered
(e) the name of the mine and the Code Member
(f) date of shipment
(g) grade and size of coal and destination
(h) a statement that the adjustment has not been made with the purpose or intent of evading the price or fair trade practice provisions of the Act.

6. The screening of mine run or re-screening of other grades of coal sold and billed as such for the buyer's account for the purpose of keeping the resultant products separate in the shipment thereof is prohibited. All coal must be sold and invoiced at a price per ton basis and under the designation shown therefor in the price schedule published by the Coal Commission.

7. All coal confiscated or lost in transit shall be invoiced to the carrier at not less than the minimum price established for such coal for shipment to the destination and use to which the coal was sold or the established price for sale to the carrier at the place of confiscation or loss, which ever may be the higher.

8. No substitution may be made upon any spot order or contract, of any grade or size of coal taking a minimum price higher than the price specified in such order or contract, except upon the following conditions:

(a) The proposed substitution shall not be an express or implied condition of the order or contract.

(b) The coal substituted must be coal which the code member has already produced and loaded into transportation facilities and which can not be sold promptly by the exercise of the usual sales effort, such substitution to be limited to a specific tonnage for shipment on a specific order and from a specific mine.

(c) The substitution must be reasonably necessary as an emergency measure in order to continue operation of the mine of the code member.

(d) The substitution shall be acceptable to the purchaser of the coal, and shall not be made with the purpose or effect of conferring any advantage on the purchaser or securing any preference or advantage for the code member over his competitors.

(e) Such substitution may be made only with the approval of a duly designated representative of the Commission and in each instance formal application therefor shall be made upon forms provided by the Commission and permits shall be issued prescribing the conditions of substitution in each case approved.

(f) Copies of substitution permits shall be mailed daily to the office of the District Board and weekly summaries of substitution permits shall be mailed to all District Boards within the Price Area. The Commission may from time to time publish the esesntial facts as to all substitution permits granted.

(g) In each case of coal shipped under a substitution permit each invoice shall specifically show the permit number and the size and grade of coal substituted.

9. Every sales agent shall cause to be clearly set forth upon any form of solicitation, order, invoice and statement covering coal offered for sale or sold, the following:

(1) Either the name of the producer or

(2) The trade name established and generally used by the producer in designation of coal produced from the mine from which shipment was made or is to be made.

10. If, in converting a net or gross ton price, freight rate or freight rate differential, the calculation extends to more than 3 decimals, and the 4th decimal is .0005 or more, it shall be added as .001, and if under .0005 it shall be eliminated.

11. Failure to file information required by the within Marketing Rules and Regulations or the filing of false information, wilfully made, will subject the party failing to file the information required, or the party so filing, to the penalties of the Act and other penalties imposed by law.

12. These Marketing Rules and Regulations are subject to revision and amendment by further order of the Coal Commission.

Section X.—Unfair Methods of Competition

As provided in Section 4, Part II (1) of the Act:

The following practices with respect to coal shall be unfair methods of competition and shall constitute violations of the code:

1. The consignment of unordered coal, or the forwarding of coal which has not actually been sold, consigned to the producer or his agent: Provided, however, That coal which has not actually been sold may be forwarded, consigned to the producer or his agent at rail or track yards, tidewater ports, river ports, or lake ports, or docks beyond such ports when for application to any of the following classes: Bunker coal, coal applicable against existing contracts, coal for storage (other than in railroad cars) by the producer or his agent in rail or track yards or on docks, wharves, or other yards for resale by the producer or his agent.

2. The adjustment of claims with purchasers of coal in such manner as to grant secret allowances, secret rebates, or secret concessions, or other price discrimination.

3. The prepayment of freight charges with intent to or having the effect of granting a discriminatory credit allowance.

4. The granting in any form of adjustments, allowances, discounts, credits, or refunds to purchasers or sellers of coal, for the purposes or with the effect of altering retroactively a price previously agreed upon, in such manner as to create price discrimination.

5. The predating or postdating of any invoice or contract for the purchase or sale of coal, except to conform to a bona-fide agreement for the purchase or sale entered into on the predate.

6. The payment or allowance in any form or by any device of rebates, refunds, credits, or unearned discounts, or the extension to certain purchasers of services or privileges not extended to all purchasers under like terms and conditions, or under similar circumstances.

7. The attempt to purchase business, or to obtain information concerning a competitor's business by concession, gifts, or bribes.

8. The intentional misrepresentation of any analysis or of analyses, or of sizes, or the intentional making, causing, or permitting to be made, or publishing, of any false, untrue, misleading, or deceptive statement by way of advertising, invoicing, or otherwise concerning the size, quality, character, nature, preparation, or origin of any coal bought, sold, or consigned.

9. The unauthorized use, whether in written or oral form, of trade-marks,

trade names, slogans, or advertising matter already adopted by a competitor, or any deceptive approximation thereof.

10. Inducing or attempting to induce, by any means or device whatsoever, a breach of contract between a competitor and his customer during the term of such contract.

11. Splitting or dividing commissions, brokers' fees, or brokerage discounts, or otherwise in any manner directly or indirectly using brokerage commissions or jobbers' arrangements or sales agencies for making discounts, allowances, or rebates, or prices other than these determined under this Act, to any industrial consumer or to any retailers, or to others, whether of a like or different class.

12. Selling to, or through, any broker, jobber, commission account, or sales agency, which is in fact or in effect an agency or an instrumentality of a retailer or an industrial consumer or of any organization of retailers or industrial consumers, whereby they or any of them secure either directly or indirectly a discount, dividend, allowance, or rebates, or a price other than that determined in the manner prescribed by this Act.

13. Employing any person or appointing any sales agent, at a compensation obviously disproportionate to the ordinary value of the service or services rendered, and whose employment or appointment is made with the primary intention and purpose of securing preferment with a purchaser or purchasers of coal.

CONCLUSION

It is the conclusion of the Commission that the schedules of proposed minimum prices and marketing rules and regulations submitted to the Commission by the District Boards for Districts 16, 17, 18, 19, 20, 22 and 23, as amended, corrected, modified or revised, conform to the requirements of Section 4–II (a) of the Act and that same, as amended, corrected, modified, or revised, may properly be transmitted to the respective District Boards within Minimum Price Areas 6, 7, 9 and 10 to serve as a basis for the coordination as provided in Section 4–II (b) of the Act.

By the Commission.

[SEAL] PERCY TETLOW, *Chairman.*

Dated this 9th day of Dec., 1938.

[F. R. Doc. 38–3728; Filed, December 12, 1938; 9:47 a. m.]

[Order No. 253]

AN ORDER DIRECTING THE DISTRICT BOARDS FOR DISTRICTS NOS. 16, 17, 18, 19, 20, 22 AND 23, TO COORDINATE THE MINIMUM PRICES AND RULES AND REGULATIONS INCIDENT TO THE SALE AND DISTRIBUTION OF COAL APPROVED BY THE NATIONAL BITUMINOUS COAL COMMISSION TO SERVE AS THE BASIS FOR COORDINATION BY SAID DISTRICT BOARDS; AND DIRECTING SAID DISTRICT BOARDS TO SUBMIT TO SAID COMMISSION SUCH COORDINATED PRICES AND RULES AND REGULATIONS TOGETHER WITH THE DATA UPON WHICH THEY ARE PREDICATED; AND ESTABLISHING AND PROMULGATING RULES AND REGULATIONS UNDER WHICH SUCH COORDINATION SHALL BE ACCOMPLISHED

Pursuant to Act of Congress entitled "An Act to regulate interstate commerce in bituminous coal, and for other purposes" (Public No. 48, 75th Cong., 1st Sess.), known as the Bituminous Coal Act of 1937,[1] the National Bituminous Coal Commission hereby orders and directs:

1. That the District Boards for Districts Nos. 16, 17, 18, 19, 20, 22 and 23, shall forthwith proceed to coordinate the minimum prices and rules and regulations incident to the sale and distribution of coal, approved by the Commission to serve as a basis for coordination within and among the said districts, under authority of and in accordance with Section 4, Part II, of the Bituminous Coal Act of 1937, and the rules and regulations established and promulgated by this order. When said coordination shall have been accomplished, said District Boards shall submit said coordinated minimum prices and marketing rules and regulations to the Commission together with the data upon which they are predicated, as hereinafter provided.

2. That said District Boards shall coordinate in common consuming market areas upon a fair competitive basis said minimum prices and marketing rules and regulations. Such coordination of the minimum prices, among other factors, but without limitation, shall take into account the various kinds, qualities, and sizes of coal, and transportation charges upon coal. All minimum prices proposed for any kind, quality, or size of coal for shipment into any common consuming market area shall be just and equitable, and not unduly prejudicial or preferential, as between and among districts, shall reflect, as nearly as possible, the relative market values, at points of delivery in each common consuming market area, of the various kinds, qualities, and sizes of coal produced in the various districts, taking into account values as to uses, seasonal demand, transportation methods and charges and their effect upon a reasonable opportunity to compete on a fair basis, and the competitive relationships between coal and other forms of fuel and energy; and shall preserve as nearly as may be existing fair competitive opportunities. The minimum prices proposed as a result of such coordination shall not, as to any district, reduce or increase the return per net ton on all the coal produced therein below or above the minimum return as provided in subsection (a) of Section 4, Part II, of the Act by an amount greater than necessary to accomplish such coordination, to the end that the return per net ton upon the entire tonnage of the minimum price area shall approximate the weighted average of the total cost per net ton of the tonnage of such minimum price area.

3. That the rules and regulations incidental to the sale and distribution of coal by code members shall be so coordinated as to be reasonable and shall not be inconsistent with the requirements of the Act and shall conform to the standards of fair competition as set forth and established in Section 4, Part II, of the Bituminous Coal Act of 1937.

4. That the Commission hereby establishes and promulgates the following rules and regulations under which the minimum prices and rules and regulations incident to the sale and distribution of coal shall be coordinated:

I. Each District Board shall by appropriate resolution, designate and appoint one or more persons with power of delegation and substitution to represent the District Board in the work of coordination and fully empower such person or persons to act for the District Board in a meeting with other such representatives from the other District Boards named in this order.

II. Said representatives of the District Boards shall convene at the offices of the Commission in the City of Washington, D. C., at 10:00 o'clock A. M. on the 12th day of December, 1938, and begin the work of coordination as ordered and directed herein. Said meeting shall continue in session daily (Sundays and holidays excepted), and shall be completed on or before ten (10) days from the date of convening, which period shall not be extended for any District Board or Boards except upon good cause shown.

III. The presiding officer or the secretary of the meeting shall report daily to the Commission the progress of the work. In the event the representatives of the District Boards cannot agree upon all or any part of the work of coordination, they shall certify the fact to the Commission and to the District Boards represented, together with a detailed statement covering points upon which agreements have failed.

IV. When the representatives of said District Boards shall have finished the work of coordination assigned to them, and coordination has been fully or partially accomplished by agreement, a full report thereof shall be made to the Commission and to each of the Boards represented, together with the data upon which such prices and rules and regulations are predicated.

V. On receipt of the report made as provided in paragraph IV hereof, a meeting of the respective District Boards shall be called and held and said report of the coordination provided for in Section 4, Part II, of the Act shall be fully considered by said Boards, and said report shall, by appropriate resolution of the Board, be approved and adopted, modified and adopted, or disapproved. The action of the District Boards respectively shall be reported to the Commission. When each of the District Boards named in this order agree and coordination is reached and accomplished, the same shall be submitted to the Commission as provided in Section 4, Part II (b), of the Act. If coordination is not agreed upon and accomplished, and in the opinion of any one or more of said District Boards, cannot be agreed upon and accomplished, said fact shall be shown by appropriate resolution of such Board or Boards and duly certified to the Commission.

VI. At said meeting the representatives of the several District Boards shall determine the consuming market areas into which each District ships, and shall define the same in the most practical way by map or by geographic or territorial description in writing.

Common consuming market areas shall then be ascertained, determined, and identified, on the basis of the determination made pursuant to the next succeeding section.

VII. The representatives shall then ascertain and compute the total tonnage of each District moving into each consuming market area in 1937 as taken from the Commission D–1 and D–2 reports and other competent data, broken down by use, size, and quality classifications, seasonal demand, and transportation methods. The representatives of the Boards shall determine the competing coals in each consuming market area by size, quality, use, and seasonal demand, and by transportation methods. The size groupings by quality classification, use, and seasonal demand, shall be coordinated in each consuming market.

VIII. Minimum prices reflecting destination differentials shall then be ascertained and determined on all coals competing in each consuming market area according to the standards set forth in Section 4, Part II, of the Act. The representatives of the District Boards shall thereupon determine minimum prices, free on board transportation facilities at the mines for shipment into each consuming market area for each kind, quality and size of coal competing in said area or areas in accordance with the provisions of Section 4, Part II, of the Act.

IX. When the representatives have completed their work of coordination of minimum prices in all consuming market areas and reported the same to the Commission and to the District Boards, each District Board shall immediately convene for consideration and determination, and shall determine the minimum prices for all coal free on board transportation facilities at the mine for shipment into consuming market areas, according to the provisions of Section 4, Part II, of the Act.

X. When all minimum prices have been determined as provided in Section 4, Part II, of the Act and these rules and regulations, a schedule of such prices shall be prepared by the District Boards and submitted to the Commission together with the data upon which they are predicated including a statement showing the calculated returns for the coals of the Price Area, based upon the tonnages of the several Districts, determined as in paragraph VII herein provided. At the time of the submission of the schedule of minimum prices and the data upon which they are predicated, each District Board shall furnish a copy of the proposed price schedule to each code member within its District, and shall file with the Commission 250 copies of the proposed price schedule, and with each other District Board coordinating, 20 copies thereof. In addition thereto, each District Board shall file with the Commission 50 copies of the data upon which the proposed price schedule is predicated.

XI. The District Board representatives shall also, at the meetings in Washington provided for herein, coordinate the rules and regulations for the sale and distribution of coal for code members, called Marketing Rules and Regulations, as directed in paragraph 3 hereof.

XII. When coordination of the marketing rules and regulations is accomplished, either in whole or in part, as provided in paragraph III hereof, the same shall be reported to the Commission and to the District Boards, as provided in paragraph IV hereof, and considered and acted upon by the District Boards as provided in paragraph V hereof.

XIII. When all coordinated marketing rules and regulations have been determined, a schedule of such marketing rules and regulations shall be prepared by the District Boards and a copy shall be furnished to each code member, and 250 copies thereof shall be furnished to the Commission, and 20 copies to each other District Board coordinating. In addition thereto, each District Board shall file 50 copies of the data upon which such marketing rules and regulations are predicated with the Commission.

XIV. These rules and regulations are subject to modification or amendment, or may be supplemented by further order of the Commission.

5. The Secretary of the Commission is directed to cause a copy of this order, together with the rules and regulations contained therein, to be published forthwith in the FEDERAL REGISTER, and shall cause copies hereof to be mailed to each code member within the named districts, to the Consumers' Counsel, and to the Secretary of each District Board, and shall cause copies hereof to be made available for inspection by interested parties in each of the Statistical Bureaus of the Commission.

By order of the Commission.

Dated this 9th day of December, 1938.

TITLE 47—TELECOMMUNICATION

FEDERAL COMMUNICATIONS COMMISSION

CHAPTER II. GENERAL SUBSTANTIVE RULES

PART 24. CERTAIN LOW POWER RADIO FREQUENCY ELECTRICAL DEVICES

The Commission adopted the following new rules:

SEC. 24.01 *Applicability of provisions.* Pending the acquiring of more complete information regarding the character and effects of the radiation involved, the following provisions shall govern the operation of the low power radio frequency electrical devices hereinafter described.* [Rule 25.01, #]

SEC. 24.02 *Apparatus included defined; standards.* With respect to any apparatus which generates a radio frequency electromagnetic field functionally utilizing a small part of such field in the operation of associated apparatus not physically connected thereto and at a distance not greater than $\frac{157,000}{\text{f. (kc)}}$ ft. $\frac{(\lambda)}{(2\pi)}$ the existing Rules and Regulations of the Commission shall not be applicable, provided:

(a) That such apparatus shall be operated with the minimum power possible to accomplish the desired purpose.

(b) That the best engineering principles shall be utilized in the generation of radio frequency currents so as to guard against interference to established radio services, particularly on the fundamental and harmonic frequencies.

(c) That in any event the total electromagnetic field produced at any point a distance of $\frac{157,000}{\text{f. (kc)}}$ ft. $\frac{(\lambda)}{(2\pi)}$ from the apparatus shall not exceed 15 microvolts per meter.

(d) That the apparatus shall conform to such engineering standards as may from time to time be promulgated by the Commission.* [Rule 25.02, #]

SEC. 24.03 *Exception; radio interference.* The provisions of Section 24.01 and 24.02 shall not be construed to apply to any apparatus which causes interference to radio reception.* [Rule 25.03, #]

SEC. 24.04 *Inspection and test.* Upon request, the Commission will inspect and test any apparatus described in Sections 24.01 and 24.02, and on the basis of such inspection and test, formulate and publish findings as to whether such apparatus does or does not comply with the above conditions, and issue a certificate specifying conditions of operation to the party making such request.* [Rule 25.04, #]

By the Commission.

[SEAL] T. J. SLOWIE, *Secretary.*

TITLE 49—TRANSPORTATION AND RAILROADS

INTERSTATE COMMERCE COMMISSION

[Order No. 15780]

DEPRECIATION CHARGES OF CARRIERS BY WATER

At a session of the Interstate Commerce Commission, Division 4, held at its office in Washington, D. C., on the 5th day of December, A. D. 1938.

Good cause appearing therefor:

It is ordered, That the order of August 1, 1935 in this proceeding, as amended April 2, 1936, March 17, 1937, November 22, 1937 and June 10, 1938,[2] be, and it is hereby, further amended by changing to January 1, 1940 all effective dates specified as January 1, 1939 in said order as amended. This change in the effective dates shall not be construed as changing the latest date as of which estimates of percentage rates shall be filed with the Commission. That date, as provided in paragraph (7) of the order as amended, is August 1, 1939.

By the Commission, division 4.

Notices

DEPARTMENT OF THE INTERIOR.

National Bituminous Coal Commission.

[General Docket No. 15]

IN THE MATTER OF THE ESTABLISHMENT OF MINIMUM PRICES AND MARKETING RULES AND REGULATIONS

NOTICE OF CHANGE OF PLACE AT WHICH VERIFIED COST REPORTS OF THE INDIVIDUAL PRODUCERS WITHIN MINIMUM PRICE AREA NO. 4 WILL BE MADE AVAILABLE FOR INSPECTION, FROM WASHINGTON, D. C., TO DENVER, COLORADO; AND ORDER FOR AND NOTICE OF RE-OPENING OF HEARING IN THE MATTER OF THE DETERMINATIONS OF THE WEIGHTED AVERAGE OF THE TOTAL COSTS OF THE TONNAGE PRODUCED IN MINIMUM PRICE AREA NO. 4

Whereas, the Commission, by its Order entered herein on the 6th day of December, 1938,[1] directed that the verified cost reports of the individual producers within Minimum Price Area No. 4, as submitted to the Commission pursuant to Orders Nos. 15 and 29,[2] be made available for inspection during business hours on and after December 15, 1938, at the offices of the Commission, Washington, D. C. by those interested parties who have filed appearances in this proceeding; and

Whereas, said Order further provided that the hearing in the matter of the weighted average of the total costs per net ton of the tonnage produced in Minimum Price Area No. 4 be re-opened, and interested parties be afforded further opportunity to introduce affirmative evidence and to cross-examine witnesses as to the correctness of said composite reports heretofore introduced in evidence at the aforesaid hearing of this proceeding, upon proper notice, at a time and place to be later designated by the Commission; and

Whereas, the Commission having determined that the said cost reports for Minimum Price Area No. 4 could be more conveniently, for all interested parties, made available for inspection in the office of the Statistical Bureau of the Commission, Central Savings Bank Building, Denver, Colorado, than in the City of Washington, as noticed:

Now, therefore, notice is hereby given that the verified cost reports of the individual producers within Minimum Price Area No. 4, submitted to the Commission pursuant to Orders Nos. 15 and 29, shall be made available for inspection during business hours, on and after December 15, 1938, at the office of the Statistical Bureau of the Commission, Central Savings Bank Building, Denver, Colorado, by those interested parties who have filed appearances in this proceeding, and the Secretary of the Commission is hereby directed to cause said verified cost reports to be made available as aforesaid instead of at the office of the Commission, Washington, D. C., as previously noticed.

Notice is further given that the hearing in the matter of the determination of the weighted average of the total costs per net ton of the tonnage produced in Minimum Price Area No. 4, as re-opened by Order of the Commission entered herein on the sixth day of December, 1938, will be held in the Hearing Room of the Commission, Albany Hotel, Denver, Colorado, on the 28th day of December, 1938, at ten o'clock, A. M., at which hearing all interested parties will be afforded a further opportunity to introduce affirmative evidence and cross-examine witnesses as to the correctness of said composite reports heretofore introduced in evidence in this proceeding.

At said hearing any interested party desiring to avail himself of the opportunity to introduce affirmative evidence, or to cross-examine any witness shall, not later than the 24th day of December, 1938, file with the Commission, at its office in the Central Savings Bank Building, Denver, Colorado, a written statement setting forth the nature of such affirmative evidence and/or the names of the witnesses to be cross-examined.

The Secretary of the Commission is hereby directed to cause a copy of this Order and Notice to be published forthwith in the FEDERAL REGISTER and in two consecutive issues of a newspaper of general circulation in District No. 14, and shall cause copies hereof to be mailed to each Code Member, to the Consumers' Counsel, to the Secretary of each District Board, and to all parties who have entered appearances in this proceeding, and shall cause copies hereof to be made available for inspection by interested parties at each of the Statistical Bureaus of the Commission.

By order of the Commission,

Dated this 9th day of December, 1938.

IN THE MATTER OF PUBLIC SERVICE OF PENNSYLVANIA, INC.

ORDER RELATIVE TO STATUS AS HOLDING COMPANY

Public Service of Pennsylvania, Inc., a registered holding company, having made application pursuant to Section 5 (d) of the Public Utility Holding Company Act of 1935 for an order, declaring that it has ceased to be a holding company; a hearing on said application having been held;[1] the record in the matter having been duly considered; and the Commission having thereon entered its findings and opinion on such application;

It is ordered, That Public Service of Pennsylvania, Inc., has ceased to be and at this time is not a holding company.

It is further ordered, That, if the gross revenues of Public Service of Pennsylvania, Inc., and its subsidiary companies derived from their operations as public utility companies exceed the sum of $150,000 in any fiscal year, Public Service of Pennsylvania, Inc., shall notify the Commission of such fact within sixty days after the close of such fiscal year.

IN THE MATTER OF WALNUT ELECTRIC & GAS CORPORATION

ORDER ALLOWING APPLICATION TO BECOME EFFECTIVE

Walnut Electric & Gas Corporation, a registered holding company, having filed with the Commission an application and amendments thereto pursuant to Section 12 (d) of the Public Utility Holding Company Act of 1935 regarding the sale by the applicant of 547 shares of common stock, that being all the outstanding capital stock, of Peoples Gas Company, a subsidiary of applicant for a total consideration of $5,000; a hearing on said application, as amended, having been held after appropriate notice;[2] the record in the matter having been examined; and the Commission having made and filed its findings herein;

It is ordered, That said application, as amended, be and become effective forthwith, on the condition, however, that the sale of said securities shall be effected in substantial compliance with the terms and conditions of, and for the purposes represented by, said application, as amended, and that within ten days after said sale the applicants shall file with this Commission a certificate of notification showing that such sale has been effected in accordance with the terms and conditions of, and for the purposes represented by, said application as amended.

IN THE MATTER OF STANDARD OIL COMPANY OF CALIFORNIA

[File No. 31-59]

ORDER CHANGING OFFICER TO PRESIDE AT HEARING

The Commission having heretofore, on November 29, 1938,[1] designated Charles S. Moore, an officer of the Commission, to preside at a hearing to be held in the matter of the application of Standard Oil Company of California, in room 1103, Securities and Exchange Building, 1778 Pennsylvania Avenue, N. W., Washington, D. C., at 10:00 A. M., on December 13, 1938,

It is ordered, That such designation of Charles S. Moore is hereby rescinded, and

It is further ordered, That Charles S. Lobingier, an officer of the Commission, be, and he hereby is, designated to preside at such hearing, and authorized to adjourn said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of the taking of testimony in this matter, the officer conducting said hearing is directed to close the hearing and make his report to the Commission.

Rules, Regulations, Orders

TITLE 7—AGRICULTURE

BUREAU OF ENTOMOLOGY AND PLANT QUARANTINE

[B. E. P. Q.—Q. 72]

WHITE-FRINGED BEETLE QUARANTINE No. 72

Introductory Note

The white-fringed beetle was first discovered in the United States in Okaloosa County, Fla., in the autumn of 1936. This pest is known to occur in South America and has recently been reported in New South Wales but the time and method of introduction into the United States are unknown.

The larvae of the beetle feed on a wide variety of plant roots and tubers, while the adults feed on leaves and tender shoots above ground.

Adults may be carried to other points by any moving thing, eggs may be transported from place to place in the movement of almost any article coming in contact with the ground, and larvae may be moved with various kinds of soil, peat, compost, and manure.

It is evident, therefore, that cosmopolitan food habits of the pest, its diverse means of spread in any stage of development, together with its parthenogenetic mode of reproduction, characterize the white-fringed beetle as a potentially serious threat to American agricultural and horticultural interests.

Summary

The restricted articles are prohibited movement interstate from any regulated area to or through any point outside thereof unless there is attached to the outside of the container a valid inspection certificate issued by an inspector duly authorized by the United States Department of Agriculture. This requirement applies in the case of all restricted articles and for the period of the year designated in regulation 3 unless the Chief of the Bureau has given formal notice to the public that modification has been made as to the articles, or areas, or periods of the years specified in the regulations.

The list of restricted articles and the period of the year when the certification requirement applies, are stated in regulation 3.

The regulated areas are designated in regulation 2.

Arrangements for inspection may be made by addressing the Bureau of Entomology and Plant Quarantine, Box 989, Gulfport, Miss.

LEE A. STRONG, *Chief.*

NOTICE OF QUARANTINE NO. 72

Approved December 14, 1938; effective January 15, 1939

I, H. A. Wallace, Secretary of Agriculture, have determined that a quarantine of the States of Alabama, Florida, Louisiana, and Mississippi is necessary to prevent the spread of dangerous infestations of the white-fringed beetle (*Naupactus leucoloma* Boh.), and a closely related species of *Naupactus*, two insect pests not widely prevalent within and throughout the United States.

Now, therefore, under authority conferred by section 8 of the Plant Quarantine Act of August 20, 1912 (37 Stat. 315), as amended, and having given the public hearing required thereby,[1] I do quarantine the States of Alabama, Florida, Louisiana, and Mississippi and do order that (1) nursery stock or any other plants or plant products; (2) soil, independent of, or used in connection with nursery stock, plants, or plant products; or (3) other articles (as specifically named in the regulations supplemental hereto, in modifications thereof, or in administrative instructions as provided in the regulations supplemental hereto) which are capable of carrying the aforesaid insect infestations, shall not be shipped or offered for shipment to a common carrier by any person, or received for transportation or transported by a common carrier, or carried or transported by any person from any such State into or through any other State or Territory or District of the United States, under conditions other than those prescribed in the regulations supplemental hereto: *Provided*, That the restrictions of this quarantine and of the regulations supplemental hereto may be limited to such areas, designated by

FEDERAL REGISTER

Published by the Division of the Federal Register, The National Archives, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. L. 500), under regulations prescribed by the Administrative Committee, with the approval of the President.

The Administrative Committee consists of the Archivist or Acting Archivist, an officer of the Department of Justice designated by the Attorney General, and the Public Printer or Acting Public Printer.

The daily issue of the FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1 per month or $10 per year; single copies 10 cents each; payable in advance. Remit by money order payable to Superintendent of Documents, Government Printing Office, Washington, D. C.

Correspondence concerning the publication of the FEDERAL REGISTER should be addressed to the Director, Division of the Federal Register, The National Archives Washington, D. C.

the Secretary of Agriculture as regulated areas, in the quarantined States, as, in his judgment, shall be adequate to prevent the spread of the said pest or pests. Any such limitation shall be conditioned, however, upon the affected State or States providing for and enforcing the control of the intrastate movement of the restricted articles under the conditions which apply to their interstate movement under existing provisions of the Federal quarantine regulations, and upon their enforcing such control and sanitation measures with respect to such areas or portions thereof as, in the judgment of the Secretary of Agriculture, shall be deemed adequate to prevent the intrastate spread therefrom of said insect infestation: *And provided further*, That whenever, in any year, the Chief of the Bureau of Entomology and Plant Quarantine shall find that facts exist as to the pest risk involved in the movement of one or more of the articles to which the regulations supplemental hereto apply, making it safe to modify, by making less stringent, the restrictions contained in any such regulation, he shall set forth and publish such finding in administrative instructions, specifying the manner in which the applicable regulation should be made less stringent, whereupon such modification shall become effective, for such period and for such regulated area or portion thereof as shall be specified in said administrative instructions, and every reasonable effort shall be made to give publicity to such administrative instructions throughout the affected areas.

Done at the city of Washington this 14th day of December 1938.

Witness my hand and the seal of the United States Department of Agriculture.

[SEAL] H. A. WALLACE,
Secretary of Agriculture.

REGULATIONS SUPPLEMENTAL TO NOTICE OF QUARANTINE NO. 72

Regulation 1. Definitions

(*a*) *The pests.*—The white-fringed beetle, *Naupactus leucoloma* boh., and a closely related species of *Naupactus*, in any stage of development.

(*b*) *Adults* and *larvae.*—Adults and larvae of *Naupactus leucoloma* and a closely related species of *Naupactus*.

(*c*) *Regulated area.*—Any area in a quarantined State which is now, or which may hereafter be, designated as regulated by the Secretary of Agriculture in accordance with the provisos to notice of Quarantine No. 72.

(*d*) *Restricted articles.*—Products or articles of any character whatsoever, the interstate movement of which is restricted by the provisions of the white-fringed beetle quarantine, and regulations supplemental thereto.

(*e*) *Inspector.*—Duly authorized Federal plant-quarantine inspector.

(*f*) *Certificate.*—An approved document, issued by an inspector, evidencing the apparent freedom of restricted articles from the pests.

(*g*) *Limited permit.*—An approved document, issued by an inspector, to allow movement of noncertified, restricted articles to or from designated and authorized manufacturing plants, mills, gins, or processing plants.

(*h*) *Dealer-carrier permit.*—An approved document issued to persons or firms approved for, and engaged in purchasing, assembling, exchanging, processing, or transporting restricted articles.

(*i*) *Administrative instructions.*—Administrative instructions issued by the Chief of the Bureau of Entomology and Plant Quarantine.

(*j*) *Infested or infestation.*—Infested by the white-fringed beetle, the closely related species, or both such pests, in any stage of development.

Regulation 2. Regulated Areas

The following counties, parishes, cities and towns or parts thereof, as described, are designated by the Secretary of Agriculture as regulated areas:

Alabama.—In *Conecuh, Monroe,* and *Wilcox Counties:* The W⅔ Tps. 5 and 6 N. and all of Tps. 7, 8, 9, 10, and S½ T. 11 N., R. 9 E. All of Tps. 5, 6, 7, 8, 9, and S½ T. 10 N., R. 8 E. Secs. 25, 26, 35, and 36, T. 7 N., R. 7 E., and Secs. 1 and 2, T. 6 N., R. 7 E.; In *Covington County:* T. 1 N., Rs. 17 and 18 E. and SE¼ T. 1 N., R. 16 E. and all south of both areas to the Alabama-Florida State line; In *Geneva County:* Secs. 31, 32, and 33, T. 1 N., R. 19 E. and south thereof to the Alabama-Florida State line; in *Mobile County:* That area bound on the east by Mobile River, on the south by Congress Street and a line extended therefrom to Mobile River in the city of Mobile, on the west by Joachim Street in the same city, to its intersection with One Mile Creek; thence northeast along One Mile Creek to Conception Street Road; thence northwest on said road to Three Mile Creek; thence east along Three Mile Creek to Mobile River.

Florida.—In *Escambia County:* All of the city of Pensacola; in *Okaloosa County:* T. 5 N., R. 22 W. and Secs. 1, 2, and 3 of T. 5 N., R. 23 W. and all lands north of both areas to the Florida-Alabama State line; in *Walton County:* T. 5 N., Rs. 20 and 21 W. and Secs. 31, 32, and 33, T. 6 N., R. 19 W. and all lands north of both areas to the Florida-Alabama State line; also Sec. 1–24 inclusive of T. 4 N., R. 19 W.

Louisiana.—All of Orleans Parish including the city of New Orleans, and all of *Saint Bernard Parish;* in *East Baton Rouge Parish:* T. 7 S., Rs. 1 and 2 E. and 1 W., including all of the city of Baton Rouge; in *Jefferson* and *Plaquemines Parishes:* Those parts lying north of the township line between Tps. 14 and 15 S.

Mississippi.—In *Harrison* and *Stone Counties:* That area bound by the east line of sec. 31, T. 7 S., R. 10 W. extending from a point where it intersects or would intersect with the Mississippi Sound if extended without change in direction to said sound; thence north to Bayou Bernard; thence following a general northwesterly direction along Bayou Bernard to east line of sec 22, T. 7 S., R. 11 W., thence north to intersection with Biloxi River, thence northwest along Biloxi River to intersection with the east line of sec. 5, T. 6 S., R. 11 W., thence north to SE corner sec. 32, T. 3 S., R. 11 W., thence west along township line to SE corner sec. 34, T. 3 S., R. 12 W., thence south to a point where the east line of sec. 15, T. 7 S., R. 12 W. intersects Landon Road, thence west along Landon Road to intersection of east line of sec. 9, T. 7 S., R. 12 W., thence south to Mississippi Sound, thence along the sound to starting point and including all property extendonto or over the waters of Mississippi Sound; in *Hinds County:* E½ T. 6 N., R 3 W., and W⅓ T. 6 N., R. 2 W.; in *Jackson County:* That area included within a boundary beginning at SE corner sec. 31, T. 7 S., R. 5 W., and extending north to Escatawpa River; thence west along said river to the Pascagoula River, thence south along Pascagoula River to township line between Tps. 7 and 8 S., thence east along the said township line to the starting point; in *Jones County:* That area included within a boundary beginning at SW corner sec. 14, T. 8 N., R. 12 W., thence east to SE corner sec. 16, T. 8 N., R. 11 W., thence north to NE corner sec. 9, T. 8 N., R. 11 W., thence east to NE corner sec. 11, T. 8 N., R. 11 W., thence

north to NE corner sec. 26, T. 9 W., R. 11, W., thence west to SE corner sec. 21, T. 9 N., E. 11 W., thence north to NE corner sec. 16, T. 9 N., R. 11 W., thence west to NW corner sec. 14 T. 9 N., R. 12 W., thence south to Tallahoma Creek, thence southerly along said creek to its intersection with the west line of sec. 11, T. 8 N., R. 12 W., thence south to starting point; in *Pearl River County:* All of T. 5 S., R. 16 W., and E½ T. 5 S., R. 17 W.

Regulation 3. Restricted Articles

(*a*) *Carriers of larvae.*—The interstate movement of the following articles from the regulated areas is regulated throughout the year:

(1) Soil, earth, sand, clay, peat, compost, and manure whether moved independent of, or in connection with or attached to nursery stock, plants, products, articles, or things.

(2) Potatoes and sweetpotatoes.

(*b*) *Carriers of eggs and adults.*—Except as provided in regulation 4 hereof, the interstate movement from any regulated area of the following products is regulated for the periods indicated:

From June 1 to November 30, inclusive, of each year.—(1) Sweetpotato vines, draws, and cuttings.

(2) Cordwood, pulpwood, stumpwood, and logs.

(3) Unused lumber, timbers, posts, poles, and crossties.

From June 1 to January 31, inclusive, of any 12-month period.—(1) Hay, roughage of all kinds, straw, leaves, and leaf mold.

(2) Peas, beans, and peanuts in shells, or the shells of any of these products.

(3) Seed cotton, cottonseed, baled cotton lint, and linters.

(4) Used implements and machinery, scrap metal, junk, and utensils or containers coming in contact with the ground.

(5) Brick, tiling, stone, and concrete slabs and blocks.

(6) Used lumber, timbers, posts, poles, crossties, and other building materials.

(7) Nursery stock and other plants, which are free from soil.

(*c*) *Designation of other restricted articles.*—Any other articles which, by reason of exposure or surroundings, may be found by the Chief of the Bureau of Entomology and Plant Quarantine to serve as carriers of the pest in any stage of development and which are so designated by him in administrative instructions, shall thereafter be subject to the restrictions of this quarantine and the regulations supplemental thereto.

Regulation 4. Conditions Governing Interstate Movement of Restricted Articles

(*a*) Restricted articles shall not be moved interstate from a regulated area to or through any point outside thereof unless accompanied by a valid inspection certificate issued by an inspector: *Provided*, That certification requirements as they relate to part or all of any regulated area and as they pertain to carriers of adults and eggs, may be waived, during part or all of the year, by the Chief of the Bureau of Entomology and Plant Quarantine, on his finding and giving notice thereof, in administrative instructions, that the State concerned has promulgated and enforced adequate sanitary measures on and about the premises on which restricted articles originate or are retained, or that adequate volunteer sanitary measures have been applied, or that other control or natural conditions exist which have eliminated the risk of egg or adult contamination.

(*b*) No certificates are required for interstate movement of regulated articles when such movement is wholly within contiguous regulated areas.

Regulation 5. Conditions Governing the Issuance of Certificates and Permits

(*a*) Certificates authorizing the interstate movement of soil, earth, sand, clay, peat, compost, or manure, originating in an infested area, may be issued only when such articles have been treated, fumigated, sterilized, or processed under methods approved by the Chief of the Bureau of Entomology and Plant Quarantine.

(*b*) Certificates authorizing the interstate movement of soil, earth, sand, clay, peat, compost, or manure, originating in noninfested parts of a regulated area, and of all other restricted articles from any part of a regulated area, may be issued upon determination by the inspector that the articles are (1) apparently free from infestation; or (2) have been treated, fumigated, sterilized, or processed under approved methods; or (3) were grown, produced, manufactured, stored, or handled in such a manner that, in the judgment of the inspector, no infestation would be transmitted thereby.

(*c*) *Limited permits for manufacturing and processing purposes.*—Limited permits may be issued for the movement of noncertified restricted articles to such manufacturing or processing plants, mills, or gins in nonregulated areas as may be authorized and designated by the Chief of the Bureau of Entomology and Plant Quarantine, for manufacture, processing, or treatment. As a condition of such authorization and designation, manufacturing or processing plants, mills, or gins in nonregulated areas shall agree in writing to maintain such sanitary safeguards against the establishment and spread of infestation and to comply with such restrictions as to the handling and subsequent movement of restricted products as may be required by the inspector.

(*d*) *Dealer-carrier permit.*—As a condition of issuance of certificates or permits for the interstate movement of restricted articles, all persons or firms engaged in purchasing, assembling, exchanging, processing, or carrying such restricted articles originating or stored in regulated areas, shall make application for a dealer-carrier permit to the Bureau of Entomology and Plant Quarantine, stipulating that the permittee will maintain an accurate record of receipts and sales, shipments, or services, when so required, which records shall be available at all times for examination by an inspector; and that he will carry out, under a signed agreement, any and all conditions, treatments, precautions, and sanitary measures which may be specified therein.

Regulation 6. Certification a Condition of Interstate Movement

Unless exempted by administrative instructions issued by the Chief of the Bureau of Entomology and Plant Quarantine, every container of restricted articles moved interstate from any regulated area shall have securely attached to the outside thereof a certificate or permit issued in compliance with these regulations, except that the certificate or permit issued (1) for lot shipments by freight shall be attached to one of the containers and a duplicate thereof shall be attached to the waybill, (2) for shipments by road vehicle shall accompany the vehicle, (3) for bulk carload shipments by freight shall accompany the waybill or conductor's manifest.

Regulation 7. Assembly of Restricted Articles for Inspection

Persons intending to move restricted articles interstate shall make application for certification as far as possible in advance of the probable date of shipment. Applications must show the nature and quantity of articles to be moved, together with their exact location, and if practicable, the contemplated date of shipment. Applicants for inspection may be required to assemble or indicate the articles to be shipped so that they may readily be examined by the inspector.

The United States Department of Agriculture will not be responsible for any cost incident to inspection or treatment other than the services of the inspector.

Regulation 8. Cancelation of Permits

Certificates or permits issued under these regulations may be withdrawn or canceled and further certification refused whenever, in the judgment of the Bureau of Entomology and Plant Quarantine, the further use of such certificates or permits might result in the dissemination of infestation.

Regulation 9. Shipments for Experimental and Scientific Purposes

Articles subject to restrictions may be moved interstate for experimental or scientific purposes, on such conditions as may be prescribed by the Chief of the Bureau of Entomology and Plant Quarantine. The container of articles so moved shall bear an identifying tag from the Bureau of Entomology and Plant Quarantine.

These regulations shall be effective on and after January 15, 1939.

Done at the city of Washington this 14th day of December, 1938.

Witness my hand and the seal of the United States Department of Agriculture.

[SEAL] H. A. WALLACE,
Secretary of Agriculture.

TITLE 20—EMPLOYEES' BENEFITS

SOCIAL SECURITY BOARD

PART 402. FEDERAL OLD-AGE BENEFITS*#

REGULATIONS NO. 2 RELATING TO FEDERAL OLD-AGE BENEFITS UNDER TITLE II OF THE SOCIAL SECURITY ACT AMENDED

Regulations No. 2, approved July 20, 1937, relating to Federal Old-Age Benefits under Title II of the Social Security Act, approved August 14, 1935 (Public, No. 271, Seventy-fourth Congress: 49 Stat. 620), are amended as follows:

The following sections of Part 402 are amended to read as follows:

"SEC. 402.302 *Applications for Lump-Sum Benefit Payment.* A lump-sum benefit will be certified for payment only upon application of the wage earner if he be living and competent; or if he be deceased or incompetent, upon application of his guardian, committee, or other legal representative, or of some person specified in article 311 or 312 (Secs. 402.311, 402.312), who is entitled under the laws of the State in which the deceased wage earner was domiciled, to receive payment.

"SEC. 402.303 *Prescribed Forms.* Application for lump-sum benefit should be made on the prescribed form or forms and shall be prepared in accordance with the instructions printed thereon or attached thereto and in accordance with these regulations. The prescribed forms may be obtained from any field office of the Social Security Board. Each application shall be prepared so as to set forth fully and clearly the data called for therein.

"SEC. 402.304 *Execution of Applications.* Each application executed within the United States by a person, other than a legal representative, shall be signed and witnessed in the prescribed manner.

"Applications executed outside of the United States shall be signed and verified under oath or affirmation before an officer duly authorized to administer oaths for general purposes or by a consular officer of the United States. If a foreign official having no seal acts as attesting officer, the authority of such attesting officer should ordinarily be certified to by an officer having knowledge of the appointment and official character of the attesting officer.

"An application signed by a legal representative and accompanied by the evidence of his appointment, as required by article 311 (Sec. 402.311), ordinarily need not be witnessed or verified under oath or affirmation.

"SEC. 402.305 *Place of Filing Application.* Applications and supporting data should be filed, by mail or otherwise, with any field office of the Social Security Board."

"SEC. 402.307 *Proof of Age.* * * *

"(b) (3) A statement of two other persons having knowledge thereof, executed as required in the prescribed form, or

"SEC. 402.308 *Proof of Death.* * * *

"(4) Where death occurs outside of the United States there shall be furnished a report of the death by a United States Consul, or other agent of the State Department, bearing the signature and official seal of the United States Consul, or a certified copy of the public record of death authenticated by the United States Consul or other agent of the State Department, or such other evidence as will establish death to the satisfaction of the Board."

"SEC. 402.310 *Proof of Wages.* Wages paid with respect to employment after December 31, 1936, will be evidenced by the wage records maintained by the Board and/or other evidence as may be acceptable to the Board.

"SEC. 402.311 *Applications by Guardian, Committee, Executor or Administrator.* Applications filed by a guardian, committee, executor or administrator shall be accompanied by a duly executed certificate of authority issued by the proper officer of the court of appointment. Such certificate may be in the form of letters of appointment, a certified copy thereof, a short form certificate, a certified copy of the order of appointment, or any other official document indicating that the applicant is at the time of certification qualified to act as such representative. A certification made more than one year prior to the date it is filed with the Board will not be acceptable. The Board may require recertification or other evidence at any time if, in its judgment, such action is necessary to establish the authority of the applicant.

"Application and supporting documents of a public administrator or other state official authorized by state law to receive and distribute estate moneys, or any portion thereof, must contain his full title, a description of his authority to receive the benefit, and such other evidence of his authority as the Board may require.

"SEC. 402.312[1] *Discretionary Payments Under Section 205.* The amount due the estate of a deceased wage earner, if not more than $500, may be paid to persons found by the Board to be entitled thereto under the law of the state in which the deceased was domiciled. The Board will exercise its discretion to effect payment to relatives only if each of the three following conditions exists:

"(1) No executor or administrator is duly authorized under the laws of the deceased's domicile to receive such payment and it appears that no such executor or administrator will be so authorized; and

"(2) The right to payment would not be affected by the validity of an instrument appearing to be a will but not duly determined by probate; and

"(3) No creditor (other than a relative or any member of the family with respect to funeral expenses) is entitled, and at least one person entitled is one of the following:

"(a) A spouse, child, grandchild, parent; or

"(b) Any relative (including relatives by marriage) or any member of the family, who has made a payment toward funeral expenses of the deceased from his or her own funds; or

"(c) A person whose right is evidenced to the satisfaction of the Board by court action or by a substitute therefor authorized by the law of the deceased's domicile.

"Even though the foregoing conditions are met, the Board may, in a particular situation, determine not to exercise its discretionary power to make payment under section 205, and in exceptional circumstances may waive the above requirements when it is fully satisfied as to the person entitled."

"SEC. 402.314 *Proof of Entitlement.* The responsibility of establishing entitlement to benefits payable under Title II of the Act rests upon the applicant."

"SEC. 402.316 *Reconsideration of claims.* The claimant will, upon completion of adjudicative action, be informed by the Board of the decision on the claim. The claimant shall have the right to have a reconsideration of his claim upon written notice to the Board."

Authority for Regulations

In pursuance of sections 205 and 1102 of the Act, the foregoing regulations this day adopted by the Board are hereby prescribed this December 8, 1938.

SOCIAL SECURITY BOARD,
[SEAL] A. J. ALTMEYER, *Chairman.*

TITLE 46—SHIPPING

UNITED STATES MARITIME COMMISSION

[General Order No. 19, Amended]

WAGE SCALES, MANNING SCALES, WORKING CONDITIONS UPON CARGO VESSELS OWNED BY, AND OPERATED FOR THE ACCOUNT OF THE COMMISSION

At a regular session of the United States Maritime Commission, held at its

*With the exception of Section 402.312 (for which see footnote to that section), sections 402.302 through 402.316 are issued under authority contained in Section 1102 of the Social Security Act (49 Stat. 647; 42 U. S. C., Sup. II, 1302).

#Section numbers used herein correspond to numbers assigned in the code of Federal Regulations. The numbers after the decimal point in each section number correspond to the article numbers assigned in Regulations No. 2 of the Social Security Board.

[1] Section 402.312 is issued under the authority contained in Section 205 of the Social Security Act (49 Stat. 624; 42 U. S. C., Sup. III, 405).

office in Washington, D. C., on November 25, 1938.

Upon consideration of the existing regulations with respect to wage scales, manning scales and working conditions upon cargo vessels owned by, and operated for the account of, the Commission and of the report and recommendations of the Director, Division of Maritime Personnel and the Director, Division of Operations and Traffic, submitted November 14, 1938, it is hereby

Ordered, That, effective at the time of the first signing of foreign or coastwise articles on or after December 15, 1938, General Order No. 19, adopted December 15, 1937, be, and hereby is, amended to read as hereinafter set forth, and any other regulation of the Commission, to the extent that it is in conflict herewith be, and hereby is, rescinded.

By order of the United States Maritime Commission.

[SEAL] RUTH GREENE,
Assistant Secretary.

Overtime.—The overtime rate of pay for licensed personnel shall be $1.00 per hour, and for unlicensed personnel, 70¢ per hour.

NOTE 1.—Carpenter's tools will be furnished by vessel.

NOTE 2.—Boatswains will be required to hold A. B. and lifeboat certificates.

NOTE 3.—Utility Men will be carried on Diesel vessels in the service of the American Pioneer Line only. Utility Men serving in the deck department will be required to hold A. B. and lifeboat certificates.

NOTE 4.—Utility Men serving in the engine department will be required to carry an oiler's certificate.

* On S. S. *Yomachichi* only one messman will be carried.

Night relieving officers.—Night relieving officers shall be employed on vessels in active operation in all domestic ports where a vessel is to remain for two or more nights and shall be compensated at the rate of $9.00 per night.

WORKING CONDITIONS FOR CARGO VESSELS

General Provisions

1. *Obedience.*—Prompt obedience shall be rendered to the orders of the master and other superior officers.

2. *Holidays.*—The following holidays shall be observed: New Year's Day, Lincoln's Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Armistice Day, Thanksgiving and Christmas Day. If a holiday falls on Sunday, the following Monday shall be observed as a holiday.

3. *Inspections.*—In order to insure cleanliness and orderliness, the heads of the various departments shall make a daily inspection of all crew accommodations. The master shall make an inspection of the entire vessel at least once every week with particular attention to officers' and crews' quarters and food. Daily inspections by department heads shall be entered in the chief mate's log book. The master's weekly inspections shall be recorded in the official log book.

4. *Drills.*—Fire and boat drills shall, weather permitting, be held weekly. Such drills shall be held without prior notice or preparation, but it shall not be made the regular practice to conduct such drills on Saturday afternoons, Sundays or holidays. The entire crew, except those on station required for safe navigation and management of the vessel, shall participate in such drills. The master shall enter a record of such drills in the log, giving a complete account of his estimate of the efficiency with which such drills are executed.

5. *Continuous service remuneration.*—All licensed and unlicensed personnel who have been continuously employed on vessels operated for the account of the Maritime Commission, beginning with any date subsequent to March 1, 1937, shall receive in addition to the basic pay of their respective ranks, grades or ratings, additional remuneration as follows:

(a) for continuous service in excess of 12 months, 3 per centum of the current basic pay; or

(b) for continuous service in excess of 24 months, a total of six per centum of the current basic pay; or

(c) for continuous service in excess of 36 months, a total of ten per centum of the current basic pay.

Continuity of service shall be deemed to be broken by voluntary separation from the service or by dismissal for cause. Continuity of service shall not be deemed to be broken by temporary furloughs from the service, but no time credit for continuous service remuneration shall accrue during the period of furlough. A furlough, for the purpose of this section, is defined as a leave of absence for a definite period of time, not to exceed three months, but capable of extension from time to time, granted with the approval of the District Manager of the Maritime Commission.

6. *Breaking and setting watches.*—Watches will be set or broken in the discretion of the master.

7. *Eight hour day.*—The standard working day for all licensed and unlicensed personnel shall be eight hours, at sea or in port. No licensed officer or unlicensed member of the crew shall be required to work in excess of eight hours between midnight and midnight of any day except in case of either of the following emergencies:

(a) work necessary for safety of the vessel, passengers, crew or cargo;

(b) saving life aboard other vessels in jeopardy.

Time in excess of eight hours used for fire and boat drills and in changing watches and relieving watches for meals shall not be computed in determining the eight hour day.

8. *Week-end and holiday lay-offs.*—No officer or member of the crew shall be laid off without pay over a Saturday afternoon, Sunday or holiday, if working immediately previous to and after such days.

9. *Complaints or suggestions for the good of the service.*—Whenever an officer or member of a crew has a suggestion or complaint he may submit it through his immediate superior to the master for adjustment.

Suggestions which the master does not adopt or which are not within his jurisdiction to effect shall be forwarded by him to the District Manager of the United States Maritime Commission with his comments.

The procedure for the adjustment of complaints will be as follows:

(a) Complaints, if not satisfactorily adjusted by the immediate superior of the complainant, may be taken to the department head and thence, if necessary, to the master. When a complaint is presented to the master it shall be in writing and bear the endorsement of the immediate superior and the department head with such comments as either may desire to make.

(b) Whenever possible, the master shall without delay, adjust and dispose of all complaints brought to him by any officer or member of the crew.

(c) Should the master be unable satisfactorily to adjust the complaint he shall refer the same in triplicate with his comments to the District Manager of the United States Maritime Commission. The District Manager shall retain one copy of the complaint and shall refer two copies with his comments to the United

States Maritime Commission at Washington.

Nothing herein contained shall be construed to restrict in any way the authority of the master or to permit any officer or member of the crew to disobey the lawful order of a superior.

Nothing herein contained shall preclude any employee or his representative from the exercise of any rights granted by law with respect to making of complaints.

10. *Workaways.*—Workaways shall be carried solely for the purpose of providing transportation and, in such case, shall be in addition to the regular crew.

Licensed Officers and Department Heads

11. *Vacations.*—After each year of continuous service subsequent to March 1, 1937, every licensed officer and department head who has been employed continuously on any vessels operated for the account of the Maritime Commission shall receive at the end of each such year, a vacation with full pay of 14 consecutive calendar days.

Such vacations may be cumulative, but not to exceed a total of 28 days, and shall be allowed at such time as may be convenient to the operating necessities of the service, upon the approval of the District Manager of the Maritime Commission. No cash allowance in lieu of vacation shall be made.

After 6 months of continuous service, if employment is terminated through no fault of the officer or department head, he shall be entitled to such vacation as has been accrued on the basis of 1/12th the annual period per month of continuous service.

Continuous service shall be computed in the same manner as provided by Section 5 for the purpose of continuous service remuneration.

12. *Travel.*—(a) When traveling in the course of employment from one vessel to another or from one port to another, licensed officers and department heads shall be paid regular wages while en route and shall be provided with transportation, including berth if overnight, and subsistence at the rate of $4.00 per day, except where subsistence is included with transportation.

(b) If prior to the completion of Shipping Articles, the vessel is withdrawn from service for any cause, including shipwreck, licensed officers and department heads shall be provided with transportation and subsistence, as provided in subsection (a) of this section, to the port where Shipping Articles were signed, unless another port is designated in the Shipping Articles. Full wages shall be paid up to the time of arrival at either of such ports. Application for such return transportation, subsistence and wages must be made within 15 days from the date of withdrawal of the vessel from service, except that in the case of shipwreck, such application must be made within 15 days from the date of arrival at a safe port. The money equivalent of return transportation provided for herein shall not be paid under any conditions.

13. *Subsistence.*—When meals are not furnished, licensed officers and department heads shall receive a subsistence allowance at the rate of $3.00 per day, and when required to sleep ashore, they shall receive an allowance of $2.50 per night for lodging.

14. *Overtime.*—Provisions of law relating to restriction of required employment to eight hours per day shall be strictly observed, but if voluntary work is performed in excess of eight hours, the following procedure shall govern.

Such overtime work shall be performed only upon the authorization of the department head with the prior approval of the master. His certification on the form provided therefor shall be the basis of overtime payments to the officers and crew.

All work in excess of eight hours in twenty-four required in docking and undocking the vessel shall be paid for at the overtime rate.

When overtime work performed is less than one hour, overtime for one full hour shall be paid. Where overtime work exceeds one hour, the overtime work performed shall be paid for in units of one half hour.

Overtime compensation shall be paid in cash promptly upon completion of the voyage, and, where practicable, at the same time regular wages are paid.

At Sea

Overtime will be paid only for duly authorized work in excess of that required under paragraph 7.

In Port

Port time shall commence when a vessel has been secured to her berth and "Finished with Engines" has been rung. Port time shall cease when "Stand By" is rung.

The normal working day in port shall not exceed eight hours, distributed as directed by the master as necessities of watches and other duties require. Overtime shall be paid for all work performed in excess of eight hours between midnight and midnight and for all work performed on Saturdays after 12:00 Noon and on Sundays and holidays, upon conditions herein prescribed.

Unlicensed Personnel (Other Than Department Heads)

15. *Vacations.*—For each year of continuous service after March 1, 1937, all unlicensed personnel other than department heads who have been continuously employed on any vessels operated for the account of the Maritime Commission shall receive at the end of each such year, a vacation with full pay of 7 consecutive calendar days after the first year of continuous service and of 14 consecutive calendar days after two or more years of continuous service.

Such vacations may be cumulative, but not to exceed a total of 28 days and shall be allowed at such time as may be convenient to the operating necessities of the service upon the approval of the District Manager of the Maritime Commission. No cash allowance in lieu of vacation shall be made.

After 6 months of continuous service, if employment is terminated through no fault of the employee, he shall be entitled to such vacation as has been accrued on the basis of 1/12th the annual period per month of continuous service.

Continuous service shall be computed in the same manner as provided by section 5 for the purpose of continuous service remuneration.

16. *Travel.*—(a) When traveling in the course of employment from one vessel to another or from one port to another, unlicensed personnel (other than department heads) shall be paid regular wages while en route and shall be provided with transportation, including berth if overnight, and subsistence at the rate of $3.00 per day, except where subsistence is included with transportation.

(b) If prior to the completion of Shipping Articles, the vessel is withdrawn from service for any cause, including shipwreck, unlicensed personnel shall be provided with transportation and subsistence, as provided in subsection (a) of this section, to the port where Shipping Articles were signed, unless another port is designated in the Shipping Articles. Full wages shall be paid up to the time of arrival at either of such ports. Application for such return transportation, subsistence and wages must be made within 15 days from the date of withdrawal of the vessel from service, except that in the case of shipwreck, such application must be made within 15 days from the date of arrival at a safe port. The money equivalent of return transportation provided for herein shall not be paid under any conditions.

17. *Subsistence.*—When meals are not furnished, unlicensed personnel, other than department heads, shall receive a subsistence allowance at the rate of $1.80 per day, and an allowance of $2.00 for lodging.

18. *Overtime.*—Provisions of law relating to restriction of required employment to eight hours per day shall be strictly observed, but if voluntary work is performed in excess of eight hours, the following procedure shall govern.

Such overtime work shall be performed only upon the authorization of the department head with the prior approval of the master. His certification on the form provided therefor shall be the basis of overtime payments to the officers and crew.

All work in excess of eight hours in twenty-four required in docking and undocking the vessel shall be paid for at the overtime rate.

When overtime work performed is less than one hour, overtime for one full hour shall be paid. Where overtime work exceeds one hour, the overtime work performed shall be paid for in units of one half hour.

Overtime compensation shall be paid in cash promptly upon completion of the voyage, and, where practicable, at the same time regular wages are paid.

At Sea

Overtime will be paid only for any duly authorized work in excess of that required under paragraph 7.

In Port

Port time shall commence when a vessel has been secured to her berth and "Finished with Engines" has been rung. Port time shall cease when "Stand By" is rung.

Deck and engine departments. In port, the normal working day shall be between 8:00 A. M. and 5:00 P. M., Monday to Fridays, both inclusive; and 8:00 A. M. and 12:00 Noon on Saturdays, except for the donkey and gangway watches.

All work performed at any time on Sundays or Holidays or after 12:00 Noon on Saturdays, including that of the donkey and gangway watches, shall be paid for at the overtime rate.

All work performed before 8:00 A. M. and after 5:00 P. M. Monday to Friday, both inclusive, shall be paid for at the overtime rate, except that of the donkey and gangway watches, who shall receive overtime pay only when the hours worked in any one day exceed eight, regardless of whether or not cargo is being worked.

Steward's department.—The working day at sea shall not exceed eight hours in a spread of twelve hours, and when practicable shall be between the hours of 6:00 A. M. and 6:00 P. M. In port, the working day shall not exceed eight hours in a spread of thirteen hours, and when practicable shall be between the hours of 6:00 A. M. and 7:00 P. M. At sea or in port, overtime shall be paid for work performed in excess of eight hours, subject to the general provisions regarding overtime. In port, overtime shall be paid for work performed after 12:00 Noon Saturdays, Sundays and Holidays.

[F. R. Doc. 38-3759; Filed, December 14, 1938; 12:58 p. m.]

TITLE 50—WILDLIFE

BUREAU OF BIOLOGICAL SURVEY

AMENDMENT TO REGULATIONS FOR THE ADMINISTRATION OF NATIONAL WILDLIFE REFUGES UNDER THE JURISDICTION OF THE BUREAU OF BIOLOGICAL SURVEY

By virtue of authority conferred upon the Secretary of Agriculture by section 10 of the Migratory Bird Conservation Act of February 18, 1929 (45 Stat. 1222), section 84 of the Act of March 4, 1909, 35 Stat. 1104, as amended by the Act of April 15, 1924, 43 Stat. 98, and section 401 of the Act of June 15, 1935, 49 Stat. 383, and otherwise, "Regulation 16—Impounding of Animals" of the "Regulations for the Administration of National Wildlife Refuges under the Jurisdiction of the Bureau of Biological Survey," issued November 23, 1937,[1] is hereby amended effective December 20, 1938, to read as follows:

REGULATION 16—IMPOUNDING OF ANIMALS

Domestic livestock and dogs trespassing on a refuge may be impounded by the officer in charge. If the owner is known, prompt written notice of the impounding will be served upon him and in the event of his failure to remove the impounded animal within 5 days from delivery of such notice it will be sold or otherwise disposed of as hereinafter prescribed. If the owner is unknown, no sale or other disposition of the animal shall be made until at least 15 days have elapsed from the date that a notice of the impounding is first published in a newspaper of general circulation in the county in which the trespass occurs and posted at the county courthouse. Regional directors and officers in charge of refuges are hereby authorized to order the publication of such notices in newspapers by direct transmittal to the publisher of the standard form of advertising order approved by the Comptroller General. The notice shall state when and where the animal was impounded, shall describe it by brand or earmark or both, or, in the absence of such distinguishing marks, by such other means as are necessary to identify such animal and shall specify the time and place it will be offered at public sale to the highest bidder in default of redemption by the owner on or before that date, and the right to reject any and all bids shall be reserved. Prior to such sale the owner may redeem the animal by submitting proof of ownership and paying all expenses incurred by the United States for capturing, advertising, pasturing, feeding, and impounding. Upon the sale of any animal in accordance with this regulation, the Chief of Bureau or his authorized representative shall issue a certificate of sale. If an animal impounded under this regulation is offered at public sale and no bid is received or the highest bid received is in an amount less than the amount of the claim of the United States or the officer's appraised value of the animal, whichever is the lesser amount, it may, in the discretion of the officer be sold at private sale for the highest amount obtainable, or be condemned and destroyed or converted to the use of the United States if of value for that purpose.

In all livestock trespasses on wildlife refuges the value of the forage consumed will be computed at the daily, monthly, or yearly commercial rates prevailing in the locality for the class of livestock found in trespass.

In addition to the damages to wildlife refuge property injured or destroyed, and in order to compensate the United States fully for any loss resulting from trespass by livestock and the impounding, sale, or other disposition thereof, a charge may be made and added to the value of the forage consumed, which shall include the pro rata salary of refuge officers for the time spent and the expenses incurred in and about the investigations, reports, and settlement or prosecution of the case.

Where the amount received in the sale of the animal either under bid or at private sale, or the appraised value thereof in case the animal is converted to the use of the Government, is insufficient to meet the amount of the Government's claim or when necessary to destroy the impounded animal without benefit to the Government, the facts shall be fully reported to the Chief of the Bureau for appropriate action to obtain full satisfaction of the Government's claim.

In testimony whereof, I have hereunto set my hand and caused the official seal of the United States Department of Agriculture to be affixed in the City of Washington this 13th day of December 1938.

[SEAL] H. A. WALLACE,
Secretary of Agriculture.

[F. R. Doc. 38-3751; Filed, December 13, 1938; 3:54 p. m.]

Notices

DEPARTMENT OF AGRICULTURE.

Food and Drug Administration.

NOTICE OF PUBLIC HEARING FOR PURPOSE OF RECEIVING EVIDENCE UPON BASIS OF WHICH REGULATIONS MAY BE PROMULGATED. (A) FIXING AND ESTABLISHING DEFINITION AND STANDARD OF IDENTITY, STANDARD OF QUALITY, AND STANDARD OF FILL OF CONTAINER, FOR CANNED TOMATOES; AND (B) SPECIFYING FORM AND MANNER OF LABEL STATEMENTS FOR SUCH CANNED TOMATOES WHICH FALL BELOW SUCH STANDARD OF QUALITY, AND SUCH STANDARD OF FILL OF CONTAINER

In conformity with subsection (e) of Section 701 of the Federal Food, Drug, and Cosmetic Act [Sec. 701, 52 Stat. 1055; 21 U. S. C. 371 (e)], notice upon the proposals herein set forth is hereby given to all interested persons that a public hearing will be held beginning at 10 a. m., January 19, 1939, in Room 3036, Department of Agriculture, South Building, Independence Avenue, between 12th and 14th Streets SW., Washington, D. C., for the purpose of receiving evidence upon the basis of which, in pursuance of the authority vested in the Secretary of Agriculture by the provisions of section 401 of said act (Sec. 401, 52 Stat. 1046; 21 U. S. C. 341), regulations may be promulgated (a) fixing and establishing a definition and standard of identity, a standard of quality, and a standard of fill of container for canned tomatoes; and (b) in pursuance of the authority vested

in the Secretary of Agriculture by the provisions of sections 401 and 403 (h), (1) and (2), of said act [Secs. 401 and 403 (h), (1) and (2), 52 Stat. 1046 and 1047; 21 U. S. C. 341 and 343 (h), (1) and (2)], regulations may be promulgated specifying the form and manner of label statements for canned tomatoes which fall below such standard of quality and such standard of fill of container.

All interested persons are invited to attend this hearing and offer relevant evidence either in person or by representative. In lieu of personal attendance, affidavits may be offered either in person at the time of the hearing or by sending the same to John McDill Fox, Room 2311, South Building, Department of Agriculture, Independence Avenue, between 12th and 14th Streets SW., Washington, D. C., so as to be in his office by the date above stated. Such affidavits, if relevant and material, may be received, but the Secretary will consider the lack of opportunity for cross-examination in determining the weight that shall be given to such affidavits.

The proposed definition and standard of identity, standard of quality, and standard of fill of container for canned tomatoes, and the form and manner of label statements for such food which falls below such standards of quality and fill of container attached hereto and made a part hereof are subject to adoption, rejection, amendment, or modification by the Secretary, in whole or in part, as the evidence adduced at the hearing may require.

Mr. John McDill Fox is hereby designated as presiding officer to conduct, in the place of the Secretary, the foregoing hearing, with authority to administer oaths, and to do all things necessary and appropriate to the proper conduct of such hearing as may be provided in the general procedural regulations which will be available at the hearing.

[SEAL] H. A. WALLACE,
Secretary of Agriculture.

DECEMBER 14, 1938.

TOMATOES—PROPOSED DEFINITION AND STANDARD OF IDENTITY FOR THE CANNED FOOD PRODUCT COMMONLY KNOWN AS TOMATOES

Tomatoes consist of one of the following optional tomato ingredients:

(1) (a) Clean, mature, red tomatoes which are sound or with imperfections removed by trimming, and which have been peeled and cored, with (b) the liquid obtained from such tomatoes in peeling, coring, trimming, and packing; or

(2) Tomato ingredient (1) (a) with a strained mixture consisting of clean, sound tomato trimmings and liquid obtained from tomato ingredient (1) (a) in peeling, coring, and trimming;

With or without one or more of the optional added ingredients:

(a) Salt.
(b) Sweet basil leaves.

Sealed in a container and processed by heat to prevent spoilage.

When optional tomato ingredient (2) or optional added ingredient (b) is used, that fact shall be stated on the label. (Form of declaration to be later specified.)

TOMATOES—PROPOSED STANDARD OF QUALITY FOR THE CANNED FOOD PRODUCT COMMONLY KNOWN AS TOMATOES

The food in the container meets the standard of quality when:

(a) The weight of tomatoes retained after draining for 2 minutes on an appropriate sieve, described below, equals or exceeds one-half the weight of water at 68° F. required to fill the container (such weight of water to be determined as specified in the accompanying method).

The sieve used shall have 2 meshes to the linear inch. The bottom shall be made of wire of a uniform diameter of 0.054" woven into square meshes with a uniform inside diameter of 0.446". For food in containers of less than 3 pounds net weight, such a sieve 8 inches in diameter shall be used. For food in containers of 3 pounds net weight or more, such a sieve 12 inches in diameter shall be used.

(b) The red color of the tomatoes is such that it complies with the following requirements: The pieces of tomatoes obtained in (a) are removed from the sieve and selected and cut in such manner as to successively segregate those portions in which the red color is least developed until they equal one-half of the total weight of the pieces of tomatoes obtained in (a). Such portions are reduced to a homogeneous mixture without removing or breaking the seeds. After freeing such mixture from air bubbles, a black container 1 inch deep is filled with the mixture and visible seeds are skimmed off or pressed below the surface. The color of the mixture in the black container is then compared in full daylight or its equivalent with a combination of the following blended Munsell color disks:

(1) 5R 2.6/13 (glossy finish).
(2) 2.5YR 5/12 (glossy finish).
(3) N 1/ (glossy finish).
(4) N 4 (mat finish).

If (1) the red color of the mixture is so well developed that it cannot be matched by any of these disks or any combination of them, or (2) if it is sufficiently developed to be matched by a combination in which the exposed area of disk (1) covers one-third or more of the circle, and the exposed area of disk (2) does not exceed that of (1) (regardless of the exposed area of disks (3) and (4)); the red color in either case meets the requirement of the standard.

(c) The tomatoes are so peeled that there is not more than ____ square inches (to be fixed at a point between 1 and 1.5 square inches) of peel per pound of net contents in the container.

(d) The fruit is so trimmed that the total of the maximum cross-sectional areas of all unsightly blemishes does not exceed ¼ square inch per pound of net contents in the container.

PROPOSED METHODS FOR DETERMINING IN CANNED TOMATOES (1) PERCENTAGE OF TOTAL CAPACITY OF CONTAINER OCCUPIED BY PRODUCT AND (2) WEIGHT OF WATER AT 68° F. REQUIRED TO FILL THE CONTAINER

(1) *For cylindrical metal containers.*—(a) Percent of total capacity of container occupied by total contents:

Measure carefuly to the nearest sixteenth of an inch the following, expressing as a whole number the total number of sixteenth inches:

A, the over-all height of the container;
B, the combined heights of the double seams of the closed container (sum of the vertical distances, taken at each end, from the top of the double seam to the point where the cover turns at right angles to the side wall);
C, the vertical distance from the top of the double seam to the highest point of the product (after carefully opening the container without disturbing the double seam).

Obtain the percent of total capacity of container occupied by total contents by the following formula:

$$\frac{A-(C+\frac{B}{2})}{A-B}\times 100$$

where *A*, *B*, and *C* are the measurements, expressed and designated as in (1) (a) above.

(b) Weight of water at 68° F. required to fill the container:

Measure over-all diameter of container at the highest point of the side to the nearest sixteenth of an inch (for use in Table A). Multiply measurement A minus measurement B, obtained and expressed as in (1) (a), by the avoirdupois ounces of water at 68° F. corresponding to each sixteenth inch of height of a container of the outside diameter above determined, such weight of water being obtained from Table A. The product of the above multiplication is deemed to be the weight of water at 68° F. required to fill the container.

TABLE A

Outside diameter at lid, in sixteenth inches:	*Avoirdupois Ounces Water at 68° F. per Each Sixteenth Inch Height*
34	0.120
40	.162
43	.188
45	.205
48	.234
49	.241
51	.264
55	.306
60	.371
65	.431
68	.487
82	.704
99	1.033
106	1.194

For containers with diameters not given in Table A, determine water capacity as described in (2) (b).

(2) *For square, or other non-cylindrical metal containers with vertical sides.*—(a) Percent of total capacity of container occupied by total contents:

Determine as in (1) (a). If a determination of water capacity is also necessary, open container as described in (2) (b).

(b) Weight of water at 68° F. required to fill the container:

With a hack saw make a level cut across the top of the container in such a manner as to just divide the lid into two approximately equal parts. Cut out one of such parts with a can opener. Remove contents and close, with adhesive tape or other convenient material, any saw cuts in the sides which extend below the level of the lid. Rinse container with water, dry, and weigh. Fill container with distilled water at 68° F. to the point where the lower surface of the lid meets the sides. Weigh again. The difference in weight is deemed to be the weight of water at 68° F. required to fill the container.

(3) *For metal containers with sloping sides, or otherwise irregular in shape.*—(a) Weight of water at 68° F. required to fill the container:

After cutting and removing part of lid as described in (2) (b), measure distance from the highest point of the side of container to the highest point of the product (for use in (3) (b)). Determine water capacity as described in (2) (b).

(b) Percent of total capacity of container occupied by total contents:

Draw off water used in determining water capacity under (3) (a) until the container is filled to the same point as that formerly occupied by the product. Determine the weight of water remaining and divide it by the water capacity as determined in (3) (a). The quotient multiplied by 100 gives the percent of total capacity of container occupied by total contents.

(4) *For glass or other non-metallic containers.*—(a) Weight of water at 68° F. required to fill the container:

Remove closure (lid or cap) and measure to the nearest sixteenth of an inch the distance from the highest point of the container to highest point of the product (for use in (4) (b)). After removing product, rinse, dry, and weigh container. Fill container completely with distilled water at 68° F. Weigh again. The difference in weight is deemed to be the weight of water at 68° F. required to fill the container.

(b) Percent of total capacity of container occupied by total contents:

Determine as described in (3) (b).

TOMATOES—PROPOSED STANDARD OF FILL OF CONTAINER FOR THE CANNED FOOD PRODUCT COMMONLY KNOWN AS TOMATOES

The food in the container meets the standard of fill when the total contents so fill the container that they occupy at least ____ percent (to be fixed at a point between 90 and 95 percent) of the total capacity of such container (such percentage to be determined as specified in the accompanying method).

LABELING OF SUBSTANDARD CANNED TOMATOES

(1) *Tomatoes which fall below the standard of quality.*—An article of food which falls below the standard of quality shall be labeled in the following form and manner:

Wherever the name of the food or a picture thereof appears, there shall also appear immediately above or below such name or such picture, without intervening material and against a strongly contrasting uniform background, a box legend of the following specifications:

Box.—Rectangular in shape, with a border not less than 6 points in width.

Wording enclosed in box.—First line, "Substandard Quality," in 12-point Cheltenham bold condensed caps for containers of less than 1 pound of total contents, and in 14-point Cheltenham bold condensed caps for containers of 1 pound or more of total contents. Second line, "Good Food—Not High Grade," in 8-point Cheltenham bold condensed caps for containers of less than 1 pound of total contents, and in 10-point Cheltenham bold condensed caps for containers of 1 pound or more of total contents.

(2) *Tomatoes which fall below the standard of fill of container.*—An article of food which falls below the standard of fill of container shall be labeled in the following form and manner:

For an article with total contents occupying an insufficient percentage of the total capacity of the container, the form and manner of labeling as to position, box and type shall be identical with that of (1). The wording of the first line in such box shall be "Substandard Fill" and the second line, "Excess Head Space."

Provided, That if the wordings specified in (1) and (2) are both applicable to a single article, they may be combined in a single box.

[F. R. Doc. 38-3755; Filed, December 14, 1938; 12:06 p. m.]

NOTICE OF PUBLIC HEARING FOR PURPOSE OF RECEIVING EVIDENCE UPON BASIS OF WHICH A REGULATION MAY BE PROMULGATED FIXING AND ESTABLISHING A DEFINITION AND STANDARD OF IDENTITY FOR EACH OF THE FOLLOWING FOODS: EGGS, LIQUID WHOLE EGGS, LIQUID MIXED EGGS, FROZEN WHOLE EGGS, DRIED WHOLE EGGS, EGG YOLK, FROZEN EGG YOLK, DRIED EGG YOLK

In conformity with subsection (e) of Section 701 of the Federal Food, Drug, and Cosmetic Act [Sec. 701, 52 Stat. 1055; 21 U. S. C. 371 (e)], notice upon the proposals herein set forth is hereby given to all interested persons that a public hearing will be held beginning at 10 a. m., January 23, 1939, in Room 3036, Department of Agriculture, South Building, Independence Avenue, between 12th and 14th Streets SW., Washington, D. C., for the purpose of receiving evidence upon the basis of which, in pursuance of the authority vested in the Secretary of Agriculture by the provisions of section 401 of said act (Sec. 401, 52 Stat. 1046; 21 U. S. C. 341), regulations may be promulgated fixing and establishing a reasonable definition and standard of identity for each of the foods commonly known as *eggs, liquid whole eggs, liquid mixed eggs, frozen whole eggs, dried whole eggs, egg yolk, frozen egg yolk, and dried egg yolk.*

All interested persons are invited to attend this hearing and to offer relevant evidence either in person or by representative. In lieu of personal attendance, affidavits may be offered either in person at the time of the hearing or by sending the same to John McDill Fox, Room 2311, South Building, Department of Agriculture, Independence Avenue, between 12th and 14th Streets SW., Washington, D. C., so as to be in his office by the date above stated. Such affidavits, if relevant and material, may be received, but the Secretary will consider the lack of opportunity for cross-examination in determining the weight that shall be given to such affidavits.

The proposed definitions and standards of identity attached hereto and made a part hereof are subject to adoption, rejection, amendment, or modification by the Secretary, in whole or in part, as the evidence adduced at the hearing may require.

Mr. John McDill Fox and Mr. Daniel P. Willis are hereby designated as presiding officers to conduct, either jointly or severally, in the place of the Secretary, the foregoing hearing, with power to administer oaths, and to do all things necessary and appropriate to the proper conduct of such hearing as may be provided in the general procedural regulations which will be available at the hearing.

[SEAL] H. A. WALLACE,
Secretary of Agriculture.

DECEMBER 14, 1938.

EGGS—PROPOSED DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD PRODUCT COMMONLY KNOWN AS EGGS

Eggs are the fully developed ova of the domestic hen.

LIQUID WHOLE EGGS—PROPOSED DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD PRODUCT COMMONLY KNOWN AS LIQUID WHOLE EGGS

Liquid whole eggs consist of the whites and unbroken yolks of eggs, sound and in their natural proportions, broken out of the shell after candling or otherwise

sorting out unsound and unfit eggs, and with rejection, after breaking, of any remaining unsound and unfit eggs; packed in a suitable container.

LIQUID MIXED EGGS—PROPOSED DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD PRODUCT COMMONLY KNOWN AS LIQUID MIXED EGGS

Liquid mixed eggs consist of a homogeneous, strained mixture of the whites and yolks of eggs, sound and in their natural proportions; broken out of the shell after candling or otherwise sorting out unsound and unfit eggs, and with rejection, after breaking, of any remaining unsound and unfit eggs; packed in a suitable container.

FROZEN WHOLE EGGS—PROPOSED DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD PRODUCT COMMONLY KNOWN AS FROZEN WHOLE EGGS

Frozen whole eggs consist of a homogeneous, strained mixture of the whites and yolks of eggs, sound and in their natural proportions; broken out of the shell after candling or otherwise sorting out unsound and unfit eggs, and with rejection, after breaking, of any remaining unsound and unfit eggs; packed in a suitable container; and frozen in such a manner as to prevent spoilage.

DRIED WHOLE EGG—PROPOSED DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD PRODUCT COMMONLY KNOWN AS DRIED WHOLE EGG

Dried whole egg consists of a homogeneous, strained mixture of the whites and yolks of eggs, sound and in their natural proportions; broken out of the shell after candling or otherwise sorting out unsound and unfit eggs, and with rejection, after breaking, of any remaining unsound and unfit eggs; dried to a maximum moisture content of ____ percent (to be fixed at a point between 7% and 8.5%); ground or unground; and packed in a suitable container.

EGG YOLK—PROPOSED DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD PRODUCT COMMONLY KNOWN AS EGG YOLK

Egg yolk consists of a homogeneous, strained mixture of yolks broken out of the shell, after candling or otherwise sorting out unsound and unfit eggs, and with rejection, after breaking, of any remaining unsound and unfit eggs; so separated from whites as to yield a minimum egg solids content of ____ percent (to be fixed at a point between 43% and 45%); and packed in a suitable container.

FROZEN EGG YOLK—PROPOSED DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD PRODUCT COMMONLY KNOWN AS FROZEN EGG YOLK

Frozen egg yolk consists of a homogenous, strained mixture of yolks broken out of the shell, after candling or otherwise sorting out unsound and unfit eggs, and with rejection, after breaking, of any remaining unsound and unfit eggs; so separated from whites as to yield a minimum egg solids content of ____ percent (to be fixed at a point between 43% and 45%); packed in a suitable container; and frozen in such a manner as to prevent spoilage.

DRIED EGG YOLK—PROPOSED DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD PRODUCT COMMONLY KNOWN AS DRIED EGG YOLK

Dried egg yolk consists of a homogeneous, strained mixture of yolks broken out of the shell, after candling or otherwise sorting out unsound and unfit eggs, and with rejection, after breaking, of any remaining unsound and unfit eggs; so separated from whites as to yield, in the finished product, a minimum fat content on the dry basis of ____ percent (to be fixed at a point between 58.5% and 60%); dried to a maximum moisture content of ____ percent (to be fixed at a point between 4.5% and 5.5%); and packed in a suitable container.

[F. R. Doc. 38-3756; Filed, December 14, 1938; 12:06 p. m.]

NOTICE OF PUBLIC HEARING FOR PURPOSE OF RECEIVING EVIDENCE UPON BASIS OF WHICH A REGULATION MAY BE PROMULGATED FIXING AND ESTABLISHING A DEFINITION AND STANDARD OF IDENTITY FOR EACH OF THE FOLLOWING FOODS: TOMATO PUREE, TOMATO PASTE, TOMATO CATSUP, TOMATO JUICE

In conformity with subsection (e) of Section 701 of the Federal Food, Drug, and Cosmetic Act [Sec. 701, 52 Stat. 1055; 21 U. S. C. 371 (e)], notice upon the proposals herein set forth is hereby given to all interested persons that a public hearing will be held beginning at 10 a. m., January 16, 1939, in Room 3036, Department of Agriculture, South Building, Independence Avenue, between 12th and 14th Streets SW., Washington, D. C., for the purpose of receiving evidence upon the basis of which, in pursuance of the authority vested in the Secretary of Agriculture by the provisions of section 401 of said act (Sec. 401, 52 Stat. 1046; 21 U. S. C. 341), regulations may be promulgated fixing and establishing a reasonable definition and standard of identity for each of the foods commonly known as *tomato puree, tomato paste, tomato catsup, and tomato juice.*

All interested persons are invited to attend this hearing and to offer relevant evidence either in person or by representative. In lieu of personal attendance affidavits may be offered either in person at the time of the hearing, or by sending the same to John McDill Fox, Room 2311, South Building, Department of Agriculture, Independence Avenue, between 12th and 14th Streets SW., Washington, D. C., so as to be in his office by the date above stated. Such affidavits, if relevant and material, may be received, but the Secretary will consider the lack of opportunity for cross-examination in determining the weight which shall be given to such affidavits.

The proposed definitions and standards of identity attached hereto and made a part hereof are subject to adoption, rejection, amendment, or modification by the Secretary, in whole or in part, as the evidence adduced at the hearing may require.

Mr. John McDill Fox is hereby designated as presiding officer to conduct in place of the Secretary the foregoing hearing, with power to administer oaths, and to do all things necessary and appropriate to the proper conduct of such hearing as may be provided in the general procedural regulations which will be available at the hearing.

[SEAL] H. A. WALLACE,
Secretary of Agriculture.

DECEMBER 14, 1938.

TOMATO PUREE—PROPOSED DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD PRODUCT COMMONLY KNOWN AS TOMATO PUREE

Tomato puree is the product obtained from one of the following optional tomato ingredients:

(1) Clean, mature red tomatoes which are sound, or with imperfections removed by hand trimming; or

(2) Number (1) above with clean, sound tomato trimmings; or

(3) Number (1) above with clean, sound pomace obtained as a by-product in the manufacture of tomato juice; or

(4) Clean, sound tomato trimmings; or

(5) Clean, sound pomace obtained as a by-product in the manufacture of tomato juice; or

(6) A mixture of numbers (4) and (5) above; by crushing and straining free from skins, seeds and cores, with or without the application of heat; and by evaporating to a minimum tomato solids content of ____ percent (to be fixed at a point between 8.37 and 10.5 percent); it may or may not contain the optional ingredient added salt; it is sealed in a container and processed by heat, before or after sealing, to prevent spoilage.

When optional tomato ingredient (2), (3), (4), (5) or (6) is used, that fact shall be stated on the label (form of declaration to be later specified).

TOMATO PASTE—PROPOSED DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD PRODUCT COMMONLY KNOWN AS TOMATO PASTE

Tomato paste is the product obtained from one of the following optional tomato ingredients:

(1) Clean, mature red tomatoes which are sound, or with imperfections removed by hand trimming; or

(2) Number (1) above with clean, sound tomato trimmings; or

(3) Number (1) above with clean, sound pomace obtained as a by-product in the manufacture of tomato juice; or

(4) Clean, sound tomato trimmings; or

(5) Clean, sound pomace obtained as a by-product in the manufacture of tomato juice; or

(6) A mixture of numbers (4) and (5) above; by crushing and straining free from skins, seeds and cores, with or without application of heat; and by evaporating to a minimum tomato solids content of ____ percent (to be fixed at a point between 22 and 26 percent); it may or may not contain one or more of the optional added ingredients:

(a) Sweet basil leaves.
(b) Oil of sweet basil.
(c) Salt.
(d) Sodium bicarbonate.

it is sealed in a container and processed by heat, before or after sealing, to prevent spoilage.

When optional tomato ingredient (2), (3), (4), (5), or (6), or optional added ingredient (d), is used, that fact shall be stated on the label (form of declaration to be later specified).

CATSUP (OR TOMATO CATSUP)—PROPOSED DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD PRODUCT COMMONLY KNOWN AS CATSUP (OR TOMATO CATSUP)

Catsup (or *tomato catsup*) is the product obtained from clean, mature red tomatoes which are sound (or from which imperfections have been removed by hand trimming) by crushing and straining free from skins, seeds and cores, with or without application of heat; by evaporating so as to result in a finished product of thick consistency; by seasoning with sugar, salt, a vinegar, spice, spice oil and other seasoning; by straining to a smooth consistency; it is sealed in a container and processed by heat, before or after sealing, to prevent spoilage.

TOMATO JUICE—PROPOSED DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD PRODUCT COMMONLY KNOWN AS TOMATO JUICE

Tomato juice is the product obtained from clean, mature red tomatoes which are sound (or with minor imperfections only) by removing any minor imperfections by hand trimming; by crushing and straining, with or without external application of heat, so as to produce a liquid carrying finely divided tomato flesh in suspension, and to exclude skins, seeds and cores together with a portion of the tomato flesh; it may or may not be homogenized; it may or may not contain the optional ingredient added salt; it is sealed in a container and processed by heat, before or after sealing, to prevent spoilage.

RURAL ELECTRIFICATION ADMINISTRATION.

[Administrative Order No. 312]

ALLOCATION OF FUNDS FOR LOANS

DECEMBER 12, 1938.

By virtue of the authority vested in me by the provisions of Section 4 of the Rural Electrification Act of 1936, as amended, I hereby allocate, from the sums authorized by said Act, funds for loans for the projects and in the amounts as set forth in the following schedule:

Project Designation	*Amount*
Alabama R9023C1 Pike	$239,000
Arkansas 9012B1 Miller	267,000
Arkansas 9013B1 Johnson	170,000
Indiana R9015B1 Fayette	50,000
Indiana R9088A2 Kosciusko	46,000
Kentucky R9003A1 Jackson	188,000
Kentucky R9021D1 Nelson	135,000
Kentucky R9023B1 Taylor	151,000
Kentucky R9050A1 Graves	219,000
Mississippi R9030A1 Jones	190,000
Mississippi R9031B1 Washington	170,000
Missouri R9030B1 Lawrence	263,000
Missouri R9034B1 Macon	231,000
Nebraska R9038A1 Hall	164,000
Nebraska R9062A1 Seward	274,000
North Carolina 9021B1 Sampson	76,000
Texas R9038C1 Hill	114,000
Texas R9054C1 Wood	118,000
Virginia R9031B2 Mecklenburg	78,000
Wisconsin R904G7 Chippewa	200,000

FEDERAL REGISTER

VOLUME 3 NUMBER 244

Washington, Friday, December 16, 1938

Rules, Regulations, Orders

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

SECURITIES AND EXCHANGE COMMISSION

SECURITIES ACT OF 1933

ADOPTION OF RULE S–142

The Securities and Exchange Commission, acting pursuant to authority conferred upon it by the Securities Act of 1933, as amended, particularly Section 19 (a) thereof, and deeming such action necessary to carry out the provisions of the Act and necessary and appropriate in the public interest and for the protection of investors, hereby adopts the following rule:

SEC. 5.S–142 (Rule S–142) *Definition of "Participates" and "Participation," as Used in Section 2 (11), in Relation to Certain Transactions.* (a) The terms "participates" and "participation" in Section 2 (11)[1] shall not include the interest of a person (1) who is not in privity of contract with the issuer nor directly or indirectly controlling, controlled by, or under common control with, the issuer, and (2) who has no association with any principal underwriter of the securities being distributed, and (3) whose function in the distribution is confined to an undertaking to purchase all or some specified proportion of the securities remaining unsold after the lapse of some specified period of time, and (4) who purchases such securities for investment and not with a view to distribution.

(b) As used in this rule—

(1) The term "issuer" shall have the meaning defined in Section 2 (4)[2] and in the last sentence of Section 2 (11).[3]

(2) The term "association" shall include a relationship between two persons under which one—

(A) Is directly or indirectly controlling, controlled by, or under common control with, the other, or

(B) Has, in common with the other, one or more partners, officers, directors, trustees, branch managers, or other persons occupying a similar status or performing similar functions, or

(C) Has a participation, direct or indirect, in the profits of the other, or has a financial stake, by debtor-creditor relationship, stock ownership, contract or otherwise, in the income or business of the other.

(3) The term "principal underwriter" shall have the meaning defined in Rule S–455 (Sec. 5.S–455).

(C. 38, sec. 19, 48 Stat. 85; c. 404, sec. 209, 48 Stat. 908; 15 U. S. C. 77s) [Gen. Rules and Regs., Rule S–142, effective December 14, 1938]

By the Commission.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

VETERANS' ADMINISTRATION

REVISION OF REGULATIONS

RELEASE OF INFORMATION CONCERNING CLAIMANTS AND BENEFICIARIES [1]

SEC. 1.311 (d) *Addresses.* (1) When an address or other information is requested in a claim in which the veteran served prior to April 21, 1898, it will be furnished free to any department or agency of the United States Government or of a State or municipal Government, to a Member of Congress, a social welfare organization, or any other agency or person interested in the welfare of the claimant. In any other case, if not prejudicial to the interests of the United States or of any living person, charge therefor will be made in conformity with Sec. 1.328.

(2) When an address is requested that may not be furnished under Secs. 1.310–1.331, because the veteran served after April 20, 1898, the person making the request will be informed that a letter enclosed in an unsealed envelope, bearing sufficient postage, without return address, with the name of the addressee thereon, will be forwarded by the Veterans Administration, but this procedure will be followed only when it does not interfere unduly with the functions of the service or division concerned. In no event will letters be forwarded to aid in the collection of debts. (December 15, 1938) (48 Stat. 9; 38 U. S. C. 707)

SEC. 1.312 *Disclosure to Claimants; and concerning payments.* Disclosures of information from the files, records, reports, and other papers and documents pertaining to claims filed with the Veterans' Administration shall be made by the regional office or facility having possession of the case file:

(a) (1) To a veteran or his duly authorized representative, as to matters concerning himself alone when such disclosure would not be injurious to the physical or mental health of the veteran. If the veteran be deceased, matters concerning him may be disclosed to his widow, children, or next of kin if such disclosure will not be injurious to the physical or mental health of the person in whose behalf information is sought or cause repugnance or resentment toward the decedent.

(2) To a widow, child or dependent parent or the duly authorized representative of any of these persons, as to matters concerning such person alone when such disclosures will not be injurious to the physical or mental health of the person to whom the inquiry relates. If the person concerning whom the information is sought is deceased, matters concerning such person may be disclosed to the next of kin if the disclosures will not be injurious to the physical or mental health of the person in whose behalf the information is sought or cause repugnance or resentment toward the decedent.

(b) The amount of pension or compensation of any beneficiary shall be made known to any person who applies for such information. (December 15, 1938) (48 Stat. 9; 38 U. S. C. 707)

SEC. 1.316 *Disclosure prejudicial to mental or physical health of claimant.* Determination of the question when disclosure of information from the files, records and reports, will be prejudicial to the mental or physical health of a claimant, beneficiary or other person in whose behalf information is sought will be made by the medical director, central office; or the chief medical officer in the regional office or facility having regional office activities; or the manager, in other facilities. (December 15, 1938) (48 Stat. 9; 38 U. S. C. 707)

SEC. 1.320 (b) *Inspection of records or furnishing information therefrom when service was prior to April 21, 1898.* Any person may inspect the records and information may be given therefrom in cases of veterans who served prior to but not on or after April 21, 1898, when such inspection or the furnishing of such information, is not prejudicial to the interests of the Government or, so far as may be apparent, to the interests of any living person. The examination of records or other documents relating to claims for pension or bounty land or the furnishing of information therefrom shall not extend to confidential communications, including instructions regarding, or requests for special or field examinations, summaries and recommendations of inspectors or field examiners, reports relating to criminal charges and investigations, or to evidence obtained in cases involving crimes, forfeiture, or misconduct; nor shall it extend to reports from the Government departments, bureaus, or other agencies, except by permission of the head of the service concerned, or his designate. No person will be permitted to take copies from such reports. Inspection of reports of official physical or mental examinations will not be permitted in cases wherein payments are being made and no claim is pending. (December 15, 1938) (48 Stat. 9; 38 U. S. C. 707)

SEC. 1.322 *Information to Commanding Officers of State Soldiers Homes.* When a request is received in a regional office or Veterans Administration facility, from the commanding officer of a State soldiers home, for information, other than information relative to the character of the discharge from the facility, concerning a veteran formerly domiciled in a Veterans Administration facility, who served subsequent to April 20, 1898, the provisions of Sec. 1.310 are applicable, and no disclosure will be made from the files, records, reports, and other papers and documents pertaining to any claim, whether pending or adjudicated, unless the request is accompanied by the authorization outlined in Sec. 1.312 (a). However, managers of regional offices or Veterans Administration facilities upon receipt of a request from the commanding officer of a State soldiers home, for the character of the discharge of a veteran from a Veterans Administration facility, will comply with the request, restricting the information disclosed solely to the character of the veteran's discharge from the facility. Such information will be disclosed only upon receipt of a specific request therefor from the commanding officer of a State soldiers home. (December 15, 1938) (48 Stat. 9; 38 U. S. C. 707)

[1] 3 F. R. 795 DI.

SEC. 1.328 *Schedule of fees:*

Post office addresses furnished under Sec. 1.311 (d) each	$0.25
Written copies, per 100 words	.25
Photostat copies, per sheet	.25
Certifications, each	.25

Information furnished under Sec. 1.323 shall be supplied without charge. (December 15, 1938) (48 Stat. 9; 38 U. S. C. 707)

REVISION OF REGULATIONS

EFFECTIVE DATES OF INCREASE OF DEATH PENSION OR COMPENSATION

SEC. 2.2579 *Increase on account of posthumous child.* For the purposes of all laws granting compensation or pension to widows or children of veterans of any war or of the peace-time establishments, an increased rate based on the birth of a posthumous child, shall be made effective as of the date of birth of such child upon receipt of proof of birth in conformity with the requirements of Sec. 2.1046, provided mention of the expected child is made in the application for death benefits in the claim filed by the widow or the other children. (December 15, 1938) (43 Stat. 608; 46 Stat. 1016; 48 Stat. 9; 38 U. S. C. 2, 11, 11a, 426, 707)

[SEAL] FRANK T. HINES,
Administrator.

[F. R. Doc. 38-3772; Filed, December 15, 1938; 11:59 a. m.]

REVISION OF REGULATIONS

ACCRUED AMOUNTS DUE AND UNPAID AT DEATH

SEC. 2.2660 *Accrued pension: Act of March 2, 1895.* Pension accrued under the laws relating to service prior to April 21, 1898, Special Acts, and laws reenacted by Section 30, Title III, Public No. 141, 73d Congress (Act of March 28, 1934), Public No. 269, 74th Congress (Act of August 13, 1935), and Public No. 541, 75th Congress (Act of May 24, 1938) shall be paid as provided in the Act of March 2, 1895 (28 Stat. 964). (December 15, 1938)

[SEAL] FRANK T. HINES,
Administrator.

[F. R. Doc. 38-3771; Filed, December 15, 1938; 11:59 a. m.]

REVISION OF REGULATIONS

BURIAL AND FUNERAL EXPENSES AND TRANSPORTATION OF BODIES OF VETERANS

Payment of Burial Expenses of Deceased War Veterans

SEC. 2.2692 (A) *Death prior to March 20, 1933.* Where a veteran of any war who was not dishonorably discharged died prior to March 20, 1933, under conditions which warrant the payment of or reimbursement for, burial, funeral and transportation expenses, payment or reimbursement may be made in accordance with the laws in effect prior to March 20, 1933, if claim therefor was filed within three months from June 16, 1933, the date of enactment of Public No. 78, 73d Congress.

(B) *Death on or after March 20, 1933.* Where an honorably discharged or retired veteran of any war dies after discharge, and on or after March 20, 1933, amounts shall be allowed for burial and funeral expenses and transportation of the body (including preparation of the body) to the place of burial, as follows: Where death occurred on or after March 31, 1933 and before January 19, 1934 a sum not exceeding $75; on or after January 19, 1934, a sum not exceeding $100. If death occurred on or after March 28, 1934, an honorable discharge is not essential as to a war veteran in receipt of pension or compensation.

(C) *Limitation as to time for filing and perfecting claim.*[1] No allowance may be made for direct payment of or reimbursement for burial, funeral and transportation expenses, where burial occurred on or after March 31, 1933, unless there is filed within one year subsequent to the date of permanent burial or cremation of the veteran a specific claim for the benefit by the person entitled or by some person acting for him. In the event the claimant's application is not complete at the time of original submission, the claimant and the person acting for him, if any, will be notified of the evidence necessary to complete the application and if such evidence is not received within one year from the date of the request therefor no allowance may be paid. (December 15, 1938) (48 Stat. 11, 309; 38 U. S. C. 717, 718, 722)

Definition of "Veteran of Any War"

SEC. 2.2694 (A) *Persons included.* The term "veteran of any war" for the purpose of adjudicating claims for direct payment of or reimbursement for burial, funeral and transportation expenses incurred in behalf of deceased veterans where death was on or subsequent to March 20, 1933, will include: (1) Civil War, any honorably discharged member of the active military or naval service of the United States who served during the Civil War subsequent to April 11, 1861, and prior to May 27, 1865, including those persons who served as members of State organizations participating in the Civil War for whose services the State has been reimbursed by the United States Government. Nothing herein shall be construed to exclude from the definition any person who was receiving pension as a Civil War veteran under the Civil War service pension laws or who was not entitled to pension under such Civil War pension service laws solely because of length of service or as to whom any special act of Congress has been enacted which provides that such person shall be considered as having rendered military service during the Civil War; (2) Indian Wars, any veteran of any Indian War, as formerly contemplated by the provisions of Section 201 (1) of the World War Veterans Act, 1924, as amended, and regulations, precedents, and instructions issued pursuant thereto, or a person who at time of his death was receiving a pension in accordance with the provisions of the laws governing the payment of a pension as a veteran of an Indian War; (3) Spanish-American War, any honorably discharged officer or enlisted man who was employed in the active military or naval service of the United States on or after April 21, 1898 and before August 13, 1898, including those women who served as army nurses under contract during this period and including any honorably discharged person who died on or after March 19, 1935, and who served in the military or naval service of the United States between August 13, 1898 and July 4, 1902, both dates inclusive, who left the continental United States under orders for military or naval service in Guam, Cuba, or Puerto Rico, between such dates inclusive; (4) Philippine Insurrection, any honorably discharged officer or enlisted man employed in the active military or naval service of the United States including those women who served as army nurses under contracts, who actually participated in the Philippine Insurrection on or after August 13, 1898 and before July 5, 1902, provided, however, if the person was serving in the United States military forces engaged in the hostilities in the Moro Province the ending date shall be July 15, 1903; (5) Boxer Rebellion, any honorably discharged officer or enlisted man, including those women who served as army nurses under contracts, employed in actual participation in the Boxer Rebellion on or after June 20, 1900 and before May 13, 1901; (6) World War, any honorably discharged officer, enlisted man, member of the Army Nurse Corps (female), Navy Nurse Corps (female), who was employed in the active military or naval service of the United States on or after April 6, 1917 and before November 12, 1918, provided, however, that if the person was serving in the United States military forces in Russia the ending date will be extended to April 1, 1920, (the provisions of Section 5, Public No. 304, 75th Congress, are not applicable to burial claims); (7) any enlisted man or officer of the Army, Navy, or Marine Corps in retirement status at the date of death if shown to have served honorably during the period of any war. Where death occurs on or after March 28, 1934, (except as provided in (B), below), and the other requirements of this paragraph have been met, an honorable discharge will not be required if the veteran was in receipt of pension, compensation, or

[1] 1 F. R. 1695.

emergency officers retirement pay at the time of his death.

(B) *Persons not included.* Except as provided in Sec. 2.2696 (E) a discharged or rejected draftee; a member of the national guard who reported to camp in answer to the President's call, for World War service, but who when medically examined was not finally accepted for active military service; or an alien who does not come within the purview of Sec. 2.1001 (J), is not a "veteran of any war" within the meaning of that term as defined in paragraph (A) hereof, even though such person may have been in receipt of compensation or pension. (December 15, 1938) (48 Stat. 8, 9, 11, 525; 38 U. S. C. 366, 701, 704, 717, 718)

Death Occurring While Traveling Under Prior Authorization or in a Veterans' Administration Facility [1]

SEC. 2.2696 (A) When a person while traveling under proper prior authorization and at the expense of the Veterans' Administration, either to or from a Veterans' Administration facility or regional office, for the purpose of examination, treatment or care, dies enroute, burial, funeral and transportation expenses will be provided in all respects as though death occurred in a Veterans' Administration facility. (December 15, 1938)

(B) When death occurs in a Veterans' Administration facility on or subsequent to March 20, 1933 and prior to January 19, 1934, there will be paid the actual cost (not exceed $75) of burial and funeral and the body will be transported to the place of residence or to the nearest available National Cemetery or such other place as the next of kin may direct where the expense is not greater than the ascertained cost of transportation to place of residence or to the nearest available National Cemetery. When the ascertained cost of transportation to place directed by the next of kin exceeds the amount to be allowed as provided herein, the allowable amount shall be the amount payable to the place of residence or to the nearest available National Cemetery, whichever is the greater, which amount shall be available for reimbursement of expenses or partial payment of the expenses incurred for transportation. When death occurred on or after January 19, 1934, the amount to be allowed for the cost of burial and funeral will not exceed $100. (See Sec. 8.09) (June 6, 1933)

(E) Reimbursement shall be allowed for burial, funeral and transportation expenses in the case of a discharged or rejected draftee; a member of the National Guard who reported to camp in answer to the President's call for World War service, but who, when medically examined, was not finally accepted for active military service; who dies in a Veterans Administration facility, *to which properly admitted* under the provisions of Sec. 6.6047, in the same manner as for a veteran dying in a Veterans Administration facility. See Sec. 2.2694 (B).

(1) Reimbursement shall be allowed for burial, funeral and transportation expenses in the case of a veteran honorably discharged from a period of service other than war service who dies in a Veterans Administration facility, to which properly admitted under the provisions of Sec. 6.6047, in the same manner as a veteran of a war dying in a Veterans Administration facility.

(2) Where death of a person occurs in a Veteran Administration facility and it is determined that such person was not properly entitled to hospital treatment, no reimbursement of burial, funeral and transportation expenses will be allowed. (See Sec. 8.06 and currently approved supply procedure, concerning disposition of bodies of persons not entitled to statutory burial allowance.)

(G) The term "Veterans Administration facility" shall include any hospital or institution to which proper authorization for admission has previously been granted by the Veterans Administration. (December 15, 1938.) (48 Stat. 11; 38 U. S. C. 717, 718)

SEC. 2.2698 *Evidence required in case of unclaimed bodies.* If the body of a deceased veteran is unclaimed, there being no relatives or friends of the deceased veteran located who will claim the body, the amount provided for the burial allowance will be available for burial of the deceased upon the submission of a properly completed Claim for Burial Expense, Form 530, accompanied by a comprehensive statement made by the manager or other official acting in his stead covering all relevant facts in the case and showing specifically to what extent efforts were made to locate relatives or friends. The burial allowance will not be awarded, however, in any instance where an award would result in an escheat of any part of the estate. (December 15, 1938) (48 Stat. 11; 49 Stat. 2031; 38 U. S. C. 508, 717, 718)

Assets

SEC. 2.2699 (A) Assets are not a factor for consideration in cases of veterans who died on or after June 29, 1936. (Public No. 844, 74th Congress, Act of June 29, 1936)

(B) In those cases where death occurred prior to June 29, 1936, and assets were a factor, the then existing law and regulations relating to assets will govern. (December 15, 1938)

Filing of Claim for Unauthorized Burial, Funeral and Transportation Expenses

SEC. 2.2700 (A) Claims for burial, funeral and transportation expenses must be submitted on Form 530, Claim for Burial Expenses, and should be executed by the person claiming payment. If the undertaker has not been paid, he is the proper person to assert claim; if the undertaker has been paid, the proper person to assert claim is the person whose personal funds were used to make payment. If payment was made from funds of the veteran or other deceased person's estate the executor or administrator of such estate should assert claim or if no such officer was appointed then claim should be asserted by someone acting for the estate and distribution of the burial allowance should be made to the person or persons found to be entitled under the laws governing the distribution of intestate estates in the State of the decedent's personal domicile. See currently approved adjudication procedure. In addition to Form 530, claims for burial, funeral and transportation expenses should be supported by an itemized statement of account (preferably on the billhead of the undertaker), showing the cost of each service rendered and the name of the deceased veteran. Receipts must be furnished to cover charges for cremation, grave digging, grave space, firing squads, and for items not ordinarily carried in an undertaker's stock, or for services performed by persons other than the undertaker or his regular employees where these items and services are listed on an unpaid bill supporting a claim for the burial allowance and the other allowable items or services are not sufficient to cover the amount to be awarded. However, in any case when it is shown that a *casket* and *complete* funeral services were furnished at a stipulated price for the whole service, the amount of which is such that there is no doubt but that if required to be itemized such itemization would disclose allowable services aggregating $100 or more, an itemized statement need not be required. All statements of accounts where paid must show by whom payment was made and be properly receipted in the firm name of the undertaking concern, and should show the full name and capacity of the individual receipting for the firm.

(B) *Proof of death.* Proof of the fact of death shall be established in accordance with the provisions of Sec. 2.1055.

(C) *Service record in claim for reimbursement of burial, funeral and transportation expenses.* The service record of the veteran on account of whose death claim is filed for reimbursement of burial, funeral and transportation expenses, will be established by an official report from the service department in which the veteran served or by other official Governmental records. Awards of burial allowance will not be made upon the basis of discharge certificates or copies thereof.

(D) *Waiver by distributees.* In any instance where the burial, funeral and transportation expenses of a deceased veteran have been paid from the funds of the veteran or some other deceased person's estate and the identity and right of all persons to participate have been established, the amount of the statutory burial allowance payable to heirs may be awarded to one heir upon the unconditional written consent of all other heirs. No payment will be authorized where there are no heirs and the money, if paid, would escheat. (December 15, 1938) (48 Stat. 11; 38 U. S. C. 717, 718)

[1] 3 F. R. 794 DI.

Allowable Expenses of Burial, Funeral and Transportation

SEC. 2.2702 (A) (1) For the purpose of regulations governing the payment of burial, funeral and transportation expenses, the following items and articles will be considered as allowable: Embalming (Taharah in Jewish burials), shaving, washing, and dressing, casket or coffin, or in lieu thereof materials and labor used in the constructions of casket or coffin; steel or concrete vault (if a vault is used as a shipping case and also for burial, an allowance not exceeding $25.00 may be applied thereon as part of transportation expenses in those cases where transportation charges are payable, exclusive of the $100 burial allowance as provided in Sec. 2.2696, and any balance on such vault may be included in the burial allowance of $75.00 or $100 whichever applies), box not to exceed $25.00, removal of box to cemetery, undertaker's fees for personal or professional services, chapel, hearse, limousines or other conveyances, rental vault, digging of grave including materials used in walling or lining grave, single grave space (except where burial is in a plot owned by a member of the family of the deceased) perpetual care if compulsory under deed to lot or site, grave marker or monument, lowering device, tent, grave equipment, blanket, slumber robe, veil, tahlith, burial clothing not to exceed $50.00, chairs, cremation, candles, candelabra, crucifix, crepe, door badge, necessary fee for minister, music, or other religious services not to exceed $15.00; necessary fees for watchers not to exceed $10.00 for each or a total of $20.00; necessary fees for pall bearers not to exceed $2.00 each or a total of $12.00 (fees for minister, music, watchers and pall bearers must be supported by receipts), fees for firing squads; permits and such other necessary burial and funeral expenses as are reasonable, not to exceed $75.00 or $100, whichever applies. The cost of flowers (other than door badge), flower car, obituary notices and state tax will not be allowed. In cases where transportation of remains is a proper charge against the Veterans Administration exclusive of the $100 burial allowance as provided in Sec. 2.2696, and the transportation is accomplished by means other than by common carrier, the reasonable cost of such transportation shall be allowed as may be determined by employees authorized to make findings of fact and law in burial claims.

(2) *Items allowable as part of transportation.* In adjudicating claims where death of a person occurs in a Veterans Administration facility or while traveling under prior authorization of the Veterans Administration, either to or from a Veterans Administration facility or regional office, the following items will be considered as part of transportation expense, the cost of which will be allowed in addition to the statutory allowance of $100; procuring permit for shipment, outside case for shipment, sealing outside case (tin), sealing outside case (galvanized iron), hearse to common carrier, one removal from common carrier either to home of decedent, or to the undertaking establishment or direct to the place of burial. In those cases where the remains are transported overland by means other than common carrier the items of transportation enumerated in this paragraph will not be allowed in addition to the statutory allowance and the removal charge. (See Sec. 2.2696 (C))

(B) *Payments on burial by State, lodge, society, etc.* Nothing in Sec. 2.2692 to 2.2706, shall be construed to cause the disallowance of a claim by the Veterans Administration because of any payment made on burial and funeral (including transportation) by a State, county, or other political subdivision, lodge, union, fraternal organization, society, or beneficial organization, insurance company, workmen's compensation commission, state industrial accident board, or employer, unless the amount of expenses incurred is absorbed by the amount actually paid for burial and funeral (including transportation) purposes by such agencies or organizations named: provided that no claim shall be reduced more than the difference between the entire amount of expenses incurred, and the amount paid by any or all of the foregoing agencies or organizations, provided further, that in no instance shall the amount allowed exceed $100 or $75 whichever applies.

(C) *Cost of services furnished by a Veterans' Administration facility to be deducted.* In the adjudication of claims filed under Sec. 2.2696, the cost of services (burial and funeral) furnished by a Veterans' Administration facility will be deducted from the burial allowance.

(D) *Reimbursement for cost of flags.* Subsequent to April 14, 1933, no reimbursement may be allowed for burial flags privately purchased by relatives, friends, or other parties. (December 15, 1938) (48 Stat. 11; 38 U. S. C. 717, 718)

REVISION OF REGULATIONS

HOSPITAL AND DOMICILIARY CARE

SEC. 6.6046 *Hospitalization for treatment.* (A) Hospital treatment may be provided by the Veterans' Administration for the following:

(1) Applicants entitled by previous military or naval service, in the forces of the United States, in war or in periods other than war-time, including officers or enlisted men of the regular establishment on retirement or retainer pay.

(2) Applicants on the active or retired list of the United States Navy and members of the Fleet Reserve or Marine Corps Reserve, under authority of the Act of January 19, 1929 (Public No. 675), when hospitalization is requested for them by the Navy Department.

(3) Claimants and beneficiaries of the United States Employees Compensation Commission, including employees of the Forest Service, Department of Agriculture or other civil employees assigned to duty in CCC camps.

(4) Enrollees of and officers and enlisted men attached to the Civilian Conservation Corps.

(5) Employees of the Works Progress Administration, including the National Youth Administration, injured in performance of duty.

(6) Administrative employees of the Public Works Administration. Such persons are Government employees, potentially entitled to benefits under the Federal Employees Compensation Act. But employees on Public Works Administration projects are ordinarily performing work under private contractors, and thereby are not covered by the said Compensation Act, and not entitled to treatment by the Veterans' Administration.

(7) Pensioners of nations allied with the United States in the World War, upon authorization from accredited officials of the respective Governments.

(B) Applicants comprehended by (2) to (7) inclusive of paragraph (A) hereof may be supplied hospital treatment when beds are available in facilities under direct and exclusive jurisdiction of the Veterans' Administration after the needs of applicants under (1) are fully met. For governing conditions, including per diem rates, see currently approved medical procedure.

(C) Domiciliary (barracks) care may be provided applicants under (A) (1), except retired officers and retired enlisted men of the regular establishment. Domiciliary (barracks) care will not be provided for persons comprehended by (A) (2) to (7) inclusive.

(D) Retired emergency officers have potential entitlement under (A) (1) to hospital treatment at no per diem charge. (December 15, 1938) (45 Stat. 1090; 24 U. S. C. 31; 39 Stat. 742; 5 U. S. C. 751; 48 Stat. 22; 16 U. S. C. 585; 49 Stat. 117; 43. Stat. 621; 38 U. S. C. 488)

SEC. 6.6047 *Eligibility of ex-members of the military or naval forces for hospital or domiciliary care.*[1] Within the limits of Veterans' Administration facilities, hospital or domiciliary care may be furnished the following applicants, in the specified order of preference:

(B) Hospital treatment for: (1) Persons honorably discharged from the United States Army, Navy, Marine Corps or Coast Guard for disability incurred in line of duty, or who are in receipt of

[1] 1 F. R. 426.

pension for service-connected disability, when suffering from injuries or diseases incurred or aggravated in line of duty in the active service, and for which they are in need of hospital treatment. Cadets and midshipmen discharged from the acadamies at West Point or Annapolis who meet these requirements as to character of discharge or pension are eligible under this subparagraph, regardless of the requirement as to active military or naval service.

(2) For applicants not in receipt of pension for service-connected disability, the official records of the Army or Navy, respectively, relative to findings of line of duty for its purposes, will be accepted in determining eligibility for hospital treatment under this, subparagraph (B); except that where the official records of the Army or Navy show a finding of disability not incurred in line of duty and evidence is submitted to the Veterans' Administration which permits of a different finding, the decision of the Army or Navy will not be binding upon the Veterans' Administration, which will be free to make its own determination of line of duty incurrence upon the evidence so submitted. It will be incumbent upon the applicant to present such controverting evidence and, until he so acts and a determination favorable to him is made by the Veterans' Administration, the finding of the Army or Navy will control and hospitalization will not be authorized. Such controverting evidence, when received from an applicant, will be referred to the adjudicating agency which would have jurisdiction if the applicant were filing claim for pension or disability compensation, and the determination of such agency as to line of duty, which is promptly to be communicated to the manager of the facility receiving the application for hospitalization, will govern his disapproval or approval of admission, other eligibility requirements having been met. Where the official records of the Army or Navy show that the disability on account of which a veteran was discharged from his peace-time service was incurred in line of duty, such showing will be accepted for the purpose of determining his eligibility for hospitalization notwithstanding the fact that the Veterans' Administration has made a determination in connection with a claim for monetary benefits that the disability was incurred not in line of duty. See also Public No. 648, 75th Congress, defining line of duty, whether on active duty or authorized leave, relative to applicants whose only military or naval service was in a period other than war-time.

If the applicant's only service was in a period other than war-time, and his last discharge was not honorable, hospital treatment will be furnished only for a disease or injury incurred in line of duty in a period of service for which he was honorably discharged for disability incurred in line of duty.

(3) When the applicant is in receipt of a pension for a service-connected disability, inquiry will not be made as to the character of discharge from service. The same waiver as to character of discharge will be applicable to paragraph (D), following.

(4) In those exceptional cases where the official records of the Army or Navy show honorable discharge because of expiration of period of enlistment or any other reason save disability, but also show a disability incurred in line of duty during the said enlistment; and the disability so recorded is considered in medical judgment to be or to have been of such character, duration, and degree as to have justified a discharge for disability had the period of enlistment not expired or other reason for discharge been given, the medical director, upon consideration of a clear, full statement of the circumstances submitted to him, is authorized to approve admission of the applicant for hospital treatment, provided other eligibility requirements are met. A typical case of this kind would be one where the applicant was under treatment for the said disability recorded during his service at the time discharge was given for reason other than disability. (December 15, 1938)

(E) Hospital or domiciliary care for: Veterans who served, regardless of length of service, during a period of war as defined in paragraphs I and IV of Sec. 8.10, as amended, or in any war prior to the Spanish-American War; (1) who were not dishonorably discharged from their last period of war service; (2) who swear that they are unable to defray the expenses of hospitalization or domiciliary care, including the expense of transportation to and from a Veterans Administration facility; (3) and who are suffering from a disability, disease or defect which, being susceptible of cure or decided improvement, indicates need for hospital care, or which, being essentially chronic in type and not susceptible of cure, or decided improvement by hospital care, is producing disablement of such degree and of such probable persistency as will incapacitate from earning a living for a prospective period, and thereby indicates need for domiciliary care. The provisions of section 5, Public No. 304, 75th Congress, that "re-enlistment after November 12, 1918, and before July 2, 1921, where there was prior service between April 6, 1917, and November 11, 1918, shall be considered as World War service," etc., will have no application to Sec. 6.6047.

(F) Hospital treatment (only in facilities under direct and exclusive jurisdiction of the Veterans Administration) for: (1) Retired officers and enlisted men of the United States Army, Navy, Marine Corps or Coast Guard (regular establishment) who served in a period of war as defined in paragraphs I and IV of Sec. 8.10, as amended, or in any war prior to the Spanish-American War; and who are suffering from a disease or injury for which hospital treatment is needed. (December 15, 1938) (48 Stat. 9, 285, 525; 49 Stat. 729, 730; 38 U. S. C. 612, 621, 622, 662, 706, 707, 730 and 36 U. S. C. 122)

Sec. 6.6048, paragraph (3) canceled December 15, 1938.

Sec. 6.6049 canceled December 15, 1938.

SEC. 6.6050 *Utilization of facilities other than those under direct and exclusive jurisdiction of the Veterans' Administration.*[3] For the purposes of Sec. 8.10, paragraph XIX, defining "Veterans' Administration facilities", the following provisions will govern in authorizing admissions to facilities other than those under the direct and exclusive jurisdiction of the Veterans' Administration:

(B) *Private facilities* will not be used for hospitalization of beneficiaries except when facilities under direct and exclusive jurisdiction of the Veterans' Administration or other Government facilities are not feasibly available, or when the physical or mental condition of beneficiaries will not allow of their transfer from a private institution to a Government facility. Except for treatment of a medical emergency arising from a service-connected disorder, hospitalization of a *male* beneficiary will not be authorized in any private, municipal or State institution, whether under contract or not under contract. In such medically emergent cases, authorization for admission to such private, municipal or State hospital will be given subject to the conditions stipulated in (1) following; and when so given will be authority for the payment of vouchers covering the cost of such hospitalization:

(1) The chief medical officer or his designate, of the regional office or facility with regional office activities having jurisdiction of the territory in which the private, municipal or State hospital, contract or non-contract, is located, when informed of the medical emergency in time to authorize the admission, or when requested to issue an authorization to cover such admission after the patient has entered such hospital, will at once put the superintendent thereof on notice as follows: That all services or supplies furnished the beneficiary must be charged and may be paid for only at rates in accordance with the schedule of fees for medical treatment, Veterans' Administration, if the hospital concerned is not under contract, and at rates in accordance with the terms of the contract, if the hospital concerned is one under contract; that all items in the voucher covering such services or supplies will be subject to determination, by the chief medical officer or his designate, as to reasonable necessity therefor; and that, in conformity with the principles applying to utilization of facilities other than those under direct and exclusive jurisdiction of the Veterans' Administration, payment cannot be made for any such services or supplies that had been furnished prior to the date that such hospitalization had been authorized by the Veterans' Administration. (See also Sec. 6.6140 to 6.6148 inclusive) (December 15, 1938)

(J) An applicant whose entitlement to hospital treatment or observation has been established, either for a condition service-connected or not service-connected, whose admission to a Government facility has been approved, who has been supplied transportation, but who, while enroute to or from the designated facility, develops an unforeseen and unavoidable medical emergency requiring admission to a private hospital or treatment by a private physician, will be entitled to reimbursement for necessary extra transportation, services and supplies furnished in such circumstances, at rates in accordance with the schedule of fees for medical treatment, Veterans Administration. (December 15, 1938) (48 Stat. 9, 285, 525; 49 Stat. 729, 730; 38 U. S. C. 612, 621, 622, 662, 706, 707, 730 and 36 U. S. C. 122)

TITLE 43—PUBLIC LANDS

OFFICE OF SECRETARY OF INTERIOR, DIVISION OF GRAZING

ARIZONA GRAZING DISTRICT NO. 4

MODIFICATION

DECEMBER 9, 1938.

Under and pursuant to the provisions of the act of June 28, 1934 (48 Stat. 1269); as amended by the act of June 26, 1936 (49 Stat. 1976), and subject to the limitations and conditions therein contained, the Departmental order of February 14, 1936, establishing Arizona Grazing District No. 4, is hereby modified to include within its exterior boundaries the following-described land:

ARIZONA

Gila and Salt River Meridian

T. 14 S., R. 27 E., all.

The Federal Range Code, revised to August 31, 1938, shall be effective as to the lands embraced within this addition from and after the date of the publication of this order in the FEDERAL REGISTER.

HARRY SLATTERY,
Acting Secretary of the Interior.

[F. R. Doc. 38-3761; Filed, December 15, 1938; 10:01 a. m.]

OREGON GRAZING DISTRICT NO. 5

MODIFICATION

NOVEMBER 19, 1938.

Under and pursuant to the provisions of the act of June 28, 1934 (48 Stat. 1269), as amended by the act of June 26, 1936 (49 Stat. 1976), the Departmental order of October 21, 1935, establishing Oregon Grazing District No. 5, is hereby revoked as far as it affects the following-described lands, such revocation to be effective upon the inclusion of the lands within the Deschutes National Forest:

OREGON

Willamette Meridian

T. 14 S., R. 10 E.,
secs. 1 to 24 and 28 to 34 inclusive;
T. 15 S., R. 10 E.,
secs. 3 to 10, 15 to 23, and 26 to 35 inclusive;
T. 16 S., R. 10 E.,
all;
T. 17 S., R. 10 E.,
secs. 1 to 6 and 8 to 15 inclusive, E½ sec. 16, secs. 22 to 26 inclusive, secs. 35 and 36;
T. 18 S., R. 10 E.,
secs. 1, 2, 3, 10 to 14 inclusive, 24, 25, and 36;
T. 16 S., R. 11 E.,
W½ secs. 30 and 31;
T. 17 S., R. 11 E.,
S½ sec. 4, NW¼, S½ sec. 5, secs. 6 to 9 inclusive, W½, W½SE¼ sec. 15, secs. 16 to 21 inclusive, W½E½, W½ sec. 22, secs. 27 to 34 inclusive;
T. 18 S., R. 11 E.,
secs. 3 to 10 inclusive, W½E½, W½ sec. 11, secs. 14 to 23 and 26 to 35 inclusive.

HARRY SLATTERY,
Acting Secretary of the Interior.

GENERAL LAND OFFICE

UTE INDIAN LANDS, COLORADO

ORDER OF REVOCATION

DECEMBER 8, 1938.

Section 6 of the act of June 28, 1938, Pub. No. 754, 75th Congress, 3rd Session, provides in part,

• • • anything in any other Acts of Congress to the contrary notwithstanding, no lands in Colorado north of and including range [township] 35 formerly owned or claimed by the Ute Indians or any band thereof shall be restored to tribal ownership under the provisions of section 3 of the Act of June 18, 1934 (48 Stat. 984), and said lands to the extent that they have not been disposed of by the United States are hereby declared to be the absolute property of the United States:

The second proviso of section 6, *supra*, provides:

That any orders restoring or attempting to restore to tribal ownership any portion of the lands in Colorado north of range [township] 35 are hereby rescinded and annulled.

Departmental order of restoration to tribal ownership, Confederated Bands of the Ute Tribe of Indians, Colorado, dated November 13, 1937,[1] involved approximately 8,500 acres of land, said to be primarily valuable for minerals. These lands are situated within the exterior boundaries of the area specifically declared by section 6 of the act of 1938 to be the absolute property of the United States. Obviously, therefore, the second proviso of section 6 rescinded and annulled the order of November 13, 1937, and thereby declared the lands therein described to be the absolute property of the United States.

Accordingly, so much of the Departmental order of September 19, 1934, 54 I. D. 559, as temporarily withdrew any of the lands made the subject of the above-quoted provisions of the act of 1938, or any mineral deposits within the exterior boundaries of the areas made the subject of the above-quoted provisions of that act, is hereby revoked, this revocation to become effective January 31, 1939, at 9:00 a. m., when all lands and mineral deposits released by this order from the temporary withdrawal of September 19, 1934, will become subject to such use and disposition as is provided by the laws applicable thereto. In this connection, reference is made to Executive Order No. 6910 of November 26, 1934, as amended; the act of June 28, 1934, 48 Stat. 1269, as amended by the act of June 26, 1936, 49 Stat. 1976, commonly called the Taylor Grazing Act, under which grazing act the land thus released will not be susceptible to entry through the homestead or any of the non-mineral land laws until classified as suitable for, and made subject to, such entry.

Applications may be filed prior to January 31, 1939, and any applications received before that date, together with those filed at 9:00 a. m. on January 31, 1939, will be treated as simultaneously filed, and the successful applicant determined by a public drawing in the manner provided under paragraph 4 of the instructions of May 22, 1914, 43 L. D. 254.

All applications received after 9:00 a. m. on January 31, 1939, will be disposed of in the order of their filing.

Applications for lands north of the township line between Townships 41 and 42 North, N. M. P. M., should be filed in the district land office at Denver, and those for lands south of that line, in the district land office at Pueblo, Colorado.

The first proviso of section 6, *supra*, provides:

"That there is hereby added to the existing Southern Ute Indian Reservation in tribal ownership . . . the vacant, undisposed of ceded lands within the following described boundaries: . . .

The description is that contained in Departmental Order of July 17, 1937. These lands are unaffected by this order of revocation.

HAROLD L. ICKES,
Secretary of the Interior.

Notices

FEDERAL POWER COMMISSION.

[Docket No. DI-145]

IN THE MATTER OF COPPER DISTRICT POWER COMPANY

ORDER POSTPONING HEARING

DECEMBER 13, 1938.

Commissioners: Clyde L. Seavey, Acting Chairman; Claude L. Draper, Basil Manly, John W. Scott.

It appearing to the Commission that:

Copper District Power Company has requested postponement of the public hearing in the above cause now assigned to be held on December 19, 1938, in accordance with the order of the Commission adopted on November 29, 1938;[1] and, for good reason shown;

The Commission orders that:

The public hearing in the above cause now set for December 19, 1938, be and the same is hereby postponed to January 6, 1939, at the same time and place.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

INTERSTATE COMMERCE COMMISSION.

[Ex Parte No. MC 3]

ORDER IN THE MATTER OF ESTABLISHING REASONABLE REQUIREMENTS TO PROMOTE SAFETY OF OPERATION OF MOTOR VEHICLES USED IN TRANSPORTING PROPERTY BY PRIVATE CARRIERS

HEARING POSTPONED

At a session of the Interstate Commerce Commission, Division 5, held at its office in Washington, D. C., on the 8th day of December, A. D. 1938.

It appearing, That by order dated October 31, 1938,[2] the above-entitled proceeding was set for hearing before Examiner R. W. Snow, at the times and places set forth in said order;

It further appearing, That the National Council of Private Motor Truck Owners has filed a petition requesting that the hearings in the above-entitled case be postponed; and good cause therefor appearing:

It is ordered, That that part of said order of October 31st which fixes the times and places of hearings be, and it is hereby, vacated, and that this proceeding be, and it is hereby, set for hearing before the Examiner at the following times and places:

February 20, 1939, 10 A. M. S. T. at the offices of the Interstate Commerce Commission, in Washington, D. C.

February 23, 1939, 10 A. M. S. T. at the Hotel New Yorker, New York, N. Y.

February 27, 1939, 10 A. M. S. T. at the Hotel Sherman, Chicago, Ill.

March 2, 1939, 10 A. M. S. T. at the Hotel Nicollet, Minneapolis, Minn.

March 6, 1939, 10 A. M. S. T. at the Hotel Spokane, Spokane, Wash.

March 8, 1939, 10 A. M. S. T. at the Hotel Multnomah, Portland, Ore.

March 13, 1939, 10 A. M. S. T. at the offices of the California Railroad Commission, Los Angeles, Calif.

March 17, 1939, 10 A. M. S. T. at the Hotel Fontenelle, Omaha, Nebr.

March 20, 1939, 10 A. M. S. T. at the Hotel Peabody, Memphis, Tenn.

By the Commission, division 5.

SECURITIES AND EXCHANGE COMMISSION.

United States of America—Before the Securities and Exchange Commission

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 15th day of December, A. D. 1938.

[File No. 32-126]

IN THE MATTER OF ALABAMA POWER COMPANY

NOTICE OF AND ORDER FOR HEARING

Application pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935, having been duly filed with this Commission by the above-named party;

It is ordered, That a hearing on such matter be held on January 6, 1939, at 10:00 o'clock in the forenoon of that day, at the Securities and Exchange Building, 1778 Pennsylvania Avenue, NW., Washington, D. C. On such day the hearing-room clerk in room 1102 will advise as to the room where such hearing will be held. At such hearing, if in respect of any declaration, cause shall be shown why such declaration shall become effective.

It is further ordered, That Robert P. Reeder or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice to continue or postpone said hearing from time to time.

Notice of such hearing is hereby given to such declarant or applicant and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before January 3, 1939.

The matter concerned herewith is in regard to an application by Alabama Power Company, a subsidiary of The Commonwealth & Southern Corporation, a registered holding company, for the exemption from the provisions of Section 6 (a) of the Act of the issue and sale of $1,500,000 principal amount of 2.73% Collateral Notes and $2,000,000 principal amount of First and Refunding Mortgage Bonds, 4½% Series, due 1967. Each note is to be secured by collateral consisting of the applicant's aforesaid bonds. The applicant proposes to issue its notes to the United States of America and to deliver the same to the Rural Electrification Administration for the purpose of obtaining funds to be used to finance the construction of electric lines or systems and facilities in rural areas in the State of Alabama. Each of the Collateral Notes is to be dated as of the approximate date the advance represented thereby is made, and is to mature in semiannual installments over a period of twenty years from date.

By the Commission.

AGRICULTURAL ADJUSTMENT ADMINISTRATION

[ACP-1939, Supplement No. 1]

PART 701—1939 AGRICULTURAL CONSERVATION PROGRAM BULLETIN

Pursuant to the authority vested in the Secretary of Agriculture under Sections 7 to 17 of the Soil Conservation and Domestic Allotment Act, as amended, the 1939 Agricultural Conservation Program Bulletin, as approved November 10, 1938, is hereby amended as follows:

Paragraph (b) of Section 701.3[1] is amended by the addition of the following:

(1) The national and State restoration land goals, as established by the Secretary, are as follows:*

	Acres
Colorado	1,050,000
Kansas	925,000
Montana	825,000
Nebraska	400,000
New Mexico	200,000
North Dakota	825,000
Oklahoma	275,000
South Dakota	825,000
Texas	550,000
Wyoming	125,000
Total	6,000,000

Done at Washington, D. C., this 14th day of December, 1938. Witness my hand and the seal of the Department of Agriculture.

TITLE 46—SHIPPING

UNITED STATES MARITIME COMMISSION

[General Order No. 15, Supp. 7a]

MINIMUM MANNING SCALES FOR THE S. S. ROBIN ADAIR, S. S. ROBIN GOODFELLOW, S. S. ROBIN GRAY, AND S. S. ROBIN HOOD, SUBSIDIZED VESSELS OF THE SEAS SHIPPING CO., INC.

At a regular session of the United States Maritime Commission held at its offices in Washington, D. C., on the 25th day of August, 1938.

The Commission having adopted, pursuant to Section 301 (a) of the Merchant Marine Act, 1936, General Order No. 15[1] providing for minimum wage scales, minimum manning scales, and reasonable working conditions for all subsidized vessels, and now desiring to complete the minimum manning scales for the S. S. *Robin Adair*, S. S. *Robin Goodfellow*, S. S. *Robin Gray*, and S. S. *Robin Hood*, subsidized vessels of the Seas Shipping Co., Inc. (referred to herein as Operator); and

The Commission finding that the minimum scales hereinafter adopted for the above named subsidized vessels of the Operator are reasonable, proper and lawful, such finding being based upon investigations referred to in General Order No. 15 and investigations of the Commission made thereafter; it is, therefore

Ordered, That the minimum manning scales attached hereto for the S. S. *Robin Adair*, S. S. *Robin Goodfellow*, S. S. *Robin Gray*, and S. S. *Robin Hood*, subsidized vessels of the Operator, be and the same hereby are adopted: *Provided*, that under extraordinary circumstances such as casualty or desertion, where it is impossible to procure sufficient officers or unlicensed seamen of any required grade or rating to permit the sailing of either of said vessels without undue delay, the said scales shall be inoperative to the extent required by such emergency, and the Operator shall forthwith report to the Commission any departure from said scales, stating in such report the extent of the departure and showing to the satisfaction of the Commission that suffi-

FEDERAL REGISTER

Published by the Division of the Federal Register, The National Archives, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. L. 500), under regulations prescribed by the Administrative Committee, with the approval of the President.

The Administrative Committee consists of the Archivist or Acting Archivist, an officer of the Department of Justice designated by the Attorney General, and the Public Printer or Acting Public Printer.

The daily issue of the FEDERAL REGISTER will be furnished by mail to subscribers free of postage, for $1 per month or $10 per year; single copies 10 cents each; payable in advance. Remit by money order payable to Superintendent of Documents, Government Printing Office, Washington, D. C.

Correspondence concerning the publication of the FEDERAL REGISTER should be addressed to the Director, Division of the Federal Register, The National Archives, Washington, D. C.

cient reasons for such departure existed; and it is further

Ordered, That the minimum manning scales hereby adopted shall not relieve said Operator from complying with the manning requirements of the Bureau of Marine Inspection and Navigation and shall be without prejudice to the carrying of seamen in addition to those required hereby; and it is further

Ordered, That the minimum manning scales hereby adopted shall become effective for each of said vessels upon the first signing after September 15, 1938, of shipping articles for a subsidized voyage of said vessel, unless otherwise specified in the scales, and that the Operator be immediately served by registered mail with a copy of this Order and of the minimum manning scales hereby adopted.

By order of United States Maritime Commission.

W. C. PEET, JR.,
Secretary.

MINIMUM MANNING SCALE TO BE OBSERVED ON THE VESSELS ROBIN ADAIR, ROBIN GOODFELLOW, ROBIN GRAY AND ROBIN HOOD OF THE SEAS SHIPPING CO., INC.

130. Definitions
131. General Rules Governng Miscellaneous Services
132. Geological Stations
133. Special Press Service
134. Intermittent Service

PART 130. DEFINITIONS

GEOPHYSICAL SERVICE

Sec.
130.01 Geophysical service.
130.02 Geological station

SPECIAL PRESS SERVICE

130.20 Special Press Service
130.21 Mobile press station
130.22 Relay press station

INTERMITTENT SERVICE

130.30 Intermittent service
130.31 Motion picture station
130.32 Provisional station

Geophysical Service

SEC. 130.01 *Geophysical Service.*[1] The term "geophysical service" means a service conducted by stations used in connection with investigations of the physical properties of the earth and its surrounding atmosphere.* #

SEC. 130.02 *Geological station.* The term "geological station" means a station used primarily in the investigation of the surface of the earth and the physical characteristics of the strata below the surface of the earth.* #

Special Press Service

SEC. 130.20 *Special Press service.* The term "special press service" means a limited radio communication service for the transmission of news items or other related material to or from fixed and mobile stations.* #

SEC. 130.21 *Mobile press station.* The term "mobile press station" means a station open to public correspondence operating in the special press service for radiotelegraph communication between maritime mobile stations and land stations or with stations of scientific expeditions away from the United States.* #

SEC. 130.22 *Relay press station.* The term "relay press station" means a station licensed to transmit to or from points where other communication facilities are not available, news for publication, or orders, instructions, or inquiries concerning such news to be published by the licensee and other publishers of the same news, or to be disseminated by the news association with which the licensee is regularly affiliated.* #

Intermittent Service

SEC. 130.30 *Intermittent service.* The term "intermittent service" means a radiocommunication service that requires the use of radio for limited periods of time or at irregular intervals of time at locations where other facilities are not available or the use of other facilities is impracticable.* #

SEC. 130.31 *Motion picture station.* The term "motion picture station" means a station operating in the intermittent service for communication in connection with the filming of motion pictures.* #

SEC. 130.32 *Provisional station.* A "provisional station" means a station operating in the intermittent service for a limited period under restriction limiting the use of the radio facilities to situations involvng safety or where radiocommunication is of practical necessity in connection with projects affecting public welfare.* #

[1] The functions of stations in the geophysical service, other than geological, are in most instances, carried on by agencies of the Federal Government. The Commission has allocated no frequencies to these classes of stations nor have regulations been promulgated governing their operation. Authorizations for the type of service involved are issued under the rules governing experimental stations and contain appropriate limitations and privileges. The various classes of stations in the geophysical service, other than geological, are: *"ionosphere stations"*, operated primarily for the purpose of measuring and recording the characteristics of the ionized layers of the upper atmosphere; *"meteorological stations"*, engaged primarily in scientific studies of the atmosphere; *"radio sounding stations"*, meteorological stations sent aloft for the purpose of obtaining information regarding atmospheric conditions; *"hydrological stations"*, operated primarily for the purpose of measuring, recording, and studying the flow of water; *"oceanography stations"*, engaged primarily in studies of the ocean, the ocean shores, and the ocean bed, exclusive of surveying; *"geodesy stations"*, engaged primarily in determinations of the shape of the earth and its surface including surveying; *"seismology stations"*, engaged primarily in studies of earthquake phenomena; and *"volcanology stations"*, engaged primarily in studies of physics and phenomena of volcanoes.

*Promulgated under the authority contained in Sec. 4 (1), 48 Stat. 1066; 47 U. S. C. 154 (1)—Sec. 303 (f), 48 Stat. 1082; 47 U. S. C. 303 (f).

#Adopted by the F. C. C. on Dec. 12, 1938 to become effective Jan. 1, 1939.

PART 131. GENERAL RULES GOVERNING MISCELLANEOUS SERVICES

APPLICATIONS

Sec.
131.01 Individual and blanket applications
131.02 Special temporary authority

LICENSES

131.10 Term
131.11 Posting Fixed station licenses
131.12 Posting mobile or portable station licenses
131.13 Operator license
131.14 Logs
131.15 Inspection by Commission's representative

FREQUENCY TOLERANCE

131.20 Tolerance

FREQUENCY MEASUREMENT

131.30 Measurement procedure

TESTS

131.40 Equipment and service tests
131.41 Routine tests

NON-EXCLUSIVE USE OF FREQUENCIES

131.50 Non-exclusive frequencies; coordination

Applications

SEC. 131.01 *Individual and blanket applications.* Individual applications for instruments of authorization shall be submitted for each station to be located at a fixed location. Blanket applications for authorizations for identical mobile or portable-mobile radio stations submitted by a single applicant to cover equipment to be used in a single coordinated communication system will be accepted. A blanket application may be submitted by a single applicant for a license or modification of license, covering both the fixed transmitter and mobile or portable mobile transmitters used in a single coordinated communication system.* #

SEC. 131.02 *Special temporary authority.* A request for special temporary authority to operate on frequencies not allocated to stations in the miscellaneous service or to operate equipment of another class of station, must be received by the Commission not less than ten days prior to the actual operation thereof, and shall contain complete information concerning the frequencies requested, the license of the station to be used, and evidence that no interference will be caused by the proposed operation. In case of emergencies, which shall be fully explained in the request, the Commission may waive the ten-day requirement specified herein.* #

Licenses

SEC. 131.10 *Term.* The license term for stations in the miscellaneous service, other than provisional stations, (See Sec. 134.10), shall be for a period of one year. The date of expiration of license for stations in the miscellaneous service, unless otherwise specified, shall be the first day of October of each year.* #

SEC. 131.11 *Posting fixed station licenses.* The station licenses of stations in the miscellaneous service operated at fixed locations shall be conspicuously posted at the place where the control operator is located.* #

SEC. 131.12 *Posting mobile or portable station licenses.* The licenses of portable and portable-mobile stations shall be readily available for inspection by authorized Government representatives. Either the original authorization or a photocopy of that document shall be available at the portable or portable-mobile station involved.* #

SEC. 131.13 *Operator license.* The original license of each station operator shall be conspicuously posted at the place he is on duty, or, in the case of portable or mobile units, be kept in his personal possession.* #

SEC. 131.14 *Logs.* Each licensee shall maintain adequate records of the operation of the station including (a) hours of operation; (b) nature and time of each transmission; (c) name of operator on duty at the transmitter. In the cases of groups of stations, either fixed or fixed and mobile, operating as a single coordinated communication system controlled from a single point, a single log may be maintained at a central location, provided that such log records the required information with respect to all stations in the system.* #

SEC. 131.15 *Inspection by Commission's representative.* All stations in the miscellaneous service shall be made available for inspection upon request of a representative of the Commission; if any such station is actually engaged in communications which should not be interrupted, this station shall be made available for inspection immediately after conclusion of such communications.* #

Frequency Tolerance

SEC. 131.20 *Tolerance.* The equipment of stations licensed in the miscellaneous service must be capable of maintaining the assigned frequency within the tolerance set out below:

	Equipment authorized before Jan. 1, 1939	*Equipment authorized after Jan. 1, 1939*
Fixed stations on frequencies below 6000 kc.	0.03%	0.01%
Land stations on frequencies below 6000 kc.	.04	.02
Mobile stations on frequencies below 6000 kc.	.04	.02
Fixed and land stations on frequencies above 30000 kc	.05	.02
Portable and mobile stations on frequencies above 30000 kc	.05	.03
Portable and mobile stations of 1 watt or less power on frequencies above 30000 kc	.1	* #.1

Frequency Measurement

SEC. 131.30 *Measurement procedure.* The licensee of each station shall provide for measurement of the station frequency and established procedure for checking it as regularly as good engineering practice may require. These measurements of station frequency shall be made by means independent of the frequency control of the transmitter and shall be of such accuracy that the limit of error is within the frequency tolerance allowed the station.* #

Tests

SEC. 131.40 *Equipment and service tests.* Equipment and service tests as authorized in the rules and regulations may be conducted provided that the necessary precautions are taken to avoid interference.[1] * #

SEC. 131.41 *Routine tests.* The licensee of stations of this class are authorized to make such routine tests as may be required for the proper maintenance of the station provided that precautions are taken to avoid interference to other stations.* #

Non-Exclusive Use of Frequencies

SEC. 131.50 *Non-exclusive frequencies; coordination.* No frequency available to a station in any of the miscellaneous radio services will be assigned exclusively to any station or applicant. All licensees in each class of miscellaneous service are required to coordinate operation with other licensees in the same class so as to avoid interference and make the most effective use of the frequency or frequencies assigned.* #

PART 132. GEOLOGICAL STATIONS

Sec.
132.01 Service which may be rendered
132.02 Power
132.03 Frequencies

SEC. 132.01 *Service which may be rendered.* Geological stations may be used under specific circumstances where the use of radio is necessary in accomplishing the object of the geological operation.* #

SEC. 132.02 *Power.* A power exceeding 10 watts will not be authorized for

[1] See Sections 22.03 and 22.04.

geological stations, except in cases where the applicant makes a satisfactory showing that due to exceptional atmospheric conditions or other technical reasons 10 watts power is insufficient to accomplish the object of the geological operation in which case power not exceeding 50 watts may be authorized.*#

SEC. 132.03 *Frequencies.* The following frequencies are allocated for use by geological stations and are available for type A1, A2 and A3 emission:

1602 kilocycles. 30620 kilocycles.
1628 kilocycles. 31060 kilocycles.
1652 kilocycles. 33540 kilocycles.
1676 kilocycles. 35540 kilocycles.
1700 kilocycles.*#

PART 133. SPECIAL PRESS SERVICE

MOBILE PRESS STATIONS

Sec.
133.01 Frequencies

RELAY PRESS STATIONS (PORTABLE, MOBILE AND PORTABLE-MOBILE)

133.20 Eligibility for license
133.21 Special temporary authority
133.22 Frequencies
133.23 Availability of frequencies

Mobile Press Stations

SEC. 133.01 *Frequencies.* The following frequencies are allocated for use by mobile press stations and are available for Type A1 and A2 emission:

a. Stations east of the Mississippi River:

4705 8360 16750
6450 11355 22250

b. Stations west of the Mississippi River:

6440 11340 22225
8350 16700*#

Relay Press Stations (portable, mobile and portable-mobile)

SEC. 133.20 *Eligibility for license.* A license for a relay press station will be issued only to newspapers and press associations; *provided*, however, that in cases where it is impractical, impossible, or prohibited by laws or regulations for the newspaper or press association to install, operate or maintain the necessary equipment under its legal control, the Commission may grant special temporary authority for the purpose of covering a single specific event to other persons to operate as a relay press station equipment already licensed for another service, or equipment which may be installed without construction permit.*#

SEC. 133.21 *Special temporary authority.* Each request from a person other than a publisher of a newspaper or a press association, for temporary authority to operate a relay press station shall be accompanied by a supporting request from the publisher or press association for whom the news is to be collected.*#

SEC. 133.22 *Frequencies.* The following groups of frequencies are allocated for assignment to relay press stations and are available for type A1, A2 and A3 emissions:

Group A. For portable-mobile equipment and portable equipment of less than 1 watt power:

30860 kilocycles. 33260 kilocycles.
33980 kilocycles. 35180 kilocycles.
37420 kilocycles.

Group B. For low power portable equipment with maximum power of 50 watts:

31980 kilocycles. 33020 kilocycles.
33580 kilocycles. 35960 kilocycles.
39020 kilocycles. 39980 kilocycles.*#

SEC. 133.23 *Availability of frequencies.* Subject to the restrictions set forth in Section 133.22 any or all of the frequencies available for relay press stations may be authorized to any licensee.*#

Motion Picture Stations

SEC. 134.01 *Notification of use.* Motion picture station licenses will permit the use of the transmitter only after notification to the Commission and the Inspector-in-Charge of the district in which operation is to be conducted. The notification of intention to use must include the following:

1. A statement as to the period of use desired.
2. The exact points between which communication is desired.
3. A statement that no other means of communication is available or evidence that the use of other means of communication is impracticable.*#

SEC. 134.02 *Restrictions on use.* Upon receipt of notification of intention to use a motion picture station the Commission may, without notice or hearing, prohibit or terminate its use, or indicate special limitations under which operation may be conducted.*#

SEC. 134.03 *Frequencies.* The frequencies allocated for use by motion picture stations and available for type A1, A2 and A3 emission, with a maximum power of 250 watts, are as follows:

1652 kilocycles. 33540 kilocycles.
30620 kilocycles. 35540 kilocycles.
31060 kilocycles.*#

Provisional Stations

SEC. 134.10 *Authorizations.* Instruments of authorization for provisional stations when issued will be made upon a temporary basis for a specific period of time not to exceed one year under appropriate restrictions and subject to the condition that the authority granted may be revoked at any time without advance notice or hearing. In addition to other requirements of law and regulation, applications for renewal of such authority shall show that the use of the facilities is not intended as a permanent service.*#

SEC. 134.11 *Frequencies.* The following frequencies are allocated for use by provisional stations and are available for type A1, A2 and A3 emission, with a maximum power of 50 watts:

31020 kilocycles. 35460 kilocycles.
31180 kilocycles. 37140 kilocycles.
31540 kilocycles. 39140 kilocycles.
33460 kilocycles. 39540 kilocycles.
33620 kilocycles.*#

[Docket No. 496-FD]

ORDER IN THE MATTER OF THE APPLICATION OF WHAT CHEER CLAY PRODUCTS COMPANY FOR EXEMPTION FROM THE PROVISIONS OF THE BITUMINOUS COAL ACT OF 1937

At a session of the National Bituminous Coal Commission held in its offices in Washington, D. C., on the 14th day of December, 1938.

It appearing, that pursuant to the provisions of an Act of Congress approved April 26, 1937, entitled "An Act to regulate interstate commerce in bituminous coal and for other purposes" (Public No. 48, 75th Cong., 1st sess.), known as the Bituminous Coal Act of 1937, applicant, What Cheer Clay Products Company, on the 18th day of August, 1938, filed with the Commission its application for exemption seeking to avail itself of the provisions of Section 4, Part II (1) of the Bituminous Coal Act of 1937 in so far as the same relates to the bituminous coal alleged to be produced and consumed by it, or produced and transported to itself for consumption by it, and its clay products plant located at What Cheer, Iowa, which application was filed by virtue of the provisions contained in the second paragraph of Section 4-A of the Act; and

It further appearing, after considering the allegations made in the verified application of What Cheer Clay Products Company, that applicant is a member of the Bituminous Coal Code; that applicant is a corporation duly organized and existing under and by virtue of the laws of the State of Maine; that applicant is the owner and producer of bituminous coal from a mine located about one mile south of What Cheer, Keokuk County, Iowa; and that all the bituminous coal now produced at such mine is consumed by applicant in its clay products plant located at What Cheer, Iowa;

Now, therefore, it is hereby ordered:

That the provisions of Section 4, Part II (1) of the Bituminous Coal Act of 1937 do apply to so much of the bituminous coal produced by What Cheer Clay Products Company at its mine located about one mile south of What Cheer, Keokuk County, Iowa, as is consumed by What Cheer Clay Products Company in its clay products plant at What Cheer, Iowa, and such coal shall not be deemed subject to the provisions of Section 4 of the Bituminous Coal Act of 1937.

Within fifteen (15) days from the date of this Order all interested parties are afforded the opportunity of filing a protest to this determination requesting a hearing on the application and protest. If no such protest be filed, this Order shall become effective fifteen (15) days from this date.

Applicant shall apply annually hereafter, and at such other times as the Commission may require, for renewal of this Order, and on the fifteenth day of each month after the effective date of this Order, applicant shall file a report with the Commission setting forth, for the preceding month, the tonnage of coal produced at its mine located near What Cheer, Iowa, and consumed in its clay products plant at What Cheer, Iowa, the tonnage of coal sold, the name and address of each purchaser, and the sale price.

The Secretary of the Commission is directed forthwith to mail a copy of this Order to the applicant, to the Consumers' Counsel, and the Secretary of each District Board; and shall cause a copy hereof to be filed and made available for inspection at each of the Statistical Bureaus of the Commission; and shall cause a copy hereof to be published in the FEDERAL REGISTER.

By order of the Commission.

Dated this 14th day of December, 1938.

Rules, Regulations, Orders

TITLE 7—AGRICULTURE

AGRICULTURAL ADJUSTMENT ADMINISTRATION

AMENDMENT NO. 1 TO "REGULATIONS GOVERNING (A) APPLICATIONS AND HEARINGS UNDER SECTION 363 OF TITLE III OF THE AGRICULTURAL ADJUSTMENT ACT OF 1938 RELATING TO ADMINISTRATIVE REVIEW OF MARKETING QUOTAS FOR TOBACCO, CORN, WHEAT, COTTON AND RICE ESTABLISHED UNDER SAID TITLE AND (B) THE PUBLICATION AND NOTICE OF SUCH QUOTAS UNDER SECTION 362 OF SAID ACT (PUBLIC, NO. 430—75TH CONGRESS—52 STAT. 31, AS AMENDED)"[1]

By virtue of the authority vested in the Secretary of Agriculture by the Agricultural Adjustment Act of 1938, the above described regulations are hereby amended as follows:

Section 401 of Article IV is amended to read as follows:

"SEC. 401. *Establishment.* Three eligible farmers shall be designated to serve on a review committee for a county, a group of counties, a community, or group of communities, and of the farmers so designated one shall be named chairman, and another vice-chairman, of such committee. In the absence of the chairman, the vice-chairman shall perform the duties and exercise the powers of the chairman and in the absence of both the chairman and the vice-chairman, the other regular member shall, as acting chairman, perform the duties and exercise the powers of the chairman. No review committee shall include any member of the county or community committee through which was determined any matter relating to any quota for the review of which the review committee is established. Subject to the provisions of this section and of section 400 of this article, the same farmer may be designated to serve on more than one review committee. Not more than three additional eligible farmers may be designated as alternate members of the committee, to serve in the event of the absence of any regular members thereof or in case of any vacancies in the committee, provided that not more than two such alternates may serve concurrently. The alternates shall be called upon for service in the order of their appointment except where a hearing will be unduly delayed by this procedure, the person acting as chairman may call upon the alternate who is the most readily available for service."

Section 502 of Article V is amended to read as follows:

"SEC. 502. *Time and place of hearing.* Such hearing shall be held at the time and place set forth in the notice of hearing, or in any subsequent notice amending or superseding the prior notice, and also may, without notice other than an announcement at the hearing by the chairman of the review committee, in the exercise of the discretion of the committee, be continued from day to day, or adjourned to a different place in the county or to a later date, or to a date and place to be fixed in a subsequent notice to be issued in the manner provided in sections 500 and 501 of this article. In the event a full committee of three is not present, those members present, or in the absence of the entire committee, the clerk, shall postpone the hearing; provided, however, that at the request, or with the consent of the applicant, a hearing conducted by two members of the committee, one of whom shall be a regular member, shall be deemed to be a regular hearing of the committee as to such case, and the determination made by such members shall constitute the determination of the review committee."

Section 503 of Article V is amended to read as follows:

"SEC. 503 *Conduct and scope of hearing.* Except as otherwise provided in these regulations, every such hearing shall take place before the entire review committee and shall be presided over by the chairman thereof. The hearing shall be publicly conducted. The com-

BUREAU OF ANIMAL INDUSTRY

[B. A. I. Order 368]

EXPORTATION AND IMPORTATION OF ANIMALS AND ANIMAL PRODUCTS

REGULATIONS GOVERNING THE INSPECTION AND QUARANTINE OF LIVESTOCK IMPORTED FROM OR EXPORTED TO MEXICO

DECEMBER 16, 1938.

By virtue of Article XII of a convention between the United States of America and the United Mexican States as ratified by the two Governments on January 17, 1930, and under the authority otherwise vested in the Secretary of Agriculture by law, the following regulations are hereby prescribed on the part of the United States governing the movement of livestock between the United States and Mexico in order to safeguard more effectually the livestock interests of the respective countries through the prevention of the introduction of infectious and contagious diseases. These regulations supersede all previous regulations governing the movement of livestock between the United States and Mexico, and shall become effective on January 16, 1939.

[SEAL] H. A. WALLACE,
Secretary of Agriculture.

Regulation 1

SEC. 93.1 *Definitions.* Whenever in these regulations the following names or terms are used they shall be construed as follows:

(*a*) *Department.* United States Department of Agriculture.

(*b*) *Bureau.* Bureau of Animal Industry of the United States Department of Agriculture.

(*c*) *Chief of Bureau.* Chief of the Bureau of Animal Industry of the United States Department of Agriculture.

(*d*) *Inspector.* A veterinary inspector of the Bureau of Animal Industry of the United States Department of Agriculture.

(*e*) *Horses.* Horses, mules, and asses.

(*f*) *Fever tick.* Boophilus annulatus, including variety australis.

(*g*) *Permitted dip.* A dip permitted by the Bureau of Animal Industry to be used in the official dipping of cattle and horses for fever ticks and for dipping cattle and sheep for scabies. (34 Stat. 1263; 21 U. S. C. 80, 81, 82, 86; Secs. 4, 5, 23 Stat. 32 as amended; 21 U. S. C. 113; Sec. 1, 26 Stat. 833, 45 Stat. 789; 45 U. S. C. 75; Secs. 6, 7, 8, 10, 26 Stat. 416–417; 21 U. S. C. 102–105; Secs. 1 and 2, 32 Stat. 791, 792; 21 U. S. C. 111, 112, 113, 120)

IMPORTATIONS FROM MEXICO

Regulation 2

SEC. 93.2 *Designated ports of entry.* With the approval of the Secretary of the Treasury, the following-named ports and subports are hereby designated for the entry of livestock from Mexico:

On the seacoasts: Boston, Mass.; New York, N. Y.; Baltimore, Md.; Jacksonville, Fla.; San Juan, Puerto Rico; New Orleans, La.; Galveston, Tex.; San Diego, Los Angeles, and San Francisco, Calif.; and Seattle, Wash. Along the international boundary: Brownsville, Hidalgo, Rio Grande, Roma, Laredo, Eagle Pass, Del Rio, and El Paso, Texas; Douglas, Naco, and Nogales, Ariz.; and Calexico and San Ysidro, Calif.

All horses, ruminants, and swine for importation from Mexico shall be entered through one of the aforenamed ports: *Provided, however,* That in special cases other ports may be designated by the Chief of Bureau with the concurrence of the customs authorities. (Sec. 7, 26 Stat. 416; 21 U. S. C. 102)

Regulation 3

SEC. 93.3 *Permits required.* For ruminants and swine intended for importation by water from Mexico, the importer shall first obtain from the Secretary of Agriculture of the United States a permit in two sections, one for presentation to the American consul at the port of embarkation, the other for presentation to the collector of customs at the port of entry specified therein, providing for reception of the said animals at the specified port on the date prescribed for their arrival or at any time during 3 weeks immediately following, after which time the permit shall be void. A permit shall not be available for the landing of such animals at any port of entry other than the one mentioned therein, and they shall not be eligible for entry if shipped from or through any other foreign port than that designated in the permit. Permits will be issued for entry at any port named in section 93.2 (regulation 2) that the importer may elect, as far as quarantine facilities are there available, but permits for importation will not be granted in excess of the accommodations provided at any port. (Secs. 6, 7, 8, 10, 26 Stat. 416, 417 as amended; 21 U. S. C. 102–105)

Regulation 4

SEC. 93.4 *Declaration of purpose.* For all cattle, sheep, goats, and swine offered for importation from Mexico, there shall be presented to the collector of customs, at the time of entry, a statement signed by the owner or importer showing clearly the purpose for which said animals are to be imported. (Secs. 6, 7, 8, 10, 26 Stat. 416, 417 as amended; 21 U. S. C., 102–105)

Regulation 5

SEC. 93.5 *Inspection at port of entry.* Except as provided in paragraphs (b) and (c) of section 93.11 (regulation 11), all horses, ruminants, and swine offered for entry from Mexico, including such animals intended for movement by rail through the United States in bond for immediate return to Mexico, shall be inspected at the port of entry and all such animals found to be free from communicable disease and fever tick infestation, and not to have been exposed thereto, shall be admitted into the United States subject to the other provisions of these regulations. Animals found to be affected with a communicable disease or infested with fever ticks, or to have been exposed thereto, shall be refused entry, except as provided in sections 93.8 and 93.11 of this part (regulations 8 and 11 of this order). (Secs. 6, 7, 8, 10, 26 Stat. 416, 417 as amended; 21 U. S. C., 102–105)

Regulation 6

SEC. 93.6 *Animals for slaughter.* Cattle, sheep, goats, and swine imported from Mexico for slaughter shall be consigned from the port of entry to some recognized slaughtering center and there slaughtered within 2 weeks from the date of entry: *Provided* That, upon special permission obtained from the Chief of Bureau, they may be reconsigned to other points and there slaughtered within the period aforesaid. (Secs. 6, 7, 8, 10, 26 Stat. 416, 417 as amended; 21 U. S. C., 102–105)

Regulation 7

SEC. 93.7 *Cattle—(a) Cattle from other than tick-infested areas.* Except as provided in paragraph (b) of this section, all cattle offered for importation from Mexico shall be accompanied by a certificate of a salaried veterinarian of the Mexican Government showing that he inspected the said cattle at the time of movement to the port of entry and found them free from any evidence of infectious or contagious disease, and that, as far as it has been possible to determine, they have not been exposed to any such disease, including splenetic, southern, or tick fever, during the preceding 60 days, and if shipped by rail the certificate shall further specify that the cattle were loaded into clean and disinfected cars for transportation direct to the port of entry. They shall also be accompanied by a certificate of the importer or his agent supervising the shipment, stating that while en route to the port of entry they have not been trailed or driven through any district or area infested with fever ticks.

(*b*) *Cattle from tick-infested areas.* Cattle which have been infested with or exposed to fever ticks may be imported from Mexico into the State of Texas, provided the following conditions are strictly observed and complied with:

(1) The cattle shall be accompanied by a certificate of a salaried veterinarian of the Mexican Government showing that he has inspected the cattle and found them free from fever ticks and any evidence of infectious or contagious disease, and that, as far as it has been possible to determine, they have not been exposed to any such disease, except splenetic, southern, or tick fever, during the 60 days immediately preceding their movement to the port of entry.

(2) The cattle shall be shown by affidavit of the owner or his agent to have been dipped in an arsenical solution containing a minimum of 0.22 per cent of arsenious oxide in solution, within 7 to 12 days before being offered for entry.

(3) The importer, or his agent duly authorized thereto, shall first execute and deliver to an inspector at the port of entry an application for inspection and supervised dipping wherein he shall agree to waive all claims against the United States for any loss or damage to the cattle occasioned by or resulting from dipping, or resulting from the fact that they are later found to be still tick infested; and also for all subsequent loss or damage to any other cattle in the

possession or control of such importer which may come into contact with the cattle so dipped.

(4) The cattle when offered for entry shall receive a chute inspection by an inspector. If found free from ticks they shall be given one dipping in a permitted dip under the supervision of an inspector 7 to 14 days after the dipping required by sub-paragraph (2) hereof. If found to be infested with fever ticks, the entire lot of cattle shall be rejected and will not be again inspected for entry until 10 to 14 days after they have again been dipped in the manner provided by subparagraph (2) hereof.

(5) The cattle shall be imported through a port designated in section 93.2 of this part (regulation 2 of this order) equipped with facilities necessary for proper inspection and dipping.

(6) The conditions at the port of entry shall be such that the subsequent movement of the cattle can be made without exposure to fever ticks.

(c) *Action in absence of certificates.* In the absence of certificates specified in paragraphs (a) and (b) of this section (regulation), cattle otherwise eligible for importation may be allowed entry subject to such conditions as the Chief of Bureau may prescribe: *Provided*, That the provisions of section 93.8 of this part (regulation 8 of this order) must be strictly complied with. (Secs. 6, 7, 8, 10, 26 Stat. 416, 417; Sec. 2, 44 Stat. 775; 46 Stat. 1460; 21 U. S. C. 102–105)

Regulation 8

SEC. 93.8 *Tuberculin and Bang's disease test for cattle—(a) Tuberculin Test.* All cattle offered for importation from Mexico—except strictly range cattle[1] and those for immediate slaughter—shall be accompanied by a satisfactory certificate of tuberculin test signed by a salaried veterinarian of the Mexican Government, which test shall have been made within 30 days preceding the date of importation. The date and place of such testing and a description of the cattle, including breed, ages, and markings, shall be given in such certificate. In the absence of said certificate such cattle, if otherwise eligible for importation, shall be detained in quarantine at the port of entry for a period of not less than 3 days, during which time they shall be tuberculin tested.

(b) *Bang's disease test.* (1) All dairy or breeding cattle 6 months of age or older offered for importation from Mexico—except strictly range cattle and those for immediate slaughter—shall be accompanied by a certificate of a salaried veterinarian of the Mexican Government showing that the animals have been subjected to a blood test for Bang's disease (infectious abortion), with negative results, within 30 days of the date of their exportation. The said certificate shall give the date and method of testing, names of the consignor and consignee, and a description of the cattle with breed, ages, and markings.

(2) In special cases and upon permission first obtained from the Chief of Bureau, said cattle unaccompanied by a certificate as provided in the preceding sub-paragraph (b) (1) may be quarantined at the port of entry and tested for Bang's disease by such method as may be approved by the Chief of Bureau; and those failing to pass said test shall be refused entry and, unless returned to the country of origin, shall be disposed of as provided by section 8 of the act of August 30, 1890. (26 Stat. 416) (Secs. 6, 7, 8, 10, 26 Stat. 416, 417; Sec. 2, 44 Stat. 775; 46 Stat. 1460; 21 U. S. C. 102–105)

Regulation 9

SEC. 93.9 *Sheep and goats*[2]*—(a) Sheep and goats for purposes other than slaughter.* Sheep and goats offered for importation from Mexico, for purposes other than slaughter, shall be accompanied by a certificate of a salaried veterinarian of the Mexican Government showing that, as a result of a careful physical examination by him of such sheep and goats on the premisse of origin, no evidence of infectious or contagious disease was found, and that, so for as it has been possible to determine, they have not been exposed to any such disease common to animals of their kind during the preceding 60 days; and, if the animals are shipped by rail, the certificate shall further specify that the animals were loaded into cleaned and disinfected cars for transportation direct to the port of entry. Notwithstanding such certificate, such sheep shall be detained at the port of entry until they have been dipped once under supervision of an inspector, in a permitted scabies dip. In the absence of such certificate, said sheep shall be held in quarantine for not less than 10 days and, at the discretion of the inspector, shall be again dipped under his supervision. Goats unaccompanied by such certificate shall be detained at the port of entry for a period of not less than 10 days, during which time they shall be subjected to such inspections and tests as may be deemed necessary by the Chief of Bureau to determine their freedom from disease.

(b) *Sheep and goats for slaughter.* Sheep and goats offered for importation from Mexico for slaughter shall be accompanied by a statement of the owner or vendor showing that no disease communicable to animals of their kind has existed on the premises on which they have been kept during the preceding 60 days. Such sheep and goats, when not accompanied by the statement specified, shall be detained at the port of entry for a period of not less than 3 days in order to determine their freedom from disease. Secs. 6, 7, 8, 10, 26 Stat. 416, 417; Sec. 2, 44 Stat. 775; 46 Stat. 1460; 21 U. S. C. 102–105)

Regulation 10

SEC. 93.10 *Swine*[3]*—(a) Swine for breeding or feeding.* All swine offered for importation from Mexico for breeding or feeding shall be accompanied by a certificate signed by a salaried veterinarian of the Mexican Government showing that for a period of 60 days prior to their movement from the premises on which they were kept no swine plague or hog cholera has existed within a radius of 5 miles therefrom. In addition, all such swine shall be immunized against hog cholera under the supervision of an inspector at the port of entry at the owner's expense in accordance with one of the methods recognized by the Department for preventing the spread of this disease. In the absence of the certificate as herein specified, such swine shall be detained at the port of entry for a period of not less than 2 weeks and, in addition to immunization against hog cholera, shall be subjected to such inspections and tests as may be deemed necessary by the Chief of Bureau to determine their freedom from disease.

(b) *Swine for slaughter.* All swine offered for importation from Mexico for slaughter shall be accompanied by a certificate of the kind specified in paragraph (a) of this section (regulation). In the absence of the required certificate, such swine shall be detained at the port of entry for a period of not less than 3 days to determine their freedom from disease. They shall be handled and shipped as specified under section 93.6 of this part (regulation 6 of this order). (Secs. 6, 7, 8, 10, 26 Stat. 416, 417; Sec. 2, 44 Stat. 775; 46 Stat. 1460; 21 U. S. C. 102–105)

Regulation 11

SEC. 93.11 *Horses—(a) Horses from tick-infested areas.* Horses offered for importation from tick-infested areas of Mexico shall be chute inspected unless in the judgment of the inspector a satisfactory inspection can be made otherwise. If they are found to be apparently free from fever ticks, before entering the United States they shall be dipped once in a permitted arsenical solution or be otherwise treated in a manner approved by the Chief of Bureau. If they are found to be infested with fever ticks they shall be refused entry but may be re-offered for importation following treatment as prescribed in paragraph (b) (2), of section 93.7 (regulation 7), for cattle from tick-infested areas.

(b) *Mexican horses for temporary stay.* Horses used in connection with stock raising (cow ponies) or mining and those for other purposes, whether for pleasure, driving, or teaming, may be admitted from the tick-free area of Mexico without inspection for a temporary stay at ports along the border, not exceeding a period of 10 days.

(c) *American horses returning after temporary stay in Mexico.* Horses may be returned to the United States from tick-free areas of Mexico without inspection, after a stay in Mexico of not to exceed 10 days. (Secs. 6, 7, 8, 10, 26 Stat. 416, 417; Sec. 2, 44 Stat. 775; 46 Stat. 1460; 21 U. S. C. 102–105)

EXPORTATIONS TO MEXICO

Regulation 12

SEC. 93.12 *Inspection and certification.* No horses, cattle, other domestic ruminants or swine shall be exported to Mexico until they have been inspected in the manner prescribed by the Chief of Bureau. If, upon such inspection, they are found to be free from communicable disease or exposure thereto, they shall be accompanied by a certificate to that effect issued or endorsed by an inspector. The inspection required by this section (regulation) may be made at any place at which an inspector is available; *Provided, however*, That in the case of livestock for shipment to Mexico by water a final inspection shall be made at the coast port of embarkation. (34 Stat. 1263; 21 U. S. C. 80, 81, 82; Sec. 10, 26 Stat. 417; 21 U. S. C. 105; Secs. 4, 5, 23 Stat. 32, Sec. 1, 32 Stat. 791; 21 U. S. C. 112, 113, 120)

Regulation 13

SEC. 93.13 *Tuberculin test.* No dairy or breeding cattle shall be exported to Mexico unless they are accompanied by a certificate showing that they have passed a tuberculin test within 30 days of the date of exportation or that they are from a tuberculosis free accredited herd or a modified accredited area. Such tests may be applied either by an inspector or a duly authorized veterinarian of the Mexican Government in the United States, or by an accredited veterinarian: *Provided*, That the certificate of such accredited veterinarians shall be endorsed by an inspector. Test charts and certificates shall include descriptions of the cattle with ages and markings. (34 Stat. 1263; 21 U. S. C. 80, 81, 82; Sec. 10, 26 Stat. 417; 21 U. S. C. 105; Secs. 4, 5, 23 Stat. 32, Sec. 1, 32 Stat. 791; 21 U. S. C. 112, 113, 120)

Regulation 14

SEC. 93.14 *Form of certificate.* Certificates provided for in section 93.12 and 93.13 (regulations 12 and 13) shall be issued in such form and number as required by the Department of Agriculture of Mexico. (34 Stat. 1263, 21 U. S. C. 81, 82, Sec. 1, 32 Stat. 791; 21 U. S. C. 121)

Regulation 15

SEC. 93.15 *Disinfection of cars or other conveyances.* Livestock destined to Mexico shall be transported from the point of inspection in cars or other conveyances which have been cleaned and disinfected: *Provided, however*, That express cars and other conveyances not regularly used for the transportation of livestock need not be so disinfected. If such animals are transported in crates, the crates shall be constructed of new material and shall not have been previously used. (Sec. 10, 26 Stat. 417; 21 U. S. C. 105; Secs. 4, 5, 23 Stat. 32; Sec. 1, 32 Stat. 791; 21 U. S. C. 112, 120)

[Amendment 4 to B. A. I. Order 366[1]]

AMENDMENT OF ORDER TO PREVENT THE INTRODUCTION INTO THE UNITED STATES OF RINDERPEST AND FOOT-AND-MOUTH DISEASE

DECEMBER 16, 1938.

SEC. 94.1 *Importation of domestic livestock or meats from countries where rinderpest or foot-and-mouth disease declared exists prohibited.* Under authority conferred by law upon the Secretary of Agriculture by Section 306 of the Tariff Act of 1930, the order to prevent the introduction into the United States of rinderpest and foot-and-mouth disease (B. A. I. Order 366), dated May 27, 1938, and effective June 1, 1938, as amended,[2] is hereby further amended by adding the names "Finland" and "Norway" to the list of countries in said order, as I have determined that foot-and-mouth disease exists in those countries and I have so officially notified the Secretary of the Treasury.

The effect of this amendment is to render commodities specified in B. A. I. Order 366, originating in Finland or Norway, subject to the provisions of said B. A. I. Order 366.

This amendment, which for purpose of identification is designated Amendment 4 to B. A. I. Order 366, (9 CFR 94.1), shall be effective on and after December 23, 1938. (Sec. 306, 46 Stat. 689, Sec. 2, 32 Stat. 792, 45 Stat. 59; 19 U. S. C. 1306 (a), (b), and (c), 21 U. S. C. 111). [B. A. I. Order 366, unnumbered paragraph 1, as amended by Amendment 1, August 27, 1938, Amendment 2, September 21, 1938, Amendment 3, November 15, 1938 and Amendment 4, December 16, 1938]

Done at Washington this 16th day of December 1938. Witness my hand and the seal of the Department of Agriculture.

[SEAL] H. A. WALLACE,
Secretary of Agriculture.

[F. R. Doc. 38–3790; Filed, December 17, 1938; 12:23 p. m.]

TITLE 14—CIVIL AVIATION

CIVIL AERONAUTICS AUTHORITY

[Regulation No. 605–B–1]

ACCESS TO AIRCRAFT BY DULY QUALIFIED AIR CARRIER INSPECTORS OF CIVIL AERONAUTICS AUTHORITY

At a session of the Civil Aeronautics Authority held at its office in Washington, D. C., on the 16th day of December 1938.

Acting in accordance with the Opinion of the Authority dated September 1, 1938, and pursuant to the authority vested in it by the Civil Aeronautics Act of 1938 particularly sections 605 (b) and 205 (a) of said Act, and finding that its action is necessary to carry out the provisions of and to exercise its powers and duties under said Act, the Civil Aeronautics Authority hereby makes and promulgates the following:

REGULATION

(a) Every air carrier shall, subject to the provisions of this regulation, carry on any aircraft which it operates and to which access is sought, without charge therefor, any duly qualified air carrier inspector of the Authority (including supervising officers of such inspectors) whose name is contained in an official list of such inspectors supplied to such air carrier by the Authority;

(b) Upon applying for such transportation, each air carrier inspector shall exhibit to the appropriate agents of the air carrier proper credentials evidencing that he is such an inspector. He shall also sign and deliver to the carrier in duplicate a "Request for Access to Aircraft", (preferably, but not necessarily, on forms supplied by the Civil Aeronautics Authority) stating:

(1) That he is a duly qualified inspector of the Air Carrier Inspection Section of the Authority;

(2) That he desires access to a certain aircraft of the air carrier from a named point of departure on a designated date and hour to a named destination for the purpose of performing his official duties during flight of such aircraft; and

(3) The basis ("space available" or "must ride") on which such request for access to such aircraft is submitted and, if such request is submitted on a "must

---

[1] It has been determined that the incidence of tuberculosis is much less than one-half of 1 percent among range cattle in the northern States of Mexico, where importations of this class of cattle originate. Such cattle, however, will be subject to the tuberculin-test requirements of the State of destination.

[2] Certificates will not be required for wild sheep, deer, and other wild ruminants originating in and shipped direct from Mexico, but said animals are subject to inspection at the port of entry as provided in section 93.5 of this part (regulation 5 of these regulations).

[3] A certificate as specified in this section (regulation) will not be required for wild swine for exhibition purposes, and such animals will not be required to undergo immunization against hog cholera but are subject to inspection at the port of entry as provided in section 93.5 of this part (regulation 5 of these regulations).

[1] Amending 9 CFR 94.1.

[2] 3 F. R. 1228, 2736 DI.

ride" basis, describing briefly but definitely the nature of his business.

The Air carrier shall retain one copy of each such request. On or before the tenth day of each month, each air carrier shall forward one copy of all such requests received by it during the second preceding calendar month to the secretary of the Civil Aeronautics Authority, Washington, D. C.

(c) This regulation shall become effective January 1, 1939, at 12:01 A. M., Eastern Standard Time.

By the Authority.

[SEAL] PAUL J. FRIZZELL,
Secretary.

TITLE 16—COMMERCIAL PRACTICES

FEDERAL TRADE COMMISSION

[Docket No. 2442]

IN THE MATTER OF RARITAN DISTILLERS' CORPORATION

SEC. 3.96 (2) (5) *Using misleading name—Vendor—Producer or laboratory status of dealer:* SEC. 3.6 (a) (22) *Advertising falsely or misleadingly—Business status, advantages or connections of advertiser—Producer status of dealer—Distiller:* SEC. 3.66 (g) *Misbranding or mislabeling—Producer status of dealer.* Representing in connection with sale, etc., of whiskeys, gins or other spirituous beverages, through use of word "distillers" in its corporate name, on its stationery, etc., and on the labels attached to the bottles in which it sells and ships its said product, or in any other way, etc., that it is a distiller; or that said products are by it made through the process of distillation; or that it owns, operates or controls a place or places where any such products are by it manufactured by a process of original and continuous distillation from mash, wort, or wash, through continuous closed pipes and vessels, until manufacture is complete, unless and until such is the fact, prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, Raritan Distillers Corporation, Docket 2442, December 3, 1938]

United States of America—Before Federal Trade Commission

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 3rd day of December, A. D. 1938.

Commissioners: Garland S. Ferguson, Chairman; Charles H. March, Ewin L. Davis, William A. Ayres, Robert E. Freer.

ORDER TO CEASE AND DESIST

This proceeding having been heard [1] by the Federal Trade Commission upon the complaint of the Commission, the answer of respondent, testimony and other evidence taken before John J. Keenan, an examiner of the Commission theretofore duly designated by it, in support of the allegations of the said complaint and in opposition thereto, briefs filed herein, and oral arguments by PGad B. Morehouse, counsel for the Commission, and by John W. Hilldrop, counsel for the respondent, and the Commission having made its findings as to the facts and its conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent, Raritan Distillers Corporation, its officers, representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of whiskeys, gins, cordials, liqueurs, vermouths, cocktails and other alcoholic beverages in interstate commerce or in the District of Columbia, do forthwith cease and desist from:

Representing through the use of the word "distillers" in its corporate name on its stationery, invoices, bill heads, order blanks, and on the labels attached to the bottles in which it sells and ships its said products, or in any other way by word or words of like import;

(a) That it is a distiller of whiskeys, gins, or other spirituous beverages; or

(b) That the said whiskeys, gins, and other spirituous beverages are by it manufactured through the process of distillation; or

(c) That it owns, operates or controls a place or places where any such products are by it manufactured by a process of original and continuous distillation from mash, wort, or wash, through continuous closed pipes and vessels until the manufacture thereof is complete, unless and until respondent shall actually own, operate or control such a place or places.

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

[SEAL] OTIS B. JOHNSON,
Secretary.

[F. R. Doc. 38-3781; Filed, December 16, 1938; 1:30 p. m.]

[Docket No. 3491]

IN THE MATTER OF PITTSBURGH PLATE GLASS COMPANY ET AL.

SEC. 3.27 (b) (1) *Combining or conspiring—To eliminate competition—In conspirators' goods.* By agreement, and in connection with the sale in the glazing contracting business of plate, window and structural glass in interstate commerce in the St. Louis trade area, exchanging information, or entering into discussions or agreeing upon, as the case may be, as to prices, actual or contemplated, or as to bids to be submitted by the various agreeing members, or formulae to be used in computing same, or as to standards of cost, whether labor or material, or amount of any item or total, or preparing and circulating schedules or information among the members declaratory and explanatory of the policies and practices of the members in the aforesaid matters, or fixing the amounts to be bid by any member, or collectively agreeing with certain labor organizations and the individual officers thereof *re* minimum number of employees and wages and terms to be observed by member jobbers and their competitors as prerequisite to securing glaziers to make installation, and agreeing so to exchange information, etc.; on the part of the member manufacturer, and member distributors and dealers, and certain individuals, as officers and employees thereof; and persuading or inducing aforesaid member distributors to enter into such undertakings *re* minimum employees, wages and terms, as above set forth, and entering into such agreements with any two or more glazing contractors or distributors, on the part of such labor organizations and officers thereof; prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b). [Cease and desist order, Pittsburgh Plate Glass Company et al., Docket 3491, December 2, 1938]

United States of America—Before Federal Trade Commission

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 2nd day of December, A. D. 1938.

Commissioners: Garland S. Ferguson, Chairman; Charles H. March, Ewin L. Davis, William A. Ayres, Robert E. Freer.

IN THE MATTER OF PITTSBURGH PLATE GLASS COMPANY, A CORPORATION; FRANK CLARKE, INDIVIDUALLY AND AS MANAGER OF THE ST. LOUIS, MO., BRANCH OF THE PITTSBURGH PLATE GLASS COMPANY; THE NURRE COMPANIES, INC., A CORPORATION; BELMONT W. BEINKE, INDIVIDUALLY AND AS MANAGER OF THE ST. LOUIS BRANCH OF THE NURRE COMPANIES, INC.; BURROUGHS GLASS COMPANY, A CORPORATION; HERBERT H. PIOU, INDIVIDUALLY AND AS VICE-PRESIDENT OF BURROUGHS GLASS COMPANY; HADLEY-DEAN GLASS COMPANY, A CORPORATION; LEO HADLEY, JR., INDIVIDUALLY AND AS MANAGER OF THE HADLEY-DEAN GLASS COMPANY; E. V. HANSER, INDIVIDUALLY AND AS SECRETARY OF THE SOUTHWEST DIVISION, NATIONAL GLASS DISTRIBUTORS' ASSOCIATION; DISTRICT COUNCIL NO. 2, OF THE BROTHERHOOD OF PAINTERS, DECORATORS AND PAPERHANGERS OF AMERICA, ST. LOUIS, MISSOURI, AN UNINCORPORATED ASSOCIATION; GLAZIERS' LOCAL UNION NO. 513, OF THE BROTHERHOOD OF PAINTERS, DECORATORS AND PAPERHANGERS OF AMERICA, ST. LOUIS, MISSOURI, AN UNINCORPORATED ASSOCIATION; LAWRENCE M. RAFTERY, INDIVIDUALLY AND AS SECRETARY OF DISTRICT COUNCIL NO. 2 OF THE BROTHERHOOD OF PAINTERS, DECORATORS AND PAPERHANGERS OF AMERICA; JAMES F. EGAN, INDIVIDUALLY AND AS BUSINESS AGENT OF GLAZIERS' LOCAL UNION NO. 513, OF THE BROTHERHOOD OF PAINTERS, DECORATORS AND PAPERHANGERS OF AMERICA; EDWARD W. HILL, INDIVIDUALLY AND AS BUSINESS AGENT OF GLAZIERS' LOCAL UNION NO. 513, OF THE BROTHERHOOD OF PAINTERS, DECORATORS AND PAPERHANGERS OF AMERICA

ORDER TO CEASE AND DESIST

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and stipulations as to the facts entered into between the respondents herein and W. T. Kelley, Chief Counsel for the Commission, which provide, among other things, that without further evidence or other intervening procedure, the Commission may issue and serve upon the respondents herein and each of them, findings as to the facts and conclusion based thereon and an order disposing of the proceeding, and the Commission having made its findings as to the facts and conclusion that said respondents have violated the provisions of the Federal Trade Commission Act:

It is ordered, That respondents Pittsburgh Plate Glass Company, a corporation, The Nurre Glass Companies, Inc., a corporation, Burroughs Glass Company, a corporation, and Hadley-Dean Glass Company, a corporation, and their officers, directors, representatives and employees, including, specifically, respondents Frank Clarke, Belmont W. Beinke, Herbert H. Piou, Leo Hadley, Jr., and E. V. Hanser, hereinafter referred to as respondent distributors, in connection with the sale, in the glazing contracting business, of plate, window and structural glass in interstate commerce in the St. Louis trade area for installation of such glass in buildings and structures, do forthwith cease and desist from:

Agreeing among themselves, or with others, to engage in, pursuant to any agreement or understanding, directly or through any corporation or other device, and from engaging in any of the following acts, practices, or policies:

1. Exchanging information concerning prevailing prices, or contemplated or proposed changes in prices, for plate, window or structural glass used in the glazing contracting business.

2. Discussing or exchanging information concerning bids to be submitted by any individual respondent for supplying and installing glass in any structure or building.

3. Collectively agreeing upon any formula to be used in computing bids for supplying and installing glass in any structure or building; upon standards of cost, either of labor or material, or upon the amount of any item of such bids or the total amount thereof.

4. Preparing, publishing or circulating schedules or otherwise conveying information between or among themselves which set forth, directly or by implication, any such above policy and practice to be used in computing bids, standards of cost or other data which is designed to influence or determine the amount of any item of any contemplated bid or the total thereof.

5. Fixing or establishing by agreement the amount to be bid by any individual respondent for supplying and installing any such glass in any building or structure.

6. Collectively cooperating with respondent District Council No. 2 or Glaziers' Local Union No. 513, of the Brotherhood of Painters, Decorators and Paperhangers of America, St. Louis, Missouri, or Lawrence M. Raftery, James F. Egan or Edward W. Hill, or any other labor organization or representative thereof, in requiring or agreeing that glazing contractors competing with respondent distributors be compelled to employ four glaziers, or any other specified number, steadily at the rate of $12.00 per day each, or any other specified figure, as a condition to securing glaziers to install glass in any structure or building, or collectively agreeing to any such requirement as applicable to themselves.

7. Collectively cooperating in any way with the respondents named in the preceding paragraph in requiring that glazing contractors competing with respondent distributors in supplying glass for installation in any building or structure must have such glass glazed on the premises as a condition to securing glaziers to install such glass, or collectively agreeing, to any such requirement as applicable to themselves;

8. Collectively continuing, renewing or by joint action complying with or carrying into effect any agreement to accomplish anything prohibited by this order.

It is further ordered, That respondents District Council No. 2 of the Brotherhood of Painters, Decorators and Paperhangers of America, St. Louis, Missouri, an unincorporated association, and Glaziers' Local Union No. 513, of the Brotherhood of Painters, Decorators and Paperhangers of America, St. Louis, Missouri, an unincorporated association, and Lawrence M. Raftery, individually and as Secretary of said District Council No. 2, and James F. Egan and Edward W. Hill, individually and as business agents of said Glaziers' Local Union No. 513, in connection with the supplying and installation of glass in structures or buildings in interstate commerce in the St. Louis trade area, do forthwith cease and desist from:

1. Persuading or inducing respondent distributors collectively to agree among themselves to the requirement that they must employ four glaziers, or any other specified number, steadily at the rate of $12.00 per day each, or any other given figure, as a condition to securing glaziers to install glass supplied by such distributors for any structure or building, or the requirement that all such glass must be glazed upon the premises for which the same has been supplied by such distributors;

2. Entering into any collective agreement incorporating the above terms, conditions, or requirements with any two or more glazing contractors or distributors, or enforcing any such agreement heretofore made.

It is further ordered, That the respondents herein and each of them shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

[SEAL] OTIS B. JOHNSON,
Secretary.

(Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, Fireside Industries, Inc., Docket 3362, December 6, 1938]

SEC. 3.6 (a) (20) *Advertising falsely or misleadingly—Business status, advantages or connections of advertiser—Authorities and personages connected with.* Falsely representing, in connection with the sale of its home study courses for the decoration of furniture, toys, lamp shades, and other novelties, that it has counsellors or agents in Europe, prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, Fireside Industries, Inc., Docket 3362, December 6, 1938]

United States of America—Before Federal Trade Commission

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 6th day of December, A. D. 1938.

Commissioners: Garland S. Ferguson, Chairman; Charles H. March, Ewin L. Davis, William A. Ayres, Robert E. Freer.

ORDER TO CEASE AND DESIST

This proceeding having been heard[1] by the Federal Trade Commission upon the complaint of the Commission, the answer of respondent, testimony and other evidence taken before Robert S. Hall, an examiner of the Commission theretofore duly designated by it, in support of the allegations of the complaint and in opposition thereto, briefs filed herein, oral argument not having been requested, and the Commission having made its findings as to the facts and its conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent, Fireside Industries, Inc., a corporation, its officers, representatives, agents and employees, in connection with the offering for sale, sale and distribution of home study courses for the decoration of novelties, unpainted and undecorated furniture, toys, lamp shades and other novelties, in interstate commerce or in the District of Columbia, do forthwith cease and desist representing:

(1) That its customers have all of its resources at their command and that these resources are available for their use and benefit;

(2) That financial failure is impossible for those who engage in the business advocated by it and that it guarantees success to its customers;

(3) That its organization is a guild or association of persons formed for mutual protection or aid;

(4) That its offer to refund the purchase price to its customers is backed by a gold bond;

(5) That it purchases articles from its customers or acts as their sales agent, or does other than perform the function of an adviser and counsellor on sales problems;

(6) That it has counsellors or agents in Europe when such is not the fact.

It is further ordered, That respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

[SEAL] OTIS B. JOHNSON, *Secretary.*

[Docket No. 2771]

IN THE MATTER OF THE GROVE LABORATORIES, INC.

SEC. 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product.* Representing that a preparation designated "Grove's Laxative Bromo Quinine," etc., or any other preparation containing the same or similar ingredients, etc., is a cold remedy; or a "complete" treatment for colds; or that it will kill, fix, or expel colds, or give the final touch in expelling colds; or will drive out or clean out poisonous infection or eliminate, destroy, or break up cold infection, or fortify the system; or that it has a germicidal effect; or will stop a cold in its tracks, or the first day, or in twenty-four hours, or in the fastest time on record; or that it will afford "thorough" and "complete" relief from colds; and making any representations of a like or similar import, prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, The Grove Laboratories, Inc., Docket 2771, December 7, 1938]

United States of America—Before Federal Trade Commission

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 7th day of December, A. D. 1938.

Commissioners: Garland S. Ferguson, Chairman; Charles H. March, Ewin L. Davis, William A. Ayres, Robert E. Freer.

ORDER TO CEASE AND DESIST

This proceeding having been heard[1] by the Federal Trade Commission upon the amended complaint of the Commission, the amended answer of respondent, stipulation as to the facts in lieu of testimony and documentary evidence, briefs filed herein, and oral argument by William T. Chantland, counsel for the Commission, and by W. Keane Small, counsel for respondent, and the Commission having made its findings as to the facts and its conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent, The Grove Laboratories, Inc., its officers, representatives, agents and employees, in connection with the offering for sale, sale and distribution in interstate commerce or in the District of Columbia of a preparation now designated variously as "Laxative Bromo Quinine," "Groves Laxative Bromo Quinine," and "Bromo Quinine," or any other preparation containing the same or similar ingredients or possessing the same or similar properties, whether sold under those names or under any other names, do forthwith cease and desist, directly or indirectly, or through any corporate or other device:

1. From representing: That said preparation is a cold remedy; that it is a "complete" treatment for colds; that it will kill, fix, or expel colds, or give the final touch in expelling colds; that it will drive out or clean out poisonous infection or eliminate, destroy, or break up cold infection, or fortify the system; that it has a germicidal effect; that it will stop a cold in its tracks, or the first day, or in 24 hours, or in the fastest time on record; or that it will afford "thorough" and "complete" relief from colds.

2. From making any representations of a like or similar import to those above set out.

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

IN THE MATTER OF SWEETS COMPANY OF AMERICA, INC.

SEC. 3.99 (b) *Using or selling lottery devices—In merchandising.* Selling, etc., candy so packed, etc., that sales thereof to general public are to be, or may be, made by means of a lottery, etc., as specified, prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, Sweets Company of America, Inc., Docket 2959, December 7, 1938]

SEC. 3.99 (b) *Using or selling lottery devices—In merchandising.* Supplying, etc., to dealers, packages or assortments of candy which are, or may be, used to conduct a lottery, etc., in the sale, etc., of said products to the public, prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, Sweets Company of America, Inc., Docket 2959, December 7, 1938]

SEC. 3.99 (b) *Using or selling lottery devices—In merchandising.* Supplying, etc., to dealers for sale to the public, packages or assortments of uniform individually wrapped pieces of candy and of different colors, with larger pieces or any other merchandise, which are to be, or may be given as prizes to purchasers procuring pieces of a particular color, prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, Sweets Company of America, Inc., Docket 2959, December 7, 1938]

United States of America—Before Federal Trade Commission

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 7th day of December, A. D. 1938.

Commissioners: Garland S. Ferguson, Chairman; Charles H. March, Ewin L. Davis, William A. Ayres, Robert E. Freer.

ORDER TO CEASE AND DESIST

This proceeding having been heard[1] by the Federal Trade Commission upon the complaint of the Commission, the answer of respondent, testimony and other evidence taken before Miles J. Furnas and William C. Reeves, examiners of the Commission theretofore duly designated by it, in support of the allegations of said complaint and in opposition thereto, briefs filed herein and oral arguments by Henry C. Lank, counsel for the Commission, and Louis H. Solomon, counsel for the respondent, and the Commission having made its findings as to the facts and its conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent, Sweets Company of America, Inc., its officers, representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of candy in interstate commerce or in the District of Columbia, do forthwith cease and desist:

1. Selling and distributing candy so packed and assembled that sales of such candy to the general public are to be made or may be made by means of a lottery, gambling device or gift enterprise.

2. Supplying to or placing in the hands of dealers packages or assortments of candy which are used or which may be used to conduct a lottery, gambling device or gift enterprise in the sale or distribution of said candy contained in the said packages or assortments to the public.

3. Supplying to or placing in the hands of dealers for sale to the public packages or assortments of candy composed of individually wrapped pieces of candy of uniform size and shape and of different colors, together with larger pieces of candy or any other merchandise, which said larger pieces of candy or other merchandise are to be or may be given as prizes to the purchasers procuring pieces of said candy of a particular color.

It is further ordered That the respondent shall, within sixty days after service upon it of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

IN THE MATTER OF WILLIAM A. WOODBURY SALES CO., INC., ET AL.

SEC. 3.6 (a) (22) *Advertising falsely or misleadingly—Business status, advantages or connections of advertiser—Producer status of dealer—Manufacturer.* Representing, in connection with the sale, etc., of cosmetics, dentifrices, shaving creams, toilet supplies, etc., that respondents, or any of them, are the manufacturers thereof, unless and until such respondents actually own and operate, etc., a factory wherein such products are actually so manufactured by them, prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, William A. Woodbury Sales Co., Inc., et al., Docket 3113, December 8, 1938]

SEC. 3.6 (c) *Advertising falsely or misleadingly — Composition of goods:* SEC. 3.96 (a) (1) *Using misleading name — Goods — Composition.* Representing as "Turtle Oil Cream" any emulsion of fats and oils, or any other preparation, which does not have turtle oil as a principle ingredient therein, prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, William A. Woodbury Sales Co., Inc., et al., Docket 3113, December 8, 1938]

United States of America—Before Federal Trade Commission

At a regular session of the Federal Trade Commission held at its office in the City of Washington, D. C., on the 8th day of December, A. D. 1938.

Commissioners: Garland S. Ferguson, Chairman; Charles H. March, Ewin L. Davis, William A. Ayres, Robert E. Freer.

IN THE MATTER OF WILLIAM A. WOODBURY SALES CO., INC., A CORPORATION, WILLIAM A. WOODBURY, RICHARD PICARD, AND ARTHUR BAUM, INDIVIDUALLY AND AS OFFICERS OF WILLIAM A. WOODBURY SALES CO., INC.

ORDER TO CEASE AND DESIST

This proceeding having been heard[1] by the Federal Trade Commission upon the complaint of the Commission, the answers of respondents, testimony and other evidence taken before William C. Reeves, an examiner of the Commission theretofore duly designated by it, in support of the allegations of the complaint and in opposition thereto, briefs filed herein by Floyd O. Collins, counsel for the Commission, and by Isaac Reiss, counsel for respondents, and the Commission having made its findings as to the facts and its conclusion that said respondents have violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent, William A. Woodbury Sales Company, Inc., a corporation, its officers, representatives, agents, and employees, and respondents, William A. Woodbury, Richard Picard, and Arthur Baum, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of face creams, dental creams, shaving creams, powders, rouge and other cosmetics, dentifrices, toilet supplies and accessories and an emulsion of fats and oils now designated as "Turtle Oil Cream", in interstate commerce or in the District of Columbia, do forthwith cease and desist:

1. Representing, directly or in any other manner, that respondents or any of them are the manufacturers of the various preparations sold and distributed by them, unless and until such respondents actually own and operate or directly and absolutely control a factory wherein such products are actually so manufactured by them;

2. Using the term "Turtle Oil Cream" to designate or describe any emulsion of fats and oils, or any other preparation, which does not have turtle oil as a principal ingredient therein.

It is further ordered, That the respondent shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

(Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, Jackson University, etc., Docket 3348, December 7, 1938]

SEC. 3.6 (dd) *Advertising falsely or misleadingly—Special offers:* SEC. 3.72 (n) *Offering deceptive inducements to purchase—Special offers.* Representing that students or prospective students of respondent have been specially selected for an offer of enrollment in respondent's secretarial and business administration courses of instruction, and that respondent has limited the offer of his courses to a limited number of persons in a given locality, city or county, prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, Jackson University, etc., Docket 3348, December 7, 1938]

SEC. 3.6 (a) (19) *Advertising falsely or misleadingly—Business status, advantages or connections of advertiser—Organization and operation.* Representing, in connection with the sale, etc., of respondent's secretarial and business administration courses of instruction, that respondent operates a night school, unless and until such is the fact, or that respondent's school is the most original, independent and thoroughly modern, unless and until the equipment and teaching facilities justify such descriptions or descriptions of similar import, prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, Jackson University, etc., Docket 3348, December 7, 1938]

SEC. 3.6 (l) *Advertising falsely or misleadingly—Indorsements and testimonials:* SEC. 3.18 *Claiming indorsements or testimonials falsely.* Falsely representing, in connection with the sale, etc., of respondent's secretarial and business administration courses of instruction, that certain named individuals have given testimonials with respect to respondent's school, prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., sec. 45b) [Cease and desist order, Jackson University, etc., Docket 3348, December 7, 1938]

SEC. 3.6 (n) (2) *Advertising falsely or misleadingly—Nature—Product.* Falsely representing in connection with the sale, etc., of respondent's secretarial and business administration courses of instruction, that auditing, accounting and many different systems of bookkeeping are taught in respondent's courses of instruction, or that the "World's Desire Bureau" is anything other than a medium of advertising respondent's school, or that it is separate and independent institution, or that the wisdom, knowledge and experience of the world may be taught by said bureau, prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, Jackson University, etc., Docket 3348, December 7, 1938]

SEC. 3.6 (m) *Advertising falsely or misleadingly—Jobs and employment service.* Falsely representing, in connection with the sale, etc., of respondent's secretarial and business administration courses of instruction, that respondent will procure positions for those students who complete respondent's courses of instructions, prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, Jackson University, etc., Docket 3348, December 7, 1938]

SEC. 3.6 (a) (11) *Advertising falsely or misleadingly—Business status, advantages or connections of advertiser—Identity.* Representing, in connection with the sale, etc., of respondent's secretarial and business administration courses of instruction, that the "World's Desire Bureau" is anything other than a medium of advertising respondent's school, or that it is separate and independent institution, or that the wisdom, knowledge and experience of the world may be taught by said bureau, or that the "Educational Finance Company" is a business separate and apart from respondent's school and is an innocent purchaser of respondent's negotiable paper without notice, prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp IV, sec. 45b) [Cease and desist order, Jackson University, etc., Docket 3348, December 7, 1938]

SEC. 3.51 *Enforcing payments wrongfully.* Representing, in connection with the sale, etc., of respondent's secretarial and business administration courses of instruction, that the "Educational Finance Company" is a business separate and apart from respondent's school and is an innocent purchaser of respondent's negotiable paper without notice, prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C. Supp. IV, sec. 45b) [Cease and desist order, Jackson University, etc., Docket 3348, December 7, 1938]

United States of America—Before Federal Trade Commission

IN THE MATTER OF WALTER JACKSON, AN INDIVIDUAL DOING BUSINESS AS JACKSON UNIVERSITY, JACKSON UNIVERSITY OF BUSINESS, EDUCATIONAL FINANCE COMPANY, AND WORLD'S DESIRE BUREAU

ORDER TO CEASE AND DESIST

This proceeding having been heard[1] by the Federal Trade Commission upon the complaint of the Commission, the answer of respondent, Walter Jackson, an individual doing business as Jackson University, Jackson University of Business, Educational Finance Company, and World's Desire Bureau, testimony and other evidence taken before William C. Reeves, an examiner of the Commission theretofore duly designated by it, in support of the allegations of said complaint, brief filed by William L. Pencke, counsel for the Commission (respondent neither filing brief nor requesting oral argument), and the Commission having made its findings as to the facts and its conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent, Walter Jackson, individually and trading as Jackson University, Jackson University of Business, Educational Finance Company, and World's Desire Bureau, or under any other trade name, his representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of courses of instruction in interstate commerce or in the District of Columbia do forthwith cease and desist from:

1. Representing, through the use of the word "university" in the trade name, catalogs, advertising literature or otherwise, that the business conducted by respondent is a university or institution of higher learning;

2. Representing that students or prospective students of respondent have been specially selected for an offer of enrollment in respondent's courses;

3. Representing that the respondent has limited the offer of his courses of instruction to a limited number of persons in a given locality, city or county;

4. Representing that respondent operates a night school, unless and until such night school is in fact operated by him;

5. Representing in his pamphlets, circulars or otherwise that certain named individuals have given testimonials with respect to respondent's school when such is not the fact;

6. Representing that respondent's school is the most original, most independent and most thoroughly modern, unless and until the equipment and teaching facilities justify such descriptions or descriptions of similar import;

7. Representing that auditing, accounting and many different systems of bookkeeping are taught in respondent's courses of instruction when such is not the fact;

8. Representing that respondent will procure positions for those students who complete respondent's courses of instruction;

9. Representing that the "World's Desire Bureau" is anything other than a medium of advertising respondent's school, or that it is separate and independent institute, or that the Wisdom, Knowledge and Experience of the World may be taught by said Bureau;

10. Representing that the "Educational Finance Company" is a business separate and apart from respondent's school and is an innocent purchaser of respondent's negotiable paper without notice;

11. Making any other representations of similar import and effect to those above set out.

It is further ordered, That the respondent shall, within sixty days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with this order.

By the Commission.

IN THE MATTER OF GIMBEL BROTHERS, INC.

SEC. 3.6 (c) *Advertising falsely or misleadingly — Composition of goods:* SEC. 3.66 (a) *Misbranding or mislabeling—Composition.* Falsely representing ladies' panties and vests, etc., as composed of or containing silk, wool or other material, or as containing a greater percentage, proportion or quantity of such materials, or any other fibre, than is actually the fact, prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, Gimbel Brothers, Inc., Docket 3273, December 7, 1938]

United States of America—Before Federal Trade Commission

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 7th day of December, A. D. 1938.

Commissioners: Garland S. Ferguson, Chairman; Charles H. March, Ewin L. Davis, William A. Ayres, Robert E. Freer.

ORDER TO CEASE AND DESIST

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the answer filed herein by respondent admitting all the material allegations of the complaint to be true, but denying that the acts complained of were intentional, and waiving the taking of further evidence and all other intervening procedure, and the Commission having made its findings as to the facts and its conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent, Gimbel Brothers, Inc., a corporation, its officers, representatives, agents and employees, in connection with the offering for sale, sale and distribution of ladies' panties and vests and other like apparel in interstate commerce or in the District of Columbia, do forthwith cease and desist:

1. From representing, through labeling, branding or advertising, or through any other means or device, or in any manner, that said articles or commodities are composed of or contain silk, wool or other material, when such is not the fact;

2. From representing in any manner that any such article or commodity contains a greater percentage, proportion or quantity of silk, wool, or any other fiber or material, than is actually contained therein.

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

ORDER TO CEASE AND DESIST

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the answers of respondents, Oval Wood Dish Corporation, Standard Carton Company, Sanitary Container Corporation, John M. Hart Company, Paper Plate & Tray,

[1] 3 F. R. 870.

Inc., and Keyes Fiber Company, and a stipulation as to the facts entered into between all of the respondents herein and W. T. Kelley, Chief Counsel for the Commission, which provides, among other things, that without further evidence or other intervening procedure the Commission may issue and serve upon respondents herein findings as to the facts and conclusion based thereon and an order disposing of the proceeding; and the Commission having made its findings as to the facts and its conclusion that said respondents have violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondents, Food Dish Associates of America, Allan P. Durgin, individually, and as Secretary, Treasurer and Manager thereof; Champion No-Leak Paper Dish Company, Southern Champion Tray Company, Keyes Fiber Company, Steele-Wallace Corporation, Berst-Forster-Dixfield Company, Stevens & Thompson Paper Company, Oval Wood Dish Corporation, Crescent Paper Dish Company, Inc., Standard Carton Company, Paper Specialty Corporation, St. Joe-Mullen Container Corporation, Paper Plate & Tray, Inc., Sanitary Container Corporation, American Paper Specialty Manufacturing Company, Lincoln Box Company, F. M. Longnecker, an individual, John M. Hart Company, Gooch & Company, Inc., and Newark Paper Company, and the respective officers, representatives, agents and employees of them and each of them, directly or indirectly by any corporate or other device, or in any other way acting in conjunction or in concert, in connection with the offering for sale, sale and distribution of food dish trays in interstate commerce or in the District of Columbia, do forthwith cease and desist from:

1. Fixing or maintaining the prices, whether uniform or otherwise, at which said products are thereafter to be sold, and from doing any act or thing whatsoever for the purpose of carrying out or executing any agreement, understanding, arrangement or conspiracy to fix or maintain such prices, including the establishment of a price zoning system.

2. Receiving and exchanging price lists exhibiting the prices, whether uniform or otherwise, at which the said commodities are thereafter to be sold, and from collecting and disseminating among themselves either directly or indirectly or through any one of them any information whatsoever with the purpose and effect of fixing or maintaining prices on said products, whether uniform or otherwise, and whether through discounts, zones, or any other method.

It is further ordered, That the respondents shall, within sixty days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

[Docket No. 3399]

IN THE MATTER OF METZLER-McKEAN CORPORATION, ETC.

SEC. 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product.* Representing that use of respondent's facial cremes and cosmetics will build new tissues to replace old and broken-down tissues; prevent or remove wrinkles; eliminate sallowness and enlarged pores; and produce the lovely clear glow of natural youth, and that use of its acne creme will relieve or assist in the removal of acne, prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, Metzler-McKean Corporation, etc., Docket 3399, December 7, 1938]

SEC. 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product.* Representing that respondent's "Youth Cup", or similar device, when used in conjunction with, or independent of, respondent's facial cremes and cosmetics, will prevent or remove wrinkles, prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, Metzler-McKean Corporation, etc., Docket 3399, December 7, 1938]

SEC. 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product.* Representing that respondent's lipstick and creme rouge are indelible, prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, Metzler-McKean Corporation, etc., Docket 3399, December 7, 1938]

SEC. 3.6 (a) (28) *Advertising falsely or misleadingly—Business status, advantages or connections of advertiser—Service.* Falsely representing, in connection with the sale of facial cremes and cosmetics, that respondent maintains a personal prescription service for its customers, prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, Metzler-McKean Corporation, etc., Docket 3399, December 7, 1938]

SEC. 3.6 (g) *Advertising falsely or misleadingly—Earnings:* SEC. 3.80 (g) *Securing agents or representatives falsely or misleadingly—Earnings.* Representing that salesmen, representatives or dealers who solicit purchase orders for respondent's facial cremes and cosmetics earn $15 a day or any other amount or amounts, whether expressed in terms of money or in words indicative of the same, unless such salesmen, etc., consistently earn such amount or amounts in the ordinary course of business under normal conditions and circumstances, prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, Metzler-McKean Corporation, etc., Docket 3399, December 7, 1938]

United States of America—Before Federal Trade Commission

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 7th day of December, A. D. 1938.

Commissioners: Garland S. Ferguson, Chairman; Charles H. March, Ewin L. Davis, William A. Ayres, Robert E. Freer.

IN THE MATTER OF METZLER-McKEAN, A CORPORATION, DOING BUSINESS UNDER ITS OWN NAME AND UNDER THE TRADE NAMES OF LADY FRANCES LABORATORIES AND LADY FRANCES

ORDER TO CEASE AND DESIST

This proceeding having been heard[1] by the Federal Trade Commission upon the complaint of the Commission, the answer of respondent, and a stipulation as to the facts entered into between the respondent herein and Joseph C. Fehr, Trial Attorney for the Commission, which provides, among other things, that without further evidence or other intervening procedure, the Commission may issue and serve upon the respondent herein findings as to the facts and conclusion based thereon and an order disposing of the proceeding, and the Commission having made its findings as to the facts and conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent Metzler-McKean, a corporation, doing business under its own name and under the trade names of Lady Frances Laboratories and Lady Frances, its officers, representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, and distribution of its facial cremes and cosmetics in interstate commerce or in the District of Columbia, do forthwith cease and desist from representing, directly or indirectly:

(1) That the use of such facial cremes and cosmetics will build new tissues to replace old and broken-down tissues;

(2) That the use of respondent's acne creme will relieve or assist in the removal of acne;

(3) That the use of such facial cremes and cosmetics will prevent or remove wrinkles;

(4) That the use of respondent's "Youth Cup", or similar device, when used in conjunction with, or independent of, respondent's facial cremes and cosmetics, will prevent or remove wrinkles;

[1] 3 F. R. 2228 DI.

(5) That the use of such facial cremes and cosmetics will eliminate sallowness and enlarged pores;

(6) That the use of such facial cremes and cosmetics will produce the lovely clear glow of natural youth;

(7) That respondent's lipstick and creme rouge are indelible;

(8) That respondent maintains a personal prescription service for its customers, when such is not the fact;

(9) That salesmen, representatives or dealers of respondent who are engaged in the business of soliciting purchase orders for respondent's facial cremes and cosmetics earn $15.00 a day or any other amount or amounts, whether expressed in terms of money or in words indicative of the same, unless such salesmen, representatives, or dealers of the respondent consistently earn such amount or amounts in the ordinary course of business under normal conditions and circumstances.

It is further ordered, That the respondent shall, within sixty days after service upon it of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

[SEAL] OTIS B. JOHNSON,
Secretary.

[Docket No. 3494]

IN THE MATTER OF LIPMAN BROTHERS

SEC. 3.6 (c) *Advertising falsely or misleadingly—Composition of goods:* SEC. 3.66 (a) *Misbranding or mislabeling—Composition.* Using, or assisting or cooperating in use of, words "Pure Dye", or any other word or words of similar meaning, in connection with offer, sale or distribution of women's wearing apparel under trade name "Klassic Kool", or of any other apparel composed in whole or in part of rayon, to describe, etc., fabrics or women's wearing apparel not composed wholly of unweighted silk, product of the cocoon of the silkworm, prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, Lipman Brothers, Docket 3494, December 7, 1938]

SEC. 3.6 (n) (2) *Advertising falsely or misleadingly — Nature — Product:* SEC. 3.66 (d) *Misbranding or mislabeling—Nature.* Advertising, describing, branding, labeling, or otherwise representing rayon fiber or yarn or thread, strands of fabric made therefrom, in connection with offer, sale or distribution of women's wearing apparel under trade name "Klassic Kool", or of any other apparel composed in whole or in part of rayon, as not being rayon, or without clear and unequivocal disclosure that such material or product is rayon, prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, Lipman Brothers, Docket 3494, December 7, 1938]

United States of America—Before Federal Trade Commission

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 7th day of December, A. D. 1938.

Commissioners: Garland S. Ferguson, Chairman; Charles H. March, Ewin L. Davis, William A. Ayres, Robert E. Freer.

IN THE MATTER OF JULIUS LIPMAN, HERMAN LIPMAN, AND SAMUEL LIPMAN, INDIVIDUALLY, AND AS COPARTNERS, TRADING AS LIPMAN BROTHERS

ORDER TO CEASE AND DESIST

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the answer of respondents, in which answer respondents admit all the material allegations of fact set forth in said complaint, and state that they waive all intervening procedure and further hearing as to said facts, and the Commission having made its findings as to the facts and conclusion that said respondents have violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondents, Julius Lipman, Herman Lipman, and Samuel Lipman, individually and as copartners, trading as Lipman Brothers, or under any other trade name, their representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale and distribution of women's wearing apparel designated by the trade name "Klassic Kool" or any other apparel composed in whole or in part of rayon, in interstate commerce, or in the District of Columbia, do forthwith cease and desist from:

1. Using, assisting or cooperating in the use of the words "Pure Dye", or any other word or words of similar import or meaning, to describe or designate fabrics or products which are not composed wholly of unweighted silk, the product of the cocoon of the silkworm.

2. Advertising, describing, branding, labeling, or otherwise representing, rayon fiber or yarn or thread, strands of fabric made therefrom, (a) as not being rayon; or (b) as being something other than rayon; or (c) without clear and unequivocal disclosure that such material or product is rayon.

It is further ordered That the respondents shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

[SEAL] OTIS B. JOHNSON,
Secretary.

[Docket No. 3565]

IN THE MATTER OF A. DE PINNA COMPANY, INC.

SEC. 3.6 (c) *Advertising falsely or misleadingly—Composition of goods:* SEC. 3.66 (a) *Misbranding or mislabeling—Composition.* Using or causing use by others of words or terms "Silk/Rayon", "Silk-and-Rayon", "Rayon/Silk", or "Rayon-and-Silk", or any other words or terms of similar import and meaning, in connection with offer, sale and distribution of women's wearing apparel, in any manner to describe, etc., cloth or fabric in form of dresses or in any other form, unless such product is composed predominantly by weight of silk combined solely with rayon, prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, A. De Pinna Company, Inc., Docket 3565, December 7, 1938]

United States of America—Before Federal Trade Commission

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 7th day of December, A. D. 1938.

Commissioners: Garland S. Ferguson, Chairman; Charles H. March, Ewin L. Davis, William A. Ayres, Robert E. Freer.

ORDER TO CEASE AND DESIST

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, and the answer of respondent, in which answer respondent admits all the material allegations of fact set forth in said complaint, and states that it waives all intervening procedure and further hearing as to said facts, and the Commission having made its findings as to the facts and conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent, A. De Pinna Company, Inc., its officers, representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of women's wearing apparel, in interstate commerce or in the District of Columbia, do forthwith cease and desist from:

1. The use, or from causing the use by others, of the words or terms "Silk/Rayon" and "Silk-and-Rayon", or any other words or terms of similar import and meaning, in any manner to describe or to designate cloth or fabric in the form of dresses or in any other form unless such cloth or fabric is composed predominantly by weight of silk combined solely with rayon.

2. The use, or from causing the use by others, of the words or terms "Rayon/Silk" or "Rayon and Silk", or any other words or terms of similar import and meaning, in any manner to describe or to designate cloth or fabric in the form

of dresses or in any other form unless such cloth or fabric is composed predominantly of rayon combined solely with silk.

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

[Docket No. 3574]

IN THE MATTER OF THE POSTAL COMPANY

SEC. 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product.* Representing, directly or indirectly, that respondent's fortune telling, dream interpreting, and kindred books and booklets will enable the readers thereof to accurately and truthfully solve their most intimate and personal problems, tell their fortunes, interpret their dreams, take the guesswork out of life, correctly advise the readers thereof how to win a husband, and what they can and cannot do in order to obtain happiness and success in life, and making any other representations of the same or similar tenor and meaning, prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, The Postal Company, Docket 3574, December 7, 1938]

United States of America—Before Federal Trade Commission

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 7th day of December, A. D. 1938.

Commissioners: Garland S. Ferguson, Chairman; Charles H. March, Ewin L. Davis, William A. Ayres, Robert E. Freer.

IN THE MATTER OF WALTER C. ELLY, AN INDIVIDUAL, TRADING AS THE POSTAL COMPANY

ORDER TO CEASE AND DESIST

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the answer of respondent, in which answer respondent admits all the material allegations of fact set forth in said complaint, and states that he waives all intervening procedure and further hearing as to the said facts, and the Commission having made its findings as to the facts and conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent, Walter C. Elly, an individual, trading as The Postal Company, or under any other trade name, his representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of his books and booklets in interstate commerce or in the District of Columbia, do forthwith cease and desist from:

(1) Representing, directly or indirectly, that said books and booklets will enable the readers thereof to accurately and truthfully solve their most intimate and personal problems, tell their fortunes, interpret their dreams and take the guesswork out of life;

(2) Representing, directly or indirectly, that said books and booklets will correctly advise the readers thereof how to win a husband and what they can and cannot do in order to obtain happiness and success in life;

(3) Making any other representations of the same or similar tenor and meaning,

It is further ordered, That the respondent shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which he has complied with this order.

By the Commission.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

BUREAU OF MARINE INSPECTION AND NAVIGATION

EXTRA COMPENSATION FOR OVERTIME SERVICES

Pursuant to the power conferred by and the authority contained in Section 6 of the Act of May 27, 1936 (Public Law No. 622, 74th Cong., 49 Stat. 1380), as amended by the Act of May 11, 1938 (Public Law No. 503, 75th Cong., 3d Session, 52 Stat. 345), and by virtue of the authority conferred by Section 7 of the Act of May 27, 1936 (49 Stat. 1380), the following regulations relative to extra compensation for overtime services of local inspectors of steam vessels and their assistants, United States Shipping Commissioners and their deputies and assistants, and Customs officers and employees are hereby prescribed.

1. Local inspectors and their assistants, United States shipping commissioners and their deputies and assistants, and customs officers and employees, while performing duties in connection with the inspection of vessels or their equipment, supplying or signing on or discharging crews of vessels, at night or on Sundays and holidays, shall receive extra compensation, to be paid by the master, owner, or agent of the vessel.

2. The rates of extra compensation are payable in cases where the services of officers or employees have been duly requested and the officers or employees have reported for duty, even though no actual service may be performed.

3. The extra compensation for overtime services is in addition to the regular compensation paid by the Government in the case of officers and employees whose compensation is fixed on the ordinary per diem basis and those receiving compensation per month or per annum.

4. Extra compensation for "waiting time" will not be allowed unless and until an officer or employee actually reports for duty.

5. For the purpose of computing extra compensation the word "night" will be construed to mean the time from 5 p. m., to 8 a. m., and the term "holiday" shall include only national holidays, viz, January 1, February 22, May 30, July 4, the first Monday in September, November 11, Thanksgiving Day (when designated by the President), and December 25, and such other days as may be made national holidays.

6. For service performed after 5 p. m., on any day, including Sundays and holidays, one-half day's pay will be allowed for each two hours or fraction thereof of at least one hour that the overtime extends beyond 5 p. m., provided that the overtime is not less than one hour. The maximum amount which may be paid an employee for services between 5 p. m., and 8 a. m., shall not exceed two and one-half days' pay.

7. In computing the amount earned for overtime at the rate of "one-half day's pay for each two hours or fraction thereof of at least one hour that the overtime extends beyond 5 p. m.," one-half day's pay shall be one-half of the gross daily rate of pay; each two hours is the time period for the purpose of computation; at least one hour means the minimum service in each period for which extra pay may be granted. If service continues beyond a two hour period, it must extend for at least one hour into the following two hour period to be entitled to extra pay for the second period. When the overtime extends beyond 5 p. m., payment of extra compensation from 5 p. m., for services consisting of at least one hour is authorized, even though such services may not actually begin until 7 p. m., 9 p. m., or later: Provided, however, That the officer rendering the service remained on duty from 5 p. m., in which case the time between 5 p. m., and the time of beginning the actual service shall be computed as waiting time, and where the actual services begin as late as 9 p. m., there should be an affirmative statement that the officer was required to remain on duty between 5 p. m., and 9 p. m., if a charge for waiting time is made.

8. In computing extra compensation where the services rendered are in broken periods and less than two hours intervene between such broken periods, the time served should be combined with the waiting time and computed as continuous service.

9. Where two hours or more intervene between broken periods, one-half day's extra pay will be allowed for each distinct two hour period or part of a two hour period, if waiting time and actual service rendered within each period consists of at least one hour.

10. The same construction should be given the act when charging for waiting time as governs the charge for services actually rendered. No charge should be made unless after having reported for duty the waiting time amounts to at least one hour.

11. For authorized services performed on Sundays and holidays between 8 a. m., and 5 p. m., officers and employees shall be entitled to 2 days' pay in addition to their regular compensation.

12. When employees are in travel status overtime shall apply the same as at official station.

13. Payment of extra compensation for overtime services shall be subject to appropriations being made therefor by Congress.

14. Assessment and collection of fees against steamship companies for overtime services shall be made even though the payment to employees for such services may not be made until funds are appropriated for that purpose.

15. An application on a form prescribed by the Director of the Bureau of Marine Inspection and Navigation, and approved by the Secretary of Commerce, shall be filed with the office being requested to furnish overtime services before such assignment can be made.

16. Overtime services shall be billed to the steamship companies on collection voucher provided for that purpose. Remittance shall be made by postal money order or certified check payable to the "Collector of Customs, Treasury Department" and forwarded to that officer at the port indicated on the voucher, who shall in turn deposit such remittance to a properly designated receipt account.

17. Protests against the exaction of extra compensation shall be forwarded to the Director, Bureau of Marine Inspection and Navigation.

Approved December 17, 1938.

[SEAL] DANIEL C. ROPER,
Secretary of Commerce.

TITLE 37—PATENTS AND COPYRIGHTS

COPYRIGHT OFFICE

REGISTRATION OF CLAIMS TO COPYRIGHT

RULE AMENDED

On December 15, 1938, Rule 45 of the Rules and Regulations for the Registration of Claims to Copyright (Copyright Office Bulletin No. 15) was, on the recommendation of the Register of Copyrights, approved by the Librarian of Congress, amended to read as follows:

"After the assignment has been duly recorded, the assignee may substitute his name for that of the assignor in the copyright notice on the work assigned. In addition to the fee for recording and certifying an assignment specified in Rule 44, the assignee shall pay a fee of ten cents for the placing of record in the Copyright Office the transfer of ownership of each title of a book or other article which is the subject matter of such assignment."

C. L. BOUVÉ,
Register of Copyrights.

Approved:

HERBERT PUTNAM,
Librarian of Congress.

DECEMBER 15, 1938.

TITLE 41—PUBLIC CONTRACTS

DIVISION OF PUBLIC CONTRACTS

DETERMINATION OF PREVAILING MINIMUM WAGES IN MANUFACTURE OF AEROPLANES, AIRCRAFT ENGINES, PROPELLERS, ACCESSORIES, AND MANUFACTURING AND FINISHING OF PARTS

This matter is before me pursuant to Section 1 (b) of the Act of June 30, 1936 (49 Stat. 2036; 41 U. S. C. Sup. III 35) entitled "An Act to provide conditions for the purchase of supplies and the making of contracts by the United States, and for other purposes." The Public Contracts Board, created in accordance with Section 4 of the said Act by Administrative Order dated October 6, 1936, held a hearing on March 10, 1938 in the above-entitled matter.

Notice of this hearing was sent to all known members of the industry, to trade unions, to trade publications, and to trade associations in the field. Invitation to attend the hearing was extended through the national press to all other interested parties.

Testimony at the hearing was presented by the Aeronautical Chamber of Commerce, by manufacturers, and by representatives of labor unions. On the basis of the record the Board made its recommendations that the Secretary find the prevailing minimum wage in the industry to be 60 cents an hour or $24.00 per week of 40 hours, and that the Secretary grant a tolerance not to exceed 15 per cent of the workers in any one establishment for those workers who are in fact learners or apprentices and provided that they be paid not less than 40 cents an hour, or $16.00 per week of 40 hours.

On June 24, 1938, the Administrator circularized the Board's recommendations in order that all parties might have full opportunity to register their objection or approval before the decision in the matter was made by the Secretary of Labor.

As a result of the large number of protests received from both employers and employees a second hearing was held in the matter on September 8, 1938 to permit the parties to produce additional evidence on controverted fact issues. Notice of the second hearing was sent to all the parties to whom the original notice was sent.

The Board advises me and the evidence of record indicates that instruments, accessories, radios, and parachutes are manufactured extensively by firms which are, not manufacturers of aeroplanes. For this reason these products will not be considered as the products of the aeroplane industry as defined for the purpose of this minimum wage determination.

The Board advises me and the evidence of record indicates that the Government does not make extensive purchases from the light or commercial branch of the aeroplane industry; that that branch pays a lower minimum than that prevailing in the manufacture of heavy type aeroplanes; and that the production methods of the manufacturers of light aeroplanes differ from the methods used in the manufacture of heavy aeroplanes. Accordingly, light or commercial aircraft shall not be considered products of the aeroplane industry as defined for the purposes of this decision.

The evidence of record indicates that there are approximately 31,500 workers in the industry as defined. The Aeronautical Chamber of Commerce has furnished information which shows that 9,085 employees receive 60 cents an hour or less which has been indicated to be the minimum entrance wage paid to semi-skilled or skilled mechanics. Of these 9,085 employees 3,922 are engaged either in occupations which pay less than 60 cents an hour, or as laborers. Few laborers in the industry receive more than 55 cents an hour, but some receive as high as 60 cents an hour. A wage frequency table showing the distribution of the 3,922 employees in wage intervals of 2.5 cents shows that the first significant concentration falls in the interval between 50 and 52.5 cents. In this interval appear 897 of the 3,922 employees.

The first significant concentration in a wage table showing by 2.5 cent intervals the wage distribution of all employees who receive 60 cents or less is also in the 50 to 52.5 cents bracket.

A considerable number of the employees receiving 60 cents per hour or less are engaged in occupations which never pay less than 50 cents an hour. The nature of these occupations indicates that they are skilled or semi-skilled occupations of the type in which learning periods may be necessary. It therefore appears that no tolerance below 50 cents for learners is necessary.

In the light of all the evidence now of record, the Board has recommended that

the minimum wage for the industry be found to be 50 cents an hour, or $20.00 per week of 40 hours, arrived at either upon a time or piece work basis, provided that apprentices may be employed at lower rates if their employment conforms to the standards of the Federal Committee on Apprenticeship.

I have examined the findings of the Board and the record of the hearings, together with the briefs filed, and in the light of the facts

I hereby determine the minimum wages for employees engaged in the performance of contracts with agencies of the United States Government, subject to the provisions of the Public Contracts Act (49 Stat. 2036; 41 U. S. C. Sup. III 35) for the manufacture or supply of aeroplanes, aircraft engines, and aircraft propellers, with the exception of light or commercial aircraft as distinguished from military and large transport aircraft, and with the exception of propellers and engines for light or commercial aircraft, to be 50 cents an hour, or $20.00 per week of 40 hours, arrived at either upon a time or piece work basis; provided that apprentices may be employed at lower rates if their employment conforms to the standards of the Federal Committee on Apprenticeship.

This determination shall be effective, and the minimum wage hereby established shall apply to all such contracts bids for which are solicited on or after December 29, 1938.

Dated, December 14, 1938.

[SEAL] FRANCES PERKINS,
Secretary.

[F. R. Doc. 38-3788; Filed, December 17, 1938; 11:18 a. m.]

TITLE 46—SHIPPING

UNITED STATES MARITIME COMMISSION

[General Order No. 28]

REGULATIONS REGARDING SELECTION AND TRAINING OF CADET OFFICERS AND CADETS UPON VESSELS OPERATED UNDER SUBSIDY AGREEMENTS AND FOR THE ACCOUNT OF THE UNITED STATES MARITIME COMMISSION

At a regular session of the United States Maritime Commission held at its office in Washington, D. C., on December 13, 1938.

General Order No. 23 and amendments[1] thereto are hereby rescinded.

Application of this order.—This order is prescribed to regulate cadet officer and cadet selection and training on vessels receiving an operating differential subsidy as provided for in Section 23 of the standard long-range subsidy contracts, pursuant to provisions of the Merchant Marine Act of 1936, as amended, to the end that a merchant marine with a trained and efficient citizen personnel may be developed.

[1] 3 F. R. 639, 781 DI.

Persons in training under the system hereby established shall be designated "Cadet Officers" and "Cadets", pursuant to requirements hereinafter set forth.

CADET OFFICERS

1. *Qualifications*—(*a*) *Age.*—The applicant must be not less than 19 nor more than 25 years of age. (If less than 21 years of age, the application must contain written consent of a parent or guardian.)

(*b*) *License.*—The applicant must be the possessor of a license as Third Mate or Third Assistant Engineer.

(*c*) *Physical condition.*—The applicant must possess such physical qualifications as the Commission may prescribe.

(*d*) *Character.*—The applicant shall produce evidence of good moral character in the community in which he resides.

2. *Minimum wages and allowances.*—Minimum compensation for cadet officers shall be at the rate of $75.00 per month. Cadet officers shall receive the perquisites, privileges, and travel and subsistence allowances of a licensed officer.

3. *Quarters.*—Cadet officers shall be quartered aboard ship with licensed officers.

4. *Selection and assignment.*—(*a*) Applicants for cadet officer ratings shall be placed on an eligible list when it is determined the qualifications hereinbefore prescribed have been met.

(*b*) Assignments shall be made from the eligible list with preference to the candidates who have been on such eligible lists longest in point of time.

5. *Limitation.*—Cadet officers shall remain in such rating for a period of not longer than one year, except that if a voyage is commenced before the expiration of the year, the rating shall not be impaired until the conclusion of such voyage. The rating may be extended, for cause shown, in the discretion of the Commission.

CADETS

6. *Qualifications.*—(*a*) *Age.*—The applicant must be not less than 17 nor more than 25 years of age. (If less than 21 years of age, the application must contain written consent of a parent or guardian.)

(*b*) *Determination of eligibility.*—An official eligible list of cadets shall be compiled as follows: (1) An examination shall be conducted in every Congressional District in the United States. The subject matter of such examination and a minimum passing mark shall be approved by the Commission. For purposes of this order, the District of Columbia, Alaska and Hawaii shall be deemed the equivalent of Congressional Districts.

(2) Candidates shall be placed upon an eligible list when they attain the minimum passing mark and, in addition, either (i) the highest mark in the Congressional District in which the examination is taken, or (ii) a mark as high as the lowest mark qualifying under "(i)".

(3) The names on the eligible list shall be listed in the order of national competitive standing.

(*c*) *Physical condition.*—The applicant must possess such physical qualifications as the Commission may prescribe.

(*d*) *Character.*—The applicant shall produce evidence of good moral character in the community in which he resides.

7. *Minimum wages and allowances.*—Minimum compensation for cadets shall be at the rate of $50.00 per month.

8. *Travel allowance.*—While traveling in course of employment, cadets shall be furnished allowance for subsistence at the rate of $3.25 per day, except where subsistence is included with transportation.

9. *Subsistence.*—When meals are not furnished, cadets shall receive a subsistence allowance of $2.50 per day. When not furnished with quarters, they shall receive an allowance of $1.75 per night for lodging.

10. *Quarters.*—Cadets shall be quartered aboard ship with the licensed personnel.

11. *Selection and assignment.*—After examinations have been conducted in all Congressional Districts an eligible list for cadets shall be compiled as follows:

(*a*) The candidate receiving the highest mark in each Congressional District shall be placed on the eligible list, in the order of competitive standing.

(*b*) Any candidate receiving a mark higher than the lowest mark received by any candidate placed on the eligible list under the provisions of sub-section (a) of this section, shall also be placed on the eligible list, in his place of competitive standing on the entire list.

12. *Assignment.*—Cadets shall be assigned by the Maritime Commission to vessels in the order of their standing on the eligible list, subject to the approval of the cadet by the Master of the vessel to which he is assigned.

13. *Present candidates on eligible list.*—Those applicants now on the eligible list prescribed by General Order No. 23, Amended, shall be given equal opportunity to take the examination for eligibility under this Order. Upon compilation of the eligible list, prescribed by this order, the eligible list prescribed by General Order No. 23, Amended, shall be cancelled.

14. *Present cadets.*—Nothing contained in Sections 6, 11 or 12 shall be construed to affect or change the existing status of cadets now assigned to vessels. In all other respects, they shall be amenable to the provisions of this order.

ADMINISTRATION

15. Administration of the regulation and procedure required by this order is placed under the jurisdiction of the member of the Commission having supervision over training.

Training Courses

16. The Commissioner in charge of training shall recommend to the Commission such plans and courses, including shore training and extension courses for cadets enrolled in the Maritime Service as are deemed requisite for the development of competent merchant marine officers, and, upon approval by the Commission shall administer the same.

General

17. Nothing herein contained shall be construed in any manner to affect the operation of the United States Maritime Service as established by the Commission's General Order No. 25. Provisions of this order shall also apply to vessels owned by and operated for the account of the United States Maritime Commission.

Effective Date

18. This order shall become effective and operative as of January 1, 1939, except that the present eligible list shall remain in effect until such time as the competitive eligible list provided for herein may be established by the Commissioner in charge of training.

[SEAL] W. C. PEET, Jr.,
Secretary.

TITLE 49—TRANSPORTATION AND RAILROADS

INTERSTATE COMMERCE COMMISSION

[Ex Parte No. 72 (Sub-No. 1)]

ORDER IN THE MATTER OF REGULATIONS CONCERNING THE CLASS OF EMPLOYEES AND SUBORDINATE OFFICIALS THAT ARE TO BE INCLUDED WITHIN THE TERM "EMPLOYEE" UNDER THE RAILWAY LABOR ACT

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 7th day of December, A. D. 1938.

It appearing, That the Dining Car Employees Union, Local No. 351 of the American Federation of Labor, has filed a petition herein requesting this Commission to amend or interpret its orders[1] defining and classifying employees and subordinate officials under paragraph 5 of section 1 of the Railway Labor Act,[2] as amended, so as to include the work of the persons described in the next succeeding paragraph hereof, and full investigation of the matters and things involved having been made, and the division having, on the date hereof, made and filed a report containing its findings of fact and conclusions thereon, which said report is hereby referred to and made a part hereof: [1]

It is ordered, That the work defined as that of an employee or subordinate official in orders of this Commission now in effect be, and it is hereby, amended and interpreted so as to include the work of persons in the dining-car service on the Atchison, Topeka & Santa Fe Railway Company and affiliated lines embraced in the Santa Fe system, under the contract with Fred Harvey, and thus bring the persons performing such work within the term "employee" as used in the fifth paragraph of section 1 of the Railway Labor Act, as amended.

By the Commission, division 3.

NOTICE UNDER PACKERS AND STOCKYARDS ACT[2]

DECEMBER 17, 1938.

To G. T. YOUNG,
Doing business as Brewton Livestock Commission Company, Brewton, Ala.

Notice is hereby given that after inquiry, as provided by Section 302 (b) of the Packers and Stockyards Act, 1921 (7 U. S. C. Sec. 202 (b)), it has been ascertained by me as Secretary of Agriculture of the United States that the stockyard known as Farmers Community Sale, at Brewton, State of Alabama, is subject to the provisions of said Act.

The attention of stockyard owners, market agencies, dealers, and other persons concerned is directed to Sections 303 and 306 (7 U. S. C. Secs. 203 and 207) and other pertinent provisions of said Act and the rules and regulations issued thereunder by the Secretary of Agriculture.

[SEAL] H. A. WALLACE,
Secretary of Agriculture.

[File No. 43-163]

IN THE MATTER OF FEDERAL LIGHT & TRACTION COMPANY

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

Federal Light & Traction Company, a registered holding company, and a subsidiary of Cities Service Power & Light Company, also a registered holding company having filed a declaration with this Commission pursuant to Section 7 of the Public Utility Holding Company Act of 1935 regarding the issue and sale of $1,500,000 collateral promissory notes to Irving Trust Company, New York; and

A hearing on said declaration having been held[2] after appropriate notice; the record in this matter having been examined; and the Commission having made and filed its findings herein;

It is ordered, That said declaration of Federal Light & Traction Company be and become effective forthwith subject to the following terms and conditions:

1. That the issue and sale of the notes shall be effected in accordance with the terms and conditions of, and for the purposes represented by, said declaration.

2. That within ten days after the issue and sale of these notes, the declarant shall file with this Commission a certificate of notification showing that such sale has been effected in accordance with the terms and conditions of, and for the purposes represented by, said declaration.

[Fuel No. 43-157]

IN THE MATTER OF UNITED FUEL GAS COMPANY

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

United Fuel Gas Company, a subsidiary company of Columbia Gas & Electric Corporation, a registered holding company, having filed a declaration pursuant to Section 7 of the Public Utility Holding Company Act of 1935 regarding the reduction of the par value of its authorized and outstanding 300,000 shares from a par value of $100 to $1 per share; a public hearing having been held[1] on the declaration as amended, pursuant to appropriate notice; declarant having prior to the entry of the findings, opinion and order of the Commission, waived a trial examiner's report, submission of proposed findings of fact to the Commission or requested findings of fact by counsel for the Commission, the filing of briefs with the Commission, and oral argument before the Commission; and the Commission having considered the record in this matter and having made and filed its findings herein:

It is ordered, That said declaration be and become effective forthwith, subject, however, to the following terms and conditions:

(1) All corporate action and all matters connected therewith or related thereto shall be performed in all respects as set forth in, and for the purposes represented by, the declaration;

(2) No charges shall be made either to "Special Capital Surplus" or to "Surplus at December 31, 1937" unless thirty days' prior notice of the making of such charge be given to this Commission, in which event the Commission reserves jurisdiction, after notice and opportunity for hearing, to disapprove such charge, on the basis of the record herein and any additional evidence that may be adduced by any interested party;

(3) With respect to any of such "Special Capital Surplus" or "Surplus at December 31, 1937" which is not used for the purposes outlined by the declarant, jurisdiction is reserved by this Commission with respect to the ultimate disposition of such balances;

(4) Except after thirty days' notice to this Commission as provided in the second condition herein, no charges shall be made to depletion or retirement reserve accounts as at December 31, 1937 except to remove therefrom the amounts applicable to property depleted, sold, abandoned or replaced in the normal conduct of declarant's business.

(5) All published balance sheets of declarant shall contain an appropriate footnote to the effect that neither "Special Capital Surplus" or "Surplus at December 31, 1937" are available for the payment of dividends.

By the Commission.

IN THE MATTER OF PUBLIC SERVICE COMPANY OF COLORADO

ORDER GRANTING REQUEST FOR WITHDRAWAL OF DECLARATION

Public Service Company of Colorado having, on November 25, 1938, filed a declaration pursuant to Section 7 of the Public Utility Holding Company Act of 1935 relating to the issue and sale of $40,000,000 of 3¾%, Series due 1963, of First Mortgage Bonds, $10,000,000 of 4% Sinking Fund Debentures due 1948, and 50,000 shares of 5½% Cumulative First Preferred Stock, Series due 1948, $100 par, and

A hearing having been held[1] on such application after appropriate notice and the declarant thereafter and before action taken thereon by the Commission having on December 15, 1938, requested the withdrawal of said declaration;

It is ordered, That the aforesaid request of the declarant, dated December 15, 1938, be, and hereby is, granted.

IN THE MATTER OF CONSOLIDATED ELECTRIC AND GAS COMPANY

NOTICE OF AND ORDER FOR HEARING

An application pursuant to section 3 (a) of the Public Utility Holding Company Act of 1935, having been duly filed with this Commission by the above-named party;

It is ordered, That a hearing on such matter be held on January 12, 1939, at

9:45 o'clock in the forenoon of that day, at the Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C. On such day the hearing-room clerk in room 1102 will advise as to the room where such hearing will be held. At such hearing, if in respect of any declaration, cause shall be shown why such declaration shall become effective.

It is further ordered, That Charles S. Lobingier or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commisison's Rules of Practice to continue or postpone said hearing from time to time.

Notice of such hearing is hereby given to such declarant or applicant and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before January 6, 1939.

The matter concerned herewith is in regard to the application of applicant seeking exemption of The Islands Gas and Electric Company, Campagnie d' Eclairage Electrique des Villes de Port-au-Prince et du Cap Haitien, Campania Electrica de Santo Domingo, C. por A, Sociedad Anonima Industrial del Este, Gas y Electricidad, S. A., Manila Gas Corporation, Union Electrica de Canarias, S. A., Tranvias de Las Palmas, S. A., and Porto Rico Gas & Coke Company as subsidiaries of applicant from all the provisions of the Public Utility Holding Company Act of 1935, it being alleged that such companies derive no material part of their income, directly or indirectly from sources within the United States and that none of such companies is a public-utility company operating in the United States.

By the Commission.

[File No. 32-125]

IN THE MATTER OF LEXINGTON WATER POWER COMPANY, SOUTHEASTERN INVESTING CORPORATION

NOTICE OF AND ORDER FOR HEARING

Applications pursuant to sections 6 (b) and 10 (a) (1) of the Public Utility Holding Company Act of 1935, having been duly filed with this Commission by the above-named parties; and it appearing that the hearings on such applications should be joined and consolidated;

It is ordered, That a hearing on such matter be held on January 17th, 1939, at 10:00 o'clock in the forenoon of that day, at the Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C. On such day the hearing-room clerk in room 1102 will advise as to the room where such hearing will be held. At such hearing, if in respect of any declaration, cause shall be shown why such declaration shall become effective.

It is further ordered, That Willis E. Monty or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice to continue or postpone said hearing from time to time.

Notice of such hearing is hereby given to such declarant or applicant and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before January 10th, 1939.

The matter concerned herewith is in regard to an application of Lexington Water Power Company, a direct subsidiary of Southeastern Electric and Gas Corporation, and an indirect subsidiary of General Gas & Electric Corporation, Associated Gas and Electric Corporation and Associated Gas and Electric Company, pursuant to section 6 (b), for an exemption from the provisions of section 6 (a) of the issuance of its 5% Serial Debentures in the aggregate principal amount of $3,000,000. Said debentures are to mature serially at the rate of $250,000 principal amount in each of the years 1939 to 1950, inclusive. Lexington Water Power Company proposes to issue these debentures to Southeastern Investing Corporation in exchange for a like principal amount of Lexington Water Power Company's presently outstanding 5½% Convertible Sinking Fund Debentures due January 1, 1953. The 5½% Convertible Sinking Fund Debentures to be reacquired are to be cancelled.

Lexington Water Power Company has also filed an application pursuant to section 10 (a) (1) of the Act seeking approval of the acquisition by it of the 5½% Convertible Sinking Fund Debentures which it hopes to acquire by exchange for the 5% Serial Debentures it proposes to issue.

Southeastern Investing Corporation has filed an application pursuant to section 10 (a) (1) seeking approval for the acquisition of the 5% Serial Debentures which Lexington Water Power Company proposes to issue. At the request of the applicant companies these applications have been consolidated and it is proposed to treat them as parts of one proceeding.

It is stated in the application that this proposed issue has not yet been authorized by the State commission. It is anticipated that such an order will be forthcoming shortly after January 1, 1939.

By the Commission.

IN THE MATTER OF KENTUCKY-TENNESSEE LIGHT AND POWER COMPANY, ASSOCIATED ELECTRIC COMPANY AND CENTRAL U. S. UTILITIES COMPANY

ORDER PERMITTING DECLARATIONS TO BECOME EFFECTIVE AND APPROVING APPLICATION ON CONDITIONS

Kentucky-Tennessee Light and Power Company having filed with this Commission a declaration pursuant to Section 7 of the Public Utility Holding Company Act of 1935 regarding the sale of its note in the principal amount of $750,000 to be dated on or about November 14, 1938, and to mature on or about October 14, 1939; and

Central U. S. Utilities Company having filed a declaration pursuant to Section 7 of the Public Utility Holding Company Act of 1935 regarding an agreement by such company to advance to Kentucky-Tennessee Light and Power Company from time to time, such funds as the latter company may need in addition to its own cash to make periodic payments for principal and interest on the aforesaid note as hereinafter indicated.

Associated Electric Company and Central U. S. Utilities Company, registered holding companies, having filed a joint application pursuant to Section 12 (d) of the Public Utility Holding Company Act of 1935 for permission for Pennsylvania Investing Corporation to pledge $7,256,600 principal amount of Kentucky-Tennessee Light and Power Company First and Refunding Mortgage 5% Bonds, due May 1, 1954; and

A public hearing having been held[1] after appropriate notice; the Commission having heard oral argument; the record in this matter having been duly considered; and the Commission having filed its findings herein;

It is ordered, That the declaration of Kentucky-Tennessee Light and Power Company, as amended, and the declaration of Central U. S. Utilities Company be permitted to become effective and the joint application of Associated Electric Company and Central U. S. Utilities Company be approved, all, however, subject to the following conditions:

(1) That the face amount of the proposed note issue be limited to $560,000.

(2) That the note mature eleven months from the date of issue.

(3) That the face amount of the note be reduced from time to time by monthly payments, for the first five months, of $50,000 each plus accrued interest, and for the seventh, eight, ninth and tenth months of $60,000 each plus accrued interest and that payment of the total unpaid balance be made at the date of maturity.

(4) That no change be made increasing the rate or basis upon which interest is presently accrued on the open account payable to Central U. S. Utilities Company.

(5) That Kentucky provide for depreciation or retirement of fixed assets by charging operating expense each year with an amount equal to 20% of gross operating revenues (after deducting the amounts expended for purchased power and purchased natural gas) less the amount expended for maintenance.

(6) That the note agreement with the bank shall contain a provision that in the event of any default on the proposed note, the bonds collateralizing the same shall not be sold by the bank except at an advertised sale and after written notice to the interested parties.

(7) So long as there is any unpaid balance on the proposed note or any note issued in renewal or substitution therefor or for the purpose of providing funds to liquidate the same, no payments of cash be made by the declarant (a) on the open account now owed by it to Central U. S. Utilities Company, (b) for interest on such open account heretofore or hereafter accrued, (c) for dividends heretofore or hereafter declared by it, (d) for redemption or retirement in whole or in part of its bonds except, out of the proceeds of sales of its physical property, to the extent required by the identures under which the said bonds or securities of its parents were issued, (e) for interest heretofore or hereafter accrued on its bonds, or (f) otherwise, to its parents, directly or indirectly (except that declarant may repay any sums hereafter advanced by its parents, directly or indirectly, provided that any such advances and repayments thereof shall be recorded in a separate account on the books of the company), and

(8) That the issue and sale of the aforesaid promissory note, the advancing of any funds by Central U. S. Utilities Company to meet the periodic payments on the proposed note, and the proposed pledge by Pennsylvania Investing Corporation shall be effected in substantial compliance with the terms and conditions set forth in, and for the purposes represented by said declarations and application and, that within ten days after the said transactions the declarants or applicants, as the case may be, shall file with this Commission their Certificates of Notification showing that such transactions have been effected in substantial compliance with the terms and conditions set forth in, and for the purposes represented by, said declaration.

By the Commission.

IN THE MATTER OF DOVER CASUALTY INSURANCE COMPANY

NOTICE OF AND ORDER FOR HEARING

An application pursuant to section 2 (a) (8) of the Public Utility Holding Company Act of 1935, having been duly filed with this Commission by the above-named party;

It is ordered, That a hearing on such matter be held on January 9, 1939, at 10:00 o'clock in the forenoon of that day, at the Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C. On such day the hearing-room clerk in room 1102 will advise as to the room where such hearing will be held. At such hearing, if in respect of any declaration, cause shall be shown why such declaration shall become effective.

It is further ordered, That Robert P. Reeder or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice to continue or postpone said hearing from time to time.

Notice of such hearing is hereby given to such declarant or applicant and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before January 4, 1939.

The matter concerned herewith is in regard to application of Dover Casualty Insurance Company, of Wilmington, Delaware, for an order declaring it not to be a subsidiary company of Associated Gas and Electric Company, Associated Gas and Electric Corporation, and Associated Utilities Corporation.

By the Commission.

[SEAL] FRANCIS P. BRASSOR,
Secretary.

IN THE MATTER OF DOVER CASUALTY INSURANCE COMPANY

ORDER FOR CONSOLIDATION OF HEARINGS FOR STATED PURPOSES

The Commission now having pending before it the following related matters:

(1) *File No. 31-453.*—Application of Dover Casualty Insurance Company pursuant to Section 2 (a) (8) of the Public Utility Holding Company Act of 1935 to be declared not to be a subsidiary company of Associated Gas and Electric Company, Associated Gas and Electric Corporation and Associated Utilities Corporation.

(2) *File No. 60-4.*—Proceeding pursuant to Section 2 (a) (8) (B) of said Act to determine whether said Dover Casualty Insurance Company shall be declared to be a subsidiary company of Associated Gas and Electric Company, Associated Gas and Electric Corporation, and Associated Utilities Corporation, or any of them.

(3) *File No. 60-5.*—Proceeding pursuant to Section 2 (a) (11) (D) of said Act to determine whether said Dover Casualty Insurance Company shall be declared to be an affiliate of Associated Gas and Electric Company, Associated Gas and Electric Corporation, and Associated Utilities Corporation, or any of them.

It appearing that such proceedings involve common questions of law and fact; that evidence offered in respect to each matter may have a bearing on the others; that the parties in the respective matters are identical; and that substantial saving in time, effort and expense will result if the hearings on said matters are consolidated so that they may be heard as one matter and so that the evidence adduced in each matter may stand as evidence in the others for all purposes;

It is ordered, That the matters referred to in (1), (2), and (3) hereof, Commission's File Nos. 31-453, 60-4, and 60-5 be and they hereby are consolidated for the purpose of hearings thereon. The Commission reserves the right, if at any time it may appear conducive to an orderly and economical disposition of any of such matters, to order a separate hearing with respect to the same or any part thereof, or to close the record with respect thereto and/or to take action thereon prior to closing the record on said other matters.

By the Commission.

[File No. 60-4]

IN THE MATTER OF DOVER CASUALTY INSURANCE COMPANY

NOTICE OF AND ORDER FOR HEARING DECLARING SAID COMPANY TO BE A SUBSIDIARY OF CERTAIN HOLDING COMPANIES

The Commission having reasonable cause to believe that Dover Casualty Insurance Company, whose address is Delaware Trust Building, Wilmington, Delaware, stands in such relation to the following holding companies and each of them:

Associated Gas and Electric Company, of Ithaca, New York;
Associated Gas and Electric Corporation, of Wilmington, Delaware; and
Associated Utilities Corporation, of Wilmington, Delaware;

that its management and policies are subject to a controlling influence, directly or indirectly, by such holding companies (either alone or pursuant to an arrangement or understanding with one or more other persons) so as to make it necessary and appropriate in the public interest and for the protection of investors and consumers that said Dover Casualty Insurance Company be subject to the obligations, duties and liabilities imposed upon subsidiary companies of holding companies by the Public Utility Holding Company Act of 1935.

It is ordered, Pursuant to Section 2 (a) (8) (B) of said Act that a hearing be held to determine whether such relation exists and, if such relation is found to exist, to declare Dover Casualty Insurance Company to be a subsidiary of the above named holding companies and each of them.

It is further ordered, That such hearing be held on January 9, 1939 at 10:00 o'clock in the forenoon of that day, at the Securities and Exchange Building, 1778 Pennsylvania Avenue, N. W., Washington, D. C. On such day the hearing-room clerk in Room 1102 will advise as to the room where such hearing will be held.

It is further ordered, That Robert P. Reeder or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under Section 18 (c) of said Act and to continue or postpone said hearing from time to time or to a date thereafter to be fixed by such presiding officer.

Notice of such hearing is hereby given to said Dover Casualty Insurance Company and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before January 4, 1939.

By the Commission.

[File No. 60-5]

IN THE MATTER OF DOVER CASUALTY INSURANCE COMPANY

NOTICE OF AND ORDER FOR HEARING DECLARING SAID COMPANY TO BE AN AFFILIATE OF OTHER SPECIFIED COMPANIES

The Commission having reasonable cause to believe that Dover Castualty Insurance Company, whose address is Delaware Trust Building, Wilmington, Delaware, stands in such relation to

Associated Gas and Electric Company, of Ithaca, New York,
Associated Gas and Electric Corporation, of Wilmington, Delaware, and
Associated Utilities Corporation, of Wilmington, Delaware,

and each of such companies that there is liable to be such an absence of arm's-length bargaining in transactions between them as to make it necessary or appropriate in the public interest and for the protection of investors and consumers that said Dover Casualty Insurance Company be subject to the obligations, duties and liabilities imposed upon affiliates of a company by the Public Utility Holding Company Act of 1935;

It is ordered, Pursuant to Section 2 (a) (11) (D) of said Act that a hearing be held to determine whether such relation exists and, if such relation is found to exist, to declare said Dover Casualty Insurance Company to be an affiliate of the other above-named companies and each of them.

It is further ordered, That such hearing be held on January 9, 1939 at 10:00 o'clock in the forenoon of that day, at the Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C. On such day the hearing-room clerk in Room 1102 will advise as to the room where such hearing will be held.

It is further ordered, That Robert P. Reeder or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under Section 18 (c) of said Act and to continue or postpone said hearing from time to time or to a date thereafter to be fixed by such presiding officer.

Notice of such hearing is hereby given to said Dover Casualty Insurance Company and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before January 4, 1939.

UNITED STATES CIVIL SERVICE COMMISSION.

CONDITION OF THE APPORTIONMENT AT CLOSE OF BUSINESS THURSDAY, DECEMBER 15, 1938

Important.—Although the apportioned classified civil service is by law located only in Washington, D. C., it nevertheless includes only about half of the Federal Civilian positions in the District of Columbia. Positions in local post offices, customs districts, and other field services outside of the District of Columbia which are subject to the Civil Service Act are filled almost wholly by persons who are local residents of the general community in which the vacancies exist. It should be noted and understood that so long as a person occupies, by original appointment, a position in the apportioned service, the charge for his appointment continues to run against his State of original residence. Certifications of eligibles are first made from States which are in arrears.

State	Number of positions to which entitled	Number of positions occupied
IN ARREARS		
1. Puerto Rico	589	41
2. Hawaii	140	15
3. California	2,164	782
4. Alaska	23	9

clusive, of the Soil Conservation and Domestic Allotment Act (49 Stat. 1148) in the region.

(5) *Southern Region.* The area included in the States of Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, Oklahoma, South Carolina, and Texas.

(6) *East Central Region.* The area included in the States of Delaware Kentucky, Maryland, North Carolina, Tennessee, Virginia, and West Virginia.

(7) *Western Region.* The area included in the States of Arizona, California, Colorado, Idaho, Kansas, Montana, Nevada, New Mexico, North Dakota, Oregon, Utah, Washington, and Wyoming.

(8) *North Central Region.* The area included in the States of Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Nebraska, Ohio, South Dakota, and Wisconsin.

(9) *State Committee.* The group of persons designated within any State to assist in the administration of Sections 7 to 17, inclusive, of the Soil Conservation and Domestic Allotment Act.

(10) *Committee.* A committee within a county or community utilized under Sections 7 to 17, inclusive, of the Soil Conservation and Domestic Allotment Act. "County committee", "community committee", or "local committee" shall have corresponding meanings in the connection in which they are used.

(11) *Review Committee.* The review committee appointed by the Secretary of Agriculture as provided in Section 363 of the Act.

(12) *Person.* An individual, partnership, firm, joint-stock company, corporation, association, trust, estate, or any agency of a State. The term "person" shall include two or more persons having a joint or common interest.

(13) *Owner or landlord.* A person who owns farm land and rents such land to another person or who operates such land.

(14) *Cash tenant or standing-rent tenant or fixed-rent tenant.* A person who rents land from another for a fixed amount of cash or a commodity to be paid as rent.

(15) *Share tenant.* A person other than a sharecropper who rents land from another person and pays as rent a share of the crops or the proceeds thereof.

(16) *Sharecropper.* A person who works a farm in whole or in part under the general supervision of the operator and is entitled to receive for his labor a share of a crop produced thereon or the proceeds thereof.

(17) *Operator.* A person who as a landlord or cash tenant or standing or fixed-rent tenant is operating a farm or who as a share tenant is operating a whole farm.

(18) *Producer or farmer.* A person who is entitled to a proportionate share of the cotton crop, or the proceeds thereof, produced on the farm in 1939, as owner, landlord, cash tenant, standing-rent tenant, fixed-rent tenant, share tenant, or sharecropper. The term "producer" or "farmer" also includes a wage hand (or cropper) who as a laborer on a farm instead of receiving daily or other cash wages for his labor receives either all the cotton produced by him or another on an agreed or specified acreage or all the cotton produced on an agreed or specified portion of the acreage cultivated by him or another.

(19) *Buyer.* A person who buys cotton from a producer.

(20) *Transferee.* A person who receives cotton from a producer by barter or exchange.

(21) *Ginner.* A person who gins cotton.

(22) *Treasurer of the County Committee.* The treasurer of the county agricultural conservation association or the treasurer of the county committee, as the case may be.

(23) *Farm.* All adjacent or nearby farm land under the same ownership which is operated by one person, including also:

(i) Any other adjacent or nearby farm land operated by the same person (as part of the same unit with respect to the rotation of crops and with workstock, farm machinery, and labor substantially separate from that for any other land), the inclusion of which is requested or agreed to, within the time and in the manner specified by the Agricultural Adjustment Administration, by the operator and all the owners who are entitled to share in the proceeds of the crops on any of the land to be included in the farm, and

(ii) Any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops;

Provided, That land not under the same ownership shall be included in the same farm only if the county committee determines that: (a) There is one crop rotation system on the entire area of land; (b) the yields and productivity of the different ownerships do not vary substantially; (c) the combination is not being made for the purpose of increasing acreage allotments or primarily for the purpose of effecting compliance; and (d) the several ownership tracts constitute a farming unit for the operator and will be regarded in the community as a farm in 1939. A farm shall be regarded as located in the county or administrative area, as the case may be, in which the principal dwelling is situated, or if there is no dwelling thereon, it shall be regarded as located in the county or administrative area, as the case may be, in which the major portion of the farm is located.

(24) *Farm marketing quota.* A cotton marketing quota established for a farm under Section 346 (a) of the Act.

(25) *Producer marketing quota.* A producer's share of a farm marketing quota.

(26) *Farm acreage allotment.* A cotton acreage allotment established for a farm under section 722.115 or 722.116 of these regulations.

(27) *Normal yield per acre of lint cotton.* The number of pounds of lint cotton established as the normal yield for the farm in accordance with section 722.117.

(28) *Actual production* of any number of acres of cotton on a farm. The actual average yield of lint cotton for the farm for 1939 times such number of acres.

(29) *Normal production* as applied to any number of acres of cotton. The normal yield per acre of lint cotton for the farm times such number of acres.

(30) *Cotton.* Any cotton other than long staple cotton.

(31) *Long staple cotton.* Cotton the staple of which is 1⅛ inches or more in length.

(32) *Lint cotton.* The fiber taken from seed cotton by ginning.

(33) *Seed cotton.* The harvested fruit of the cotton plant before it is ginned.

(34) *Ginning.* Separating lint cotton from the seed.

(35) *Market.* To dispose of by sale, barter, or exchange.

(i) The term "sale" means any transfer of title to cotton by a producer to another by any means other than barter or exchange.

(ii) The terms "barter" and "exchange" mean transfer of title to cotton by a producer to another in return for cotton or other commodities, services, or property in cases where the value of the cotton or such other commodities, services, or property is not considered in terms of money, or the transfer of title to cotton by a producer to another in payment of a fixed rental or other charge for land.

(iii) "Marketed," "marketing," and "for market," shall have corresponding meanings to the term "market" in the connection in which they are used.

(36) *Marketing year.* The period beginning on August 1, 1939, and ending with July 31, 1940, both dates inclusive.

(37) *Penalty.* The penalty provided in Section 348 of the Act.

(38) *State and county code number.* The applicable number assigned by the Agricultural Adjustment Administration to each county for the purpose of identification.

(39) *Serial number of the farm or farm serial number.* The serial number assigned to a farm.

(40) *Gin bale number or mark.* The number on the bale tag or any mark made or used by the ginner to identify a bale of cotton. (Sec. 375, 52 Stat. 66)

ALLOTMENTS AND YIELDS

SEC. 722.112 *National baleage allotment.* The national allotment of cotton for the calendar year beginning January 1, 1939, is 10,000,000 standard bales of 500 pounds gross weight, increased by that number of standard bales of 500 pounds gross weight equal to the production in 1939 of that number of acres required to be allotted for 1939 as set forth in Sec. 722.113 (c), relating to minimum State acreage allotments, and in Sec. 722.114 (b), relating to minimum county acreage allotments. The production in 1939 of the acreage allotment referred to in Sec. 722.113 (e), relating to, a special fund of acreage allotments consisting of 4 percent of the State acreage allotment, and in Sec. 722.113 (f), relating to minimum farm acreage allotments, shall be in addition to such national allotment. (Sec. 343 (a), (b), and (c), 52 Stat. 56)

SEC. 722.113 *State baleage allotments and State acreage allotments*—(a) *State baleage allotment.* Ten million standard bales of the national baleage allotment of cotton for the calendar year 1939 shall be apportioned among the several States on the basis of the average of the normal production of cotton in each State for the five years 1933 to 1937. The normal production of a State for each such year shall be (1) the quantity of cotton produced therein in such year plus (2) the normal production of the acres diverted from the production of cotton in all counties in the State under the agricultural adjustment or conservation program in such year. The normal production of the acres diverted from the production of cotton in any county in any year shall be the average yield per acre of the acres planted to cotton in such county in such year times the number of acres so diverted in such county in such year. [Sec. 344 (a)]

(b) *State acreage allotment.* A State acreage allotment shall be established for each State to which an allotment is made under paragraph (a). The State acreage allotment shall be that number of acres equal to the result obtained by dividing the number of standard bales allotted to the State under paragraph (a) by the average yield per acre for the State expressed in standard bales. The average yield per acre for any State shall be determined on the basis of the average of the normal production for the State for the five years 1933 to 1937 and the average, for the same period, of the acres diverted from the production of cotton in the State under the agricultural adjustment or conservation programs and the acres planted to cotton. [Sec. 344 (b)]

(c) *Minimum State acreage allotment.* Notwithstanding the foregoing provisions of this section, the State acreage allotment for any State which is less than 5,000 acres shall be increased to 5,000 acres if at least 3,500 bales of cotton were produced in such State in any of the five years 1934 to 1938. [Sec. 344 (e) (2)]

(d) *State acreage reserve for new farms.* An acreage not greater than two percent of the State acreage allotment shall be made available for apportionment to farms in the State on which cotton was not planted in any one of the three years 1936, 1937, and 1938. [Sec. 344 (c) (2)]

(e) *Additional fund of four percent of State acreage allotment.* In addition to the State acreage allotment, a special fund of acreage allotments equal to 4 percent of the State acreage allotment shall be established for each State for apportionment as set forth in Sec. 722.115 (b), (e), and (f). [Sec. 344 (g)]

(f) *Increases to provide for minimum farm acreage allotments.* There shall be available in each State for allotment to farms that number of acres equal to the total amount by which farm acreage allotments in the State are increased as set forth in Sec. 722.115 (h), relating to certain minimum and maximum farm acreage allotments. This increase shall be in addition to the State acreage allotment and the special fund of acreage allotments equal to 4 percent of the State acreage allotment. [Sec. 344 (h)] (Sec. 344, 52 Stat. 57, 203, 586)

SEC. 722.114 *County acreage allotments*—(a) *Regular county acreage allotments.* The State acreage allotment (less that part set aside under Sec. 722.113 (d) for apportionment to new farms) shall be apportioned among the counties in the State on the basis of the sum of (1) the acreage therein planted to cotton during the five years 1933 to 1937 and (2) in the applicable years, the acreage therein diverted from the production of cotton under agricultural adjustment and conservation programs, with adjustments for abnormal weather conditions and trends in acreage during such five-year period. The acreage allotment for each county to which an allotment is so apportioned shall be increased by the number of acres, if any, required to provide an acreage allotment for each such county of not less than 60 percent of the sum of (1) the acreage therein planted to cotton in 1937, and (2) the acreage therein diverted from the production of cotton in 1937 under the agricultural conservation program. [Sec. 344 (c) (1), Sec. 344 (e) (1)]

(b) *Administrative areas.* If in any county there are one or more areas which, because of difference in types, kinds, and productivity of the soil or other conditions, should be treated separately in order to prevent discrimination, each such area shall, in accordance with applicable instructions, be designated by the county committee and the county acreage allotment shall be apportioned among such areas (1) on the basis of the acreage in each such area

planted to cotton in 1937 plus the acreage therein diverted from the production of cotton in 1937 under the agricultural conservation program, or (2) if conditions affecting the acreage planted to cotton were not reasonably uniform throughout the county in 1937, on the basis of the cotton base acreage in each such area which was or could have been established in 1937 under the agricultural conservation program. [Sec. 344 (f).] (Sec. 344, 52 Stat. 57, 203, 586)

SEC. 722.115 *Apportionment of acreage allotments among established farms*—(a) *Acreage available for allotment.* The county committee, with the assistance of other local committees established in the county, shall apportion, in the manner set forth in this section, acreage allotments among all farms in the county on which cotton was planted in any one of the three years 1936 to 1938. The acreage allotments to be apportioned among such farms shall consist of (1) the regular county acreage allotment, consisting of an apportionment of the State acreage allotment made to the county, with such increase in the county acreage allotment as is necessary to provide for the county a minimum acreage allotment of not less than 60 percent of the planted plus diverted cotton acreage in the county in 1937, and (2) a distributive part, applicable to the county, of the special fund of acreage allotments consisting of that amount which is equal to 4 percent of the State acreage allotment. This distributive part, hereinafter referred to as the "special fund", is to be applied, insofar as the amount thereof will permit, and in the following order: (a) in supplying any deficiency in the regular county acreage allotment for the making of initial acreage allotments not exceeding five acres for each such farm; (b) in supplementing any acreage allotment made to any farm out of the regular county acreage allotment which, in consequence of the making of such initial acreage allotments, is inadequate and unrepresentative, and (c) in supplementing any acreage allotment made to any farm under this section which the county committee determines, in accordance with applicable instructions, is inadequate and unrepresentative. The committee shall not establish any farm acreage allotment which is not covered by the allotments mentioned above, except that after but not before the apportionment among farms of all the allotments mentioned above in this paragraph an additional farm acreage allotment shall be made, as set forth in paragraph (h), to any farm in respect to which the acreage allotment otherwise made is less than the minimum acreage allotment set forth in paragraph (h). The term "planted plus diverted cotton acreage", as used in this section, shall be taken to mean the sum of the acreage planted in cotton and the acreage diverted from cotton production under agricultural adjustment or conservation programs. [Sec. 344 (d), (e), (f), (g), (h).]

(b) *Initial farm acreage allotments.* The regular county acreage allotment shall be first apportioned among farms on which cotton was planted in any one of the three years 1936 to 1938, inclusive, and in making such apportionment there shall be first established for each such farm an initial acreage allotment equal to the highest planted plus diverted cotton acreage on the farm in any one of the three years 1936 to 1938, provided that no initial allotment shall exceed five acres for any such farm. These allotments shall be known as initial allotments and are referred to accordingly in this section. Any deficiency in the amount of the regular county acreage allotment for the making of such initial allotments shall be supplied by the use of the special fund of acreage allotments, insofar as said fund will permit. [Sec. 344 (d) (1), Sec. 344 (g) (1).]

(c) *Reserve for small farms.* In the event that the regular county acreage allotment is more than sufficient to make the initial allotments, there shall be set aside for increase of allotments to small farms, as set forth in paragraph (g), an amount of not more than 3 percent of that amount of the regular county acreage allotment which remains after making the initial allotments. [Sec. 344 (d) (2).]

(d) *Apportionment on the basis of tilled land.* The remainder of the regular county acreage allotment shall be apportioned among all farms on which the highest planted plus diverted cotton acreage in any one of the three years 1936 to 1938 was more than five acres. The acreage thus to be apportioned to each such farm shall, together with the initial allotment made to the farm, be a percentage (which shall be the same percentage for all farms in the county or administrative area within the county) of the acreage on the farm in 1938 which was tilled or was in regular rotation, excluding therefrom the acreage devoted to the production of sugarcane for sugar, wheat, tobacco, or rice for market, or wheat or rice for feeding to livestock for market. [Sec. 344 (d) (3).]

(e) *Increases as a result of making initial farm acreage allotments.* If, as a result of the making of initial allotments, the farm acreage allotments for farms made in accordance with paragraph (d) are substantially smaller than the farm acreage allotments which would have been made without regard to any provision for the making of initial allotments, the farm acreage allotments to such farms shall be increased to the acreage which would have resulted in the absence of any provision for the making of initial allotments, insofar as any portion of the special fund of acreage allotments not used in the making of initial allotments will permit. [Sec. 344 (d) (2).]

(f) *Increases in view of past production.* After allotments have been made from the special fund as provided in paragraphs (b) and (e), one-half of the remainder, if any, of the special fund shall be apportioned to farms for which the acreage allotment otherwise determined is less than 50 percent of the planted plus diverted cotton acreage on the farm in 1937, and the other one-half of the remainder, if any, of the special fund shall be available for increasing the allotments for any farms which are determined, in accordance with applicable instructions, to be inadequate and not representative in view of past production of the farm: Provided, That the cotton acreage allotment for any farm shall not be increased under this paragraph (f) above 40 percent of the acreage on such farm in 1938 which was tilled or was in regular rotation. [Sec. 344 (g) (3).]

(g) *Distribution of reserve for small farms.* Any farm acreage allotment made as aforesaid of more than five acres, but not exceeding 15 acres, may be increased from the reserve of not more than 3 percent of the county acreage allotment mentioned in paragraph (c). In making such increase due consideration shall be given to, and such allotments shall be made on the basis of, the land, labor, and equipment available for the production of cotton, crop rotation practices, and the soil and other facilities affecting the production of cotton. [Sec. 344 (d) (2).]

(h) *Certain minimum and maximum farm acreage allotments.* Notwithstanding any other provision of this section, (1) the farm acreage allotment made to any farm shall not exceed the highest planted plus diverted cotton acreage in any one of the three years, 1936 to 1938, and (2) any farm acreage allotment which after but not before the apportionment of all acreage allotments, as provided in the foregoing paragraphs of this section, is less than 50 percent of the planted plus diverted cotton acreage on the farm in 1937, shall be increased to such amount, provided that such increase shall not be so made as to raise the farm acreage allotment of the farm above 40 percent of the acreage on the farm in 1938 which was tilled or was in regular rotation. The acreage allotments required to effect this minimum provision shall be in addition to all acreage allotments represented by the regular county acreage allotment and by the special fund of acreage allotments. [Sec. 344 (d) (3), Sec. 344 (h).] (Sec. 344, 52 Stat. 57, 203, 586)

SEC. 722.116 *Apportionment of acreage allotments among new farms.* The county committee, with the assistance of other local committees, shall, in accordance with applicable instructions, apportion among farms on which cotton was not planted in any one of the three years 1936 to 1938 and on which cotton will be planted in 1939 the distributive part, applicable to the county, of acreage allotments which constitute a reserve of not more than 2 percent of the State acreage allotment. The basis of the apportionment shall be the land, labor, and equipment available on the farm for the production of cotton, crop rotation practices, and the soil and other physical facilities affecting the production of cotton thereon. The acreage on the farm which will be tilled in 1939 or was tilled in 1938 shall, as a reflection of said factors, be regarded as the basic index of the farm's capacity for cotton production. (Sec. 344 (c) (2), 52 Stat. 57)

SEC. 722.117 *Normal yields*—(a) *Farms for which normal yields will be established.* The county committee, with the assistance of the other local committees established in the county, shall determine the normal yield per acre of lint cotton for each farm for which a farm acreage allotment is established.

(b) *Yields based on reliable records.* Where reliable records of the actual average yield of lint cotton per acre for all of the five years 1934 to 1938 are presented by the farmer or are available to the committee, the normal yield per acre of lint cotton for the farm shall be the average of such yields, adjusted, in accordance with applicable instructions, for abnormal weather conditions.

(c) *Appraised yields.* If for any year of the five-year period 1934 to 1938 (1) records of the actual average yield are not available, or (2) there was no actual yield because cotton was not planted in such year, the normal yield per acre of lint cotton for the farm shall be appraised by the county committee, taking into consideration the normal yield for the county, the yield in the years for which data are available, and the rainfall, temperature, and other weather conditions during the years for which data are available as compared with those for which data are not available, provided the appraised yield so obtained shall be adjusted in accordance with paragraph (d).

(d) *Adjustments in appraised yields.* The yields determined under paragraph (c) shall be adjusted so that the average of the normal yields per acre of lint cotton determined for all farms in the county or local administrative area therein (weighted by the cotton acreage allotments established for such farms) shall conform to but not exceed the county or administrative area normal yield per acre of lint cotton established for 1939 by the Secretary of Agriculture. (Sec. 301 (b) (13) (B) and (E), 52 Stat. 38)

SEC. 722.118 *Applicability of detailed instructions.* The provisions of Sec. 722.112 through Sec. 722.117 shall be carried out in detail in accordance with the provisions of Part I, "Determining 1939 Farm Cotton Acreage Allotments and Yields", of the following instructions applicable to the regions indicated below:

Southern Region.—Cotton 308–SR, "Instructions Pertaining to Cotton Marketing Quotas for 1939".

East Central Region.—Cotton 308–ECR, "Instructions Pertaining to Cotton Marketing Quotas for 1939".

Western Region.—Cotton 308–WR, "Instructions Pertaining to Cotton Marketing Quotas for 1939".

North Central Region.—Cotton 308–NCR, "Instructions Pertaining to Cotton Marketing Quotas for 1939". (Sec. 375, 52 Stat. 66)

Done at Washington, D. C., this 20th day of December, 1938. Witness my hand and the seal of the Department of Agriculture.

[SEAL] H. A. WALLACE,
Secretary of Agriculture.

TITLE 8—ALIENS AND CITIZENSHIP

IMMIGRATION AND NATURALIZATION SERVICE

[3d Supp. to General Order No. C-1[1]]

PORT OF ENTRY FOR ALIENS AT DEL BONITA, MONTANA

DECEMBER 17, 1938.

Pursuant to the authority contained in Section 23 of the Immigration Act of 1917 (Act of February 5, 1917, 39 Stat. 892; 8 U. S. C. 102), Del Bonita, Montana, is hereby designated as a port for the entry of aliens into the United States.

Sec. 1.31, Title 8, Code of Federal Regulations (Rule 3, Subdivision A, Paragraph 1 of the Immigration Rules and Regulations of January 1, 1930, Edition of December 31, 1936), is amended by inserting Del Bonita, Montana, between Babb, Montana, and Gateway, Montana, in the list of ports of entry for aliens in District No. 15.

[SEAL] JAMES L. HOUGHTELING,
Commissioner.

Approved:

FRANCES PERKINS,
Secretary.

TITLE 16—COMMERCIAL PRACTICES

FEDERAL TRADE COMMISSION

[Docket No. 3519]

IN THE MATTER OF COLUMBIA ALKALI CORPORATION ET AL.

SEC. 3.27 (d) *Combining or conspiring—To enhance, maintain or unify prices.* By agreement, etc., and in connection with the sale of calcium chloride in any form in interstate commerce or in the District of Columbia, fixing or maintaining uniform prices in the sale thereof in the United States, on the part of respondent corporations, their successors and assigns, etc., prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, Columbia Alkali Corporation et al., Docket 3519, December 13, 1938.]

SEC. 3.27 (d) *Combining or conspiring—To enhance, maintain or unify prices.* By agreement, etc., and in connection with the sale of calcium chloride in any form in interstate commerce or in the District of Columbia, (a) maintaining a uniform zoning system for the United States, (b) suggesting retail prices to their individual dealers or distributors, (c) exchanging information with reference to the prices each charges, (d) changing simultaneously their sales prices, and (e) offering identical bids for carload or less than carload lots to prospective purchasers; when any or all of said acts are done for the purpose of effectuating any agreement, combination or conspiracy to fix or maintain uniform prices in the United States for the sale of calcium chloride in any form; on the part of respondent corporations, their successors and assigns, etc., prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, Columbia Alkali Corporation et al., Docket 3519, December 13, 1938.]

SEC. 3.27 (d) *Combining or conspiring—To enhance, maintain or unify prices.* By agreement, etc., and in connection with the sale of calcium chloride in any form in interstate commerce or in the District of Columbia, eliminating cash discounts for prompt payment by purchasers thereof, on the part of respondent corporations, their successors and assigns, etc., prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, Columbia Alkali Corporation et al., Docket 3519, December 13, 1938.]

United States of America—Before Federal Trade Commission

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 13th day of December, A. D. 1938.

Commissioners: Garland S. Ferguson, Chairman; Charles H. March, Ewin L. Davis, William A. Ayres, Robert E. Freer.

IN THE MATTER OF COLUMBIA ALKALI CORPORATION, DOW CHEMICAL COMPANY, MICHIGAN ALKALI COMPANY, SOLVAY SALES CORPORATION, SOLVAY PROCESS COMPANY, AND CALCIUM CHLORIDE ASSOCIATION

ORDER TO CEASE AND DESIST

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the answers of respondents, in which answers respondents, Columbia Alkali Corporation, Dow Chemical Company (The Dow Chemical Company), Michigan Alkali Company, and Solvay Sales Corporation, admit, with respect to the period extending from November 1937 through January 1938, all the material allegations of fact set forth in said complaint, and state that they waive all intervening procedure and further hearing as to said facts, and in which answer respondents, Solvay Process Company (The Solvay Process Company), and Calcium Chloride Association, each deny that they were parties to any of the unlawful acts and practices alleged in the complaint, and the Commission having made its findings as to the facts and conclusion that said respondents, Columbia Alkali Corporation, Dow Chemical Company (The Dow Chemical Company), Michigan Alkali Company, and Solvay Sales Corporation, have violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondents, Columbia Alkali Corporation, Dow Chemical Company (The Dow Chemical Company), Michigan Alkali Company, and Solvay Sales Corporation, and their respective successors and assigns, officers, representatives, agents and employees, directly or indirectly, or through or by means of any association, its officers, representatives and agents, or by any other means, in connection with the offering for sale, sale and distribution of calcium chloride in any form in interstate commerce or in the District of Columbia, do forthwith cease and desist from doing by agreement, combination, or conspiracy between or among any two or more of said respondents, or between or among any one of said respondents and any other competing manufacturer or distributor of calcium chloride in any form, the following acts and things:

(1) Fixing or maintaining uniform prices in the sale of calcium chloride in any form in the United States;

(2) (a) Maintaining a uniform zoning system for the United States, (b) suggesting retail prices to their individual dealers or distributors, (c) exchanging information with reference to the prices each charges for calcium chloride, (d) changing simultaneously their sales prices for calcium chloride in any form, (e) offering identical bids for carload or less than carload lots of calcium chloride in any form to prospective purchasers when any or all of said acts are done for the purpose of effectuating any agreement, combination or conspiracy to fix or maintain uniform prices in the United States for the sale of calcium chloride in any form;

(3) Eliminating cash discounts for prompt payment by purchasers of calcium chloride;

It is further ordered, That the case growing out of the complaint herein be, and the same hereby is, closed as to the respondents, Solvay Process Company (The Solvay Process Company) and Calcium Chloride Association, but without prejudice to the right of the Commission, should future facts so warrant, to reopen the same and resume prosecution thereof in accordance with its regular procedure;

It is still further ordered, That the respondents, Columbia Alkali Corporation, Dow Chemical Company (The Dow Chemical Company), Michigan Alkali Company, and Solvay Sales Corporation, shall each, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

[SEAL] OTIS B. JOHNSON, *Secretary.*

[Docket No. 3583]

IN THE MATTER OF JULEP BOTTLING COMPANY, INC.

SEC. 3.99 (b) *Using or selling lottery devices—In merchandising.* Selling, etc., soda water so arranged, etc., that sales thereof to the general public are to be, or may be, made by means of a game of chance, etc., as specified, prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, Julep Bottling Company, Inc., Docket 3583, December 7, 1938]

SEC. 3.99 (b) *Using or selling lottery devices—In merchandising.* Furnishing to dealers bottles of soda water capped with crowns, which caps or crowns have printed or impressed numbers therein, and are to be, or may be, used in selling, etc., said products to the purchasing public by means of a game of chance, etc., as specified, prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, Julep Bottling Company, Inc., Docket 3583, December 7, 1938]

SEC. 3.99 (b) *Using or selling lottery devices—In merchandising.* Furnishing to, etc., dealers bottles of soda water capped with crowns, which caps or crowns have printed or impressed numbers therein, or any other products, together with a device to be, or which may be used in selling, etc., said products to the purchasing public by means of a game of chance, etc., as specified, prohibited. (Sec. 5b, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45b) [Cease and desist order, Julep Bottling Company, Inc., Docket 3583, December 7, 1938]

United States of America—Before Federal Trade Commission

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 7th day of December, A. D. 1938.

Commissioners: Garland S. Ferguson, Chairman; Charles H. March, Ewin L. Davis, William A. Ayres, Robert E. Freer.

ORDER TO CEASE AND DESIST

This proceeding having been heard by the Federal Trade Commision upon the complaint of the Commission and the answer of respondent, in which answer respondent admits all the material allegations of the complaint to be true, and respondent further states that it waives hearing on the charges set forth in said complaint, and the Commission having made its findings as to the facts and conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent, Julep Bottling Company, Inc., a corporation, its officers, representatives, agents, and employees, in connection with the offering for sale, sale and distribution of soda water in interstate commerce or in the District of Columbia, do forthwith cease and desist from:

(1) Selling and distributing said soda water so arranged and assembled that sales of such soda water to the general public are to be made or may be made by means of a game of chance, gift enterprise, or lottery scheme;

(2) Furnishing to dealers bottles of soda water capped with crowns, which caps or crowns have printed or impressed numbers therein, which said bottle caps or crowns are to be used or may be used in selling or distributing said products to the purchasing public by means of a game of chance, gift enterprise, or lottery scheme;

(3) Furnishing to or placing in the hands of dealers said products or any other products together with a device which said device is to be used or may be used in selling or distributing said products to the purchasing public by means of a game of chance, gift enterprise, or lottery scheme.

It is further ordered, That the respondent shall within sixty (60) days after service upon it of this order file with the Commission a report in writing, setting forth in detail the manner and form in which it has complied with the order to cease and desist hereinabove set forth.

By the Commission.

[SEAL] OTIS B. JOHNSON, *Secretary.*

[F. R. Doc. 38-3822; Filed, December 20, 1938; 9:45 a. m.]

TITLE 30—MINERAL RESOURCES

NATIONAL BITUMINOUS COAL COMMISSION

[Order No. 254]

DIRECTING DISTRICT BOARDS FOR DISTRICTS Nos. 14, 16, 17, 18, 19, 20, 22 AND 23 TO COORDINATE MINIMUM PRICES AND RULES AND REGULATIONS INCIDENTAL TO SALE AND DISTRIBUTION OF COAL APPROVED BY THE NATIONAL BITUMINOUS COAL COMMISSION TO SERVE AS THE BASIS FOR COORDINATION BY SAID DISTRICT BOARDS

DIRECTING SAID DISTRICT BOARDS TO SUBMIT SUCH COORDINATED PRICES AND RULES AND REGULATIONS TOGETHER WITH DATA UPON WHICH THEY ARE PREDICATED; AND ESTABLISHING AND PROMULGATING RULES AND REGULATIONS UNDER WHICH SUCH COORDINATION SHALL BE ACCOMPLISHED

Pursuant to Act of Congress entitled "An Act to regulate interstate commerce in bituminous coal and for other purposes" (Public No. 48, 75th Cong., 1st Sess.), known as the Bituminous Coal Act of 1937,[1] the National Bituminous Coal Commission hereby orders and directs:

1. That Order No. 253[2] heretofore issued by the Commission on the 9th day of December, 1938, be and the same is hereby supplemented to include the following provisions:

(a) That the District Boards for Districts Nos. 16, 17, 18, 19, 20, 22 and 23, now engaged in coordination proceedings pursuant to the provisions of Order No. 253, shall forthwith proceed to coordinate the minimum prices and rules and regulations incidental to the sale and distribution of coal, approved by the Commission to serve as the basis for coordination for the respective districts, with the minimum prices and rules and regulations incidental to the sale and distribution of coal approved by the Commission to serve as a basis for coordination for District No. 14, and the District Board for District No. 14 shall forthwith proceed to coordinate with the said Districts Nos. 16, 17, 18, 19, 20, 22 and 23 pursuant to and in the same manner as provided by the provisions of said Order No. 253 prescribed for said Districts Nos. 16, 17, 18, 19, 20, 22 and 23.

(b) Said District Board No. 14 shall forthwith, by appropriate resolution, designate and appoint one or more persons with power of delegation and substitution to represent said District Board in the work of coordination and fully empower such person or persons to act for said District Board in a meeting with other such representatives from the other District Boards named in this Order, in the Offices of the Commission, Washington, D. C., commencing at 10:00 o'clock, A. M., on the 19th day of December, 1938.

(c) The provisions of Order No. 253, and the rules and regulations therein established for the coordination of minimum prices and for the coordination of the rules and regulations incidental to the sale and distribution of coal, be and the same are hereby incorporated herein, to the end that all of the provisions of said Order No. 253 shall be and the same are hereby declared to be applicable to District Board No. 14.

2. The Secretary of the Commission is hereby directed to cause a copy of this Order to be published forthwith in the FEDERAL REGISTER, and shall cause copies hereof to be mailed to each code member within Districts Nos. 16, 17, 18, 19, 20, 22 and 23, to the Consumers' Counsel and to the Secretary of each District Board, and shall cause a copy hereof, together with a copy of said Order No. 253 to be mailed to each code member within District No. 14, and shall cause copies hereof to be made available for inspection by interested parties in each of the Statistical Bureaus of the Commission.

By order of the Commission.

Dated this 17th day of December, 1938.

[SEAL] F. WITCHER MCCULLOUGH, *Secretary.*

[F. R. Doc. 38-3834; Filed, December 20, 1938; 12:15 p. m.]

[1] 50 Stat. 72.
[2] 3 F. R. 2998 DI.

TITLE 32—NATIONAL DEFENSE

NATIONAL GUARD

COMMISSIONED OFFICERS

The following regulations supersede 32 C. F. R. 1.01 to 1.06, inclusive:*

SEC. 1.01 *Appointment* — (a) *General.* Section 8, article I, of the Constitution of the United States reserves to the States the appointment of officers of the militia. Therefore, as soon as a person is appointed an officer of the National Guard and has taken the prescribed oath of office, he has a State status under which he can function. These appointees, however, will not be considered officers of the National Guard in the sense of the National Defense Act until they have been Federally recognized. (See 1.02 for Federal recognition.)

(b) *Appointments for new units.* As soon as the Chief of the National Guard Bureau authorizes the formation of a headquarters or a unit, the State authorities should select and appoint the officers prescribed for that headquarters or unit.

(c) *Appointments to State staff*—(1) *The adjutant general*—(i) *Of a State.* The appointment of a person to the office of adjutant general of a State and his tenure of office are governed by the laws of the State.

(ii) *Of a Territory.* The adjutant general of a Territory is appointed by the President upon the recommendation of the Governor, with such rank and qualifications as the President may prescribe. However, no person shall be appointed adjutant general of a Territory, unless he be a citizen of that Territory.

(iii) *Of the District of Columbia.* The adjutant general of the District of Columbia is appointed by the President upon recommendation of the commanding general of the National Guard of the District of Columbia, with such rank and qualifications as the President may prescribe.

(2) *The United States property and disbursing officer.* The Governor of each State and Territory, and the commanding general of the National Guard of the District of Columbia shall appoint, designate, or detail, subject to the approval of the Secretary of War, the adjutant general or an officer of the National Guard of the State, Territory, or District of Columbia, who shall be regarded as property and disbursing officer of the United States. *Section 67, National Defense Act.* (See also 1.02 (d) (2) (viii).)

(3) *Other State staff officers.* See 1.02 (d) (2) (viii).

(d) *Appointments in grades lower than prescribed.* Appointments of officers in grades lower than those prescribed by the applicable tables of organization are authorized, provided that for each such appointment in a lower grade a vacancy is maintained in a higher grade in the same unit.

(e) *Oath of office.* An appointment is not complete until the officer has executed the prescribed oath of office (NGB Form No. 337). This oath will be forwarded through channels to the Chief of the National Guard Bureau with the officer's request for Federal recognition.* [NGR 20, July 8, 1938]

SEC. 1.02 *Federal Recognition*—(a) *Definition.* Federal recognition is the action of the War Department in acknowledging and recording that officers of the National Guard have met the qualifications and requirements prescribed by the National Defense Act and regulations, and are thereby entitled to receive Federal pay and allowances.

(b) *Effective date of recognition.* Recognition is not complete until granted by the War Department. It is effective from the date on which the requirements for recognition were met.

(c) *Persons eligible.* Persons commissioned as officers of the National Guard shall not be recognized as such under any of the provisions of these regulations unless they shall have been selected from the following classes, and shall have taken and subscribed to the oath of office prescribed in section 73 of the National Defense Act:

(1) Officers or enlisted men of the National Guard.

(2) Officers, active or retired, of the Army, Navy, or Marine Corps.

* Sections 1.01 to 1.06, inclusive, are issued under the authority contained in sec. 58, 39 Stat. 197; sec. 1, 43 Stat. 1075; sec. 5, 48 Stat. 155; 32 U. S. C. 4.

(3) Reserve officers, and former officers of the Army, Navy, or Marine Corps and enlisted men and former enlisted men of the Army, Navy, or Marine Corps who have received an honorable discharge therefrom.

(4) Graduates of the United States Military and Naval Academies.

(5) Graduates of schools, colleges, universities, and officers' training camps, when they have received military instruction under the supervision of an officer of the Regular Army who certified their fitness for appointment as commissioned officers.

(6) For the technical branches or staff corps and departments, such civilians as may be specially qualified for duty therein.

NOTE.—A civilian officer or employee of the United States or the District of Columbia who is appointed an officer of the National Guard will not be Federally recognized without the consent of the head of the department or service in which he is employed.

(d) *Requirements for recognition.* The Chief of the National Guard Bureau will not grant Federal recognition to an officer until he has evidence that the following requirements have been met:

(1) *Residence.* The candidate must live in the vicinity of the unit to which he is to be assigned.

(2) *Assignment*—(i) *To a company.* The company must be recognized.

(ii) *To headquarters of division special troops.* Over 50 percent of the units comprising the special troops must be recognized.

(iii) *To a battalion headquarters.* All the lettered or numbered companies of the battalion must be recognized.

(iv) *To a regimental headquarters—Lieutenant colonel and one staff officer.* All the companies of one battalion must be recognized and at least two other companies of the regiment.

The regimental commander and regimental staff. At least sixty-five percent of the companies of the regiment must be recognized.

(v) *To a brigade headquarters.* When the regiments of the brigade have been recognized.

(vi) *To a division headquarters.* The requirement set forth in (v) above must be fulfilled by two infantry brigades of the division; in addition, at least one-half of the companies that have been authorized for the division by the National Guard Bureau but which do not belong to these two brigades must be recognized.

(vii) *To split units.* The provisions of this paragraph from (i) to (vii) inclusive, apply with equal force to all split units.

(viii) *To State staff—Adjutant general.* If the person appointed adjutant general is a recognized officer he may retain that status or he may vacate his former commission and apply for recognition in the Adjutant General's Department. No professional examination is required but all other qualifications and requirements prescribed by Federal law and these regulations must be met before recognition will be granted. When recognized, a State adjutant general comes under the same regulations that apply to other recognized officers. (See the following table for authorized grades of State adjutants general for recognition.)

Rank and grade [1]	0 to 1,000	1,000 to 2,000	2,000 to 4,000	4,000 to 6,000	6,000 to 8,000	8,000 to 12,000	12,000 to 18,000	Over 18,000
Not above brigadier general			1	[2]1	[2]1	[2]1	[2]1	[2]1
Not above colonel		[2]1	2	6	6	6	6	6
Not above lieutenant colonel	[2]1		4	3	3	6	3	5
Not above major	4	4	2	3	6	7	5	5
Not above captain	3	3					10	15
Total commissioned	8	8	9	13	16	20	25	32

[1] A United States property and disbursing officer is included in the total number of commissioned officers provided for each strength classification in this table.
[2] The State adjutant general only.

United States property and disbursing officer. Any officer (other than the State adjutant general or an officer of the Finance Department or the Quartermaster Corps) who is appointed United States property and disbursing officer shall vacate his former commission and receive a new commission in the Finance Department or the Quartermaster Corps. If otherwise qualified, the United States property and disbursing officer may be recognized in the Finance Department or the Quartermaster Corps in any grade authorized in the foregoing table except the grade reserved for the adjutant general. Any officer (other than the State adjutant general or an officer of the Finance Department or the Quartermaster Corps) who was appointed United States property and disbursing officer prior to the publication of this regulation may request a transfer in grade to the Finance Department or the Quartermaster Corps. In the event the incumbent does not elect to request such transfer, he may continue in office in his existing grade and arm or service, until promotion. Upon promotion, he will be recognized only in the Finance Department or the Quartermaster Corps.

Other State staff officers. A person appointed as an officer of the National Guard and assigned to the State staff may, if otherwise qualified, be recognized provided he is commissioned and qualified in a staff corps or department appropriate to the staff position to which he is assigned, and further provided that the total number of officers so recognized in any State does not exceed the total authorized in the foregoing table. (For staff corps and departments see sec. 2, National Defense Act.)

(3) *Age.* No candidate will be examined for recognition who is less than 21 or more than 62 years old. No candidate for original commission as second lieutenant shall be more than 32; as first lieutenant, more than 36; as captain, more than 40; as major, more than 45; as lieutenant colonel, more than 50; as colonel, more than 62.

(4) *Examination.* The candidate must pass such physical, moral, and professional tests as the President may prescribe. (See 1.03.)

(e) *Termination of recognition.* Recognition of a National Guard officer terminates—

(1) When he has reached the age of 64 years.

(2) When his commission is vacated.

(3) When he is convicted of a felony.

(4) When he is transferred from a position in which he is recognized to a position for which there is no provision for recognition.

(5) When recognition is withdrawn from the organization to which the officer belongs, unless he is transferred to an existing vacancy in a recognized unit or to the inactive National Guard.

(f) *Withdrawal of recognition.* Recognition of a National Guard officer will be withdrawn—

(1) When he has been absent without leave for 3 months.

(2) When the annual physical examination or the findings of a medical board appointed under the provisions of 1.05 (b) (3) herein show that he is physically incapacitated for further service.

(3) When he is a member of the headquarters of a battalion or larger unit and that unit becomes so depleted that it no longer conforms to the prescribed recognition requirements. In such cases recognition of the commanding officer and his staff will be withdrawn 6 months after the date on which the unit became incomplete, unless the condition is corrected prior to the expiration of that period.

(4) When the time limit of a waiver granted under 1.04 (a) (3) (4) or (5) expires and the officer has not taken the prescribed examination or has failed to pass it.

(5) When an inspection conducted under the provisions of section 93, National Defense Act, shows that the individual is lacking in the required qualificatons. In such cases the War Department may summarily withdraw Federal recognition.

(6) When an efficiency board appointed under the provisions of section 76, National Defense Act, finds against him and those findings are approved by the Chief of the National Guard Bureau." [NGR 20, July 8, 1938]

SEC. 1.03 *Examination*—(a) *General*—(1) *Scope.* Every candidate for appointment or promotion will be examined to determine whether or not he is physically, morally, and professionally qualified. To this end the board will examine into the following matters in the order named (for waivers see 1.04):

(i) Physical qualifications.
(ii) Moral character.
(iii) General qualifications.
(iv) Professional qualifications:

Military knowledge qualifications.
Ability qualifications.

(2) *Marks.* The board's findings under all matters listed in (1) above, except "Military knowledge qualifications," will be reported on NGB Form No. 89, as "satisfactory" or "unsatisfactory." Each of the prescribed written examinations conducted under "Military knowledge qualifications" will be graded on a percentage basis and the grades will be shown on the list of subjects set forth in the record of proceedings. A grade of less than 65 percent in any subject will be considered unsatisfactory.

(b) *Physical examination.* In determining the physical qualifications of a candidate, the board will not be limited to an examination of the records submitted, but may, at its discretion, require additional evidence or a "reexamination." If the board finds a candidate physically disqualified, it shall conclude the examination and report the cause which has produced the disqualification.

(c) *Inquiry into moral character.* The board will inquire into the moral character of the candidate. The candidate will be carefully questioned and he may be required to submit in writing such information as the board may desire. The board is also authorized to seek verification of the candidate's statements or additional information from reliable sources. The candidate will be informed of any unfavorable statements of fact relative to his moral character and will be given an opportunity to refute or explain these statements.

(d) *Determination of general qualifications.* The board will determine whether or not the general qualifications of the candidate indicate suitability for the military service. To this end the board will carefully consider his general education, personality, appearance, and bearing, and his business, professional, and military experience. It will also take into consideration the efficiency of any military unit which may have been under his command. In determining sufficiency of education the board should bear in mind the duties and responsibilities that will devolve upon the candidate. Should any doubt exist as to the sufficiency of the candidate's education, he will be examined in such subjects as the board deems necessary. This examination will be conducted in the manner prescribed for the professional examination and the result will be incorporated in the report of that examination.

(e) *Professional examination*—(1) *General.* The professional examination will consist of two parts: a written examination to determine the candidate's military knowledge qualifications; and a practical test, conducted either with or without troops, to determine his ability qualifications. The examination will be sufficiently comprehensive to determine the candidate's professional qualifications but it will not involve feats of memory requiring the reproduction of statistics, data, or kindred matter ordinarily found in reference works.

(2) *Scope.* In determining the subjects under professional qualifications in which a candidate (except a general officer) is to be examined and the scope of the examination in each subject, the board will be governed by the following Army Regulations which set forth the minimum qualifications for appointment and promotion:

AR 140–22, Adjutant General's Department.
AR 140–23, Air Corps.
AR 140–24, Cavalry.
AR 140–25, Chaplains.
AR 140–26, Chemical Warfare Service.
AR 140–27, Coast Artillery Corps.
AR 140–28, Corps of Engineers.
AR 140–29, Field Artillery.
AR 140–30, Finance Department.
AR 140–31, Infantry.
AR 140–32, Judge Advocate General's Department.
AR 140–33, Medical Department.
AR 140–36, Ordnance Department.
AR 140–37, Quartermaster Corps.
AR 140–38, Signal Corps.

(3) *Initial appointment.* The professional examination of a candidate for initial appointment will include not only the tests specified for the grade and arm or service in which recognition is sought, but will also include (unless waived in accordance with these regulations) all tests required for appointment or promotion to all lower grades in the particular arm or service.

(f) *Method of conducting the professional examination*—(1) *General.* The written tests prescribed under "military knowledge qualifications" will be conducted by one or more members of the examining board as designated by the president of the board. The ability tests will be conducted by the board as a whole.

(2) *Military knowledge tests*—(i) *Use of texts.* Since the military knowledge tests are based on the application of principles and not on memorized portions of texts, candidates will be permitted to use any textbooks or references they may desire during the course of any test, except when such use is manifestly inappropriate.

(ii) *Certificate of candidate.* Each candidate is required to certify in writing that he has received no unauthorized assistance during the examination.

(3) *Ability tests*—(i) *Command of troops.* Whenever practicable, the ability of the candidate to perform the practical duties of the grade sought should be determined by giving him an opportunity to command the appropriate unit in suitable drill and tactical exercises. Regular Army units at military posts and stations, units of the National Guard and, with the consent of the proper authorities, units of the Reserve Officers' Training Corps and Citizens' Military Training Camps may be used for these tests.

(ii) *Terrain exercises.* When troops are not available appropriate terrain exercises, supplemented by oral examination, may be substituted.

(iii) *Alternate methods.* If it be impracticable to conduct the required ability tests by the methods outlined above, the candidate may be tested through the medium of map maneuvers, map problems, or such other exercises as the board may desire.

(iv) *Noncommand tests.* If the candidate is an applicant for service other than with troops, he should be given an opportunity to demonstrate his practical knowledge by the performance of duties incident to the commission for which he is a candidate.

(g) *Professional examination for general officers*—(1) *General.* The professional examination for candidates for the grade of general officer will consist of two parts, a written examination and an ability test. The examining board will prepare and mark the examination. The corps area commander will furnish such assistance as may be desired in the preparation of the examination. The result of the examination will be indicated in the record of proceedings as "satisfactory" or "unsatisfactory."

(2) *Written examination.* The written examination will consist of two map problems. The first will include requirements calling for a tactical decision and the troop leading of units appropriate to the grade sought; the second will be designed to test the candidate's knowledge of the principles of combat intelligence, communications, supply, evacuation, and administration.

(3) *Ability test*—(i) *How conducted.* The ability test will be conducted by actual command of the necessary troops, or through the medium of terrain exercises, command post exercises, terrain walks and rides, or by a combination of these methods, depending upon the facilities available. This test will be oral except for such messages, orders, train-

ing programs, reports, and requisitions as are ordinarily prepared by the commanders in question.

(ii) *Scope.* The candidate will demonstrate to the satisfaction of the board his ability to command the appropriate unit in the field, to direct the collection and dissemination of military intelligence for the unit, and to plan and order the operations of the unit.

(h) *Certificate of eligibility.* A certificate of eligibility (NGB Form No. 89a) is a written statement by the Chief of the National Guard Bureau that the individual named therein has satisfactorily completed the tests and met the qualifications prescribed for a particular grade in a particular arm or service and is therefore qualified for appointment in that grade and arm or service. If appointment or promotion to the office for which an applicant is certified as eligible is made within 2 years from the date shown on this certificate, Federal recognition will be extended without further examination other than physical.

(i) *Reexamination in case of failure.* A candidate who fails to pass the prescribed examination may be authorized by the State adjutant general to take another examination. In each case of reexamination, the candidate must appear in person before the board.

(j) *Notification of result of examination.* When the proceedings of an examining board have been approved, the Chief of the National Guard Bureau will notify the State adjutant general of the result of the examination. If the candidate is successful the notification will be given on NGB Form No. 3a which extends Federal recognition in the grade and arm or service for which the candidate has qualified, or, in the event there is no vacancy, on NGB Form No. 89a (Certificate of Eligibility). If the candidate fails to pass the examination, the State adjutant general will be informed of that fact by letter.* [NGR 20, July 8, 1938]

SEC. 1.04 *Waivers*—(a) *Waivers by the Chief of the National Guard Bureau*—(1) *General.* Upon request of a candidate and approval by the State adjutant general, the Chief of the National Guard Bureau may grant the waivers set forth below. In each case the request for waiver will state the special qualifications of the candidate and the specific reasons why the waiver should be granted. All such waivers must be obtained prior to the appearance of the candidate before the examining board.

(2) *Waiver of age limitations.* The Chief of the National Guard Bureau will not waive the age in grade requirements prescribed in 1.02 (d) (3) except for the gravest reasons. As prerequisites to consideration, it must be clearly shown that the request is based on the welfare of the National Guard rather than on that of the individual, and that no other person having the required qualifications is available.

(3) *Waiver of professional examination (except for Air Corps personnel).* The tests listed under professional qualifications may be modified or waived for not to exceed 1 year in the case of a candidate for initial appointment as second lieutenant, first lieutenant, or captain, who has had limited military experience or none at all, and where satisfactory evidence is presented that the candidate possesses adaptability for the military service. After this waiver has been granted, the candidate will be recognized upon satisfactory completion of the examination into his moral, physical, and educational qualifications. Within the time limit specified by the waiver, but in no case more than 1 year from the effective date of Federal recognition, the candidate's professional qualifications will be determined as prescribed in 1.03 (e) and (f). Unless this examination is completed successfully prior to the expiration of the period of waiver and a report of the result is received in the National Guard Bureau, Federal recognition will be withdrawn.

(4) *Waiver of professional examination for Air Corps personnel.* Candidates for recognition as Air Corps transportation officers may be granted a 1-year waiver of professional examination under the conditions set forth in (3) above. All other candidates for recognition as Air Corps officers are required to qualify for one of the authorized ratings before Federal recognition will be extended. If, however, the candidate has been selected to attend the Air Corps Training Center for pilot training and is otherwise qualified, the professional examination may be waived and Federal recognition extended during the period of training.

(5) *Waiver of technical tests upon transfer.* When an officer is transferred to a different arm or service, the examination in those technical subjects not common to the two arms or services may be waived for not more than 1 year.

(b) *Waivers by examining boards.* An examining board is authorized to grant the following waivers under the conditions set forth:

(1) *For candidates for the grade of general officer*—(i) *For brigadier general.* The professional tests prescribed for the grade of brigadier general may be waived if the candidate is a colonel or lieutenant colonel of the line of the Regular Army, or has had, immediately preceding the examination, 5 years' service as a colonel of the National Guard and a total of at least 20 years' commissioned service.

(ii) *For major General.* The professional tests prescribed for the grade of major general may be waived if the candidate is a colonel of the line of the Regular Army, or has had, immediately preceding the examination, 3 years' service as a brigadier general and a total of at least 20 years' commissioned service.

(2) *For other candidates*—(i) *Upon evidence of commission.* If the candidate produces evidence that he has been Federally recognized as an officer of the National Guard or that he has held a commission in the Regular Army, the Marine Corps, or the Officers' Reserve Corps or holds a valid certificate of capacity for commission in the Officers' Reserve Corps, the examining board may waive the professional tests prescribed for the grade and arm or service in which the candidate served. A warrant officer or enlisted man of the National Guard who is also an officer of the National Guard of the United States may be appointed an officer of the National Guard in the same grade and arm or service without further examination other than physical.

(ii) *Upon evidence of graduation from general and special service schools.* The examining board may accept evidence of satisfactory completion of appropriate courses of instruction for National Guard officers at general and special service schools in lieu of any or all of the service tests prescribed under proficiency qualifications.

(iii) *Upon presentation of certificate of proficiency.* If a candidate for commission as second lieutenant has obtained, by completion of a special course for noncommissioned officers of the National Guard at an appropriate service school, a certificate of proficiency in any subject prescribed under professional qualifications, the board may accept this certificate in lieu of examination in the subject covered.

(iv) *Upon evidence of graduation from the Senior Division, Reserve Officers' Training Corps.* If a candidate for commission as a second lieutenant has graduated from the Senior Division of the Reserve Officers' Training Corps within 3 years prior to the date of examination, and the arm or service in which he seeks recognition is the same as that of the unit from which he graduated, the board may accept evidence of this fact in lieu of any professional examination.

(v) *Upon evidence of satisfactory completion of extension courses.* If a candidate for original appointment has satisfactorily completed one or more extension courses within 3 years prior to date of examination, the board, upon presentation of evidence of this fact, may waive the examination in those subjects listed under military knowledge qualifications which have been covered by the courses completed.

If a candidate for promotion to any grade, except that of general officer, has satisfactorily completed the appropriate extension courses, the board may waive the examination in those subjects listed under military knowledge qualifications which have been covered by the courses completed. This waiver will be granted only to those officers whose service has been continuous since the completion of the courses in question.

SEC. 1.05 *Separation from the service*—(a) *Authority.* The discharge of National Guard officers is a function of the State.

(b) *Causes.* The commission of a National Guard officer is terminated by reason of—

(1) Death.

(2) Attainment of the age of 64 years.

(3) *Physical disqualification.* Whenever the physical fitness of a National Guard officer is in question, the State authorities may order such officer to appear before a board of three medical officers to determine his fitness for further service.

(4) *Acceptance by proper authority of resignation.* An officer who desires to resign will submit his resignation to the State adjutant general through channels. The action taken by the authorities of a State on the resignation of an officer of the National Guard of that State will be final. Unless accepted by the State authorities, a resignation in itself has no effect.

(5) Absence without leave for three months.

(6) Dismissal pursuant to sentence by a general court martial.

(7) Other provisions of State laws.* [NGR 20, July 8, 1938]

SEC. 1.06 *Officers of the National Guard of the United States*—(a) *Eligibility for appointment.* Every Federally recognized officer of the National Guard is eligible for appointment in the National Guard of the United States in the grade and arm or service corresponding to that in which he is Federally recognized, and upon application may be so appointed.

(b) *Application for appointment.* Applications for appointment (NGB Form No. 62) will be forwarded in triplicate through channels to The Adjutant General of the Army. These channels will include the appropriate National Guard commanders, the State adjutant general, the corps area commander, and the Chief of the National Guard Bureau.

(c) *Authorized grades.* Authorized grades in which appointments may be made are major general and brigadier general of the line, brigadier general of The Adjutant General's Department, and second lieutenant to colonel, inclusive, in all sections except—

(1) Chaplains—First lieutenant to lieutenant colonel, inclusive.

(2) Medical Corps—First lieutenant to colonel, inclusive.

(3) Dental Corps—first lieutenant to major, inclusive.

(4) Veterinary Corps—first lieutenant to major, inclusive.

(5) Medical Administrative Corps — second lieutenant to captain, inclusive.

(6) Judge Advocate General's Department—captain to colonel, inclusive.

(d) *Promotion.* In time of peace, officers of the National Guard of the United States will not be promoted in that status. If, however, they are promoted as National Guard officers and so recognized, they may, upon application, be tendered new appointments in the National Guard of the United States in their increased National Guard grades.

(e) *Active duty.* In time of peace, officers of the National Guard of the United States will not be ordered to active duty, as prescribed in sections 5 and 81 of the National Defense Act, except by authority of the War Department, and then only with the consent of the officers and the State authorities concerned.

(f) *Duration of appointment.* Officers of the National Guard of the United States are appointed for the period during which they are Federally recognized in the same grade and arm or service in the National Guard. An appointment in force at the outbreak of war will continue in force until 6 months after the termination of the war. However, any officer of the National Guard of the United States will be relieved from active Federal service within 6 months after the termination of a war if he makes application for such relief.

(g) *Separations.* An appointment in the National Guard of the United States will terminate—

(1) At any time at the discretion of the President.

(2) Upon termination or withdrawal of Federal recognition. (See 1.02 (e) and (f).)* [NGR 20, July 8, 1938]

TITLE 45—PUBLIC WELFARE

CIVILIAN CONSERVATION CORPS

PART 3—REGULATIONS RELATIVE TO ENROLLMENT, DISCHARGE, HOSPITALIZATION, DEATH AND BURIAL OF ENROLLEES OF THE CIVILIAN CONSERVATION CORPS

Section 3.21 is amended by changing paragraph (a) (4) and adding paragraph (f) as follows:

SEC. 3.21 *Medical Attendance*—(a) *Discharge for physical or mental disability.*

* * * * *

(4) Upon the discharge from the Civilian Conservation Corps of any enrollee or upon the discharge of any individual employed as a supervisor in connection with the work to be performed who is suffering from a reportable communicable disease, his name, prospective address, and the disease from which he is suffering will be reported to the board of health of the State in which he contemplates making his home. These instructions include the reporting of venereal disease as prescribed in 3.21 (f).

* * * * *

(f) *Disposition of venereal patients*—(1) *Transfer to hospital.* All members of the Civilian Conservation Corps developing venereal disease will be transferred promptly to a hospital for isolation and treatment and whenever practicable to a Government-owned institution. The transfer of a venereal case for treatment from a camp to a hospital in another State or district in a Government ambulance or other than common carrier is authorized.

(2) *Syphilis* (i) As soon as the diagnosis of syphilis is confirmed in hospital, notification, giving approximate date of prospective discharge, will be sent the proper State health officer that the enrollee, whose prospective address in that State will be given, will be discharged upon the completion of the anti-syphilitic treatment required to heal all of the early lesions of the disease. Such treatment will consist of a minimum of six doses of an approved arsenical and four doses of bismuth administered over a period of approximately six weeks.

(ii) The State health officer will be requested to acknowledge receipt of the communication. If he fails to reply or states that there are no facilities and that none can be made available for the treatment of the enrollee after discharge, the corps area commander will be so notified by the camp commander. This report will be forwarded by the corps area commander direct to The Surgeon General of the Army for transmission by him to the Surgeon General, United States Public Health Service, for his information and such assistance as he may be able to render.

(iii) When satisfactory arrangements for treatment of the enrollee after discharge are made, he will be discharged from the Civilian Conservation Corps with notification to proper authorities as provided in (4) below. If arrangements for treatment of the enrollee by the local health officer after discharge cannot be made, the following treatment will be carried out:

The enrollee will be continued in hospital until ten doses of the arsenical, including the six doses prescribed in (i) above, have been administered. He will then be returned to camp where the camp surgeon will administer weekly intra-muscular doses of bismuth (0.2 g. of bismuth subsalicylate in oil) for ten

weeks. During this period arrangements will be perfected for the administration of the next ten doses of an arsenical. The corps area surgeon will arrange when practicable to have the arsenical administered at a Government hospital or State dispensary in the vicinity of the camp, the enrollee being sent from the camp to the place of treatment and returned on the same day, or, if in his opinion the camp facilities, supplies, and personnel warrant it, neo-arsphenamine may be administered in camp dispensaries by the camp surgeon. Upon the completion of the administration of the second course of the ten doses of the arsenical, the enrollee will receive in camp ten weekly doses of bismuth. The enrollee will then be discharged from the Civilian Conservation Corps.

(iv) If reenrollment is necessary during the course of treatment outlined, the enrollee will be reenrolled if he consents, provided he has not reached his 24th birthday or has not had two years' service, unless he be excepted under the provisions of 3.04 (c).

(3) *Other venereal patients.* Enrollees infected with other venereal diseases will receive thorough and careful treatment in hospital to which they have been transferred as outlined in (1) above. When in the opinion of the responsible physician danger of transmission or infection of others is believed to have been passed, the enrollee will be discharged.

(4) *Notification on discharge.* When an enrollee who has received treatment during enrollment for any venereal disease is discharged, the camp commander will have prepared in triplicate a concise clinical summary of the case, setting forth the name of the enrollee, prospective address, date of discharge, clinical diagnosis, time of infection, treatment received, results obtained, any complications that may have occurred, and further treatment will be advised as indicated. The necessity for continued treatment will be explained carefully to syphilitics. One copy of the summary will be furnished to the enrollee for his guidance, one copy will be forwarded to the health officer of the State of prospective residence, and one copy will be filed with the medical records of the enrollee at corps area headquarters.

(5) *Treatment record.* A record of treatment will be kept on W. D., M. D. Form No. 52*a* (Index Record of Patients (Card)) of every syphilitic enrollee. When a diagnosis of syphilis is made for a Civilian Conservation Corps enrollee, the date, place, and method of diagnosis will be recorded. The date, place, and amount of each dose of a therapeutic drug administered will be noted on the card and initialed by the responsible officer. If the enrollee is transferred, this treatment record will be mailed to the hospital or camp to which he is sent. Upon completion of the treatment or the discharge of the enrollee, a true copy of the treatment record will be prepared and forwarded to the office of The Surgeon General. (50 Stat. 319) [C. C. C. Regs., W. D., Dec. 1, 1937; C 19, Dec. 15, 1938]

TITLE 49—TRANSPORTATION AND RAILROADS

INTERSTATE COMMERCE COMMISSION

QUARTERLY REPORTS OF REVENUE HIGHWAY TRAFFIC OF CLASS I STEAM RAILWAYS

At a session of the Interstate Commerce Commission, Division 4, held at its office in Washington, D. C., on the 10th day of December, A. D. 1938.

The subject of Quarterly Reports of Revenue Highway Traffic of Class I Steam Railways being under consideration:

It is ordered, That each steam railway of Class I (except switching and terminal companies) shall make for each quarter of the calendar year 1939, and thereafter until further order, a report showing revenue tons carried, revenue tons carried one mile, revenue passengers carried, and revenue passengers carried one mile, based on traffic handled in (a) respondent's highway vehicles, and (b) highway vehicles of other carriers for respondent, as indicated in the form of report attached to and made a part of this order.[1]

It is further ordered, That said quarterly reports shall be filed in the Bureau of Statistics, Interstate Commerce Commission, Washington, D. C., within 50 days after the end of the quarter for which the report is rendered.

By the Commission, division 4.

[SEAL] W. P. BARTEL,
Secretary.

FREIGHT COMMODITY STATISTICS

At a session of the Interstate Commerce Commission, Division 4, held at its office in Washington, D. C., on the 14th day of December, A. D. 1938.

The subject of freight commodity statistics being under consideration:

It is ordered, That the Commission's order of November 22, 1927, requiring carriers by steam railway, other than switching and terminal companies, to submit reports of freight commodity statistics, be amended as follows: Beginning with the first quarter of the year 1939, and thereafter until further order, each Class I steam railway, other than switching and terminal companies, shall segregate the freight traffic handled by forwarders in their quarterly reports of Freight Commodity Statistics and shall show for this class of traffic as a whole, the same information as to carloads, tons, and revenue that is required for each of the other commodity classes, said information to appear in a footnote against Class 701; Provided, that to avoid undue clerical labor, said footnote may be restricted to the principal forwarding companies or their subsidiaries originating in the aggregate not less than approximately 80 percent of such traffic handled on respondent's line.

By the Commission, division 4.

[SEAL] W. P. BARTEL,
Secretary.

DEPARTMENT OF AGRICULTURE.

Sugar Division.

DETERMINATION OF WAGE RATES FOR PERSONS EMPLOYED IN PRODUCTION, CULTIVATION OR HARVESTING OF 1939 CROP OF SUGAR BEETS

NOTICE OF HEARINGS AND DESIGNATION OF PRESIDING OFFICERS

Pursuant to the authority contained in Sections 301 (b) and (d) and 511 of the Sugar Act of 1937 (Public, No. 414, 75th Congress).

Notice is hereby given that public hearings for districts in which factories are located will be held as follows:

For the lower peninsula of Michigan, Ohio, and Indiana, at Detroit, Michigan, in Room 715 Federal Building, on January 9, 1939, at 9:30 a. m.

For Wisconsin, Iowa, Minnesota, and the upper peninsula of Michigan, at Minneapolis, Minnesota, in the Andrews Hotel, on January 12, 1939, at 9:30 a. m.

For Montana and northern Wyoming, at Billings, Montana, in the Commercial Club, on January 16, 1939, at 9:30 a. m.

For Washington, at Seattle, Washington, in the New Washington Hotel, on January 19, 1939, at 9:30 a. m.

For Oregon, Utah, and Idaho, at Salt Lake City, Utah, in the Newhouse Hotel, on January 23, 1939, at 9:30 a. m.

For Colorado and Kansas, at Denver, Colorado, in the Albany Hotel, on January 26, 1939, at 9:30 a. m.

For Nebraska, southern Wyoming, and South Dakota, at Scottsbluff, Nebraska, in the Bluff Theatre Building, on January 30, 1939, at 9:30 a. m.

The purpose of such hearings is to receive evidence likely to be of assistance to the Secretary of Agriculture in determining, (1) pursuant to the provisions of section 301 (b) of the said act, fair and reasonable wage rates for persons employed in the production, cultivation, or harvesting of the 1939 crop of sugar beets on farms with respect to which applications for payments under the act are made, and, (2) pursuant to the provisions of section 301 (d) of the said act, fair and reasonable prices for the 1939 crop of sugar beets to be paid, under either purchase or toll agreements, by processors who as producers apply for payments under the said act; and to receive evidence likely to be of assistance to the Secretary of Agriculture in making recommendations, pursuant to the provisions of section 511 of the said act, with respect to the terms and conditions of contracts between producers and processors of sugar beets.

Any of such hearings, after being called to order at the time and place mentioned above, may for convenience be adjourned to such other place in the same city as the presiding officer may designate, and may be continued from day to day within the discretion of the presiding officer.

Robert B. Tyler, Charles M. Nicholson, Otis E. Mullikon, and Bernhard H. Benidt are hereby designated as presiding officers to conduct, either jointly or severally, the foregoing hearings.

Done at Washington, D. C., this 20th day of December 1938. Witness my hand and the seal of the Department of Agriculture.

[SEAL] H. A. WALLACE,
Secretary of Agriculture.

Wage and Hour Division.

[Administrative Order No. 6]

AMENDING DEFINITION OF "TEXTILE INDUSTRY" AS CONTAINED IN ADMINISTRATIVE ORDER NO. 1 APPOINTING INDUSTRY COMMITTEE NO. 1

By virtue of and pursuant to the authority vested in me by the "Fair Labor Standards Act of 1938",[2] and pursuant to recommendations submitted to me by Industry Committee No. 1, I, Elmer F. Andrews, Administrator of the Wage and Hour Division, Department of Labor, do hereby amend the definition of the term "textile industry" as contained in paragraph 2 of Administrative Order No. 1, dated September 13, 1938,[3] to read as follows:

As used in this order, the term "textile industry" means

(a) The manufacturing or processing of yarn or thread and all processes pre-

[1] 2 F. R. 1339 (1597 DI).
[2] 2 F. R. 1336 (1594 DI).

[1] 2 F. R. 1338 (1596 DI).
[2] 52 Stat. 1060.
[3] 3 F. R. 2313 DI.

paratory thereto, and the manufacturing, bleaching, dyeing, printing and other finishing of woven fabrics (other than carpets and rugs) from cotton, silk, flax, jute or any synthetic fibre, or from mixtures of these fibres; except the chemical magufacturing of synthetic fibre and such related processing of yarn as is conducted in establishments manufacturing synthetic fibre;

(b) The manufacturing of batting, wadding or filling and the processing of waste from the fibres enumerated in clause (a);

(c) The manufacturing, bleaching, dyeing, or other finishing of pile fabrics (except carpets and rugs) from any fibre or yarn;

(d) The processing of any textile fabric, included in this definition of this industry, into any of the following products: bags; bandages and surgical gauze; bath mats and related articles; bedspreads; blankets; diapers; dish-cloths, scrubbing cloths and wash-cloths; sheets and pillow cases; table-cloths, luncheloths and napkins; towels; and window-curtains;

(e) The manufacturing or finishing of braid, net or lace from any fibre or yarn;

(f) The manufacturing of cordage, rope or twine from any fibre.

Signed at Washington, D. C., this 19th day of December 1938.

ELMER F. ANDREWS,
Administrator.

[F. R. Doc. 38-3827; Filed, December 20, 1938; 10:58 a. m.]

[Administrative Order No. 7]

APPOINTMENT OF INDUSTRY COMMITTEE No. 2

1. By virtue of and pursuant to the authority vested in me by the Fair Labor Standards Act of 1938,[1] I, Elmer F. Andrews, Administrator of the Wage and Hour Division, Department of Labor, do hereby appoint for the apparel industry (as such industry is defined in paragraph 2) an industry committee composed of the following representatives:

For the Public:

Louis E. Kirstein, Chairman, Boston, Mass.;
Delos Walker, Vice Chairman, New York City, N. Y.;
Miss Charlotte Carr, Chicago, Ill.;
Jonathan Daniels, Raleigh, N. C.;
John P. Devaney, Minneapolis, Minn.;
Miss Marion Dickerman, New York City, N. Y.;
Harrold English, Los Angeles, Calif.;
Herman Feldman, Hanover, N. H.;
Louis B. Hopkins, Crawfordsville, Ind.;
Neville Miller, Louisville, Ky.;
Mark McCloskey, New York City, N. Y.;
Harriss Newman, Wilmington, N. C.;
Arthur J. Patton, New York City, N. Y.;
Charles W. Pipkin, Baton Rouge, La.;
Charles Ray, Goodyear, Conn.;
Sumner H. Slichter, Boston, Mass.;

For the Employees:

Morris Bialis, Chicago, Ill.;
Hyman Blumberg, Baltimore, Md.;
Joseph Catalanotti, New York City, N. Y.;
David Dubinsky, New York City, N. Y.;
Harry Greenberg, New York City, N. Y.;
Sidney Hillman, New York City, N. Y.;
Julius Hochman, New York City, N. Y.;
Elizabeth M. Hogan, New York City, N. Y.;
Sam Levin, Chicago, Ill.;
Joseph P. McCurdy, Baltimore, Md.;
Isidore Nagler, New York City, N. Y.;
Meyer Perlstein, St. Louis, Mo.;
Jacob S. Potofsky, New York City, N. Y.;
Elias Reisberg, Harrisburg, Pa.;
Frank Rosenblum, Chicago, Ill.;
Nathan Sidd, Boston, Mass.;

For the Employers:

Frank Coll, Alpena, Mich.;
Oscar J. Groebl, San Francisco, Cal.;
W. C. Harris, Winder, Ga.;
S. L. Hoffman, New York City, N. Y.;
Samuel W. Levitties, Philadelphia, Pa.;
A. A. Lipshutz, Atlanta, Ga.;
Nathan Schwartz, New York City, N. Y.;
Jack Mintz, New York City, N. Y.;
A. W. Patterson, Denison, Tex.;
Alexander Printz, Cleveland, Ohio;
Raymond H. Reiss, Chicago, Ill.;
Victor Riesenfeld, New York City, N. Y.;
Herman Rosenblum, Louisville, Ky.;
Jesse Rosenfeld, New Orleans, La.;
Louis E. Rosensweig, New York City, N. Y.;
J. J. Wolkerstorfer, St. Paul, Minn.

Such representatives having been appointed with due regard to the geographical regions in which such industry is carried on.

2. As used in this order, the term "apparel industry" means:

The manufacture of all apparel, apparel furnishings and accessories made by the cutting, sewing, or embroidery processes, except: knitted outerwear, knitted underwear, hosiery, men's fur felt, wool felt, straw and silk hats, and bodies, ladies' and children's millinery, furs, and boots and shoes.

3. The industry committee herein created, in accordance with the provisions of the Fair Labor Standards Act of 1938 and rules and regulations promulgated thereunder,[2] shall investigate conditions in the apparel industry and recommend to the Administrator minimum wage rates for all employees thereof who within the meaning of said act are "engaged in commerce or in the production of goods for commerce", excepting employees exempted by virtue of the provisions of Section 13 (a) and employees coming under the provisions of Section 14.

Signed at Washington, D. C. this 19th day of December, 1938.

ELMER F. ANDREWS,
Administrator.

FEDERAL POWER COMMISSION.

[Docket No. IT-5536]

IN THE MATTER OF ORANGE AND ROCKLAND ELECTRIC COMPANY OF NEW JERSEY, AND ROCKLAND ELECTRIC CO.

NOTICE OF APPLICATION

DECEMBER 17, 1938.

Notice is hereby given that on December 16, 1938, an application was filed with the Federal Power Commission, pursuant to Section 203 of the Federal Power Act, by Orange and Rockland Electric Company of New Jersey, a corporation organized under the laws of the State of New Jersey and doing business in said State with its principal office at Monroe, New York, and the Rockland Electric Company, a corporation organized under the laws of the State of New Jersey and doing business in the States of New York and New Jersey with its principal office at Nyack, New York, seeking an order authorizing and approving the disposition by sale of all the facilities (excepting cash on hand and in bank and such property and assets as are situated outside of its franchise territory) of the first named company to the last named company. The facilities proposed to be disposed of are described in said application as follows: Distribution lines commencing at the following points on the New York-New Jersey State line: (1) West shore of Greenwood Lake, northeast of Lakeside; (2) East shore of Greenwood Lake, south of Sterling Forest; (3) About one mile east of Hope Mine; (4) About one mile west of Sheppard Pond. From these points these lines extend generally through West Milford Township and Borough of Ringwood, Passaic County, New Jersey, which constitutes the entire franchise territory of the Orange and Rockland Electric Company of New Jersey. In addition to the aforementioned distribution lines, it is proposed to sell other fixed capital assets consisting of the franchises in West Milford Township and Borough of Ringwood, land and rights of way, services, transformers and devices, meters, and general equipment. The proposed disposition of facilities of Orange and Rockland Electric Company of New Jersey includes all of its operating facilities except a small amount of property in Vernon Township, Sussex County, New Jersey, all as more fully appears in the application on file with the Commission.

Any person desiring to be heard, or to make any protest with reference to said application should, on or before the 3rd day of January 1939, file with the Federal Power Commission a petition or protest in accordance with the Commission's Rules of Practice and Regulations.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 38-3833; Filed, December 20, 1938; 12:09 p. m.]

SECURITIES AND EXCHANGE COMMISSION.

United States of America—Before the Securities and Exchange Commission

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 17th day of December 1938.

IN THE MATTER OF RALPH C. KENT, DOING BUSINESS AS RALPH C. KENT & CO., 7 SOUTH DEARBORN STREET, CHICAGO, ILLINOIS

MEMORANDUM OPINION AND ORDER REVOKING REGISTRATION

This is a proceeding pursuant to Section 15 (b) of the Securities Exchange Act of 1934, as amended, to determine whether the registration of Ralph C. Kent, doing business as Ralph C. Kent & Co., as a broker and dealer, effective January 1, 1936, should be revoked or suspended.

At a hearing held, pursuant to the Commission's order on September 26, 1938,[1] and October 10, 1938, at Chicago, Illinois, registrant failed to appear personally or by counsel, although notice of the hearing was received personally by him. The Trial Examiner filed an advisory report in which he found that the registrant had been convicted on or about April 20, 1937, of a felony arising out of the conduct of the business of a broker and dealer in securities, and that the registrant had violated Rule X-15B-2 in failing to inform the Commission of a change in his business address, of the conviction referred to above, and of the cancellation, in April 1937, of his license to sell securities in the State of Illinois. On an independent review of the record we adopt the Examiner's findings, and find further that it is not in the public interest to continue to permit Kent the use of the mails and instruments of interstate commerce in securities transactions on over-the-counter markets.

It is therefore ordered, Pursuant to Section 15 (b) of the Securities Exchange Act of 1934, as amended, that the registration of Ralph C. Kent, doing business as Ralph C. Kent & Co., be and the same is hereby revoked.

By the Commission.

Rules, Regulations, Orders

TITLE 14—CIVIL AVIATION

CIVIL AERONAUTICS AUTHORITY

AMENDMENT NO. 2 OF CIVIL AIR REGULATIONS AS ADOPTED BY THE AUTHORITY AND ISSUED PURSUANT TO REGULATION 601-A-1, PROMULGATED AUGUST 20, 1938, AMENDING PART 24, MECHANIC RATING

At a session of the Civil Aeronautics Authority held at its office in Washington, D. C., on the 19th day of December 1938.

Acting pursuant to the authority vested in it by the Civil Aeronautics Act of 1938, particularly Sections 205 (a) and 601 (a) of said Act, and finding that its action is desirable in the public interest and is necessary to carry out the provisions of, and to exercise and perform its powers and duties under said Act, the Civil Aeronautics Authority hereby amends Regulation 601-A-1,[1] Safety Rules, and the Civil Air Regulations adopted thereunder, as follows:

By amending Part 24, Mechanic Rating, Civil Air Regulations so that the same shall read as follows:

PART 24—MECHANIC RATING

24.0 Provision for rating.
24.1 Minimum requirements.
24.10 Aircraft mechanic rating.
24.11 Aircraft engine mechanic rating.
24.2 Mechanic competency certificate.
24.20 Provision for issuance.
24.21 Application.
24.22 Issuance.
24.23 Display.
24.24 Duration.
24.25 Renewal.
24.26 Non-transferability.
24.27 Suspension or revocation.
24.28 Surrender.
24.29 Re-application.
24.3 Examinations and tests.
24.30 General.
24.31 Time and place.
24.32 Inspection.
24.33 Standard of performance
24.34 Reports.
24.4 Mechanic regulations.
24.40 General prohibition.

24.0 *Provision for rating.* Pursuant to the provisions of the Civil Aeronautics Act of 1938, empowering the Civil Aeronautics Authority to issue airman certificates specifying the capacity in which the holders thereof are authorized to serve as airmen in connection with aircraft, and requiring the Authority to prescribe such reasonable rules and regulations governing practices, methods and procedure as the Authority may find necessary to provide adequately for safety in air commerce, airmen engaging as mechanics in the navigation of aircraft while under way or who are directly in charge of the inspection, maintenance, overhaul, or repair of aircraft, aircraft engines, propellers, or appliances (except parachutes), will be rated in accordance with the provisions of the following regulations.

24.00 Mechanic ratings will be as follows:

(a) Aircraft Mechanic Rating
(b) Aircraft Engine Mechanic Rating

24.1 *Minimum requirements.* To be eligible for a mechanic competency rating, an applicant shall comply with the following minimum requirements prescribed for the particular rating sought.

24.10 *Aircraft mechanic rating.*—To be eligible for an aircraft mechanic rating, an applicant shall comply with the following minimum requirements.

24.100 *Age.* Applicant shall be at least 18 years of age.

24.101 *Character.* Applicant shall be of good moral character.

24.102 *Citizenship.* Applicant may be a citizen of any nationality.

24.103 *Education.* Applicant shall be able to read, speak, write and understand the English language.

24.104 *Aeronautical knowledge.* Applicant shall have theoretical and practical knowledge of aircraft structure and rigging, including the control systems, and aircraft appliances, shall know how to properly inspect, maintain, overhaul, and repair the same, and shall be familiar with the provisions of Parts 00, 01, 02, 04, 14, 15, 18 and 24.

24.105 *Aeronautical experience.* Applicant shall have had at least one year of practical experience, or what is deemed by the Authority to be its equivalent, in the construction, inspection, maintenance, overhaul, or repair of aircraft, aircraft engines, propellers, or appliances (except parachutes), or in the navigation of aircraft while under way or who are directly in charge of the inspection, maintenance, overhaul, or repair of aircraft, aircraft engines, propellers, or appliances (except parachutes), will be rated in accordance with the provisions of the following regulations.

nance, overhaul, or repair of aircraft or aircraft appliances, or both. Compliance with § 24.115 shall not be deemed equivalent.

24.106 *Aeronautical skill.* Applicant shall satisfactorily demonstrate, by means of written, oral and practical tests, his ability with respect to the subject matters prescribed in § 24.104.

24.11 *Aircraft engine mechanic rating.* To be eligible for an aircraft engine mechanic rating, an applicant shall comply with the following minimum requirements:

24.110 *Age.* Same as in § 24.100.

24.111 *Character.* Same as in § 24.101.

24.112 *Citizenship.* Same as in § 24.102.

24.113 *Education.* Same as in § 24.103.

24.114 *Aeronautical knowledge.* Applicant shall have theoretical and practical knowledge of aircraft engines, propellers, and their appliances, including ignition systems, shall know how to properly inspect, maintain, overhaul and repair the same, and shall be familiar with the provisions of Parts 00, 01, 02, 04, 13, 14, 15, 18 and 24.

24.115 *Aeronautical experience.* Applicant shall have had at least one year of practical experience, or what is deemed by the Authority to be its equivalent, in the construction, inspection, maintenance, overhaul, or repair of aircraft engines, propellers, and their appliances, or either or any of the same. Compliance with § 24.105 shall not be deemed equivalent.

24.116 *Aeronautical skill.* Applicant shall satisfactorily demonstrate, by means of written, oral and practical tests, his ability with respect to the subject matters prescribed in § 24.114.

24.2 *Mechanic competency certificate.*

24.20 *Provision for issuance.* An appropriate mechanic certificate of competency will be issued to a natural person by the Authority upon approval of an application made and satisfactory proofs submitted, and if, upon inspection and examination, is found by the Authority to meet the appropriate minimum requirements prescribed in § 24.1 and is, therefore, rated as competent to engage as a mechanic in the navigation of aircraft while under way or to be in direct charge of the inspection, maintenance, overhaul and repair of aircraft and aircraft appliances, or aircraft engines, propellers, and their appliances, as classified by Section 24.00 (a) and (b).

24.200 Each holder of a valid engine mechanic's license or a valid airplane mechanic's license on November 1, 1937 may perform service pursuant to such authority until the expiration thereof, and then, upon compliance with the provisions for renewal herein, have issued to him a mechanic competency certificate with an aircraft mechanic rating or an aircraft engine rating thereon, as the case may be, as provided for herein.

24.201 Each holder of a valid mechanic certificate of competency on the effective date of this Part may perform service as if such certificate had been issued pursuant to this Part.

24.202 Each holder of a valid mechanic's license or mechanic certificate, whenever issued, shall be subject to reexamination at any time by the Authority in any theoretical or practical test prescribed as requisite for certificates issued pursuant to this Part.

24.203 *Identification Card.* In the discretion of the Authority, an appropriate mechanic's identification card will be issued with any mechanic certificate.

24.21 *Application.* Application for a mechanic certificate, subscribed under oath, shall be made to the Authority upon a form supplied for that purpose.

24.210 *Application to amend.* When any change in a mechanic competency certificate is desired, the applicant shall file a written request therefor with the Authority or may make oral or written request of the local inspector of the Authority.

24.211 *Proceeding to amend.* A proceeding to amend a mechanic competency rating may be instituted by the Authority when, in its opinion, the mechanic is no longer competent in respect of some matter specified in the certificate. Notice of such proceeding shall be addressed to the mechanic with opportunity for a hearing. In the interim, the certificate may be suspended in whole or in part by the Authority. Following the hearing, the Authority may issue a re-rating as to competency.

24.22 *Issuance.* Upon approval of an application duly made, proofs submitted, and examinations and tests satisfactorily completed, a mechanic certificate of competency will be issued in an appropriate form.

24.220 *Temporary certificate.* Following application made for a mechanic certificate of competency, but prior to approval thereof and issuance of the certificate, a temporary mechanic certificate may be issued by the Authority. Likewise, for the period of time elapsing between application for renewal of a certificate and the issuance of the renewal, a temporary certificate may be issued by the Authority.

24.23 *Display.* A mechanic certificate shall be kept in the personal possession of the mechanic at all times when he is serving in connection with aircraft, and shall be presented upon the demand of any passenger in, or owner of, such aircraft upon which such mechanic has worked, or of any authorized official or employee of the Authority or of any State or municipal official charged with the duty of enforcing local laws or regulations involving Federal compliance, or upon the reasonable request of any other person.

24.24 *Duration.* A mechanic certificate, unless sooner suspended or revoked in accordance with the provisions of § 24.27, will remain in force for two years after the date of issue.

24.25 *Renewal.* A mechanic certificate may be renewed, for a like period as the original certificate, upon application within 30 days prior to the expiration thereof and upon satisfactory showing that, during the term of the last certificate, the holder has rendered any type of service, under his certificate, during at least one-half of the term thereof, and that he complies with all of the appropriate minimum requirements prescribed in § 24.1. The service so rendered shall be described in written statement under oath subscribed by the applicant.

24.26 *Non-transferability.* A mechanic certificate is not transferable.

24.27 *Suspension or revocation.* A mechanic certificate may be suspended or revoked by the Authority by reason of any of the following, on the part of the holders thereof:

24.270 (a) Any false statement in an application for a certificate or any renewal thereof, or in any report required by the Authority.

24.271 (b) Using or displaying the certificate for any fraudulent purpose.

24.272 (c) Refusal to exhibit the certificate upon proper demand.

24.273 (d) Carelessness or inattention to duty.

24.274 (e) Any demonstration of incompetency in the inspection, maintenance, overhaul, or repair of aircraft, aircraft engines, propellers, or their appliances.

24.275 (f) Being under the influence of, or using, or having personal possession of intoxicating liquor, cocaine, or other habit-forming drugs while on duty.

24.276 (g) Doing any act in connection with aircraft, aircraft engines, propellers, or their appliances, which is contrary to the public safety or interest, or detrimental to the morale of airmen.

24.277 (h) Violation of any provisions of the Civil Aeronautics Act of 1938 or of any of the rules or regulations duly issued thereunder.

24.28 *Surrender.* Upon notice of the revocation by the Authority of a mechanic certificate, or upon demand for such certificate in the event of its suspension by the Authority, the holder thereof shall immediately deliver such certificate to the Authority. Notwithstanding any failure or refusal to surrender a mechanic certificate, it, in the case of revocation, shall be deemed canceled and of no further force or effect, and in the case of suspension, shall be deemed of no force or effect, during the period of suspension.

24.29 *Re-application.* An applicant for a mechanic certificate of competency who has failed to successfully accomplish the prescribed theoretical or practical tests may apply for reexamination at any time after the expiration of 90 days, from the date of such failure.

24.3 *Examinations and tests.*

24.30 *General.* The examinations and tests prescribed in this Part will be conducted by a duly authorized inspector of the Authority.

24.31 *Time and place.* All examinations and tests will be held at such times and places as the Authority may provide.

24.32 *Inspection.* The applicant for any mechanic certificate of competency shall offer full cooperation in respect of any inspection and examination which may be made of said applicant upon proper demand by any authorized representative of the Authority prior or subsequent to the issuance of a mechanic certificate of competency.

24.33 *Standard of performance.* All practical or theoretical examinations and tests shall be accomplished to the satisfaction of the Authority, and the minimum passing grade in any subject of examination or test shall be 70 per cent.

24.34 *Reports.* The person giving any examination or test in behalf of the Authority will promptly report the result thereof to the Authority.

24.4 *Mechanic regulations.* The following rules pertaining to mechanic certificates will govern mechanic services in relation to aircraft.

24.40 *General prohibition.* No person shall engage as a mechanic in the navigation of aircraft while under way or be directly in charge of the inspection, maintenance, overhaul, or repair of aircraft, aircraft engines, propellers, or appliances except parachutes), unless said person is possessed of a valid airman certificate certifying his competency to serve in such capacity.

For the Authority.

[SEAL] PAUL J. FRIZZELL,
Secretary.

[F. R. Doc. 38-3846; Filed, December 20, 1938; 1:18 p. m.]

TITLE 19—CUSTOMS DUTIES

BUREAU OF CUSTOMS

[T. D. 49764]

COLLECTORS OF CUSTOMS INSTRUCTED RELATIVE TO THE DUTIABLE AND TAXABLE STATUS OF IMPORTED SAWED TIMBER

To Collectors of Customs and Others Concerned:

Reference is made to T. D. 49662, approved July 27, 1938,[1] in which collectors of customs were instructed to continue the existing practice of collecting estimated duties and import taxes on sawed timber under the provision for lumber in section 601 (c) (6) of the Revenue Act of 1932 (U. S. C. title 26, foot-note at end of chap. 20), pending the issuance of a ruling as to the taxable status of such timber.

The decision of the United States Customs Court in the case of *Laurence Phillips Lumber Co.* v. *United States*, (1938) T. D. 49624, holding certain timber 6" x 6" or over in cross section, and not less than 6" on any one side, to be excluded from the provision for lumber, has become final in the absence of an appeal and the Treasury Department acquiesces therein. Under the second proviso to item 601 (c) (6) of the Canadian Trade Agreement (49 Stat. 3982), concluded on November 15, 1935, the provisions of article IV and schedule II of that agreement are, therefore, not applicable to sawed timber of the dimensions above described. In view of the Department's ruling in T. D. 49662 to the effect that the second sentence of section 704 (a) of the Revenue Act of 1938 (Public, No. 554, 75th Congress) will not be effective unless and until certain obligations assumed in the Canadian Trade Agreement are terminated otherwise than in connection with the undertaking by the United States of new obligations of like effect, no import tax should be imposed under section 601 (c) (6) of the Revenue Act of 1932 with respect to sawed timber entered for consumption or withdrawn from warehouse for consumption prior to the expiration of the effective period of article IV of the trade agreement concluded between the United States and Canada on November 15, 1935. Under the terms of the trade agreement between the United States and Canada, signed November 17, 1938, as proclaimed by the President on November 25, 1938, article IV of the trade agreement concluded between the United States and Canada on November 15, 1935, as proclaimed by the President on December 2, 1935, will be inoperative on and after January 1, 1939.

Sawed timber entered for consumption or withdrawn from warehouse for consumption before January 1, 1939, if properly dutiable under paragraph 401 of the Tariff Act of 1930 (U. S. C. title 19, sec. 1001, par. 401) and excluded from the operation of the import tax provided in section 601 (c) (6) of the Revenue Act of 1932 pursuant to the decision of the Customs Court in T. D. 49624, is not subject to the reduction provided in item 401 of the Canadian Trade Agreement (49 Stat. 3978), signed November 15, 1935. Such sawed timber should be assessed with duty at the rate of $1 per thousand feet, board measure, under the provisions of paragraph 401 of the Tariff Act of 1930, if covered by unliquidated entries or by liquidated entries as to which timely protest has been or shall be filed against the assessment of the import tax under section 601 (c) (6) of the Revenue Act of 1932.

Item 601 (c) (6) of the trade agreement between the United States and Canada, signed on November 17, 1938,[2] provides for "lumber, including sawed timber", thereby recognizing the definition of lumber contained in the second sentence of section 704 (a) of the Revenue Act of 1938. The Department is accordingly of the opinion that there is no conflict between the amendment contained in the second sentence of section 704 (a) of the Revenue Act of 1938 and article VII of the above-mentioned trade agreement, which will be effective on and after January 1, 1939. Therefore, as to merchandise entered for consumption or withdrawn from warehouse for consumption on or after January 1, 1939, the term "lumber", as used in section 601 (c) (6) of the Revenue Act of 1932, is held to include sawed timber.

[SEAL] JAMES H. MOYLE,
Commissioner of Customs.

Approved, December 15, 1938.

STEPHEN B. GIBBONS,
Acting Secretary of the Treasury.

[F. R. Doc. 38-3854; Filed, December 21, 1938; 11:39 a. m.]

TITLE 22—FOREIGN RELATIONS

DEPARTMENT OF STATE

RULES OF PROCEDURE GOVERNING THE ISSUANCE OF LICENSES FOR THE EXPORTATION OF TIN-PLATE SCRAP DURING THE CALENDAR YEAR 1939

DECEMBER 16, 1938.

In furtherance of the purposes of the Act of Congress approved February 15, 1936, which, as stated therein, are:

to protect, preserve, and develop domestic sources of tin, to restrain the depletion of

domestic reserves of tin-bearing materials, and to lessen the present costly and dangerously dependent position of the United States with respect to resources of tin,

and in order to assure in the public interest the fair and equitable consideration referred to in Section 2 of the Act which reads as follows:

> There shall not be exported from the United States after the expiration of sixty days from the enactment of this Act any tin-plate scrap, except upon license issued by the President of the United States. The President is authorized to grant licenses upon such conditions and regulations as he may find necessary to assure in the public interest fair and equitable consideration to all producers of this commodity.

The Acting Secretary of State, acting under and by virtue of the authority vested in him by Executive Order No. 7297 of February 16, 1936, hereby prescribes, by and with the advice and consent of the National Munitions Control Board, the following rules of procedure to govern the issuance of licenses for the exportation of tin-plate scrap during the calendar year 1939 under the regulations governing the export of that commodity prescribed on December 7, 1936: [1]

(1) *Requests for allotments.*—Each producer of tin-plate scrap who desires to export that commodity during the calendar year 1939, as well as every producer whose scrap is sold to and ultimately exported by third parties, should submit to the Secretary of State *not later than January 10, 1939*, a request for an allotment, specifying in long tons the quantity of tin-plate scrap which he desires to export or to sell for export between January 11 and December 31, 1939.

(2) *Original allotments.*—Allotments will be granted to producers of tin-plate scrap only and will be assigned on January 11, 1939, to producers whose applications have been submitted in accordance with the provisions of paragraph (1). Allotments will be based on the individual producer's request therefor with the provision that no allotment of more than 25 long tons shall exceed in amount 20 percent of the quantity of tin-plate scrap produced by him during the calendar year 1937. Requests for allotments of 25 long tons or less may be granted in full, without reference to the quantity of tin-plate scrap produced during the calendar year 1937, provided the producer concerned presents convincing evidence, in the form of a sworn statement, establishing that he will, so far as can be foreseen, during the calendar year 1939, produce at least the equivalent of the allotment which he requests. No allotment assigned under the provisions of this paragraph to any one producer, including his affiliated or associated companies, shall exceed 2,000 long tons.

(3) *Sworn statement of 1937 production.*—No producer shall be eligible to receive an allotment under the provisions of paragraph (2) until the Secretary of State has received from him a sworn statement setting forth the quantity of tin-plate scrap, in long tons, produced by him during the calendar year 1937. Sworn statements submitted under the provisions of this paragraph shall include the name and address of the producer, the name and location of each factory, and the quantity of tin-plate scrap produced at each factory.

(4) *Apportionment of total allotments.*—In the event that it shall be necessary, in order that the quantity of tin-plate scrap to be exported during the calendar year 1939 shall not exceed the total figure to be agreed upon by the National Munitions Control Board, such total shall be apportioned among the applicants for allotments on the basis of 1937 production, with the provision that no allotment shall exceed the quantity specified in the individual producer's request therefor. If an apportionment is unnecessary, further allotments may be granted after January 11 in the order of the receipt of requests therefor until the total figure referred to has been exhausted.

(5) *Additional allotments.*—In the event that conditions then existing shall warrant such action, additional allotments may be granted after July 1, 1939, upon such conditions as may be agreed upon by the National Munitions Control Board and announced by the Secretary of State.

(6) *Fair and equitable consideration.*—An allotment may be granted at any time during the calendar year 1939, without regard to previous assignments of allotments, to any producer of tin-plate scrap who presents to the National Munitions Control Board, through the Secretary of State, convincing evidence that he is not receiving the fair and equitable consideration referred to in Section 2 of the Act approved February 15, 1936. Allotments assigned under the provisions of this paragraph shall be granted in such quantities as will assure in the public interest fair and equitable consideration to the producer concerned. All applications for allotments under the provisions of this paragraph shall be accompanied by sworn statements, in quintuplicate, setting forth complete and detailed information in support thereof.

(7) *Licenses.*—No tin-plate scrap may be exported unless a license authorizing such export shall have been issued by the Secretary of State. Licenses may be issued to any producer who has been assigned an allotment or to any other person or persons authorized by such producer to export tin-plate scrap under his allotment, provided that licenses will not be issued during the first six months of the calendar year for the exportation of tin-plate scrap in quantities in excess of 50 percent of any allotment of 50 long tons or more.

(8) *Licenses issued to persons other than producers of tin-plate scrap.*—Any producer who has received an allotment may, if he so desires, authorize any other person or persons to apply for license to export under his allotment tin-plate scrap produced at his factory or factories. The Department of State should be informed promptly of such authorizations when made. Persons other than producers should, in submitting applications for license, assure themselves that an allotment has been assigned covering the particular tin-plate scrap which they desire to export and they should include in the application a statement setting forth the name and address of the factory or factories at which the tin-plate scrap was produced and the quantity produced at each factory.

(9) *General statement.*—As stated in paragraph (3) of the regulations governing the exportation of tin-plate scrap, the Secretary of State will issue export licenses to cover proposed shipments of tin-plate scrap when, in the opinion of the National Munitions Control Board, the issuance of such licenses may be consistent with the purposes of the Act approved February 15, 1936. The National Munitions Control Board may revoke, cancel, or modify at any time allotments or licenses granted under the rules of procedure herein announced and may modify these rules of procedure whenever, in its opinion, such action is required in order to carry out the purposes of the Act.

[SEAL] SUMNER WELLES,
Acting Secretary of State.

TITLE 29—LABOR

WAGE AND HOUR DIVISION

PART 536—REGULATIONS DEFINING THE TERM "AREA OF PRODUCTION" AS USED IN SECTION 7 (C) AND IN SECTION 13 (A) (10) OF THE FAIR LABOR STANDARDS ACT

The following amendments to Regulations—Part 536—(Regulations Defining the Term "Area of Production" as Used in Section 7 (c) and in Section 13 (a) (10) of the Fair Labor Standards Act)[1] are hereby issued. The first of said amendments amends Section 536.1 by adding an alternative paragraph numbered "(c)" applicable to dry edible beans. The second of said amendments amends Section 536.2 by adding an alternative paragraph numbered "(c)" applicable to dry edible beans. The third of said amendments amends Section 536.3. Said amendments shall become effective upon my signing the original and upon the publication thereof in the FEDERAL REGISTER, and shall be in force and effect until repealed by regulations hereafter made and published.

Signed at Washington, D. C., this 20th day of December, 1938.

ELMER F. ANDREWS,
Administrator.

SEC. 536.1 *"Area of production" as used in Section 7 (c) of the Fair Labor Standards Act.* An employer shall be regarded as engaged in the first processing of any agricultural or horticultural commodity during seasonal operations within the "area of production" within the meaning of Section 7 (c)

(a) if the first processing is conducted on a farm and is performed on agricultural or horticultural commodities produced exclusively on such farm, or

(b) if the commodities processed are obtained from farms in the immediate locality of the processing establishment and the number of employees there engaged in such processing does not exceed seven, or

(c) with respect to dry edible beans, if he is so engaged in an establishment which is a first concentration point for the processing of such beans into standard commercial grades for marketing in their raw or natural state. As used in this subsection (c), "first concentration point" means a place where such beans are first assembled from nearby farms for such processing but shall not include any establishment normally receiving a portion of the beans assembled from other first concentration points.*

SEC. 536.2 *"Area of production" as used in Section 13 (a) (10) of the Fair Labor Standards Act.* An individual shall be regarded as employed in the "area of production" within the meaning of Section 13 (a) (10), in handling, packing, storing, ginning, compressing, pasteurizing, drying, preparing in their raw or natural state, or canning of agricultural or horticultural commodities for market, or in making cheese or butter or other dairy products

(a) if he is engaged in such work on a farm and on agricultural or horticultural commodities produced exclusively on such farm, or

(b) if the agricultural or horticultural commodities are obtained by the establishment where he is employed from farms in the immediate locality and the number of employees in such establishment does not exceed seven, or

(c) with respect to dry edible beans, if he is so engaged in an establishment which is a first concentration point for the processing of such beans into standard commercial grades for marketing in their raw or natural state. As used in this subsection (c), "first concentration point" means a place where such beans are first assembled from nearby farms for such processing but shall not include any establishment normally receiving a portion of the beans assembled from other first concentration points.*

SEC. 536.3 *Petition for amendment of regulations.* Any interested persons or association wishing a revision of the foregoing regulations may make application to the Administrator in writing to amend Sections 536.1 and 536.2. If upon inspection of the petition the Administrator believes that reasonable cause for amendment of the regulations is set forth, the Administrator will either schedule a hearing with due notice to interested parties or will make other provision for affording interested parties an opportunity to present their views either in support of or in opposition to the proposed changes.*

[F. R. Doc. 38-3855; Filed, December 21, 1938; 11:45 a. m.]

[1] 3 F. R. 2536 DI.

* Section 536.1 through Section 536.3, as amended December 20, 1938, issued under the authority contained in Sections 7 (c) and 13 (a) (10), 52 Stat. 1060.

TITLE 30—MINERAL RESOURCES

NATIONAL BITUMINOUS COAL COMMISSION

[General Docket No. 15]

ESTABLISHMENT OF MINIMUM PRICES AND MARKETING RULES AND REGULATIONS

PROPOSAL OF RULES AND REGULATIONS INCIDENTAL TO SALE AND DISTRIBUTION OF COAL BY CODE MEMBERS SUBMITTED BY DISTRICT BOARDS FOR DISTRICT NOS. 14 AND 15

At a session of the National Bituminous Coal Commission held at its offices in Washington, D. C., on the 17th day of December 1938.

The Commission, on the 25th day of May, 1938,[1] having instituted the above-entitled proceedings for the purpose of carrying out the provisions of sub-sections (a) and (b) of Section 4, Part II, of the Bituminous Coal Act of 1937,[2] and having on the 20th day of August, 1938, by its Order No. 250,[3] directed the District Boards for Districts Nos. 14 and 15 to propose reasonable rules and regulations incidental to the sale and distribution of coal by the code members of said districts in conformity with the provisions of Section 4 II (a) of the Act,

And said District Boards Nos. 14 and 15 having submitted such proposed rules and regulations, together with the reasons upon which they were predicated, to the Commission in accordance with the provisions of said Order No. 250, the Commission, by its Order entered herein on the 11th day of October, 1938, and by its Notice of Postponement entered on the 21st day of October, 1938, and its Notice and Order for Hearing dated October 29, 1938, directed that a hearing on said proposals be held in the Hearing Room of the Commission in the Morrison Hotel, Chicago, Illinois, commencing on the 14th day of November, 1938, at 10 o'clock, A. M., for the purpose of receiving evidence to enable the Commission to approve such proposed marketing rules and regulations, or to enable the Commission to modify the proposed rules and regulations, as provided in Section 4 II (a) of the Act, in order that such proposed marketing rules and regulations, as approved or modified, as the case may be, may serve as the basis for the coordination provided by Section 4 II (b) of the Act, and

After reasonable public notice having been given thereof, said Hearing was commenced at the time and place stated and concluded on the 6th day of December, 1938, at which time all interested parties were afforded a full opportunity to be heard, and the evidence being adduced, the Commission being fully advised in the premises has made Findings of Fact and Conclusions relating to and which are by this reference incorporated herein and made a part hereof, and

The Commission having determined that the rules and regulations as set forth in the said Findings of Fact and Conclusions for said Districts Nos. 14 and 15 respectively are reasonable and are not inconsistent with the requirements of Section 4 of the Act, and do conform to the standards of fair competition established by Section 4 of the Act, and form a proper basis for the coordination provided for by Section 4 II (b) of the Act,

Now, therefore, Pursuant to the provisions of the Bituminous Coal Act of 1937, the National Bituminous Coal Commission hereby approves, for the purpose of coordination, the "Rules and Regulations incidental to the sale and distribution of coal by code members," as the same are set forth in the "Findings of Fact and Conclusions" by the Commission for said Districts Nos. 14 and 15 respectively filed this date in the Office of the Secretary of the Commission, Washington, D. C.

The Secretary of the Commission is hereby directed to cause a copy of this Order to be published forthwith in the FEDERAL REGISTER, and to cause a copy hereof, together with the "Findings of Fact and Conclusions" of the Commission, above referred to, to be mailed to the Consumers' Counsel, the Secretary of each District Board, to all parties who have filed their appearances in the hearing relating to the aforesaid proposals, and to cause copies thereof to be made available for inspection by interested parties at the Office of the Secretary of the Commission, Washington, D. C., and at the office of each Statistical Bureau of the Commission.

By order of the Commission.

Dated this 17th day of December 1938.

[SEAL] F. WITCHER MCCULLOUGH,
Secretary.

[General Docket No. 15]

ESTABLISHMENT OF MINIMUM PRICES AND MARKETING RULES AND REGULATIONS

PROPOSALS OF MINIMUM PRICES SUBMITTED BY DISTRICT BOARDS FOR DISTRICTS NOS. 14 AND 15 (COMPRISING MINIMUM PRICE AREAS NOS. 4 AND 5)

At a session of the National Bituminous Coal Commission held at its offices in Washington, D. C., on the 17th day of December 1938.

The Commission, on the 25th day of May, 1938,[1] having instituted the within proceedings entitled "In the Matter of the Establishment of Minimum Prices and Marketing Rules and Regulations, General Docket No. 15," for the purpose of carrying out the provisions of subsections (a) and (b) of Section 4, Part II, of the Bituminous Coal Act of 1937,[2] and thereafter, upon the 19th day of August, 1938, after Notice and Hearing, having determined the weighted average cost, as provided in Section 4, II (a) of the Act, for Minimum Price Areas Nos. 4 and 5 respectively, did, on the 20th day of August, by Order No. 249,[3] direct the District Boards for District Nos. 14 and 15, within Minimum Price Areas Nos. 4 and 5 to propose minimum prices in conformity with the provisions of Section 4, II (a) of the Act, and, in accordance with the rules and regulations prescribed by said Order No. 249, and

Said District Boards Nos. 14 and 15 having, thereafter, proposed such minimum prices, the Commission, by its Order entered in this proceeding on October 11, 1938, and Notice of Postponement issued by the Commission on the 21st day of October, 1938, and by Notice and Order of the Commission dated October 29, 1938, directed that a hearing on such proposals be held in the Hearing Room of the Commission in the Morrison Hotel, Chicago, Illinois, commencing on the 14th day of November, 1938, at the hour of 10 o'clock, a. m., for the purpose of receiving evidence relating to said proposals to enable the Commission to approve such proposed minimum prices, or to enable the Commission to modify such proposed minimum prices, so as to conform them to the requirements of Section 4, II (a) of the Act, in order that such proposed minimum prices, as approved, or modified, as the case may be, may serve as the basis for the coordination, as provided by Section 4, II (b) of the Act, and

Reasonable public notice thereof having been given, said Hearing was commenced at the time and place stated, and concluded on the 6th day of December, 1938, at which Hearing all interested parties were afforded full opportunity to be heard, and

The evidence being adduced, and the Commission being fully advised in the premises, and upon consideration thereof, the Commission made Findings of Fact and Conclusions relating to the proposals of minimum prices submitted by said District Boards Nos. 14 and 15, which Findings of Fact and Conclusions are on file in the office of the Secretary of the Commission at Washington, D. C., and by this reference are incorporated herein and made a part hereof, and

Included in the said Finding of Fact and Conclusions, relating to each of the aforesaid districts, is an appendix entitled "Schedule of Minimum Prices as Modified and Approved to Serve as a Basis for Coordination," which schedule embraces all modifications which the Commission determined to be necessary to conform the proposals of the respective districts to the requirements of Section 4, II (a) of the Act, and which the Commission has determined to be the proper basis to be used by the respective districts for the coordination provided for in Section 4, II (b) of the Act;

Now, therefore, Pursuant to the provisions of the Bituminous Coal Act of 1937, the National Bituminous Coal Commission orders and directs:

1. That in the coordination of minimum prices as provided by Section 4, II (b) of the Act, to be hereafter directed by subsequent Order of the Commission, the District Boards for Districts Nos. 14 and 15 will take, as a basis thereof, the schedule as approved herein and described as follows:

District No. 14.—Appendix to the Findings for District No. 14, as above referred to, entitled "Schedule of Minimum Prices as Modified and Approved to Serve as a Basis for Coordination."

District No. 15.—Appendix to the Findings for District No. 15, as above referred to, entitled "Schedule of Minimum Prices as Modified and Approved to Serve as a Basis for Coordination."

2. The Secretary of the Commission be, and he is hereby directed to cause a copy of this Order to be published forthwith in the FEDERAL REGISTER, and to cause a copy hereof, together with the Findings of Fact, including the appendices thereto, for Districts Nos. 14 and 15, to be mailed to the Consumers' Counsel, to the Secretary of each District Board, to all interested parties who have entered their appearances in the hearing relating to said proposals, and to make copies of this Order and Findings of Fact, including the appendices thereto, available for inspection by interested parties at the office of the Secretary of the Commission, Washington, D. C., and at the office of each Statistical Bureau of the Commission.

By order of the Commission.

Dated this 17th day of December 1938.

[SEAL] F. WITCHER MCCULLOUGH,
Secretary.

[Docket No. 15]

MINIMUM PRICES AND MARKETING RULES AND REGULATIONS AS PROPOSED AND SUBMITTED BY DISTRICT BOARDS FOR DISTRICTS 9, 10, 11, 12, 14, AND 15 WITHIN MINIMUM PRICE AREAS 2, 4, AND 5

FINDINGS AS TO THE FACTS AND CONCLUSIONS OF THE COMMISSION

Pursuant to the provisions of an Act of Congress approved April 26, 1937, entitled "An Act to regulate interstate commerce in bituminous coal and for other purposes" (Public No. 48, 75th Congress, 1st Sess.), known as the "Bituminous Coal Act of 1937", and hereinafter referred to as the "Act," the National Bituminous Coal Commission, hereinafter referred to as the "Commission," under and by virtue of the authority granted in Section 4 II (a) of the Act, on the 20th day of August 1938, issued its Orders No. 249 and No. 250 ordering and directing the District Boards for Districts 9, 10, 11, 12, 13, 14, and 15 to propose to the Commission minimum prices free on board transportation facilities at the mines for kinds, qualities and sizes of coal produced in said districts and reasonable rules and regulations incidental to the sale and distribution of coal by code members within said districts, the minimum prices and marketing rules and regulations to be proposed by the District Board for District 13 to be limited to that part of District 13 known as Minimum Price Area 3, said proposals to be submitted to the Commission on or before the 14th day of September 1938.

Said orders were published in the FEDERAL REGISTER under date of August 23, 1938, and copies of said orders were mailed to each of the code members within said districts and to each of the Secretaries of the District Boards within Minimum Price Areas 2, 3, 4 and 5, as directed in said orders.

Order No. 249 directed each of the aforesaid District Boards to propose to the Commission minimum prices f. o. b. transportation facilities at the mines for kinds, qualities, and sizes of coal produced by the code members in their respective districts, and to propose such classification of coal and price variations as to mines, consuming market areas, values as to uses and seasonal demand, as might be deemed proper and within the authority conferred by the Act. This order further provided that each District Board should transmit its schedule of proposed minimum prices

[1] 3 F. R. 1200, 1226 DI.
[2] 50 Stat. 72.
[3] 3 F. R. 2057 DI.

to each code member in the district before filing such schedule with the Commission in order to give code members an opportunity of protesting any proposed price classification.

Order No. 249 further directed that the minimum prices proposed by the several district boards should conform to the following standards therefor set out in Section 4 II (a) of the Act:

(a) The proposed minimum prices for each of the aforesaid districts shall yield a return per net ton for such districts equal, as nearly as may be, to the weighted average of the total costs, per net ton, of the tonnage of the minimum price area within which such district is located, as said weighted average heretofore has been determined by order of the Commission dated August 19, 1938, in this proceeding.

(b) They shall reflect, as nearly as possible, the relative market value of the various kinds, qualities and sizes of coal to which they are applicable.

(c) They shall be just and equitable as between producers within the district.

(d) They shall be just and equitable as between producers within the district for any kind, quality or size of coal for shipment into any consuming market area.

(e) They shall not permit dumping.

Order No. 249 further directed that each schedule of proposed minimum prices submitted by the district boards should include the following clause:

"NOTE.—The prices in this schedule are not the final minimum prices that will be established on coal for shipment by code members within this district into consuming markets of this district. In the ultimate establishment of the effective minimum prices, pursuant to subsection (b) of Part II, Section 4 of the Act, the minimum prices as proposed in such schedule, or as modified, are subject to such increase or decrease, respectively, as may be necessary to carry out the provisions of subsections (a) and (b) of Part II, Section 4 of the Act."

Order No. 250 directed each of the aforesaid District Boards to propose to the Commission reasonable rules and regulations incidental to the sale and distribution of coals by the code members of their respective districts, such rules and regulations not to be inconsistent with the requirements of Section 4 of the Act and to conform to the standards of fair competition therein established. Said order directed said District Boards to transmit such proposed rules and regulations to all code members in order that they would be afforded an opportunity of studying such proposed rules and regulations and of protesting to any of such proposals and to suggest whatever added rules or regulations such code members deemed necessary to properly effectuate the purposes of Section 4 of the Act.

Upon receipt of said orders by the several District Boards within Minimum Price Areas 2, 3, 4 and 5, said District Boards, as directed in said orders, proceeded to propose such minimum prices and marketing rules and regulations as in their judgment conformed to the requirements of said orders. Schedules evidencing such proposals were prepared by said District Boards and copies of same were transmitted to each code member within the respective districts in order that such code members, after due consideration of such schedules, might present to their respective District Boards whatever objections, if any, they might have to said schedules, and in order that the respective District Boards, after due consideration of such objections, if any, might revise such schedules in such manner as, in their judgment, would better conform to the requirements of Orders No. 249 and No. 250, as issued by the Commission, and to the requirements of Section 4 II (a) of the Act.

The schedules of minimum prices, as revised, together with the data upon which same were computed and the schedules of marketing rules and regulations, together with the reasons supporting same, were transmitted to the Commission as directed in said orders.

Subsequent to the receipt of said schedules by the Commission, the Commission, on the 11th day of October 1938, issued its order giving notice to all interested parties of a hearing to be held upon the proposals of minimum prices and marketing rules and regulations as proposed and submitted to the Commission by the District Boards for Districts 9, 10, 11, 12, 13 (except Van Buren, Warren and McMinn Counties in Tennessee), 14 and 15 within Minimum Price Areas 2, 3, 4 and 5, said hearing to be held on the 26th day of October 1938, at the Hearing Room of the Commission, 15th and Eye Streets, N. W., Washington, D. C. As expressed in the face of said order, said hearing was to be held for the purpose of receiving evidence relating to the aforementioned proposals of minimum prices and marketing rules and regulations in order to enable the Commission to approve or modify such proposals to the end that such proposals, as approved or modified, may serve as the basis for the coordination of same as provided in Section 4 II (b) of the Act.

Said order giving notice of said hearing directed the Secretary of the Commission to cause copies of said proposals to be made available for inspection by interested parties at the office of the Secretary of the Commission at Washington, D. C., and at the office of each Statistical Bureau of the Commission within Minimum Price Areas 2, 3, 4 and 5; to cause a copy of said order to be published forthwith in the FEDERAL REGISTER and in two consecutive issues of a newspaper having a general circulation in each of the districts within Minimum Price Areas 2, 3, 4 and 5; and to cause a copy of said order to be mailed to each of the code members within said districts, to the Office of Consumers' Counsel, Washington, D. C., and to the Secretaries of each of the District Boards for the districts within Minimum Price Areas 2, 3, 4 and 5. A copy of said order was also directed to be made available for inspection at each of the Statistical Bureaus of the Commission within said districts.

The aforesaid directions in said order were complied with. A copy of said order was made available for inspection at the office of the Secretary of the Commission at Washington, D. C., and at the office of each of the Statistical Bureaus of the Commission within each of the districts within Minimum Price Areas 2, 3, 4 and 5. A copy of said order was published in the FEDERAL REGISTER of date October 14, 1938, and a copy of said order was mailed to each of the code members within Minimum Price Areas 2, 3, 4 and 5, to the Office of Consumers' Counsel, Washington, D. C., and to each of the Secretaries of the District Boards within Minimum Price Areas 2, 3, 4 and 5. A copy of said order was published in two consecutive issues of The Des Moines Register, Des Moines, Iowa; The Birmingham News, Birmingham, Alabama; the Illinois State Register, Springfield, Illinois; The Terre Haute Tribune, Terre Haute, Indiana; The Louisville Times, Louisville, Kentucky; The Kansas City Star, Kansas City, Missouri; and the Arkansas Democrat, Little Rock, Arkansas, newspapers having a general circulation in each of the respective districts within Minimum Price Areas 2, 3, 4 and 5.

Subsequent to the issuance and service of the aforementioned order giving notice of hearing upon the proposed minimum prices and marketing rules and regulations as proposed by the District Boards for Districts 9, 10, 11, 12, 13 (except Van Buren, Warren and McMinn Counties in Tennessee), 14 and 15, the Commission, on the 21st day of October 1938, issued its order giving notice of postponement of said hearing, the date of said hearing being postponed from the 26th day of October 1938 to the 3d day of November 1938.

Said order giving notice of the postponement of said hearing directed the Secretary of the Commission to cause a copy of same to be published forthwith in the FEDERAL REGISTER and in two consecutive issues of a newspaper having a general circulation in each of the aforesaid districts. Said order further directed the Secretary of the Commission to mail a copy of same to each of the code members within Minimum Price Areas 2, 3, 4 and 5, to the Office of Consumers' Counsel, and to the Secretary of each of the District Boards within said Minimum Price Areas. The Secretary of the Commission was also directed to make a copy of said order available for inspection at each of the Statistical Bureaus of the Commission within Minimum Price Areas 2, 3, 4 and 5.

The aforesaid directions in said order were complied with. A copy of said order was published in the FEDERAL REGISTER of date October 25, 1938, and copies of said order were mailed to each of the code members within Minimum Price Areas 2, 3, 4 and 5; to the Office

of Consumers' Counsel, Washington, D. C.; and to each of the Secretaries of the District Boards for Districts 9, 10, 11, 12, 13, 14 and 15. A copy of said order was made available for inspection at each of the Statistical Bureaus of the Commission within said districts. A copy of said order was published in two consecutive issues of the Birmingham News, Birmingham, Alabama; The Des Moines Register, Des Moines, Iowa; Illinois State Register, Springfield, Illinois; Arkansas Democrat, Pulaski County, Arkansas; The Terre Haute Tribune, Terre Haute, Indiana; The Kansas City Star, Kansas City, Missouri; and The Louisville Times, Louisville, Kentucky, newspapers having a general circulation in each of the respective districts within Minimum Price Areas 2, 3, 4 and 5.

The Commission on the 29th day of October 1938 issued its order giving notice that the hearing in the matter of the proposals of minimum prices and marketing rules and regulations as submitted to the Commission by the District Boards for Districts 9, 10, 11, 12, 13 (except Van Buren, Warren and McMinn Counties in Tennessee), 14 and 15 as previously set by order of the Commission for the 3d day of November 1938, at 10 a. m. in the Hearing Room of the Commission at 15th Street and Eye Street, N. W., Washington, D. C., had been separated so as to provide for that part of the hearing relating to Minimum Price Area No. 3 to be held in the City of Washington, D. C., on the 9th day of November 1938 and that part of the hearing relating to Minimum Price Areas 2, 4 and 5 to be held in the City of Chicago, Illinois, on the 14th day of November 1938.

Said order further gave notice that the date for the hearing in the matter of the proposals of minimum prices and marketing rules and regulations as submitted to the Commission by the District Board for District 13 (except Van Buren, Warren and McMinn Counties in Tennessee) as previously set by order of the Commission for the 3d day of November 1938, at 10 a. m. in the Hearing Room of the Commission at 15th and Eye Streets, N. W., Washington, D. C. had been postponed to November 9, 1938, the hearing to be held at the same hour and place.

Said order also gave notice that the date for the hearing in the matter of the proposals of minimum prices and marketing rules and regulations as submitted to the Commission by the District Boards for Districts 9, 10, 11, 12, 14 and 15 as previously set by order of the Commission for the 3d day of November 1938, at 10 a. m. in the Hearing Room of the Commission at 15th and Eye Streets, N. W., Washington, D. C., had been postponed to the 14th day of November 1938, said hearing to open at 10 a. m. in the Hearing Room of the Commission in the Morrison Hotel, Chicago, Illinois.

Said order giving notice of the separation and postponement of said hearing directed the Secretary of the Commission to cause a copy of same to be published forthwith in the FEDERAL REGISTER and in a newspaper having a general circulation in Districts 9, 10, 11, 12, 13, 14 and 15. The Secretary of the Commission was further directed to cause copies of said order to be mailed to each of the code members within said districts, to the Office of Consumers' Counsel, Washington, D. C., to the Secretaries of each of the District Boards within Minimum Price Areas 2, 3, 4 and 5, and to make available for inspection a copy of said order in each of the Statistical Bureaus of the Commission within said districts.

The aforesaid directions in said order were complied with. A copy of said order was made available for inspection at the office of each of the Statistical Bureaus of the Commission for each of the districts within Minimum Price Areas 2, 3, 4 and 5. A copy of said order was published in the FEDERAL REGISTER of date November 1, 1938, and copies of said order were mailed to each of the code members within Minimum Price Areas 2, 3, 4 and 5; to the Office of Consumers' Counsel, Washington, D. C.; and to each of the Secretaries of the District Boards within Minimum Price Areas 2, 3, 4 and 5. A copy of said order was published in two consecutive issues of The Louisville Times, Louisville, Kentucky; The Illinois State Register, Springfield, Illinois; The Des Moines Register, Des Moines, Iowa; The Terre Haute Tribune, Terre Haute, Indiana; The Arkansas Democrat, Little Rock, Arkansas; The Birmingham News, Birmingham, Alabama; and The Kansas City Star, Kansas City, Missouri.

Due and reasonable notice of the separate hearing upon the proposals of minimum prices and marketing rules and regulations as submitted to the Commission by the District Boards within Minimum Price Areas 2, 4 and 5, as postponed, having been given all interested parties, said cause came on for hearing before the Commission on the 14th day of November 1938, at the hour and place as specified in the order of the Commission dated October 29, 1938, to wit, at 10 a. m., in the Hearing Room of the Commission at the Morrison Hotel, Chicago, Illinois; and, after said hearing had been duly and formally opened and all interested parties desiring to appear had entered their appearances in said cause, the Commission proceeded to receive evidence relative to the proposals of minimum prices and marketing rules and regulations as proposed to the Commission by the District Boards for Districts 9, 10, 11, 12, 14 and 15, said hearing being duly concluded on the 6th day of December 1938.

At said hearing all interested parties were afforded full opportunity to be heard on the proposals of minimum prices and marketing rules and regulations which had been submitted by each of the District Boards within Minimum Price Areas 2, 4 and 5. Each of the District Boards within said Minimum Price Areas adduced evidence relating to such proposals and placed into the record as exhibits all of the data which such District Boards had used as a basis for such proposals and each of the District Boards through competent witnesses testified as to the factors which the District Boards had considered in determining the price relationships and the marketing rules and regulations which had been proposed by the District Boards in their respective schedules.

Each of the schedules of proposed minimum prices offered in evidence by the District Boards contained the above clause previously quoted from Order 249 which clearly indicated that the District Boards were proposing minimum prices free on board transportation facilities at the mines for kinds, qualities and sizes of coal produced in each of the aforesaid districts without taking into consideration those additional factors and standards which are set forth in Section 4, Part II, subsection (b) of the Act. The minimum prices so proposed, as hereafter approved or modified, will serve as a basis for coordination as provided in Section 4 II (b) of the Act. Such proposals of minimum prices do not take into account differences in transportation methods and charges and their effect upon a reasonable opportunity to compete on a fair basis, or competitive relationships between coal and other forms of fuel and energy as such matters constitute a part of the coordination of minimum prices and are properly a subject of consideration under Section 4 II (b) of the Act.

The Commission, after hearing the evidence adduced with respect to the minimum prices and marketing rules and regulations proposed by the District Boards for Districts Nos. 14 and 15, upon due consideration thereof, and being fully advised in the premises, makes Findings of Fact and Conclusions as follows:

MINIMUM PRICE AREA NO. 4—DISTRICT NO. 14

PROPOSED MINIMUM PRICES

Pursuant to Order No. 249 of the Commission, the District Board for District No. 14 prepared a schedule of proposed minimum prices f. o. b. transportation facilities at the mines for kinds, qualities and sizes of coal produced by the various code members within the District, and such classification of coals and price variations as to mines and consuming market areas, and values as to uses and seasonal demands as it deemed proper and within the authority conferred by the Act, and transmitted a copy thereof to each and every code member within District No. 14.

Twenty-five protests thereto were received by District Board No. 14, all of which were set for hearing at a regular meeting of said Board. Eleven of the protestants either failed to appear at the hearing or withdrew their protests. The other fourteen protestants were heard and their protests acted upon by the Board, some of which were denied and others of which were granted, either in whole or in part. The District Board then revised its proposed schedule of minimum prices to incorporate the changes it had made as a result of the hearing on the protests and reserved the schedule as thus amended upon each and every code member within the District. A copy of the proposed schedule as thus revised, together with the data upon which the proposed minimum prices were computed and the factors considered in determining the price relationships, were submitted to the Commission, and said amended schedule was introduced in evidence herein as Exhibit No. 711.

District Board No. 14 received several protests to its amended schedule of proposed minimum prices, but instead of hearing these protests at a regular meeting as it did the original protests it adopted a resolution and appointed an impartial Board of Arbitration to hear them. None of the members of this Board of Arbitration were in any way connected with the coal industry at the time of their appointment to the Arbitration Board, but all of them had had previous experience in the coal business and were competent to decide such matters as were presented by the protests.

All code members within District No. 14 were notified of the establishment of the Board of Arbitration and the protests directed to the amended schedule of proposed minimum prices were set for hearing before said Board on November 8, 1938. The Board of Arbitration met on that date. After hearing and considering all of the evidence introduced by the protestants and by the Chairman and the Secretary of District Board No. 14 the Board of Arbitration filed a written report of its findings and decisions thereon with the District Board, which report was adopted by District Board No. 14 and introduced in evidence herein as Exhibit No. 713.

The schedule of minimum prices proposed by District Board No. 14 was prepared by the entire District Board, and the Chairman and the Assistant Secretary of said District Board, both of whom are thoroughly familiar with the marketing and distribution of coals produced in District No. 14, testified in support thereof. Their knowledge of the coals of District No. 14 is based upon years of experience in said District.

District Board No. 14 consists of thirteen members, all of whom have been connected with the coal industry for a good many years and practically all of whom have had long experience in the mining and marketing of coal. Most of the members of the District Board derived their experience in the coal industry from work therein in the State of Arkansas, and some of them who are of middle age have been connected with the industry practically all of the working period of their lives. Some members of the District Board have had much longer experience in the industry than others but the average experience of all members of the Board is in excess of fifteen years. The labor member of the Board has also had wide experience in the coal industry in Eastern Pennsylvania. The members of the District Board represent production from each subdistrict into which they divided the District, and they have an intimate knowledge of the relative values of the coals produced in each of said subdistricts. By reason of their intimate knowledge of the coals produced in each subdistrict they are fully capable of judging the price differentials and relationships between the kinds, qualities and sizes of coal produced within the District.

The District Board obtained from its code members, by means of a questionnaire, distribution data showing by tons the various sizes of coal produced by each code member during the calendar year 1937. These data, which represent more than 87 percent of the tonnage produced within the District during the year 1937, were introduced in evidence as Exhibit No. 714. It then conducted a series of meetings running from day to day for about a week at which the various kinds, qualities and sizes of coals produced within the District were discussed and their relative values considered.

The schedule of minimum prices proposed by the District Board divides the production field in District No. 14 into eleven subdistricts, based on the geographical location of each field, as follows:

(1) Includes all mines in Pope County, and all mines in the "Spadra field" of Johnson County, Arkansas.

(2) Includes all mines in the Denning-Coal Hill and Altus fields and the Philpott field of Johnson and Franklin Counties, Arkansas.

(3) Includes all mines in the "Paris Field" of Logan County, Arkansas, and mines in Franklin County located in the Paris Basin.

(4) Includes all mines in the "Charleston Field" in Franklin County, Arkansas.

(5) Includes all mines in Sebastian County, Arkansas.

(6) Includes all mines in the "Panama Field" of Leflore County, Oklahoma.

(7) Includes mines in the "Bokoshe and Milton Field" of Leflore County, Oklahoma, mines in the McCurtain field of Haskell County and all mines in Sequoyah County, Oklahoma.

(8) Includes all mines in the "Poteau-Wister field" in Leflore County, Oklahoma.

(9) Includes all mines in the "Howe-Heavener field" of Leflore County, Oklahoma, and all mines in the "Bates field" in Scott County, Arkansas.

(10) Includes all mines in the "Stigler-Kanima field" in Haskell County, Oklahoma.

(11) Includes all mines in the "Scranton field" of Logan County, Arkansas.

There is only one vein of coal in each subdistrict, although there are three different veins of coal being mined in the entire area which constitutes District No. 14, but because of the geographical distribution of the various producing fields that constitute the District, the District Board deemed it necessary, in order to properly relate the coals one to another, to divide the area into the subdistricts designated above.

The coal produced in subdistrict No. 1 is mined from what is known as the lower Hartshorne seam and comprises the so-called Arkansas anthracite coal. This coal is high in fixed carbon, is low in volatile matter and moisture, is non-coking and runs between 14,000 and 15,000 B. t. u. content. It is a so-called hard coal and is sold almost entirely for domestic purposes, with the exception of the fines or slack coal which are sold almost exclusively to the smelters as a flux or reducing agent. This coal stands shipment well and is considered a high grade coal.

Most of the coals produced in subdistrict No. 2 are mined from the lower Hartshorne seam and in considering the quality and nature of the coals from this subdistrict they must be considered separately. This seam generally consists of two benches of coal which are somewhat different in quality. The coal produced in the Altus field in this subdistrict is no doubt mined from one of the benches of the lower Hartshorne seam, but it is in another district from where the two benches of that seam are worked together. The coal from this subdistrict is lower in fixed carbon and somewhat higher in volatile matter than the coal produced in subdistrict No. 1. It is also low in moisture and has practically no agglutinating or coking properties. In price classification the coal from the Altus field ranges with that which the District Board has designated in its proposed schedule as Paris grade A coal. The rest of the coals produced in subdistrict No. 2 outside of the Altus field range in price with the coals produced in the mines in subdistrict No. 5.

The Philpott field of Johnson and Franklin Counties, which has been included in subdistrict No. 2, is a separate field of coal that is considered to be one of the benches of the lower Hartshorne seam. The mines in this field have no railroad connections and the coal produced therein is shipped by wagon and truck and ranges slightly lower in price than the coal which the District Board has designated in its proposed schedule as Paris grade B coal. Chemically it is a very superior coal, but is softer than the other coals in subdistricts Nos. 1 and 2.

The coals produced in subdistrict No. 3 are mined from a small vein of coal known as the McAllister seam, which lies about 1,000 feet above the Hartshorne

seams. These coals are low in moisture, high in fixed carbon, low in volatile matter and hard. The average precentage of fixed carbon therein is about 72 to 76 per cent and volatile matter ranges from 16 to 18 per cent. These coals vary slightly, stand shipment well and range slightly below the coals produced in subdistrict No. 1 in price.

The coal produced in subdistrict No. 4 is mined from a small vein of coal which lies above the McAllister or Paris seams of coal. In the past it has been mined almost exclusively from strip pits, but at the present time the strip mining has been abandoned, and it is now being mined by a number of small truck and wagon haul mines only. This coal is similar in chemical analysis to most of the coal produced in sub-district No. 2 and to the Paris coal, but it is considerably higher in sulphur content and is not as high-grade as any of the coals produced in subdistricts Nos. 1, 2 and 3. It ranges in price with the coals produced in subdistricts Nos. 8 and 9.

Subdistrict No. 5, which comprises all mines in Sebastian County, Arkansas, includes several divisions with coal varying in quality and price, so that in speaking of the quality of the coal in this subdistrict it is necessary to separate the coal into the natural divisions as they occur. Most of the coal mined in this subdistrict is from the lower Hartshorne seam, the analysis of which is similar to the coal mined from the Denning-Coal Hill fields, but it is not quite as hard as the coal from that field, having somewhat more of a coking nature. These coals run about 71 to 75 or 76 per cent fixed carbon and about 17 to 19 per cent volatile matter, but the ash and sulphur contents are practically the same as they are in the coal from the Denning-Coal Hill fields of Franklin and Johnson Counties, Arkansas.

The Excelsior coal produced in subdistrict No. 5 is mined from the upper Hartshorne seam. This coal is low in moisture and high in fixed carbon, the fixed carbon content ranging from 74 to 77 per cent, with volatile matter averaging about 17 per cent. It is also lower in ash and sulphur content than most of the other coals produced in District No. 14. This coal generally has a superior analysis, but it is rather soft and friable, and on this account it has a price lower than the Paris coal, the differential between Excelsior grade A coal and Paris grade A coal being thirty-five cents per ton.

Subdistrict No. 6, which includes all mines in the Panama Field of Leflore County, Oklahoma, adjoins subdistrict No. 5 and all of the mines in this subdistrict, with the exception of that of the Acme Coal Company which mines its coal from the lower Hartshorne seam, mine their coal from the upper Hartshorne seam. The coal produced in this subdistrict has practically the same analysis as to fixed carbon and volatile matter as the coal produced in subdistrict No. 5, but is generally superior thereto in the matter of ash and sulphur content. It is considered to be of about the same hardness as the coal from subdistrict No. 5 and generally sells at a slightly higher price than the coal from that subdistrict, with the exception of the coal produced in the Excelsior Field. The coal produced by the Acme mine from the lower Hartshorne seam in subdistrict No. 6 is considered to be slightly harder than the coal produced in the same district from the upper Hartshorne seam, but at the present time the price is the same for all of the different mines in subdistrict No. 6.

Subdistrict No. 7 includes mines in the Bokoshe and Milton Fields in Leflore County, mines in the McCurtain Field in Haskell County, and all mines in Sequoyah County, Oklahoma. Most of the coal in this subdistrict is mined from the Bokoshe Field. A much smaller amount is mined from the Milton and McCurtain Fields, but only small mines operate in Sequoyah County. At the present time all of the coal produced in this subdistrict is mined from the lower Hartshorne seam. The coal generally produced in this subdistrict is similar in analysis to the coals produced in subdistricts Nos. 5 and 6, but it is somewhat softer and the price is lower on account of its friability. There are two marked exceptions, however, in the general characteristics of the coal produced by the Keener Coal Company and the Gillie Coal Company in the Bokoshe field. The coal produced by these mines has a superior analysis to, and is harder than, the coal produced by the other mines in subdistrict No. 7, and the price from these mines is in the same bracket with the best mines in subdistrict No. 6.

Practically all of the coal produced in subdistrict No. 8 comes from the Poteau field and is mined from the Poteau vein, which is a vein located above the McAllister seam. This coal is high in fixed carbon and is low in volatile matter, being similar in these respects to the coal produced in subdistrict No. 5, but it is rather high in sulphur content. However, it is hard and ships well, and on account of its hardness it ranges in price slightly below the coals produced in subdistrict No. 6. The coal produced in the Wister field in subdistrict No. 8 is practically the same as that produced in the Poteau field, but there is very little coal mined from this part of subdistrict No. 8.

Subdistrict No. 9 includes all mines in the Howe-Heavener field of Leflore County, Oklahoma and all mines in the Bates field in Scott County, Arkansas, but it is necessary to consider the production of these fields separately. Howe and Heavener are two small towns about five or six miles apart with a continuous seam of coal lying between and adjacent thereto. The coal produced in this field is mined from the lower Hartshorne seam. It has a good analysis similar or slightly superior to the coal produced in subdistrict No. 5, with the exception of the Excelsior coal produced in that District, but it is soft and friable and does not generally make a first class domestic coal. It is also of a coking or agglutinating nature and coke ovens have been operated in this part of subdistrict No. 9 in the past, but they have been abandoned for several years. The price classification of this coal is similar to the poorer class coals of subdistrict No. 7.

The coal produced in the Bates field in subdistrict No. 9 is mined from one bench of the lower Hartshorne seam. This coal is somewhat lower in fixed carbon and higher in volatile matter than the coal produced in other mines in District No. 14. It is rather low in ash and sulphur content, however, and is hard and screens well, and now ranges in price with the coal which the District Board has designated in its proposed schedule as Excelsior grade A coal.

The coal produced in subdistrict No. 10 is mined from a small seam of clean coal supposed to be the McAllister seam. It has a very good chemical analysis, but is soft and friable and is sold almost entirely for blacksmithing purposes, except for local use. Blacksmithing coal, which requires special characteristics, must be low in sulphur content and have agglutinating or coking properties so that it will run together in the forge and make a mound into which tools, steel or iron may be projected and the structure stand up without falling into a mass of slack. This coal has these characteristics and is shipped in box cars and sometimes in sacks and the District Board placed a special price thereon for blacksmithing purposes.

The coal produced in subdistrict No. 11 is mined from the lower Hartshorne seam in what is known as the Scranton field, which is an extension of the Spadra field south of the Arkansas River. This coal has an analysis similar to the Spadra coal produced in subdistrict No. 1 and is somewhat similar in analysis to the coal mined from the lower Hartshorne seam in subdistrict No. 2, but in chemical analysis it seems to come somewhere between the coals produced in subdistricts Nos. 1 and 2. It is probably not quite so hard as the coal in subdistrict No. 1 and is not screened into many sizes. This coal was formerly classified with Paris coal, but is now in a subdistrict by itself, as it is not mined from the same seam of coal as the Paris coal and differs considerably therefrom in chemical analysis. It now takes the same price as the Paris grade B coal. In considering the coals produced in this subdistrict it must be kept in mind that practically all of the coals produced in Pope County and in the Spadra field in subdistrict No. 1 are run through a breaker before being screened, and that very little lump coal is sold from those two fields, as most of the coal therefrom is broken down into sizes smaller than lump.

The District Board designated by states the consuming market areas into which the producers of District No. 14 ship their coals on page 11 of the proposed schedule of minimum prices, Exhibit No. 711. Said areas are as follows:

Area No. 1.—Arkansas, Iowa, Kansas, Louisiana, Missouri, Nebraska, Oklahoma and Texas.

Area No. 2.—Minnesota, North Dakota and South Dakota.

Area No. 3.—Illinois, Western Mississippi, Western Tennessee and Wisconsin.

The minimum prices proposed by the District Board are the same for all of said consuming marketing areas.

The schedule of minimum prices proposed by the District Board contains twenty-one size groups numbered from one to twenty-one and seventeen price classifications ranging from A to Q. The Board found from its study of the distribution data submitted by its code members for the year 1937 that twenty-one size groups were necessary to properly reflect the relative values of coals in District No. 14, and included only those sizes which were comparable competitively in the same size group.

It then determined that Size Group No. 5, which included the predominant tonnage in the District was the base size group and that the coal mined in the Paris field in subdistrict No. 3 was the base quality coal in the District. Then, by using the coal from the Paris field and Size Group No. 5 as bases, it related the coals of all of the code members in the District according to their values based on analyses, physical characteristics and market history.

The classifications which the board proposed for the coals of each code member are set forth on pages 5 to 9, inclusive, of Exhibit No. 711, and the price classifications therefor by size groups are set forth on Page 10 of the same exhibit. The "A" classification represents the highest price coal in each size group. The "B" to "Q" classifications, inclusive, represent prices of coal that have values less than the "A" coals in descending orders of value.

The data as to the analyses of the various coals that were used by the District Board in determining its price classifications were introduced in evidence as Exhibit No. 712. A considerable part of the analyses shown in this exhibit were made by geologists of the United States Geological Survey according to the United States Bureau of Mines standards of sampling. Others were taken from reports of the Arkansas State University, but a considerable number of them were simply analyses furnished by different code members. There are probably some of these analyses that are out of line, but practically every member of the District Board is familiar with the coal produced in the entire District, and where the analyses were very far out of line they were recognized by the District Board, so that the price relationships which the Board has proposed were not affected thereby.

District No. 14 coals are only sold on an analyses basis in a few instances and it is not possible to rely entirely upon the analyses of coals in that District to show their relative market values. In many instances the physical characteristics are more important in the trade sales territory served by District No. 14 than the chemical analyses. A coal that makes a large amount of degradation or slack is not favored by the retail dealers in that territory, although the analyses may be superior to a harder coal. For example, the Paris coal is inferior in chemical characteristics to the Excelsior coal, but on account of its superior hardness and less degradation in handling, it is graded above Excelsior coal.

Size groups Nos. 1 and 2 cover lump solid-shot coal screened over bars spaced not more than ¾" and 1½" apart, respectively, and size group No. 3 covers like coal screened over perforated plates with round holes not larger than 2½" in diameter. Size groups 4 and 5 cover lump machine-cut coal screened over perforated plates with round holes less than, and larger than, 2½" in diameter, respectively.

The witness for the District Board explained that it was necessary to make this distinction between solid-shot coal and machine-cut coal, because District Board No. 14 does not consider solid-shot coal comparable in value to machine-cut coal and the retailers in the markets to which the producers ship these coals favor the machine-cut coal over solid-shot coal. Coal shot from the solid is more friable than machine-cut coal and has greater degradation as it will not stand handling or storing as well as the machine-cut coal. Consequently, the machine-cut coal brings a better price in the market than the solid-shot coal. The explanation and justification given by the District Board for the inclusion of these proposed sizes appears to be adequate, and their inclusion in the proposed schedule is hereby approved.

Size Groups Nos. 6 to 18, inclusive, have been used to designate the different sizes of coal that are sold under trade names, the sizes which are included in each size group being the sizes that are sold under the trade name designated therein. Size Group No. 19 was used as a designation for all mine-run coal sold by code members of the District for use as railroad locomotive fuel, and includes mine-run coal as designated in Size Group No. 18, and mine-run coal with all or part of the lump, grate, furnace, or egg coal removed therefrom.

The witness for the District Board testified that while very little mine-run coal is sold by the rail mines in District No. 14 for use other than as railroad locomotive fuel, the District Board deemed it advisable to propose a graduated scale of prices for mine-run coal sold for other purposes, because the mine-run coal from the Paris field, and from some other fields from which it is sold in a relatively smaller degree than the Paris field, is almost as good as the lump coal from said fields, and the Board felt that it would be unfair to permit the mines in said fields to sell their mine-run coal for other purposes at prices that were much less than their lump coal prices. On the other hand, the experience of the producers in District No. 14 has shown that the railroads obtain about the same efficiency from the different qualities of coals produced in the District when they are used for locomotive fuel. Consequently, the Board believed that only one price for coal used for railroad locomotive fuel would be necessary.

The difference between the single minimum price which the District Board has proposed for coal used for railroad locomotive fuel, designated as Size Group 19, and the various minimum prices which the Board has proposed for the different qualities of mine-run coal used for other purposes, designated as Size Group No. 18, is not only due to these facts, but to the fact that the railroads furnish a constant service to the producers that other consumers are not able to afford, namely: they purchase railroad locomotive fuel during all seasons of the year, and also help balance the production of the producers, because the sizes that they need for burning in their locomotives are not as important as they are to many other consumers.

The District Board believes that the price which it has proposed for railroad locomotive fuel coal is just and equitable as to all of the producers in District No. 14 and that it also gives due regard to the interests of the railroads. It also believes that if it had proposed a greater minimum price therefor, the tonnage which has in the past moved to railroads for such purposes might well be dislocated, since the railroads might turn to oil or purchase their coal for such use from other fields. The minimum price which the District Board has proposed is the price that the railroads have been willing to pay and have paid for railroad locomotive fuel in District No. 14 in the past. No testimony or evidence was presented in objection thereto. The Commission finds that said proposed price reflects the relative value of the kind, quality and sizes of coals included in that size group when such coals are sold for said use and it is approved. One of the witnesses for the District Board also testified that it would clarify the intent of the Board to add the word "locomotive" wherever the words "railroad fuel" appear in the schedule of proposed minimum prices so as to read "railroad locomotive fuel" and the Commission finds that this should be done.

Size group No. 20 was used as a designation for dead coal used by smelters. All of this coal is classified as "A" coal and is uniformly priced at $1.65 per ton.

As explained by an expert witness for the District Board it is coal that is mined by strip mining along the outcrop where it has weathered for ages. It is coal that has lost some of its value for ordinary domestic and commercial purposes, as it will not burn by itself and is used only by smelters for ore reduction. This coal is sold in competition with Bernice and Spadra slack coal produced in subdistrict No. 1. It is not as good as those coals and is sold at a lower price. Any slack that is low in volatile matter and is non-fusing or non-coking, however, will serve the same purpose as this dead coal. For these reasons the District Board deemed it necessary to establish a minimum price therefor, and since there is no opposition thereto and said minimum price appears to reflect the relative value of said coal, the Commission finds that said price should be approved and it hereby is approved for inclusion in the proposed schedule.

Size group No. 21 was used as a designation for coal used for blacksmithing purposes. With the exception of the first five size groups wherein the District Board differentiated the size groups into solid-shot coal and machine-cut coal, the size groups are numbered in descending order as to size. A witness for the District Board testified that if the first five size groups were rearranged in the same descending scale of sizes in the same manner as the Board grouped the other sizes it would not in any way affect the price relationship set up in the proposed schedule. This can be accomplished by transposing size groups Nos. 1 and 2 and size groups Nos. 4 and 5, which would necessitate a clerical rearrangement of pages 5 to 10, inclusive, of the proposed schedule. The Commission finds that such changes should be made.

One of the expert witnesses for District No. 14 testified that there is very little coal washed in the District and that the District Board did not propose any charge or differential therefor, but stated that if any of the producers in the District installed washers, the Board would request permission of the Commission to provide an additional charge for washing. The Commission finds, therefore, that no differential should be made for washed coal in District No. 14 at this time.

The District Board proposed ten price instructions and exceptions, all of which are set forth on page 1 of the proposed schedule, Exhibit No. 711. Item three thereof provides that:

"All size designations herein are for round hole screens. When other types of screens are used the round hole equivalent shall control the size."

but an expert witness for the Board testified that the following language more accurately states what the District Board had in mind:

"All size designations herein are for round hole screens, or their equivalents, except when otherwise designated. When other types of screens are used, the District Board, subject to the approval of the Commission, shall determine the actual size designation of coal so prepared."

The Commission finds that the language of Item 3 as it now appears on page 1 of the proposed schedule, Exhibit No. 711 should be deleted and that the language above quoted should be inserted in lieu thereof.

Item No. 4, page 1, of the proposed schedule provides that:

"All prices herein are per net ton of 2,000 lbs. f. o. b. transportation facilities at the mines unless otherwise designated."

The minimum prices proposed by the District Board are on a cents per ton basis and the Commission finds that the language of the above item should be clarified by inserting the words "in cents" after the word "are" in the first line thereof so that it will read as follows:

"All prices herein are in cents per net ton of 2,000 lbs. f. o. b. transportation facilities at the mines."

The Commission also finds that page 10 of Exhibit No. 711 should also be clarified by deleting the dollar sign under size group one, and by eliminating all of the decimal points on said page so that the prices enumerated thereon will be expressed in cents per ton and not in dollars and cents per ton.

Item No. 5, page 1 of the proposed schedule provides that:

"*Crushed Coal.*—Where any coal is crushed the minimum price therefor shall be the minimum price established for the original size, before crushing, plus five cents per ton."

One of the expert witnesses for the Board testified that when the District Board formulated this price instruction, it had in mind a practice in the Spadra field of mining so-called Arkansas anthracite coal, the slack from which is used as a flux in the reduction of zinc ore. It appears that the mining of coal in this field is largely seasonal, that in the summertime no coal is mined for domestic purposes, and that no slack is produced in the summer for smelter use. During this period in the past some of the producers have crushed their mine-run coal into slack and sold it to the smelters at a slack price. The intention of the District Board was to compel such producers to get the minimum price proposed on the original size of the coal before it is crushed, plus five cents as a service charge to the customer for the crushing.

The witness testified further that as a general proposition the crushing does not add to the value of the coal, but when the use to which the coal is put is taken into consideration crushing does add to the value thereof in this particular case, because of the fact that it saves the consumer the cost of crushing the coal. In addition, there is a lower freight rate on slack coal in this territory than there is on large sizes, and where the coal is crushed to slack it saves the consumer the difference in the freight rate. Consumers could not purchase screenings of the sizes to which the coal would be crushed at the season of the year referred to as there are no screenings made at these mines during the summer season, because of the fact that there is no demand for prepared sizes during such season and no screenings are available. Consequently, if the smelter plants were able to buy enough of the crushed mine-run coal during the summer season to take care of their needs throughout the balance of the year, it is obvious that distribution of the screenings would be distorted during the balance of the year, as there is no other market for the screenings except to the smelters and a small amount to a briquetting plant in Kansas City. The Commission finds that said item is properly included in the proposed schedule and it hereby approves the inclusion thereof in said schedule.

Item No. 6, page 1 of the proposed schedule, Exhibit No. 711, provides that:

"Fifteen cents per net ton extra shall be charged for all coal loaded into box cars."

A witness for the District Board testified that this charge was based partly on the cost of loading and partly on custom, but that it developed in subdistrict No. 10 where blacksmithing coal is loaded into box cars that it has been the custom not to make an extra charge therefor and that the minimum price proposed by the Board for such coal is sufficiently high to include the cost of loading as well as the sacking of the coal. He also testified that the District Board was of opinion that the cost of loading into box cars in most subdistricts was 25 cents per ton, and that it fixed this amount as the cost to be included therefor in the first instance, but that some producers in subdistrict No. 1 appeared before the Board and objected to the charge of 25 cents per ton because they had only been charging 15 cents per ton for such service and were not in a position to increase their charge therefor. He stated further that as a result of its investigation the District Board desired to modify its proposed price instruction with respect thereto by deleting the language above quoted as it now appears under Item 6, page 1, of Exhibit No. 711, and by inserting the following language in lieu thereof:

"Fifteen cents per ton shall be charged on all coal loaded in box cars, produced in Subdistrict 1, and that 25 cents per ton shall be charged for all coal loaded in box cars, in all subdistricts, except Subdistricts Nos. 1 and 10 of District No. 14. For blacksmithing coal loaded in Subdistrict No. 10, no extra charge is to be made for coal loaded in box cars."

It appears from the evidence that the recommendation is in accordance with

the practice of the industry for several years. The Commisison finds that the proposed substitution should be made and the recommendation of the District Board in that respect is hereby approved.

Items Nos. 7, 8, 9 and 10, page 1, of the proposed schedule, Exhibit No. 711, provide as follows:

(7) "Slack coal, Size Groups 14, 15, and 16, moving to Oklahoma County, Oklahoma—In this area a minimum price of 80 cents per ton f. o. b. the mine, will apply on slack coal shipped from mines having a freight rate of not more than $1.00 a ton. All mines having a freight rate to this market area of more than $1.00 per ton shall have a minimum f. o. b. mine price for slack coal moving to that territory which will result in a delivered price of not less than $1.80 per ton."

(8) "All coal except Lump to Twin Cities shall take a price of 35 cents per ton below prices as shown on list."

(9) "All coal to Greater St. Louis to take 35 cents per ton less than price as shown on list."

(10) "The following sizes of coal when shipped into the City of Paris, Arkansas, Logan County, shall take prices f. o. b. mines as follows: $2.80 per ton on Mine-run, 90 cents per ton on 2½" Nutrun, and 60 cents per ton of ⅞" Slack."

The Commission finds that the differentials provided for in these price exceptions are not proper differentials to be considered in this hearing, as they involve issues to be considered in the coordination of prices under Section 4-II (b), of the Act, and they shall be deleted from the schedule.

One of the witnesses for the District Board testified that since the Board had submitted its proposed schedule of minimum prices to the Commission it had made an investigation of the relative value of coals that are oil treated as compared with coals that are not so treated, and had authorized him to recommend to the Commission that its proposed schedule be amended so as to include the following price instruction and exception:

"A minimum charge of 10 cents per ton on all prepared sizes of coals shall be added for oil, or other similarly treated coal."

The Commission finds that this proposed price instruction and exception is proper and reasonable and that it should be inserted in the proposed schedule as Item No. 7, page 1, in lieu of Item No. 7 now appearing thereon which has been deleted.

The following note appears on page 4 of the proposed schedule:

"All sizes are predicated on perforated plates with round holes, or equivalent (except size groups 1 and 2) and when bar screens are used the space between bars must conform to the standard equivalent as specified in railroad freight tariffs."

The Commission finds that this note should be deleted entirely as same has already been covered in the schedule by the change that has been made in the language of Item 3 on page 1 of Exhibit No. 711.

The following note also appears on page 4 of the proposed schedule, Exhibit No. 711:

"When any size of coal is sold, in which the maximum top or bottom size exceeds the sizes scheduled above, then such coal must be included in the next higher price group."

The District Board recommends that this note be clarified by striking out the last two words of the note and by substituting in lieu thereof the words "priced sized group and priced accordingly", so that said note shall read as follows:

"When any size of coal is sold, in which the maximum top or bottom size exceeds the sizes scheduled above, then such coal must be included in the next higher priced sized group and priced accordingly."

The Commission finds the recommendation of the District Board in this respect to be necessary and proper and it is hereby approved.

The classification of the Great Western Coal Company in size group No. 11 appears on page 6 of the proposed schedule, Exhibit No. 711, as Class "E." One of the witnesses for the District Board testified that this was a clerical error and that said classification should be changed to "F." The Commission finds that this change should be made to give effect to the determinations of the District Board.

Protests were filed with the District Board by the Victor Coal Company, Collier-Dunlap Coal Company, Harding Coal Company, Smokeless Coal Company, Gillie Coal Company, Keener Mining Company, Lewis Coal Company, and the Davis & Swindle Coal Company to the District Board's proposed schedule of minimum prices, Exhibit No. 711. These were heard by the impartial Board of Arbitration on November 8, 1938. That Board denied the protest of the Victor Coal Company, Collier-Dunlap Coal Company, Harding Coal Company, and the Smokeless Coal Company, but recommended that the classifications of the Gillie Coal Company, The Keener Mining Company, Lewis Coal Company, and Davis & Swindle Coal Company as shown on pages 6 and 7 of Exhibit No. 711 be modified as follows:

Gillie Coal Company and *The Keener Mining Co.*, change as follows:

5–D to 5–E
6–E to 6–F
7–E to 7–F
8–E to 8–F
9–E to 9–F

Lewis Coal Company and *Davis & Swindle Coal Company*, change as follows:

3–D to 3–E

The District Board adopted the findings of the Board of Arbitration and also recommends that said changes be made. The reasons for the recommendations are set forth in full in the report of the Board of Arbitration, Exhibit No. 713. The Commission finds that the recommended changes are reasonable and proper and should be made and said recommendations are hereby approved.

In addition to the above named protests, the Buck Creek Coal Mining Company and the D. A. McKinney Coal Company submitted protests to the Commission but did not send copies thereof to the District Board. Neither did they submit their cases to the Board of Arbitration and neither of them appeared before this Commission when their protests were called for hearing at Chicago on November 28, 1938. The protests of these two companies are, therefore, denied.

Exhibit No. 714 shows the 1937 production of code members in District No. 14, which represents more than 87 percent of the tonnage produced within the District during that year, broken down into size groups showing the respective realization and the weighted average realization per ton for the District at the prices proposed by the District Board for said District and submitted to the Commission in Exhibit No. 711.

The average realization to be expected from the minimum prices proposed by the District Board has been computed by the District Board at $3.63 per ton as shown on Exhibit No. 714. The weighted average cost of Minimum Price Area No. 4 in which District No. 14 is located, as determined by the Commission is $3.617 per ton. There is, therefore, a difference of only about 1.3 cents between the average yield upon the tonnage under the prices as proposed by the District Board for District No. 14 in Exhibit No. 711, and the weighted average cost of production for Minimum Price Area No. 4, as determined by the Commission. The awards of the Board of Arbitration herein referred to will reduce this realization by $0.004 which will bring the computed realization still closer to the weighted average cost of production for Minimum Price Area No. 4, as determined by the Commission, and within 1 cent of that average cost. The only other change in the realization involved in the recommendations herein approved is the inclusion of the new item establishing an additional charge for oil treatment of coal. This, however, involves a change of only about one hundredth of a mill, namely, $0.00001.

District Board No. 14 approved the schedule of proposed minimum prices

which it submitted to the Commission and, in the judgment of said Board, the prices which it proposed to the Commission in said schedule, Exhibit No. 711, under the Commission's Order No. 249, are just and equitable between the producers within the District, have due regard to the interests of the consuming public, and do not and will not permit dumping. It was also the judgment of the District Board, that the prices it proposed to the Commission under the Commission's Order No. 249 reflect, as nearly as possible, the relative market values of the various kinds, qualities and sizes of coal produced in District No. 14, and that said schedule of proposed minimum prices also reflects price variations as to values and as to uses, price variations as to consuming market areas of the various kinds, sizes and qualities of coal produced within the District, and conform to the requirements of said Order No. 249 of the Commission.

And now, upon the record herein, and upon the evidence submitted, both oral and documentary, and upon the foregoing facts found to exist, the Commission finds:

That the District Board for District No. 14, as directed in Order No. 249 of the Commission, proposed minimum prices free on board transportation facilities at the mines for kinds, qualities and sizes of coal produced within the District, classification of coal and price variations as to mines and consuming market areas, and values as to uses and seasonal demand.

That the District Board for District No. 14, as directed in Order No. 249 of the Commission, submitted to the Commission a schedule of such proposed minimum prices, together with the data upon which same were computed, including, but without limitation, the factors considered in determining the price relationships.

That the minimum prices proposed by the District Board for District No. 14, as herein modified, reflect, as nearly as possible, the relative market value of the various kinds, qualities and sizes of coal produced within the district; are just and equitable as between producers within the District; have due regard to the interests of the consuming public, and do not permit dumping.

That the minimum prices proposed by the District Board for District 14 for any kind, quality or size of coal for shipment into any consuming market area, as herein modified, are just and equitable between producers within the District.

That the minimum prices proposed by the District Board for District 14, as herein modified, yield a return per net ton for the District equal as nearly as may be to the weighted average of the total costs per net ton of the tonnage of Minimum Price Area 4, the price area in which District 14 is placed under the Act.

That the schedule of proposed minimum prices, as amended, and submitted to the Commission by the District Board for District 14, as amended, corrected, modified and revised, as hereinabove set forth, conforms to Order No. 249 of the Commission and to the requirements of Section 4–II (a) of the Act, and as so amended, corrected, modified and revised, said schedule should be, and the same is hereby, approved by the Commission to serve as a basis for the coordination provided for in Section 4–II (b) of the Act. A copy of said schedule as amended, corrected, revised and modified appears in the Appendix for District 14.

APPENDIX FOR DISTRICT NO. 14

SCHEDULE OF MINIMUM PRICES AS MODIFIED AND APPROVED TO SERVE AS A BASIS FOR COORDINATION

NOTE.—The prices in this schedule are not the final prices that will be established on coal for shipment by Code Members within this district into consuming markets of this district. In the ultimate establishment of the effective minimum prices, pursuant to subsection (b) of Part II, Section 4 of the Act, the minimum prices in this schedule are subject to such increase or decrease respectively, as may be necessary to carry out the provisions of subsections (a) and (b) of Part II, Section 4 of the Act.

F. W. MCCULLOUGH,
Secretary.

Issued: December 17, 1938.

PRICE INSTRUCTIONS AND EXCEPTIONS

1. The schedule of prices shown herein applies f. o. b. transportation facilities at mines on all coal produced by Code Members in the District shown on the title page hereof.

2. All prices are subject to the Marketing Rules and Regulations issued by the National Bituminous Coal Commission.

3. All size designations herein are for round hole screens, or their equivalents, except when otherwise designated. When other types of screens are used, the District Board, subject to the approval of the Commission, shall determine the actual size designation of coal so prepared.

4. All prices herein are in cents per net ton of 2,000 lbs. f. o. b. transportation facilities at the mines.

5. *Crushed coal.*—Where any coal is crushed the minimum price therefor shall be the minimum price established for the original size, before crushing, plus five cents per net ton.

6. 15 cents per ton shall be charged on all coal loaded in box cars, produced in Sub-district 1, and 25 cents per ton shall be charged for all coal loaded in box cars in all Sub-districts except Subdistricts No. 1 and 10. For Blacksmithing coal loaded in Sub-District No. 10 no extra charge is to be made for coal loaded in box cars.

7. A minimum charge of 10 cents per ton on all sizes of coals shall be added for oil or other similarly treated coal.

SIZE GROUPS

Sizes Included

Size group No. 1. Lump—Solid Shot Coal, screened over bars spaced not more than 1½" apart.

Size group No. 2. Lump—Solid Shot Coal, screened over bars spaced not more than ¾" apart.

Size group No. 3. Lump—Solid Shot Coal, screened over perforated plates with round holes not larger than 2½" in diameter.

Size group No. 4. Lump—Machine Cut Coal, screened over perforated plates with round holes larger than 2½" in diameter.

Size group No. 5. Lump—Machine Cut Coal, screened over perforated plates with round holes not larger than 2½" in diameter.

Size group No. 6. Grate—Includes all sizes of coal having a top size of 7½" and a bottom size of 5½".

Size group No. 7. Furnace—Includes all sizes of coal having a maximum top size of 12" and a maximum bottom size of 4".

Size group No. 8. Egg—Includes all sizes of coal having a maximum top size of 6" and a maximum bottom size of 2½".

Size group No. 9. Small Egg—Includes all sizes of coal having a maximum top size of 4" and a maximum bottom size of 2".

Size group No. 10. Stove—Includes all sizes of coal having a maximum top size of 3" and a maximum bottom size of 1½".

Size group No. 11. Nut—Includes all sizes of coal having a maximum top size of 2½" and a maximum bottom size of 1½".

Size group No. 12. Range—Includes all sizes of coal having a maximum top size of 2½" and a maximum bottom size of ⅞".

Size group No. 13. Chestnut—Includes all sizes of coal having a maximum top size of 1½" and a maximum bottom size of ⅞".

Size group No. 14. Nutrun—Includes all sizes of coal having a maximum top size of 2½", with no coal removed.

Size group No. 15. Slack—Includes all sizes of coal having a maximum top size of 1¼", with no coal removed.

Size group No. 16. Slack—Includes all sizes of coal having a maximum top size of ⅞", with no coal removed.

Size group No. 17. Pea—Includes all sizes of coal having a maximum top size of 1¼" and a maximum bottom size of ⅜".

Size group No. 18. Minerun—Includes all coal as it comes from the mine with no part of the small coal removed.

Size group No. 19. Minerun for railroad locomotive fuel—Includes minerun as shown in size group 18 or minerun coal with all or part of the lump, grate, furnace, or egg coal removed.

Size group No. 20. Dead coal—Coal used by smelters for Ore reduction.

Size group No. 21. Smithing Coal—Coal used for blacksmithing.

When any size of coal is sold, in which the maximum top or bottom size exceeds the sizes scheduled above, then such coal must be included in the next higher priced size group and priced accordingly.

IDENTIFICATION OF SUB-DISTRICT NUMBERS

Identification

Subdistrict No. 1. Includes all mines in Pope County, all mines in the "Spadra field" of Johnson County, Arkansas.

Subdistrict No. 2. Includes all mines in the Denning-Coal Hill and Altus fields of Franklin and Johnson Counties, and all mines in the Philpott field of Johnson and Franklin Counties, Arkansas.

Subdistrict No. 3. Includes all mines in the "Paris Field" of Logan County, Arkansas, and mines in Franklin County located in Paris Basin.

Subdistrict No. 4. Includes all mines in the "Charleston Field" in Franklin County, Arkansas.

Subdistrict No. 5. Includes all mines in Sebastian County, Arkansas.

Subdistrict No. 6. Includes all mines in the "Panama Field" of Leflore County, Oklahoma.

Subdistrict No. 7. Includes mines in the "Bokoshe and Milton Field" of Leflore County, Oklahoma, mines in the McCurtain field of Haskell County and all mines in Sequoyah County, Oklahoma.

Subdistrict No. 8. Includes all mines in the "Poteau-Wister field" in Leflore County, Oklahoma.

Subdistrict No. 9. Includes all mines in the "Howe-Heavener field" of Leflore County, Oklahoma, and all mines in the "Bates field" in Scott County, Arkansas.

Subdistrict No. 10. Includes all mines in the "Stigler-Kanima field" in Haskell County, Oklahoma.

Subdistrict No. 11. Includes all mines in the "Scranton field" of Logan County, Arkansas.

NOTE.—See Price Instructions and Exceptions.

COMMON CONSUMING MARKET AREAS PROPOSED BY DISTRICT BOARD NO. 14

Area No. 1.—Includes the States of Arkansas, Iowa, Kansas, Louisiana, Missouri, Nebraska, Oklahoma and Texas.

Area No. 2.—Includes the States of Minnesota, North Dakota, and South Dakota.

Area No. 3.—Includes the States of Illinois, Western Mississippi, Western Tennessee, and Wisconsin.

MINIMUM PRICE AREA NO. 4—DISTRICT NO. 14

PROPOSED MARKETING RULES AND REGULATIONS

A witness for District Board No. 14, properly qualified as an expert in the marketing of coal in that District, introduced into evidence as Exhibit No. 829 the rules and regulations proposed by District Board No. 14 in compliance with Commission Order No. 250. The witness testified that these rules and regulations were properly submitted to the Code Members within said District and that no protests concerning such proposals were received from Code Members. Accordingly, the Board, on August 26, 1938, adopted said rules and regulations and later submitted them to the Commission.

The witness testified that he was thoroughly familiar with the testimony of Mr. Brown, the expert witness for the Marketing Division of the Commission, and that the clarifications, modifications and additions to District No. 14's proposed rules, as testified to by Mr. Brown, were reasonable and desirable. The witness further stated that the rules testified to by Mr. Brown, as contained in Exhibit No. 825, would better effectuate the purposes of the rules proposed by District Board No. 14, and that in his opinion the rules proposed by District Board No. 14 should be modified to conform to the rules contained in Exhibit No. 825.

Rule 1 (b), Section IV of Exhibit No. 825, reads as follows:

"For deliveries thereafter, at not less than the applicable minimum prices in effect at the time of delivery."

The expert witness for the Marketing Division testified that this rule was written for the purpose of minimizing the injustice that might otherwise result from the privilege to make contracts in excess of thirty (30) days with governmental agencies that purchased through competitive bidding. We are of the opinion that the purposes of this rule will be better effectuated if the rule is modified to read as follows:

"For deliveries thereafter, at not less than the applicable minimum prices in effect at the time of delivery if such price is higher than the contract price."

Rule 1 (I), Section VII, of Exhibit No. 825, reads as follows:

"Where payment is made by note, trade acceptance or other form of indebtedness, or where payment is made under any circumstances after the due date of the account, the seller shall charge and the buyer shall pay interest at not less than the current market rate from and after the due date of the account."

We are of the opinion that this rule should be clarified to read as follows:

"Where payment is made by note, trade acceptance or other form of indebtedness, or where payment is made under any circumstances after the due date of the account, the seller shall charge and the buyer shall pay interest from and after the due date of the account at the current rate in the locality to which the coal is shipped to the vendee."

Rule 1, under "Advertising," Section XI of Exhibit No. 825, provides that no deduction or allowance from invoice prices shall be granted by any Code Member or his sales agent to any purchaser for advertising which would have the effect of reducing the invoice price below the applicable minimum price. District Board No. 14 in Exhibit 829 proposes a rule which prohibits any deduction or allowance whatsoever from invoice prices for advertising. We are of the opinion that such a rule better effectuates the purposes of the Act and that the similar rule contained in Exhibit No. 825 should be modified accordingly.

Rule 2 under "Advertising," Section XI of Exhibit No. 825, provides:

"The price and fair trade practice provisions of the Act shall not be evaded by any payment or allowance by any Code Member, his agent, or representative, to any purchaser or purchaser's representative covering advertising. The amount of expenditures incurred by a Code Member, his agent or representative, for advertising shall be subject to review by the Coal Commission as to the good faith of the transaction."

We are of the opinion that this rule should be modified to read as follows:

"Code Members (or their agents or representatives) either individually or collectively, with or without financial participation by retailers of coal, may conduct advertising campaigns seeking to increase the use of coal. The amount of expenditures incurred by a Code Member, his agent or representative for advertising shall be subject to review by the Coal Commission as to the good faith of the transaction."

Rule 1 under "Coal Confiscated or Lost in transit," Section XI of Exhibit No. 825, provides:

"All coal confiscated or lost in transit shall be invoiced to the carrier at not less than the established minimum price therefore."

We are of the opinion that this rule should be clarified to read as follows:

"All coal confiscated or lost in transit shall be invoiced to the carrier at not less than the minimum price established for such coal for shipment to the destination and use to which the coal was sold or the established price for sale to the carrier at the place of confiscation or loss, whichever may be the higher."

The witness for the Marketing Division testified that Exhibit No. 825 contained no rules relating to substitution or the crushing of coal. The witness further stated that the Exhibit is not to be construed as representing any modifications or deletions of such rules as they may have been proposed by the various District Boards. District Board No. 14 proposed rules relating to the crushing and pulverizing of coal in Section X of Exhibit No. 829, and we are of the opinion that these rules are reasonable and desirable with the exception of rule 4. This rule, in effect, proposes a different price for crushed or pulverized coal and we are of the opinion that such a rule, pertaining to price proposal, is not properly submitted as a marketing rule and regulation. Therefore, this rule should be deleted.

The expert witness for the Marketing Division testified that in his opinion the rules contained in Exhibit No. 825 represented clarifications and desirable modifications of the rules proposed by the various District Boards and that such rules were reasonable, not inconsistent with the provisions of Section 4 of the Act and were in conformity with the standards of fair competition contained in the Act.

With the exception of those rules which we have already stated should be modified, we are of the opinion that the rules contained in Exhibit No. 825 are in accordance with the standards governing Marketing Rules and Regulations contained in Section 4 II (a) of the Act. These rules, according to the testimony of the expert witness for District No. 14, are desirable and reasonable and would better effectuate the purposes of the rules and regulations proposed by District No. 14.

Accordingly, we find that the following rules and regulations incidental to the sale and distribution of coal by Code Members in District No. 14 are reasonable, not inconsistent with the requirements of Section 4 of the Act, and in conformance with the standards of fair competition established in the Act:

MARKETING RULES AND REGULATIONS INCIDENTAL TO THE SALE AND DISTRIBUTION OF COAL BY CODE MEMBERS WITHIN DISTRICT NO. 14 AS PROPOSED BY DISTRICT BOARD NO. 14 AND AS APPROVED, DISAPPROVED, OR MODIFIED FOR THE PURPOSE OF COORDINATION

Section 1—Definitions

1. The term "person" as used herein, includes individuals, firms, associations, partnerships, corporations, trusts, trustees, cooperatives, receivers and trustees in bankruptcy and in other legal proceedings, and any other recognized forms of business organizations.

2. A "sales agent" is a person who, as agent of a code member (and therefore without purchasing the coal), sells coal produced by such code member for him or on his behalf: *Provided*, That "sales agent" shall not include an individual (herein referred to as a "salesman") regularly and continuously employed by a code member, whose sole compensation is a stated salary per week, per month, or per year, and who regularly devotes the major portion of his time to the solicitation of purchases of coal produced by his code member employer.

3. A "commission" is the total of all compensations and allowances received by a sales agent from a code member for services rendered in the sale of coal.

4. A "registered distributor" is a person who has been duly registered by the Coal Commission pursuant to the rules and regulations prescribed by the Commission for the administration of Section 4 II (h) of the Act.

5. A "spot order" is a legal obligation for the sale and purchase of coal, the delivery of which is stipulated to be made within not more than thirty (30) days from the effective date of the order, such effective date to be not more than fifteen (15) days from the date upon which the order was accepted.

6. A "contract" is a legal obligation for the sale and purchase of coal, the deliveries of which are stipulated to be made during a period longer than the maximum period specified for a spot order.

7. A "quotation" is an offer to sell coal which the offerer may withdraw prior to its being acted upon by the offeree.

8. An "option" is an offer to sell coal acceptable within a time certain, during which time the offerer may not withdraw the offer without the consent of the offeree.

9. A "commitment" is the status of a contract between the time a quotation is accepted or an option is exercised and the time the contract is formally reduced to writing.

10. "Coal Commission" as used herein, shall mean the National Bituminous Coal Commission established under the provisions of the Bituminous Coal Act of 1937.

11. "Act" as used herein shall mean the Bituminous Coal Act of 1937.

12. "Retailing" is the buying of coal for resale and selling such coal in lots or upon conditions other than those which would entitle a person to be registered with the Coal Commission as a distributor under Section 4 II (h) of the Act.

13. "District Board" as used herein, shall mean any District Board established under the provisions of Section 4, Part I (a) of the Act.

14. "Statistical Bureau" shall mean, unless otherwise specifically stated, the

Statistical Bureau of the Commission for the District in which the coal involved in any transaction is produced, or the District in which is located a mine of a code member affected by any order or regulation.

15. "Minimum Price" shall mean a minimum price established and made effective by the Coal Commission.

16. "Maximum Price" shall mean a maximum price established and made effective by the Coal Commission.

17. The term "producer" includes all individuals, firms, associations, corporations, trustees, and receivers engaged in the business of mining coal.

18. The terms "reconsignment" and "diversion" as used herein shall mean the change in the original consignee or in the destination or route.

19. The term "transportation facilities" means railroad cars, ships, barges, trucks, or any other facilities used or useful in the transportation of coal.

20. A "code member" means a producer who has accepted and holds membership in the Bituminous Coal Code promulgated under the Bituminous Coal Act of 1937.

21. The term "domestic market" shall include all points within the continental United States and Canada, and car-ferry shipments to the Island of Cuba. Bunker coal delivered to steamships for consumption thereon shall be regarded as shipped within the domestic market.

22. "Cargo shipment" is a quantity of coal loaded in a vessel, boat, or barge for transportation via water.

23. "Bunker coal" or "vessel fuel" is that coal used aboard a boat or vessel for consumption thereon.

24. "Coal" as used herein shall mean bituminous coal.

25. The term "bituminous coal" includes all bituminous, semi-bituminous and sub-bituminous coal and shall exclude lignite, which is defined as a lignitic coal having calorific value in British thermal units of less than seven thousand six hundred per pound and having a natural moisture content in place in the mine of 30 per centum or more.

26. The term "control" means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting securities, by contract, or otherwise.

Section II—Sales Agents

1. All appointments of Sales Agents by Code Members or their agents or authorized representatives shall be subject to the Marketing Rules and Regulations from time to time established by the Coal Commission.

2. Each Code Member shall be responsible for the compliance by all his Sales Agents and agents and employees of Sales Agents and agents with the provisions of the Bituminous Coal Code and of all rules and regulations, promulgations and determinations of the Coal Commission.

3. Each Code Member shall require all his sales agents clearly to set forth upon any offer, contract, spot order, invoice, and statement of account covering coal sold or to be sold, the name of such Code Member principal, and the name of the mine or mines from which shipment was made or is to be made. If the name of the sales agent also appears in the transaction, then the above mentioned forms shall also disclose the fact of agency relationship with the Code Member principal.

4. (A) Every contract for the appointment of a sales agent by Code Members or by agents or authorized representatives of Code Members, or any modification thereof, shall be in writing, and shall fully set forth therein all the terms and conditions of such contract, including the amount or basis of the sales agent's Commission. Certified copies of all such agency contracts entered into on or prior to the effective date of the establishment of these rules and regulations and in effect on such date, shall be filed by the Code Member with the Statistical Bureau, or Bureaus, within twenty (20) business days after such date.

(B) Certified copies of all contracts appointing sales agents or of agreements modifying any sales agency contract, entered into subsequent to the effective date of these rules and regulations, shall be similarly filed by the Code Member within ten (10) business days after the date upon which such contracts or agreements have been entered into.

(C) Upon the expiration, termination, or rescission of any sales agency contract, the Code Member principal shall make a report thereof to the Statistical Bureau, or Bureaus, within ten (10) business days after the date of such expiration, termination, or rescission.

5. (A) As to all coal sold by a Code Member otherwise than through a sales agent or through an employee regularly employed as a salesman by the Code Member at his principal place of business or at a regularly established sales office, such Code Member shall, not later than the fifteenth day of each month, file with the Statistical Bureau, or Bureaus, a list of all persons through whom, directly or indirectly, any such coal was sold during the preceding calendar month, with a statement of the duration and character of their employment, the tonnage sold by, and the rate and amount of compensation paid to, each of them.

(B) Not later than the fifteenth day of each month, each Code Member shall also file with the Statistical Bureau, or Bureaus, similar information obtained from his sales agents concerning sales of coal made during the preceding calendar month, by the sales agents' representatives and employees other than salesmen employed at the principal place of business or a regularly established sales office of the sales agent.

(C) Not later than the fifteenth day of each month, each Code Member shall also file with the Statistical Bureau or Bureaus a statement showing the names and addresses of distributors to whom the Code Member or his sales agents sold coal during the preceding calendar month, the tonnage sold, and the amount of discount allowed to each such distributor.

6. Within twenty (20) business days after the effective date of these rules and regulations, each Code Member shall file with the Coal Commission a list showing the names and addresses of all his sales agents. Upon any change in said list, the Code Member shall notify the Coal Commission within ten (10) business days after such change takes place.

7. A list showing the names and addresses of sales agents and the Code Members for whom such agents act shall be published monthly by the Coal Commission.

8. All agency contracts and other information filed by Code Members in conformity with the foregoing regulations, other than the names and addresses of sales agents, shall be held by the Coal Commission as the confidential records of said parties and shall not be made public without the consent of the Code Member from whom the same shall have been obtained, except where such disclosure is required in any proceeding before the Coal Commission by way of enforcement of the Act or upon the order of any court of competent jurisdiction.

9. From and after twenty (20) business days following the effective date of these Marketing Rules and Regulations no Code Member or sales agent of a Code Member shall allow or pay, directly or indirectly, any commission or compensation to any sales agent

(a) Unless the contract of agency shall have been filed with the Coal Commission, as hereinbefore required, and

(b) Unless the sales agent shall have agreed, in writing, with the Code Member to conform to and observe the minimum and maximum prices and Marketing Rules and Regulations established by the Coal Commission and the Fair Trade Practice Provisions of the Act, as well as all proper Orders of the Commission, and

(c) Unless the sales agent shall have in good faith complied with the agreement as in paragraph (b) above provided.

10. No commission shall be paid to a sales agent by a Code Member where the coal is delivered or sold to any person who owns such sales agent or who financially or otherwise controls such agent.

11. When any commissions are paid to a sales agent on a tonnage basis, the Code Member shall not include in the computation of such commissions any part of the tonnage of coal sold by him to the sales agent, whether for consumption or resale.

12. No Code Member shall employ any person or appoint any sales agent at a compensation obviously disproportionate to the ordinary value of the service or services rendered and whose employment or appointment is made with the primary intention and purpose of securing a preferment with a purchaser or purchasers of coal.

13. Subject to further order of the Coal Commission, the amount of commission to be paid by a Code Member to his sales agent shall be fixed by agreement of the parties, subject, however, that upon complaint of violation of the unfair methods of competition, as provided in the Act, the amount of such commission shall be subject to review by the Coal Commission.

Section III—Discounts

1. No Code Member or sales agent of a Code Member shall pay or allow any discount from minimum prices to any person unless such person has been registered by the Coal Commission as authorized to receive such discount at the time of the sale.

2. Code Members or their sales agents may allow discount from minimum prices or sales of coal to registered distributors, not in excess of the maximum discount or price allowance prescribed by the Coal Comission upon such sales. Only one such discount may be allowed on any such sale.

3. Except as expressly authorized in rules and regulations or orders promulgated by the Coal Commission, no Code Member or sales agent may grant or allow any discount or reduction, including any allowance for shipping on a Government Bill of Lading, from the applicable minimum prices upon the sale of coal to any person, including agencies of the Federal Government or agencies of state or local governments.

4. Every sale of coal to a distributor upon which a discount is allowed shall be made subject to the express condition that the distributor is authorized to receive the discount.

Section IV—Limitation of Orders, Agreements, Options, and Quotations

1. Subject to further order of the Coal Commission no Code Member or sales agent of the Code Member shall enter into any agreement or order for the sale of coal providing for delivery for a period in excess of that authorized for a spot order, and no prices shall be less than the applicable minimum prices in effect at the time of the making of the agreement or order: *Provided*, however, that contracts for periods not exceeding one (1) year may be made with agencies of the Federal Government or with agencies of State or local governments, where the contract is entered into through competitive bidding, at the following applicable minimum prices:

(a) For deliveries during the first thirty (30) days of the contract, at not less than the applicable minimum prices in effect at the time of the making of the agreement;

(b) For deliveries thereafter, at not less than the applicable minimum prices in effect at the time of delivery if such price is higher than the contract price.

Provided, further, That contracts for periods not exceeding one (1) year at prices not less than the said applicable minimum prices may be made with agencies of the Federal Government or with such agencies of the State or local governments, in the absence of competitive bidding, where by virtue of an express exemption in the statute or ordinance such agencies may enter into contracts for the purchase of coal without regard to competitive bidding.

2. While the preceding rule is in effect, no option may be given by a Code Member or sales agent for the purchase of coal. When the above rule is suspended or revoked by the Coal Commission, options for the sale of coal may be given for a period not exceeding fourteen (14) days. No options may be given at a price less than the applicable minimum price in effect at the time of the giving of the option. If the applicable minimum price is increased beyond the quoted price within such fourteen (14) days and the option shall not have been exercised at that time, the option thereupon shall become null and void; *Provided, however*, That in connection with offers to sell to the United States Government, or States or political subdivisions thereof, options may be given for a period not exceeding forty-five (45) days from the date of the offer or from the final date for the filing of offers.

3. Quotations may also be given for a period of not exceeding fourteen (14) days. If the applicable minimum price is increased beyond the quoted price within such fourteen (14) days and the quotation shall not have been accepted at that time, the quotation thereupon shall become null and void.

4. Every quotation and option shall provide that it is made subject to the provisions of the Marketing Rules and Regulations of the Coal Commission.

5. All quotations and options must be made or confirmed in writing. Every Code Member, or his sales agent, shall require of his offeree that the acceptance of a quotation or the exercise of an option be in writing.

Section V—Spot Orders

1. A spot order shall be in writing or confirmed in writing within five (5) business days from the date of the making thereof.

2. Each spot order shall be subject to the following conditions which shall either be endorsed upon the form of the order or upon the written confirmation thereof by the Code Member or his sales agent, the meaning and effect of which shall not be changed or altered by any other provision of the order:

(a) "No shipment consigned to any destination may be reconsigned or diverted without the consent of the seller to be confirmed in writing. In case of any reconsignment or diversion, the seller shall charge and the buyer shall pay not less than the applicable minimum price for such coal at the time of the reconsignment or diversion for delivery to the destination to which such shipment is actually delivered and for the use to which it is actually applied."

(b) "The coal shipped pursuant to this order is sold and purchased upon the following conditions:

"(1) If the coal is sold for consumption, it shall be used in the plant or plants named herein and for the use stated herein;

"(2) In case of diversion by the buyer to a use other than that stated herein, the buyer shall notify the seller in writing and the seller shall charge and the buyer shall pay not less than the applicable minimum price for such coal at the time of diversion for the use to which it is actually applied."

(c) "If shipments called for by this order are not completed within thirty (30) days from the effective date of this order, the unfilled portion of the order shall not be delivered."

3. In any case where a sale is made by a sales agent of a Code Member, such sales agent shall not exercise the rights of the seller as defined in Item 2 (a) of this section without first securing the consent of his Code Member principal to be confirmed in writing.

4. All the terms and conditions of a sale of coal must be fully and expressly set forth either in the order or in the written confirmation thereof, and such order or written confirmation thereof shall specifically contain all the terms required by Rule 1 of Section VI of these Marketing Rules and Regulations. Within ten (10) business days after the date of the making of the spot order or date of the written confirmation thereof, the Code Member or his sales agent shall file with the Statistical Bureau or Bureaus a copy of such spot order or confirmation. Any modification of a spot order must also be made in writing and filed with the Statistical Bureau or Bureaus in the same manner.

5. All spot orders for the sale of coal, the minimum price of which is subject to seasonal increase, shall provide that the price payable thereunder shall not be less than the price to be in effect at time of delivery as established at the time of the making of the spot order.

Section VI—Contracts

Upon the revocation or suspension of rule 1 of Section IV of these Marketing

Rules and Regulations, Code Members or sales agents of Code Members may thereafter enter into contracts for the sale and delivery of coal upon the following terms and conditions:

1. Every contract shall be in writing and shall express the entire agreement between the parties. The contract shall clearly state the date of execution, the effective date, the expiration date, the price agreed upon, the terms of payment, the size and grade of coal, the number of cars or tonnage to be shipped, the name of the Code Member and the name of the originating mine, and, where the coal is purchased for consumption, the use to which the coal is to be applied. Contracts may also be made either (a) calling for a buyer's entire requirements or a stated percentage of his requirements, showing the maximum tonnage to be shipped thereunder, or (b) covering a buyer's requirements and stating the estimated tonnage to be shipped with an allowable overshipment of not exceeding ten (10) per cent of such estimated tonnage.

The provisions of the rule stated in the foregoing paragraph relating to quantity shall not apply to contracts made with agencies of the Federal, State or local governments in case the terms required to be submitted in a bid or offer for such contract are in conflict with such provisions.

2. No contract for the sale of coal shall provide for deliveries to commence at a date later than ninety (90) days from the date upon which such contract is entered into.

3. No contract shall be made at a price below the applicable minimum price as established by the Coal Commission at the time of the making of the contract for the coal to be sold thereunder, and no coal may be delivered upon a contract at a price below such applicable minimum price.

4. All contracts for the sale of coal the minimum price of which is subject to seasonal increase, shall provide that the price payable thereunder shall not be less than the price to be in effect at the time of delivery as established at the time of the making of the contract.

5. No contract shall provide for delivery over a period in excess of twelve (12) months except by special permission and approval of the Coal Commission, upon a showing of the necessity of meeting the long term contract competition of oil, gas, or other fuels or forms of power, or for such other reasons as the Commission may deem appropriate in order to further the effectual administration of the Act.

6. Any change in the terms of a contract, not in violation of these Rules and Regulations, shall be evidenced by a written agreement and shall conform to all the requirements set forth in these Rules and Regulations.

7. A report of every commitment shall be filed by the Code Member or his sales agent with the Statistical Bureau or Bureaus, within fifteen (15) business days from the date of the making of the agreement. Such report shall set forth all the terms and conditions of the commitment. A true copy of every contract and of any agreement for modification thereof shall be filed with the Statistical Bureau within fifteen (15) business days from the date of execution of such contract or agreement for modification: Provided, however, that a report of the commitment need not be filed if a copy of the contract is filed within fifteen (15) business days.

8. Each contract shall contain the following provisions, the meaning and effect of which shall not be changed or altered by any other provision of the contract:

"(a) This contract and the performance of all provisions thereof are expressly subject to the Bituminous Coal Act of 1937 and the proper orders and regulations issued thereunder by the National Bituminous Coal Commission."

"(b) No shipment consigned to any destination point may be reconsigned or diverted without the consent of the seller to be confirmed in writing. In case of any reconsignment or diversion, the seller shall charge and the buyer shall pay not less than the applicable minimum price for such coal at the time of the reconsignment or diversion for delivery to the destination to which such shipment is actually delivered and for the use to which it is actually applied.

"(c) The coal shipped pursuant to this contract is sold and purchased upon the following conditions:

"(1) If the coal is sold for consumption, it shall be used in the plant or plants named herein and for the use stated herein;

"(2) In case of diversion by the buyer to a use other than that stated herein, the buyer shall notify the seller in writing and the seller shall charge and the buyer shall pay not less than the applicable minimum price for such coal at the time of diversion for the use to which it is actually applied."

9. In any case where a contract is made by a sales agent of a Code Member, such sales agent shall not exercise the rights of the seller as defined in item 8 (b) of this section without first securing the consent of the Code Member producing such coal to be confirmed in writing.

10. The making of a contract for the sale of coal at a price below the minimum or above the maximum thereof established by the Commission at the time of the making of the contract shall constitute a violation of the code and such contract shall be invalid and unenforceable.

11. No contract shall be made for the sale of coal for delivery after the expiration date of the Act at a price below the minimum or above the maximum therefor established by the Coal Commission and in effect at the time of making the contract.

Section VII—Terms of Payment

1. The price and fair trade practice provisions of the Act shall not be evaded or violated by a Code Member, or his sales agent, through the use of terms of payment, and in no instance shall terms of payment be more favorable than the following:

(A) On rail, river, ex-river, or truck shipments, the date of payment of invoices for coal sold shall be on or before the twentieth day of the month following the month in which shipment was made.

(B) On tidewater cargo shipments the date of payment shall be not more than thirty (30) days from date of vessel bill of lading, and where coal is sold f. o. b. mines for tidewater cargo shipment, on or before the twentieth day of the month following the month in which the coal is dumped.

(C) Payment for all tidewater Bunker coal supplied for foreign vessels shall be by cash on delivery or by master's draft on owners in United States currency at not exceeding fifteen (15) days' sight at supplier's option. When drafts are accepted in payment, all bank charges for collection, exchange, etc., shall be for owner's account. Payment for tidewater bunker coal supplied for American vessels shall be made on or before the twentieth day of the month following delivery.

Payment for coal shipped for vessel fuel, and delivering into vessels at ports on the Great Lakes or tributary waters thereof, shall be made on or before the twentieth (20th) day of the month following such delivery.

(D) On lake cargo shipments, the day of payment shall be not more than sixty (60) days from date of vessel bill of lading, and where coal is sold f. o. b. mines for lake cargo shipments, on or before the twentieth (20th) of the second month following the month in which dumped.

(E) On all coal sold to railroads, the date of payment shall be on or before the twenty-fifth (25th) day of the month following the date of shipment.

(F) Invoices shall be paid in full in United States currency, or funds equivalent thereto, not later than the due date.

(G) No portion of the sale price may be withheld by agreement between the buyer and the seller based upon any unadjusted claim of the buyer.

(H) No sale, delivery, or offer for sale of coal shall be made upon any condition, express or implied, that any portion of the sale price may be withheld by the buyer, or deposited in escrow, pending or based upon a determination of the constitutionality of any provision of the Act, of the jurisdiction of the Coal Commission, or the validity or applicability of any order of the Coal Commission.

(I) Where payment is made by note, trade acceptance or other form of indebtedness, or where payment is made under any circumstances after the due date of the account, the seller shall charge and the buyer shall pay interest from and after the due date of the account at the current rate in the locality to which the coal is shipped to the vendee.

(J) Freight on all-rail or ex-river shipments shall not be paid by a Code Member, or his sales agent, except to prepay stations as published in current railway tariffs or on shipments to the United States Government, States or political subdivisions thereof. Where freight is thus prepaid, the amount thereof shall immediately upon receipt of freight bill or notice of sight draft payment, be invoiced to the buyer for immediate payment.

(K) No Code Member shall accept as payment in full for any account for the sale of coal any amount which is less than the applicable minimum price for the quantity of coal involved. Provided, however, that a Code Member may enter into a bona fide general creditors' composition with other creditors of a defaulting purchaser. A copy of such creditor's composition shall be filed with the Statistical Bureau within ten (10) business days from the date of making such composition.

(L) The agreement by a Code Member, expressed or implied, to extend the credit for a period longer than that authorized by these rules and regulations, with the effect of violating the price provisions or the unfair methods of competition of the Act, shall constitute a violation of the Code.

Section VIII—Use of Coal Analyses

1. Analyses of coal shall not be utilized by a Code Member, or his sales agent, in selling or offering for sale any coal produced by the Code Member, whether or not the analysis is a term in the offer or sale, unless such Code Member shall have filed with the Statistical Bureau and the District Board for the District in which the coal is produced, a report of the analysis or analyses as used or proposed to be used by him. Such report shall show the following:

(a) The name of the Code Member producer.
(b) The name of the mine.
(c) The name or geological number of the seam or seams from which the coal is produced.
(d) The name of the size, and, if screened, the dimension or dimensions of the screen or screens over and/or through which the coal is prepared.
(e) Whether the analysis is representative of the entire production of such size of coal, or whether it represents only a portion of such production segregated by selective mining, selective preparation, actual analyses made at the mine, or in any other manner.
(f) That such analysis is representative of the grade and size of the coal as regularly produced by the Code Member and as loaded directly into transportation facilities for shipment to market and that the Code Member is prepared to make deliveries of coal of substantially the quality and character as shown by the analysis.
(g) That each such analysis is not less than a promixate analysis showing moisture content, ash, volatile matter, fixed carbon, sulphur and British thermal units and ash softening temperature.

2. Every analysis used in selling, or offering for sale, any particular kind, quality, or size of coal shall be accompanied by a statement to the effect that a copy of such analysis has been properly filed with the Statistical Bureau, the Coal Commission and the District Board.

3. All reports of analyses so filed shall be subject to inspection at the office of the Statistical Bureau at any time during office hours by any interested person, and may be considered by the District Board and the Coal Commission in determining from time to time proper classifications of the coals produced by the Code Member.

4. A copy of any analysis of the coal of a Code Member made by or on behalf of a consumer and accepted by the Code Member as the basis for an adjustment of price under any contract or spot order shall be filed by the Code Member with the Statistical Bureau, the Coal Commission and the District Board, within five (5) business days after such adjustment is made.

5. From and after the effective date of these Rules and Regulations, no Code Member shall enter into or perform any agreement made upon a penalty or a premium and penalty basis which will permit the sale of coal at an aggregate contract price below the applicable minimum price established by the Coal Commission for the coal sold and delivered upon such agreement subsequent to said effective date: Provided, that where a Code Member has entered into an agreement made upon a penalty or a premium and penalty basis, this rule shall not be considered as affecting any claim that the buyer might otherwise have had for sub-standard preparation or quality under Section X of these Marketing Rules and Regulations.

Section IX—Resale of Coal Refused in Transit or at Destination

1. Where coal is refused by a consignee in transit or at destination, the Code Member may sell the same at the best obtainable price, provided that in each case the Code Member shall file with the Statistical Bureau, and the District Board for the District in which the coal was produced, within five (5) business days from the date of such resale, a statement giving the following information:

(a) Name of consignee.
(b) Address of the consignee.
(c) Original destination of the coal.
(d) Name of Code Member.
(e) Originating mine.
(f) The grade and size of coal shipped.
(g) Price at which coal sold.
(h) Reasons for the refusal.
(i) Facts resulting from the investigation of the complaint.
(j) Name of ultimate purchaser upon resale.
(k) Address of purchaser upon resale.
(l) Ultimate destination of the coal.
(m) Price received by the seller upon resale.
(n) Amount of commission, if any, paid upon the resale.
(o) A copy of the carrier's notice of refusal or a notice of reconsignment and such other pertinent information and facts as may be offered in proof of the necessity for such resale.
(p) A signed and verified statement that the provisions of the Code and the Marketing Rules and Regulations of the Coal Commission other than as to price have not been violated or evaded.

2. All Code Members shall properly furnish to the District Board and to the Statistical Bureau of the Coal Commission for the District in which the coal originated, full reports of all reconsignments, and shall authorize the carrier making such reconsignments to furnish complete information thereon to such Statistical Bureau.

Section X—Substandard Preparation or Quality

1. Where any claim of allowance or counterclaim is requested by a buyer for any delivery of coal claimed to be substandard in preparation or quality, or where it is claimed by the buyer that due to an error on the part of the shipper the buyer has incurred additional and extraordinary expense in accepting the shipment, the Code Member or his sales agent may, within a reasonable time after delivery of the coal, make settlement and agree with the buyer upon an amount reasonably to be deducted for such inferior coal or on account of such error, and may accept payment therefor at less than the applicable minimum price: Provided, that in each such case the Code Member shall within five (5) business days after granting such allowance file with the District Board and the Statistical Bureau of the Coal Commission a verified statement giving the following information:

(a) The name and address of the consignee and the reason for the request for the allowance.
(b) The price at which the coal was sold, the tonnage delivered, the name of the mine, the Code Member, the date of shipment, the grade and size of coal, the destination, and the amount of allowance or adjustment made.
(c) Such other pertinent information and facts as may be offered in proof of the necessity for such reduction or allowance.

(d) A statement that the adjustment has not been made with the purpose or intent of evading the price provisions of the Act.

The Code Member shall also file, together with the statement, a written claim duly executed by or on behalf of the buyer and verified by affidavit, setting forth the amount claimed by way of deduction and the reason for the complaint.

2. All such adjustments and allowances shall be subject to review by the Coal Commission.

Section XI — Crushing and Pulverizing Coal

1. Each code member who maintains and operates at his mine or at any facility used in preparing coals for market, any crushing or pulverizing device, shall register such device with the Statistical Bureau of the Coal Commission, on or before the _____ day of _____ on forms submitted by the Coal Commission.

2. Such forms shall include the following:

1. Name and address of code member.
2. Name of mine or facility at which device is located.
3. Name and style or type of crushing or pulverizing device.
4. Hourly capacity of device.
5. Sizes of coal which device can crush or pulverize.
6. Sizes of coal resulting from crushing or pulverizing.
7. Number of tons crushed in 1937 and in each month of 1938.
8. Cost per ton of crushing or pulverizing in 1937.

3. Beginning with the month of _____ each code member shall on or before the tenth (10th) day of each succeeding month, file with the Statistical Bureau on forms to be provided by the Coal Commission, a statement verified by affidavit, setting forth the following information for the preceding calendar month:

(a) Number of tons of each size crushed or pulverized.

(b) Number of tons of each size resulting from crushing or pulverizing.

Section XII—Miscellaneous

General

1. The minimum prices established by the Commission shall not apply to coal sold and shipped outside the domestic market as defined in the Act and in these Marketing Rules and Regulations.

2. Maximum prices established by the Commission shall not apply to coal sold and shipped outside the continental United States.

3. No coal shall be sold or delivered or offered for sale at a price below the minimum or above the maximum therefor established by the Commission, and the sale or delivery or offer for sale of coal at a price below such minimum or above such maximum shall constitute a violation of the Code: Provided, that the provisions of this paragraph shall not apply to a lawful and bona fide written contract entered into prior to June 16, 1933, which has been filed with the Coal Commission.

4. If, in converting a net or gross ton price, freight rate or freight rate differential, the calculation extends to more than 3 decimals, and the 4th decimal is .0005 or more, it shall be added as .001, and if under .0005 it shall be eliminated.

5. All coal shall be sold and invoiced on a price per ton basis, and all coal must be sold and invoiced under the size, price classification and other designation therefor in the price schedule published by the Coal Commission.

6. Failure to file information required by these Marketing Rules and Regulations or the filing of false information, wilfully made, will subject the party failing to file the information required, or the party so filing, to the penalties of the Act and other penalties imposed by law.

Advertising

1. No deduction or allowance from invoice prices shall be granted by any code member or his sales agent to any purchaser for advertising.

2. Code members (or their agents or representatives) either individually or collectively, with or without financial participation by retailers of coal, may conduct advertising campaigns seeking to increase the use of coal. The amount of expenditures incurred by a code member, his agent or representative for advertising shall be subject to review by the Coal Commission as to the good faith of the transaction.

Screening for Buyer's Account

1. The screening of mine run or rescreening of other grades of coal, sold and billed as such, for the buyer's account for the purpose of keeping the resultant products separate in the shipment thereof is prohibited.

Coal Confiscated or Lost in Transit

1. All coal confiscated or lost in transit shall be invoiced to the carrier at not less than the minimum price established for such coal for shipment to the destination and use to which the coal was sold or the established price for sale to the carrier at the place of confiscation or loss, whichever may be the higher.

Revision of Marketing Rules and Regulations

1. These Marketing Rules and Regulations are subject to revision and amendment by further order of the Coal Commission.

Penalties

Section 5 (b) of Bituminous Coal Act:

The membership of any such coal producer in such code and his right to an exemption from the taxes imposed by section 3 (b) of this Act, may be revoked by the Commission upon written complaint by any code member or district board, or any State or political subdivision of a State, or the consumers' counsel, after a hearing, with thirty days' written notice to the member, upon proof that such member has wilfully violated any provision of the code or any regulation made thereunder; and in such a hearing any code member or district board, or any State or political subdivision of a State, or the consumers' counsel, or any consumer or employee, and the Commissioner of Internal Revenue, shall be entitled to present evidence and be heard: *Provided*, That the Commission, in its discretion, may in such case make an order directing the code member to cease and desist from violations of the Code and regulations made thereunder and upon failure of the code member to comply with such order the Commission may apply to a circuit court of appeals to enforce such order in accordance with the provisions of subsection (c) of section 6 or may reopen the case upon ten days' notice to the code member affected and proceed in the hearing thereof as above provided.

Section 5 (c) of Bituminous Coal Act:

Any producer whose membership in the code and whose right to an exemption from the tax imposed by Section 3 (b) of this Act shall have been revoked and canceled may apply to the Commission and shall have the right to have his membership in the code restored upon payment by him to the United States of double the amount of the tax provided in section 3 (b) upon the sales price at the mine, or the market value at the mine if disposed of otherwise than by sale at the mine, or if sold otherwise than through an arms' length transaction, of the coal sold or disposed of by the code member in violation of the code or regulations thereunder (but in no case shall such sales price or market value be taken to be less than the minimum price established by the Commission for such coal and in effect at the time of such sale or other disposal), as found by the Commission under subsection (b) hereof. The Commission shall thereupon certify to the Commissioner of Internal Revenue and to the collector of internal revenue for the internal revenue collection district in which the producer resides the amount of the required payment as found under clause (5) of subsection (b), and upon payment of such amount to the Commissioner or the collector such officer shall notify the Commission thereof.

Section 10 (c) of Bituminous Coal Act:

If any producer required by this Act or the code or regulation made thereunder to file a report shall fail to do so within the time fixed for filing the same, and such failure shall continue for fifteen days after notice of such default, the producer shall forfeit to the United States the sum of $50 for each and every day of the continuance of such failure, which forfeiture shall be payable into the Treasury of the United States, and shall be recoverable in a civil suit in the name of the United States, brought in the district where the producer has his principal office or in any district in which he shall do business. It shall be the duty of the various district attorneys, under the direction of the Attorney General of the United States, to prosecute for the recovery of forfeiture.

Section 35 of the Criminal Code as amended by the Act of June 18, 1934, c. 587, 48 Stat. 996 (U. S. C., Title 18, sec. 80):

Whoever shall make or cause to be made or present or cause to be presented, for payment or approval, to or by any person or officer in the civil, military, or naval service of the United States, or any department thereof, or any corporation in which the United States of America is a stockholder, any claim upon or against the Government of the United States, or any department or officer thereof, or any corporation in which the United States of America is a stockholder, knowing such claim to be false, fictitious or fraudulent; or whoever shall knowingly and willfully falsify or conceal or cover up by any trick, scheme, or device a material fact, or make or cause to be made any false or fraudulent statements or representations, or make or use or cause to be made or used any false bill, receipt, voucher, roll, account, claim, certificate, affidavit, or deposition, knowing the same to contain any fraudulent or fictitious statement or entry, in any matter within the jurisdiction of any department or agency of the United States or of any corporation in which the United States of America is a stockholder shall be fined not more than $10,000 or imprisoned not more than ten years, or both.

Section 37 of the Criminal Code (U. S. C. 88):

If two or more persons conspire either to commit any offense against the United States, or to defraud the United States in any manner or for any purpose, and one or more of such parties do any act to effect the object of the conspiracy, each of the parties to such conspiracy shall be fined not more than $10,000, or imprisoned not more than two years, or both. (R. S. Sec. 5440; May 17, 1879, c. 8, 21 Stat. 4; Mar. 4, 1909, c. 321, Sec. 37, 35 Stat. 1086)

MINIMUM PRICE AREA NO. 5—DISTRICT NO. 15

PROPOSED MINIMUM PRICES

In compliance with Order No. 249 of the Commission, the District Board for District No. 15 proposed minimum prices f. o. b. transportation facilities at the mines for kinds, qualities, and sizes of coal produced by Code Members in said District. It also proposed classifications and price variations as to mines within said District, consuming market areas, and values as to uses as said Board deemed proper and within the authority conferred by the Act. A schedule of same was submitted together with the data upon which said prices were computed which data included the factors considered in determining the price relationship between the various kinds, qualities, and sizes of coal produced by Code Members within said District.

At a hearing before this Commission held in Chicago, Illinois, on November 22, 1938, the District Board presented its case in justification of its said proposed minimum price and classification schedule. Two witnesses testified in support of said schedule, identifying and introducing into the record five exhibits, being numbered 705, 706, and 706–A to 708, inclusive. The testimony of these witnesses appears in Transcript Volume No. 11, dated Chicago, Illinois, November 22, 1938, pages 5552 to 5624, both inclusive, under General Docket No. 15.

First Witness—W. E. Blucher

Mr. W. E. Blucher, Kansas City, Missouri, was sworn and testified in substance concerning his experience and qualifications. He has been Manager of the Kansas City Wholesale Coal Credit Bureau since 1920, Secretary Kansas City Coal Service Institute since 1928, Secretary Southwest Coal Bureau since 1929, Secretary-Treasurer Bituminous Coal Producers Board District No. 15 since its organization in June, 1937; he has been connected with the coal industry for approximately 22 years, during all that time having worked for coal companies collectively and never having been employed by any individual coal company; his first connection with the coal industry was in 1916 when he was employed by the Southwest Coal Bureau, a statistical and wholesale credit organization; he worked with the United States Fuel Administration as Manager of its statistical office in Zone 17 during the World War; he is generally familiar with marketing of coals produced in District 15. He identified and introduced into evidence a document marked for identification as Exhibit No. 705 and entitled "Schedule of Minimum Prices Proposed Pursuant to National Bituminous Coal Commission's Order No. 249" and stated that it represented the proposal of District Board 15 of minimum prices for the kinds, qualities, and sizes of coal produced in said District.

The schedule was prepared in the office and under the instructions of the District Board; two meetings were held by the Board at their offices on August 30 and September 13, 1938. Upon receiving Order No. 249 of the Commission, the Chairman of the Board called a meeting, including its Advisory Committee, for the purpose of having said committee make recommendations to the District Board. It instructed such committee to give consideration immediately to any and all orders of the National Bituminous Coal Commission and to be prepared to make recommendations to the District Board on all matters affecting coal produced in the District. The Advisory Committee was appointed by the Chairman of such Board, he having been authorized for that purpose on August 17, 1937. The appointment of the committee was approved by the Board on September 7, 1937. The Advisory Committee is composed of four members of the District Board supplemented by eleven sales executives and sales managers of coal companies operating within the District. They have had long years of experience in the actual marketing of coal produced within the District and have knowledge of the value of the various coals, one to the other. All are Code Members who represent organizations selling more than 50 per cent of all coal produced within the District. The witness testified that he is ex officio Secretary of such committee and that the committee, anticipating Order No. 249 of the Commission, had given considerable thought at various times to the proposal of minimum prices, and that actual work on its recommendations to the Board concerning such minimum price schedule closely followed August 20, 1938, the date on which Order No. 249 of the Commission was issued.

On August 30, 1938, the Advisory Committee reported its actions and recommendations to the District Board through formal report, together with a draft of the proposed minimum price schedules. The minutes and all other information and data in the possession of the Advisory Commitee used in the preparation of such recommendations were made available to the Board. With the information and data, in addition to the knowledge of the individual members of the committee of the marketing conditions within the District, the committee had available and submitted to the Board, (a) the analyses of various coals, (b) the price relationships existing in approved N. R. A. schedules, (c) relationships proposed under the Bituminous Coal Conservation Act of 1935, (d) the prices and relationships proposed under the Bituminous Coal Act of 1937 approved by the National Bituminous Coal Commission under date of December 16, 1937, and effective on January 3, 1938, and (e) the records of the consideration given to applications and petitions for changes.

In explaining the nature of these particular data, the witness identified and introduced into evidence as Exhibit No. 706, a document containing all of the analyses submitted to the District Board by Code Members within District 15, used by the Advisory Committee in making its recommendations, and also as a part of the underlying data submitted to the District Board. Exhibit No. 706–A, a document entitled "Basis for Classification of Mines in District No. 15," which document contains the average analyses.

Action of the District Board in Compliance With Statute and Commission Order No. 249

In compliance with the statute and Order No. 249 of the Commission, the Board gave consideration to the underlying data hereinbefore mentioned and to the proposed minimum price schedule. It ordered one revision thereof to be made immediately in relation to the 1¼ x 0 screenings in Production Group No. 2. Upon such revision it approved such minimum price schedule and ordered, in accordance with Rule III of Commission's Order No. 249, a copy thereof to be mailed to all Code Members within the District, together with a letter of transmittal advising such Code Members of their right to protest.

After the submission to the various Code Members within the District of the initial price schedule as approved by the District Board, a total of 58 protests were received; three protests were received from Production Group No. 1; six from Group No. 2; eighteen from Group No. 3; fourteen from Groups Nos. 4 and 5; one from Group No. 6; and sixteen from Oklahoma Groups Nos. 7, 10, 11, and 12.

Hearings on Protests

The District Board arranged, in accordance with Rule IV of Order No. 249, for hearings to be conducted by the Advisory Committee on such protests and authorized the Secretary to keep stenographic records of the hearings. Dates for hearings were set, protestants notified, hearings were held, and recommendations in connection therewith were

made by the Advisory Committee to the District Board. In its meeting on September 13, 1938, in further compliance with Rule IV, the District Board granted some of the protests and denied others. The initial proposed schedule was corrected to accord with the relief granted.

After consideration of the protests and such revision and amendments necessitated thereby, the District Board ordered the preparation of the proposed minimum price schedule to be put in form to meet Order No. 249 of the Commission. In compliance with Rules VI and VII one-hundred copies were ordered to be filed with this Commission; five copies were ordered to be filed with each of the other District Boards, and, in accordance with Rule V a copy of such proposed minimum price schedule as changed and corrected was mailed to all Code Members within the District, together with a letter of transmittal.

Proposed Schedule of Minimum Prices

The proposed minimum price and classification schedule, as submitted at the hearing of District Board No. 15 and identified as Exhibit 705, consists of twenty pages including an index; price instructions; size groupings; definition of producing groups; definition of consuming market areas; alphabetical list of Code Members showing price classification by sizes for various uses; and prices for shipment into market areas 1 to 20, inclusive, except as noted in price instructions.

Item No. 7 on page 4 of the schedule provides for an additional charge of not less than ten cents per ton when coal is subjected to any chemical, oil or waxing process. This additional charge is based upon the experience within this District which demonstrates that coals so treated to allay dust have a value enhanced by at least ten cents per ton over the coals not so treated.

Item No. 8 on page 4 of the above mentioned minimum price schedule refers to the f. o. b. mine price on "shelly" offgrade coal. Testimony at the hearing developed that a large portion of the tonnage in District 15 is produced from strip mines. The part of this coal which lies near the outcrop is frequently of inferior quality and is known locally as "shelly" coal. A maximum discount of fifteen cents per ton on Sizes Nos. 1 to 7 of this type of coal is provided for the reason that past market history has demonstrated that coal of this nature is generally sold at approximately that amount below the current prices of coal for similar coals of standard quality.

The purpose of providing an increase of fifteen cents per ton in Item 9 on the above mentioned page to the prices on Sizes Nos. 1 to 10 inclusive, when such coals are washed, was in order to reflect the fact that the washing of such sizes enhanced their value by the amount of the differential.

It appears from page 5 thereof that the coals in this District have been grouped into twenty-one separate size groupings generally consisting in the following order of (1) Fancy Lump, (2) Lump, (3) Furnace or Egg, (4) Egg-Nut, (5) Fancy Nut, (6) Standard Nut, (7) No. 2 Nut, (8) Chestnut, (9) Mine Run, (10) Nut Run, (11) Special Stoker, (12) Raw Prepared Screenings, (13) Washed Screenings, (14) Screenings, (15) Raw Dust, (16) Special Purpose coal produced in Production Group No. 12; this special purpose coal is defined as "Crushed Mine Run—Bulk", (17) Special Purpose coal produced in Production Group No. 12; this Special Purpose coal is defined as "Crushed Mine Run—Sacked", (18) Special Purpose coal produced in Production Group No. 12; this Special Purpose coal is defined as "Lump over 2½ inches", (19) Railroad Locomotive Fuel, (20) Railroad Locomotive Special Stoker, and (21) Railroad Locomotive Screenings.

The size of each of the above twenty-one classifications is set forth on this page. It further appears from this exhibit that District 15 has been divided into thirteen Production Groups and on page 6 such Production Groups are defined by the political boundaries within which they are located, the counties and states being specifically named.

Pages 7, 8, and 9 indicate that there are twenty-nine consuming market areas. These areas are defined specifically at the above pages of the exhibit.

Pages 10 to 24, both inclusive, set forth the name of the Code Member, the name of the mine, production group, the seam or kind of coal mined by such Code Member, and the price, classification and size group numbers. It appears from this part of the schedule, among other things, that there are 616 Code Members operating mines within the thirteen production groups; that size groups 1 to 14, both inclusive, are designated as coals dedicated to "Domestic and Commercial Use"; size groups 12 to 15 are coals for "Industrial Use"; groups 16 to 18 are coals for "Special Purpose Use"; and size groups 19 to 21 are coals used for "Railroad Locomotive Fuel."

Page twenty-five of this exhibit indicates the price in cents per net ton of 2000 pounds and the size group numbers of the "Domestic-Commercial and Industrial," "Special Purpose," and "Railroad Locomotive" coals. There is a wide range of prices: Size groups 1, 2, and 3 each carry forty-seven separate price classifications. Letter designations indicating the price for each separate classification start with A, run through the entire alphabet, and continue with the double alphabet down to and including UU, each letter of the alphabet indicating a five cent differential in price. This gives a price range of from $7.17 per ton for coal classified as "Special Purpose," No. 17 Mine Run Crushed—Sacked, to thirty cents per ton for "Commercial Industrial" coal, No. 14 Raw Screenings.

Factors Considered in Determining Price Relationships

In compliance with Order No. 249 of the Commission, the District Board directed its Secretary to assemble all data upon which the proposed minimum prices were computed. Such Secretary kept a record of all matters presented to the Board in its proceedings and compiled a document identified and introduced into evidence as Exhibit No. 708, entitled "Statement of the Data Including, but Without Limitation, the Factors Considered in Determining the Price Relationships as Proposed to the National Bituminous Coal Commission in Response to Order No. 249." This document contains a statement of the information which the District Board had before it in proposing its minimum price schedule, together with such other factual data as had been compiled for the use of the Board by the Advisory Committee, including (1) a description of District No. 15 defining the producing groups therein, (2) a statement of average analyses, (3) a key reflecting the relationships between the standard coals in the various producing groups, and (4) the steps taken by the District Board in proposing the minimum prices.

Attached to this Exhibit is a map designating the various coal producing fields in the District; the names and experience of the members of the Advisory Committee; the average analytical and physical description of the coals produced within each production group; a designation of the base groups; a key reflecting the relationships between the standard coals in the various producing groups within the Districts, in cents per ton; a statement as to the relationships between raw and washed coal; a realization table; and the names and addresses of the members of the District Board.

Second Witness—E. M. Douthat

Mr. E. M. Douthat of Kansas City, Missouri, was sworn and testified in substance concerning his experience and qualifications as follows: that for approximately twenty-five years, he has been engaged in the sale and production of coal in the southwestern states, and in Illinois and Kentucky for a lesser period of time; that at present he is Vice President of the Sinclair Coal Company, a selling agency of Kansas City; Vice President of the Huntville-Sinclair Mining Company, a Code Member in producing group No. 3 of District 15; President of the Thebold Coal Company, a Code Member in producing group No. 2; Vice President of the Delta Coal Mining Company, a Code Member in District 10; and Vice President of the Sentry Coal Mining Company, a Code Member in District No. 9. He has had approximately twenty-five years experience in the marketing of coal and has been Vice-Chairman of District Board No. 15 since its organization. His testimony developed the following facts.

Production Groups Within District 15

Bituminous coal is produced by Code Members in District 15, with the exception as noted within the Texas producing group. Production is carried on in the northern tier of counties in the State of Missouri, ranging down through the State of Missouri in a southwesterly direction into southern Kansas, and on down through east and central Oklahoma to a short distance north of the Texas line. It extends north and south for a distance of approximately 500 miles.

The District Board has grouped the coals in this District according to geographical areas because for many years it has been generally accepted by all producers within such District that all coals produced within certain geographical areas are generally comparable in character and interchangeable for the general uses to which they are put. During N. R. A., attempts were made to more definitely define these various geographical areas. As a result of this effort and further studies made pursuant to the Bituminous Coal Acts of 1935 and 1937, the producing groups as proposed by the District Board were created. The coals within each producing group are directly competitive with each other and there are quality differentials existing between such groups as indicated by the chemical and physical characteristics and their generally recognized use values.

Producing Group No. 1

The major portion of the coal produced in this group is by surface or strip method. Quite a volume, however, is produced by shaft or underground methods. The mine equipment ranges from the most modern to the most primitive. Preparation is generally by shaker screens, although some smaller mines are equipped only with stationary screens. The coal averages approximately 12,500 B. t. u.'s as received. In appearance, it ranges from a dull black to a dark gray. It is a coking and caking coal, with excessive pyrites, disintegrates considerably in shipping and handling, will not store satisfactorily, and discolors in storage due to calcite partings.

The performance of this coal is usually more satisfactory where uniform high furnace temperatures are required.

Coal mined by this group is transported both by rail and truck, quite a number of the smaller mines being exclusively truck mines with no rail facilities.

This coal meets with competition from oil and gas in practically every market it reaches and is also in competition with water power produced by the Bagnell Dam in southern Missouri and other small power dams scattered throughout the Ozark region.

It is principally used for railroad and industrial purposes, although a portion of the production is sold for domestic use.

All of the coals produced in this group are of such structure and character that they are generally interchangeable for all uses for which there is a market.

Producing Group No. 2

The major portion of the production in this group is also by surface or strip method, although there are a number of small shaft and slope mines with a smaller production volume. The equipment in this group also ranges from the most modern to the most primitive.

Preparation is generally by shaker screens, the smaller mines using stationary screens.

This coal averages about 11,300 B. t. u.'s, as received. In appearance, it ranges from a dull black to a dark gray. It is a slightly coking coal although freerer burning than the coals from group No. 1. It disintegrates in shipping and handling, will not store satisfactorily and discolors due to calcite partings. This coal is transported both by rail and truck, a great number of the mines, however, having no rail facilities. It is in competition with oil and gas in practically every market it reaches; also with water power as in the case of group 1 coals. Its use, structure, and interchangeability are also comparable to group 1 coals.

Producing Group No. 3

Coals in this group are produced by surface and strip method as well as through shaft and slope mines. Preparation equipment ranges from modern to primitive. Screening is generally done by shaker screen, the smaller mines using stationary screens.

The coal averages approximately 11,400 B. t. u.'s, as received. is similar in general characteristics to the coals in Production Group No. 2, although somewhat less caking and is generally interchangeable in common markets with such coals. Transportation is both by rail and truck, trucks however transporting a substantial volume. It is in competition with oil and gas in the majority of its markets and generally it is used for railroad and industrial purposes, a portion of the tonnage being sold for domestic use.

All the coals produced within this group are generally interchangeable for all uses for which there is a market.

Producing Group No. 4

Coals produced in this group are entirely by shaft or slope methods. Mining is carried on both by pick and undercutting machines. The seam is very thin and produces block coal with very little slack; as the coal is usually loaded by hand in the mine the only slack loaded is that small amount resulting from degradation caused by handling.

The coal averages approximately 11,700 B. t. u.'s, as received; in appearance, it ranges from a dull black to a dark gray. It is a flashy free burning coal, disintegrates rapidly in shipping and handling, does not store satisfactorily, has numerous calcite partings which, when wet or exposed to the air, cause disintegration.

The coal is transported both by rail and truck, the major portion by truck as many mines in this group have no rail facilities.

There is competition in all markets with gas and fuel oil.

The production is used principally for domestic purposes, although a substantial portion is used for railroad and small industrial demand. These coals are generally interchangeable with each other for all uses.

Producing Group No. 5

This coal is produced entirely by shaft or slope method and mining is carried on both by pick and under-cutting machines.

It averages approximately 11,300 B. t. u.'s, as received, and is very similar to coal produced in Producing Group No. 4. It is generally interchangeable in the markets; however, there is not so much degradation in shipping and handling as in the coal from Producing Group No. 4.

The majority of the tonnage is transported by trucks, many of the mines having no rail facilities.

There is competition with oil and gas in practically all of its markets and it is used principally for domestic and railroad purposes.

All coals in this group are similar in structure and character and are generally interchangeable with each other for all uses.

Producing Group No. 6

Surface or strip and shaft and slope mining methods are used in the production of coal in this area. Underground mining is largely by pick although there are very few under-cutting machines.

The coal produced is much the same type as in Producing Groups 4 and 5. It averages approximately 10,500 B. t. u.'s, as received.

It disintegrates rapidly in handling due to numerous calcite partings. Transportation is almost entirely by truck, only approximately one per cent being transported by rail.

This coal is in competition with oil and gas in all its markets and is used principally for domestic purposes, only a very small amount being used for steam purposes in small plants in nearby towns.

Producing Group No. 7

Coal mining in this area is carried on by shaft and slope methods, both pick and under-cutting machines being used. Preparation is by shaker and stationary screen. Some coal is hand-picked in the mines. It averages approximately 13,700 B. t. u.'s, as received. Coal is known as the McAlester seam coal and is the highest grade produced in this District for domestic and industrial purposes. In appearance, it is dense black, has small calcite partings not sufficient to cause excessive degradation. It is a

slightly coking coal, is low in sulfur and ash, high in heat value, hard, and will store for a long period of time.

Transportation is by rail and truck. The coal is sold in competition with oil and gas and used principally for domestic purposes, a small portion being disposed of for railroad and industrial use. All coals in this group are generally interchangeable.

Producing Group No. 8

The coal in this area is produced by shaft and slope methods both by pick and under-cutting machines. Its preparation is usually by shaker and stationary screens, although there is some hand picking.

This coal produces approximately 13,800 B. t. u.'s, as received, and is higher in volatile matter as compared with coals in Group No. 7. It does not stand up well in handling and storing and tends to disintegrate in storage due to numerous calcite partings.

It is transported by rail and truck, is sold in competition with gas and oil, and is used principally for domestic purposes, only a small portion being disposed of for railroad and industrial use.

These coals are generally interchangeable with each other.

Producing Group No. 9

The mining in this area is by shaft and slope method, both pick and under-cutting machines being used. Preparation is by stationary and shaker machines with some hand picking in the mine. This coal is similar in quality and appearance to that mined in Production Group No. 8 and has been classified accordingly.

Transportation is entirely by truck. The coal is sold in competition with oil and gas, it being used almost entirely for domestic purposes, although some is disposed of for steam and industrial use.

The coals in this group are generally interchangeable with each other.

Producing Group No. 10

This coal is also mined through shaft and slope operations both by pick and under-cutting machines. Preparation is by shaker and stationary screens, some of the smaller mines using hand picking methods.

The coal is non-coking, free burning, and averages approximately 15,600 B. t. u.'s, as received. Its appearance is black and glossy, and it disintegrates rapidly in handling and storage.

Transportation is both by rail and truck and the coal is sold in competition with gas and oil; it is used principally for domestic, railroad, and industrial purposes.

The coals mined in this production group are generally interchangeable with each other.

Producing Group No. 11

Surface or strip mining and shaft and slope mining are the methods commonly used in producing coal in this particular group. The underground mining is carried on both by pick and under-cutting machines. Preparation is by shaker and stationary machines, although some of the smaller mines employ only hand picking methods.

This is a slightly coking coal and averages approximately 13,000 B. t. u.'s, as received. It is black and glossy in appearance; however, it is friable and disintegrates rapidly in handling and storage. Transportation is by rail and truck and this coal meets competition with oil and gas. It is used for railroad, industrial, and domestic purposes. These coals are generally interchangeable with each other.

Producing Group No. 12

Shaft and slope methods of mining are employed in this area. The coal is of a low volatile rank, very soft in structure, but of high chemical purity. It contains approximately 14,300 B. t. u.'s, as received. It is used principally for blacksmithing purposes and generally is not regarded as competitive with any other coal produced in District 15.

Transportation is by rail and truck, and the coals are of such structure and character that they are generally interchangeable with each other.

Producing Group No. 13

There is only one shipping mine in this group, with the exception of the State-owned mine at the Kansas penitentiary, which is located at Leavenworth, Kansas. This mine has recently gone into receivership and its status was unknown at the time of the hearing.

Some very small local mines operate at times in this area. There is no average analysis available for their coals; however, such coal is regarded by the District Board as being of a value comparable to the coal produced in Groups 4 and 5 and has been so classified by the Board.

Producing Groups in Texas

Most of the coal produced in Texas is lignite and accordingly not subject to the Bituminous Coal Act. However, there are five Code Members in this area apparently producing a bituminous coal. The District Board was unable to obtain sufficient data on these members to properly classify their coals as they do not enter into any known competition with other mines in District 15 and they are all small truck mines with an aggregate annual production of less than 3,000 tons. When additional data and information are obtained by the District Board, it reports that it will take such steps as may be necessary to propose minimum prices and classifications on these coals to the Commission.

Instructions to Advisory Committee Relative to Proposal of Minimum Prices

The Advisory Committee had standing instructions from the District Board to meet and formulate recommendations to such Board in respect of any and all matters required by any Order of the Commission. Upon receipt of Order No. 249 of the Commission, such Committee was called into session and proceeded to prepare its recommendations to the District Board as to the proposed minimum price and classification schedule.

In this connection, the Committee first divided the District into the above mentioned 13 geographically defined production groups so arranged, to include as nearly as possible in each group, all mines from which coal of similar quality, structure and performance characteristics was produced.

Size groups were then established to facilitate the pricings of all sizes of coal which, information available to the Committee indicated, were needed and desirable to meet the requirements of Code Members and their customers.

Differentials to reflect the relative market values of the standard coals produced in each production group that were sold in competition with the standard coals produced in every other production group were then established by the Committee and each size of coal loaded by each Code Member was classified to express the proper valuation thereof in its relation to the standard coals of the same size within the same production group.

Recommendations by the Advisory Committee were made to the District Board for each kind, quality, and size of coal produced by Code Members in District No. 15, together with the price thereof expressed in cents per ton of 2000 pounds f. o. b. the mines. These recommendations were believed by the Advisory Committee to reflect the relative market values thereof at a level that would yield a return for the District equal as nearly as may be to the weighted average of the total cost per net ton of the tonnage of Minimum Price Area No. 5, as determined by the Commission.

Factors Considered in Determining Value Differentials

Coals produced within each producing group, with the possible exception of Group No. 13, vary from each other in value, and in arriving at the price differentials the value of standard coals in each production group was determined in relation to their value to the standard coals of each of the other producing groups. The price differential between coals of substandard quality in each group was related or compared to the standard coals in each group in order to reflect the difference in value.

In arriving at the proposed relationships, the District Board assumed that all coals from all production groups moved to all markets on identical transportation charges per ton.

Consideration was given also to the factors of chemical analysis, appearance, physical characteristics, characteristics of performance, market history, values as to uses, and consumer acceptance.

Method of Determining Size Groupings

In its proposed classification and minimum price schedule, the District Board designated 21 different size groupings.

A thorough survey of the available distribution reports of Code Members disclosed that 21 separate size groupings would be required to be proposed for the reason that this number of different sizes was actually loaded within this District. Size Groups 1 to 15, inclusive, embrace all sizes of coal actually loaded for Domestic, Commercial, and Industrial use, or in other words, for all purposes other than special uses, whereas Size Groups Nos. 16 to 21, inclusive, include Special Purpose use and Railroad Locomotive fuel. All sizes within any one size group have equal market value.

Determination of Price Differentials

In determining the price differentials, the District Board selected the coals produced by Production Group No. 1 as the base coals for the reason that such group is located near the center of District 15 and the coals which it produces compete with practically every other producing group. The experience of this producing District discloses that the coals coming within Size Groups Nos. 1, 2, and 3 are of equal market value and accordingly the District Board so priced them. The difference in market value between the several size groups proposed by the District Board was ascertained from experience and the Board proposed prices therefor at a level which would return the weighted average cost, as nearly as may be, of the minimum price area and which would reflect, as nearly as possible, the relative market values of the various sizes.

Realization

The District Board caused the proposed price schedule to be tested for realization and a document entitled "Realization Based on 1937 Tonnage and Calculated at Proposed Prices" was identified and introduced into evidence as Exhibit 707.

Consideration of this Exhibit shows that it contains 6 tables. Table 1 is the "Recapitulation of Realization for Rail and Truck Shipments" based on 1937 tonnage. Table 2 is the "Realization of Rail and Truck Shipments" based on 1937 tonnage. Table 3 is the "Recapitulation of Realization on Rail Shipments" based on 1937 tonnage. Table 4 is the "Realization on Rail Shipments" based on 1937 tonnage. Table 5 is the "Recapitulation of Realization on Truck Sales" based on 1937 tonnage, whereas Table 6 is the "Realization on Truck Sales" on such tonnage.

In 1937 a total of 5,335,989 tons were produced for commercial use; this tonnage calculated at the proposed prices would realize $10,182,276 or $1.9082 per ton for this type of coal, whereas 1,916,535 tons of coal were produced for railroad use in 1937, which tonnage calculated at the proposed prices would realize $4,009,222 or $2.0919 per ton for this type of coal. It further appears from Table 5 that the total truck sales in 1937 amounted to 912,964 tons, which calculated at the proposed prices as set forth in the proposed minimum price schedule would realize $2,017,983.92 or $2.2104 per ton.

An examination of Table 1, which is in fact a recapitulation of the total realization from all rail and truck shipments based on 1937 tonnage, calculated at the prices as proposed in Exhibit 705, indicates that such total realization for all coal of the various kinds, qualities, and sizes as listed in the schedule is $1.9568, there having been produced 7,252,524 tons of coal by this District in 1937, which tonnage calculated at the prices proposed in the schedule would realize $14,191,498 or $1.9568 per ton as above stated.

Correction of Error in Realization and Proposed Minimum Price Schedule

In the process of arriving at minimum prices, f. o. b. transportation facilities at the mine, the District Board ascertained the relative value of the coals in the market, and proceeded to relate that value to an f. o. b. mine price, but in the conversion of prices and differentials for the coal in size groups 1, 2, 3, and 4 in all producing groups to an f. o. b. mine price, the District Board made an error in failing to eliminate the effect of transportation charges upon such prices, with the result that the prices for size groups 1, 2, 3, and 4 in all producing groups, as proposed in the schedule submitted by District Board 15, are forty cents per ton lower than they should be to conform to the requirements of Section 4 II (a) of the Act. The schedule submitted by District Board 15 should, therefore, be modified by increasing the prices for size groups numbers 1, 2, 3, and 4 in all producing groups forty cents per ton. This increase in the four size groups will in no way affect the relationships as intended to be proposed by the Board for the remaining size groups and qualities. However, such correction, modification, or adjustment will have the effect of increasing the realization now calculated (as above set forth) from $1.9568 per ton to $2.0615 per ton, which is within 0.0125 cent per ton of the weighted average cost of production of Minimum Price Area No. 5.

Modifications of Proposed Minimum Price and Classification Schedule

Upon consideration of all the evidence, both oral and documentary, introduced at the hearing on the submission by District Board No. 15 of its proposed schedule of minimum prices and classifications and under the authority conferred upon this Commission by the applicable provisions of the Bituminous Coal Act of 1937, the Commission finds that said proposed schedule should be, and the same is hereby, modified in the following respects:

(1) The cover page of said proposed schedule is hereby modified and amended by substituting therefor the cover page as submitted and approved by the Legal Division of this Commission and appearing as a part of said approved schedule attached hereto as an appendix.

(2) Item No. 3 on page 4 of said schedule is hereby modified by inserting the words "in cents" after the word "are" and by deleting the last three words of the sentence contained in said Item 3 so that same will read as follows: "All prices herein are in cents per net ton of 2000 pounds f. o. b. transportation facilities at the mine."

(3) Item 5 on page 4 of said schedule reading as follows: "The substitution on any order of a grade or size of coal taking a minimum price higher than the grade or size ordered is not authorized or permitted" is modified by the complete deletion thereof for the reason that said item is a marketing rule or regulation and not a price instruction.

(4) The first paragraph at the top of page 5 of said schedule which reads: "All size designations herein are for round hole screens. When other types of screen are used, the round hole equivalent shall control the size" is hereby modified by the complete deletion thereof and the following is hereby inserted in its place and stead: "All size designations herein are for round hole screens. When other types of screens are used, the equivalent as determined by the District Board subject to the approval of the National Bituminous Coal Commission shall govern the size."

(5) The second paragraph on page 5 of said schedule reading "If any size coal is made for which a size is not designated herein, such coal shall be sold at the price applicable to the next larger size" is hereby modified by deleting the last two words, "larger size," and inserting in their place and stead the words "higher priced size group."

(6) The definition for Size Group 21 as same appears on page 5 of said schedule is hereby modified to read as follows: "No. 21—Railroad Locomotive Screenings—2" x 0" Washed and 2" x ¼" Raw." This modification is made for the reason that it appeared at the hearing that some Code Members within this District have recently been preparing and selling this additional size for railroad locomotive fuel.

(7) All classifications of coal in Size Groups 1 (Fancy Lump), 2 (Lump), 3 (Furnace or Egg), and 4 (Egg-Nut) are hereby modified by increasing each and every price in such four size groups 40 cents per ton in order to correct the error of the District Board in designating the various prices for said classifications. This modification has the effect of changing the realization as originally computed by the District Board from $1.9568 to $2.0615, which latter realization is within 0.0125 cent of the weighted average cost of production of Minimum Price Area No. 5 and accordingly is equal as nearly as may be to the weighted average costs of such minimum price area.

All of the above modifications appear in the approved schedule of minimum prices

used in producing coal in this particular | Commission. Upon receipt of Order No. | designated 21 different size groupings

	forth in the proposed minimum price	and appearing as a part of said ap-	the approved schedule of minimum prices

as modified and attached hereto as an appendix.

Protests

Three protests were filed by Code Members with the Commission, complaining of the prices and classifications of certain of the coals produced by them as contained in the minimum price and classification schedule proposed and submitted by the District Board. The Middle River Coal Company of Fulton, Missouri, and the Moniteau Coal Company at Higbee, Missouri, were called during the hearing to provide such protestants an opportunity to introduce evidence in support of their various protests, but no one appeared for said protestants or either of them and, accordingly, the subject matter of the protests having been heard before the District Board, such protests are hereby denied and no modification or revision of the proposed minimum price schedule, as submitted by the District Board, is made with reference to the price or classifications of the coals of the above named protestants.

Upon motion of the Legal Division of the Commission, however, the protest of the Middle River Coal Company above mentioned, together with 6 letters and 3 analyses of coal, was identified and introduced into evidence as Exhibit No. 709. The gist of the complaint as contained in this protest is that a differential in price that would be consistent with the difference in analyses of washed or unwashed coals is desired and it is the desire of the protestant to offer for sale, mine run coals running at least 35 percent screenings, it being contended that many steam plants cannot burn coal of as low fuel value as the protestant's raw screenings. As the District Board proposed higher prices on mine run containing 35 percent screenings for steam use than it did on washed screenings, it is further requested that mine run containing 35 percent screenings or more, for steam use, should be allowed a price not higher than that of washed screenings which are not higher in analysis.

In consideration of the fact that this same protest was heard and considered by the District Board, and since no additional evidence has been presented to the Commission in support of said protest, the Commission approves the action of the District Board in denying the same, without prejudice however, to the protestant or other interested parties re-asserting their claim and supporting the same by other and additional evidence.

The Robinson Coal Company, operating a strip mine in Foster, Bates County, Missouri, appeared by R. S. Leavitt, its Vice President in charge of Sales, and was heard by the Commission concerning the subject matter of its protest.

The protest was identified and introduced in evidence as Exhibit No. 710 and requests a 15 cent per ton differential between washed and unwashed coals of Sizes 1 to 10, inclusive, from mines located in Producing Groups Nos. 2 and 3. The protestant's mine is not equipped with a washer and it contends that the washing process improves and enhances the quality of coals in Groups 2 and 3 to the same extent as in Group 1. The District Board gave consideration to this protest and permitted a 10 cent differential but denied the requested 15 cent differential.

The Commission approves of the action of the District Board in this regard and, accordingly, denies the request of this protestant with regard to the 15 cent differential claimed between Sizes 1 to 10, inclusive, produced in Producing Groups Nos. 2 and 3.

This protest further requests the establishment of a 35 cent differential between washed and unwashed screenings for industrial purposes from Groups Nos. 1, 2, and 3. The District Board established a differential of 25 cents and 20 cents, respectively. The protestant claims that due to the large quantity of impurities contained in its raw screenings, it has been found impossible to compete with raw or washed screenings from Group 1 or washed screenings from Groups Nos. 2 and 3, and that Group No. 1 raw and washed screenings and Groups Nos. 2 and 3 washed screenings represent a much greater comparative value at the proposed prices than raw or unwashed screenings from the protestant's (Robinson) mine in Group No. 2. The protestant further claims that the Robinson mine was forced to suspend operations due to a large accumulation of screenings.

In this connection the Commission finds that the evidence adduced by the protestant is not of such a persuasive nature, when weighed against the considerations, deliberations and opinions of the members of the District Board and its advisory committee, to warrant the Commission in modifying the proposal made by the District Board. The request of the protestant is therefore denied.

Conclusion

And now upon consideration of all the evidence, both oral and documentary, introduced at the hearing on the submission of the minimum price and classification schedule as proposed by District Board No. 15 at Chicago, Illinois, on November 22, 1938, the Commission hereby finds:

(1) That the District Board for District No. 15 as directed by Order No. 249 of the Commission proposed minimum prices free on board transportation facilities at the mines for kinds, qualities, and sizes of coal produced by Code Members within the District, and classifications of coal and price variations as to mines, consuming market areas, and values as to uses.

(2) That said District Board submitted to the Commission a schedule of such proposed minimum prices and classifications, together with the data upon which the prices contained in said schedule were computed, and upon which the classifications of coal were determined, including without limitation, the factors considered in determining the price relationship.

(3) That the prices contained in said schedule as modified and revised by the Commission reflect as nearly as possible the relative market value of the various kinds, qualities, and sizes of coal produced by Code Members within the District; are just and equitable as between producers within the District; have due regard to the interests of the consuming public, and do not permit dumping.

(4) That the minimum prices contained in said schedule, as modified and revised by the Commission, for any kind, quality, or size of coal for shipment into any consuming market area, are just and equitable as between producers within the District.

(5) That the minimum prices contained in said schedule, as modified and revised by the Commission, for any kind, quality, or size of coal for shipment into any consuming market area, are proposed in such manner so as to yield a return per net ton for the District equal as nearly as may be to the weighted average of the total cost, per net ton, of the tonnage of Minimum Price Area No. 5; the return or realization, per net ton, for said District 15, under said schedule as modified and revised being $2.0615, whereas the weighted average of the total cost per net ton of the tonnage of Minimum Price Area No. 5 as determined by the Commission is $2.049.

(6) That the proposed minimum price and classification schedule submitted to the Commission by District Board No. 15 as modified, amended, corrected, and revised, a copy of which said schedule appears as an appendix attached hereto, is in reasonable compliance and conformity with Order No. 249 of the Commission and with the requirements of Section 4 II (a) of the Bituminous Coal Act of 1937.

The Commission further hereby finds that said schedule as so modified, amended, corrected, and revised, should be, and the same is hereby, approved by the Commission to serve as a basis for coordination, as provided in Section 4 II (b) of said Act.

APPENDIX FOR DISTRICT NO. 15

SCHEDULE OF MINIMUM PRICES AS MODIFIED AND APPROVED TO SERVE AS A BASIS FOR COORDINATION

NOTE.—The prices in this schedule are not the final prices that will be established on coal for shipment by Code Members within this district into consuming markets of this district. In the ultimate establishment of the effective minimum prices, pursuant to subsection (b) of Part II, Section 4 of the Act, the minimum prices in this schedule are subject to such increase or decrease respectively, as may be necessary to carry out the provisions of subsections (a) and (b) of Part II, Section 4 of the Act.

F. W. MCCULLOUGH,
Secretary.

Issued: December 17, 1938.

PRICE INSTRUCTIONS AND EXCEPTIONS

1. The relationships reflected herein are divided into four parts reflecting the value as to uses, namely, Domestic and Commercial Coal Use, Industrial Coal Use, Special Purpose Coal Use, Railroad Locomotive Fuel Use.

(a) Domestic and Commercial Coal Use applies: First, on all sales in retailing of coal. Second, on all sales of coal to consumers using coal principally for space heating. Third, on all other sales except as provided for in the Industrial Coal Use Part, Special Purpose Coal Use Part, and Railroad Locomotive Fuel Use Part.

(b) Industrial Coal Use applies where sale is made by the producer code member, his authorized agent, or a registered wholesaler or jobber, and where the coal moves direct from the mine of the producer to consumers using fuel principally for: First, the purpose of driving steam engines or turbines. Second, the purpose of manufacturing or processing if fuel is required each day of the year products of the consumer are produced.

(c) Special Purpose Coal Use applies to all coal produced in what is known as the Briartown District in Oklahoma.

(d) Railroad Locomotive Fuel Use applies to all coal sold to railroads for locomotive fuel.

2. The schedule of prices shown herein applies F. O. B. transportation facilities at mines on all coal produced by Code Members in the District shown on the title page hereof.

3. All prices herein are in cents per net ton of 2,000 pounds F. O. B. transportation facilities at the mine.

4. All prices are subject to the Marketing Rules and Regulations issued by the National Bituminous Coal Commission.

5. In the sale of coal to destined points outside the boundary of the United States, prices stipulated herein are for payment in United States funds.

6. When coal is subjected to any chemical, oil or waxing process, an additional charge of not less than 10¢ per net ton shall be made.

7. The F. O. B. mine price on shelly, offgrade coal may be reduced a maximum of 15¢ per ton on Sizes Nos. 1 to 7, inclusive, when due notice is given by a Code Member to the Statistical Bureau of the National Bituminous Coal Commission that he has such coal to dispose of and the coal is inspected and so classified by an authorized representative of the Commission.

8. Prices shown herein for Sizes Nos. 1 to 10, inclusive, from Production Group No. 1 are for unwashed coal. When these sizes are washed, 15¢ shall be added to the prices indicated.

9. On Size No. 17, Special Purpose Coal Produced in Production Group No. 12, the price indicated may be reduced $1.75 per ton when buyer furnishes the sacks.

SIZE GROUPS

Size group No. 1. *Fancy lump.*—Coal passing over a screen with round hole openings larger than 3".

Size group No. 2. *Lump.*—Coal passing over a screen with round hole openings of ½" to 3", inclusive.

Size group No. 3. *Furnace or egg.*—Coal passing through a screen with round hole openings not over 10" and over a screen with round hole openings of not less than 1½".

Size group No. 4. *Egg-nut.*—Coal passing through a screen with round hole openings not over 10" and over a screen with round hole openings not over 1¼".

Size group No. 5. *Fancy nut.*—Coal passing through a screen with round hole openings not over 3" and over a screen with round hole openings not over 2".

Size group No. 6. *Standard nut.*—Coal passing through a screen with round hole openings not over 3" and over a screen with round hole openings not over 1¼".

Size group No. 7. *No. 2 nut.*—Coal passing through a screen with round hole openings not over 2" and over a screen with round hole openings not over 1¼".

Size group No. 8. *Chestnut.*—Coal passing through a screen with round hole openings not over 1¼" and over a screen with round hole openings of not over 1".

Size group No. 9. *Mine run.*—Coal shoveled at the face from which no coal has been removed either at the face, preparation plant, or when loading into transportation facilities, and shall contain not less than 30% screenings that will pass through an 1¼" round hole screen. Run of mine containing less than 30% screenings that will pass through an 1¼" round hole screen shall be classified as Lump coal and sold at not less than the Lump coal price.

Size group No. 10. *Nut run.*—Coal passing through not larger than a 3" round hole screen or its equivalent, from which no coal has been removed, and it shall contain not less than 50% screenings that will pass through an 1¼" round hole screen. Nut Run containing less than 50% screenings that will pass through an 1¼" round hole screen shall be classified as 3" Nut coal and sold at no less than the price applying on Standard Nut.

Size group No. 11. *Special stoker.*—Coal passing through a screen with round hole openings not over 1¼" and over a screen with round hole openings not over ⅜".

Size group No. 12. *Raw prepared screenings.*—Coal dry-cleaned passing through a screen with round hole openings not over 1¼" and over a screen with round hole openings not over ¼".

Size group No. 13. *Washed screenings.*—1¼" x 0"—Washed coal passing through a screen with round hole openings not over 1¼" from which no coal has been removed.

Size group No. 14. *Screenings.*—1¼" x 0"—Coal passing through a screen with round hole openings not over 1¼" from which no coal has been removed.

Size group No. 15. *Raw dust.*—¼" x 0"—Coal that has not been washed passing through a screen with round hole openings not over ¼" from which no coal has been removed.

Size group No. 16. *Special purpose coal produced in production group No. 12.*—Crushed Mine Run—Bulk.

Size group No. 17. *Special purpose coal produced in production group No. 12.*—Crushed Mine Run—Sacked.

Size group No. 18. *Special purpose coal produced in production group No. 12.*—Lump over 2½".

Size group No. 19. *Railroad locomotive fuel.*

Size group No. 20. *Railroad locomotive special stoker.*—3" x 0" with ½ of the screenings removed.

Size group No. 21. *Railroad locomotive screenings.*—2" x 0"—Washed and 2" x ¼" Raw.

All size designations herein are for round hole screens. When other types of screens are used the equivalent as determined by the District Board subject to the approval of the National Bituminous Coal Commission shall govern the size.

If any size coal is made for which a size is not designated herein, such coal shall be sold at the price applicable to the next higher priced size group.

IDENTIFICATION OF PRODUCING GROUP NUMBERS

Group No. 1. All mines located in Cherokee, Crawford, Bourbon, Neosho, Labette and Wilson Counties, Kansas; and Barton, Jasper, Dade, Cedar, and that portion of Vernon County lying south of an east and west line drawn through the town of Nevada, Missouri.

Group No. 2. All mines located in Linn County, Kansas; and Bates, Henry, St. Clair, Morgan, Pettis and Johnson Counties; and that portion of Vernon County lying north of an east and west line drawn through the town of Nevada in Missouri.

Group No. 3. All mines located in Boone, Callaway, Audrain, Randolph, Macon, Linn, Grundy, Harrison, Adair, Chariton, Schuyler, Putnam, Cole, Howard, Monroe, Warren, and Ralls Counties in Missouri.

Group No. 4. All mines located in Ray, Clay, Caldwell, Daviess, Clinton, and Carroll Counties in Missouri.

Group No. 5. All mines located in Lafayette County, Missouri.

Group No. 6. All mines located in Osage, Franklin, Lyon, and Coffey Counties, Kansas.

Group No. 7. All mines operating on the genuine McAlester seam in Pittsburg and Latimer Counties, Oklahoma.

Group No. 8. All mines operating on the Wilburton-Hartshorne seams in Pittsburg and Latimer Counties, Oklahoma.

Group No. 9. All mines located in Coal County, Oklahoma.

Group No. 10. All mines located in Okmulgee County, Oklahoma.

Group No. 11. All mines located in Tulsa, Wagoner, Rogers, Nowata and Craig Counties, Oklahoma.

Group No. 12. All mines located in Muskogee County, Oklahoma.

Group No. 13. All mines located in Johnson, Leavenworth, and Wyandotte Counties, Kansas.

CONSUMING MARKET AREAS DEFINED

No. 1. *Greater Kansas City.*—In Wyandotte and Johnson Counties, Kansas: Missouri Pacific River Route to a point approximately even with the Western University Annex on the west; thence southwest through Welborn to Muncie on the Union Pacific and K. C. K. V. & W.; thence east to Turner on the A. T. & S. F.; thence south to Shawnee; thence east to Merriam on the St. L.-S. F.; thence south to Overland Park on the Mo. & Kans. R. R.; thence east to the western boundary of Jackson County, Missouri.

In Jackson County, Missouri: Beginning at Martin City on the Mo. Pac. to the south; thence east to and including Grandview on the K. C. S. and St. L.-S. F.; thence northeast to but not including Lees Summit; thence northeast to and including Blue Springs; thence northeast to and including Buckner; thence north to and including Sibley on the Missouri River.

In Clay County, Missouri: North Kansas City only.

No. 2. *St. Joseph.*—Switching limits of St. Joseph, Missouri.

No. 3. *Omaha.*—Switching limits of Omaha, Nebraska.

No. 3A. *Council Bluffs.*—Switching limits of Council Bluffs, Iowa.

No. 4. *Lincoln.*—Switching limits of Lincoln, Nebraska.

No. 5. *Sioux City, Iowa.*—Switching limits of Sioux City in Iowa.

No. 6. *South Dakota.*—All of the state of South Dakota.

No. 7. *Minnesota.*—All of the state of Minnesota.

No. 8. *Iowa.*—Beginning at a point southeast of Sioux City, excluding Sioux City, running southeast on an airline to a point immediately north of Minden; thence east excluding points on the C. R. I. & P. R. R. to and excluding Atlantic; thence crossing the C. R. I. & P. R. R. east of Atlantic including points thereon, to and including Des Moines; thence crossing the railroad continuing east excluding points on the C. R. I. & P. R. R. to but excluding Grinnell; thence north excluding points on the Minneapolis & St. Louis R. R. to, but including Marshalltown; thence west excluding Minerva Junction; thence north excluding points on the Minneapolis & St. Louis R. R. to and excluding Eldora; thence northwest excluding points on the C. & N. W. R. R. excluding Iowa Falls, Alden, Dows, and Clarion; thence northeast excluding points on the Chicago, Great Western R. R. to and excluding Mason City; thence north excluding points on the C. R. I. & P. R. R. to the Minnesota-Iowa state line; thence west following the state line to the South Dakota-Iowa-Minnesota state line; thence south following the Iowa-South Dakota state line to the point of beginning, excluding Sioux City.

No. 8A. *Iowa.*—Beginning at a point just northwest from Eldora; thence north excluding points on the Minneapolis and St. Louis R. R. to and excluding Hampton; thence north including points on the C. R. I. & P. R. R. to but excluding Mason City; thence southwest including points on the C. G. W. R. R. to and including Clarion; thence southeast on an airline to the point of beginning, including Clarion, Dows and Alden.

No. 8B. *Iowa.*—Points in eastern Iowa. Beginning at the northeast corner of Iowa on the Mississippi River; thence south down the river, excluding points on the C. M. St. P. & P. R. R. from Clinton to Davenport, both excluded; thence west following the river to a point south of Muscatine; thence west including points on the C. R. I. & P. R. R. to and including Thornburg; thence west on an airline to a point southwest of New Sharon, including New Sharon; thence north including points on the Minneapolis & St. Louis R. R. to but excluding Marshalltown; thence west including Minerva Junction; thence north including points on the Minneapolis & St. Louis R. R. to and including Hampton; thence north excluding points on the C. R. I. & P. R. R. to Mason City but including Mason City; thence north to the Minnesota-Iowa state line, including points on the C. R. I. & P. R. R.; thence east following the Minnesota-Iowa state line to the point of beginning.

No. 8C. *Iowa.*—Begining at a point just south of Muscatine, Iowa; thence west excluding points on the C. R. I. & P. R. R. to and excluding Thornburg; thence west to a point just south of New Sharon, Iowa; thence south including points on the Minneapolis & St. Louis R. R. to and including Oskaloosa; thence southeast excluding points on the C. R. I. & P. R. R. to and excluding Ottumwa; thence east including points on the C. B. & Q. R. R. to and including Burlington, Iowa; thence north up the Mississippi River to the point of beginning.

No. 8D. *Iowa.*—Beginning at a point on the Missouri-Iowa state line due south of Bloomfield, Iowa, running north excluding points on the Wabash to and excluding Ottumwa; thence east excluding points on the C. B. & Q. R. R. to the Mississippi River; thence south down the

River to the Iowa-Illinois-Missouri state line; thence northwest and west on the Missouri-Iowa state line to the point of beginning.

No. 8E. *Iowa.*—Beginning at a point south of Sioux City, Iowa, running on an airline southeast to a point just north of Minden; thence east including points on the C. R. I. & P. R. R. to and including Atlantic; thence crossing the railroad east of Atlantic and excluding points on the C. R. I. & P. R. R. to and excluding Des Moines; thence continuing east including points on the C. R. I. & P. R. R. to a point just west of Grinnell; thence south excluding points on the Minneapolis and St. Louis R. R. to and excluding Oskaloosa; thence southeast including points on the C. R. I. & P. R. R. to and including Ottumwa; thence northwest including points on the C. B. & Q. R. R. to but excluding Frederic; thence west excluding points on the C. B. & Q. R. R. to the Missouri River; thence north up the Missouri River to the starting point of this area, excluding Council Bluffs and Sioux City.

No. 8F. *Iowa.*—Beginning at the Missouri-Iowa state line south of Bloomfield, Iowa; thence north including points on the Wabash R. R. to but excluding Ottumwa; thence northwest excluding points to but including Frederic; thence west including points on the C. B. & Q. R. R. to the Missouri River; thence south following the Missouri River to the Nebraska-Iowa-Missouri state line; thence east on the Iowa-Missouri state line to the point of beginning.

No. 9. *Northwest Missouri.*—The counties of Andrew, Atchison, Buchanan except St. Joseph, Clinton, DeKalb, Gentry, Holt, Nodaway, Platte and Worth in the state of Missouri.

No. 10. *North Missouri.*—Bounded on the north by the Iowa-Missouri state line; bounded on the east by the western boundary line of Market Area No. 11; bounded on the west by the western county lines of Harrison, Daviess, Caldwell and Clay Counties, except North Kansas City; bounded on the south by the Missouri River from North Kansas City to the Western boundary of Saline County, thence south to the southern boundary of Saline County; thence east following the southern boundary of Saline County to the Missouri River; thence the Missouri River to St. Louis and including the towns of Boonville, Jefferson City, Algoa and Algoa Farms, located on the south bank of the Missouri River.

No. 11. *Northeast Missouri.*—Points east of a line beginning at a point west of Keokuk, Iowa, on the south bank of the Des Moines River; thence south including points on the C. B. & Q. R. R., passing just east of Maywood, including Quincy, Ill., continuing south crossing the C. B. & Q. R. R. east of Palmyra; thence south crossing the Wabash R. R. west of Oakwood; thence southwest including points on the St. L. & H. R. R., crossing the Alton R. R. west of Bowling Green; thence southeast crossing the C. B. & Q. R. R. west of Old Monroe; thence east running between the Wabash and the C. B. & Q. R. R. and continuing to and including St. Louis, Mo.

No. 12. *Central Missouri.*—Bounded on the north by the Missouri River from Sibley, Missouri, east to the western county boundary line of Saline County, thence south to the southern boundary of Saline County; thence east and northeast following the boundary line of Saline County to the Missouri River; thence the Missouri River east to St. Louis, except the towns of Boonville, Jefferson City, Algoa and Algoa Farms on the south bank of the Missouri River; bounded on the west by an imaginary line drawn from but not including Sibley, Missouri, on the Missouri River to but not including Buckner; thence southwest to but not including Blue Springs; thence southwest to but not including Lees Summit; thence southward and east of the line of the Missouri Pacific R. R., Lees Summit to Lamar, and excluding all points on the Missouri Pacific R. R.; thence eastward and north of the main line of the St. Louis-San Francisco R. R. Lamar to Cape Girardeau through Springfield and Willow Springs and excluding all points on the main line of the St. Louis-S. F. R. R.; bounded on the east by the Mississippi River, St. Louis to Cape Girardeau.

No. 13. *South Missouri.*—Towns on and west of the Missouri Pacific R. R., Lees Summit to Lamar, both inclusive; all towns on and south of the main line of the St. L.-S. F. R. R., Lamar to Cape Girardeau, through Springfield and Willow Springs; all towns in Cherokee County, Kansas, and that part of Jackson County, Missouri, not included in Market Areas Nos. 1 and 12.

No. 14. *Central & Western Nebraska.*—Central and western Nebraska excluding Market Area No. 14–B.

No. 14A. *Eastern Nebraska.*—Nebraska points on and east of a line from the Missouri River at Running Water through, but not including Bloomfield, Randolph, to and including Norfolk, thence southeast to and including Scribner, Fremont, and thence through Linwood, Wahoo, Valparaiso, Lincoln, Crete, DeWitt, Beatrice, and Wymore to the Kansas state line, excluding Lincoln and Omaha.

No. 14B. *Central-Western Nebraska.*—Part of C. B. & Q. and C. & N. W. C. & N. W. Wyoming line to but not including Eli, Nebraska; C. B. & Q. Wyoming line to but not including Grand Island, Nebraska.

No. 15. *Arkansas.*—All of the state of Arkansas.

No. 16. *Oklahoma and Texas.*—All of the states of Oklahoma and Texas.

No. 17. *Kansas—Zone 1.*—That part of Kansas on, north and east of the following lines: Towns on and north of the C. R. I. & P. R. R. beginning at the Kansas-Colorado state line to Colby; thence on and north of the Union Pacific R. R. Plainville Branch to and including Salina; thence southwest on and east of the Mo. Pac. R. R. to Marquette, thence an imaginary line southwest crossing the A. T. & S. F. R. R. west of Windom to and including Wherrey on the St. L.-S. F. R. R.; thence on and east of the St. L.-S. F. R. R. through Medora to the northern county line of Sedgwick County; thence east along the Sedgwick County line to the western county line of Butler County; thence south along the western boundary lines of Butler and Cowley Counties to the Oklahoma state line, excluding Cherokee County, the towns of Atchison and Leavenworth and that part of Wyandotte and Johnson Counties included in Market Area No. 1 (Greater Kansas City).

No. 18. *Atchison and Leavenworth.*—Switching limits of Atchison and Leavenworth, Kansas.

No. 19. *Southwest Kansas—Zone 2.*—That part of Kansas south and west of Market Area No. 17 except Sedgwick and Sumner Counties.

No. 20. *Kansas—Zone 3.*—Sumner and Sedgwick Counties, Kansas.

Minimum Price Area No. 5—District No. 15

Proposed Marketing Rules and Regulations

A witness for District Board No. 15, properly qualified as an expert in the marketing of coal in that District, introduced into evidence as Exhibit No. 827, the rules and regulations proposed by District Board No. 15 in compliance with Commission Order No. 250. The witness testified that these rules and regulations were properly submitted to Code Members within said District and that no protests concerning such proposals were received from Code Members. Accordingly, these rules were adopted by the District Board and submitted to the Commission.

The witness stated that he agreed with the testimony of Mr. Brown, the expert witness for the Marketing Division of the Coal Commission, as to certain modifications, clarifications and deletions of the rules proposed by District Board No. 15, and it was his further opinion that, with the exception of the rule in Section IV of Exhibit No. 825 relating to limitation of contracts, the rules proposed by District Board No. 15 should be modified to conform to the rules contained in Exhibit No. 825, which, in the opinion of the witness, represented desirable clarifications, modifications and deletions of the rules proposed by the District Board.

Rule 1 E of Section VI of the rules proposed by District No. 15 provides that no contract shall be made for the delivery of coal for retailing at less than minimum prices in effect at the time of shipment. The witness testified that the District Board wanted this rule so as to confine the right of contract at a fixed price with industrial plants and to prohibit the right to so contract with retailers. This rule makes an exception to the general rule proposed by the District Board which provides that contracts may be entered into for the sale of coal at prices not less than the minimum price in effect at the time of the making of the contract. We are of the opinion that such discrimination as to retail dealers is unwarranted and unreasonable.

The witness testified that District Board No. 15 was opposed to any rule limiting Code Members to thirty (30) day contracts for a period of time after the establishment of minimum prices. The witness testified that such a rule would not be desirable for District No. 15 and that it was necessary for Code Members within his District to enter into a contract for a period of twelve (12) months immediately upon the establishment of minimum prices. Except for this limitation of the right to contract contained in Rule 1 of Section IV of Exhibit No. 825 and except for the absence of any rule prohibiting Code Members from entering into contract with retailers at a fixed price, the witness was of the opinion that the rules contained in Exhibit No. 825 more clearly effectuated the purposes of the rules proposed by District Board No. 15. It is apparent from the testimony of the witness, and from the proposal of Rule III of Section VI of Exhibit No. 827, that the witness did not mean to include in his exceptions to the rules contained in Exhibit No. 825, the rules governing the quotations and options.

Rule 1 (b), Section IV of Exhibit No. 825, reads as follows:

"For deliveries thereafter, at not less than the applicable minimum prices in effect at the time of delivery."

The expert witness for the Marketing Division testified that this rule was written for the purpose of minimizing the injustice that might otherwise result from the privilege to make contracts in excess of thirty (30) days with governmental agencies that purchased through competitive bidding. We are of the opinion that the purposes of this rule will be better effectuated if the rule is modified to read as follows:

"For deliveries thereafter, at not less than the applicable minimum prices in effect at the time of delivery if such price is higher than the contract price."

Rule 1 (I), Section VII, of Exhibit No. 825, reads as follows:

"Where payment is made by note, trade acceptance or other form of indebtedness, or where payment is made under any circumstances after the due date of the account, the seller shall charge and the buyer shall pay interest at not less than the current market rate from and after the due date of the account."

We are of the opinion that this rule should be clarified to read as follows:

"Where payment is made by note, trade acceptance or other form of indebtedness, or where payment is made under any circumstances after the due date of the account, the seller shall charge and the buyer shall pay interest from and after the due date of the account at the current rate in the locality to which the coal is shipped to the vendee."

Rule 1, under "Advertising", Section XI of Exhibit No. 825, provides that no deduction or allowance from invoice prices shall be granted by any Code Member or his sales agent to any purchaser for advertising which would have the effect of reducing the invoice price below the applicable minimum price. District Board No. 15 in Exhibit No. 827 proposes a rule which prohibits any deduction or allowance whatsoever from invoice prices for advertising. We are of the opinion that such a rule better effectuates the purposes of the Act and that the similar rule contained in Exhibit No. 825 should be modified accordingly.

Rule 2 under "Advertising", Section XI of Exhibit No. 825, provides:

"The price and fair trade practice provisions of the Act shall not be evaded by any payment or allowance by any Code Member, his agent, or representative, to any purchaser or purchaser's representative covering advertising. The amount of expenditures incurred by a Code Member, his agent or representative, for advertising shall be subject to review by the Coal Commission as to the good faith of the transaction."

We are of the opinion that this rule should be modified to read as follows:

"Code Members (or their agents or representatives) either individually or collectively, with or without financial participation by retailers of coal, may conduct advertising campaigns seeking to increase the use of coal. The amount of expenditures incurred by a Code Member, his agent or representative for advertising shall be subject to review by the Coal Commission as to the good faith of the transaction."

Rule 1 under "Coal Confiscated or Lost in Transit", Section XI of Exhibit No. 825, provides:

"All coal confiscated or lost in transit shall be invoiced to the carrier at not less than the established minimum price therefor."

We are of the opinion that this rule should be clarified to read as follows:

"All coal confiscated or lost in transit shall be invoiced to the carrier at not less than the minimum price established for such coal for shipment to the destination and use to which the coal was sold or the established price for sale to the carrier at the place of confiscation or loss, whichever may be the higher."

The witness for the Marketing Division testified that Exhibit No. 825 contained no rules relating to substitution or the crushing of coal. The witness further testified that the Exhibit is not to be construed as representing any modifications or deletions of such rules as they may have been proposed by various District Boards. District Board No. 15 proposed rules relating to substitution in Section X of Exhibit No. 827, and we are of the opinion that these rules are reasonable with the exception of the second paragraph of Rule 8 (e). This paragraph should be deleted as the provision contained therein is impractical to enforce.

The expert witness for the Marketing Division testified that in his opinion the rules contained in Exhibit No. 825 represented desirable clarifications and modifications of the rules proposed by the various District Boards and that such rules were reasonable, not inconsistent with the provisions of Section 4 of the Act, and were in conformance with the standards of fair competition contained in the Act.

With the exception of those rules which we have already stated should be modified, we are of the opinion that the rules contained in Exhibit No. 825 are in accordance with the standards governing Marketing Rules and Regulations contained in Section 4 II (a) of the Act. These rules, according to the testimony of the expert witness for District No. 15, are reasonable and it was the witness' opinion that the rules proposed by District Board No. 15 should be modified to conform to the rules contained in Exhibit No. 825 with the exception of the modifications and deletions hereinbefore discussed and as reflected in the composite findings hereinafter given.

Accordingly, we find that the following rules and regulations incidental to the sale and disposition of coal by Code Members in District No. 15 are reasonable, not inconsistent with the requirements of Section 4 of the Act, and in conformance with the standards of fair competition established in the Act:

Marketing Rules and Regulations Incidental to the Sale and Distribution of Coal by Code Members within District No. 15 as Proposed by District Board No. 15 and as Approved, Disapproved, or Modified for the Purpose of Coordination

Section I. Definitions

1. The term "person" as used herein, includes individuals, firms, associations, partnerships, corporations, trusts, trustees, cooperatives, receivers and trustees in bankruptcy and in other legal proceedings, and any other recognized forms of business organizations.

2. A "sales agent" is a person who, as agent of a code member (and therefore without purchasing the coal), sells coal produced by such code member for him or on his behalf: *Provided*, That "sales agent" shall not include an individual

(herein referred to as a "salesman") regularly and continuously employed by a code member, whose sole compensation is a stated salary per week, per month, or per year, and who regularly devotes the major portion of his time to the solicitation of purchases of coal produced by his code member employer.

3. A "commission" is the total of all compensations and allowances received by a sales agent from a code member for services rendered in the sale of coal.

4. A "registered distributor" is a person who has been duly registered by the Coal Commission pursuant to the rules and regulations prescribed by the Commission for the administration of Section 4 II (h) of the Act.

5. A "spot order" is a legal obligation for the sale and purchase of coal, the delivery of which is stipulated to be made within not more than thirty (30) days from the effective date of the order, such effective date to be not more than fifteen (15) days from the date upon which the order was accepted.

6. A "contract" is a legal obligation for the sale and purchase of coal, the deliveries of which are stipulated to be made during a period longer than the maximum period specified for a spot order.

7. A "quotation" is an offer to sell coal which the offerer may withdraw prior to its being acted upon by the offeree.

8. An "option" is an offer to sell coal acceptable within a time certain, during which time the offerer may not withdraw the offer without the consent of the offeree.

9. A "commitment" is the status of a contract between the time a quotation is accepted or an option is exercised and the time the contract is formally reduced to writing.

10. "Coal Commission" as used herein, shall mean the National Bituminous Coal Commission established under the provisions of the Bituminous Coal Act of 1937.

11. "Act" as used herein shall mean the Bituminous Coal Act of 1937.

12. "Retailing" is the buying of coal for resale and selling such coal in lots or upon conditions other than those which would entitle a person to be registered with the Coal Commission as a distributor under Section 4 II (h) of the Act.

13. "District Board" as used herein, shall mean any District Board established under the provisions of Section 4, Part I (a) of the Act.

14. "Statistical Bureau" shall mean, unless otherwise specifically stated, the Statistical Bureau of the Commission for the District in which the coal involved in any transaction is produced, or the District in which is located a mine of a code member affected by any order or regulation.

15. "Minimum Price" shall mean a minimum price established and made effective by the Coal Commission.

16. "Maximum Price" shall mean a maximum price established and made effective by the Coal Commission.

17. The term "producer" includes all individuals, firms, associations, corporations, trustees, and receivers engaged in the business of mining coal.

18. The terms "reconsignment" and "diversion" as used herein shall mean the change in the original consignee or in the destination or route.

19. The term "transportation facilities" means railroad cars, ships, barges, trucks, or any other facilities used or useful in the transportation of coal.

20. A "code member" means a producer who has accepted and holds membership in the Bituminous Coal Code promulgated under the Bituminous Coal Act of 1937.

21. The term "domestic market" shall include all points within the continental United States and Canada, and car-ferry shipments to the Island of Cuba. Bunker coal delivered to steamships for consumption thereon shall be regarded as shipped within the domestic market.

22. "Cargo shipment" is a quantity of coal loaded in a vessel, boat or barge for transportation via water.

23. "Bunker coal" or "vessel fuel" is that coal used aboard a boat or vessel for consumption thereon.

24. "Coal" as used herein shall mean bituminous coal.

25. The term "bituminous coal" includes all bituminous, semi-bituminous and sub-bituminous coal and shall exclude lignite, which is defined as a lignitic coal having calorific value in British thermal units of less than seven thousand six hundred per pound and having a natural moisture content in place in the mine of 30 per centum or more.

26. The term "control" means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of a person, whether through the ownership or voting securities, by contract, or otherwise.

Section II. Sales Agents

1. All appointments of Sales Agents by Code Members or their agents or authorized representatives shall be subject to the Marketing Rules and Regulations from time to time established by the Coal Commission.

2. Each Code Member shall be responsible for the compliance by all his Sales Agents and agents and employees of Sales Agents and agents with the provisions of the Bituminous Coal Code and of all rules and regulations, promulgations and determinations of the Coal Commission.

3. Each Code Member shall require all his sales agents clearly to set forth upon any offer, contract, spot order, invoice, and statement of account covering coal sold or to be sold, the name of such Code Member principal, and the name of the mine or mines from which shipment was made or is to be made. If the name of the sales agent also appears in the transaction, then the above mentioned forms shall also disclose the fact of agency relationship with the Code Member principal.

4. (A) Every contract for the appointment of a sales agent by Code Members or by agents or authorized representatives of Code Members, or any modification thereof, shall be in writing, and shall fully set forth therein all the terms and conditions of such contract, including the amount or basis of the sales agent's commission. Certified copies of all such agency contracts entered into on or prior to the effective date of the establishment of these rules and regulations and in effect on such date, shall be filed by the Code Member with the Statistical Bureau, or Bureaus, within twenty (20) business days after such date.

(B) Certified copies of all contracts appointing sales agents or of agreements modifying any sales agency contract, entered into subsequent to the effective date of these rules and regulations, shall be similarly filed by the Code Member within ten (10) business days after the date upon which such contracts or agreements have been entered into.

(C) Upon the expiration, termination, or rescission of any sales agency contract, the Code Member principal shall make a report thereof to the Statistical Bureau, or Bureaus, within ten (10) business days after the date of such expiration, termination, or rescission.

5. (A) As to all coal sold by a Code Member otherwise than through a sales agent or through an employee regularly employed as a salesman by the Code Member at his principal place of business or at a regularly established sales office, such Code Member shall, not later than the fifteenth day of each month, file with the Statistical Bureau, or Bureaus, a list of all persons through whom, directly or indirectly, any such coal was sold during the preceding calendar month, with a statement of the duration and character of their employment, the tonnage sold by, and the rate and amount of compensation paid to, each of them.

(B) Not later than the fifteenth day of each month, each Code Member shall also file with the Statistical Bureau, or Bureaus, similar information obtained from his sales agents concerning sales of coal made during the preceding calendar month, by the sales agents' representatives and employees other than salesmen employed at the principal place of business or a regularly established sales office of the sales agent.

(C) Not later than the fifteenth day of each month, each Code Member shall also file with the Statistical Bureau or Bureaus a statement showing the names and addresses of distributors to whom the Code Member or his sales agents sold coal during the preceding calendar month, the tonnage sold, and the amount of discount allowed to each such distributor.

6. Within twenty (20) business days after the effective date of these rules and regulations, each Code Member shall file with the Coal Commission a list showing the names and addresses of all his sales agents. Upon any change in said list, the Code Member shall notify the Coal Commission within ten (10) business days after such change takes place.

7. A list showing the names and addresses of sales agents and the Code Members for whom such agents act shall be published monthly by the Coal Commission.

8. All agency contracts and other information filed by Code Members in conformity with the foregoing regulations, other than the names and addresses of sales agents, shall be held by the Coal Commission as the confidential records of said parties and shall not be made public without the consent of the Code Member from whom the same shall have been obtained, except where such disclosure is required in any proceeding before the Coal Commission by way of enforcement of the Act or upon the order of any court of competent jurisdiction.

9. From and after twenty (20) business days following the effective date of these Marketing Rules and Regulations no Code Member or sales agent of a Code Member shall allow or pay, directly or indirectly, any commission or compensation to any sales agent

(a) Unless the contract of agency shall have been filed with the Coal Commission, as hereinbefore required, and

(b) Unless the sales agent shall have agreed, in writing, with the Code Member to conform to and observe the minimum and maximum prices and Marketing Rules and Regulations established by the Coal Commission and the Fair Trade Practice Provisions of the Act, as well as all proper Orders of the Commission, and

(c) Unless the sales agent shall have in good faith complied with the agreement as in paragraph (b) above provided.

10. No commission shall be paid to a sales agent by a Code Member where the coal is delivered or sold to any person who owns such sales agent or who financially or otherwise controls such agent.

11. When any commissions are paid to a sales agent on a tonnage basis, the Code Member shall not include in the computation of such commissions any part of the tonnage of coal sold by him to the sales agent, whether for consumption or resale.

12. No Code Member shall employ any person or appoint any sales agent at a compensation obviously disproportionate to the ordinary value of the service or services rendered and whose employment or appointment is made with the primary intention and purpose of securing a preferment with a purchaser or purchasers of coal.

13. Subject to further order of the Coal Commission, the amount of commission to be paid by a Code Member to his sales agent shall be fixed by agreement of the parties, subject, however, that upon complaint of violation of the unfair methods of competition, as provided in the Act, the amount of such commission shall be subject to review by the Coal Commission.

Section III. Discounts

1. No Code Member or sales agent of a Code Member shall pay or allow any discount from minimum prices to any person unless such person has been registered by the Coal Commission as authorized to receive such discount at the time of the sale.

2. Code Members or their sales agents may allow discount from minimum prices or sales of coal to registered distributors, not in excess of the maximum discount or price allowance prescribed by the Coal Commission upon such sales. Only one such discount may be allowed on any such sale.

3. Except as expressly authorized in rules and regulations or orders promulgated by the Coal Commission, no Code Member or sales agent may grant or allow any discount or reduction, including any allowance for shipping on a Government Bill of Lading, from the applicable minimum prices upon the sale of coal to any person, including agencies of the Federal Government or agencies of state or local governments.

4. Every sale of coal to a distributor upon which a discount is allowed shall be made subject to the express condition that the distributor is authorized to receive the discount.

Section IV. Spot Orders

1. A spot order shall be in writing or confirmed in writing within five (5) business days from the date of the making thereof.

2. Each spot order shall be subject to the following conditions which shall either be endorsed upon the form of the order or upon the written confirmation thereof by the Code Member or his sales agent, the meaning and effect of which shall not be changed or altered by any other provision of the order:

"(a) No shipment consigned to any destination may be reconsigned or diverted without the consent of the seller to be confirmed in writing. In case of any reconsignment or diversion, the seller shall charge and the buyer shall pay not less than the applicable minimum price for such coal at the time of the reconsignment or diversion for delivery to the destination to which such shipment is actually delivered and for the use to which it is actually applied.

"(b) The coal shipped pursuant to this order is sold and purchased upon the following conditions:

"(1) If the coal is sold for consumption, it shall be used in the plant or plants named herein and for the use stated herein;

"(2) In case of diversion by the buyer to a use other than that stated herein, the buyer shall notify the seller in writing and the seller shall charge and the buyer shall pay not less than the applicable minimum price for such coal at the time of diversion for the use to which it is actually applied.

"(c) If shipments called for by this order are not completed within thirty (30) days from the effective date of this order, the unfilled portion of the order shall not be delivered."

3. In any case where a sale is made by a sales agent of a Code Member, such sales agent shall not exercise the rights of the seller as defined in Item 2 (a) of this section without first securing the consent of his Code Member principal to be confirmed in writing.

4. All the terms and conditions of a sale of coal must be fully and expressly set forth either in the order or in the written confirmation thereof and such order or written confirmation thereof shall specifically contain all the terms required by Rule 1 of Section V of these Marketing Rules and Regulations. Within ten (10) business days after the date of the making of the spot order or date of the written confirmation thereof, the Code Member or his sales agent shall file with the Statistical Bureau or Bureaus a copy of such spot order or confirmation. Any modification of a spot order must also be made in writing and filed with the Statistical Bureau or Bureaus in the same manner.

5. All spot orders for the sale of coal, the minimum price of which is subject to seasonal increase, shall provide that the price payable thereunder shall not be less than the price to be in effect at time of delivery as established at the time of the making of the spot order.

Section V. Quotations, Options, and Contracts

Code Members or sales agents of code members may enter into contracts for the sale or delivery of coal at prices not less than the minimum price in effect at the time of the making of the contract, upon the following conditions:

1. Every contract shall be in writing and shall express the entire agreement between the parties. The contract shall clearly state the date of execution, the effective date, the expiration date, the price agreed upon, the terms of payment, the size and grade of coal, the number of cars or tonnage to be shipped, the name of the Code Member and the name of the originating mine, and, where the coal is purchased for consumption, the use to which the coal is to be applied. Contracts may also be made either (a) calling for a buyer's entire requirements or a stated percentage of his requirements, showing the maximum tonnage to be shipped thereunder, or (b) covering a buyer's requirements and stating the es-

timated tonnage to be shipped with an allowable overshipment of not exceeding ten (10) per cent of such estimated tonnage.

The provisions of the rule stated in the foregoing paragraph relating to quantity shall not apply to contracts made with agencies of the Federal, State or local governments in case the terms required to be summitted in a bid or offer for such contract are in conflict with such provisions.

2. No contract for the sale of coal shall provide for deliveries to commence at a date later than ninety (90) days from the date upon which such contract is entered into.

3. No contract shall be made at a price below the applicable minimum price as established by the Coal Commission at the time of the making of the contract for the coal to be sold thereunder, and no coal may be delivered upon a contract at a price below such applicable minimum price.

4. All contracts for the sale of coal the minimum price of which is subject to seasonal increase, shall provide that the price payable thereunder shall not be less than the price to be in effect at the time of delivery as established at the time of the making of the contract.

5. No contract shall provide for delivery over a period in excess of twelve (12) months except by special permission and approval of the Coal Commission, upon a showing of the necessity of meeting the long term contract competition of oil, gas, or other fuels or forms of power, or for such other reasons as the Commission may deem appropriate in order to further the effectual administration of the Act.

6. Any change in the terms of a contract, not in violation of these Rules and Regulations, shall be evidenced by a written agreement and shall conform to all the requirements set forth in these Rules and Regulations.

7. A report of every commitment shall be filed by the Code Member or his sales agent with the Statistical Bureau or Bureaus, within fifteen (15) business days from the date of the making of the agreement. Such report shall set forth all the terms and conditions of the commitment. A true copy of every contract and of any agreement for modification thereof shall be filed with the Statistical Bureau within fifteen (15) business days from the date of execution of such contract or agreement for modification: *Provided, however*, that a report of the commitment need not be filed if a copy of the contract is filed within fifteen (15) business days.

8. Each contract shall contain the following provisions, the meaning and effect of which shall not be changed or altered by any other provision of the contract:

"(a) This contract and the performance of all the provisions thereof are expressly subject to the Bituminous Coal Act of 1937 and the proper orders and regulations issued thereunder by the National Bituminous Coal Commission.

"(b) No shipment consigned to any destination point may be reconsigned or diverted without the consent of the seller to be confirmed in writing. In case of any reconsignment or diversion, the seller shall charge and the buyer shall pay not less than the applicable minimum price for such coal at the time of the reconsignment or diversion for delivery to the destination to which such shipment is actually delivered and for the use to which it is actually applied.

"(c) The coal shipped pursuant to this contract is sold and purchased upon the following conditions:

"(1) If the coal is sold for consumption, it shall be used in the plant or plants named herein and for the use stated herein;

"(2) In case of diversion by the buyer to a use other than that stated herein, the buyer shall notify the seller in writing and the seller shall charge and the buyer shall pay not less than the applicable minimum price for such coal at the time of diversion for the use to which it is actually applied."

9. In any case where a contract is made by a sales agent of a Code Member, such sales agent shall not exercise the rights of the seller as defined in item 8 (b) of this section without first securing the consent of the Code Member producing such coal to be confirmed in writing.

10. The making of a contract for the sale of coal at a price below the minimum or above the maximum therefor established by the Commission at the time of the making of the contract shall constitute a violation of the code and such contract shall be invalid and unenforceable.

11. No contract shall be made for the sale of coal for delivery after the expiration date of the Act at a price below the minimum or above the maximum therefor established by the Coal Commission and in effect at the time of making the contract.

12. Options for the sale of coal may be given for a period not exceeding fourteen (14) days. No options may be given at a price less than the applicable minimum price in effect at the time of the giving of the option. If the applicable minimum price is increased beyond the quoted price within such fourteen (14) days and the option shall not have been exercised at that time, the option thereupon shall become null and void: *Provided*, however, that in connection with offers to sell to the United States Government, or States or political subdivisions thereof, options may be given for a period not exceeding forty-five (45) days from the date of the offer or from the final date for the filing of offers.

13. Quotations may also be given for a period of not exceeding fourteen (14) days. If the applicable minimum price is increased beyond the quoted price within such fourteen (14) days and the quotation shall not have been accepted at that time, the quotation thereupon shall become null and void.

14. Every quotation and option shall provide that it is made subject to the provisions of the Marketing Rules and Regulations of the Coal Commission.

15. All quotations and options must be made or confirmed in writing. Every Code Member, or his sales agent, shall require of his offeree that the acceptance of a quotation or the exercise of an option be in writing.

Section VI. Terms of Payment

1. The price and fair trade practice provisions of the Act shall not be evaded or violated by a Code Member, or his sales agent, through the use of terms of payment, and in no instance shall terms of payment be more favorable than the following:

(A) On rail, river, ex-river, or truck shipments, the date of payment of invoices for coal sold shall be on or before the twentieth day of the month following the month in which shipment was made.

(B) On tidewater cargo shipments the date of payment shall be not more than thirty (30) days from date of vessel bill of lading, and where coal is sold f. o. b. mines for tidewater cargo shipment, on or before the twentieth day of the month following the month in which the coal is dumped.

(C) Payment for all tidewater Bunker coal supplied for foreign vessels shall be by cash on delivery or by master's draft on owners in United States currency at not exceeding fifteen (15) days' sight at supplier's option. When drafts are accepted in payment, all bank charges for collection, exchange, etc., shall be for owner's account. Payment for tidewater bunker coal supplied for American vessels shall be made on or before the twentieth day of the month following delivery.

Payment for coal shipped for vessel fuel, and delivered into vessels at ports on the Great Lakes or tributary waters thereof, shall be made on or before the twentieth (20th) day of the month following such delivery.

(D) On lake cargo shipments, the date of payment shall be not more than sixty (60) days from the date of vessel bill of lading, and where coal is sold f. o. b. mines for lake cargo shipments, on or before the twentieth (20th) of the second month following the month in which dumped.

(E) On all coal sold to railroads, the date of payment shall be on or before the twenty-fifth (25th) day of the month following the date of shipment.

(F) Invoices shall be paid in full in United States currency, or funds equivalent thereto, not later than the due date.

(G) No portion of the sale price may be withheld by agreement between the buyer and the seller based upon any unadjusted claim of the buyer.

(H) No sale, delivery, or offer for sale of coal shall be made upon any condition, express or implied, that any portion of the sale price may be withheld by the buyer, or deposited in escrow, pending or based upon a determination of the constitutionality of any provision of the Act, of the jurisdiction of the Coal Commission, or the validity or applicability of any order of the Coal Commission.

(I) Where payment is made by note, trade acceptance or other form of indebtedness, or where payment is made under any circumstances after the due date of the account, the seller shall charge and the buyer shall pay interest from and after the due date of the account at the current rate in the locality to which the coal is shipped to the vendee.

(J) Freight on all-rail or ex-river shipments shall not be paid by a Code Member, or his sales agent, except to prepay stations as published in current railway tariffs or on shipments to the United States Government, States or political subdivisions thereof. Where freight is thus prepaid, the amount thereof shall immediately upon receipt of freight bill or notice of sight draft payment, be invoiced to the buyer for immediate payment.

(K) No Code Member shall accept as payment in full for any account for the sale of coal any amount which is less than the applicable minimum price for the quantity of coal involved. Provided, however, that a Code Member may enter into a bona fide general creditors' composition with other creditors of a defaulting purchaser. A copy of such creditor's composition shall be filed with the Statistical Bureau within ten (10) business days from the date of making such composition.

(L) The agreement by a Code Member, expressed or implied, to extend the credit for a period longer than that authorized by these rules and regulations, with the effect of violating the price provisions or the unfair methods of competition of the Act, shall constitute a violation of the Code.

Section VII. Use of Coal Analyses

1. Analyses of coal shall not be utilized by a Code Member, or his sales agent, in selling or offering for sale any coal produced by the Code Member, whether or not the analysis is a term in the offer or sale, unless such Code Member shall have filed with the Statistical Bureau and the District Board for the District in which the coal is produced, a report of the analysis or analyses as used or proposed to be used by him. Such report shall show the following:

(a) The name of the Code Member Producer.

(b) The name of the mine.

(c) The name or geological number of the seam or seams from which the coal is produced.

(d) The name of the size, and, if screened, the dimension or dimensions of the screen or screens over and/or through which the coal is prepared.

(e) Whether the analysis is representative of the entire production of such size of coal, or whether it represents only a portion of such production segregated by selective mining, selective preparation, actual analyses made at the mine, or in any other manner.

(f) That such analysis is representative of the grade and size of the coal as regularly produced by the Code Member and as loaded directly into transportation facilities for shipment to market and that the Code Member is prepared to make deliveries of coal of substantially the quality and character as shown by the analysis.

(g) That each such analysis is not less than a proximate analysis showing moisture content, ash, volatile matter, fixed carbon, sulphur and British thermal units and ash softening temperature.

2. Every analysis used in selling, or offering for sale, any particular kind, quality, or size of coal shall be accompanied by a statement to the effect that a copy of such analysis has been properly filed with the Statistical Bureau, the Coal Commission and the District Board.

3. All reports of analyses so filed shall be subject to inspection at the office of the Statistical Bureau at any time during office hours by any interested person, and may be considered by the District Board and the Coal Commission in determining from time to time proper classifications of the coals produced by the Code Member.

4. A copy of any analysis of the coal of a Code Member made by or on behalf of a consumer and accepted by the Code Member as the basis for an adjustment of price under any contract or spot order shall be filed by the Code Member with the Statistical Bureau, the Coal Commission and the District Board, within five (5) business days after such adjustment is made.

5. From and after the effective date of these Rules and Regulations, no Code Member shall enter into or perform any agreement made upon a penalty or a premium and penalty basis which will permit the sale of coal at an aggregate contract price below the applicable minimum price established by the Coal Commission for the coal sold and delivered upon such agreement subsequent to said effective date: Provided, that where a Code Member has entered into an agreement made upon a penalty or a premium and penalty basis, this rule shall not be considered as affecting any claim that the buyer might otherwise have had for sub-standard preparation or quality under Section X of these Marketing Rules and Regulations.

Section VIII. Resale of Coal Refused in Transit or at Destination

1. Where coal is refused by a consignee in transit or at destination, the Code Member may sell the same at the best obtainable price, provided that in each case the Code Member shall file with the Statistical Bureau, and the District Board for the District in which the coal was produced, within five (5) business days from the date of such resale, a statement giving the following information:

(a) Name of consignee.
(b) Address of the consignee.
(c) Original destination of the coal.
(d) Name of Code Member.
(e) Originating mine.
(f) The grade and size of coal shipped.
(g) Price at which coal sold.
(h) Reasons for the refusal.
(i) Facts resulting from the investigation of the complaint.
(j) Name of ultimate purchaser upon resale.
(k) Address of purchaser upon resale.
(l) Ultimate destination of the coal.
(m) Price received by the seller upon resale.
(n) Amount of commission, if any, paid upon the resale.
(o) A copy of the carrier's notice of refusal or a notice of reconsignment and such other pertinent information and facts as may be offered in proof of the necessity for such resale.
(p) A signed and verified statement that the provisions of the Code and the Marketing Rules and Regulations of the Coal Commission other than as to price have not been violated or evaded.

2. All Code Members shall properly furnish to the District Board and to the Statistical Bureau of the Coal Commission for the District in which the coal originated, full reports of all reconsignments, and shall authorize the carrier making such reconsignments to furnish complete information thereon to such Statistical Bureau.

Section IX. Substandard Preparation or Quality

1. Where any claim of allowance or counterclaim is requested by a buyer for any delivery of coal claimed to be substandard in preparation or quality, or where it is claimed by the buyer that due to an error on the part of the shipper the buyer has incurred additional and extraordinary expense in accepting the shipment, the Code Member or his sales agent may, within a reasonable time after delivery of the coal, make settlement and agree with the buyer upon an amount reasonably to be deducted for such inferior coal or on account of such error, and may accept payment therefor at less than the applicable minimum price: Provided, that in each such case the Code Member shall within five (5) business days after granting such allowance file with the District Board and the Statistical Bureau of the Coal Commission a verified statement giving the following information:

(a) The name and address of the consignee and the reason for the request for the allowance.

(b) The price at which the coal was sold, the tonnage delivered, the name of the mine, the Code Member, the date of shipment, the grade and size of coal, the destination, and the amount of allowance or adjustment made.

(c) Such other pertinent information and facts as may be offered in proof of the necessity for such reduction or allowance.

(d) A statement that the adjustment has not been made with the purpose or intent of evading the price provisions of the Act.

The Code Member shall also file, together with the statement, a written claim duly executed by or on behalf of the buyer and verified by affidavit, setting forth the amount claimed by way of deduction and the reasons for the complaint.

2. All such adjustments and allowances shall be subject to review by the Coal Commission.

Section X. Miscellaneous

General

1. The minimum prices established by the Commission shall not apply to coal sold and shipped outside the domestic market as defined in the Act and in these Marketing Rules and Regulations.

2. Maximum prices established by the Commission shall not apply to coal sold and shipped outside the continental United States.

3. No coal shall be sold or delivered or offered for sale at a price below the minimum or above the maximum therefore established by the Commission, and the sale or delivery or offer for sale of coal at a price below such minimum or above such maximum shall constitute a violation of the Code; Provided, that the provisions of this paragraph shall not apply to a lawful and bona fide written contract entered into prior to June 16, 1933, which has been filed with the Coal Commission.

4. If, in converting a net or gross ton price, freight rate or freight rate differential, the calculation extends to more than 3 decimals, and the 4th decimal is .0005 or more, it shall be added as .001, and if under .0005 it shall be eliminated.

5. All coal shall be sold and invoiced on a price per ton basis, and all coal must be sold and invoiced under the size, price classification and other designation therefor in the price schedule published by the Coal Commission.

6. Failure to file information required by these Marketing Rules and Regulations or the filing of false information, wilfully made, will subject the party failing to file the information required, or the party so filing, to the penalties of the Act and other penalties imposed by law.

Advertising

1. No deduction or allowance from invoice prices shall be granted by any code member or his sales agent to any purchaser for advertising.

2. Code members (or their agents or representatives) either individually or collectively, with or without financial participation by retailers of coal, may conduct advertising campaigns seeking to increase the use of coal. The amount of expenditures incurred by a code member, his agent or representative for advertising shall be subject to review by the Coal Commission as to the good faith of the transaction.

Screening for Buyer's Account

1. The screening of mine run or rescreening of other grades of coal, sold and billed as such, for the buyer's account for the purpose of keeping the resultant products separate in the shipment thereof is prohibited.

Coal Confiscated or Lost in Transit

1. All coal confiscated or lost in transit shall be invoiced to the carrier at not less than the minimum price established for such coal for shipment to the destination and use to which the coal was sold or the established price for sale to the carrier at the place of confiscation or loss, whichever may be the higher.

Revision of Marketing Rules and Regulations

1. These Marketing Rules and Regulations are subject to revision and amendment by further order of the Coal Commission.

Penalties

Section 5 (b) of Bituminous Coal Act:

The membership of any such coal producer in such code and his right to an exemption from the taxes imposed by section 3 (b) of this Act, may be revoked by the Commission upon written complaint by any code member or district board, or any State or political subdivision of a State, or the consumers' counsel, after a hearing, with thirty days' written notice to the member, upon proof that such member has wilfully violated any provision of the code or any regulation made thereunder; and in such a hearing any code member or district board, or any State or political subdivision of a State, or the consumers' counsel, or any consumer or employee, and the Commissioner of Internal Revenue, shall be entitled to present evidence and be heard: Provided, that the Commission, in its discretion, may in such case make an order directing the code member to cease and desist from violations of the code and regulations made thereunder and upon failure of the code member to comply with such order the Commission may apply to a circuit court of appeals to enforce such order in accordance with the provisions of subsection (c) of section 6 or may reopen the case upon ten days' notice to the code member affected and proceed in the hearing thereof as above provided.

Section 5 (c) of Bituminous Coal Act:

Any producer whose membership in the code and whose right to an exemption from the tax imposed by section 3 (b) of this Act shall have been revoked and canceled may apply to the Commission and shall have the right to have his membership in the code restored upon payment by him to the United States of double the amount of the tax provided in section 3 (b) upon the sales price at the mine, or the market value at the mine if disposed of otherwise than by sale at the mine, or if sold otherwise than through an arms' length transaction, of the coal sold or disposed of by the code member in violation of the code or regulations thereunder (but in no case shall such sales price or market value be taken to be less than the minimum price established by the Commission for such coal and in effect at the time of such sale or other disposal), as found by the Commission under subsection (b) hereof. The Commission shall thereupon certify to the Commissioner of Internal Revenue and to the collector of internal revenue for the internal revenue collection district in which the producer resides the amount of the required payment as found under clause (5) of subsection (b), and upon payment of such amount to the Commissioner or the collector such officer shall notify the Commission thereof.

Section 10 (c) of Bituminous Coal Act:

If any producer required by this Act or the code or regulation made thereunder to file a report shall fail to do so within the time fixed for filing the same, and such failure shall continue for fifteen days after notice of such default, the producer shall forfeit to the United States the sum of $50 for each and every day of the continuance of such failure, which forfeiture shall be payable into the Treasury of the United States, and shall be recoverable in a civil suit in the name of the United States, brought in the district where the producer has his principal office or in any district in which he shall do business. It shall be the duty of the various district attorneys, under the direction of the Attorney General of the United States, to prosecute for the recovery of forfeiture.

Section 35 of the Criminal Code as amended by the Act of June 18, 1934, c. 587, 48 Stat. 996 (U. S. C., Title 18, sec. 80):

Whoever shall make or cause to be made or present or cause to be presented, for payment or approval, to or by any person or officer in the civil, military, or naval service of the United States, or any department thereof, or any corporation in which the United States of America is a stockholder, any claim upon or against the Government of the United States, or any department or officer thereof, or any corporation in which the United States of America is a stockholder, knowing such claim to be false, fictitious, or fraudulent; or whoever shall knowingly and willfully falsify or conceal or cover up by any trick, scheme, or device a material fact, or make or cause to be made any false or fraudulent statements or representations, or make or use or cause to be made or used any false bill, receipt, voucher, roll, account, claim, certificate, affidavit, or deposition, knowing the same to contain any fraudulent or fictitious statement or entry, in any matter within the jurisdiction of any department or agency of the United States or of any corporation in which the United States of America is a stockholder shall be fined not more than $10,000 or imprisoned not more than ten years, or both.

Section 37 of the Criminal Code (U. S. C. 88):

If two or more persons conspire either to commit any offense against the United States, or to defraud the United States in any manner or for any purpose, and one or more of such parties do any act to effect the object of the conspiracy, each of the parties to such conspiracy shall be fined not more than $10,000, or imprisoned not more than two years, or both. (R. S. § 5440; May 17, 1879, c. 8, 21 Stat. 4; Mar. 4, 1909, c. 321, § 37, 35 Stat. 1088)

CONCLUSION

It is the conclusion of the Commission that the schedules of proposed minimum prices and marketing rules and regulations submitted to the Commission by the District Boards for Districts Nos. 14 and 15, as amended, corrected, modified or revised, conform to the requirements of Section 4 II (a) of the Act and the same, as amended, corrected, modified, or revised, are hereby approved to serve as a basis for the coordination as provided in Section 4 II (b) of the Act.

By the Commission.

IN THE MATTER OF THE APPLICATION OF THE UNITED CORPORATION

ORDER ALLOWING PETITION TO INTERVENE

The United Corporation, a registered holding company, having filed an application pursuant to Rule U-9C-4 of the Public Utility Holding Company Act of 1935 for approval of an investment program of said applicant, and a petition for leave to intervene in said matter having been filed by Fidelity-Philadelphia Trust Company, Girard Trust Company, Provident Trust Company, The Pennsylvania Company for Insurances on Lives and Granting Annuities, The Insurance Company of North America, Alliance Insurance Company, Philadelphia Fire and Marine Insurance Company, and Indemnity Insurance Company of North America, and it appearing from said petition that each of the aforesaid petitioners is, either in its corporate capacity or in a fiduciary capacity as trustee or agent, the owner of shares of preferred stock (and as to certain of said petitioners, of common stock) of The United Corporation, applicant herein; and

The Commission having heard[1] oral arguments upon said intervening petition, having considered the merits of said petition for leave to intervene and the objections advanced thereto, it appearing to the Commission that the petitioners are security holders with an interest in the subject matter of these proceedings, and said petitioners having at said oral argument waived any right to introduce evidence not already in the record and having waived any right to oral argument in this proceeding, and the Commission being fully informed in the premises;

It is hereby ordered, That the intervening petition of said Fidelity-Philadelphia Trust Company, Girard Trust Company, Provident Trust Company, The Pennsylvania Company for Insurances on Lives and Granting Annuities, The Insurance Company of North America, Alliance Insurance Company, Philadelphia Fire and Marine Insurance Company, and Indemnity Insurance Company of North America to be made parties to the said proceeding be and the same is hereby granted subject to all proceedings heretofore taken herein, and subject to the waiver by said petitioners of any right to introduce evidence not already in the record and subject to the waiver by said petitioners of any right to oral argument in this proceeding.

By the Commission.

IN THE MATTER OF ROBERT E. LANCASTER AN ALIAS USED BY MARTIN A. LEACH AND ROBERT E. LANCASTER & COMPANY, INC., 110 EAST 42ND STREET, NEW YORK, NEW YORK

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING ON THE QUESTION OF REVOCATION AND/OR SUSPENSION OF REGISTRATION

Robert E. Lancaster filed with the Commision on March 6, 1936, an application for registration on Form 1-M pursuant to Rule MA2 of the Rules then governing the over-the-counter markets adopted by the Commission under Sections 15 and 23 of the Securities Exchange Act of 1934; registration became effective on March 18, 1936, in accordance with the Commission's Rules, and by virtue of Section 10 of the Act of Congress approved May 27, 1936, providing for the registration of over-the-counter brokers and dealers, Robert E. Lancaster became registered and is registered under Section 15 (b) of the Securities Exchange Act of 1934, as amended; and

Robert E. Lancaster & Company, Inc., a New York Corporation, filed with the Commission on April 29, 1936, an application for registration on Form 1-M pursuant to Rule MA2 of the Rules aforementioned, and on June 11, 1936, filed a request that the said application be considered as an application for registration as a broker and dealer pursuant to the Securities Exchange Act of 1934, as amended, and the Rules and Regulations adopted by the Commission thereunder; the said application and request were executed on behalf of the corporation by Robert E. Lancaster, its president and one of its directors; registration of said corporation pursuant to Section 15 (b) of the Securities Exchange Act of 1934, as amended, became effective on July 11, 1936 and is still in effect.

The Commission has reasonable grounds to believe:

(1) That the said Robert E. Lancaster is Martin A. Leach who was convicted on or about January 28, 1929, in the State of California of a certain felony or misdemeanor involving the purchase or sale of securities or arising out of the conduct of the business of a broker or dealer and who, until November, 1938, was a fugitive from justice in California on the said conviction.

(2) That the said Martin A. Leach using the name of Robert E. Lancaster willfully made certain statements which were, at the time and in the light of the circumstances under which they were made, false and misleading with respect to material facts in his application for registration, to wit;

(a) Under Item 20, that he had not within the last ten years been convicted of any felony or misdemeanor involving the purchase or sale of securities or arising out of the conduct of the business of

[1] 3 F. R. 2842 DI.

a broker or dealer; whereas, in truth and in fact, as he well knew, he had been so convicted as alleged in paragraph 1 above;

(b) Under Item 22 that he had not used or been known by any name other than Robert E. Lancaster; whereas, in truth and in fact, as he well knew, his real name is Martin A. Leach, and is the person referred to in paragraph 1 above.

(3) That the said Martin A. Leach, using the name Robert E. Lancaster, willfully made and caused to be made in the aforementioned application for registration filed by Robert E. Lancaster & Company, Inc., a New York Corporation, certain statements which were at the time and in the light of the circumstances under which they were made, false or misleading with respect to material facts, to wit:

(a) Under Item 20, that Lancaster, one of the persons named under Item 6 of the application, had not within the last ten years been convicted of any felony or misdemeanor involving the purchase or sale of securities or arising out of the conduct of the business of a broker or dealer; whereas, in truth and in fact, as he well knew, he had been convicted as alleged in paragraph 1 above.

(b) Under Item 22, that Lancaster, one of the persons named under Item 6 of the application, had not used or been known by any name other than Robert E. Lancaster; whereas, in truth and in fact, as he well knew, his real name is Martin A. Leach, the person referred to in paragraph 1 above.

(4) That Robert E. Lancaster (whose real name is Martin A. Leach) is enjoined by decree of the Court of Chancery of the State of New Jersey entered on or about October 15, 1936, from engaging in or continuing certain conduct or practices in connection with the purchase and sale of securities;

(5) That Robert E. Lancaster & Company, Inc., is permanently enjoined by decree of the Supreme Court of the State of New York, County of New York, entered on or about October 20, 1938, from engaging in or continuing certain conduct or practices in connection with the purchase and sale of securities.

(6) That Robert E. Lancaster is enjoined by decree of the Supreme Court of the State of New York, County of Kings, entered on or about May 13, 1935, from engaging in or continuing certain conduct or practices in connection with the purchase and sale of securities.

(7) That it is in the public interest to revoke or suspend registration.

The Commission being of the opinion that it is necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted for the purposes below provided:

It is ordered, That proceedings be held to determine whether the registrations of the said Robert E. Lancaster (whose real name is Martin A. Leach) and Robert E. Lancaster & Company, Inc., should be revoked or suspended pursuant to the provisions of Section 15 (b) of the Securities Exchange Act of 1934, as amended.

It is further ordered, That a hearing for the purpose of taking testimony begin on January 24, 1939, at 10:30 A. M. at the Commission office, 120 Broadway, New York, New York, and that the said hearing be continued at such other time or place as the Commission or the officer conducting such hearing may determine; that for the purpose of said hearing Adrian C. Humphreys be and he is hereby designated as the officer of the Commission to administer oaths and affirmations, subpoena witnesses and compel their attendance, take evidence, require the production of books, papers, correspondence, memoranda and any and all other records deemed relevant or material to the matters in issue at said hearing, and to perform all other duties in connection therewith as authorized by law.

It is further ordered, That this order and notice be served on Martin A. Leach, alias Robert E. Lancaster and Robert E. Lancaster & Company, Inc., personally or by registered mail not less than seven (7) days prior to the time of said hearing or in the event of failure to serve registrants personally or by registered mail that this order and notice be published in the FEDERAL REGISTER in the manner prescribed by the Federal Register Act.

Upon the completion of the taking of testimony in this matter, the officer conducting said hearing is directed to conclude said hearing, make his report to the Commission, and transmit same with a record of the hearing to the Commission.

By the Commission.

[SEAL] FRANCIS P. BRASSOR,
Secretary.

United States of America—Before the Securities and Exchange Commission

At a regular session of the Securities and Exchange Commision, held at its office in the City of Washington, D. C., on the 19th day of December 1938.

IN THE MATTER OF MCCORD RADIATOR AND MANUFACTURING COMPANY 15-YEAR SINKING FUND 6% GOLD DEBENTURES, DUE FEBRUARY 1, 1943, STAMPED TO INDICATE, AMONG OTHER THINGS, EXTENSION OF MATURITY DATE TO FEBRUARY 1, 1948 IN ACCORDANCE WITH "SUPPLEMENTAL AGREEMENT" DATED JULY 31, 1938

ORDER GRANTING APPLICATION

Continuance of unlisted trading privileges on the New York Curb Exchange in the 6% 15-Year Sinking Fund Debenture Gold Bonds, due February 1, 1943, of McCord Radiator and Manufacturing Company having been permitted by action of this Commission on October 1, 1934; and

Said Exchange, pursuant to paragraph (b) of Rule X-12F-2, having applied to this Commission setting forth that there are being effected changes in said security other than those specified in paragraph (a) of said Rule and asking the Commission to determine that said security after said changes is substantially equivalent to the said security heretofore admitted to unlisted trading privileges; and

The Commission having considered the matter;

It is ordered, Pursuant to Section 12 (f) and 23 (a) of the Securities Exchange Act of 1934, as amended, and Rule X-12F-2 (b) promulgated thereunder, that the determination sought by said application is made and the application is hereby granted.

By the Commission.

[SEAL] FRANCIS P. BRASSOR,
Secretary.

[File No. 43-175]

IN THE MATTER OF NEW YORK AND RICHMOND GAS COMPANY

NOTICE OF AND ORDER FOR HEARING

A declaration pursuant to section 7 of the Public Utility Holding Company Act of 1935, having been duly filed with this Commission by the above-named party;

It is ordered That a hearing on such matter be held on January 11, 1939, at 10 o'clock in the forenoon of that day, at the Securities and Exchange Building, 1778 Pennsylvania Avenue, NW., Washington, D. C. On such day the hearing-room clerk in room 1102 will advise as to the room where such hearing will be held. At such hearing, if in respect of any declaration, cause shall be shown why such declaration shall become effective.

It is further ordered, That Willis R. Monty or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice to continue or postpone said hearing from time to time.

Notice of such hearing is hereby given to such declarant or applicant and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before January 6, 1939.

The matter concerned herewith is in regard to a declaration, filed by New York and Richmond Gas Company, a subsidiary of Washington and Suburban Companies, a registered holding company, regarding the reduction of the capital represented by its 150,000 shares of common stock from $1,500,000 to $850,000, without reducing the number of shares outstanding.

The declaration states that the reduction will be effected in the manner prescribed by the laws of the State of New York (including approval by the Public Service Commission of the State of New York), under the laws of which State the declarant is organized.

In addition to the common stock, the declarant has outstanding 19,302 shares of $100 par 6% Cumulative Preferred Stock, and $2,125,000 principal amount of First Refunding Mortgage 6% Bonds dated May 1, 1921, and maturing May 1, 1951.

It is stated that such reduction of capital must be approved by a vote of two-thirds of the outstanding stock of the declarant.

By the Commission.

IN THE MATTER OF ADAMS, NELSON & WILLIAMSON

NOTICE AND ORDER CHANGING OFFICER TO PRESIDE AT HEARING AND DATE OF HEARING

The Commission having heretofore, on November 30, 1938, designated Richard Townsend, an officer of the Commission, to preside at a hearing ordered to be held in the matter of the application of Adams, Nelson & Williamson in Room 1101, Securities and Exchange Building, 1778 Pennsylvania Avenue, N. W., Washington, D. C., on December 28, 1938, at 10:00 A. M.;[1]

It is ordered, That such order of the Commission designating Richard Townsend as an officer to preside at such hearing and fixing the above-named date and place for such hearing is hereby rescinded; and

It is further ordered, That the hearing in this matter be held in Room 1102, Securities and Exchange Commission Building, 1778 Pennsylvania Avenue, N. W., Washington, D. C., on January 9, 1939, at 10:00 A. M.; and

It is further ordered, That Charles S. Lobingier, an officer of the Commission be, and he hereby is, designated to preside at any such hearing and authorized to exercise all powers granted to the Commission under section 18 (c) of the Public Utility Holding Company Act of 1935 and to a trial examiner under the Commission's Rules of Practice to continue or postpone said hearing from time to time.

By the Commission.

UNITED STATES MARITIME COMMISSION.

IN THE MATTER OF APPLICATION OF AMERICAN EXPORT LINES, INC. FOR REDUCTION IN MINIMUM MANNING SCALES FOR CERTAIN OF ITS VESSELS

ORDER FOR HEARING

At a regular session of the United States Maritime Commission, held at its office in Washington, D. C., on the 20th day of December 1938.

Application having been made to the Commission by the American Export Lines, Inc., for a hearing to consider changes in the minimum manning scales for the engine departments of the steamship *Extavia, Exmouth, Examelia, Executive* and *Exhibitor*, and it appearing from said application that said vessels have been altered so as to reduce their power-tonnage from that of Class C to that of Class D, it is hereby

Ordered that a hearing be held upon the application of the American Export Lines, Inc., to determine whether a change should be made in the minimum manning scales for the engine departments of said steamships; and it is further

Ordered that said hearing be conducted by Daniel S. Ring, an officer of this Commission, to commence at 10 a. m., January 4, 1939, at the offices of the Commission, 45 Broadway, New York City, and at such other times and places as said officer may designate; and it is further

Ordered that at the conclusion of said hearing said officer shall submit the record of said hearing, together with his report and recommendations thereon, to the Commission; and it is further

Ordered that public notice of this Order be given by publication in the FEDERAL REGISTER and by posting in the office of the Commission at 45 Broadway, New York City, for at least ten (10) days before the date of the hearing ordered herein.

By the Commission.

1938 AGRICULTURAL CONSERVATION PROGRAM BULLETIN

SUPPLEMENT NO. 19

Pursuant to the authority vested in the Secretary of Agriculture under Sections 7 to 17, inclusive, of the Soil Conservation and Domestic Allotment Act, as amended, the 1938 Agricultural Conservation Program Bulletin, as amended on February 19, 1938,[2] and as amended by Supplements Nos. 3 to 18, inclusive, is hereby further amended as follows:

The definition of "early potato-producing area" in Section XVIII is hereby amended to read as follows:

"Early potato-producing area means all the States in the East Central and Southern Regions, the States of Missouri and Kansas, the counties of Kern, Los Angeles, Riverside, San Bernardino, San Diego, and Santa Barbara in the State of California, the counties of Clark, Floyd, and Harrison in the State of Indiana, and the counties of Dawson and Buffalo in Nebraska."

Done at Washington, D. C., this 21st day of December 1938. Witness my hand and the seal of the Department of Agriculture.

[SEAL] H. A. WALLACE,
Secretary of Agriculture.

[F. R. Doc. 38-3858; Filed, December 21, 1938; 12:21 p. m.]

[Form 38-Tobacco 72—Supp. 1]

PART 724—REGULATIONS PERTAINING TO BURLEY TOBACCO MARKETING QUOTAS FOR THE 1938-39 MARKETING YEAR[1]

SUPPLEMENT 1—AMENDMENTS TO CERTAIN SECTIONS PERTAINING TO THE TRANSFER OF QUOTA.

Sec. 724.61 is amended by striking out paragraph (a) therein and inserting in lieu thereof the following:

"(a) satisfy himself that the authorization for transfer has been duly executed by the operator of the farm from which the transfer is to be made, and, if the transfer is to be made to a farm designated by the county committee, that the farm to which the transfer is to be made has been duly designated by the committee; and that the requested transfer is proper (i. e., that the amount of quota to be transferred from the one farm is available for transfer in accordance with these regulations, and that the transfer to the other farm will not exceed the amount of the unused transfer allotment apportioned to the card on which the transfer is to be entered);"

Sec. 724.62 is amended by striking out the section and inserting in lieu thereof the following:

"SEC. 724.62 *Direct transfers.* (a) Direct transfers shall be made from one farm to another farm designated by the operator of the farm from which the transfer is to be made or from one farm to another farm designated by the county committee pursuant to authority from the operator of the farm from which the quota is to be transferred.

"(b) If the transfer is to be made directly from one farm to another farm designated by the operator of the farm from which the transfer is to be made, the marketing cards for the respective farms, together with the authorization (Form 38-Tobacco 64) of the operator of the farm from which the transfer is to be made, shall be presented, for appropriate entries, to a field assistant or person in the county office authorized to make transfers.

"(c) If the transfer is to be made to a farm which is to be designated by the county committee, the marketing card for the farm from which the transfer is to be made shall be presented to the county committee, together with the authorization (Form 38-Tobacco 64, with insertions necessary to accommodate the form to this use) of the operator of the farm from which the transfer is to be made, empowering the committee to designate the farm to which the transfer is to be made, and to arrange the transfer without consideration. Quota made available for transfer in this manner shall be distributed among farms in such manner and in such amounts as seems fair and equitable to the county committee. Producers desiring to obtain quota made available in this manner shall make application to the county committee therefor, and shall present the marketing cards for their farms to the county committee. If, in its discretion and within the limits of the rules governing transfer of quota, the county committee determines to designate the farm of any producer applying for a transfer, it shall execute on the back of the authorization form a statement of its designation of the farm to which the transfer is to be made. The marketing cards for the respective farms, together with the authorization, shall then be presented by the county committee, for appropriate entries, to a person in the county office authorized to make transfers."

Sec. 724.63 is amended by adding at the end thereof the following paragraph:

"(e) Quota available for transfer through the county office transfer book of one county may, with the approval of the State office of the State or States wherein are located the counties involved, be transferred to the county office transfer book of another county upon payment of the amount of the deposits made for the quota (i. e., 5 cents per pound) requested in such other county. A record of such transfer shall be made by the execution of Form 38-Tobacco 65 and the making of appropriate entries in the respective county office transfer books."

Sec. 724.65 is amended by adding at the end thereof the following paragraph:

"(c) If the transfer is made directly between farms as the result of the designation of the county committee, no money or other valuable consideration shall be charged to or received from any producer on account of such transfer; but no such transfer shall be made unless all the producers on the farm from

[1] 3 F. R. 563, 1939 DI.
[2] 3 F. R. 563 DI.

[1] 3 F. R. 2848 DI.

which quota is to be transferred have consented thereto."

Sec. 724.67 is amended by adding at the end thereof the following sentence:

"If the quota transferred to the farm is acquired from quota made available for transfer, without consideration, to farms designated by the county committee, each producer on the farm shall have the same proportionate right in the quota so transferred as he had in the quota established for the farm as provided in Sec. 724.36 of these regulations."

Done at Washington, D. C., this 22d day of December, 1938. Witness my hand and seal of the Department of Agriculture.

[SEAL] H. A. WALLACE,
Secretary of Agriculture.

[F. R. Doc. 38-3873; Filed, December 22, 1938; 12:23 p. m.]

[Form 38-Tobacco 69—Supp. 1]

PART 726—REGULATIONS PERTAINING TO FIRE-CURED AND DARK AIR-CURED TOBACCO MARKETING QUOTAS FOR THE 1938-39 MARKETING YEAR [1]

SUPPLEMENT 1—AMENDMENTS TO CERTAIN SECTIONS PERTAINING TO THE TRANSFER OF QUOTA

Sec. 726.61 is amended by striking out paragraph (a) therein and inserting in lieu thereof the following:

"(a) satisfy himself that the authorization for transfer has been duly executed by the operator of the farm from which the transfer is to be made, and, if the transfer is to be made to a farm designated by the county committee, that the farm to which the transfer is to be made has been duly designated by the committee; and that the requested transfer is proper (i. e., that the amount of quota to be transferred from the one farm is available for transfer in accordance with these regulations, and that the transfer to the other farm will not exceed the amount of the unused transfer allotment apportioned to the card on which the transfer is to be entered);"

Sec. 726.62 is amended by striking out the section and inserting in lieu thereof the following:

"SEC. 726.62 *Direct transfers.* (a) Direct transfers shall be made from one farm to another farm designated by the operator of the farm from which the transfer is to be made or from one farm to another farm designated by the county committee pursuant to authority from the operator of the farm from which the quota is to be transferred.

"(b) If the transfer is to be made directly from one farm to another farm designated by the operator of the farm from which the transfer is to be made, the marketing cards for the respective farms, together with the authorization (Form 38-Tobacco 66) of the operator of the farm from which the transfer is to be made, shall be presented, for appropriate entries, to a field assistant or person in the county office authorized to make transfers.

"(c) If the transfer is to be made to a farm which is to be designated by the county committee, the marketing card for the farm from which the transfer is to be made shall be presented to the county committee, together with the authorization (Form 38-Tobacco 66, with insertions necessary to accommodate the form to this use) of the operator of the farm from which the transfer is to be made, empowering the committee to designate the farm to which the transfer is to be made, and to arrange the transfer without consideration. Quota made available for transfer in this manner shall be distributed among farms in such manner and in such amounts as seems fair and equitable to the county committee. Producers desiring to obtain quota made available in this manner shall make application to the county committee therefor, and shall present the marketing cards for their farms to the county committee. If, in its discretion and within the limits of the rules governing transfer of quota, the county committee determines to designate the farm of any producer applying for a transfer, it shall execute on the back of the authorization form a statement of its designation of the farm to which the transfer is to be made. The marketing cards for the respective farms, together with the authorization, shall then be presented by the county committee, for appropriate entries, to a person in the county office authorized to make transfers."

Sec. 726.63 is amended by adding at the end thereof the following paragraph:

"(e) Quota available for transfer through the county office transfer book of one county may, with the approval of the State office of the State or States wherein are located the counties involved, be transferred to the county office transfer book of another county upon payment of the amount of the deposits made for the quota (i. e., 2 cents per pound) requested in such other county. A record of such transfer shall be made by the execution of Form 38-Tobacco 67 and the making of appropriate entries in the respective county office transfer books."

Sec. 726.65 is amended by adding at the end thereof the following paragraph:

"(c) if the transfer is made directly between farms as the result of the designation of the county committee, no money or other valuable consideration shall be charged to or received from any producer on account of such transfer; but no such transfer shall be made unless all the producers on the farm from which quota is to be transferred have consented thereto."

Sec. 726.67 is amended by adding at the end thereof the following sentence:

"If the quota transferred to the farm is acquired from quota made available for transfer, without consideration, to farms designated by the county committee, each producer on the farm shall have the same proportionate right in the quota so transferred as he had in the quota established for the farm as provided in Sec. 726.36 of these regulations."

Done at Washington, D. C., this 22d day of December, 1938. Witness my hand and seal of the Department of Agriculture.

[SEAL] H. A. WALLACE,
Secretary of Agriculture.

[F. R. Doc. 38-3874; Filed, December 22, 1938; 12:23 p. m.]

TITLE 24—HOUSING CREDIT

FEDERAL HOME LOAN BANK BOARD

AMENDMENT TO THE RULES AND REGULATIONS FOR THE FEDERAL HOME LOAN BANK SYSTEM

PROVIDING THAT THE APPOINTMENT AND COMPENSATION OF ATTORNEYS OF EACH BANK SHALL BE SUBJECT TO THE SPECIFIC APPROVAL OF THE BOARD; AND PROVIDING THAT PERSONS WORKING FOR A BANK SHALL NOT ACT IN ANY CAPACITY FOR INSTITUTIONS ELIGIBLE FOR BANK MEMBERSHIP

Be it resolved, That pursuant to authority vested in the Federal Home Loan Bank Board by sections 12 and 17 of the Federal Home Loan Bank Act (12 U. S. C. 1432 and 1437), paragraph a of section 2.005 of the Rules and Regulations for the Federal Home Loan Bank System is hereby amended to read as follows:

"PAR. a. *Selection and compensation.* The election of the officers of a Bank shall be in accordance with the by-laws of such Bank. Each Bank may select, employ and fix the amount and form of compensation of each of its officers and legal counsel, subject to the approval of the Board. Each Bank may select, employ and fix the amount and form of compensation of all other employees and agents within the limits set forth in its approved budget. No full-time officer, employee or attorney of any Bank shall act in any capacity for any institution that is a Bank member or is of a type which is eligible for Bank membership without the approval of the Board. The Board disapproves the practice of nepotism in the selection of personnel. A bonus not exceeding $10 in any one year may be awarded to any one person."

Adopted by the Federal Home Loan Bank Board on December 20, 1938.

[SEAL] R. L. NAGLE,
Secretary.

[F. R. Doc. 38-3862; Filed, December 22, 1938; 9:41 a. m.]

TITLE 29—LABOR

WAGE AND HOUR DIVISION

PART 526—REGULATIONS APPLICABLE TO INDUSTRIES OF A SEASONAL NATURE PURSUANT TO SECTION 7 (B) (3) OF THE FAIR LABOR STANDARDS ACT OF 1938

The following amendment to Regulations—Part 526—(Regulations Applicable to Industries of a Seasonal Nature Pursuant to Section 7 (b) (3) of the Fair Labor Standards Act of 1938) [1] is hereby issued. Said amendment to Part 526 amends Section 526.90 by extending the period of the temporary exemption for industries of a seasonal nature from December 31, 1938, until January 31, 1939. Said amendment shall become effective upon my signing the original and upon the publication thereof in the FEDERAL REGISTER and shall be in force and effect until repealed by regulations hereafter made and published by me.

Signed at Washington, D. C., this 20th day of December 1938.

ELMER F. ANDREWS,
Administrator.

SECTION 526.90 TEMPORARY REGULATION OF ADMINISTRATOR RELATING TO EXEMPTIONS FOR INDUSTRIES OF A SEASONAL NATURE UNDER SECTION 7 (B) (3) OF THE FAIR LABOR STANDARDS ACT

(a) Subject to objection by any person interested as hereinafter provided in paragraph (d), the Administrator (without prejudice to the possible subsequent inclusion of other industries as of a seasonal nature within the meaning of Sec. 526.3) temporarily until January 31, 1939, finds the following industries to be of a seasonal nature:

Industries which both:

(1) Engage in the handling, extracting, or processing of materials during a season or seasons occurring in regularly, annually recurring part or parts of the year; and cease production, apart from the work of maintenance, repair, and clerical employees, in the remainder of the year because of the fact that, owing to climate or other natural conditions, the materials handled, extracted, or processed in the form in which such materials are handled, extracted, or processed, are not available in the remainder of the year; and which

(2) Produce 50 per cent or more of their annual output in a period or periods amounting in the aggregate to not more than 14 work weeks.

(b) Such industries may, until January 31, 1939, for a period or periods of not more than 14 work weeks in the aggregate, employ employees 12 hours in any workday and 56 hours in any work week without payment of time and one-half: *Provided, however,* That such employees receive compensation for employment in excess of 12 hours in any workday, or for employment in excess of 56 hours in any work week, as the case may be, at a rate not less than one and one-half times the regular rate at which they are employed. Industries seeking exemption beyond January 31, 1939 must make application pursuant to Section 526.4.

(c) Any employer, group of employers, or trade association representing employers, who are not a part or the whole of an industry within the terms of Paragraph (a) because 50 per cent or more of the annual output is not produced within a period or periods of 14 work weeks, or who are in doubt as to whether they are a part or the whole of such industry, should make application to the Administrator for exemption in accordance with the Administrator's regulations Sections 526.1–526.7.

(d) Any employee, or group of employees, who are employed by an employer or employers claiming to be a part or the whole of an industry within the terms of Paragraph (a) of this section, or any employee labor organization representing such employees, or any other person interested, may make written objection to the Administrator and request a hearing on the ground that such employer or employers are not entitled to exemption as a part or the whole of an industry of a seasonal nature.

If objection and request for hearing is received, the Administrator or his authorized representative will hold a hearing and any further proceedings in accordance with the procedure set forth in Sections 526.6–526.7.

The finding of the Administrator or his authorized representative following such procedure shall be published in the same manner and have the same force and effect as if the hearing had been had upon application for exemption under Section 526.4, and the exemption upon a finding of an industry of a seasonal nature shall become effective in accordance with the provisions of Sections 526.6–526.7: *Provided, however,* That if the industry is within the terms of Paragraph (a) of this Section, the finding of the Administrator or his authorized representative shall so state, and the exemption upon such finding shall be effective as of October 24, 1938.*

TITLE 30—MINERAL RESOURCES

NATIONAL BITUMINOUS COAL COMMISSION

[Order No. 255]

AN ORDER AMENDING ORDER NO. 253 AS SUPPLEMENTED BY ORDER NO. 254 PROVIDING FOR COORDINATION OF MINIMUM PRICES AND RULES AND REGULATIONS INCIDENTAL TO SALE AND DISTRIBUTION OF COAL BY CODE MEMBERS BY DISTRICT BOARDS FOR DISTRICTS NOS. 14, 16, 17, 18, 19, 20, 22 AND 23

Pursuant to Act of Congress entitled "An Act to regulate interstate commerce in bituminous coal, and for other purposes" (Public, No. 48, 75th Cong., 1st Sess.), known as the Bituminous Coal Act of 1937, the National Bituminous Coal Commission hereby orders and directs:

1. That Paragraph VII of Section 4 of Order No. 253, as supplemented by Order No. 254 [1] be and the same is hereby amended by adding thereto the following:

"The shipment of any size and grade of coal into a consuming market area in the calendar year 1937, as reflected in such Commission D-1 and D-2 Forms and in the other competent data shall prima facie establish that such coal is a competitive coal in such consuming market area: *Provided, however,* That if the District Boards shall determine that any tonnage of any size and grade of coal shipped into any consuming market area in 1937 from a particular district is of such an unsubstantial amount as to indicate that such coal is in fact not a competitive coal in said market, no proposal of a coordinated minimum price shall be made therefor for shipment into such market: *Provided, further,* If the District Boards shall determine from competent data with respect to the movement of any tonnage into a consuming market area for a period other than the year 1937 that any size and grade of coal, not reflected in the 1937 tonnage distribution, is actually competitive in such consuming market area, the Boards shall propose a coordinated minimum price for such coal and shall determine the tonnage of such coal for inclusion in the calculation of the price area return from such competent evidence as may be available."

[1] 3 F. R. 2534 DI.

* This section 526.90, as amended December 20, 1938, issued under the authority contained in Section 7 (b) (3), 52 Stat. 1060.

[1] 3 F. R. 2998, 3059 DI.

2. The Secretary of the Commission is hereby directed to cause a copy of this Order to be published forthwith in the FEDERAL REGISTER, and shall cause copies hereof to be mailed to each code member within the named districts, to the Consumers' Counsel, and to the Secretary of each District Board, and shall cause copies hereof to be made available for inspection by interested parties in each of the Statistical Bureaus of the Commission.

By order of the Commission.

Dated this 21st day of December, 1938.

[SEAL] F. WITCHER MCCULLOUGH,
Secretary.

[F. R. Doc. 38-3878; Filed, December 22, 1938; 12:44 p. m.]

[Order No. 256]

AN ORDER SUPPLEMENTING ORDERS NOS. 253 AND 254, BY DIRECTING DISTRICT BOARDS FOR DISTRICTS NOS. 14, 15, 16, 17, 18, 19, 20, 22, AND 23, TO COORDINATE MINIMUM PRICES AND RULES AND REGULATIONS INCIDENTAL TO SALE AND DISTRIBUTION OF COAL TO SERVE AS BASIS FOR COORDINATION BY SAID DISTRICT BOARDS

DIRECTING SAID DISTRICT BOARDS TO SUBMIT SUCH COORDINATED PRICES AND RULES AND REGULATIONS TOGETHER WITH DATA UPON WHICH THEY ARE PREDICATED; AND ESTABLISHING AND PROMULGATING RULES AND REGULATIONS UNDER WHICH SUCH COORDINATION SHALL BE ACCOMPLISHED

Pursuant to Act of Congress entitled "An Act to regulate interstate commerce in bituminous coal and for other purposes" (Public No. 48, 75th Cong., 1st. Sess.), known as the Bituminous Coal Act of 1937, the National Bituminous Coal Commission hereby orders and directs:

1. That Orders Nos. 253 and 254[1] heretofore issued by the Commission on December 9th and December 17th, 1938, respectively, as amended by Order No. 255 be and the same are hereby supplemented to include the following provisions:

(a) That the District Boards for Districts Nos. 14, 16, 17, 18, 19, 20, 22 and 23, now engaged in coordination proceedings pursuant to the provisions of Orders Nos. 253 and 254, shall forthwith proceed to coordinate the minimum prices and rules and regulations incidental to the sale and distribution of coal, approved by the Commission to serve as the basis for coordination for the respective districts, with the minimum prices and rules and regulations incidental to the sale and distribution of coal approved by the Commission to serve as a basis for coordination for District No. 15, and the District Board for District No. 15 shall forthwith proceed to coordinate with the said Districts Nos. 14, 16, 17, 18, 19, 20, 22 and 23 pursuant to and in the same manner as provided by the provisions of said Orders Nos. 253 and 254 prescribed for said Districts Nos. 14, 16, 17, 18, 19, 20, 22 and 23.

(b) Said District Board No. 15, shall forthwith, by appropriate resolution, designate and appoint one or more persons with power of delegation and substitution to represent said District Board in the work of coordination and fully empower such person or persons to act for said District Board in a meeting with representatives from the other District Boards named in this Order or with the representatives of such of these districts with which District No. 15, competes in common consuming market areas, as determined pursuant to the standards prescribed in Order No. 253, in the offices of the Commission, Washington, D. C., commencing at 10:00 o'clock A. M., on the 4th day of January, 1939.

(c) The provisions of Orders Nos. 253 and 254, and the rules and regulations therein established for the coordination of minimum prices and for the coordination of the rules and regulations incidental to the sale and distribution of coal, be and the same are hereby incorporated herein, to the end that all of the provisions of said Orders Nos. 253 and 254 shall be and the same are hereby declared to be applicable to District Board No. 15 for those consuming market areas common to the districts named herein.

2. The Secretary of the Commission is hereby directed to cause a copy of this Order to be published forthwith in the FEDERAL REGISTER, and shall cause copies hereof to be mailed to each code member within Districts Nos. 14, 16, 17, 18, 19, 20, 22 and 23, to the Consumers' Counsel and to the Secretary of each District Board, and shall cause a copy hereof, together with a copy of said Orders Nos. 253 and 254 to be mailed to each code member within District No. 15, and shall cause copies hereof to be made available for inspection by interested parties in each of the Statistical Bureaus of the Commission.

By order of the Commission.

Dated this 21st day of December, 1938.

[SEAL] F. WITCHER MCCULLOUGH,
Secretary.

TITLE 31—MONEY AND FINANCE: TREASURY

PUBLIC DEBT SERVICE

[1938—Dept. Circ. 530, 2d Rev.]

REGULATIONS GOVERNING UNITED STATES SAVINGS BONDS

DECEMBER 15, 1938.

To Owners of United States Savings Bonds, and Others Concerned:

Department Circular No. 530, Revised,[1] dated December 16, 1936, as amended, is hereby amended, effective January 1, 1939, to read as follows:

The following regulations governing United States Savings Bonds are published for the information and guidance of all concerned:

I. REGISTRATION

1. *General.*—A United States Savings Bond will be issued only in registered form in substantially one of the forms of registration authorized herein. The name and complete post-office address of the owner or owners and designated beneficiary, if any, and the date as of which the bond is issued will be inscribed thereon at the time of issue by an authorized issuing agent.[2] The form of registration used should express the actual ownership of and interest in the bond and, except as otherwise specifically provided in these regulations, the Treasury Department reserves the right to treat as conclusive the ownership of and interest in the bond expressed in the registration. No designation of an attorney, agent, or other representative to request or receive payment on behalf of the owner may be made in the registration; for example, registration in the form "John G. Brown, payable to David R. Green, attorney in fact" will not be permitted. Registration will not be permitted in a form which purports to restrict the right of the owner or other person named in the registration to receive payment of the bond in accordance with these regulations; for example, registration in the form "John S. Smith, under Article 10 of the will of Henry A. Jones", or "John S. Smith, legal guardian of Miss Mary B. Jones, subject to the order of the probate court of Washington County", will not be permitted.

2. *Forms of registration.*—The following forms of registration are authorized:

(a) *Natural persons (individuals).*—In the names of natural persons (individuals), whether adults or minors, in their own right, as follows:

(1) In the name of one person, as for example, "John A. Jones".

(2) In the names of two (but not more than two) persons in the alternative, as for example, "John A. Jones OR Mrs. Ella S. Jones." No other form of registration establishing coownership as between natural persons (individuals) in their own right is authorized.

(3) In the name of one person, payable on death to a single designated beneficiary in his own right, as, for example, "John A. Jones, payable on death to Miss Mary E. Jones." Only a natural person (an individual) may be designated as a beneficiary.

The full name of the owner, and that of the coowner or beneficiary, if any, should be given; except that if there are two given names an initial may be substituted for one. The name should be preceded by "Mrs." or "Miss" when appropriate and may be preceded by any applicable title such as "Dr.," "Capt.," etc. A married woman's own given name should be used, not that of her husband, for example, "Mrs. Mary A. Jones," not "Mrs. Frank B. Jones." The name of a minor for whose estate a guardian or other legal representative has been appointed by a court of competent jurisdiction should be followed by the words "a minor under legal guardianship". The name of an incompetent should be followed by the words "an incompetent under legal guardianship" or words of similar import.

(b) *Executors, administrators, guardians, trustees, etc.*—In the names of fiduciaries, as follows:

(1) In the name of one or more executors, administrators, or guardians or other legal representatives of a single estate followed by reference to the estate, as, for example, "John A. Smith, executor of the will (or administrator of the estate) of Henry J. Smith, deceased," or "William C. Jones, guardian (or conservator, curator, committee, etc.) of the estate of James B. Brown, a minor (or an incompetent)." If a guardian or other legal representative holds a common fund for the account of two or more estates, bonds should be registered in the name of the representative for each such estate separately, even though the representative was appointed in a single proceeding. *Registration in the names of natural or voluntary guardians is not authorized.*

(2) In the name of one or more trustees, or other fiduciaries of a single trust estate, followed by reference to the trust instrument, or other authority governing the trust, or by other words clearly identifying the trust, and the name of the persons or organizations who are beneficiaries under the trust, as, for example, "John C. Brown and the First National Bank of Boston, trustees under the will of Henry C. Brown, for the benefit of Mrs. Mary J. Brown," or "The Second National Bank of Salem, trustee under an agreement of trust executed by George E. White, dated February 1, 1935, for the benefit of Mrs. Mary B. White and Miss Ella May White."

The names of all duly qualified executors, administrators, guardians, trustees, or other fiduciaries must be included in the registration: *Provided*, That in the case of unincorporated lodges, churches, societies, or similar organizations the title to whose property is held by trustees, registration may be in their titles, omitting their names, as, for example, "Trustees of the First Baptist Church, Akron, Ohio, an unincorporated association"; *Provided further*, That in cases where the instrument governing the trust establishes a board of trustees acting as a board and not individually, registration may be in the title of the board, as, for example, "Board of Trustees of the Holton Cemetery Association". All beneficiaries of a trust having present interests therein should likewise be named, if possible, except that if they are too numerous two or three of the principal beneficiaries should be named, followed by the words "et al". In any case the Treasury Department may require that the names of all beneficiaries having present interests and the extent of such interests should be furnished. Beneficiaries entitled as remaindermen may be indicated by the words "with remainder over to ----------." If the identity of the beneficiaries cannot be presently ascertained, the class of persons to which they belong may be indicated, or, in the case of a charitable trust, the purpose or object of the trust may be expressed in the registration. In any case the Treasury Department may require a copy of the trust instrument.

(c) *Private corporations and associations.*—In the name of any private organization, whether incorporated or unincorporated, as follows:

(1) A private corporation, followed by the words "a corporation," as, for example, "Smith Manufacturing Company, a corporation."

(2) An unincorporated association, such as a lodge, church, or society, or similar body, followed by the words "an unincorporated association," as, for example, "The Lotus Club, an unincorporated association." The term "an unincorporated association" should *not* be used to designate a trust fund, a partnership, or a business conducted under a trade name but wholly owned by one person.

(3) A partnership, followed by the words "a partnership," as, for example, "Smith and Brown, a partnership."

The full legal name of the corporation, unincorporated association, or partnership, as the case may be, should be given in the registration. No officer or member of the organization may be named in the registration. Reference may be made, if desired, to a particular fund, as for example, "Lafayette Post No. 1, The American Legion (Building Fund), an unincorporated association."

(d) *States and public corporations.*—In the name of the owner or custodian of public funds, as follows:

(1) Any State or any public corporation, such as a county, city, town, village, or school district, as, for example, "County of Middlesex, Massachusetts," or "Town of Takoma Park, Maryland;"

(2) Any duly constituted public board or commission, as, for example, "Maryland State Highway Commission;"

(3) Any public officer, designated by title only, as, for example, "Treasurer, City of Boston."

The registration should include the full name of the State or public corporation, and may include reference to a particular fund, as, for example, "Treasurer, School District No. 2 of Morris County, Kansas (Cafeteria Fund)."

II. LIMITATION ON TRANSFER

1. *Not transferable.*—A United States Savings Bond is not transferable and is payable only to the owner named thereon except in the case of disability or death of the owner or as otherwise specifically provided herein, but in any event only in accordance with the provisions hereof. Accordingly, a savings bond is not suitable for use as collateral for a loan (see Section XVI).

III. LIMITATION ON HOLDINGS

1. *Amount which may be held.*—Section 22 of the Second Liberty Bond Act, as amended, provides that it shall not be lawful for any one person at any one time to hold savings bonds issued during any one calendar year in an aggregate amount exceeding $10,000 (maturity value). Under this provision any one person may hold up to $10,000 (maturity value) of savings bonds issued during any one calendar year and up to an additional $10,000 (maturity value) issued in any other calendar year (January 1 to December 31), so long as these bonds are offered for sale. In determining whether this limitation is exceeded at any time by any person (including a corporation, an unincorporated association, or a partnership), there must be taken into account the aggregate present interest of that person in the maturity value of all savings bonds issued during any one calendar year, as shown by the issue dates thereon, including, but not limited to:

(a) The entire maturity value of (1) bonds registered in the name of that person and (2) those registered in his name with another named as coowner, and

(b) The extent of his present interest in (1) those held for his benefit by a fiduciary (see paragraph 2 of this section) and (2) those in which he has acquired a present interest because of the death of another or on the happening of any other event.

Bonds of which the person is merely the designated beneficiary in case of the death of the owner, bonds which are held by him in a fiduciary capacity only, or bonds in which he has only a future beneficial interest need not be included.

2. *Calculation of present interest.*—The extent of a person's present interest in bonds held in trust is deemed to be determined by his relative share of the income from the trust, whether such share is payable periodically or is to be accumulated for future distribution, and may be calculated in accordance with the following general rules:

(a) If his share does not exceed a certain fractional part of the entire income from the trust, he will be charged only with a corresponding fractional interest in the bonds.

(b) If he is entitled to the entire income from the trust, or if he is entitled to a stipulated sum or other share which

---

[1] 3 F. R. 2998, 3059 DI.

[1] 3 F. R. 2233 DI.

[2] The date of maturity also will be inscribed on savings bonds of Series D.

may exceed any definite fractional part of the entire income, he must be charged with the entire interest in the bonds.

Where the identity of the beneficiaries of a trust cannot be presently determined, or where the trust is charitable in nature with indefinite beneficiaries, $10,000 (maturity value), but no more, of bonds issued during any one calendar year may be held for the trust.

3. *Disposition of excess holdings.*—If any person at any time acquires an aggregate present interest in savings bonds issued during any one calendar year in an amount exceeding $10,000 (maturity value), he should immediately surrender the excess, which will be redeemed at the redemption value current on the date the excess arose, but at no higher value.

IV. LOST, STOLEN, MUTILATED, DEFACED OR DESTROYED BONDS

1. *Relief.*—A substitute may be issued for, or payment made of, an unmatured savings bond, and payment made of a matured savings bond upon proof of the loss, theft, mutilation, defacement or destruction of the bond. Relief will be granted in such cases only in accordance with the provisions of applicable statutes and will be governed in general by the regulations contained in Department Circular No. 300,[3] as amended. Application for relief on account of loss, theft or destruction should be made only on Form P. D. 1048, copies of which may be obtained from the Treasury Department, Division of Loans and Currency, or from any Federal Reserve bank. In cases of mutilation, defacement or partial destruction Form P. D. 1028 should be used, and the bond or so much thereof as remains should be carefully packed and forwarded to the Treasury Department, Division of Loans and Currency.

2. *Notice of loss, etc.*—The Treasury Department, Division of Loans and Currency, Washington, D. C., should be immediately notified of the loss, theft or destruction of any savings bond, reference being made to the series, year of issue, date and serial number of the bond, and the name and address of the registered owner. If such bond is subsequently recovered immediate notice of recovery should be given to the Department in order that delay may be avoided should the recovered bond be presented for payment.

V. SAFEKEEPING FACILITIES

1. A savings bond will be held in safekeeping without charge by the Secretary of the Treasury if the holder so desires, and in such connection the facilities of the Federal Reserve banks as fiscal agents of the United States will be utilized.[4] Postmasters will not act as safekeeping agents. Arrangements for safekeeping may be made at the time of purchase or subsequently, and postmasters, upon request, will furnish appropriate application blanks (Form P. D. 1423) and envelopes to be used in forwarding bonds for safekeeping. The forwarding will be as the risk of the owner and the use of registered mail is recommended (postage and registration fee to be paid by the sender).

2. Upon receipt of the savings bond the Federal Reserve bank will place it in safekeeping and issue a receipt which, unless delivered in person, will be mailed to the depositor at the address given in the application. The Federal Reserve bank will at any time deliver the bond to the owner or person entitled to possession thereof at his risk and expense upon his application and upon such identification through the return of the safekeeping receipt or otherwise, as may be required.

VI. GENERAL PAYMENT PROVISIONS

1. *General.*—A savings bond will be paid at or after maturity at its full value, or, at the option of the owner, will be redeemed prior to maturity (but not within 60 days after the issue date) at the appropriate redemption value as shown on the face of each bond. In order to secure payment a request for payment must be properly executed and the bond must be presented and surrendered, as provided in the following paragraphs of this section; unless otherwise directed by the Treasury Department, the form of request appearing on the back of the bond should be used.

2. *Execution of request for payment.*—

(a) The registered owner in whose name the bond is inscribed, or such other person as may be entitled to payment under the provisions of these regulations, should go before one of the officers authorized by the Secretary of the Treasury to certify requests for payment (see paragraph 3 below), establish his identity, and in the presence of such officer sign the request for payment in ink or indelible pencil and add his current post-office address. A signature to a request for payment made by mark (X) must be witnessed by at least one person in addition to the certifying officer, and must be attested by an endorsement on the blank line substantially as follows: "Witness to the above signature by mark" followed by the signature and address of the witness.

(b) No request signed in behalf of the owner by an agent or a person acting under a power of attorney will be recognized by the Treasury Department except as specifically provided in Section XVI hereof. If the name of the registered owner or other person entitled to payment, as it appears in the registration or in evidence on file in the Treasury Department, Division of Loans and Currency, has been changed by marriage or in any other legal manner, the signature to the request for payment should show both names and the manner in which the change was made, as, for example, "Miss Mary T. Jones, now by marriage Mrs. Mary T. Smith", or "Jung Smelt, now by court order John Smith". In the case of a change of name other than by marriage, the request must be supported by satisfactory proof of such change unless the evidence is already on file. If the change was made by divorce or other court proceeding the proof may be in the form of a duly certified copy of the court's decree or a certificate by the clerk of the court under court seal.

(c) After the request for payment has been signed by the owner, the certifying officer should complete and sign the certificate provided (see paragraph 4 of this section), and the bond should then be presented and surrendered as provided in paragraph 5 of this section.

(d) *All signatures must be made in ink or indelible pencil.*

3. *Certification of request for payment.*—The request for payment must be signed in the presence of, and be certified by, one of the following officers, who are hereby authorized to certify requests for payment:

(a) *At United States post offices.*—

(1) At any post office of any class: The postmaster, acting postmaster, or inspector in charge; and in addition

(2) At any post office of the first class (main office): The assistant postmaster, superintendent of mails, the postal cashier, superintendent of money orders, money order cashier, assistant cashier, bookkeeper, or foreman, or clerk temporarily in charge of the office; and

(3) At any post office of the second or third class: The assistant postmaster or, if there is none, the clerk temporarily in charge of the office in the absence of the postmaster; and

(4) At any classified branch or station: The superintendent, assistant superintendent, assistant cashier, bookkeeper, or foreman, or, in the absence of all such officials, the clerk temporarily in charge of the branch or station. (For instructions see paragraph 4 (a) and (b) below.)

(b) *At banks and trust companies and branches thereof.*—

(1) Any executive officer of any bank or trust company incorporated in the United States or its organized territories, including officers at domestic or foreign branches who are certified to the Treasury Department as executive officers;

(2) Executive officers of incorporated banks and trust companies in the organized territories and insular possessions of the United States and in the Commonwealth of the Philippines doing business under Federal charter or organized under Federal law;

(3) Executive officers of Federal Reserve banks and branches thereof, including managing directors, assistant managers, cashiers and assistant cashiers; and Federal Reserve agents and assistant Federal Reserve agents;

(4) Executive officers of Federal Land banks;

(5) Executive officers of Federal Home Loan banks.

(For instructions to such officers see paragraph 4 (a) and (c) of this section.)

(c) *United States officials.*—Judges, clerks and deputy clerks of United States courts, including United States courts for the organized territories, insular possessions and the Canal Zone; United States attorneys; United States collectors of customs and their deputies; United States collectors of internal revenue and their deputies; Commanding officers of the United States Army, Navy, Marine Corps and Coast Guard (but only for members of their respective commands).

(For instructions see paragraph 4 (a) of this section.)

(d) *Officers authorized in particular localities.*—In addition to the officers listed above, the following officers are authorized to certify requests for payment of United States Savings Bonds in the localities specified:

(1) Washington, D. C.: certain officers of the Treasury Department;

(2) Alaska: Governor, Treasurer and United States Commissioners;

(3) Canal Zone: Governor, paymaster or acting paymaster, collector or acting collector, the Panama Canal, and also postmasters and acting postmasters in the Bureau of Posts;

(4) Commonwealth of the Philippines: Treasurer of the Commonwealth and the City Treasurers of Manila and Baguio; Judges and clerks of courts of record whose signatures and official positions are certified by the Secretary of Justice;

(5) Guam and American Samoa: Governors, and Naval and Marine officers authorized to administer oaths for naval justice and administration;

(6) Hawaii: Governor and Treasurer;

(7) Puerto Rico: Governor and Treasurer;

(8) Virgin Islands: Governor and Commissioner of Finance.

(For instructions for such officers see paragraph 4 (a) of this section.)

(e) *In foreign countries.*—In a foreign country requests for payment may be signed in the presence of and certified by any United States diplomatic or consular representative, or the manager (or other executive officer in charge) or the assistant manager of a foreign branch of a bank or trust company incorporated in the United States. If such an officer is not available, requests for payment may be signed in the presence of and certified by a notary or other officer authorized to administer oaths, but his official character and jurisdiction must be certified by a United States diplomatic or consular officer under the seal of his office.

(For instructions see paragraph 4 (a) below.)

(f) *Special provision.*—In the event none of the officers authorized to certify requests for payment of savings bonds is readily accessible, the Commissioner of the Public Debt is authorized to make special provision for any particular case.

4. *Instructions to certifying officers.*—

(a) *In General.*—Certifying officers should require positive identification of the person executing the request for payment as the person whose name appears on the face of the bond as owner, or the person entitled to payment under the provisions of these regulations, and will be held fully responsible therefor. In all cases the certifying officer must affix to the request for payment his official signature, title, address and seal and the date of execution. If the officer does not possess an official seal, that fact should be made known and attested. Special instructions to post office officials and bank officers follow in subparagraphs (b) and (c), respectively.

(b) *Post office officials.*—If any designated post-office officials other than a postmaster, acting postmaster, or inspector in charge of an office certifies a request for payment, he should certify in the name of the postmaster, acting postmaster, or inspector in charge, followed by his own signature and official title, as, for example, "John Doe, postmaster, by Richard Roe, postal cashier". In the case of a clerk in charge of an office, branch, or station, the official title should be followed by the name of such office, branch, or station, as, for example, "John Doe, postmaster, by Richard Roe, clerk in charge, Main Street Station". The certification of any post-office official must be authenticated by a legible imprint of a dating stamp of his post office.

(c) *Bank officers.*—(1) At the principal office of an incorporated bank or trust company, the signature of the certifying officer should be authenticated by a legible impression seal of the bank or trust company; (2) At a branch, if the corporate seal is not available, the signature of the certifying officer and his official title should be certified to the Treasury Department, Division of Loans and Currency, by the parent bank or trust company under its seal, unless such certificate is already on file in that division.

5. *Interested person not to certify.*—No person authorized to certify requests for payment may certify a request for payment of a bond of which he is the owner, or in which he has an interest, either in his own right or in any representative capacity.

6. *Presentation and surrender.*—After the request for payment has been duly executed by the owner and the certifying officer as above provided, the bond must be presented and surrendered as follows:

(a) If a savings bond is registered in the name of a natural person (individual) in his own right (see Section I, paragraph 2 (a)), in the name of a private organization in its own right (see Section I, paragraph 2 (c)), or in the name of a state, public corporation, public board or commission, or public officer (see Section I, paragraph 2 (d)), and payment is to be made to the registered owner, the bond, after the request for payment has been duly executed as above provided, should be presented and surrendered to a Federal Reserve bank,[5] or to the Treasurer of the United States, Washington, D. C.

(b) If a savings bond is registered in the name of a fiduciary (see Section I, paragraph 2 (b)), or if payment is to be made to any person other than the registered owner, the bond, after the request for payment has been duly executed as above provided, should be presented and surrendered to the Treasury Department, Division of Loans and Currency, Washington, D. C., or to a Federal Reserve bank.

(c) In all cases presentation will be at the expense and risk of the owner, and, for his protection, the bonds should be forwarded by registered mail if not presented in person. Payment will be made by issuance of a check drawn to the order of the registered owner or other person entitled to payment and mailed to him at the address given in his request for payment.

7. *Partial redemption.*—A savings bond in a denomination other than $25 may be redeemed in part at the appropriate redemption value corresponding to any authorized denomination or denominations, upon presentation and surrender of the bond in accordance with the provisions of this section. In any such case before the request for payment is executed the first sentence of the request should be amended (with pen and ink or typewriter) by adding in the blank space provided: "to the extent of the current redemption value of $_____ maturity value", inserting the proper maturity value. Upon payment of a savings bond in part the remainder will be reissued, subject to the provisions of Section XVII hereof.

VII. MINORS

1. *Payment to legal guardians.*—If a savings bond is registered in the name of a minor for whose estate a guardian or other legal representative has been appointed by a court of competent jurisdiction or is otherwise legally qualified, and if the Treasury Department is properly advised of such fact, payment will be made only to such guardian, or other legal representative. In any such case the request for payment appearing on the back of the bond should be signed by the guardian or other representative as such, as, for example, "John A. Jones, guardian of the estate of Henry W. Smith, minor". The request for payment must be supported by proof of the rep-

[2] 3 F. R. 2233 DI.
[3] F. R. 1566 DI.
[4] For a list of the Federal Reserve banks, see footnote 5.
[5] The Federal Reserve banks are located at Boston, Mass.; New York, N. Y.; Philadelphia, Pa.; Cleveland, Ohio; Richmond, Va.; Atlanta, Ga.; Chicago, Ill.; St. Louis, Mo.; Minneapolis, Minn.; Kansas City, Mo.; Dallas, Texas; and San Francisco, Calif.

resentative's authority. Such proof may consist of a court certificate, or a certified copy of the representative's letters of appointment, issued by the court having jurisdiction. The certificate, or the certification to the letters, must be under the seal of the court, must contain a statement that the appointment is in full force, and should be dated within six months of the date of presentation of the bonds for payment. For requests for payment where the representative is a corporation see Section XI–2.

2. *Payment to minor.*—If the Treasury Department has not been properly advised that a guardian or other legal representative of the estate of a minor owner of a savings bond has been appointed or is otherwise legally qualified, payment will be made direct to such minor owner, provided such minor is, at the time payment is requested, of sufficient competency and understanding to sign his name to the request and to comprehend the nature of such act. In general, the fact that the request for payment has been signed by the minor and duly certified in accordance with Section VI hereof will be accepted as sufficient proof of such competency and understanding. If such minor owner is not of sufficient competency and understanding to execute the request for payment, payment will be made to either parent of the minor with whom he resides, or if not residing with either parent, then to the person with whom he does reside. The parent or such other person should sign the request for payment in his own name, in behalf of the minor, and a certificate in substantially the following form:

I certify that I am the _____ (State relationship) of John C. Jones and the person with whom he resides. He is _____ years of age and is not of sufficient competency and understanding to sign this request.

should be typed or written on the back of the bond and signed by the person requesting payment. The Treasury Department may in any particular case require further proof that the minor is not of sufficient competency and understanding to execute the request for payment.

VIII. DISABILITY OF OWNERS

1. *Payment to legal guardian.*—If the owner of a savings bond has been judicially declared to be incompetent to manage his affairs and the Treasury Department has been properly advised that a guardian or other legal representative of his estate has been appointed by a court of competent jurisdiction, payment will be made only to such guardian or other legal representative. In this case the request for payment should be signed: "Thomas S. Gray, guardian (curator, conservator or committee as the case may be) of the estate of Benjamin W. Smith, an incompetent." The request for payment must be supported by proof of the representative's authority. Such proof may consist of a court certificate or a certified copy of the representative's letters of appointment, issued by the court having jurisdiction. The certificate, or the certification to the letters, must be under the seal of the court, must contain a statement that the appointment is in full force, and should be dated within six months of the date of presentation of the bond for payment. For requests for payment where the representative is a corporation see Section XI–2.

2. *Payment to voluntary guardian.*—In any case where the owner of a savings bond has been judicially declared incompetent, or his incompetency, in the opinion of the Secretary of the Treasury, is otherwise established and no guardian or other legal representative of his estate has been appointed or is otherwise legally qualified, and the entire gross value of his personal estate does not exceed $500, payment will be made to a member of his family standing in the position of voluntary guardian, upon presentation of proof satisfactory to the Secretary of the Treasury that the proceeds of the bonds are required, and are to be used, for the purchase of necessaries for the incompetent or for his wife or minor children or other persons dependent upon him for support. Form P. D. 1461, copies of which may be obtained from the Treasury Department, Division of Loans and Currency, Washington, D. C., or any Federal Reserve bank, may be used in making application. The request for payment should not be executed, nor the bond presented, until the application has been approved and instructions have been given by the Treasury Department.

IX. COOWNERS

1. *Payment or reissue.*—A savings bond registered in the names of two persons as coowners, as, for example, "John A. Jones OR Mrs. Mary C. Jones", will be paid or reissued as follows:

(a) The bond will be paid (*but not reissued*) to either coowner, until the Treasury Department has received notice of his death, upon his individual request without requiring the signature of the other coowner on the bond; and upon payment to either coowner the other person shall cease to have any interest in the bond. If the request is signed by both coowners, and duly certified, payment will be made by check drawn to the order of both, in the form, for example, "John A. Jones and Mrs. Mary C. Jones".

(b) After the Treasury Department has received notice of the death of one coowner who has not requested payment and presented the bond for payment to a Federal Reserve bank or the Treasury Department, a bond so registered will be paid only to the surviving coowner upon his request. Upon proof of the death of one coowner and appropriate request by the surviving coowner, it may be reissued in the name of such survivor alone, or in his name payable on death to a single designated beneficiary. If a coowner dies after he has properly executed the request for payment and after the bond has actually been received for payment by a Federal Reserve bank or the Treasury Department, payment of the bond or check, if one has been issued, will be made to the estate of such deceased coowner. (See Section XIV for the person entitled in such a case.)

(c) After the death of both coowners, a bond so registered will be paid or may be reissued as though it had been registered in the name of the last deceased coowner alone. (See Section XIV.)

X. BENEFICIARIES

1. *Payment during life of registered owner.*—A savings bond registered in the name of one person as owner, payable on death to another person as beneficiary, as, for example, "Henry W. Ash, payable on death to John C. Black", will be paid to the registered owner, until the Treasury Department has received notice of his death, upon his request, as if the beneficiary were not named on the savings bond. If the beneficiary should predecease the registered owner, the bond will be paid as though no beneficiary had been named in the registration.

2. *Reissue during life of registered owner.*—A savings bond registered in the name of one person payable on death to a designated beneficiary may not be reissued during the life of such beneficiary so as to eliminate his name. If such beneficiary should predecease the registered owner, the bond may, upon appropriate request by the registered owner, and proof of the death of the beneficiary, be reissued in the name of the registered owner alone, or in his name payable on death to a new beneficiary.

3. *Payment or reissue to beneficiary.*—Upon proof of the death of the registered owner and proof of the survivorship of the beneficiary, the bond will be paid only to the latter or may, upon appropriate request, be reissued in his name alone or in his name payable on death to a single designated beneficiary: *Provided*, That if the registered owner dies after he has properly executed the request for payment and after the bond has actually been received for payment by a Federal Reserve bank or the Treasury Department, payment of the bond or check, if one has been issued, will be made to the estate of such deceased registered owner. (See Section XIV for the person entitled in such a case.)

4. *Payment or reissue after death of owner and later death of beneficiary.*—Upon proof of the death of the registered owner and of the subsequent death of the beneficiary, the bond will be paid or may be reissued as though the beneficiary had been the registered owner. (See Section XIV.)

5. *Reissue to add a beneficiary.*—A savings bond registered in the name of one natural person (an individual) not under any legal disability, upon appropriate request by such person, may be reissued in whole or in part, in authorized denominations only, in his name payable on death to a single designated beneficiary.

XI. FIDUCIARIES

1. *Payment to fiduciary named on bond.*—A savings bond registered in the name of a fiduciary will be paid to such fiduciary without proof of his authority upon presentation of the savings bond with the request for payment duly signed by him and certified in accordance with Section VI hereof. The request for payment should be signed by the fiduciary in exactly the same manner as his name and designation as fiduciary appear on the face of the savings bond.

2. *Corporate fiduciaries.*—A request for payment before maturity executed on behalf of a corporate fiduciary must be authorized by a resolution of the governing body of the corporation or by a standing bylaw, a certified copy of which must be filed with the Treasury Department, Division of Loans and Currency, Washington, D. C., unless already on file.

3. *Payment or reissue to successors.*—A savings bond registered in the name of a fiduciary who is no longer acting as such will be paid to, or reissued in the name of, a succeeding fiduciary, upon appropriate request and satisfactory proof of his successorship.

4. *Boards of trustees.*—A savings bond registered in the name of a board of trustees will be paid to such board upon a request for payment signed in the name of the board, executed by an officer or agent thereof authorized by resolution of the board, a certified copy of which must be filed with the Treasury Department, Division of Loans and Currency, unless already on file.

5. *Trustees of lodges, etc.*—A savings bond registered in the titles, without the names, of trustees of an unincorporated lodge, church, society, or other similar organization will be paid to the trustees of such organization for the time being, upon appropriate request by them as such trustees, and satisfactory proof of their incumbency.

6. *Payment or reissue upon termination of trust.*—A savings bond held by a fiduciary to which a beneficiary has become entitled, in whole or in part, under the terms of the trust, will be paid to such beneficiary or reissued in his name, in authorized denominations only, to the extent of his interest, upon the request of the fiduciary and his certification that such person is entitled to payment or reissue in his name and has agreed thereto: *Provided*, That a request for reissue in the name of a fiduciary individually must be supported by an order of court or other satisfactory proof that he is the person entitled, unless it is shown that at least one cofiduciary joining in the request has no beneficial interest in the trust. If there is no fiduciary acting, such payment or reissue will be made upon the request of the persons beneficially entitled upon satisfactory proof of the facts.

7. *Payment or reissue upon termination of guardianship.*—A savings bond registered in the name of a guardian or other legal representative of the estate of a minor or incompetent will be reissued in the name of the ward upon the request of the representative or will be paid to, or reissued in the name of, the ward upon his request, supported in either case by satisfactory proof that the former minor has attained his majority or that the former incompetent has been restored to competency. Certification by the representative that the former minor has attained his majority will ordinarily be accepted as sufficient.

XII. PRIVATE CORPORATIONS, ASSOCIATIONS, PARTNERSHIPS, ETC.

1. *Payment to corporations or unincorporated associations.*—A savings bond registered in the name of a private corporation or an unincorporated association will be paid upon a request for payment signed by a duly authorized officer thereof. The signature to the request should be in the form, for example, "The Jones Coal Company, a corporation, by William A. Smith, President," or "The Lotus Club, an unincorporated association, by John Jones, Treasurer". A request for payment so signed and duly certified in accordance with Section VI hereof will ordinarily be accepted without further proof of the officer's authority.

2. *Payment to partnerships.*—A savings bond registered in the name of a partnership will be paid upon a request for payment signed by any general partner. The signature to the request should be in the form "Smith and Jones, a partnership, by John Jones, a general partner". A request for payment so signed and duly certified in accordance with Section VI hereof will ordinarily be accepted as sufficient proof that the person signing the request is a general partner.

3. *Successors to corporations or unincorporated associations.*—A savings bond registered in the name of a private corporation or an unincorporated association which has been succeeded by operation of law by another corporation or unincorporated association as the result of merger, consolidation, conversion or reorganization, duly effected by authority of law, will be paid to, or reissued in the name of, the succeeding corporation or unincorporated association, upon proper request and satisfactory proof of successorship. This applies only to legal succession and not to a general assignment by one organization to another.

XIII. STATES, PUBLIC CORPORATIONS, AND PUBLIC BOARDS, COMMISSIONS AND OFFICERS

1. *In names of States, public corporations and public boards.*—A savings bond registered in the name of a State or of a county, city, town, village or other public corporation, or in the name of a public board or commission, will be paid upon a request for payment signed in the name of such State, corporation, board, or commission by a duly authorized officer thereof. A request for payment so signed and duly certified in accordance with Section VI hereof will ordinarily be accepted without further proof of the officer's authority.

2. *In names of public officers.*—A savings bond registered in the title, without the name, of an officer of a State or public corporation, such as a county, city, town or village, will be paid upon a request for payment signed by the designated officer. The fact that the request for payment is signed and duly certified in accordance with Section VI hereof will ordinarily be accepted as sufficient proof that the person signing is the incumbent of the designated office.

XIV. DECEASED OWNERS

1. *Payment or reissue on death of owner.*—Upon the death of the owner of a savings bond, not survived by a coowner or designated beneficiary, the bond will be paid or reissued as hereinafter provided:

(a) *In course of administration.*—If the estate of the decedent is being administered in a court of competent jurisdiction, the bond will be paid, or reissued in authorized denominations, upon the request of the duly appointed and qualified representative of the estate. If payment is desired, the request for payment on the back of the bond should be executed. Payment will be made only to the representative. If reissue is desired, the representative should execute a request on Form P. D. 1455 and should certify thereon that the persons in whose names reissue is requested are entitled to the bond as heirs or legatees, to the extent specified with respect to each, and have agreed to such reissue. The request for payment or reissue should be signed in the form, for example, "John A. Jones, administrator of the estate (or executor of the will) of Henry W. Jones, deceased." Reissue will be made in the name of the person entitled, payable on death to a designated beneficiary, upon appropriate request on Form P. D. 1077 by the person entitled, in addition to the request and certification by the representative on Form P. D. 1455, but will not be made in the names of two or more persons as coowners. The request for payment or reissue must be supported by proof of the representative's authority. Such proof may consist of a court certificate or a certified copy of the representative's letters of appointment, issued by the court having jurisdiction. The certificate, or the certification to the letters, must be under the seal of the court, must contain a statement that the appointment is in full force, and should be dated within six months of the date of presentation of the bond for payment or reissue. If the representative is himself the person entitled and desires reissue in his own name a special order of court, show-

ing that he is entitled to the bond in his own right, must be furnished. (For request for payment executed by corporate representatives see Section XI–2.)

(b) *After settlement through court proceedings.*—If the estate of the decedent has been settled in a court of competent jurisdiction, the bond will be paid to, or reissued in authorized denominations in the name of, the person or persons entitled thereto as heirs or legatees, as shown by the final account, decree of distribution or other court records, supplemented, if there are two or more persons having any apparent interest in the bond, by an agreement executed by all such persons. The person or persons entitled should execute appropriate requests for payment or reissue, using Form P. D. 1459 for requesting reissue in the name of the person entitled alone, and Form P. D. 1077 for requesting reissue in the name of the person entitled, payable on death to a designated beneficiary. Reissue will not be made in the names of two or more persons as coowners. The request for payment or reissue, and the agreement, if required, must be supported by duly certified copies of the necessary court records.

(c) *Without administration.*—If no legal representative of the decedent's estate has been or is to be appointed, and if it is established to the satisfaction of the Secretary of the Treasury either that the gross value of the personal estate does not exceed $500 or that administration of the estate is not required in the state of the decedent's last domicile, the bond will be paid to, or reissued in authorized denominations in the names of, the person or persons entitled thereto as heirs or legatees pursuant to an agreement of all persons entitled to any share in the estate, without requiring administration on the estate. The person or persons entitled should execute appropriate requests for payment or reissue, using Form P. D. 1459 for requesting reissue in the name of the person entitled alone, and Form P. D. 1077 for requesting reissue in the name of the person entitled, payable on death to a designated beneficiary. Reissue will not be made in the names of two or more persons as coowners. The request for payment or reissue must be supported by (1) affidavits by all persons entitled to any share in the estate, setting forth the facts in detail, and their agreement for the distribution of the bond, (2) proof that the debts of the decedent and of his estate have been paid or provided for, (3) affidavits of credibility by two disinterested persons having personal knowledge of the decedent and his family and (4) a death certificate or other proof of the death of the decedent. (Use Form L&C 285, copies of which may be procured from the Treasury Department, Division of Loans and Currency, Washington, D. C., or from any Federal Reserve Bank.) No payment or reissue will be permitted without administration if any of the persons entitled are minors or incompetents, except to them or in their names, in whole or to the extent of their interests in the decedent's entire personal estate, or upon compliance with the provisions of Sections VII and VIII hereof governing payment of savings bonds registered in the names of such persons.

XV. CREDITORS' RIGHTS AND JUDICIAL PROCEEDINGS

1. *Judicial proceedings.*—A savings bond will be paid to, but not reissued in the name of, the person found entitled thereto through judicial proceedings, upon presentation and surrender of the bond: *Provided, however,* That no such proceedings will be recognized if they would give effect to an attempted voluntary transfer of the bond or would defeat or impair the rights of survivorship conferred by these regulations upon coowners and beneficiaries. Such payment will be made to the extent of the interest determined, at the redemption value current thirty days after the proceedings have become final or current at the time the bond is presented for payment, whichever is earlier. In appropriate cases the Treasury Department will require proof that the court acting had jurisdiction over the parties and subject matter, and proceeded in due course of its jurisdiction, and that the judgment or decree is final and conclusive, that it has fully and effectually transferred the title of the owner, and that it is not open to attack in any jurisdiction whatever. For this purpose duly authenticated copies of the complaint, order and proof of service, all pleadings and records of other proceedings, the final judgment, order or decree of the court and any further proceedings thereunder, must be furnished, together with a certificate, under seal, from the clerk of the court showing that no appeal, motion for new trial, or other proceeding which may result in modifying the judgment has been taken, made, or applied for; that the time for such action has expired (or that any such proceedings have been finally terminated), and that the judgment is in full force and effect and has become final under the laws of the jurisdiction. In addition, reference should be furnished to the constitution or statutes of the state conferring jurisdiction upon the court and regulating the manner in which such jurisdiction may be exercised. The Secretary of the Treasury in any case may require such further information, documents, and security as he deems necessary.

2. *Bankruptcy or insolvency.*—Payment (but not reissue) of a savings bond will be made to a duly qualified receiver or trustee in bankruptcy of the estate of the registered owner, adjudicated bankrupt or insolvent, upon request for payment duly executed by such receiver or trustee and supported by satisfactory proof of his appointment and qualification.

XVI. PLEDGE WITH SECRETARY OF TREASURY

1. *Use in lieu of surety under Department Circular No. 154.*—Notwithstanding any other provisions of this or any other circular, a savings bond may be pledged by the registered owner in lieu of surety under the provisions of Department Circular No. 154, amended: *Provided,* That the bond approving officer is the Secretary of the Treasury. In such cases an irrevocable power of attorney shall be executed authorizing the Secretary to request payment, and payment of the bond will, if it becomes necessary, be made upon such request at the then appropriate redemption value. No pledge to a bond approving officer other than the Secretary of the Treasury will be permitted. In no other case are savings bonds suitable for use as collateral, nor will a power of attorney to request payment be recognized in any other case.

XVII. REISSUE AND DENOMINATIONAL EXCHANGE

1. *In general.*—Reissue of a savings bond in a different form of registration will be made only in the following instances:

(a) To correct an established error in the original issue;

(b) To show a change in the name of the owner whether by marriage or in any other legal manner;

(c) As specifically provided in this circular.

Reissues pursuant to (b) and (c) above will be made only at the Treasury Department, Division of Loans and Currency, Washington, D. C., and requests therefor should be made on appropriate forms, copies of which may be obtained from that Division or from any Federal Reserve bank. Bonds held in excess of the lawful limit, calculated in accordance with Section III hereof, will not be reissued.

2. *Restrictions on denominational exchange.*—Exchange as between authorized denominations of savings bonds will not be permitted except in cases of partial redemption or authorized cases of reissue.

3. *Description of new bonds.*—In all cases of reissue the savings bonds will be of the same series, will bear the same issue dates as the savings bonds surrendered and will mature on the same dates.

XVIII. FURTHER PROVISIONS

1. *Regulations prescribed.*—These regulations are prescribed by the Secretary of the Treasury as governing United States Savings Bonds issued under the authority of the Second Liberty Bond Act, approved September 24, 1917, as amended, and the provisions of Treasury Department Circular No. 300, as amended, have no application to such savings bonds except as hereinbefore specifically provided.

2. *Additional proof; bond of indemnity.*—The Secretary of the Treasury, in any case arising under these regulations, may require such additional proof as he may consider necessary or advisable in the premises; and may require a bond of indemnity with satisfactory sureties, or an agreement of indemnity, in any case where he may consider such a bond or agreement necessary for the protection of the interests of the United States.

3. *Supplements or amendments.*—The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing United States Savings Bonds.

[SEAL] HENRY MORGENTHAU, JR.,
Secretary of the Treasury.

[F. R. Doc. 38–3860; Filed, December 21, 1938; 3:45 p. m.]

[1938—Dept. Circ. 596]

OFFERING OF UNITED STATES SAVINGS BONDS, SERIES D

DECEMBER 15, 1938.

1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, approved September 24, 1917, as amended, offers for sale, to the people of the United States, through the Postal Service and other designated agencies (see paragraph 6), an issue of bonds of the United States, designated United States Savings Bonds, Series D, which will be issued on a discount basis, in amounts of $25 (maturity value) and multiples thereof, will mature in 10 years from the issue date, but will be redeemable before maturity at the option of owners. These bonds will be placed on sale beginning January 1, 1939, and will continue to be on sale until this offering is terminated by notice given by the Secretary of the Treasury to the Postmaster General and to other designated sales agencies.

2. By notice heretofore given to the Postmaster General and to other designated sales agencies, the sale of United States Savings Bonds of Series C pursuant to Department Circular No. 571,[1] dated December 16, 1936, as amended, will terminate on December 31, 1938. All applications for United States Savings Bonds received by mail subsequent to December 31, 1938, will be treated as applications for Series D bonds. Savings bonds of any series prior to Series D may not be purchased after December 31, 1938.

DESCRIPTION OF BONDS OFFERED

3. United States Savings Bonds, Series D, will be issued only in registered form, in denominations of $25, $50, $100, $500, and $1,000 (maturity values), at prices hereinafter set forth, and each bond will have inscribed thereon by the authorized postmaster (or other agent) at the time of original issue the name and address of the owner, the date as of which issued, and the date of maturity and will bear an imprint of the dating stamp (with current date) of the postmaster or other issuing agent in the circle in the lower left corner of the bond. Each bond will also bear the facsimile signature of the Secretary of the Treasury, and the seal of the Treasury will be impressed thereon. All such savings bonds will be dated as of the first day of the month in which the issue price (or the application accompanied by remittance to cover the issue price) is received by an authorized agent; they will mature and be payable 10 years from such issue date. Savings bonds may not be called for redemption by the Secretary of the Treasury prior to maturity, but they may be redeemed prior to maturity (but not within 60 days after the issue date) at the owner's option, in accordance with the table of redemption values appearing at the end of this circular. Partial redemption of savings bonds of denominations other than $25 (maturity value) will be permitted in accordance with regulations prescribed from time to time by the Secretary of the Treasury (see paragraph 14). No interest will be paid on savings bonds, but they increase in redemption value at the end of the first year from issue date, and at the end of each successive half-year period thereafter until their maturity, when the face amount becomes payable. The increment in value is payable only upon redemption of the bond. A table of redemption values for each bond appears on the face thereof. The purchase price of savings bonds has been fixed so as to afford as investment yield of about 2.9 percent per annum compounded semiannually if the bonds are held to maturity; if the owner exercises his option to redeem a bond prior to maturity the investment yield will be less (see table at the end of this circular).

4. The savings bonds will not be transferable, and will be payable only to the owner named thereon, except in case of death or disability of the owner or as otherwise specifically provided in regulations prescribed from time to time by the Secretary of the Treasury (see paragraph 14), and in any event only in accordance with such regulations. Accordingly they may not be sold and may not be hypothecated as collateral for a loan. Savings bonds shall be valid only if inscribed with the owner's name and address, dated the first day of the month in which the issue price (or the application accompanied by remittance to cover the issue price) is received, and duly delivered by an authorized postmaster or other issuing agent; if issued by a postmaster they will bear the postoffice dating (money-order) stamp, and if issued by another agent they will bear the dating stamp of that agent.

5. Each of the bonds issued hereunder will be entitled to such exemption from taxation as may be authorized by the law in effect on its issue date. Under the law in effect on the date of this circular (December 15, 1938) the bonds are exempt, both as to principal and interest, from all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States or by any local taxing authority, except (a) estate or inheritance taxes, or gift taxes, and (b) graduated additional income taxes, commonly known as surtaxes, and excess-profits and war-profits taxes, now or hereafter imposed by the United States, upon the income or profits of individuals, partnerships, associations, or corporations; the interest on an amount of bonds authorized by the Second Liberty Bond Act, approved September 24, 1917, as amended, the principal of which does not exceed in the aggregate $5,000, owned by any individual, partnership, association, or corporation, shall be exempt from the taxes provided for in clause (b) above; and further, for the purposes of determining taxes and tax exemptions, the increment in value of savings bonds represented by the difference between the price paid and the redemption value received (whether at or before maturity) shall be considered as interest.

PURCHASE

6. Savings bonds of Series D may be purchased for cash at post offices of the first, second, and third classes, and at selected post offices of the fourth class, at any time while this offer is in effect; and, subject to regulations prescribed by the Board of Trustees of the Postal Savings System, the withdrawal of postal savings deposits will be permitted for the purpose of acquiring savings bonds. Savings bonds may also be purchased by mail upon application to the Treasurer of the United States, Washington, D. C., or to any Federal Reserve Bank,[2] accompanied by a remittance to cover the issue price. Any Federal Credit Union or Federal Savings and Loan Association which has been designated and has qualified for employment as fiscal agent of the United States for the purpose may accept, from its members only, applications for United States Savings Bonds, accompanied by remittance of the issue price, and will transmit such applications and remittances to the appropriate Federal Reserve Bank for issue of the bonds.[3] The issue prices of the various denominations of savings bonds of Series D follow:

Denomination (maturity value)	$25.00	$50.00	$100	$500	$1,000
Issue (purchase) price	18.75	37.50	75	375	750

[1] 2 F. R. 2752 (3186 DI).

[2] The Federal Reserve Banks are located at Boston, Mass., New York, N. Y., Philadelphia, Pa., Cleveland, Ohio, Richmond, Va., Atlanta, Ga., Chicago, Ill., St. Louis, Mo., Minneapolis, Minn., Kansas City, Mo., Dallas, Tex., and San Francisco, Calif.

[3] For regulations governing Federal Savings and Loan Associations and Federal Credit Unions, as fiscal agents of the United States, in connection with the sale of United States Savings Bonds to their members, see Department Circular No. 568, dated September 15, 1936.

LIMITATION OF HOLDINGS

7. Section 22 of the Second Liberty Bond Act, as amended, provides that it shall not be lawful for any one person at any one time to hold savings bonds issued during any one calendar year in an aggregate amount exceeding $10,000 maturity value. In determining whether this limitation is exceeded at any time by any one person, there must be taken into account the aggregate present interest of that person at such time in the maturity value of all savings bonds issued during any one calendar year including, but not limited to, (a) the entire maturity value of (1) bonds registered in the name of that person alone, (2) those registered in his name with another named as coowner; as well as (b) the extent of his present interest in (3) those held for his benefit by a fiduciary and (4) those in which a present interest has been acquired by him on the death of another or on the happening of any other event. Bonds of which the person is merely the designated beneficiary in case of the death of the owner, or bonds which are held by him in a fiduciary capacity only, or those in the income and principal of which he has only a future interest need not be included. Any one person may hold up to $10,000, maturity value, of savings bonds issued during any one calendar year and up to an additional $10,000, maturity value, issued in any other calendar year (January 1 to December 31), so long as these bonds are offered for sale. If any person at any time acquires a present interest in savings bonds issued during any one calendar year in an amount exceeding $10,000, maturity value, he should immediately surrender the excess, which will be redeemed at the redemption value current on the date the excess arose.

AUTHORIZED FORMS OF REGISTRATION

8. United States Savings Bonds may be registered (1) in the name of any natural person (that is, an individual) whether an adult or a minor, (2) in the names of two (but not more than two) natural persons as coowners, (3) in the name of one natural person payable on death to a single designated natural person, (4) in the name of any incorporated or unincorporated body, (5) in the name of a fiduciary, and (6) in the name of the owner or custodian of public funds. Full information as to the authorized forms of registration for United States Savings Bonds will be found in the regulations prescribed from time to time by the Secretary of the Treasury (see paragraph 14). These regulations may be seen at any post office and may be obtained from the Treasury Department, Division of Loans and Currency, Washington, D. C., or from any Federal Reserve Bank.

DELIVERY AND SAFEKEEPING OF BONDS

9. Postmasters and other agents from whom savings bonds may be purchased are authorized to deliver such bonds duly inscribed and dated upon receipt of the issue price. Delivery should not be accepted by any purchaser until he has verified that the correct name and address are duly inscribed on the face of the bond, that the bond is duly dated as of the first day of the month in which payment of the issue price was received by the agent, that the maturity date (10 years after the issue date) is entered thereon, and that the dating stamp (with current date) of the postmaster or other issuing agent is imprinted in the circle in the lower left corner of the bond.

10. A savings bond will be held in safekeeping without charge by the Secretary of the Treasury if the holder so desires, and in such connection the facilities of the Federal Reserve Banks as fiscal agents of the United States will be utilized.[4] Arrangements may be made for such safekeeping as provided in regulations prescribed from time to time by the Secretary of the Treasury (see paragraph 14), at the time of purchase or subsequently. Postmasters generally will assist holders in arranging for safekeeping, but will not act as safekeeping agents.

PAYMENT AT MATURITY OR ON REDEMPTION PRIOR TO MATURITY

11. (a) *General.*—Any savings bond will be paid in full at maturity, or, at the option of the owner, will be redeemed in whole or in part at the appropriate redemption value prior to maturity (but not within 60 days after the issue date), in accordance with the terms of the regulations prescribed from time to time by the Secretary of the Treasury (see paragraph 14), following presentation and surrender of the bond, by registered mail or otherwise, at the expense and risk of the owner, to the Treasury Department, Washington, D. C., or to any Federal Reserve Bank,[4] with a request for payment properly executed. Unless otherwise directed by the Department the form of request appearing on the back of the bond should be used.

(b) *Execution of request for payment.*—The registered owner, or other person entitled to payment under the regulations of the Treasury Department, must appear before one of the officers authorized by the Secretary of the Treasury to witness and certify requests for payment (see paragraph (c), below), establish his identity, and in the presence of such officer sign the request for payment adding his current post-office address. After the request for payment has been so signed, the witnessing officer should complete and sign the certificate provided, and the bond should then be presented and surrendered as provided in subparagraph (d), following.

(c) *Officers authorized to witness and certify requests for payment.*—The officers authorized to witness and certify requests for payment of savings bonds are set forth in regulations prescribed from time to time by the Secretary of the Treasury, such officers including United States postmasters and certain other post-office officials, and executive officers of any bank or trust company incorporated in the United States or its organized territories, including officers at domestic and foreign branches who are certified to the Treasury Department as executive officers. For a complete list of officers now authorized to witness and certify requests for payment of savings bonds see Section VI, paragraph 3, of Treasury Department Circular No. 530, Second Revision, dated December 15, 1938.

(d) *Presentation and surrender.*—After the request for payment has been duly executed by the owner and the certifying officer, the bond must be delivered to the Treasury Department or to a Federal Reserve Bank at the expense and risk of the owner and, for his protection, the bond should be forwarded by registered mail if not presented in person.

(e) *Disability or death.*—In case of the disability of the registered owner or the death of a registered owner not survived by a coowner or designated beneficiary instructions should be obtained from the Treasury Department, Division of Loans and Currency, Washington, D. C., before the request is executed.

(f) *Methods of payment.*—Postmasters generally will assist owners in securing payment at or before maturity but they will not make payment of savings bonds. Payment in all cases will be made by the issuance of a check drawn to the order of the registered owner or other person entitled to payment, and mailed to the address given in the request for payment.

(g) *Partial redemption.*—Partial redemption of a savings bond of a denomination higher than $25 (maturity value) at current redemption value is permitted, but only in multiples of $25 (maturity value). In case of partial redemption the remainder will be reissued in authorized denominations bearing the same issue date as the bond surrendered for partial redemption.

AUTHORIZED REISSUES

12. Reissue of savings bonds in a different form of registration is authorized in certain instances, concerning which full information is given in regulations prescribed from time to time by the Secretary of the Treasury (see paragraph 14).

SERIES DESIGNATION

13. Savings bonds of Series D, offered hereunder, to be issued during the calendar year 1939, will be designated Series D–1939, and those which may be issued in subsequent years will be similarly designated by the series letter followed by the year of issue. The designations of savings bonds heretofore issued, as evidenced by their series letters and the respective years of issue inscribed thereon, follow:

Series A–1935 for bonds of Series A issued during 1935.

Series B–1936 for bonds of Series B issued during 1936.

Series C–1937 for bonds of Series C issued during 1937.

Series C–1938 for bonds of Series C issued during 1938.

GENERAL PROVISIONS

14. All savings bonds issued pursuant to this circular shall be subject to regulations prescribed from time to time by the Secretary of the Treasury. Such regulations may require, among other things, reasonable notice in case of presentation of savings bonds for redemption prior to maturity. The present regulations governing savings bonds issued hereunder are contained in Treasury Department Circular No. 530, Second Revision, dated December 15, 1938.

15. The Secretary of the Treasury may designate agencies other than those herein designated for the sale of United States Savings Bonds of Series D, and he reserves the right to refuse to issue or permit to be issued hereunder any such savings bonds in any case or class or classes of cases if he deems such action to be in the public interest.

16. Postmasters of the first, second, and third classes, and selected postmasters of the fourth class, under regulations promulgated by the Postmaster General, and Federal Reserve Banks and designated and qualified Federal Credit Unions and Federal Savings and Loan Associations, as fiscal agents of the United States, are authorized to perform such fiscal agency services as may be requested of them in connection with the issue, delivery, safekeeping, redemption, and payment of savings bonds.

17. The Secretary of the Treasury may at any time or from time to time supplement or amend the terms of this circular, information as to which will be promptly furnished to the Postmaster General and other agents acting as fiscal agents of the United States in connection with savings bonds.

[SEAL] HENRY MORGENTHAU, JR.,
Secretary of the Treasury.

Table Showing How United States Savings Bonds of Series D Increase in Redemption Value During the Successive Half-Year Periods Following Issue,[1] and the Approximate Investment Yield at the Beginning of each Such Period Shown as Rate Percent per Annum, Compounded Semiannually

Maturity value / Issue price	$25.00 / $18.75	$50.00 / $37.50	$100 / $75	$500 / $375	$1,000 / $750	Approximate investment yield at beginning of each half-year period
Period after issue date	Redemption values during each period					
						Percent
First year	$18.75	$37.50	$75.00	$375.00	$750.00	None
1 to 1½ years	19.00	38.00	76.00	380.00	760.00	1.33
1½ to 2 years	19.25	38.50	77.00	385.00	770.00	1.76
2 to 2½ years	19.50	39.00	78.00	390.00	780.00	1.97
2½ to 3 years	19.75	39.50	79.00	395.00	790.00	2.09
3 to 3½ years	20.00	40.00	80.00	400.00	800.00	2.16
3½ to 4 years	20.25	40.50	81.00	405.00	810.00	2.21
4 to 4½ years	20.50	41.00	82.00	410.00	820.00	2.24
4½ to 5 years	20.75	41.50	83.00	415.00	830.00	2.26
5 to 5½ years	21.00	42.00	84.00	420.00	840.00	2.28
5½ to 6 years	21.25	42.50	85.00	425.00	850.00	2.29
6 to 6½ years	21.50	43.00	86.00	430.00	860.00	2.29
6½ to 7 years	21.75	43.50	87.00	435.00	870.00	2.30
7 to 7½ years	22.00	44.00	88.00	440.00	880.00	2.30
7½ to 8 years	22.50	45.00	90.00	450.00	900.00	2.45
8 to 8½ years	23.00	46.00	92.00	460.00	920.00	2.57
8½ to 9 years	23.50	47.00	94.00	470.00	940.00	2.67
9 to 9½ years	24.00	48.00	96.00	480.00	960.00	2.76
9½ to 10 years	24.50	49.00	98.00	490.00	980.00	2.84
At maturity	25.00	50.00	100.00	500.00	1,000.00	2.90

[1] This table also applies to United States Savings Bonds of prior series issued on or before December 31, 1938.

TITLE 36—PARKS AND FORESTS

FOREST SERVICE

NATIONAL FOREST TIMBER

MODIFICATION OF REGULATION S–16

By virtue of the authority vested in the Secretary of Agriculture by the Act of Congress of February 1, 1905 (33 Stat. 628), amendatory of the Act of June 4, 1897 (30 Stat. 11, 35), I, H. A. Wallace, Secretary of Agriculture, do hereby amend Regulation S–16 of the rules and regulations governing the occupancy, use, protection and administration of the National Forests by modifying the last paragraph thereof to read as follows:

REG. S–16. * * *

National Forest timber sold on scale shall be scaled by the Scribner Decimal C log rule, or, if the advertisement and agreement or permit so state, by the International ¼ inch log rule or by the cubic volume rule, each as used by the Forest Service.

In testimony whereof, I have hereunto set my hand and official seal at the City of Washington this 22d day of December 1938.

[SEAL] H. A. WALLACE,
Secretary of Agriculture.

[F. R. Doc. 38–3875; Filed, December 22, 1938; 12:23 p. m.]

TITLE 43—PUBLIC LANDS

GENERAL LAND OFFICE

STOCK DRIVEWAY WITHDRAWALS NOS. 3 AND 44, WYOMING NOS. 1 AND 8, ADJUSTED

DECEMBER 12, 1938.

It is ordered that so much of departmental order of October 20, 1917, as defined Stock Driveway Withdrawal No. 3, Wyoming No. 1, in secs. 31 to 34, inclusive, T. 43 N., R. 84 W., 6th P. M., be construed in conformity with the official plat of independent resurvey approved by the General Land Office on November 9, 1934, and so much of departmental order of January 31, 1920, as defined Stock Driveway Withdrawal No. 44, Wyoming No. 8, in sec. 34, T. 49 N., R. 103 W., be construed in conformity with the plat of resurvey and the supplemental plat approved August 8, 1907, and March 25, 1921, respectively, to read as follows:

SIXTH PRINCIPAL MERIDIAN

T. 43 N., R. 84 W.,
sec. 31, Lots 5 to 11, inclusive, NE¼SW¼ and N½SE¼,
sec. 32, Lots 3 to 7, inclusive, and NW¼SW¼,
sec. 33, Lots 5 to 8, inclusive,
sec. 34, Lots 1 and 2;
T. 49 N., R. 103 W.,
sec. 34, NE¼NE¼, Lots 1, 3, 4, 8, 9 and 10.

HARRY SLATTERY,
Under Secretary of the Interior.

TITLE 49—TRANSPORTATION AND RAILROADS

INTERSTATE COMMERCE COMMISSION

ORDER IN THE MATTER OF ANNUAL REPORTS FROM STEAM RAILWAY COMPANIES AND SWITCHING AND TERMINAL COMPANIES OF CLASS I AND CLASS II

At a session of the Interstate Commerce Commission, Division 4, held at its office in Washington, D. C., on the 12th day of December, A. D. 1938

The subject of the requirement of annual reports from steam railway companies and switching and terminal companies of Class I and Class II being under consideration:

It is ordered:

1. That the order of this Commission dated December 28, 1937,[1] in the Matter

[4] For locations of Federal Reserve Banks see footnote 1 above.

[1] 3 F.R. 22 DI.

of Annual Reports from Steam Railway Companies and Switching and Terminal Companies of Class I and Class II, is hereby annulled.

2. That all steam railway companies and switching and terminal companies of Class I and Class II subject to the Interstate Commerce Act be, and they hereby are, required to file annual reports for the year ending December 31, 1938, and for each succeeding year until further order, in accordance with Annual Report Form A (Large and Medium Steam Roads and Switching and Terminal Companies), which is hereby approved and made a part of this order:[2] *Provided, however*, That in lieu of the footnotes to the balance sheet on pages 201 and 201B reading "*Includes $------ taxes vouchered and unpaid" and "#Excludes $----- taxes in litigation in formal court proceedings not accrued" there shall be substituted a separate and more complete return on attached form designated "Tax Liabilities and Contingencies" which is hereby approved and made a part of this order.[2]

It is further ordered, That the annual report shall be filed in duplicate, in the Bureau of Statistics, Interstate Commerce Commission, Washington, D. C., on or before March 31, of the year following the one to which it relates.

By the Commission, division 4.

[SEAL] W. P. BARTEL,
Secretary.

TITLE 50—WILDLIFE

BUREAU OF FISHERIES

JOINT REGULATIONS OF THE SECRETARY OF THE TREASURY AND THE SECRETARY OF COMMERCE CONCERNING WHALING

Pursuant to the authority of the Whaling Treaty Act of May 1, 1936, 49 Stat. 1246 (U. S. C., Sup. III, title 16, secs. 901–915), to give effect to the Convention between the United States and certain other countries for the regulation of whaling, concluded at Geneva, September 24, 1931, signed on the part of the United States March 31, 1932, and effective January 16, 1935 (49 Stat. pt. 2, 3079), and the International Agreement for the Regulation of Whaling, signed at London, June 8, 1937, and effective May 7, 1938 (52 Stat. 1460), we, the Secretary of the Treasury and the Secretary of Commerce, hereby make, prescribe, and promulgate the following joint regulations:

Art. 1. When used in these regulations, the term—

(a) "Convention" means the Convention between the United States and certain other countries for the regulation of whaling, concluded at Geneva, September 24, 1931, signed on the part of the United States, March 31, 1932, and effective January 16, 1935 (49 Stat. pt. 2, 3079).

(b) "Act" means the Whaling Treaty Act of May 1, 1936, 49 Stat. 1246 (U. S. C., Sup. III, title 16, secs. 901–915).

(c) "Agreement" means the International Agreement for the Regulation of Whaling, signed at London, June 8, 1937, and effective May 7, 1938 (52 Stat. 1460).

(d) "Inspector" means any officer of the United States Coast Guard assigned to duty in connection with whaling operations by the Commandant, United States Coast Guard.

(e) "Factory ship" means a ship in which or on which whales are treated whether wholly or in part.

(f) "Whale catcher" means a ship used for the purpose of hunting, taking, towing, holding on to, or scouting for whales.

(g) "Land station" means a factory on the land, or in the territorial waters adjacent thereto, or a factory ship which remains moored in territorial waters in one position during a whaling season, in which or at which whales are treated whether wholly or in part.

(h) "Length" in relation to any whale means the distance measured on the level in a straight line between the tip of the upper jaw and the notch between the flukes of the tail.

(i) "Baleen whale" means any whale having blades of whalebone attached to the roof of its mouth.

(j) "Right whale" means any whale known by the name of Atlantic right whale, Arctic right whale, Biscayan right whale, bowhead, great polar whale, Greenland right whale, Greenland whale, Nordkaper, North Atlantic right whale, North Cape whale, Pacific right whale, pigmy right whale, southern pigmy right whale, or southern right whale.

(k) "Gray whale" means any whale known by the name of gray whale, California gray, devil fish, hard head, mussel digger, gray back, or rip sack.

(l) "Blue whale" means any whale known by the name of blue whale, Sibbald's rorqual, or sulphur bottom.

(m) "Fin whale" means any whale known by the name of common finback, common finner, common rorqual, finback, fin whale, herring whale, razorback, or true fin whale.

(n) "Humpback whale" means any whale known by the name of bunch, humpback, humpback whale, humpbacked whale, hump whale, or hunchbacked whale.

(o) "Sei whale" means any whale known by the name of sei whale, Bryde's whale, pollock whale, or Rudolphi's whale.

(p) "Least rorqual whale" means any whale known by the name of least rorqual whale, Davidson's piked whale, little piked whale, Minke's whale, or sharpnosed finner.

(q) "Sperm whale" means any whale known by the name of sperm whale, spermacet whale, cachalot, or pot whale.

Art. 2. The provisions of the Convention, the Agreement, the Act, and these regulations apply to any national, vessel, or boat of the United States, or whale catcher operating pursuant to a whaling license issued under the Act, in any waters in the world and to any person, vessel, or boat in the United States, its territories or possessions, including the territorial waters thereof.

Art. 3. Calves, suckling whales, immature whales, or the young of any whale include, among others, whales having a length less than the following dimensions:

	Feet
Blue whales	70
Fin whales	55
Humpback whales	35
Sei whales	40
Least rorquals	18
Sperm whales	35

Art. 4. Except as provided in Articles 5 to 10 inclusive of these regulations, the hunting, taking, capturing, killing, possession, sale, purchase, shipment, transportation, carriage, import, or export of any baleen whale, or the possession, sale, purchase, shipment, transportation, carriage, import, or export of any part or product thereof, is compatible with the terms of the Convention and the Agreement and is permitted by these regulations.

Art. 5. The hunting, taking, capturing, killing, possession, sale, purchase, shipment, transportation, carriage, import, or export of any right or gray whale, or of any calf, suckling whale, immature whale, or the young of any whale, or of any female whale accompanied by any calf or suckling whale, or the possession, sale, purchase, shipment, transportation, carriage, import, or export of any part or product thereof, is incompatible with the terms of the Agreement and is prohibited by these regulations.

Art. 6. (a) The use of a factory ship or a whale catcher operated in connection therewith for the purpose of taking or treating baleen whales in any waters south of 40° South Latitude, except during the period from the 8th day of December to the 7th day of March following, both days inclusive, is incompatible with the terms of the Agreement and is prohibited by these regulations.

(b) When any factory ship or whale catcher operated in connection therewith has been used south of 40° South Latitude for the purpose of taking or treating baleen whales during the period from the 8th day of December to the 7th day of March following, its further use elsewhere within a period of twelve months from the said 7th day of March, for the purpose of taking or treating baleen whales is incompatible with the terms of the Agreement and is prohibited by these regulations.

Art. 7. The use of a land station or a whale catcher operated in connection therewith for the purpose of taking or treating whales in any area or in any waters for more than six months in any period of twelve months, such period of six months to be continuous, is incompatible with the terms of the Agreement and is prohibited by these regulations.

Art. 8. The use of a factory ship or a whale catcher operated in connection therewith for the purpose of taking or treating baleen whales in any of the following areas, is incompatible with the terms of the Agreement and is prohibited by these regulations:

(1) in the Atlantic Ocean north of 40° South Latitude and in the Davis Strait, Baffin Bay and Greenland Sea;

(2) in the Pacific Ocean east of 150° West Longitude between 40° South Latitude and 35° North Latitude;

(3) in the Pacific Ocean west of 150° West Longitude between 40° South Latitude and 20° North Latitude;

(4) in the Indian Ocean north of 40° South Latitude.

Art. 9. The delivery to any factory ship or land station of a greater number of whales than can be treated efficiently, in accordance with Article 11 of these regulations, by the plant and personnel therein within a period of 36 hours from the time of killing of each whale, is incompatible with the terms of the Agreement and is prohibited by these regulations.

Art. 10. The provisions of Articles 5 to 9 inclusive of these regulations, shall not apply—

(a) To whales killed, taken, or treated for scientific purposes under a special permit issued by the Secretary of Commerce: *Provided*, That, in case of the importation or exportation of any such whale or the product of any such whale, including oil, meat, bone, meal, or fertilizer, competent evidence that the Secretary of Commerce has authorized the killing, taking or treating thereof, must be presented to the Collector of Customs at the port of importation or exportation.

(b) To whales killed, taken, or treated by natives or Eskimos engaged in whaling who use only canoes or other native craft propelled by oars or sails, do not carry firearms, are not employed by others than natives or Eskimos, and are not under contract to deliver products or their whaling to any third person: *Provided*, That, in the case of the importation or exportation of any such whale or the produce of any such whale, including oil, meat, bone, meal, or fertilizer, the Collector of Customs for the Customs Collection District of Alaska (No. 31) may require, and all other collectors of customs for all other customs collection districts shall require, the presentation at the port of importation or exportation of satisfactory evidence of such facts.

Art. 11. The fullest possible use shall be made of all whales taken. Except in case of whales or parts of whales intended for human food or for feeding animals, the oil shall be extracted by boiling or otherwise from all blubber, meat (except the meat of sperm whales) and bones other than the internal organs, whale bone and flippers, of all whales delivered to the factory ship or land station.

Art. 12. (a) Each factory ship and land station shall have such inspectors on the ship or at the station as may be assigned to such duty by the Commandant, United States Coast Guard. The owner of any factory ship or land station shall notify the Commandant, United States Coast Guard, of the date on which the ship will depart on any whaling cruise, or of the date on which the station will begin whaling operations, at such time in advance thereof as will permit inspectors to report to the ship prior to its departure, or to report at the station before it begins whaling operations.

(b) The master or person in charge of any factory ship or land station shall provide inspectors with suitable and adequate subsistence and accommodations. For every day that each inspector is provided with subsistence and accommodations as aforesaid, he shall pay to the master or person in charge of the factory ship or land station a pro-rata share of the cost of subsisting the personnel of the factory ship or land station, not to exceed one dollar per day.

(c) Inspectors are authorized to be present at any whaling operations conducted by a factory ship, land station, or any vessel operated in connection therewith; to address inquiries to the master, person in charge, members of the crew, or any other employee of any such ship, station or vessel concerning such operations; to measure any whales taken; and to inspect and examine any such whales or the parts or products thereof.

(d) Inspectors shall report as soon as practicable to the Commandant, United States Coast Guard, the violation of any provision of the Convention, the Agreement, the Act, or these regulations. If the violation involves the taking of any whale, such report shall state all the facts relative thereto, and the amount of oil and other products derived from such whale.

Art. 13. (a) The master or person in charge of any factory ship or land station shall keep an accurate daily record of whaling operations including (1) the number of whales taken and the number of whales injured or killed and not recovered by the whale catchers; and also the time and place of taking, injuring, or killing such whales; (2) the species, sex, and length of each whale taken, and if any such whale contains a foetus, the length and sex, if ascertainable, of the foetus; (3) whether any whale taken was producing milk; and (4) the aggregate amounts of oil each grade and the quantities of meal, fertilizer, and other products derived from whales taken; and also shall forward a signed and dated report containing the foregoing data to the Commissioner of the Bureau of Fisheries within six weeks after the close of each whaling season. The master or person in charge of any factory ship or land station shall have available in his possession copies of the contracts of the gunners and members of the crew of such ship or station or any whale catcher operated in connection therewith. He shall also have available in his possession an accurate account showing the monthly pay of such persons and the factors upon which such pay is based and shall furnish within three months after the close of each whaling season, to the Secretary of Commerce, an account showing the total emolument of each gunner and member of the crew and the manner in which the emolument of each of them is calculated.

(b) The master or person in charge of any factory ship or land station shall permit any officer authorized to enforce the provisions of the Convention, the Agreement, the Act, or these regulations, to examine and inspect any such record, contract or account, and to make copies thereof, or excerpts therefrom at any time; shall furnish any such officer with such other data or information as may be required by the Secretary of the Treasury or the Secretary of Commerce pursuant to law and shall render all possible assistance to, and fully cooperate with, any such officer.

Art. 14. Nothing in these regulations shall be construed as applying to dolphins or porpoises, or permitting any act contrary to the laws or regulations of any State or Territory made for the purpose of giving further protection to whales when such laws or regulations are not inconsistent with the Convention, the Agreement, or the Act.

Art. 15. Nothing in these regulations shall be construed to limit or restrict the exercise of any authority conferred upon such inspectors or any other officers of the United States by any other provision of law or regulation.

Art. 16. Copies of the Act and these regulations shall be posted in a conspicuous and accessible place on each factory ship and at each land station.

Art. 17. The joint regulations concerning whaling approved May 18, 1938, are hereby superseded.

— [SEAL] DANIEL C. ROPER,
Secretary of Commerce.
H. MORGENTHAU, JR.,
Secretary of the Treasury.

DEPARTMENT OF THE INTERIOR.

National Bituminous Coal Commission.

[Order No. 257]

AN ORDER PROVIDING FOR A MEETING OF THE CODE MEMBERS WITHIN DISTRICT NO. 10 FOR THE PURPOSE OF ELECTING A PERSON TO FILL A VACANCY EXISTING ON BITUMINOUS COAL PRODUCERS BOARD FOR DISTRICT NO. 10; PROVIDING FOR A TIME AND PLACE FOR SUCH MEETING, AND GIVING NOTICE THEREOF

Pursuant to Act of Congress entitled "An Act to regulate interstate commerce in the bituminous coal, and for other purposes" (Public, No. 48, 75th Cong., 1st sess.), known as the Bituminous Coal Act of 1937 and to the bylaws of Bituminous Coal Producers Board for District No. 10, the National Bituminous Coal Commission hereby orders:

1. That all code members within District No. 10, as such district is defined in said Act, shall meet on the 5th day of January, 1939, at the hour of ten o'clock A. M., at the office of the District Board, 105 West Monroe Street, in the City of Chicago, Illinois, for the purpose of electing a person to fill the vacancy on Bituminous Coal Producers Board for District No. 10 created by the resignation of George W. Reed, elected a member of said board by votes cast in the proportion of the annual tonnage output of the code members in the district.

2. That the election to be held shall be in the manner provided in Section 4, Part I (a) of the Act and in conformity with Article III, Section 2 of the bylaws for Bituminous Coal Producers Board for District No. 10 which provides in part as follows:

"SEC. 2. *Vacancies.*—In the case of any vacancy among the producer members of the Board, by death, resignation or otherwise, either in the member elected by tonnage votes or in the member elected by the majority in number of the Code Members of the District represented at the election of the District Board, the Commision shall promptly order an election of a successor member of the Board to be held by the qualified Code Members of the District upon ten (10) days' notice. If such vacancy among the producer members of the Board is in a place formerly filled by a member elected by tonnage votes, the election of the successor member of the Board shall be by tonnage votes, * * *."

3. That the term of office of the member of the Board elected at said meeting shall be the unexpired term of his predecessor in office and until his successor is elected.

4. Each code member within said district may attend the meeting provided for herein and vote in the manner provided in said Act and Bylaw either in person or by proxy, and shall be entitled to cast votes equal to the number of tons produced by said code member during the calendar year 1937. No person other than a code member or his duly authorized proxy shall have any vote or voice at such meeting or the right to participate in such meeting. All proxies shall be in the form attached to this order, designated as Form No. DBE–1 and to be valid shall be executed in accordance with instructions thereon and filed in fact not less than twenty-four hours prior to the date and hour fixed for said meeting with Bituminous Coal Producers Board for District No. 10, and addressed to said board as follows: J. R. Henderson, Secretary, Bituminous Coal Producers Board for District No. 10, 105 West Monroe Street, Chicago, Illinois.

5. That J. R. Henderson, Secretary Bituminous Coal Producers Board for District No. 10, is hereby designated to act as Chairman of said meeting, with authority to prescribe rules for the proper conduct of said meeting.

6. That said J. R. Henderson, within ten days after said meeting, shall file with the Commission at Washington, D. C., a full report of the proceedings of said meeting.

7. The Secretary of the Commission is directed to mail a copy of this order, together with two copies of Form No. DBE–1, to each code member within District No. 10; to mail a copy of this order to the Secretary of Bituminous Coal Producers Board for District No. 10; and shall cause a copy of this Order to be published in the FEDERAL REGISTER.

By order of the Commission.

Dated this 21st day of December, 1938.

[SEAL] F. WITCHER MCCULLOUGH,
Secretary.

FORM NO. DBE–1

The undersigned, a code member within District No. 10, as defined by the Bituminous Coal Act of 1937, does hereby make, constitute, and appoint _____ his, her, or its true and lawful proxy and attorney, to attend the meeting of code members of said district, to be held at ____ o'clock, __ m., on the _____ day of _____ 1939, and any adjournment or adjournments of said meeting, and there to cast any and all votes which the undersigned could or would cast, if personally present, in electing a person to fill vacancy existing on Bituminous Coal Producers Board for District No. 10; hereby ratifying and confirming any and all lawful acts of the said proxy and attorney done in conformity herewith.

In witness whereof the undersigned has caused these presents to be duly executed at _____, State of _____, this _____ day of _____, 193__.

Witness: _____

(1) _____ [SEAL]
(Individual, receiver, trustee, etc.)

(2) _____
(A partnership)

(3) _____
(A corporation)

By _____
(Name and title of officer)

Attest:

_____
(Name and title of officer)

[CORPORATE SEAL]

INSTRUCTIONS

Every proxy must be signed and acknowledged before an officer qualified to take acknowledgments, and must be accompanied by an acknowledgment conforming to the laws of the State in which the proxy was executed. Proxies on behalf of partnerships must be signed and acknowledged by a partner. Proxies on behalf of corporations must be acknowledged by a duly authorized principal officer or officers of the corporation, and certified copies of resolutions of the Board of Directors or other corporate authority must accompany each corporation proxy.

Attention is called to the fact that, if a code member desires to vote by proxy at the aforesaid meeting an executed and acknowledged original of this form must be filed with (actually in the possession of) Bituminous Coal Producers Board for District No. 10 at least 24 hours prior to the date and hour fixed for said meeting.

[F. R. Doc. 38–3876; Filed, December 22, 1938; 12:43 p. m.]

[Docket No. 498–FD]

ORDER IN THE MATTER OF THE APPLICATION OF WESTERN PENNSYLVANIA COAL CORPORATION FOR PROVISIONAL APPROVAL AS A MARKETING AGENCY

At a special session of the National Bituminous Coal Commission held at its offices in Washington, D. C., on the 21st day of December 1938.

It appearing that the above-named applicant, Western Pennsylvania Coal Corporation, a Pennsylvania corporation authorized to engage in business in the State of Pennsylvania, filed its application for provisional approval as a marketing agency on the 11th day of August 1938, pursuant to Order No. 6[1] of the Commission, and the matter being assigned to Trial Examiner David C. McCurtain, and proper notice having been given,[2] the same came on for hearing before the said Examiner on the 3rd day of October 1938, and at said hearing of the applicant having duly appeared and representatives of the Legal Division of the Commission and of the Consumers' Counsel having entered their respective appearances therein, the evidence was adduced; and

It further appearing that the Trial Examiner having received said evidence did, on the 30th day of November, 1938, file, with the Commission, his report and proposed findings of fact, together with his recommendations that said application be granted, and it appearing that true copies of said report and proposed findings of fact of the Examiner were duly served upon all parties appearing at said hearing, on the 2nd day of December, 1938, and more than 15 days having elapsed since the service of said report, no exceptions having been filed thereto; and

---

[1] 2 F. R. 1078 (1287 DI).
[2] 3 F. R. 2233 DI.

The Commission having considered the application, the Report, the Proposed Findings of Fact, and Recommendation of the Examiner, and being fully advised of the evidence as the same is contained in the official transcript thereof finds that the "Findings of Fact" as proposed by the Examiner are in all respects true and correct, and are hereby adopted as the findings of the Commission, with the exception that the Commission finds that the requirement in the contract between the applicant and its producer members, to the effect that applicant must obtain the prior consent of a producer member as to contracts calling for future delivery of specified amounts of coal beyond a period of thirty days, was intended to be operative only as permitted by rules and regulations of the Commission, which, together with the applicable provisions of the Bituminous Coal Act of 1937, are controlling. That such was the intention is revealed by other provisions of the aforesaid contract in which the applicant and its producer members agree to comply with the provisions of the Act, the Code, and rules and regulations of the Commission; therefore, the Examiner's recommendation that the provisions of the applicant's contract relating to the aforesaid requirement be amended or stricken, is disapproved.

Now, therefore, Pursuant to the provisions of the Bituminous Coal Act of 1937 the National Bituminous Coal Commission hereby orders:

That the application of the Western Pennsylvania Coal Corporation for provisional approval as a marketing agency be and the same is hereby granted and the said Western Pennsylvania Coal Corporation be and the same is hereby considered to be a marketing agency and provisionally approved as such within the purview of Section 12 of the Bituminous Coal Act of 1937 until further order of the Commission.

By order of the Commission.

Dated this 21st day of December, 1938.

[SEAL] F. WITCHER MCCULLOUGH,
Secretary.

[F. R. Doc. 38-3877; Filed, December 22, 1938; 12:44 p. m.]

FEDERAL TRADE COMMISSION.

United States of America—Before Federal Trade Commission

[Docket No. 3669]

IN THE MATTER OF GENERAL BAKING COMPANY

COMPLAINT

Pursuant to the provisions of an act of Congress approved October 15, 1914, entitled "An Act to supplement existing laws against unlawful restraints and monopolies, and for other purposes" (the Clayton Act), as amended by an act approved June 19, 1936, entitled "An Act to amend Section 2 of the act entitled 'An Act to supplement existing laws against unlawful restraints and monopolies and for other purposes' approved October 15, 1914, as amended (U. S. C., Title 15, Section 13) and for other purposes" (the Robinson-Patman Act), the Federal Trade Commission having reason to believe that General Baking Company, a corporation, is violating and has been violating the provisions of the said Clayton Act, as amended, hereby issues its complaint, stating its charges in that respect as follows:

PARAGRAPH 1. The respondent, General Baking Company, is a corporation organized and existing under and by virtue of the laws of the State of New York, with its principal office and place of business located at 420 Lexington Avenue, New York, N. Y.

PAR. 2. Respondent corporation is now and has been since June 19, 1936, engaged in the business of manufacturing, offering for sale, selling, and distributing bread, pastries, and allied products. Respondent sells and distributes said products in commerce between and among the various states of the United States and the District of Columbia, and preliminary to or as a result of such sales, causes said products to be shipped and transported from the place of origin of the shipment to the purchasers thereof who are located in states of the United States other than the state of origin of the shipment. There is and has been at all times herein mentioned a continuous current of trade and commerce in said products across state lines between respondent's factories and the purchasers of said products. Said products are sold and distributed for use, consumption, and resale within the various states of the United States and the District of Columbia.

PAR. 3. In the course and conduct of its business as aforesaid, respondent is now and during the time herein mentioned has been in substantial competition with other corporations, individuals, partnerships, and firms engaged in the business of manufacturing, selling, and distributing bread, pastry, and allied products in commerce between and among the various states of the United States and the District of Columbia.

PAR. 4. In the course and conduct of its business as aforesaid, since June 19, 1936, respondent has been and is now discriminating in price between different purchasers buying said products of like grades and qualities sold by the respondent in interstate commerce for use, consumption, and resale, by giving and allowing certain of its said purchasers of said products lower prices than given or allowed other of its said purchasers. Said discrimination in price is brought by the following practice and policy pursued by the respondent, to wit: In certain trade areas or localities respondent sells certain of its products, particularly bread, of the same grade, quality and weight at lower prices than it sells the identical product in other trade areas or localities, to illustrate: Respondent from its District of Columbia plant distributes bread to customers not only within said District but also to customers in the State of Virginia. Within the District of Columbia and to a designated point within the State of Virginia, to wit: Quantico, customers of respondent pay 10 cents for a 20-ounce loaf of bread. Beyond Quantico, Virginia, and within the trade area designated as Fredericksburg, customers of the respondent pay 8 cents for the identical loaf of bread that is sold to the customers previously referred to for 10 cents per loaf. To further illustrate, customers within the Norfolk, Virginia, trade area pay 18 cents for a 48-ounce loaf of bread and 9 cents for a 25-ounce (club) loaf of bread while other customers served from the Norfolk plant of the respondent pay 24 cents for the 48-ounce loaf of bread and 12 cents for the 25-ounce club loaf.

PAR. 5. The general effect of said discriminations in price so made by the respondent as above set forth has been or may be (a) substantially to lessen competition, or (b) to injure, destroy or prevent competition between the respondent and its competitors in the sale and distribution of such products, or (c) to tend to create a monopoly in respondent in said line of commerce in the various localities or trade areas in the United States in which such competitors, respectively, are engaged in business.

PAR. 6. The foregoing alleged acts and practices of said respondent are violations of Subsection 2 (a) of Section 1 of said Act of Congress approved June 19, 1936, entitled "An Act to amend Section 2 of the act entitled 'An Act to supplement existing laws against unlawful restraints and monopolies and for other purposes' approved October 15, 1914, as amended (U. S. C., Title 15, Section 13), and for other purposes."

Wherefore, the premises considered, the Federal Trade Commission on this 17th day of December, A. D., 1938, issues its complaint against said respondent.

NOTICE

Notice is hereby given you, General Baking Company, respondent herein, that the 20th day of January, A. D., 1939, at 2 o'clock in the afternoon, is hereby fixed as the time, and the offices of the Federal Trade Commission in the City of Washington, D. C., as the place, when and where a hearing will be had on the charges set forth in this complaint, at which time and place you will have the right, under said Act, to appear and show cause why an order should not be entered by said Commission requiring you to cease and desist from the violations of the law charged in the complaint.

You are notified and required, on or before the twentieth day after service upon you of this complaint, to file with the Commission an answer to the complaint. If answer is filed and if your appearance at the place and on the date above stated be not required, due notice to that effect will be given you. The Rules of Practice adopted by the Commission with respect to answers or fail-

ure to appear or answer (Rule VII) provide as follows:

In case of desire to contest the proceeding the respondent shall, within twenty (20) days from the service of the complaint, file with the Commission an answer to the complaint. Such answer shall contain a concise statement of the facts which constitute the ground of defense. Respondent shall specifically admit or deny or explain each of the facts alleged in the complaint, unless respondent is without knowledge, in which case respondent shall so state.

* * * * *

Failure of the respondent to file answer within the time above provided and failure to appear at the time and place fixed for hearing shall be deemed to authorize the Commission, without further notice to respondent, to proceed in regular course on the charges set forth in the complaint.

If respondent desires to waive hearing on the allegations of fact set forth in the complaint and not to contest the facts, the answer may consist of a statement that respondent admits all the material allegations of fact charged in the complaint to be true. Respondent by such answer shall be deemed to have waived a hearing on the allegations of fact set forth in said complaint and to have authorized the Commission, without further evidence, or other intervening procedure, to find such facts to be true, and if in the judgment of the Commission such facts admitted constitute a violation of law or laws as charged in the complaint, to make and serve findings as to the facts and an order to cease and desist from such violations. Upon application in writing made contemporaneously with the filing of such answer, the respondent, in the discretion of the Commission, may be heard on brief, in oral argument, or both, solely on the question as to whether the facts so admitted constitute the violation or violations of law charged in the complaint.

In witness whereof, the Federal Trade Commission has caused this, its complaint, to be signed by its Secretary, and its official seal to be hereto affixed, at Washington, D. C., this 17th day of December, A. D., 1938.

By the Commission.

[SEAL] OTIS B. JOHNSON,
Secretary.

SECURITIES AND EXCHANGE COMMISSION.

United States of America—Before the Securities and Exchange Commission

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 17th day of December, A. D. 1938.

[File No 43-164]

IN THE MATTER OF GENERAL PUBLIC UTILITIES, INC.

ORDER RELATING TO EFFECTIVENESS OF DECLARATION

General Public Utilities, Inc., a registered holding company, having filed a declaration and amendments thereto with this Commission pursuant to Section 7 of the Public Utility Holding Company Act of 1935 regarding the issue of a maximum of 15,212 shares of its no par common stock in connection with the payment of a proposed dividend on the outstanding common stock of the declarant; such proposed dividend is to be payable at the option of the stockholders either in the amount of $1.50 cash or in the amount of one-tenth of one share for each share of no par common stock held;

A public hearing having been held on the declaration pursuant to appropriate notice;[1] the Commission having considered the record in this matter and having made its findings herein;

It is ordered, That such declaration be and become effective forthwith subject to the following conditions:

(1) That the issue of the aforesaid no par common stock shall be effected in substantial compliance with the terms and conditions set forth in, and for the purposes represented by, said declaration, as amended.

(2) That within ten days after the issue of the aforesaid no par common stock, the declarant shall file with the Commission a certificate of notification showing the amount of cash paid and the number of shares issued and that such issue has been effected in accordance with the terms and conditions of, and for the purposes represented by, said declaration, as amended.

(3) That International Utilities Corporation and Commonwealth Distributions, Inc., affiliates of the declarant file applications pursuant to Section 10 of the Act for the approval of the Commission in regard to the acquisition of such securities as such companies have elected to receive in connection with the aforesaid dividend.

It is further ordered, That the Commission retain its jurisdiction in this matter to pass upon any application under Section 10 which may be filed by International Utilities Corporation or Commonwealth Distributions, Inc., affiliates of the declarant.

By the Commission.

IN THE MATTER OF HUNTINGTON GAS COMPANY

ORDER APPROVING APPLICATION

Huntington Gas Company, a registered holding company and a wholly owned subsidiary of Columbia Gas & Electric Corporation, also a registered holding company, having filed an application under Sections 12 (c) and 12 (d) of the Public Utility Holding Company Act of 1935 seeking approval for the transfer of 14,443 shares (99.9%) of the 6% Cumulative Preferred Stock of Huntington Development and Gas Company, a subsidiary, and of 39,871 shares (99.7%) of Huntington Development's common stock, all of which stock is presently held by the applicant; and also seeking approval of the acquisition and retirement by Huntington Gas Company of the outstanding shares of its own common stock; and

A public hearing having been held after appropriate notice;[1] a trial examiner's report, the right to submit findings of fact to the Commission and to have submitted to its proposed findings of fact by counsel to the Commission, the right to file briefs and the right to oral argument before the Commission having been waived:

It is hereby ordered, That the said application of Huntington Gas Company be and hereby is approved subject to the following condition:

That nothing in this record or these findings shall be held to bind the Commission with respect to the amounts of the accounting entries to be used in recording the value of the assets to be received by Columbia Gas & Electric Corporation upon dissolution of Huntington Gas Company.

By the Commission.

[File No. 30-52]

IN THE MATTER OF CITIZENS PUBLIC SERVICE COMPANY, BY WILLIAM W. BATTLES, WINTHROP H. BATTLES, JOSEPH B. KEEN, AND SAMUEL H. REYNOLDS, JR., LIQUIDATING DIRECTORS AND TRUSTEES

NOTICE OF AND ORDER FOR HEARING

An application pursuant to section 5 (d) of the Public Utility Holding Company Act of 1935, having been duly filed with this Commission by the above-named parties;

It is ordered, That a hearing on such matter be held on January 10, 1939, at ten o'clock in the a. m. of that day, at the Securities and Exchange Building, 1778 Pennsylvania Avenue, NW., Washington, D. C. On such day the hearing-room clerk in room 1102 will advise as to the room where such hearing will be held. At such hearing, if in respect of any declaration, cause shall be shown why such declaration shall become effective.

It is further ordered, That Willis E. Monty or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice to continue or postpone said hearing from time to time.

Notice of such hearing is hereby given to such declarant or applicant and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before January 5, 1939.

The matter concerned herewith is in regard to the application of the Liquidating Directors of the above company for an order of the Commission declaring that such company has ceased to be a holding company by reason of the fact that its sole assets were securities of Eastern Utilities Service Company and less than $100 cash, which company has effected a dissolution and distribution of its assets under the laws of the state of Delaware.

By the Commission.

IN THE MATTER OF CONSUMERS POWER COMPANY, THE COMMONWEALTH & SOUTHERN CORPORATION

ORDER APPROVING ISSUANCE AND ACQUISITION OF SECURITIES

Consumers Power Company, a subsidiary of The Commonwealth & Southern Corporation, a registered holding company, having filed declarations with this Commission pursuant to Section 7 of the Public Utility Holding Company Act of 1935, regarding the issuance and sale of 43,636 shares of no-par common stock at an aggregate stated value of $1,200,000 and $10,168,000 principal amount of First Mortgage Bonds, 3¼% Series of 1936, due 1966; and The Commonwealth & Southern Corporation having filed an application pursuant to Section 10 of the Act for the approval of the acquisition of said common stock;

A joint hearing on said declarations and application having been held after appropriate notice;[1] the record in this matter having been examined; and the Commission having made and filed its findings herein;

It is ordered, That the declarations of Consumers Power Company with respect to the issuance and sale of the bonds and common stock be and become effective forthwith; and that the application of The Commonwealth & Southern Corporation be and the same hereby is approved, subject to the condition that the Commission reserves jurisdiction as to the amount at which The Commonwealth & Southern Corporation carries its investment in the common capital stock of Consumers Power Company; provided, that the declarant and the applicant, within ten days after such sale and acquisition shall file, respectively, with this Commission certificates of notification showing that such sale and acquisition have been effected in accordance with the terms and conditions of, and for the purposes represented by, said declarations and application.

By the Commission.

IN THE MATTER OF CONSUMERS POWER COMPANY, CITIES SERVICE POWER & LIGHT COMPANY

ORDER APPROVING ACQUISITION AND SALE OF UTILITY ASSETS AND OTHER INTERESTS

Consumers Power Company, a subsidiary of The Commonwealth & Southern Corporation, a registered holding company, having filed an application with this Commission pursuant to Section 10 of the Public Utility Holding Company Act of 1935, for the approval of the acquisition by it of all the utility assets and other interests of The Citizens Light & Power Company, a subsidiary of Cities Service Power & Light Company, a registered holding company, for a consideration of $3,200,000; and Cities Service Power & Light Company having filed an application pursuant to Rule U-12D-1 promulgated under the Act for approval of the sale by it of all the said utility assets and other interests;

A hearing on said applications having been held after appropriate notice;[1] the record in this matter having been examined; and the Commission having made and filed its findings herein;

It is ordered, That such acquisition of the aforesaid utility assets and other interests by Consumers Power Company and such sale of the aforesaid utility assets and other interests by Cities Service Power & Light Company in accordance with the terms and conditions and for the purposes represented by said applications be and the same hereby are approved;

It is further ordered, That within ten days after such acquisition and sale the applicants shall file with this Commission certificates of notification showing that such acquisition and sale have been effected in accordance with the terms and conditions of and for the purposes represented by said applications.

By the Commission.

SUGAR DIVISION

DETERMINATION OF (1) NORMAL YIELD OF COMMERCIALLY RECOVERABLE SUGAR PER ACRE AND (2) ELIGIBILITY FOR PAYMENT WITH RESPECT TO ABANDONMENT AND CROP DEFICIENCY FOR FARMS IN THE MAINLAND CANE SUGAR AREA

Pursuant to the provisions of Section 303 of the Sugar Act of 1937,[1] I, H. A. Wallace, Secretary of Agriculture, do hereby determine:

1. That the normal yield of commercially recoverable sugar per acre for any farm in the mainland cane sugar area on which sugarcane was grown and marketed (or processed by the producer) for the extraction of sugar shall be the product of the average number of hundredweights of sugar, raw value, recovered per short ton of sugarcane processed for the extraction of sugar during the 1935–36 and 1936–37 crop seasons in the district in which the farm is located and (1) the average yield of sugarcane for sugar per acre, in short tons, for the farm during the crop years 1935 and 1936, if sugarcane for sugar was grown on the farm during both of such crop years, or (2) the average yield per acre, in short tons, of sugarcane for sugar harvested during the crop years 1935 and 1936 on similar farms in the community in which the farm is located, if sugarcane for sugar was not grown on the farm in both of such crop years.

2. That for the purposes of paragraph 1 above, a district shall be any one of the following groups of parishes or counties:

I. Iberia, Lafayette, Acadia, St. Martin, St. Mary and Vermilion parishes, Louisiana.

II. Rapides, St. Landry, Evangeline, Avoyelles and West Feliciana parishes, Louisiana.

III. Assumption, La Fourche and Terrebonne parishes, Louisiana.

IV. Ascension, Iberville, Pointe Coupee, East Baton Rouge, West Baton Rouge, St. Charles, St. James, St. John, St. Bernard, Jefferson and Plaquemines parishes, Louisiana.

V. Indian River county, Florida.

VI. All other counties in Florida where sugarcane is grown and processed for the extraction of sugar.

3. That any farm located in a parish or county in which the actual yields of commercially recoverable sugar from the sugarcane for farms comprising 10 percent or more of the acreage of such sugarcane were 80 percent or less of the normal yields therefor, because of drought, flood, storm, freeze, disease or insects, shall be eligible for abandonment and deficiency payments, pursuant to section 303 of the said act.

Done at Washington, D. C. this 22d day of December 1938. Witness my hand and the seal of the Department of Agriculture.

Findings of Fact

Pursuant to the provisions of Section 4a of the Commodity Exchange Act (U. S. C., 1934 ed. and Supp. III, title 7, sec. 6a), the Commodity Exchange Commission, after full consideration of the record made at a public hearing [1] held in Chicago, Illinois, beginning December 1, 1937, of which due public notice had been given, and at which all persons were given opportunity to hear, present, refute, and comment upon evidence in the premises, does hereby find the following:

A. Except as otherwise stated herein, trading in any one grain for future delivery on a contract market, by a person who holds or controls a speculative net position of more than 2,000,000 bushels, long or short, in any one future or in all futures combined, in such grain on such contract market, tends to cause sudden and unreasonable fluctuations and changes in the price of such grain not warranted by changes in the conditions of supply or demand, and is not needed to maintain market liquidity or to facilitate hedging on such contract market.

B. A speculative long or short position in excess of 2,000,000 bushels consisting of spreads in any one grain between markets is less likely to cause sudden and unreasonable fluctuations and changes in price than that mentioned in paragraph A hereof.

C. Except as otherwise stated herein, speculative buying or speculative selling by any person during one business day of more than 2,000,000 bushels in any one future, or in all futures combined, in any one grain on any one contract market, tends to cause sudden and unreasonable fluctuations and changes in the price of such grain not warranted by changes in the conditions of supply or demand, and is not needed to maintain market liquidity or to facilitate hedging on such contract market.

D. The buying or selling of amounts in excess of 2,000,000 bushels in any one future is less likely to cause sudden and unreasonable fluctuations and changes in price than that mentioned in paragraph C hereof if such buying or selling consists of spreads in any one grain between markets.

Conclusions

Upon the foregoing facts, it is concluded that in order to diminish, eliminate, or prevent the undue burden of excessive speculation in grain futures which causes unwarranted price changes, it is necessary to establish limits on the amount of speculative trading, under contracts of sale of grain for future delivery on contract markets, which may be done by any one person; that 2,000,000 bushels is a reasonable limitation on the net long or net short position which any person may hold or control and upon the daily purchases or sales which any person may make, in any one grain on any one contract market, in any one future or all futures combined; that a higher limitation should be fixed for net position and for purchases and sales if any part thereof represents spreading in the same grain between markets, and 3,000,000 bushels is a reasonable limitation under such circumstances, but in no event should the increase over 2,000,000 bushels exceed the amount of the net position represented by spreading nor should a spread include more than 2,000,000 bushels in any one future.

Order

It is hereby ordered, That the following limits on the amount of trading under contracts of sale of grain for future delivery on or subject to the rules of contract markets which may be done by any person be, and they are hereby, proclaimed and fixed, to be in full force and effect on and after December 31, 1938:

Position Limits

1. The limit on the maximum net long or net short position which any one person may hold or control in any one grain on any one contract market, except as specifically authorized by paragraph 2 hereof, is: 2,000,000 bushels in any one future or in all futures combined.

2. To the extent that the net position held or controlled by any one person in all futures combined in any one grain on any one contract market is shown to represent spreading in the same grain between markets, the limit on net position in all futures combined set forth in paragraph 1 hereof may be exceeded on such contract market, but in no case shall the excess result in a net position of more than 3,000,000 bushels in all futures combined nor more than 2,000,000 bushels in any one future.

Daily Trading Limits

3. The limit on the maximum amount which any person may buy, and on the maximum amount which any person may sell, of any one grain on any one contract market during any one business day, except as specifically authorized by paragraph 4 hereof, is: 2,000,000 bushels in any one future or in all futures combined.

4. To the extent that purchases or sales of any one grain on any one contract market during any one business day made by any person are shown to represent spreading, or the closing of spreads, in the same grain between markets, the limit set forth in paragraph 3 hereof may be exceeded on such contract market, but in no case shall the excess result in total purchases of more than 3,000,000 bushels, or total sales of more than 3,000,000 bushels, and in no event shall such person's total purchases or total sales, during any one business day, in any one future exceed 2,000,000 bushels.

The foregoing limits upon position and upon daily trading shall not be construed

[1] 2 F. R. 2460 (2859 DI).

to apply to bona fide hedging transactions as defined in paragraph (3) of section 4a of the Commodity Exchange Act.

Nothing contained in these Findings of Fact, Conclusions, or Order shall be construed to affect any provisions of the Commodity Exchange Act relating to manipulation or corners, nor to relieve any contract market, or its governing board, from responsibility to prevent manipulation and corners under paragraph (d) of section 5 of the Commodity Exchange Act.

In testimony whereof we have hereunto affixed our respective signatures this 22d day of December, 1938.

H. A. WALLACE,
Secretary of Agriculture, Chairman.
DANIEL C. ROPER,
Secretary of Commerce.
HOMER CUMMINGS,
Attorney General.

TITLE 21—FOOD AND DRUGS

BUREAU OF NARCOTICS

[T. D. 29]

AMENDING NARCOTIC REGULATIONS TO EXTEND TIME WITHIN WHICH ORDER FORMS FOR NARCOTICS MAY BE FILLED

Pursuant to the authority contained in Section 1 of the Act of December 17, 1914 (38 Stat. 785; U. S. Code (1934 Ed.) Title 26, Sec. 1049), as amended by Section 703 of the Revenue Act of 1926 (44 Stat. 9, 96) and Section 806 of the Revenue Act of 1936 (49 Stat. 1648, 1745), Article 82 of Narcotic Regulations No. 5, approved June 1, 1938,[1] is hereby amended to read as follows:

"ART. 82. *Filling of orders.*—The consignor shall enter upon the order form the number and size of the stamped packages furnished on each item and the date when each item is filled. When an order can not be filled in its entirety it may be filled in part and the balance supplied by additional shipments within 60 days from the date of the order form. A notation, covering each shipment, showing the actual quantities supplied and the date of delivery, shall be made by the vendor on the original and by the vendee on the duplicate."

[SEAL] H. J. ANSLINGER,
Commissioner of Narcotics.
GUY T. HELVERING,
Commissioner of Internal Revenue.

Approved, December 16, 1938.

WAYNE C. TAYLOR,
Acting Secretary of the Treasury.

TITLE 26—INTERNAL REVENUE

BUREAU OF INTERNAL REVENUE

[T. D. 4877]

INCOME TAX

INCOME FROM TRANSMISSION OF MESSAGES FROM POINTS WITHIN THE UNITED STATES TO POINTS WITHOUT THE UNITED STATES

To Collectors of Internal Revenue and Others Concerned:

Regulations 94, approved November 12, 1936,[1] and Regulations 86, approved February 11, 1935, are amended as follows:

(a) Article 119-14 of Regulations 94 and 86 is redesignated "Article 119-15."

(b) A new article is added after article 119-13 of Regulations 94 and 86 to read as follows:

"ART. 119-14. *Telegraph and cable service.*—A foreign corporation carrying on the business of transmission of telegraph or cable messages between points in the United States and points outside the United States derives income partly from sources within and partly from sources without the United States.

"(1) *Gross income.*—The gross income from sources within the United States derived from such services shall be determined by adding (a) its gross revenues derived from messages originating in the United States and (b) amounts collected abroad on collect messages originating in the United States and deducting from such sum amounts paid or accrued for transmission of messages beyond the company's own circuit. Amounts received by the company in the United States with respect to collect messages originating without the United States shall be excluded from gross income.

"(2) *Net income.*—In computing net income from sources within the United States there shall be allowed as deductions from gross income determined in accordance with paragraph (1), (a) all expenses incurred in the United States (not including any general overhead expenses) incident to the carrying on of the business in the United States, (b) all direct expenses incurred abroad in the transmission of messages originating in the United States (not including any general overhead expenses or maintenance, repairs and depreciation of cables and not including any amount already deducted in computing gross income), (c) depreciation of property (other than cables) located in the United States and used in the trade or business therein, and (d) a proportionate part of the general overhead expenses (not including any items incurred abroad corresponding to those enumerated in (a), (b) and (c)) and of maintenance, repairs and depreciation of cables of the entire cable system of the enterprise based on the ratio which the number of words originating in the United States bears to the total words transmitted by the enterprise."

This Treasury Decision is issued under the authority contained in sections 62 and 119 of the Revenue Acts of 1936 and 1934.

[SEAL] GUY T. HELVERING,
Commissioner of Internal Revenue.

Approved, December 22, 1938.

JOHN W. HANES,
Acting Secretary of the Treasury.

TITLE 34—NAVY

NAVY DEPARTMENT

BUREAU OF SUPPLIES AND ACCOUNTS MANUAL[1]

SEC. 4.1014 *Methods of purchase (ashore and afloat).* Three methods of purchase are established:

Purchase after newspaper advertisement.

Purchase after advertising by means of circulars, letters, or bulletins.

Purchase in a manner common among business men.

Forms of agreement.—

The two forms of agreement used are as follows:

Formal contracts: The transaction is reduced to writing and signed by both parties at the end thereof.

Less formal contracts: When the amount involved is $500 or less and the transaction is completed with an order, written proposal and acceptance, or an oral agreement immediately executed.

SEC. 4.1015 *Methods of purchase by Bureau of Supplies and Accounts—Routine procedure.* The following is a description of the routine followed by the Bureau of Supplies and Accounts in the purchase of stock materials for the supply departments of yards, stations, and supply depots.

Advertising. The manner of advertising as required by law is one of departmental discretion, but the Bureau of Supplies and Accounts relies principally on the distribution of schedules. Newspaper advertising, as required by Sec. 3718, R. S., 34 U. S. C. 561, is resorted to when time permits.

Schedules. At such times as the stock requests (S. and A. Form 235) and requisitions (S. and A. Form 76) received from yards and stations render purchase by the bureau necessary and market conditions are favorable, the bureau consolidates these requests and requisitions in the form of schedules for distribution to prospective bidders. Three copies are sent to each dealer in the particular commodity to be purchased as shown by the bureau's mailing list of bidders. Sched-

[1] Supersedes the articles bearing same numbers in Code of Federal Regulations.

ules are printed or mimeographed and contain such essential data as—

The schedule number, date, and hour of opening bids.

The material required, by quantities, and divided into classes by commodities and delivery points.

The points of delivery.

The specifications.

Navy leaflet specifications are not sent with the schedule. If a bidder does not have them in his possession, he may apply to the Bureau of Supplies and Accounts or to any navy yard, supply depot, or purchasing office for copies. Copies of schedules are also mailed to the supply activities at the delivery points concerned as notice to supply officers of the bureau's action.

Standard Form 31, Navy edition (Standard Government Form of Bid, Supply Contract. With each schedule are mailed two copies of Standard Form 31, Navy edition, which, after being filled out in accordance with the detailed instructions printed thereon, serves bidders as a transmitting letter, guaranty, and cover for schedule. Standard Form 31 and the schedule, both filled out, constitute the formal proposal or bid.

Opening bids. Three weeks is the average time allowed between the time schedules are sent out and date bids are opened. When bids are received, they are placed in locked boxes where they remain until the advertised hour for opening, when they are removed and opened, concurrently and publicly, under the supervision of an officer. All bids are read aloud in the presence of bidders, press representatives, and representatives of bonding companies, and are immediately recorded in books which are at all times open for inspection. Late bids are not considered unless it can be shown by post marks, registry receipts or otherwise, that they were mailed in sufficient time to have arrived by the hour set for the opening, and where it is clearly evident that no unfair advantage has accrued to the late bidder by reason of the delay. Telegraphic bids are not considered, unless asked for, but telegraphic modifications or withdrawals are accepted if received prior to the hour of opening. After all bids have been read and recorded, the duplicate copies thereof are placed on a counter where they may be examined by all interested parties.

Awards. Awards are made to the lowest responsible bidder offering material in accordance with the specifications, except in a few cases of statutory exemption where the Government is not required to accept the low bid. Tie bids are decided by lot. The Navy always reserves the right to award by item rather than by class; to reject all bids; and to accept modified bids if this can be done without injustice to other bidders. Awards are made as soon as a decision is reached. Awards which involve no technical consideration are made immediately. Bids which require the recommendation of a technical bureau or a navy yard are submitted thence, and awards made as soon thereafter as practicable. Telegraphic notice of award is made in important cases. A formal award is made in all cases.

Bureau contract or order—Contracts. After award is made, a formal contract is prepared on Standard Form 32, Navy edition, if the amount involved is over $500. A blank form for bond is printed on the back of the contract form and is prepared by the bureau for execution by the contractor in each case except where the contractor has an annual bond on file. The original contract, unsigned, is mailed to the contractor for signature and execution of bond. With the contract the bureau sends, for the contractor's retention, a memorandum containing all the essential data of the contract and a statement by the Paymaster General that a contract has been entered into by the Navy. The orginal contract, after being executed by the contractor, is returned to the bureau. It is then signed by the purchasing officer and forwarded to the General Accounting Office. The Navy signs and requires a contractor to sign but one copy of a contract.

Bureau orders (N. S. A. Form 526). Bureau orders are prepared where the amount involved is $500 or less, no contract or bond in such cases being required.

Copies. Copies of bureau contracts and orders are prepared and distributed to bureaus, supply officers, inspectors, and others concerned. Certified copies of contracts, together with the necessary affidavit form and all bids received are filed with the Returns Office of the General Accounting Office in accordance with Sec. 3744, R. S., 41 U. S. C. 16.

S. and A. contract bulletins. The Bureau of Supplies and Accounts distributes bulletins and circular letters showing articles covered by the Bureau of Supplies and Accounts annual and quarterly contracts, such as packings, coal, gasoline and distillate, lubricating oil, fuel oil, boiler gaskets, CO_2 gas, and tool steel.

SEC. 4.1017 *Purchases in the manner common among business men (ashore and afloat)—Authority.* The authority to make purchases "in the manner common among business men" is contained in the Act of March 2, 1907 (34 Stat. 1193), 34 U. S. C. 571.

Ashore. All shore stations where there is a regularly organized supply department and all Navy purchasing offices are authorized to make sundry purchases of articles and to procure services on approved requisitions in a direct manner such as is "common among business men."

Requisition necessary. Purchase may be made under annual requisition for sundry purchases, annual requisition for certain supplies or services, or duly approved individual requisition.

Method of purchase not to be used for certain materials. No article, material, or services may be purchased in this manner which, under other instructions, require procurement thereof from or through some other department or establishment of the Government.

Services of a temporary nature only may be procured under this authority. Services of a continuous nature, such as towel service, water, etc., required from month to month will be procured under written contract in the usual manner.

Printing machinery or equipment shall not be purchased in this manner.

Limitation on cost of items purchased. The limit of cost of any one item or group of items of similar material that may be so purchased at industrial navy yards, Navy purchasing offices, naval supply depots, the Naval Torpedo Station, Newport, the Naval Aircraft Factory, and the Naval Air Stations, Pensacola, San Diego, and Norfolk, is $500 and at other shore activities $200, unless otherwise specifically authorized by the Bureau of Supplies and Accounts.

Procedure. Under this authority, the purchasing officer may purchase any article or services required within the limits of the requisition without advertisement and without formal bids or written awards. Bids may be obtained orally (over the counter), by telephone, by telegraph, or by written invitations. Competition should be secured whenever it is practicable to do so without delaying procurement, unduly increasing the work involved in the procurement, or otherwise obviating the benefits derived by this method of purchase. A written record showing the form of bids (oral, telephonic, telegraphic, or written) will be made of bids received, and kept in the files of the purchasing (supply) officer. When competition is obtained, the order will be placed with the dealer quoting the lowest price for satisfactory delivery. The order may be placed in writing, or orally (over the counter), by telephone, or by telegraph; and written confirmation is not required.

Public voucher (Standard Form 1034) will be prepared, based on dealer's invoice in the prescribed manner. When purchase is made on annual requisitions, the word "sundry" will be entered following the requisition number. In the administrative certificate on the face of the public voucher, the blank following "No." will be filled in by the figure "4"; on the back of the public voucher, the "Method or absence of advertising" will be filled in by entering opposite "4" the words "Act of March 2, 1907 (34 Stat. 1193)." No formal contract or other written agreement being required, no statement and certificate of award (Standard Form 1036) will be required.

Afloat. Ships operating directly under the general supply system may employ the method of purchase described above under the following additional restrictions:

The authority contained herein is not intended to be used as a means to circumvent the established methods of procurement nor to obtain special or nonstandard material in contravention of instructions issued by cognizant bureaus or contained in Navy Regulations.

The limit of cost of any one item or group of items of similar material that may be so purchased is $50, unless otherwise specifically authorized by the Bureau of Supplies and Accounts.

When a ship is at a navy yard or naval station, no item shall be purchased unless and until the ship has ascertained that the item cannot be supplied from stock by the supply activity on shore. When the item cannot be supplied from stock, the ship may requisition same for purchase by the supply activity.

Purchases made under annual requisitions will be taken up in Class 201 and immediately expended to use.

Annually, each ship operating directly under the general supply system shall forward to the Bureau of Supplies and Accounts for approval an annual requisition covering purchases authorized by this article, for the amount stated in the Bureau of Supplies and Accounts Memoranda.

SEC. 4.1028 *Special instructions—List of bidders—Mailing list.* All purchasing officers ashore shall keep an up to date mailing list of bidders.

Manufacturers to be invited to bid. Purchasing officers will whenever practicable, encourage manufacturers to submit bids direct. Manufacturers will be furnished with proposals, accompanied by a letter requesting them to bid and pointing out the advantages of doing business direct with the Government. (See Sec. 4.1043.)

Defaulting contractors not to be invited to bid. See Sec. 4.1081.

Inviting bids when making an award is uncertain. Purchasing officers shall avoid sending out proposals and asking for bids when not reasonably certain that an award will be made. It is unfair to put manufacturers or contractors to the trouble and expense of drafting bids unnecessarily.

Specifications. Specifications should contain all the essential or minimum requirements without naming details which are not essential and would limit competition.

Whenever possible, specifications shall include a clause to the effect that bids to furnish other designs or material than that specified will be considered. Under such liberal specifications the right is had to reject any bid covering an article not suitable in every respect for the purpose for which desired.

The description of a proprietary article will not be used unless nothing else will answer the needs of the service and such a proprietary certificate is made on the requisition.

Acceptable list of approved materials. The Acceptable List of Approved Materials, issued by the Bureau of Supplies and Accounts covers materials which require extended test prior to purchase in order to determine suitability for Naval use. The purpose of this list is to facilitate the purchase of satisfactory materials: (1) When the time required for complete test after execution of a contract is so great as to delay delivery; (2) and/or the cost of inspecting is prohibitive; (3) and/or the necessary tests require complicated or expensive testing apparatus not in general commercial use; (4) and/or the technical requirements cannot be fully described by a specification; (5) and/or the material is of an experimental nature.

Bid forms for items on the Acceptable List of Approved Materials will be distributed not only to the manufacturers and regular dealers listed but also to other prospective sources of supply. Such bid forms will contain a notation as follows:

Name of manufacturer (not the dealer)____
Type or brand offered____

Manufacturers not listed should be encouraged to apply to have their products tested.

The applicable one of the following acceptable list clauses will be inserted on bid forms for items on the Acceptable List of Approved Materials:

(1) *When the specification contains no reference to prior test requirement and the item is listed in the Acceptable List of Approved Materials:*

The right is reserved to reject bids on (here insert "brands" or "types" as applicable) of (here insert name of material) which have not been subjected to the required tests and found satisfactory. The attention of manufacturers is called to this requirement, and they are urged to forward samples of the articles they propose to offer the Navy in the future in order that the tests may be made. These tests will be conducted at the expense of the manufacturers. Information with reference to the expense involved and as to where samples should be sent will be supplied upon application to the Bureau of Supplies and Accounts, Navy Department, Washington, D. C. In the case of failure of the sample submitted to prove satisfactory consideration will be given to the requests of manufacturers for additional tests only after it has been clearly shown that changes have been made in the product with reference to design, method of manufacture, etc., which the Bureau considers sufficient to warrant additional tests.

(2) *When the specification contains the acceptable list clause quoted under subpar. (1):*

The attention of bidders is invited to paragraph —— of the specifications, wherein it will be noted that the right is reserved to reject any bids on (brands) (types) of (here insert name of material) which have not been subjected to the required tests and found satisfactory. The attention of manufacturers is called to this requirement, and they are urged to take the necessary steps to have their product tested. For information regarding tests, apply to the Bureau of Supplies and Accounts, Navy Department, Washington, D. C.

(3) *When the old type of test clause or "service test" clause appears in the specification:*

Except as amended below the —— shall be in strict accordance with specification ——, issued by the Navy Department ——. Paragraph —— is amended to read as follows: (Quote clause given under subpar. (1).)

When Government is to furnish material. When the Government proposes to furnish the raw materials to be fabricated by contractors, schedules will specify whether the Government retains title to all raw materials furnished. If the title is retained, a clause will be incorporated in the advertisement to the effect that bond or insurance shall be furnished by the contractor in an amount representing the value of the material, to protect the Government against loss by fire, theft, etc.

Where partial payments are to be made. (a) See Sec. 3648, R. S.; 31 U. S. C. 529.

(b) The Act of Aug. 22, 1911 (37 Stat. 32), 34 U. S. C. 582, authorizes partial payments during the progress of work under contracts, not in excess of the value of work already done. Whenever proposals or schedules are issued in which partial payments as the work progresses are provided for, the following provision will be incorporated therein:

When partial payments are made as herein provided, it is understood that the Government has a lien on the articles or material covered by this contract, such lien to be paramount to all other liens upon the same and this bid is submitted under the express condition that such lien is given.

A bond on contract covering this class will be required in an amount sufficient to cover the partial payments to be made in addition to the delivery bond regularly provided for.

Readvertising for bids. Readvertisement or a supplementary opening of bids should be avoided as far as practicable.

Precautions against unbalanced bids on estimated quantity contracts. An unbalanced bid is one submitted by a bidder who bids high on certain items in a class, and so low on other items which are less frequently, even seldom, required, that he is certain to underbid competitors on such items—his quotations being so figured that his total bid for the class is low—the bidder making it as sure as he can, by shrewd judgment or otherwise, that his low-cost items will not be called for. Contractors are able at times to do this, as, with the exception of provisions, ships' stores and commissary stores stocks, awards of contracts are generally made to the lowest responsible bidder on an entire class, except when, in accordance with a right always to be reserved in the stipulated conditions of bidding,

the saving to the Government from award by items will be material or when the result of the bidding shows that the material has not been properly classified, in which case awards are made by items. Purchasing officers should carefully guard against unbalanced bids by preparing proposals with the articles to be bought so classified as to nature, quantities, and sizes needed that prospective bidders will find it practically impossible to submit unbalanced bids with any hope of success.

Representations and stipulations prescribed by Act of June 30, 1936. The Act of June 30, 1936 (49 Stat. 2036, 41 U. S. C., Supp. II, 35), provides that certain representations and stipulations be included in bids and contracts exceeding $10,000, except when such bid or contract covers certain items specifically exempted in the act (statutory) or by the Department of Labor under authority of the act (administrative).

Exemptions. The exemptions in so far as the Navy is concerned are as follows:

Contracts for $10,000 or less.

Contracts for perishables, including dairy, livestock and nursery products. This covers products subject to decay or spoilage, but not products canned, salted, smoked, or otherwise preserved. Invitations for bids and contracts for perishables within the scope of the exemption will be confined to such products, and not include any products or supplies subject to the stipulations.

Contracts with a common carrier for carriage of freight or personnel by vessel, airplane, bus, truck, express, or railway line, where published tariff rates are in effect. Contracts for drayage and transportation of household effects are exempted from the stipulation only when the prices are based on published tariff rates.

Contracts for the furnishing of service by radio, telephone, telegraph, or cable companies, subject to the Federal Communications Act of 1934.

Contracts for public utility services including electric light and power, water, steam, and gas.

Contracts which are to be performed outside the geographic limits of the United States, its territories, and the District of Columbia, except when such performance requires a shipment from within such geographic limits.

Contracts covering purchases against the account of a defaulting contractor when the stipulations were not included in the defaulted contract.

On all bids other than those exempted, the following stipulations shall be included, and subsequently incorporated in the contract:

Representations and stipulations pursuant to Act of June 30, 1936 (49 Stat. 2036; 41 U. S. C., Supp. II, 35). It is understood and agreed that this bid is submitted, and any contract awarded thereon in any amount exceeding $10,000.00 will be performed, subject to the representations and stipulations of Public Act No. 846, 74th Congress, and regulations issued by the Secretary of Labor pursuant thereto, as follows:

(a) The contractor is the manufacturer of or a regular dealer in the materials, supplies, articles, or equipment to be manufactured or used in the performance of the contract.

(b) All persons employed by the contractor in the manufacture or furnishing of the materials, supplies, articles, or equipment used in the performance of the contract will be paid, without subsequent deduction or rebate on any account, not less than the minimum wages as determined by the Secretary of Labor to be the prevailing minimum wages for persons employed on similar work or in the particular or similar industries or groups of industries currently operating in the locality in which the materials, supplies, articles, or equipment are to be manufactured or furnished under the contract: Provided, however, That this stipulation with respect to minimum wages shall apply only to purchases or contracts relating to such industries as have been the subject matter of a determination by the Secretary of Labor.

(c) No person employed by the contractor in the manufacture or furnishing of the materials, supplies, articles, or equipment used in the performance of the contract shall be permitted to work in excess of 8 hours in any 1 day or in excess of 40 hours in any 1 week, unless such person is paid such applicable overtime rate as has been set by the Secretary of Labor.

(d) No male person under 16 years of age and no female person under 18 years of age and no convict labor will be employed by the contractor in the manufacture or production or furnishing of any of the materials, supplies, articles, or equipment included in the contract.

(e) No part of the contract will be performed nor will any of the materials, supplies, articles, or equipment to be manufactured or furnished under said contract be manufactured or fabricated in any plants, factories, buildings, or surroundings or under working conditions which are insanitary or hazardous or dangerous to the health and safety of employees engaged in the performance of the contract. Compliance with the safety, sanitary, and factory inspection laws of the State in which the work or part thereof is to be performed shall be prima-facie evidence of compliance with this subsection.

(f) Any breach or violation of any of the foregoing representations and stipulations shall render the party responsible therefor liable to the United States of America for liquidated damages, in addition to damages for any other breach of the contract, in the sum of $10 per day for each male person under 16 years of age or each female person under 18 years of age, or each convict laborer knowingly employed in the performance of the contract, and a sum equal to the amount of any deductions, rebates, refunds, or underpayment of wages due to any employee engaged in the performance of the contract; and, in addition, the agency of the United States entering into the contract shall have the right to cancel same and to make open-market purchases or enter into other contracts for the completion of the original contract, charging any additional cost to the original contractor. Any sums of money due to the United States of America by reason of any violation of any of the representations and stipulations of the contract as set forth herein may be withheld from any amounts due on the contract or may be recovered in a suit brought in the name of the United States of America by the Attorney General thereof. All sums withheld or recovered as deductions, rebates, refunds, or underpayments of wages shall be held in a special deposit account and shall be paid, on order of the Secretary of Labor, directly to the employees who have been paid less than minimum rates of pay as set forth in such contracts and on whose account such sums were withheld or recovered: Provided, That no claims by employees for such payments shall be entertained unless made within 1 year from the date of actual notice to the contractor of the withholding or recovery of such sums by the United States of America.

(g) The contractor shall post a copy of the stipulations in a prominent and readily accessible place at the site of the contract work and shall keep such employment records as are required in the Regulations under the act available for inspection by authorized representatives of the Secretary of Labor.

(h) The foregoing stipulations shall be deemed inoperative if this contract is for a definite amount not in excess of $10,000.00.

A bidder or contractor shall be deemed to be a "manufacturer" or "regular dealer" within the meaning of stipulation (a) if he falls within one of the following categories:

(a) A manufacturer is a person who owns, operates, or maintains a factory or establishment that produces on the premises the materials, supplies, articles, or equipment required under the contract and of the general character described by the specifications.

(b) A regular dealer is a person who owns, operates, or maintains a store, warehouse, or other establishment in which the materials, supplies, articles, or equipment of the general character described by the specifications and required under the contract are bought, kept in stock, and sold to the public in the usual course of business.

Every bid received from any bidder who does not fall within one of the foregoing categories shall be rejected.

Until otherwise set by the Secretary of Labor, the rate of pay for any overtime performed under the conditions of stipulation (c) shall be one and one-half times the basic hourly rate or piece rate received by the employee. Overtime in any one week or part thereof an employee is engaged in work covered by the contract stipulations, shall be computed after eight hours in any one day or after 40 hours in any one week during which no single daily total of employment may be in excess of eight hours without payment of the overtime rate.

The stipulations affecting employees shall be deemed applicable only to employees engaged in or connected with the manufacture, fabrication, assembling, handling, supervision, or shipment of materials, supplies, articles, or equipment required under the contract and shall not be deemed applicable to office or custodial employees.

An contractor subject to the representations and stipulations embodied herein shall maintain the following records of employment which shall be available for the inspection and transcription of authorized representatives of the Secretary of Labor.

(a) Name, address, sex, age, and occupation of each employee covered by the contract stipulations.

(b) Wage and hour records for each such employee including the rate of wages and the amount paid each pay period, the hours worked each day and each week, and the period during which each such employee was engaged on a Government contract with the number of such contract.

Such records shall be kept on file for at least one year after the termination of the contract.

Stipulation (b), with respect to wages, is inoperative until the Secretary of Labor, prior to the invitation for bids, has made a determination of the prevailing minimum wage for the industry or group of industries producing or marketing materials within the scope of the contract, and the determination of prevailing minimum wages or changes therein are so indicated in the invitation for bids.

When the stipulations are incorporated in the invitation to bid by the use of a separate sheet, standard Government form of bid (Standard Form 31), signed by the bidder, will include a clause as follows:

This bid is made subject to the representations and stipulations of Act of June 30, 1936 (49 Stat. 2036; 41 U. S. C., Supp. II, 35) attached hereto, where applicable.

Specific exemptions may be authorized by Department of Labor.

SEC. 4.1044 *Making awards—Release of bids on account of errors therein.* The United States is not responsible for mistakes in price made by a bidder, and an accepted bid is binding unless the prices bid are so disproportionate as to put the contracting officer on notice and their enforcement would be unconscionable. A contract must be considered as a whole and certain items may not be singled out for settlement on the basis of a quantum meruit.

Relief in case of manifest error. If award has not been made, the bidder may be permitted to withdraw his bid and the award should then be made to the next lowest bidder.

After award the discretion vested in the purchasing officer to release a bidder ceases, and requests received from contractors for release on contracts based on bids made in error will be forwarded to the Bureau of Supplies and Accounts accompanied by full data, comment, and recommendation for decision and action. Relief may then be obtained only by submission of the whole matter to the General Accounting Office.

Lowest unqualified bid to win award. The lowest eligible bidder offering to deliver articles in accordance with specifications is, in the absence of specific laws and regulations to the contrary entitled to the award. (See Sec. 3718, R. S., 34 U. S. C. 561.) While purchases under Sec. 3721, R. S., 34 U. S. C. 569, need not be made from the lowest bidder, yet other things being equal, the lowest bid, if more than one has been obtained, shall be accepted.

Bids that offer the lowest net transportation rate available to the Government may be considered, provided the result of such equalization can be readily and accurately determined before award is made.

Tie bids, all other things being equal, will be decided by public drawing of the names of the tie bidders. This drawing may be witnessed by bidders or their representatives present at the time of the drawing. When so requested by a bidder, drawing will be at a set time after due notice to all interested parties.

Acceptance of one bid constitutes rejection of others. The acceptance of one bid is a rejection of all other bids, and one of the bids so rejected can not be subsequently accepted so as to hold a guarantor of such rejected bid to his guaranty that such bidder would enter into a contract within 10 days after notice of acceptance of his bid. (Digest of Opinions, J. A. G., U. S. Army, 1912, p. 301.)

Award to a higher bidder in error. If an award is made to a higher bidder in error and the contractor has proceeded with manufacture and delivery before the error has been discovered, the contract should be considered complete with deliveries already made, and payment shall be made not in excess of the lowest satisfactory bid which was received at the original opening. The contractor should then be advised that he may submit a claim to the General Accounting Office for the difference between his price and the price quoted by the lowest satisfactory bidder. He may also submit a claim to the General Accounting Office for any damages which he may have sustained through the suspension of deliveries under his contract.

Rejection of bids on account of fraud. The United States may reject a bid in a case of fraud, as where the lowest bidder is in collusion with other bidders or with the representative of the United States to impose a high price upon the Government. In such a case the bids of all bidders concerned in the fraud may be rejected. (Digest of Opinions, J. A. G., U. S. Army, 1912, p. 302.)

Rejection of bids on account of absence of competition. Absence of competition is a good reason for rejecting all bids and asking for new ones.

Readvertisement equivalent to rejection. A readvertisement is equivalent to a rejection of all bids previously received.

Determination of award where discounts are offered. The determination of award where discounts are offered in bids is a matter for decision by the purchasing officer. If, by reason of the offered discount, a bid is low and there appears, in the judgment of the purchasing officer, reasonable certainty that the performance of the necessary administrative duties in connection with receipt, inspection, and payment is practicable of accomplishment, the bid should be accepted; if not, the bid should not be regarded as low.

When specifications refer to Acceptable List of Approved Materials. Award will be made to the lowest bidder offering material of a brand or trade name on the Acceptable List of Approved Material.

When it may be to the interest of the Government to accept a lower bid offering material not of an approved brand or if there are any indications that the low bidder is offering material which may have been tested and approved, the bids will be referred to the Bureau of Supplies and Accounts for instructions prior to award.

When rejection is made of a lower bid based on material which has not been tested and approved, the rejection certificate will be worded as follows:

The bid of ------ is rejected for the reason that the material bid on has not been tested and approved as required by the specifications.

Modification of bids by contracting officers prohibited. In awarding the contract to the lowest bidder the contracting office can not modify the terms of his bid in regard to the time of delivery or any other of its material elements. (4 Op. Atty. Gen. 334.) While the Government may not force the bidder to accept award under terms different from those contained in his bid, modifications may, after award, be made with bidder's consent, and the changes mutually agreed upon may be embodied in the contract.

No modification of the bid shall be permitted after the opening, and no ne-

gotiations shall be conducted with the bidder which so modifies or changes the bid as to affect the award. (See also 9 Comp. Gen. 24.)

Awards to delinquent contractors. See Sec. 4.1081 for instructions.

Awards to be made within a reasonable time. An obligation lies upon the Government to make an award within a reasonable length of time after an opening of bids. What constitutes a reasonable time is something that can not be definitely defined. An award should be made at the earliest practicable moment after the opening of bids. A bidder can not, after notice by the Government of acceptance thereof, withdraw his bid. (See Sec. 4.1042.)

Notice of award not binding upon the Government. Although a contractor is obligated once the award is made to him, the Government is not bound legally by a notice of award which has not been followed by a contract. The Government is bound by practice, however, and in good faith to follow the notice of award with a contract, if not otherwise illegal. If this was not done, the contractor might refuse to proceed until a signed contract had been issued to him; resulting in a great loss of time in securing material.

Action necessary where bids exceed requisition estimates. Awards may be placed at the discretion of the purchasing officer on bids exceeding the estimated cost of the approved requisition, except that under any of the following conditions the bids should be referred via the bureau concerned to the Bureau of Supplies and Accounts for instructions:

When, after reference to the yard department concerned, the purchasing officer does not feel warranted in placing award at the apparently excessive amount.

When the requisition distinctly indicates thereon that bids are to be referred to the bureaus concerned prior to award.

On requisitions for materials for a purpose other than for stock, e. g., an expensive machine for which a special allotment may have been made, when the lowest acceptable bid exceeds the estimated cost by 15 per cent or more and the amount of the bid is more than $100.

These instructions are not to be applied to the total of all items on a requisition, but to each item or if there is a group of items of a similar nature such that they would ordinarily be bid upon by anyone dealing in that particular line, to the total of that group.

While the telegraph and long distance telephone should not be used when ordinary correspondence can be made to serve, these means of communication with the Bureau of Supplies and Accounts relative to the bids treated in this paragraph will be used when in the judgment of the purchasing or supply officer circumstances demand it.

Reference of bids. When necessary, bids will be referred by purchasing officers ashore to the yard department, the ship, or bureau concerned for recommendation as to award.

Bids to furnish machinery and machine tools will be referred to the bureau having cognizance of the machine in question, for recommendation as to award. In the case of field purchases, the bids, together with the required data, will be referred to the bureau concerned, via head of the division of the yard concerned, for recommendation as to award.

Acceptance of bids to be in writing. When bidders' proposals are submitted in writing, the purchasing officer will indorse over his own signature the word, "Accepted," or "Accepted as to items Nos. ——," on the proposal winning the award. Acceptance of a bid shall always be in writing.

Certificates on proposals as to acceptance must be actually signed by the officer of the Supply Corps detailed as purchasing officer except when he is absent. In such cases they will be signed by the officer of the Supply Corps who is assistant to the purchasing officer if there is one, or if none, by the pay clerk detailed to duty in the office.

Forms of awards. When an award is made to a bidder, it will be embodied either in the form of an order or of a formal contract. If the amount of the purchase is $500 or less, regardless of the time of delivery, the order will be used.

SEC. 4.1054 *Contract provisos—Provision in regard to quantities—Use of term "estimated quantities," in contracts.* Under a running contract covering estimated quantities, delivery can not be required of more than a reasonable excess above the estimated quantity stated in the contract. The custom is generally established of considering an increase of 25 per cent as about the maximum which can be required. The Supreme Court of the United States, has repeatedly held that "the addition of the qualifying words, 'about,' 'more or less,' and the like * * * is only for the purpose of providing against accidental variations arising from slight and unimportant excesses or deficiencies in number, measure, or weight."

In other than annual, semi-annual, quarterly, or monthly contracts, the exact quantities desired shall be stated. Any variation in the quantity specified, not exceeding 10 percent, will be accepted as a compliance with the contract when caused by conditions of loading, packing, or allowances in manufacturing processes, as provided for in the standard bid, contract, and order forms.

In annual, semi-annual, quarterly, and monthly contracts, one of the following clauses shall be used:

When the requirements can be estimated:

The quantities specified are estimated only, and it is agreed that the Government is obliged to order not less than 75 per cent of the material contracted for. It is further agreed that the contractor will furnish any quantities of the material specified which may be ordered for the Naval service at the places designated during the period ending ——, 19——, irrespective of the estimated quantity for each item, provided the aggregate quantity ordered will not exceed by more than 25 per cent the aggregate quantity specified in the estimates.

When it is impossible to determine the quantity or quantities required within a reasonable limit:

The uncertain and varying needs of the Navy make it impossible to determine the quantity or quantities of the articles and materials described herein that may be required during the contemplated period of the contract. Estimated quantities are stated for information only. It is mutually understood and agreed that the Government will order and the contractor will deliver the quantities of the kinds of articles and materials described in the specifications that in the judgment of the ordering officer may be required during the contract period, except as may be otherwise indicated in the bid. These supplies will be ordered from time to time during the life of the contract in such quantities for delivery in such forms and to such places provided for by the contract as the needs of the Naval service require. Bids made with the proviso that the total deliveries will not exceed a certain specified quantity will be considered, but the right is reserved to reject any bid which provides that the Government shall guarantee to take any definite quantity.

Specifications governing partial deliveries. In all contracts calling for deliveries covering a period of time the following clause will be used to specify such delivery conditions:

To be delivered, all transportation charges paid, to the Supply Officer, Navy Yard, ——, at such times and in such quantities as may be ordered during the period ending ——, each delivery to be made within —— days after receipt of order from the supply officer.

Under the prescribed wording, difficulties and objections as to orders placed toward the end of a contract period will be avoided, as the clause clearly provides that orders may be placed during the whole contract period.

Patterns and molds furnished by the Government. All contracts based on requisitions specifying that the Government shall furnish contractors with necessary patterns or molds to manufacture the required articles shall include a clause specifically stating whether the Government or the contractor shall bear the transportation charges on such patterns or molds when shipped to the contractor, and also when returned by the contractor.

Provision for inspection—(a) Factory inspection. Unless specifically provided otherwise in the contract, inspection will be made at the place of manufacture or point of shipment, unless mill or factory inspection is subsequently waived. (See Sec. 4.1093.)

All handling of material necessary for purposes of inspection shall be done at the expense of the contractor, and all tests shall be made and all test specimens and drillings for check analysis, necessary for the determination of the quality of the material, shall be furnished by the contractor without expense to the United States.

Where unauthorized shipment is made before Government inspection, the United States reserves the right to return the material at the contractor's expense to the place of manufacture for inspection.

Where useless trips of inspector are caused by incorrect information given by the contractor, the United States reserves the right to charge the expense of such trips to the contractor and to deny inspection at the plant.

If the contractor places orders with a subcontractor for all or any portion of the services or materials contracted for, quadruplicate copies of such orders must be furnished to the inspector representing the bureau concerned in the inspection district in which the contractor's works are located. Such orders will state all details concerning the material ordered, including the purpose for which same is used, when stated in the contract. Such orders shall be considered suborders and must contain the number of original contract. In case material requires special treatment, after leaving the manufacturer's works, other than machining, such orders must state explicitly the nature of the treatment.

Inspection after delivery. All contracts and orders for material to be inspected after delivery will be plainly stamped (original and copies) in prominent letters as follows: "SUBJECT TO INSPECTION ON DELIVERY."

Inspection must be made by Government inspectors. No contracts of the Navy Department should contain any provision for final inspections and acceptances by agencies other than those connected with and a part of the Government. (Comp. Gen. Oct. 20, 1928.)

Insurance charges. A contract provision that the contractor carry insurance for the benefit of the Navy must state that the terms of the insurance policy will be satisfactory to the Secretary of the Navy. The policy will be delivered to the purchasing officer, and by him forwarded to the Bureau of Supplies and Accounts for transmission to the Judge Advocate General.

Insurance as a part of the cost of material furnished. The Government does not pay insurance on property belonging to it unless such payment is specifically authorized by Congress in making the appropriation involved. Decisions of the Comptroller of the Treasury apparently permit a contractor to insure property prior to its delivery to the Government and include the premiums paid as a part of the necessary cost of such material. Under a contract the terms of which provided for the payment to the contractor of "the actual cost of necessary labor and material, plus 10 per cent," liability insurance of 4.2 per cent of the cost of labor was allowed as a legitimate charge in making up the amount to be paid to the contractor under the terms specified. (22 Comp. Dec. 261, Dec. 11, 1915.) When a contractor is given a definite price for material plus the cost of delivery at any other point to which he is required to forward it, and insurance for safe delivery is a normal and legitimate expense, the cost of such insurance may be included in the expense bill as a separate item, provided the charge is a reasonable one, described as "Insurance paid by the contractor while the (name of material) was in his possession and at his risk prior to its delivery into the possession of the Government."

SEC. 4.1093 *Bureaus' material inspectors.* The various technical bureaus have inspectors stationed throughout the United States to inspect material under contract at place of manufacture. These inspectors will be furnished with copies of all contracts, both formal (Standard Form 32) and less formal (S. and A. Form 105) providing for factory inspection and with copies of all orders placed thereunder. (See Sec. 4.1053.)

When material is ready for inspection, the contractor will notify the inspector concerned and prepare for delivery to him the requisite number of copies of reports of material shipped (Form I. N. M. 10). Upon completion of inspection, the inspector will forward certified copies of the report of material shipped to the various offices concerned, two copies being usually forwarded to the supply officer of the yard to which shipment is made.

Waiver of inspection at point of manufacture. If not other otherwise required by the contract, inspection at place of manufacture or point of shipment may be waived by the bureau concerned, or by its local representative, and inspection made after delivery, when the value of material is small or the distance from an inspection office great (so that the cost of inspection would be large in comparison with the value of the material), or when for other reasons inspection at destination is desirable. In such case the manufacturer shall ship the material at his own risk, subject to inspection after delivery. Inspectors are not authorized to waive inspection of material purchased f. o. b. contractor's works without having first obtained permission from the bureau concerned, the bureau making necessary modifying arrangements with contractors.

Inspection at point of manufacture—Acceptance as final. Unless specifically provided otherwise in the contract, inspection at the factory or point of shipment is final as to quality. (See Art. 1611 (2), N. R., Sec. 1.1611, Part I hereof.)

Material accepted f. o. b. contractor's works must not be shipped by contractor on commercial bill of lading. No action toward shipment by contractor should be taken pending receipt of instructions with Government bill of lading. (See Sec. 4.1121.)

Shipment on Government bill of lading. Inspection of material covered by contracts which provide for delivery f. o. b. works is to be made before shipment; the material will then be shipped under Government bill of lading.

In rare cases when it is impracticable for material to be inspected before shipment, and it is desired to ship it as Government property under Government bill of lading, provision may be made in the contract for the acceptance of the material without inspection before shipment under the contractor's guaranty to provide for an inspection after delivery at destination, and in case of rejection for failure to comply with the specifications the contractor to accept the return of the material and to replace the same at the point of destination at his own expense with satisfactory material. Under such a guaranty contained in the contract, shipment may be made under Government bill of lading to be furnished by the inspecting officer or under his instructions.

The method outlined in the preceding paragraph is followed only when some distinct advantage to the Government will accrue thereby. In all other cases, if it is impracticable to inspect material before shipment, awards are to be based on delivery by the contractor at the point of destination.

When a chemical analysis of articles or supplies on contracts which provide for delivery f. o. b. works is necessary, shipment will not be made on Government bill of lading until a satisfactory report of the result of analysis is received by the inspector from the laboratory, except in cases where the contract provides for a guaranty as outlined herein. Under contracts which provide for delivery f. o. b. destination, the contractor may be authorized to make the shipment prior to receipt of report of chemical analysis, in which case the inspector will note such fact on the reports of material shipped, and upon receipt of report of chemical analysis will notify the offices concerned by letter of the result of the chemical test.

SEC. 4.1123 *Inspection of material in general—Inspection mandatory.* All purchased material and supplies of every character shall be subjected to inspection and approval as to quantity and quality before payment. (See Sec. 4.1054.)

Duties of supply officers and inspecting officers. Persons conducting inspections shall inspect carefully as to quantity and

quality; making or causing to be made such tests as may be required. No material shall be passed unless the inspecting officer is satisfied that it conforms to the requirements of the specifications as included in the requisition or contract. In cases of special emergency minor defects in material needed for immediate use may be waived, by specific authority of the commandant. The inspecting officer shall sign his name to the inspection report (S. and A. Form 65) or prepare a memorandum form, whichever is the station routine, certifying to the fact that the material has been inspected and passed both as regards quality and quantity, or that it has been rejected, stating fully the reasons for the rejection.

Procedure where Navy standard specifications do not exist. Where Navy standard specifications do not exist and contracts or orders are, therefore, placed on the basis that the material used in manufacture or construction shall be in accordance with specifications prepared locally, the methods of inspection as given in the standard leaflet specifications and the latest edition of the General Specifications for Inspection of Material, will be followed where applicable.

Rejections. In case of rejection, notice thereof shall be sent by the supply officer to the contractor, giving the reasons for the rejection and stating that the supplies are held subject to the contractor's order and at his risk. If not removed by him within 10 days, the supplies so rejected may be returned at the contractor's expense, after due notification, in whatever way the supply officer may consider most convenient.

Rejected material shall in no case be delivered to a contractor's representative except upon surrender of the rejection notice, or upon presentation of an itemized receipt from the contractor or his representative. When rejected material is returned to a contractor by freight or express, the bill of lading or express receipt shall contain an itemized list of such material. The notice, receipt, copy of bill of lading, or express receipt having been indorsed with a statement (signed by the supply officer) of the date, number, and contents of the pass upon which the rejected articles were allowed to leave the yard, shall be filed as a permanent record with the requisition or contract to which it pertains.

Decision of inspecting officer questioned. See Art. 1400 (3), N. R.; Sec. 1.1400, Part I hereof.

Acceptance of rejected material at a reduced price. Material delivered under a contract and rejected as not conforming to specifications will not be accepted at a reduced price except when—

It is actually needed for Government purposes,

It is entirely fit for Government use,

The reduction in price on bureau contracts and in general, on field contracts, in other than minor cases or in emergency, is approved by the Bureau of Supplies and Accounts before acceptance.

Provisions will not be accepted under any conditions if there is the slightest doubt as to their purity or nutritive value.

Inspection of special material—Hemp and similar products of variable weight. Hemp and similar products whose weight varies with the humidity of the atmosphere should be weighed and tagged upon receipt, and subsequent issues made on the basis of such tagged weights. If the difference between the quantity billed and the quantity received is not excessive, inspection reports will be certified for payment on the basis of the billed weights and the difference covered by survey and taken up in or expended from the stock records, as the case may be.

Lumber. If check measurements made after delivery of material are within 4 per cent of the original measurement reported by an inspector making inspection at the mill, the original measurement will be accepted as correct without further controversy or investigation, and payment will be made, based on the original measurement. If, however, the check measurement differs by more than 4 per cent from the original measurement, further investigation will be made before settlement is made for the material involved. Lumber culled out for off grade in check inspection after delivery should be included in the 4 per cent tolerance.

When contracts for lumber and timber provide for acceptance of the material f. o. b. contractor's works, mill inspection, acceptance, and shipment by the Government under Government bill of lading is conclusive, unless otherwise stipulated by provisions of the contract. However, check measurements of timber and lumber covered by f. o. b works contracts should be made after delivery; and shortages in excess of 4 per cent investigated.

SEC. 4.2000 *Sales—Condemned and surplus material—Terms of sale.* Each catalog shall include a statement of the terms of sale, clearly defining all the conditions of the sale, prior inspection, method of payment and delivery, and the bidder's risk and the Government's liability.

Conditions and terms of sale (S. and A. Form 248), which will be an integral part of each catalog, covers the standard conditions of sale. Any restrictions applicable to special materials will be incorporated in the catalog.

The Act of July 9, 1918 (40 U. S. C. 314), provides that the sale of guns and ammunition shall be limited: to other departments of the Government; to foreign states or governments engaged in war against any government with which the United States is at war; to members of the National Rifle Association; and to other recognized associations organized in the United States for the encouragement of small arm target practice. When such articles are offered for sale, conditions necessary to carry this Act into effect will be included.

Sealed bid sales. Bids received prior to the date of opening shall be kept in the supply officer's safe.

Bids received by mail after the time advertised for the opening shall be handled as directed in Sec. 4.1042.

Conduct of sale—Awards. Awards shall be made by the supply officer as soon as possible after the opening of bids.

No modification of the award price shall be made because of deterioration in the material discovered after award, nor any allowance by delivery of additional material or other material, or in any other manner. When commodities offered for sale are not as advertised, the facts and circumstances shall be referred to the Bureau of Supplies and Accounts for decision.

As soon as practicable after the opening of bids, letters of award shall be prepared by the supply officer and forwarded to the successful bidders.

Letters of award shall enumerate the various lots and items awarded, setting forth the amount bid, the total amount purchased, the amount deposited, and the balance due the Government or the purchaser as the case may be. The method of paying the balance due the Government and the time limit allowed for removal of the material shall be stated in the letter of award, as shall also any special condition stipulated in the terms of sale as applying to any particular material or classes of material.

Deposits by bidders. Should a bidder desire to apply his deposit on unsuccessful bids in payment on account of accepted bids, the amount so applied shall be included in the column for deposits on account of accepted bids.

Deliveries. Deliveries shall be made in accordance with the terms of sale, unless an extension is granted by the contracting officer. An extension will be given only when, in the opinion of the contracting officer, it is in the interest of the Government. Any extension granted will be in writing. No delivery shall be made until final payment for the entire purchase has been received.

[SEAL] W. B. WOODSON,
Judge Advocate General of the Navy.

DECEMBER 21, 1938.

TITLE 47—TELECOMMUNICATION

FEDERAL COMMUNICATIONS COMMISSION

CHAPTER II. GENERAL SUBSTANTIVE RULES

PART 25. SPECIAL PROVISIONS RELATING TO COMMON CARRIERS

The Commission adopted the following new rule:

SEC. 25.01 *Cost of projects; disclosures.* Each application by a radiotelegraph or radiotelephone common carrier for any authorization by the Commission, shall include a statement showing the estimated cost of the project. If such cost is in excess of $10,000 the principal items of property and the purposes represented by such cost shall be shown. Where any such authorization is granted by the Commission for a project involving expenditure in excess of $10,000, the applicant, permittee, or licensee shall file with the Commission, within 90 days after completion of the project authorized, a statement showing a summary of expenditures made and the accounting performed in connection therewith. (Sec. 4 (i), 48 Stat. 1066; 47 U. S. C. 154 (i)—Sec. 308 (b), 48 Stat. 1084; 47 U. S. C. 303 (b)—Sec. 319 (a), 48 Stat. 1089; 47 U. S. C. 319 (a)) [Section 26.01, F. C. C., Dec. 19, 1938]

By the Commission.

[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 38-3880; Filed, December 22, 1938; 2:41 p. m.]

CHAPTER XIII—RULES GOVERNING COMMERCIAL RADIO OPERATORS

TABLE OF CONTENTS

Part
160 General.
161 Applications.
162 Examinations.
163 Scope of authority.
164 Miscellaneous

PART 160—GENERAL

Section
160.01 Licensed operators required.
160.02 Classes of licenses.
160.03 Dual holding of licenses.
160.04 Term of licenses.

PART 161—APPLICATIONS

161.01 Procedure.
161.02 Special provisions, radiotelegraph first class.

PART 162—EXAMINATIONS

162.01 Examination elements.
162.02 Examination requirements.
162.03 Form of writing.
162.04 Passing mark.
162.05 New class, additional requirements.
162.06 Cancelling and issuing new licenses.
162.07 Eligibility for reexamination.
162.08 Renewal examinations and exceptions.

CODE TESTS

162.21 Transmitting speed requirements.
162.22 Transmitting test procedure.
162.23 Receiving speed requirements.
162.24 Receiving test procedure.
162.25 Computing work or code groups.

PART 163—SCOPE OF AUTHORITY

163.01 Operators' authority.
163.02 Special privileges.
163.03 Operator's responsibility.

PART 164—MISCELLANEOUS

164.01 Issue of duplicate license.
164.02 Exhibiting signed copy of application.
164.03 Supervision of examinations for permit.
164.04 Verification card.
164.05 Posting license or verified statement.

SERVICE

164.06 Endorsement of service record.
164.07 Aviation service endorsements.
164.08 Service acceptability.
164.09 Statement in lieu of service endorsement.

PART 160—GENERAL

SEC. 160.01 *Licensed operators required.*[1] Unless otherwise specified by the Commission, the actual operation of any radio station for which a station license is required shall be carried on only by a licensed radio operator of the required class.[2] * #

SEC. 160.02 *Classes of licenses.* The classes of commercial operator licenses issued by the Commission are:

a. *Commercial radiotelephone group.*

(1) Radiotelephone second class operator license.

(2) Radiotelephone first class operator license.

b. *Commercial radiotelegraph group.*

(1) Radiotelegraph second class operator license.

(2) Radiotelegraph first class operator license.

c. *Restricted commercial group.*

(1) Restricted radiotelephone operator permit.

(2) Restricted radiotelegraph operator permit.* #

SEC. 160.03 *Dual holding of licenses.* A person may not hold more than one radiotelegraph operator license (or restricted radiotelegraph permit) and one radiotelephone operator license (or restricted radiotelephone operator permit) at the same time.* #

160.04 *Term of licenses.* Commercial operator licenses are normally issued for a term of five years from the date of issuance.* #

PART 161—APPLICATIONS

SEC. 161.01 *Procedure.* The application form in duplicate for operator license, properly completed and signed, shall be submitted in person or by mail to the office at which the applicant desires to be examined, which office will make the final arrangements for conducting the examination. If the application is for renewal of license, it must be submitted during the last year of the license term and if the service requirements are fulfilled[3] the renewal license may be issued by mail. A renewal application shall also be accompanied by the license to be renewed.* #

SEC. 161.02[4] *Special provisions, radiotelegraph first class.* An applicant for the radiotelegraph first class operator license must be at least twenty-one years of age at the time the license is issued and shall have had an aggregate of one year of satisfactory service as a radiotelegraph operator manipulating the key of a manually operated radiotelegraph station on board a ship or in a manually operated coastal telegraph station.* #

PART 162—EXAMINATIONS

SEC. 162.01 *Examination elements.* Written examinations will comprise questions from one or more of the following examination elements:

(a) *Basic law.* Provisions of law and regulation with which every operator should be familiar.

(b) *Basic theory and practice.* Technical matters appropriate for every class of license except restricted radiotelephone operator permit.

(c) *Radiotelephone.* Additional matters, both legal and technical, including radiotelephone theory and practice.

(d) *Advanced radiotelephone.* Theory and practice applicable to broadcast station operation.

(e) *Radiotelegraph.* Additional matters, both legal and technical, including radiotelegraph theory and practice.

(f) *Advanced radiotelegraph.* Radiotelegraph theory and practice of wider scope, particularly with respect to ship radio matters (direction finders, ship radiotelephone stations, spark transmitters, etc.).* #

SEC. 162.02. *Examination requirements.* Applicants for original licenses will be required to pass examinations as follows:

(a) *Radiotelephone second class operator license.*

(1) Ability to transmit and receive spoken messages in English.

(2) Written examination elements: one, two, and three.

(b) *Radiotelephone first class operator license.*

(1) Ability to transmit and receive spoken messages in English.

(2) Written examination elements: one, two, three, and four.

(c) *Radiotelegraph second class operator license.*

(1) Ability to transmit and receive spoken messages in English.

(2) Transmitting and receiving code test of sixteen (16) code groups per minute.

(3) Written examination elements: one, two, five, and six.

(d) *Radiotelegraph first class operator license.*

(1) Ability to transmit and receive spoken messages in English.

(2) Transmitting and receiving code test of twenty-five (25) words per minute plain language and twenty (20) code groups per minute.

(3) Written examination elements: one, two, five and six.

* Promulgated under the authority contained in Sec. 4 (i), 48 Stat. 1066; 47 U. S. C. 154 (i)—Sec. 303 (l), 48 Stat. 1083; 47 U. S. C. 303 (l).

Adopted by the F. C. C. Dec. 19, 1938, to become effective May 1, 1939.

[1] Wherever the term "license" is used generally to denote an authorization from the Commission, it includes both "license" and "permit."

[2] See Section 163.01.

[3] See Section 162.08.

[4] Radiotelegraph first class licenses now held by persons under 21 years of age may be renewed without regard to the age limit provided by Sec. 161.02.

(e) *Restricted radiotelephone operator permit.*

(1) Ability to transmit and receive spoken messages in English.

(2) Written examination element one.

(f) *Restricted radiotelegraph operator permit.*

(1) Transmitting and receiving code text of sixteen (16) code groups per minute.

(2) Written examination elements one, two, and five.* #

SEC. 162.03 *Form of writing.* Written examinations shall be in English and shall be written by the applicant in longhand in ink, except that diagrams may be in pencil.* #

SEC. 162.04 *Passing mark.* A passing mark of 75 per cent of a possible 100 per cent will be required on each element of a written examination.* #

SEC. 162.05 *New class, additional requirements.* The holder of a license, who applies for another class of license, will be required to pass only the added examination elements for the new class of license.* #

SEC. 162.06 *Cancelling and issuing new licenses.* If the holder of a license qualifies for a higher class in the same group, the license held will be cancelled upon the issuance of the new license. Similarly, if the holder of a restricted operator permit qualifies for a first or second class operator license of the corresponding type, the permit held will be cancelled upon issuance of the new license.* #

SEC. 162.07 *Eligibility for reexamination.* An applicant who fails an examination element will be ineligible for two months[6] to take an examination for any class of license requiring that element. Examination elements will be graded in the order listed,[7] and an applicant may, without further application, be issued the class of license for which he qualifies.* #

SEC. 162.08 *Renewal examinations and exceptions.* A license may be renewed without examination provided the service record on the license[7] shows at least three years satisfactory service in the aggregate during the license term and while actually employed as a radio operator under that license; or shows at least two years service in the aggregate, under the same conditions, of which one year must have been continuous and immediately prior to the date of application for renewal.

If the above requirements have not been fulfilled, but the service record shows at least three months satisfactory service in the aggregate, while actually employed as a radio operator under the license during the last three years of the license term, a license may be renewed upon the successful completion of a renewal examination which may be taken at any time during the last year of the license term.

Renewal examinations will consist of the same elements as for original licenses. However, the written examination will be directed toward a determination of the applicant's qualifications to continue to hold the license for which he has previously qualified. If the renewal examination is not successfully completed before expiration of the license sought to be renewed, or if the service is not acceptable, the applicant will be examined as for the original license.* #

CODE TESTS

SEC. 162.21 *Transmitting speed requirements.* An applicant is required to transmit correctly in the International Morse Code for one minute at the rate of speed prescribed in these rules for the class of license desired.* #

SEC. 162.22 *Transmitting test procedure.* Transmitting tests shall be performed by the use of the conventional Morse key except that a semi-automatic key, if furnished by the applicant, may be used in transmitting code tests of twenty-five words per minute.* #

SEC. 162.23 *Receiving speed requirements.* An applicant is required to receive the International Morse Code by ear, and legibly transcribe, consecutive words or code groups for a period of one minute without error at the rate of speed specified in the rules for the class of license for which application is made.* #

SEC. 162.24 *Receiving test procedure.* Receiving code tests shall be written in longhand either in ink or pencil except that in the case of the twenty-five words per minute code test a typewriter may be used when furnished by the applicant.* #

SEC. 162.25 *Computing word or code groups.* Each five characters shall be counted as one word or code group. Punctuation marks or figures count as two characters.* #

PART 163—SCOPE OF AUTHORITY

SEC. 163.01 *Operators' authority.* The various classes of commercial operator licenses issued by the Commission authorize the holders thereof to operate radio stations, except amateur, as follows:

(a) *Radiotelephone Second Class Operator License.* Any station while using type A–0, A–3, A–4 or A–5 emission except standard broadcast stations, International Broadcast stations or ship stations licensed to use power in excess of 100 watts and type A–3 emission for communication with coastal telephone stations.

(b) *Radiotelephone First Class Operator License.* Any station while using type A–0, A–3, A–4, or A–5 emission except ship stations licensed to use a power in excess of 100 watts and type A–3 emission for communication with coastal telephone stations.

(c) *Radiotelegraph Second Class Operator License.* Any station while using type B, A–0, A–1, A–2, A–3 or A–4 emission except

(1) Any of the various classes of broadcast stations other than a relay broadcast station, or

(2) On a passenger[8] vessel required by treaty or statute to maintain a continuous radio watch by operators or on a vessel having continuous hours of service for public correspondence, the holder of this class of license may not act as chief operator.

(3) On a *vessel* (other than a vessel operated exclusively on the Great Lakes) required by treaty or statute to be *equipped* with a *radiotelegraph* installation, the holder of this class license may not act as chief or sole operator until he has had at least six months' satisfactory service as a qualified radiotelegraph operator on a vessel of the United States.

(d) *Radio telegraph first class operator license.* Any station while using type B, A–0, A–1, A–2, A–3, or A–4 emission except

(1) Any of the various classes of broadcast stations other than a relay broadcast station.

(2) On a *cargo vessel* (other than a vessel operated exclusively on the Great Lakes) required by treaty or statute to be *equipped* with a *radiotelegraph* installation, the holder of this class license may not act as chief or sole operator until he has had at least six months' satisfactory service as a qualified radiotelegraph operator on a vessel of the United States.

(e) *Restricted radiotelephone operator permit.* Any station while using type A–0, A–3, or A–4 emission; provided that,

(1) Such operator is prohibited from making adjustments that may result in improper transmitter operation.

(2) The equipment is so designed that none of the operations necessary to be performed during the course of normal rendition of service may cause off-frequency operation or result in any unauthorized radiation.

(3) Any needed adjustments of the transmitter that may affect the proper operation of the station are regularly made by or in the presence of an operator holding a first or second class license, either telephone or telegraph, who shall be responsible for the proper operation of the equipment.

Exceptions:

(1) The permit is not valid for the operation of any of the various classes of broadcast stations other than a relay broadcast station.

(2) The permit is not valid for the operation of a coastal telephone station or a coastal harbor station other than in the Territory of Alaska.

(3) The permit is not valid for the operation of a ship station licensed to use type A–3 emission for communication with coastal telephone stations.

(f) *Restricted radiotelegraph operator permit.*

Any station while using type B, A–0, A–1, A–2, A–3, or A–4 emission; provided that, in the case of equipment designed for and using type A–3 or A–4 emission,

(1) Such operator is prohibited from making adjustments that may result in improper transmitter operation.

(2) The equipment is so designed that none of the operations necessary to be performed during the course of normal rendition of service may cause off-frequency operation or result in any unauthorized radiation.

(3) Any needed adjustments of the transmitter which may affect proper operation of the station are regularly made by or in the presence of an operator holding a first or second class license, either telephone or telegraph, who shall be responsible for the proper operation of the equipment.

Exceptions:

(1) The permit is not valid for the operation of any of the various classes of broadcast stations other than a relay broadcast station.

(2) The permit is not valid for the operation of a ship station licensed to use type A–3 emission for communication with coastal telephone stations.

(3) The license is not valid for the operation of a radiotelegraph station on board a vessel required by treaty or statute to be equipped with a radio installation.

(4) The license is not valid for the operation of any ship telegraph, coastal telegraph, or marine-relay station open to public correspondence.* #

SEC. 163.02 *Special privileges.*

(a) Any operator may operate any station in the experimental service, while using frequencies above 300,000 kilocycles.

(b) Subject to the limitations set forth herein[9] the holder of any class radiotelephone operator license may operate a radiotelephone point-to-point station, a coastal harbor, or coastal telephone station while using A–1, or A–2 emission, for testing or other transmission entirely secondary and incidental to the service of such station.* #

SEC. 163.03 *Operator's responsibility.* The licensed operator responsible for the maintenance of a transmitter may permit other persons to adjust a transmitter in his presence for the purpose of carrying out tests or making adjustments requiring specialized knowledge or skill, provided that he shall not be relieved thereby from responsibility for the proper operation of the equipment.* #

PART 164—MISCELLANEOUS

SEC. 164.01 *Issue of duplicate license.* An operator whose license or permit has been lost, mutilated, or destroyed, shall immediately notify the Commission. A sworn application for duplicate should be submitted to the office of issue embodying a statement attesting to the facts thereof. If a license has been lost, the applicant must state that reasonable search has been made for it, and further, that in the event it be found either the original or the duplicate will be returned for cancellation. The applicant must also give a statement of the service that has been obtained under the lost license.* #

SEC. 164.02 *Exhibiting signed copy of application.* When a duplicate operator license or permit has been requested, or request for renewal upon service has been made, the operator shall exhibit in lieu thereof a signed copy of the application for duplicate, or renewal, which has been submitted by him.* #

SEC. 164.03 *Supervision of examinations for permit.* Persons other than employees of the Commission may be authorized to supervise examinations for Restricted Radiotelephone Operator Permits for one or more employees of a division of local or State Government, provided:

a. That the absence of such employees for the purpose of taking an examination at a field office or designated examining city would interfere with the proper functioning of the division, and

b. That the chief of police, director of public safety, or other official of equal responsibility furnish the names of the persons to be examined and designate an official by name and title to supervise the examination. The application for supervisory examination shall be made to the inspector in charge of the district in which the applicants are located.* #

SEC. 164.04 *Verification card.* The holder of an operator license who operates any station in which the posting of an operator license is not required, may, upon filing application[10] in duplicate, accompanied by his license, obtain a Verification Card.[11] This card may be carried on the person of the operator in lieu of the original operator license, provided the license is readily accessible within a reasonable time for inspection upon demand by an authorized Government representative.* #

SEC. 164.05 *Posting license or verified statement.* The holder of a radiotelegraph or radiotelephone first or second class license who is employed as a service and maintenance operator at stations operated by holders of Restricted Operator Permits shall post at such station his operator license or a verified statement from the Commission[12] in lieu thereof.* #

SERVICE

SEC. 164.06 *Endorsement of service record.* A station licensee, or his duly authorized agent, or the master of a vessel acting as the agent of a licensee, shall endorse the service record appearing on said operator license, showing the call letters and types of emission of the station operated, the nature and period of employment and quality of performance of duty.* #

SEC. 164.07 *Aviation service endorsement.* If the operator has operated more than three stations in the aviation service, the service may be shown by giving the name of the aviation chain or company in lieu of listing the call letters of the several stations.* #

SEC. 164.08 *Service acceptability.* Credit will be allowed only for satisfactory service obtained under conditions that required the employment of licensed operators, or when obtained at United States Government stations.* #

SEC. 164.09 *Statement in lieu of service endorsement.* The holder of a Radiotelegraph License or a Restricted Radiotelegraph Operator Permit desiring an endorsement to be placed thereon attesting to an aggregate of at least six months' satisfactory service as a qualified operator on a vessel of the United States, may, in the event documentary evidence cannot be produced, submit to any office of the Commission, a statement under oath accompanied by the license to be endorsed, embodying the following:

(1) Names of ships at which employed;
(2) Call letters of stations;
(3) Types of emission used;
(4) Type of service performed as follows:

(a) Manual radiotelegraph operation only; and
(b) Transmitter control only; or
(c) Combination of (a) and (b) running concurrently;

(5) Whether service was satisfactory or unsatisfactory;
(6) Period of employment;
(7) Name of master, employer, licensee or his duly authorized agent.* #

By the Commission.

[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 38–3881; Filed, December 22, 1938; 2:41 p. m.]

[1] A month after date is the same day of the following month, or if there is no such day, the last day of such month. This principle applies for other periods. For example, in the case of the two month period to which this note refers, an applicant examined December 1 may be reexamined February 1, and an applicant examined December 29, 30, or 31 may be reexamined the last day of February, while one examined February 28 may be reexamined April 28.

[6] See Section 162.02.

[7] See Sections 164.06 to 164.09, inclusive.

[8] A ship shall be considered a passenger ship if it carries or is licensed or certificated to carry more than twelve passengers. A cargo ship means any ship not a passenger ship.

CHAPTER XVII. RULES GOVERNING POSTING, FILING, ETC. OF TARIFFS

PART 227. CHANGES IN SCHEDULES

The Commission amended the following section, effective January 1, 1939, to read as follows:

SEC. 227.07 *Schedules attributable to foreign carrier or administration.* When any change is made in a charge by a foreign carrier or foreign administration not subject to the Act and such charge is used as a factor of through charges published and filed by a carrier subject to the Act, for communications between points in the United States and points in any foreign country, a change in such through charges may be established by the carrier subject to the Act on not less than one day's notice to the Commission and to the public; provided (1) that the carrier subject to the Act has no control over such charge of such foreign carrier or foreign administration by contract or otherwise, (2) that the change in through charges shall reflect only the difference in through charges caused by the change in such charge of such foreign carrier or foreign administration, (3) that a tariff, supplement or revised page shall be filed each time a reduction is made in the charge of such foreign carrier or foreign administration, as well as when increases are made, and (4) that every such tariff, supplement and revised page shall be accompanied by a memorandum showing the portion of the through charges accruing to the carrier subject to the Act. (Sec. 203 (a), 48 Stat. 1070; 47 U. S. C. 203 (a)) [Rule 8 (g), Tariff Circular No. 1, as amended by Order No. 12-E, F. C. C., Dec. 19, 1938]

By the Commission.

CHAPTER XXII. RULES GOVERNING THE FILING OF INFORMATION, CONTRACTS, PERIODIC REPORTS, ETC.

PART 343. SPECIAL REPORTS

Damage Claims Relating to Traffic

The Commission repealed Telegraph Division Order No. 24, effective December 19, 1938. This had the effect of repealing Sections 343.01, 343.02, and 343.03.

Effective December 19, 1938, the Commission adopted the following sections, embodying the requirements of Telegraph Division Order No. 24:

SEC. 343.01 *Separate files for each claim.* Each telegraph carrier subject to the Communications Act of 1934 shall maintain separate files for each damage claim or complaint of a traffic nature filed with or against the carrier, including those upon which message tolls or revenues are returned to the claimant, showing the name and address of claimant, the nature of the claim, disposition made and all correspondence, reports, and records pertaining thereto. These files shall be maintained in accordance with existing rules and regulations regarding destruction of records (Chapter XVIII of Federal Communications Commission Regulations), and at points (one or more) to be specifically designated by each carrier.* #

SEC. 343.02 *Summary of claims to be reported: verification.* Each telegraph carrier subject to the Communications Act of 1934 shall report to the Commission a summary of claims or complaints described in Sec. 343.01, in duplicate. Such reports shall be submitted to the Commission annually for each year from January 1 to December 31, on a form prescribed by the Commission, and shall be filed with the Commission within three months after the close of the year for which the report is made. The responses must be verified upon the oath of the officer of the reporting carrier under whose direction and supervision they are compiled.* #

SEC. 343.03 *Certain claims or complaints not included.* The provisions of Sections 343.01 and 343.02 shall not extend to claims or complaints which are not reduced to writing by the complainant and on which no payment or return of tolls is made.* #

By the Commission.

TITLE 49—TRANSPORTATION AND RAILROADS

INTERSTATE COMMERCE COMMISSION

[Ex Parte No. MC-2]

ORDER IN THE MATTER OF MAXIMUM HOURS OF SERVICE OF MOTOR CARRIER EMPLOYEES

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 22nd day of December, A. D. 1938.

Upon further consideration of the record in the above-entitled proceeding and good cause therefor appearing:

It is ordered, That the effective date of the Commission's order of July 12, 1938,[1] in said proceeding, prescribing hours of service regulations applicable to drivers employed by common and contract carriers in interstate and foreign commerce, heretofore postponed to December 31, 1938, be, and it is hereby, further postponed to January 31, 1939, insofar as it applies to common and contract carriers of property and their employees.

It is further ordered, That the effective date of the provisions of Rule 5 of the Regulations prescribed by said order of July 12, requiring the maintenance of a driver's log, heretofore postponed to December 31, 1938, be, and it is hereby, further postponed to January 31, 1939, insofar as said Rule 5 applies to common and contract carriers of passengers and their employees.

By the Commission.

[SEAL] W. P. BARTEL, *Secretary.*

[F. R. Doc. 38-3892; Filed, December 23, 1938; 12:12 p. m.]

ORDER IN THE MATTER OF ANNUAL REPORTS FROM CLASS I MOTOR CARRIERS OF PROPERTY AND CLASS I MOTOR CARRIERS OF PASSENGERS

At a session of the Interstate Commerce Commission, Division 5, held at its office in Washington, D. C., on the 21st day of December, A. D. 1938.

The subject of the requirement of annual reports from Class I motor carriers being under consideration

It is ordered, That all Class I Motor Carriers of Property and all Class I Motor Carriers of Passengers, subject to the Interstate Commerce Act be, and they hereby are, required to file annual reports for the year ending December 31, 1938, in accordance with Annual Report Form (Class I Motor Carriers of Property or Passengers) which is hereby approved and made a part of this order.[1]

It is further ordered, That the annual report shall be prepared in triplicate, two copies filed in the Bureau of Motor Carriers, Interstate Commerce Commission, Washington, D. C., on or before March 31, 1939, and the third copy retained by respondent.

By the Commission, division 5.

[SEAL] W. P. BARTEL, *Secretary.*

[F. R. Doc. 38-3893; Filed, December 23, 1938; 12:12 p. m.]

[1] Shall remain in effect with respect to renewal of three year licenses outstanding on May 1, 1939.

*Promulgated under the authority contained in Sec. 4 (1), 48 Stat. 1066; 47 U. S. C. 154 (1)—Sec. 206, 48 Stat. 1072; 47 U. S. C. 206.

Adopted by the F. C. C., Dec. 19, 1938.

[I. C. C. No. 252 [2]]

THE ALASKA RAILROAD

LOCAL PASSENGER TARIFF NO. 192-C NAMING ROUND TRIP EXCURSION FARES BETWEEN STATIONS ON THE ALASKA RAILROAD ACCOUNT CHRISTMAS

Issued under authority of Rule 52 Interstate Commerce Commission Tariff Circular No. 18-A. Issued, December 1, 1938. Effective, December 20, 1938. Authority: Act, March 12, 1914 and Executive Order No. 3861. Issued by O. F. Ohlson, General Manager, Anchorage, Alaska.

General Rules and Regulations

1. *Stations from and to which this tariff applies.*—This tariff applies from and to all rail line stations. Conductors picking up passengers at non-agency stations will handle passenger to first agency station where ticket must be secured from originating station to final destination.

2. *Dates of sale.*—December 20, 1938 to December 31, 1938, both dates inclusive.

3. *Final return limit.*—January 6, 1939.

4. *Fares.*—One first class fare and a third for the round trip. First class fares are shown in Local Passenger Tariff No. 42-B, I. C. C. No. 177, supplements thereto and reissues thereof. Agents in selling round trip tickets under this tariff will add sufficient to make fare end in "0" or "5" for the round trip.

5. *Stopovers.*—Stopovers will be permitted at all points within final return limit on both going and return trip. Stopover will be granted on application to conductor who will endorse on reverse side of ticket "Off at ------ station, date ------, train No. ------." This endorsement will be signed and transportation returned to passenger.

6. *Tickets.*—Use Form L-14 Round Trip excursion ticket.

7. *Children.*—Tickets may be sold at one-half the fares named herein for children five (5) years of age and under twelve (12) years of age, sufficient to be added to make fare end in "0" or "5". Children under five (5) years of age will be carried free when accompanied by parent or guardian.

8. *Baggage.*—For baggage rules including free allowances, excess charges, etc., see Local Baggage Tariff No. 2, I. C. C. No. 22 (Alaskan Engineering Commission Series), supplements thereto and reissue thereof. Excess baggage charges will be made on basis of the one-way fares shown in Local Passenger Tariff No. 42-B, I. C. C. No. 177, supplements thereto and reissues thereof.

9. *Tickets non-transferable.*—All tickets sold at fares named herein are non-transferable.

The above is hereby confirmed.

RUTH HAMPTON, *Assistant Director.*

DEPARTMENT OF LABOR.

Wage and Hour Division.

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO PART 516 OF REGULATIONS WITH RESPECT TO THE KEEPING OF SPECIAL OR ADDITIONAL RECORDS BY EMPLOYERS OF INDUSTRIAL HOME WORKERS

Whereas, Section 11 (c) of the Fair Labor Standards Act of 1938 provides that every employer subject to any provision of this Act or of any order issued under this Act shall make, keep, and preserve such records of the persons employed by him and of the wages, hours, and other conditions and practices of employment maintained by him, and shall preserve such records for such periods of time, and shall make such reports therefrom to the Administrator as he shall prescribe by regulation or order as necessary or appropriate for the enforcement of the provisions of this Act or the regulations or orders thereunder.

Whereas, the Administrator of the Wage and Hour Division, on October 21, 1938, issued Title 29, Chapter 5, Part 516, entitled Regulations on Records to be kept by Employers Pursuant to Section 11 (c) of the Fair Labor Standards Act of 1938 (52 Stat. 1060);[1] and

Whereas, the Administrator is considering the desirability of amending Part 516 of said regulations to require special or additional records to be kept by employers of industrial home workers, such as: date work is given to and returned by industrial home workers, amount of work given and returned, list of articles worked on, operations performed and hours worked;

Now, therefore, notice is hereby given of a public hearing to be held on January 4, 1939, at 10:00 o'clock A. M., at the Raleigh Hotel, located at Pennsylvania Avenue and Twelfth Street, Washington, D. C., before Mr. Merle D. Vincent, the presiding officer hereby designated, at which interested parties will be heard on the following question:

What, if any, amendments should be made to Part 516 of regulations issued under section 11 (c) of the Fair Labor Standards Act of 1938, to require special or additional records to be kept by employers of industrial home workers.

Interested persons will also be heard on all aspects of the application of the Fair Labor Standards Act to employers of industrial home workers and to the employees employed by them.

Written briefs dealing with this subject will be considered.

Signed at Washington, D. C., this twenty-third day of December 1938.

ELMER F. ANDREWS, *Administrator.*

FEDERAL COMMUNICATIONS COMMISSION.

RENEWAL OF COMMERCIAL RADIO OPERATOR LICENSES

At a meeting of the Federal Communications Commission held at its offices in Washington, D. C., December 19, 1938

Whereas, The Commission has this day adopted, effective May 1, 1939, revised rules governing commercial radio operator licenses, and

Whereas, it appears necessary to provide for a certain transition period during which the present holders of licenses may continue to operate radio stations and may have a reasonable opportunity to obtain renewal of such licenses in accordance with the revised rules,

It is ordered, That all licenses outstanding as of this date shall continue

[1] Filed as a part of the original document with the Division of the Federal Register, The National Archives; requests for copies should be addressed to the Interstate Commerce Commission.

[1] No supplement will be issued to this tariff except for the purpose of cancelling the tariff.

[1] 3 F. R. 2533 DI.

in force for the remainder of their respective terms. However, a licensee may apply for renewal under the terms of the new regulations at any time during the remainder of the license period.

It is further ordered, That all outstanding radiotelegraph licenses bearing an endorsement granting privileges comparable with a radiotelephone license of any class shall be considered as two separate licenses and application for renewal thereof shall be made separately.

It is further ordered, That radiotelegraph first class licenses now held by persons under twenty-one years of age may be renewed without regard to the age limit provided by Section 161.02.

It is further ordered, That Rules 422 to 448, inclusive, *be and they are hereby*, repealed as of May 1, 1939, except that Paragraph (2) of Rule 439 shall remain in effect with respect to renewal of three-year licenses outstanding on May 1, 1939.

By the Commission.

[SEAL] T. J. SLOWIE, *Secretary.*

SECURITIES AND EXCHANGE COMMISSION.

United States of America—Before the Securities and Exchange Commission

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 21st day of December, A. D. 1938.

[File Nos. 31-419, 60-1]

IN THE MATTER OF UTILITIES EMPLOYEES SECURITIES COMPANY, NEW ENGLAND CORPORATION

ORDER CONSENTING TO WITHDRAWAL OF APPLICATION UNDER SECTION 2 (A) (8) OF THE PUBLIC UTILITY HOLDING COMPANY ACT OF 1935

Upon the request of Applicant, the Commission consents to the withdrawal of the application in File No. 31-419. Such application and all amendments thereto and all other documents heretofore made part of the Record in the consolidated hearing on File Nos. 31-419 and 60-1 shall continue to stand as part of the Record in File No. 60-1, and to that effect

It is so ordered.

United States of America—Before the Securities and Exchange Commission

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 23 day of December, A. D. 1938.

[File No. 58-2]

IN THE MATTER OF PENNSYLVANIA INVESTING CORPORATION

NOTICE OF AND ORDER FOR HEARING

An application pursuant to section 12 (F) and Rule U-12F-1 promulgated thereunder of the Public Utility Holding Company Act of 1935, having been duly filed with this Commission by the above-named part;

It is ordered, That a hearing on such matter be held on January 5th, 1939, at 10 o'clock in the forenoon of that day, at the Securities and Exchange Building, 1778 Pennsylvania Avenue, NW., Washington, D. C. On such day the hearing-room clerk in room 1102 will advise as to the room where such hearing will be held. At such hearing, if in respect of any declaration, cause shall be shown why such declaration shall become effective.

It is further ordered, That Willis E. Monty or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice to continue or postpone said hearing from time to time.

Notice of such hearing is hereby given to such declarant or applicant and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before December 31st, 1938.

The matter concerned herewith is in regard to an application pursuant to Rule U12c-1 filed by Pennsylvania Investing Corporation, a direct subsidiary of the Central U. S. Utilities Company and an indirect subsidiary of the Associated Electric Company seeking approval of the sale by it to Kentucky-Tennessee Light and Power Company, an Associated company of the latter company's First and Refunding Mortgage 5% bonds due May 1, 1954. The proposed sale is to be made to the issuing company and the bonds acquired are immediately to be retired. The proposed selling price will be the average cost thereto to the applicant, plus an amount equal to the applicable amortized discount on said bonds to date of tender without adjustment for accrued interest thereon.

By a previous Order of this Commission such bonds may only be retired by funds derived from the sale of the physical assets of Kentucky-Tennessee Light and Power Company. It is stated that the funds to be employed in the purchase were or are to be so derived. It is stated that the Trustee under the mortgage of Kentucky-Tennessee dated January 1, 1923, now holds on deposit the sum of $260,000, the proceeds of the sale of certain property of said Company and that it is anticipated that $972,000 additional amount will be available in the near future from the sale of additional physical property of Kentucky-Tennessee.

The applicant proposes to sell $1,400,000 principal amount of said bonds for the total sum of $1,232,000 which is stated to be at the rate described above.

The applicant also requests that this application be the basis for the approval of similar transactions in the future until all of said bonds are retired.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

Rules, Regulations, Orders

TITLE 21—FOOD AND DRUGS

FOOD AND DRUG ADMINISTRATION

PROMULGATION OF REGULATIONS UNDER THE FEDERAL FOOD, DRUG, AND COSMETIC ACT AND REPEAL OF CERTAIN REGULATIONS HERETOFORE PROMULGATED THEREUNDER

Under the authority of section 701 (a) of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040 et seq.; 21 U. S. C. 301 et seq.), the following regulations for the enforcement of the Act are hereby promulgated.

These regulations shall take effect on June 25, 1939; except that, to the extent that they may relate to the enforcement of sections 502 (j), 505, or 601 (a) of the Act, they shall take effect on the date hereof.

The regulations [1] under sections 201 (p), 505, and 702 (b) of the Act, which were promulgated on July 22, 1938, are hereby repealed effective on the date hereof.

December 22, 1938.

[SEAL] H. A. WALLACE, *Secretary of Agriculture.*

[1] 3 F. R. 1846 DI.

REGULATIONS FOR THE ENFORCEMENT OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT

GENERAL REGULATION

(a) The provisions of regulations promulgated under the Act with respect to the doing of any act shall be applicable also to the causing of such act to be done.

(b) The definitions and interpretations of terms contained in section 201 of the Act shall be applicable also to such terms when used in regulations promulgated under the Act.

(*The caption of each of the following regulations designates the section of the Act under which the regulation is issued.*)

SECTION 201 (M)

Labeling includes all written, printed, or graphic matter accompanying an article at any time while such article is in interstate commerce or held for sale after shipment or delivery in interstate commerce.

SECTION 201 (N)

The existence of a difference of opinion, among experts qualified by scientific training and experience, as to the truth of a representation made or suggested in the labeling is a fact (among other facts) the failure to reveal which may render the labeling misleading, if there is a material weight of opinion contrary to such representation.

SECTION 201 (P)

Newness of a drug may arise by reason (among other reasons) of—

(1) the newness for drug use of any substance which composes such drug, in whole or in part, whether it be an active substance or a menstruum, excipient, carrier, coating, or other component;

(2) the newness for drug use of a combination of two or more substances, none of which is a new drug;

(3) the newness for drug use of the proportion of a substance in a combination, even though such combination containing such substance in other proportion is not a new drug;

(4) the newness of use of such drug in diagnosing, curing, mitigating, treating, or preventing a disease, or to affect a structure or function of the body, even though such drug is not a new drug when used in another disease or to affect another structure or function of the body; or

(5) the newness of a dosage, or method or duration of administration or application, or other condition of use prescribed, recommended, or suggested in the labeling of such drug, even though such drug when used in other dosage, or other method or duration of administration or application, or different condition, is not a new drug.

SECTION 301 (H)

In case of the giving of a guaranty or undertaking referred to in section 303 (c) (2) or (3) of the Act, each person signing such guaranty or undertaking shall be considered to have given it.

SECTION 303 (C)

(a) A guaranty or undertaking referred to in section 303 (c) (2) of the Act may be—

(1) limited to a specific shipment or other delivery of an article, in which case it may be a part of or attached to the invoice or bill of sale covering such shipment or delivery; or

(2) general and continuing, in which case, in its application to any shipment or other delivery of an article, it shall be considered to have been given at the date such article was shipped or delivered by the person who gives the guaranty or undertaking.

(b) The following are suggested forms of guaranty or undertaking under section 303 (c) (2) of the Act:

(1) (Limited Form for use on invoice or bill of sale)

(Name of person giving the guaranty or undertaking) hereby guarantees that no article listed herein is adulterated or misbranded within the meaning of the Federal Food, Drug, and Cosmetic Act, or is an article which may not, under the provisions of section 404 or 505 of the Act, be introduced into interstate commerce.

(Signature and post-office address of person giving the guaranty or undertaking)

(2) (General and Continuing Form)

The article comprising each shipment or other delivery hereafter made by (name of person giving the guaranty or undertaking) to, or on the order of (name and post-office address of person to whom the guaranty or undertaking is given) is hereby guaranteed, as of the date of such shipment or delivery, to be, on such date, not adulterated or misbranded within the meaning of the Federal Food, Drug, and Cosmetic Act, and not an article which may not, under the provisions of section 404 or 505 of the Act, be introduced into interstate commerce.

(Signature and post-office address of person giving the guaranty or undertaking)

(c) The application of a guaranty or undertaking referred to in section 303 (c) (2) of the Act to any shipment or other delivery of an article shall expire when such article, after shipment or delivery by the person who gave such guaranty or undertaking, becomes adulterated or misbranded within the meaning of the Act, or becomes an article which may not, under the provisions of section 404 or 505 of the Act, be introduced into interstate commerce.

(d) A guaranty or undertaking referred to in section 303 (c) (3) of the Act shall state that the shipment or other delivery of coal-tar color covered thereby was manufactured by a signer thereof. It may be a part of or attached to the invoice or bill of sale covering such color. If such shipment or delivery is from a foreign manufacturer, such guaranty or undertaking shall be signed by such manufacturer and by an agent of such manufacturer who resides in the United States.

(e) The following are suggested forms of guaranty or undertaking under section 303 (c) (3) of the Act:

(1) (For domestic manufacturers)

(Name of manufacturer) hereby guarantees that all coal-tar colors listed herein were manufactured by him, and are from batches certified in accordance with the applicable regulations promulgated by the Secretary of Agriculture under the Federal Food, Drug, and Cosmetic Act.

(Signature and post-office address of manufacturer).

(2) (For foreign manufacturers)

(Name of manufacturer and agent) hereby severally guarantee that all coal-tar colors listed herein were manufactured by (name of manufacturer), and are from batches certified in accordance with the applicable regulations promulgated by the Secretary of Agriculture under the Federal Food, Drug, and Cosmetic Act.

(Signature and post-office address of manufacturer).

(Signature and post-office address of agent)

(f) For the purpose of a guaranty or undertaking under section 303 (c) (3) of the Act the manufacturer of a shipment or other delivery of a coal-tar color is the person who packaged such color.

(g) A guaranty or undertaking, if signed by two or more persons, shall state that such persons severally guarantee the article to which it applies.

(h) No representation or suggestion that an article is guaranteed under the Act shall be made in labeling.

SECTION 305

(a) Presentation of views under section 305 of the Act shall be private and informal. The views presented shall be confined to matters relevant to the contemplated proceeding. Such views may be presented by letter or in person by the person to whom the notice was given, or by his representative. In case such person holds a guaranty or undertaking referred to in section 303 (c) (2) or (3) of the Act applicable to the article on which such notice was based, such guaranty or undertaking, or a verified copy thereof, shall be made a part of such presentation of views.

(b) Upon request, seasonably made, by the person to whom a notice appointing a time and place for the presentation of views under section 305 of the Act has been given, or by his representative, such time or place, or both such time and place, may be changed if the request states reasonable grounds therefor. Such request shall be addressed to the office of the Food and Drug Administration which issued the notice.

SECTION 403 (A)

(a) Among representations in the labeling of a food which render such food misbranded is a false or misleading representation with respect to another food or a drug, device, or cosmetic.

(b) The labeling of a food which contains two or more ingredients may be misleading by reason (among other reasons) of the designation of such food in such labeling by a name which includes or suggests the name of one or more but not all such ingredients, even though the names of all such ingredients are stated elsewhere in the labeling.

SECTION 403 (E)

(a) If a food is not manufactured by the person whose name appears on the label, the name shall be qualified by a phrase which reveals the connection such person has with such food, such as "Manufactured for and Packed by ———", "Distributed by ———", or other similar phrase which expresses the facts.

(b) The statement of the place of business shall include the street address, if any, of such place, unless such street address is shown in a current city directory or telephone directory.

(c) If a person manufactures, packs, or distributes a food at a place other than his principal place of business, the label may state the principal place of business in lieu of the actual place where each package of such food was manufactured or packed or is to be distributed, if such statement is not misleading in any particular.

(d) The requirement that the label shall contain the name and place of business of the manufacturer, packer, or distributor shall not be considered to relieve any food from the requirement that its label shall not be misleading in any particular.

(e) (1) The statement of the quantity of the contents shall reveal the quantity of food in the package, exclusive of wrappers and other material packed with such food.

(2) The statement shall be expressed in the terms of weight, measure, numerical count, or a combination of numerical count and weight or measure, which are generally used by consumers to express quantity of such food and which give accurate information as to the quantity thereof. But if no general consumer usage in expressing accurate information as to the quantity of such food exists, the statement shall be in terms of liquid measure if the food is liquid, or in terms of weight if the food is solid, semisolid, viscous, or a mixture of solid and liquid; except that such statement may be in terms of dry measure if the food is a fresh fruit, fresh vegetable, or other dry commodity.

(f) (1) A statement of weight shall be in terms of the avoirdupois pound and ounce. A statement of liquid measure shall be in terms of the United States gallon of 231 cubic inches and quart, pint, and fluid ounce subdivisions thereof, and, except in case of frozen food which is so consumed, shall express the volume at 68° Fahrenheit (20° Centigrade). A statement of dry measure shall be in terms of the United States bushel of 2150.42 cubic inches and peck, dry quart, and dry pint subdivisions thereof; or in terms of the United States standard barrel and its subdivisions of third, half, and three-quarters barrel. However, in the case of an export shipment, the statement may be in terms of a system of weight or measure in common use in the country to which such shipment is exported.

(2) A statement of weight or measure in the terms specified in subdivison (1) of this paragraph may be supplemented by a statement in terms of the metric system of weight or measure.

(3) Unless an unqualified statement of numerical count gives accurate information as to the quantity of food in the package, it shall be supplemented by such statement of weight, measure, or size of the individual units of the food as will give such information.

(g) Statements shall contain only such fractions as are generally used in expressing the quantity of the food. A common fraction shall be reduced to its lowest terms; a decimal fraction shall not be carried out to more than two places.

(h) (1) If the quantity of food in the package equals or exceeds the smallest unit of weight or measure which is specified in paragraph (f) of this regulation, and which is applicable to such food under the provisions of paragraph (e) (2) of this regulation, the statement shall express the number of the largest of such units contained in the package (for example, the statement on the label of a package which contains one quart of food shall be "1 quart", and not "2 pints" or "32 fluid ounces"), unless the statement is made in accordance with the provisions of subdivision (2) of this paragraph. Where such number is a whole number and a fraction, there may be substituted for the fraction its equivalent in small units, if any smaller is specified in such paragraph (f) (for examples, 1¾ quarts may be expressed as "1 quart 1½ pints" or 1 quart 1 pint 8 fluid ounces"; 1¼ pounds may be expressed as "1 pound 4 ounces"). The stated number of any unit which is smaller than the largest unit (specified in such paragraph (f)) contained in the package shall not equal or exceed the number of such smaller units in the next larger unit so specified (for examples, instead of "1 quart 16 fluid ounces" the statement shall be "1½ quarts" or "1 quart 1 pint"; instead of "24 ounces" the statement shall be "1½ pounds" or "1 pound 8 ounces").

(2) In the case of a food with respect to which there exists an established custom of stating the quantity of the contents as a fraction of a unit, which unit is larger than the quantity contained in the package, or as units smaller than the largest unit contained therein, the statement may be made in accordance with such custom if it is informative to consumers.

(i) The statement shall express the minimum quantity, or the average quantity, of the contents of the packages. If the statement is not so qualified as to show definitely that the quantity expressed is the minimum quantity, the statement shall be considered to express the average quantity.

(j) Where the statement expresses the minimum quantity, no variation below the stated minimum shall be permitted except variations below the stated weight or measure caused by ordinary and customary exposure, after the food is introduced into interstate commerce, to conditions which normally occur in good distribution practice and which unavoidably result in decreased weight or measure. Variations above the stated minimum shall not be unreasonably large.

(k) Where the statement does not express the minimum quantity—

(1) variations from the stated weight or measure shall be permitted when caused by ordinary and customary exposure, after the food is introduced into interstate commerce, to conditions which normally occur in good distribution practice and which unavoidably result in change of weight or measure;

(2) variations from the stated weight, measure, or numerical count shall be permitted when caused by unavoidable deviations in weighing, measuring, or counting individual packages which occur in good packing practice.

But under subdivision (2) of this paragraph variations shall not be permitted to such extent that the average of the quantities in the packages comprising a shipment or other delivery of the food is below the quantity stated, and no unreasonable shortage in any package shall be permitted, even though overages in other packages in the same shipment or delivery compensate for such shortage.

(l) The extent of variations from the stated quantity of the contents permissible under paragraphs (j) and (k) of this regulation in the case of each shipment or other delivery shall be determined by the facts in such case.

(m) A food shall be exempt from compliance with the requirements of clause (2) of section 403 (e) of the Act if—

(1) the quantity of the contents, as expressed in terms applicable to such food under the provisions of paragraph (e) (2) of this regulation, is less than one-half ounce avoirdupois, or less than

one-half fluid ounce, or (in case the units of the food can be easily counted without opening the package) less than six units; or

(2) the statement of the quantity of the contents of the package, together with all other words, statements, and information required by or under authority of the Act to appear on the label, cannot, because of insufficient label space, be so placed on the label as to comply with the requirements of section 403 (f) of the Act and regulations promulgated thereunder.

SECTION 403 (F)

(a) A word, statement, or other information required by or under authority of the Act to appear on the label may lack that prominence and conspicuousness required by section 403 (f) of the Act by reason (among other reasons) of—

(1) the failure of such word, statement, or information to appear on the part or panel of the label which is presented or displayed under customary conditions of purchase;

(2) the failure of such word, statement, or information to appear on two or more parts or panels of the label, each of which has sufficient space therefor, and each of which is so designed as to render it likely to be, under customary conditions of purchase, the part or panel displayed;

(3) the failure of the label to extend over the area of the container or package available for such extension, so as to provide sufficient label space for the prominent placing of such word, statement, or information;

(4) insufficiency of label space (for the prominent placing of such word, statement, or information) resulting from the use of label space for any word, statement, design, or device which is not required by or under authority of the Act to appear on the label;

(5) insufficiency of label space (for the prominent placing of such word, statement, or information) resulting from the use of label space to give materially greater conspicuousness to any other word, statement, or information, or to any design or device; or

(6) smallness or style of type in which such word, statement, or information appears, insufficient background contrast, obscuring designs or vignettes, or crowding with other written, printed, or graphic matter.

(b) No exemption depending on insufficiency of label space, as prescribed in regulations promulgated under section 403 (e) or (i) of the Act, shall apply if such insufficiency is caused by—

(1) the use of label space for any word, statement, design, or device which is not required by or under authority of the Act to appear on the label;

(2) the use of label space to give greater conspicuousness to any word, statement, or other information than is required by section 403 (f) of the Act; or

(3) the use of label space for any representation in a foreign language.

(c) (1) All words, statements, and other information required by or under authority of the Act to appear on the label or labeling shall appear thereon in the English language.

(2) If the label contains any representation in a foreign language, all words, statements, and other information required by or under authority of the Act to appear on the label shall appear thereon in the foreign language.

(3) If the labeling contains any representation in a foreign language, all words, statements, and other information required by or under authority of the Act to appear on the label or labeling shall appear on the labeling in the foreign language.

SECTION 403 (I)

(a) The name of an ingredient (except a spice, flavoring, or coloring which is an ingredient of a food other than one sold as a spice, flavoring, or coloring), required by section 403 (i) (2) of the Act to be borne on the label of a food, shall be a specific name and not a collective name. But if an ingredient (which itself contains two or more ingredients) conforms to a definition and standard of identity prescribed by regulations under section 401 of the Act, such ingredient may be designated on the label of such food by the name specified in the definition and standard, supplemented, in case such regulations require the naming of optional ingredients present in such ingredient, by a statement showing the optional ingredients which are present in such ingredient.

(b) No ingredient shall be designated on the label as a spice, flavoring, or coloring unless it is a spice, flavoring, or coloring, as the case may be, within the meaning of such term as commonly understood by consumers. The term "coloring" shall not include any bleaching substance.

(c) An ingredient which is both a spice and a coloring, or both a flavoring and a coloring, shall be designated as spice and coloring, or flavoring and coloring, as the case may be, unless such ingredient is designated by its specific name.

(d) A label may be misleading by reason (among other reasons) of—

(1) the order in which the names of ingredients appear thereon, or the relative prominence otherwise given such names; or

(2) its failure to reveal the proportion of, or other fact with respect to, an ingredient, when such proportion or other fact is material in the light of the representation that such ingredient was used in fabricating the food.

(e) (1) A food shall be exempt from the requirements of clause (2) of section 403 (i) of the Act if all words, statements, and other information required by or under authority of the Act to appear on the label of such food, cannot, because of insufficient label space, be so placed on the label as to comply with the requirements of section 403 (f) of the Act and regulations promulgated thereunder. But such exemption shall be on the condition that, if the omission from the label of the statement of the quantity of the contents affords sufficient space to state legibly thereon all the information required by such clause (2), such statement of the quantity of the contents shall be omitted as authorized by regulation (m) (2) under section 403 (e) of the Act, and the information required by such clause (2) shall be so stated as prominently as practicable even though the statement is not of such conspicuousness as to render it likely to be read by the ordinary individual under customary conditions of purchase.

(2) In the case of an assortment of different items of food, when variations in the items which make up different packages packed from such assortment normally occur in good packing practice, and when such variations result in variations in the ingredients in different packages, such food shall be exempt from compliance with the requirements of clause (2) of section 403 (i) of the Act with respect to any ingredient which is not common to all packages. But such exemption shall be on the condition that the label shall bear, in conjunction with the names of such ingredients as are common to all packages, a statement in terms which are as informative as practicable and which are not misleading, indicating that other ingredients may be present.

SECTION 403 (K)

(a) (1) The term "artificial flavoring" means a flavoring containing any sapid or aromatic constituent, which constituent was manufactured by a process of synthesis or other similar artifice.

(2) The term "artificial coloring" means a coloring containing any dye or pigment, which dye or pigment was manufactured by a process of synthesis or other similar artifice, or a coloring which was manufactured by extracting a natural dye or natural pigment from a plant or other material in which such dye or pigment was naturally produced.

(3) The term "chemical preservative" means any chemical which, when added to food, tends to prevent or retard deterioration thereof; but does not include common salt, sugars, vinegars, spices or oils extracted from spices, or substances added to food by direct exposure thereof to wood smoke.

(b) A food which is subject to the requirements of section 403 (k) of the Act shall bear labeling, even though such food is not in package form.

(c) A statement of artificial flavoring, artificial coloring, or chemical preservative shall be placed on the food, or on its container or wrapper, or on any two or all of these, as may be necessary to render such statement likely to be read by the ordinary individual under customary conditions of purchase and use of such food.

(d) A food shall be exempt from compliance with the requirements of section 403 (k) of the Act if it is not in package form and the units thereof are so small that a statement of artificial flavoring, artificial coloring, or chemical preservative, as the case may be, cannot be placed on such units with such conspicuousness as to render it likely to be read by the ordinary individual under customary conditions of purchase and use.

SECTION 405

(a) (1) An open container is a container of rigid or semi-rigid construction, which is not closed by lid, wrapper, or otherwise.

(2) An open container of a fresh fruit or fresh vegetable, the quantity of contents of which is not more than one dry quart, shall be exempt from the labeling requirements of paragraphs (e), (g) (2) (with respect to the name of the food specified in the definition and standard), and (i) (1) of section 403 of the Act; but such exemption shall be on the condition that if two or more such containers are enclosed in a crate or other shipping package, such crate or package shall bear labeling showing the number of such containers enclosed therein and the quantity of the contents of each.

(b) Except as provided by paragraphs (c) and (d) of this regulation, a shipment or other delivery of a food which is, in accordance with the practice of the trade, to be processed, labeled, or repacked in substantial quantity at an establishment other than that where originally processed or packed, shall be exempt, during the time of introduction into and movement in interstate commerce and the time of holding in such establishment, from compliance with the labeling requirements of section 403 (c), (e), (g), (h), (i), (j) and (k) of the Act if—

(1) the person who introduced such shipment or delivery into interstate commerce is the operator of the establishment where such food is to be processed, labeled, or repacked; or

(2) in case such person is not such operator, such shipment or delivery is made to such establishment under a written agreement, signed by and containing the post-office addresses of such person and such operator, and containing such specifications for the processing, labeling, or repacking, as the case may be, of such food in such establishment as will insure, if such specifications are followed, that such food will not be adulterated or misbranded within the meaning of the Act upon completion of such processing, labeling, or repacking. Such person and such operator, shall each keep a copy of such agreement until all of such shipment or delivery has been removed from such establishment, and shall make such copies available for inspection at any reasonable hour to any officer or employee of the Department who requests them.

(c) An exemption of a shipment or other delivery of a food under clause (1) of paragraph (b) of this regulation shall, at the beginning of the act of removing such shipment or delivery, or any part thereof, from such establishment, become void ab initio if the food comprising such shipment, delivery, or part is adulterated or misbranded within the meaning of the Act when so removed.

(d) An exemption of a shipment or other delivery of food under clause (2) of paragraph (d) of this regulation shall become void ab initio with respect to the person who introduced such shipment or delivery into interstate commerce upon refusal by such person to make available for inspection a copy of the agreement, as required by such clause.

(e) An exemption of a shipment or other delivery of a food under clause (2) of paragraph (b) of this regulation shall expire—

(1) at the beginning of the act of removing such shipment or delivery, or any part thereof, from such establishment if the food comprising such shipment, delivery, or part is adulterated or misbranded within the meaning of the Act when so removed; or

(2) upon refusal by the operator of the establishment where such food is to be processed, labeled, or repacked, to make available for inspection a copy of the agreement, as required by such clause.

SECTION 501 (B)

(a) The name by which a drug is designated shall be clearly distinguishing and differentiating from any name recognized in an official compendium unless such drug complies in identity with the identity prescribed in an official compendium under such recognized name.

(b) The term "drug defined in an official compendium" means a drug having the identity prescribed for a drug in an official compendium.

(c) A statement that a drug defined in an official compendium differs in strength, quality, or purity from the standard of strength, quality, or purity set forth for such drug in an official compendium shall show all the respects in which such drug so differs, and the extent of each such difference.

SECTION 502 (A)

(a) Among representations in the labeling of a drug or device which render such drug or device misbranded is a false or misleading representation with respect to another drug or device or a food or cosmetic.

(b) The labeling of a drug which contains two or more ingredients may be misleading by reason (among other reasons) of the designation of such drug in such labeling by a name which includes or suggests the name of one or more but not all such ingredients, even though the names of all such ingredients are stated elsewhere in the labeling.

SECTION 502 (B)

(a) If a drug or device is not manufactured by the person whose name appears on the label, the name shall be qualified by a phrase which reveals the connection such person has with such drug or device, such as "Manufactured for and Packed by ————," "Distributed by ————," or other similar phrase which expresses the facts.

(b) The statement of the place of business shall include the street address, if any, of such place, unless such street address is shown in a current city directory or telephone directory.

(c) Where a person manufactures, packs, or distributes a drug or device at a place other than his principal place of business, the label may state the principal place of business in lieu of the actual place where each package of such drug or device was manufactured or packed or is to be distributed, if such statement is not misleading in any particular.

(d) The requirement that the label shall contain the name and place of business of the manufacturer, packer, or distributor shall not be considered to relieve any drug or device from the requirement that its label shall not be misleading in any particular.

(e) (1) The statement of the quantity of the contents of a package of a drug shall reveal the quantity of such drug in the package, exclusive of wrappers and other material packed with such drug.

(2) The statement shall be expressed in the terms of weight, measure, numerical count, or a combination of numerical count and weight or measure, which are generally used by consumers and users of such drug to express quantity thereof and which give accurate information as to such quantity. But if no general usage in expressing accurate information as to the quantity of such drug exists among consumers and users thereof, the statement of the quantity of a drug which is not in tablet, capsule, ampul, or other unit form shall be in terms of weight if the drug is solid, semisolid, or viscous, or in terms of measure if the drug is liquid; the statement of the quantity of a drug which is in such unit form shall be in terms of the numerical count of such units, supplemented, when necessary to give accurate information as to the quantity of such drug in the package, by such statement (in such terms, manner, and form as are not misleading) of the weight or measure of such units, or of the quantity of each active ingredient in each such unit, as will give such information.

(3) The statement of the quantity of a device shall be expressed in terms of numerical count.

(f) A statement of weight shall be in terms of the avoirdupois pound, ounce,

and grain, or of the kilogram, gram, and milligram. A statement of liquid measure shall be in terms of the United States gallon of 231 cubic inches and quart, pint, fluid ounce, and fluidram subdivisions thereof, or of the liter, milliliter, or cubic centimeter, and shall express the volume at 68° Fahrenheit (20° Centigrade).

(g) Statements of the quantity of a drug shall contain only such fractions as are generally used in expressing the quantity of such drug. A common fraction shall be reduced to its lowest terms; a decimal fraction shall not be carried out to more than three places, except in the case of a statement of the quantity of an active ingredient in a unit of a drug.

(h) (1) Unless made in accordance with the provisions of subdivision (2) of this paragraph, a statement of the quantity of a drug, in the terms of weight or measure applicable to such drug under the provisions of paragraph (e) (2) of this regulation, shall express the number of the largest unit specified in paragraph (f) of this regulation which is contained in the package (for example, the statement on the label of a package which contains one pint of a drug shall be "1 pint," and not "16 fluid ounces"). Where such number is a whole number and a fraction, there may be substituted for the fraction its equivalent in smaller units, if any smaller is specified in such paragraph (f) (for example, 1¼ pounds may be expressed as "1 pound 4 ounces"). The stated number of any unit which is smaller than the largest unit (specified in such paragraph (f)) contained in the package shall not equal or exceed the number of such smaller units in the next larger unit so specified (for example, instead of "1 quart 16 fluid ounces" the statement shall be "1½ quarts" or "1 quart 1 pint").

(2) In the case of a drug with respect to which there exists an established custom of stating the quantity of the contents as a fraction of a unit, which unit is larger than the quantity contained in the package, or as units smaller than the largest unit contained therein, the statement may be made in accordance with such custom if it is informative to consumers.

(i) The statement of the quantity of a drug or device shall express the minimum quantity, or the average quantity, of the contents of the packages. If the statement is not so qualified as to show definitely that the quantity expressed is the minimum quantity, the statement, except in the case of ampuls, shall be considered to express the average quantity. The statement of the quantity of a drug in ampuls shall be considered to express the minimum quantity.

(j) Where the statement expresses the minimum quantity, no variation below the stated minimum shall be permitted except variations below the stated weight or measure of a drug caused by ordinary and customary exposure, after such drug is introduced into interstate commerce, to conditions which normally occur in good distribution practice and which unavoidably result in decreased weight or measure. Variations above the stated minimum shall not be unreasonably large. In the case of a liquid drug in ampuls the variation above the stated measure shall comply with the excess volume prescribed by the National Formulary for filling of ampuls.

(k) Where the statement does not express the minimum quantity—

(1) variations from the stated weight or measure of a drug shall be permitted when caused by ordinary and customary exposure, after such drug is introduced into interstate commerce, to conditions which normally occur in good distribution practice and which unavoidably result in change of weight or measure;

(2) variations from the stated weight, measure, or numerical count of a drug or device shall be permitted when caused by unavoidable deviations in weighing, measuring, or counting the contents of individual packages which occur in good packing practice.

But under subdivision (2) of this paragraph variations shall not be permitted to such extent that the average of the quantities in the packages comprising a shipment or other delivery of the drug or device is below the quantity stated and no unreasonable shortage in any package shall be permitted, even though overages in other packages in the same shipment or delivery compensate for such shortage.

(l) The extent of variations from the stated quantity of the contents permissible under paragraphs (j) and (k) of this regulation in the case of each shipment or other delivery shall be determined by the facts in such case.

(m) A drug or device shall be exempt from compliance with the requirements of clause (2) of section 502 (b) of the Act if—

(1) the statement of the quantity of the contents, as expressed in terms applicable to such drug or device under the provisions of paragraph (e) (2) of this regulation, together with all other words, statements, and information required by or under authority of the Act to appear on the label of such drug or device, cannot, because of insufficient label space, be so placed on the label as to comply with the requirements of section 502 (c) of the Act and regulations promulgated thereunder; or

(2) the quantity of the contents of the package, as expressed in terms of numerical count in compliance with paragraph (e) (2) or (3) of this regulation, is less than six units, and such units can be easily counted without opening the package.

SECTION 502 (C)

(a) A word, statement, or other information required by or under authority of the Act to appear on the label may lack that prominence and conspicuousness required by section 502 (c) of the Act by reason (among other reasons) of—

(1) the failure of such word, statement, or information to appear on the part or panel of the label which is presented or displayed under customary conditions of purchase;

(2) the failure of such word, statement, or information to appear on two or more parts or panels of the label, each of which has sufficient space therefor, and each of which is so designed as to render it likely to be, under customary conditions of purchase, the part or panel displayed;

(3) the failure of the label to extend over the area of the container or package available for such extension, so as to provide sufficient label space for the prominent placing of such word, statement, or information;

(4) insufficiency of label space (for the prominent placing of such word, statement, or information) resulting from the use of label space for any word, statement, design, or device which is not required by or under authority of the Act to appear on the label;

(5) insufficiency of label space (for the prominent placing of such word, statement, or information) resulting from the use of label space to give materially greater conspicuousness to any other word, statement, or information, or to any design or device; or

(6) smallness or style of type in which such word, statement, or information appears, insufficient background contrast, obscuring designs or vignettes, or crowding with other written, printed, or graphic matter.

(b) No exemption depending on insufficiency of label space, as prescribed in regulations promulgated under section 502 (b) or (c) of the Act, shall apply if such insufficiency is caused by—

(1) the use of label space for any word statement, design, or device which is not required by or under authority of the Act to appear on the label;

(2) the use of label space to give greater conspicuousness to any word, statement, or other information than is required by section 502 (c) of the Act; or

(3) the use of label space for any representation in a foreign language.

(c) (1) All words, statements, and other information required by or under authority of the Act to appear on the label or labeling shall appear thereon in the English language.

(2) If the label contains any representation in a foreign language, all words, statements, and their information required by or under authority of the Act to appear on the label shall appear thereon in the foreign language.

(3) If the labeling contains any representation in a foreign language, all words, statements, and other information required by or under authority of the Act to appear on the label or labeling shall appear on the labeling in the foreign language.

SECTION 502 (D)

(a) (1) The name of a substance or derivative required by or under authority of section 502 (d) of the Act to be borne on the label of a drug shall be the name by which such substance is designated in such section 502 (d), or such derivative is designated in regulations promulgated thereunder.

(2) A statement on the label of a drug of the name of a constituent, which constituent is a chemical derivative of a substance named in section 502 (d) of the Act, shall show the substance from which such constituent is derived and that such constituent is a derivative thereof.

(b) (1) If the drug is in tablet, capsule, ampul, or other unit form, the statement of the quantity of such substance or derivative contained therein shall express the weight or measure of such substance or derivative in each such unit. If the drug is not in such unit form the statement shall express the weight or measure of such substance or derivative in a specified unit of weight or measure of the drug. Such statement shall be in terms which are informative to the ordinary consumer and user of the drug.

(2) The statement of the percentage of such substance or derivative contained in a drug shall express the percentage by weight; except that, if both the substance or derivative and the drug are liquid, the statement may express the percentage by volume at 68° Fahrenheit (20° Centigrade), but in such case the statement shall be so qualified as to show definitely that the percentage is expressed by volume.

(c) The names, quantities, and percentages of all such substances and derivatives, and the statement "Warning—May be habit forming," shall immediately follow (without intervening written, printed, or graphic matter) the name by which such drug is titled in the part or panel of the label thereof which is presented or displayed under customary conditions of purchase.

(d) A drug shall not be considered to be misbranded under section 502 (d) of the Act by reason of failure of its label to bear the statement "Warning—May be habit forming," if such drug is not suitable for internal use and is distributed and sold exclusively for such external use as involves no possibility of habit formation.

SECTION 502 (E)

(a) (1) The name of an ingredient, substance, derivative, or preparation required by section 502 (e) (2) of the Act to be borne on the label of a drug shall be the name thereof which is listed in such section 502 (e) (2), or, if not so listed, shall be a specific name and not a collective name. But if an ingredient (which itself contains two or more such ingredients, substances, derivatives, or preparations) complies with the specifications set forth for an article in an official compendium, such ingredient may be designated on the label of such drug by the common or usual name under which such specifications are so set forth.

(2) An abbreviation or chemical formula shall not be considered to be a common or usual name. The name "acetophenetidin" shall be considered to be the same as the name "acetphenetidin", "aminopyrine" the same as "amidopyrine." The name "alcohol," without qualification, means ethyl alcohol.

(b) (1) A derivative or preparation of a substance named in section 502 (e) (2) of the Act is an article which is derived or prepared from such substance by any method, including actual or theoretical chemical action.

(2) A statement on the label of a drug of the name of a constituent thereof, which constituent is a derivative or preparation of a substance named in section 502 (e) (2) of the Act, shall show the substance from which such constituent is derived or prepared and that such constituent is a derivative or preparation thereof.

(c) (1) If the drug is in tablet, capsule, ampul, or other unit form, the statement of the quantity or proportion of a substance, derivative, or preparation contained therein shall express the weight or measure of such substance, derivative, or preparation in each such unit. If the drug is not in such unit form the statement shall express the weight or measure of such substance, derivative, or preparation in a specified unit of weight or measure of the drug, or the percentage of such substance, derivative, or preparation in such drug. Such statement shall be in terms which are informative to the ordinary consumer and user of the drug.

(2) A statement of the percentage of alcohol shall express the percentage of absolute alcohol at 68° Fahrenheit (20° Centigrade). A statement of the percentage of a substance, derivative, or preparation other than alcohol shall express the percentage by weight; except that, if both the substance, derivative, or preparation and the drug containing it are liquid, the statement may express the percentage by volume at 68° Fahrenheit (20° Centigrade), but in such case the statement shall be so qualified as to show definitely that the percentage is expressed by volume.

(d) In case a statement of the quantity or proportion of a derivative or preparation in a drug is not as informative, to consumers or users of such drug, of the activity or consequences of use thereof as a statement of the quantity or proportion of the substance from which such derivative or preparation is derived or prepared, the quantity or proportion of such substance shall also be stated on the label of such drug.

(e) A label of a drug may be misleading by reason (among other reasons) of—

(1) the order in which the names of ingredients, substances, derivatives, or preparations appear thereon, or the relative prominence otherwise given such names; or

(2) its failure to reveal the proportion of, or other fact with respect to, an ingredient, substance, derivative, or preparation, when such proportion or other fact is material in the light of the representation that such ingredient, substance, derivative, or preparation is a constituent of such drug.

(f) (1) A drug shall be exempt from the requirements of clause (2) of section 502 (e) of the Act if all words, statements, and other information required by or under authority of the Act to appear on the label of such drug, cannot, because of insufficient label space, be so placed on the label as to comply with the requirements of section 502 (e) of the Act and regulations promulgated thereunder. But such exemption shall be on the condition that, if the omission from the label of the statement of the quantity of the contents affords sufficient space to state legibly thereon all the information required by such clause (2), such statement of the quantity of the contents shall be omitted as authorized by regulation (m) (1) under section 502 (b) of the Act, and the information required by such clause (2) shall be so stated as prominently as practicable even though the statement is not of such conspicuousness as to render it likely to be read by the ordinary individual under customary conditions of purchase.

(2) A drug shall be exempt from the requirements of clause (2) of section 502 (e) of the Act with respect to the alkaloids atropine, hyoscine or hyoscyamine contained in such drug, if such alkaloid is contained therein as a constituent of belladonna, hyoscyamus, acopola, stramonium, or other plant material, or any preparation thereof, which was used as an ingredient of such drug, and no practical and accurate method of analysis exists for the quantitative determination of each such alkaloid in such ingredient. But such exemption shall be on the condition that the label of such drug shall state the quantity or proportion of total alkaloids contained therein as constituents of such ingredient:

SECTION 502 (F)

(a) Directions for use may be inadequate by reason (among other reasons) of omission, in whole or in part, or incorrect specification of—

(1) directions for use in all conditions for which such drug or device is prescribed, recommended, or suggested in its labeling, or in its advertising disseminated or sponsored by or on behalf of its manufacturer or packer, or in such other conditions, if any there be, for which such drug or device is commonly and effectively used;

(2) quantity of dose (including quantities for persons of different ages and different physical conditions;

(3) frequency of administration or application;

(4) duration of administration or application;

(5) time of administration or application (in relation to time of meals, time of onset of symptoms, or other time factor);

(6) route or method of administration or application; or

(7) preparation for use (shaking, dilution, adjustment of temperature, or other manipulation or process).

(b) A shipment or other delivery of a drug or device shall be exempt from compliance with the requirements of clause (1) of section 502 (f) of the Act—

(1) with respect to directions for common uses, adequate directions for which are known by the ordinary individual;

(2) if the label of such drug or device bears the statement *"Caution: To be used only by or on the prescription of a ——"* (the blank to be filled in by the word *"Physician"*, *"Dentist"*, or *"Veterinarian"*, or any combination of such words), and all representations or suggestions contained in the labeling thereof with respect to the conditions for which such drug or device is to be used appear only in such medical terms as are not likely to be understood by the ordinary individual, and if such shipment or delivery is made for use exclusively by, or on the prescription of, physicians, dentists, or veterinarians licensed by law to administer or apply such drug or device; but such exemption shall expire when such shipment or delivery, or any part thereof, is offered or sold or otherwise disposed of for any use other than by or on the prescription of such a physician, dentist, or veterinarian, except such use as renders the article not a drug or device within the meaning of section 201 (g) and (h) of the Act; or

(3) if the label of such drug or device bears the statement *"For manufacturing use only"*, and the labeling thereof contains no representation or suggestion with respect to the effect of such drug or device, and if such shipment or delivery is made for use exclusively in the manufacture of another drug or device; but such exemption shall expire when such shipment or delivery, or any part thereof, is offered or sold or otherwise disposed of for any use other than in such manufacture, except such use as renders the article not a drug or device within the meaning of section 201 (g) and (h) of the Act.

(c) The expiration of an exemption under paragraph (b) of this regulation shall not be considered to render invalid the exemption existing up to the time of expiration. The causing by any person of such exemption so to expire shall be considered to be an act of misbranding for which such person shall be liable.

SECTION 503 (A)

(a) Except as provided by paragraphs (b) and (c) of this regulation, a shipment or other delivery of a drug or device which is, in accordance with the practice of the trade, to be processed, labeled, or repacked in substantial quantity at an establishment other than that where originally processed or packed, shall be exempt, during the time of introduction into and movement in interstate commerce and the time of holding in such establishment, from compliance with the labeling and packaging requirements of sections 501 (b) and 502 (b), (d), (e), (f), and (g) of the Act if—

(1) the person who introduced such shipment or delivery into interstate commerce is the operator of the establishment where such drug or device is to be processed, labeled, or repacked; or

(2) in case such person is not such operator, such shipment or delivery is made to such establishment under a written agreement, signed by and containing the post-office addresses of such person and such operator, and containing such specifications for the processing, labeling, or repacking, as the case may be, of such drug or device in such establishment as will insure, if such specifications are followed, that such drug or device will not be adulterated or misbranded within the meaning of the Act upon completion of such processing, labeling, or repacking. Such person and such operator shall each keep a copy of such agreement until all such shipment or delivery has been removed from such establishment, and shall make such copies available for inspection at any reasonable hour to any officer or employee of the Department who requests them.

(b) An exemption of a shipment or other delivery of a drug or device under clause (1) of paragraph (a) of this regulation shall, at the beginning of the act of removing such shipment or delivery, or any part thereof, from such establishment, become void ab initio if the drug or device comprising such shipment, delivery, or part is adulterated or misbranded within the meaning of the Act when so removed.

(c) An exemption of a shipment or other delivery of a drug or device under clause (2) of paragraph (d) of this regulation shall become void ab initio with respect to the person who introduced such shipment or delivery into interstate commerce upon refusal by such person to make available for inspection a copy of the agreement, as required by such clause.

(d) An exemption of a shipment or other delivery of a drug or device under clause (2) of paragraph (a) of this regulation shall expire—

(1) at the beginning of the act of removing such shipment or delivery, or any part thereof, from such establishment if the drug or device comprising such shipment, delivery, or part is adulterated or misbranded within the meaning of the Act when so removed; or

(2) upon refusal by the operator of the establishment where such drug or device is to be processed, labeled, or repacked, to make available for inspection a copy of the agreement, as required by such clause.

SECTION 505 (A)

A new drug shall not be deemed to be subject to section 505 of the Act if it is a drug which is licensed under the Virus, Serum, and Toxin Act of July 1, 1902 (U. S. C., 1934 ed., title 42, ch. 4), or the Virus, Serums, Toxins, Antitoxins and Analogous Products Act of March 4, 1913 (U. S. C., 1934 ed., title 21, ch. 5).

SECTION 505 (B)

An application which is on its face incomplete in that it does not contain all the matter required by clauses (1), (2), (3), (4), and (6) of section 505 (b) of the Act shall not be accepted for filing; the Food and Drug Administration shall notify the applicant of such non-acceptance and shall specify the clauses in respect of which such application is on its face incomplete. Otherwise the date on which an application is received by the Department shall be considered to be the date on which such application is filed, and the Food and Drug Administration shall notify the applicant of such date. If the applicant withdraws his application, such application shall be considered as not having been filed.

SECTION 505 (C)

If the Secretary determines, before the date prescribed by section 505 (c) of the Act for an application to become effective, that he has no cause to issue an order under section 505 (d) of the Act refusing to permit such application to become effective, the Food and Drug Administration shall so notify the applicant in writing and such application shall become effective on the date of the notification.

SECTION 505 (I)

A shipment or other delivery of a new drug shall be exempt from the operation of section 505 (a) of the Act if—

(1) the label of such drug bears the statement "For investigational use only.";

(2) such shipment or delivery is made only to, and solely for investigational use by, an expert qualified by scientific training and experience to investigate the safety of drugs; and

(3) the person who introduced such shipment or delivery into interstate commerce holds a signed statement from such expert to the effect that he has adequate facilities for the investigation to be conducted by him, and that such drug will be used solely by him or under his direction for the investigation, unless and until an application under section 505 (b) of the Act becomes effective with respect to such drug.

SECTION 601 (A)

The term "coal-tar hair dye" includes all articles containing any coal-tar color or intermediate which color or intermediate alters the color of the hair when such articles are applied to the hair under the conditions of use prescribed in the labeling thereof, or under such conditions of use as are customary or usual.

SECTION 602 (A)

(a) Among representations in the labeling of a cosmetic which render such cosmetic misbranded is a false or misleading representation with respect to another cosmetic or a food, drug, or device.

(b) The labeling of a cosmetic which contains two or more ingredients may be misleading by reason (among other reasons) of the designation of such cosmetic in such labeling by a name which includes or suggests the name of one or more but not all such ingredients, even though the names of all such ingredients are stated elsewhere in the labeling.

SECTION 602 (B)

(a) If a cosmetic is not manufactured by the person whose name appears on the label, the name shall be qualified by a phrase which reveals the connection such person has with such cosmetic, such as "Manufactured for and Packed by ——", "Distributed by ——", or other similar phrase which expresses the facts.

(b) The statement of the place of business shall include the street address, if any, of such place, unless such street address is shown in a current city directory or telephone directory.

(c) Where a person manufactures, packs, or distributes a cosmetic at a place other than his principal place of business, the label may state the principal place of business in lieu of the actual place where each package of such cosmetic was manufactured or packed or is to be distributed, if such statement is not misleading in any particular.

(d) The requirement that the label shall contain the name and place of business of the manufacturer, packer, or distributor shall not be considered to relieve any cosmetic from the requirement that its label shall not be misleading in any particular.

(e) (1) The statement of the quantity of the contents shall reveal the quantity of cosmetic in the package, exclusive of wrappers and other material packed with such cosmetic.

(2) The statement shall be expressed in the terms of weight, measure, numerical count, or a combination of numerical count and weight or measure, which are generally used by consumers to express quantity of such cosmetic and which give accurate information as to the quantity thereof. But if no general consumer usage in expressing accurate information as to the quantity of such cosmetic exists, the statement shall be in terms of liquid measure if the cosmetic is liquid, or in terms of weight if the cosmetic is solid, semisolid, or viscous, or in such terms of numerical count, or numerical count and weight or measure, as will give accurate information as to the quantity of the cosmetic in the package.

(f) (1) A statement of weight shall be in terms of the avoirdupois pound and ounce. A statement of liquid measure shall be in terms of the United States gallon of 231 cubic inches and quart, pint, and fluid ounce subdivisions thereof, and shall express the volume at 68° Fahrenheit (20° Centigrade). However, in the case of an export shipment, the statement may be in terms of a system of weight or measure in common use in the country to which such shipment is exported.

(2) A statement of weight or measure in the terms specified in subdivision (1) of his paragraph may be supplemented by a statement in terms of the metric system of weight or measure.

(3) Unless an unqualified statement of numerical count gives accurate information as to the quantity of cosmetic in the package, it shall be supplemented by such statement of weight, measure, or size of the individual units of the cosmetic as will give such information.

(g) Statements shall contain only such fractions as are generally used in expressing the quantity of the cosmetic. A common fraction shall be reduced to its lowest terms; a decimal fraction shall not be carried out to more than two places.

(h) (1) If the quantity of cosmetic in the package equals or exceeds the smallest unit of weight or measure which is specified in paragraph (f) of this regulation, and which is applicable to such cosmetic under the provisions of paragraph (e) (2) of this regulation, the statement shall express the number of the largest of such units contained in the package (for example, the statement on the label of a package which contains one pint of cosmetic shall be "1 pint" and not "16 fluid ounces"), unless the statement is made in accordance with the provisions of subdivision (2) of this paragraph. Where such number is a whole number and a fraction, there may be substituted for the fraction its equivalent in smaller units, if any smaller is specified in such paragraph (f) (for examples, 1¾ quarts may be expressed as "1 quart 1½ pints" or "1 quart 1 pint 8 fluid ounces"; 1¼ pounds may be expressed as "1 pound 4 ounces"). The stated number of any unit which is smaller than the largest unit (specified in such paragraph (f)) contained in the package shall not equal or exceed the number of such smaller units in the next larger unit so specified (for examples, instead of "1 quart 16 fluid ounces" the statement shall be "1½ quarts" or "1 quart 1 pint"; instead of "24 ounces" the statement shall be "1½ pounds" or "1 pound 8 ounces").

(2) In the case of a cosmetic with respect to which there exists an established custom of stating the quantity of the contents as a fraction of a unit, which unit is larger than the quantity contained in the package, or as units smaller than the largest unit contained therein, the statement may be made in accordance with such custom if it is informative to consumers.

(i) The statement shall express the minimum quantity, or the average quantity, of the contents of the package. If the statement is not so qualified as to show definitely that the quantity expressed is the minimum quantity, the statement shall be considered to express the average quantity.

(j) Where the statement expresses the minimum quantity, no variation below the stated minimum shall be permitted except variations below the stated weight or measure caused by ordinary and customary exposure, after the cosmetic is introduced into interstate commerce, to conditions which normally occur in good distribution practice and which unavoidably result in decreased weight or measure. Variations above the stated minimum shall not be unreasonably large.

(k) Where the statement does not express the minimum quantity—

(1) variations from the stated weight or measure shall be permitted when caused by ordinary and customary exposure, after the cosmetic is introduced into interstate commerce, to conditions which normally occur in good distribution practice and which unavoidably result in change of weight or measure;

(2) variations from the stated weight, measure, or numerical count shall be permitted when caused by unavoidable deviations in weighing, measuring, or counting individual packages which occur in good packing practice.

But under subdivision (2) of this paragraph variations shall not be permitted to such extent that the average of the quantities in the packages comprising a shipment or other delivery of the cosmetic is below the quantity stated, and no unreasonable shortage in any package shall be permitted, even though overages in other packages in the same shipment or delivery compensate for such shortage.

(l) The extent of variations from the stated quantity of the contents permissible under paragraphs (j) and (k) of this regulation in the case of each shipment or other delivery shall be determined by the facts in such case.

(m) A cosmetic shall be exempt from compliance with the requirements of clause (2) of section 602 (b) of the Act if the quantity of the contents of the package, as expressed in terms applicable to such cosmetic under the provisions of paragraph (e) (2) of this regulation, is less than one-fourth ounce avoirdupois, or less than one-eighth fluid ounce, or (in case the units of the cosmetic can be easily counted without opening the package) less than six units.

SECTION 602 (C)

(a) A word, statement, or other information required by or under authority of

the Act to appear on the label may lack that prominence and conspicuousness required by section 602 (c) of the Act by reason (among other reasons) of—

(1) the failure of such word, statement, or information to appear on the part or panel of the label which is presented or displayed under customary conditions of purchase;

(2) the failure of such word, statement, or information to appear on two or more parts or panels of the label, each of which has sufficient space therefor, and each of which is so designed as to render it likely to be, under customary conditions of purchase, the part or panel displayed;

(3) the failure of the label to extend over the area of the container or package available for such extension, so as to provide sufficient label space for the prominent placing of such word, statement, or information;

(4) insufficiency of label space (for the prominent placing of such word, statement, or information) resulting from the use of label space for any word, statement, design, or device which is not required by or under authority of the Act to appear on the label;

(5) insufficiency of label space (for the prominent placing of such word, statement, or information) resulting from the use of label space to give materially greater conspicuousness to any other word, statement, or information, or to any design or device; or

(6) smallness or style of type in which such word, statement, or information appears, insufficient background contrast, obscuring designs or vignettes, or crowding with other written, printed, or graphic matter.

(b) (1) All words, statements, and other information required by or under authority of the Act to appear on the label or labeling shall appear thereon in the English language.

(2) If the label contains any representation in a foreign language, all words, statements, and other information required by or under authority of the Act to appear on the label shall appear thereon in the foreign language.

(3) If the labeling contains any representation in a foreign language, all words, statements, and other information required by or under authority of the Act to appear on the label or labeling shall appear on the labeling in the foreign language.

SECTION 603

(a) Except as provided by paragraphs (b) and (c) of this regulation, a shipment or other delivery of a cosmetic which is, in accordance with the practice of the trade, to be processed, labeled, or repacked in substantial quantity at an establishment other than that where originally processed or packed, shall be exempt, during the time of introduction into and movement in interstate commerce and the time of holding in such establishment, from compliance with the labeling requirements of sections 601 (a) and 602 (b) of the Act if—

(1) the person who introduced such shipment or delivery into interstate commerce is the operator of the establishment where such cosmetic is to be processed, labeled, or repacked; or

(2) in case such person is not such operator, such shipment or delivery is made to such establishment under a written agreement, signed by and containing the post-office addresses of such person and such operator, and containing such specifications for the processing, labeling or repacking, as the case may be, of such cosmetic in such establishment as will insure, if such specifications are followed, that such cosmetic will not be adulterated or misbranded within the meaning of the Act upon completion of such processing, labeling, or repacking. Such person and such operator shall each keep a copy of such agreement until all such shipment or delivery has been removed from such establishment, and shall make such copies available for inspection at any reasonable hour to any officer or employee of the Department who requests them.

(b) An exemption of a shipment or other delivery of a cosmetic under clause (1) of paragraph (a) of this regulation shall, at the beginning of the act of removing such shipment or delivery, or any part thereof, from such establishment, become void ab initio if the cosmetic comprising such shipment, delivery, or part is adulterated or misbranded within the meaning of the Act when so removed.

(c) An exemption of a shipment or other delivery of a cosmetic under clause (2) of paragraph (d) of this regulation shall become void ab initio with respect to the person who introduced such shipment or delivery into interstate commerce upon refusal by such person to make available for inspection a copy of the agreement, as required by such clause.

(d) An exemption of a shipment or other delivery of a cosmetic under clause (2) of paragraph (a) of this regulation shall expire—

(1) at the beginning of the act of removing such shipment or delivery, or any part thereof, from such establishment if the cosmetic comprising such shipment, delivery, or part is adulterated or misbranded within the meaning of the Act when so removed; or

(2) upon refusal by the operator of the establishment where such cosmetic is to be processed, labeled, or repacked, to make available for inspection a copy of the agreement, as required by such clause.

SECTION 702 (B)

(a) (1) When any officer or employee of the Department collects a sample of a food, drug, or cosmetic for analysis under the Act, the sample shall be designated as an official sample if records or other evidence is obtained by him or any other officer or employee of the Department indicating that the shipment or other lot of the article from which such sample was collected was introduced or delivered for introduction into interstate commerce, or was in or was received in interstate commerce, or was manufactured within a Territory. Only samples so designated by an officer or employee of the Department shall be considered to be official samples.

(2) For the purpose of determining whether or not a sample is collected for analysis, the term "analysis" includes examinations and tests.

(3) The owner of a food, drug, or cosmetic of which an official sample is collected is the person who owns the shipment or other lot of the article from which the sample is collected.

(b) When an officer or employee of the Department collects an official sample of a food, drug, or cosmetic for analysis under the Act, he shall collect at least twice the quantity estimated by him to be sufficient for analysis, unless—

(1) the amount of the article available and reasonably accessible for sampling is less than twice the quantity so estimated;

(2) the cost of twice the quantity so estimated exceeds $10;

(3) the article is perishable;

(4) the sample is collected from a shipment or other lot which is being imported or offered for import into the United States;

(5) the sample is collected from a person named on the label of the article, or his agent, and such person is also the owner of the article;

(6) the sample is collected from the owner of the article, or his agent, and such article bears no label or, if it bears a label, no person is named thereon; or

(7) the analysis consists principally of rapid analytical procedures, organoleptic examination, or other field inspection examinations or tests, made at the place where the sample is collected or in a mobile or temporary laboratory.

In addition to the quantity of sample prescribed above the officer or employee shall, if practicable, collect as part of the sample such further amount of the article as he estimates to be sufficient for use as exhibits in the trial of any case that may arise under the Act based on the sample.

(c) After the Food and Drug Administration has completed such analysis of an official sample of a food, drug, or cosmetic as it determines, in the course of analysis and interpretation of analytical results, to be adequate to establish the respects, if any, in which the article is adulterated or misbranded within the meaning of the Act, or otherwise subject to the prohibitions of the Act, and has reserved an amount of the article it estimates to be adequate for use as exhibits in the trial of any case that may arise under the Act based on the sample, a part of the sample, if any remains available, shall be provided for

analysis, upon written request, by any person named on the label of the article, or the owner thereof, or the attorney or agent of such person or owner, except when—

(1) after collection, the sample or remaining part thereof has become decomposed or otherwise unfit for analysis, or

(2) the request is not made within a reasonable time before the trial of any case under the Act, based on the sample, to which such person or owner is a party.

The person, owner, attorney, or agent who requests the part of sample shall specify the amount desired and make advance payment of the cost thereof. A request from an owner shall be accompanied by a showing of ownership, and a request from an attorney or agent by a showing of authority from such person or owner to receive the part of sample. When two or more requests for parts of the same sample are received the requests shall be complied with in the order in which they were received so long as any part of the sample remains available therefor.

(d) When an official sample of a food, drug, or cosmetic is the basis of a notice given under section 305 of the Act, or of a case under the Act, and the person to whom the notice was given, or any person who is a party to the case, has no right under paragraph (c) of this regulation to a part of the sample, such person or his atttorney or agent may obtain a part of the sample upon request accompanied by a written waiver of right under such paragraph (c) from each person named on the label of the article and owner thereof, who has not exercised his right under such paragraph (c). The operation of this paragraph shall be subject to the exceptions, terms, and conditions prescribed in paragraph (c) of this regulation.

(e) The Food and Drug Administration is authorized to destroy—

(1) any official sample when it determines that no analysis of such sample will be made;

(2) any official sample or part thereof when it determines that no notice under section 305 of the act, and no case under the Act, is or will be based on such sample;

(3) any official sample or part thereof when the sample was the basis of a notice under section 305 of the Act, and when, after opportunity for presentation of views following such notice, it determines that no other such notice, and no case under the Act, is or will be based on such sample;

(4) any official sample or part thereof when the sample was the basis of a case under the Act which has gone to final judgment, and when it determines that no other such case is or will be based on such sample;

(5) any official sample or part thereof if the article is perishable;

(6) any official sample or part thereof when, after collection, such sample or part has become decomposed or otherwise unfit for analysis;

(7) that part of any official sample which is in excess of three times the quantity it estimates to be sufficient for analysis.

[F. R. Doc. 38-3897; Filed, December 23, 1938; 12:39 p. m.]

TITLE 7—AGRICULTURE

SUGAR DIVISION

[General Sugar Quota Regulations, Series 6, No. 1]

SUGAR CONSUMPTION REQUIREMENTS AND QUOTAS FOR CALENDAR YEAR 1939

DECEMBER 23, 1938.

By virtue of the authority vested in the Secretary of Agriculture by the Sugar Act of 1937, approved September 1, 1937, I, H. A. Wallace, Secretary of Agriculture, in order to carry out the powers vested in me by the said act, do hereby make, prescribe, publish, and give public notice of these regulations, which shall have the force and effect of law and shall remain in force and effect until amended or superseded by orders or regulations hereafter made by the Secretary of Agriculture.

SEC. 821.21 *Consumption requirements for 1939.* It is hereby determined, pursuant to Section 201 of the Sugar Act of 1937 (hereinafter referred to as the "act"), that the amount of sugar needed to meet the requirements of consumers in the continental United States for the calendar year 1939 is 6,832,157 short tons of sugar, raw value. (Sec. 201, 50 Stat. 904; 7 U. S. C., Sup. III, 1111)

SEC. 821.22 *Quotas for domestic areas.* (a) *Original quotas.* There are hereby established, pursuant to section 202 of the said act, for domestic sugar-producing areas, for the calendar year 1939, the following quotas:

Area:	*Quotas in terms of short tons, raw value*
Domestic beet sugar	1,584,524
Mainland cane sugar	429,553
Hawaii	958,994
Puerto Rico	815,810
Virgin Islands	9,115

(Sec. 202, 50 Stat. 905; 7 U. S. C., Sup. III, 1112)

SEC. 821.23 *Other quotas*—(a) *Original quotas.* There are hereby established, pursuant to section 202 of the said act, for foreign countries and the Commonwealth of the Philippine Islands, for the calendar year 1939, the following quotas:

Area:	*Quotas in terms of short tons, raw value*
Commonwealth of the Philippine Islands	1,052,854
Cuba	1,954,303
Foreign countries other than Cuba	27,004

(Sec. 202, 50 Stat. 905; 7 U. S. C., Sup. III, 1112)

SEC. 821.24 *Proration of quota for foreign countries other than Cuba.* (a) *Original prorations.* The quota for foreign countries other than Cuba is hereby prorated, pursuant to section 202 of the said act, among such countries as follows:

Country:	*Prorations in pounds*
Argentina	15,771
Australia	221
Belgium	318,423
Brazil	1,295
British Malaya	28
Canada	610,433
China & Hongkong	311,721
Colombia	289
Costa Rica	22,285
Czechoslovakia	284,875
Dominican Republic	7,214,853
Dutch East Indies	228,704
Dutch West Indies	7
France	189
Germany	126
Guatemala	362,342
Haiti, Republic of	997,126
Honduras	3,713,814
Italy	1,895
Japan	4,337
Mexico	6,526,095
Netherlands	235,716
Nicaragua	11,058,456
Peru	12,024,728
Salvador	8,881,104
United Kingdom	379,399
Venezuela	313,763
Sub-total	53,508,000
Unallotted reserve	500,000
Total	54,008,000

(Sec. 202, 50 Stat. 905; 7 U. S. C., Sup. III, 1112)

SEC. 821.25 *Direct consumption portion of quotas.* (a) *Domestic areas.* The quotas established in Sec. 821.22 hereof for the following listed areas may be filled by direct consumption sugar not in excess of the following amount for each such area:

Area:	*Amount of direct consumption sugar in terms of short tons, raw value*
Hawaii	29,616
Puerto Rico	126,033
Virgin Islands	0

(b) *Other areas.* The quotas established in Sec. 821.23 hereof for the following listed areas may be filled by direct consumption sugar not in excess of the following amount for each such area:

Area:	*Amount of direct consumption sugar in terms of short tons, raw value*
Commonwealth of the Philippine Islands	80,214
Cuba	375,000

(Sec. 207, 50 Stat. 907; 7 U. S. C., Sup. III, 1117)

SEC. 821.26 *Liquid sugar quotas.* There are hereby established, pursuant to section 208 of the said act, for foreign countries, for the calendar year 1939, quotas for liquid sugar as follows:

Country:	*In terms of wine gallons of 72% total sugar content*
Cuba	7,970,556
Dominican Republic	830,894
Other foreign countries	0

(Sec. 208, 50 Stat. 908; 7 U. S. C., Sup. III, 1118)

SEC. 821.27 *Restrictions on marketing and shipment.* (a) For the calendar year 1939, all persons are hereby forbidden, pursuant to section 209 of the said act, from bringing or importing into the continental United States from the Territory of Hawaii, Puerto Rico, the Virgin Islands, the Commonwealth of the Philippine Islands, or any foreign country, any sugar or liquid sugar after the quota for such area, or the proration of any such quota, has been filled.

(b) For the calendar year 1939, all persons are hereby forbidden, pursuant to section 209 of the said act, from shipping, transporting or marketing in interstate commerce, or in competition with sugar or liquid sugar shipped, transported, or marketed in interstate or foreign commerce, any sugar or liquid sugar produced from sugar beets or sugarcane grown in either the domestic beet sugar area or the mainland cane sugar area after the quota for such area has been filled. (Sec. 209, 50 Stat. 906; 7 U. S. C., Sup. III, 1119)

SEC. 821.28 *Inapplicability of quota regulations.* These regulations (Secs. 821.21–821.27) shall not apply to (1) the first 10 tons, raw value, of sugar or liquid sugar imported from any foreign country, other than Cuba; (2) the first 10 tons, raw value, of sugar or liquid sugar imported from any foreign country, other than Cuba, for religious, sacramental, educational, or experimental purposes; (3) liquid sugar imported from any foreign country, other than Cuba, in individual sealed containers not in excess of one and one-tenth gallons each; or (4) any sugar or liquid sugar imported, brought into, or produced or manufactured in, the United States for the distillation of alcohol, or for livestock feed, or for the production of livestock feed. (Sec. 212, 50 Stat. 909; 7 U. S. C., Sup. III, 1122)

In testimony whereof, I have hereunto set my hand and caused the official seal of the Department of Agriculture to be affixed in the District of Columbia, city of Washington, this 23d day of December, 1938.

[SEAL] H. A. WALLACE,
Secretary of Agriculture.

[F. R. Doc. 38-3907; Filed, December 27, 1938; 12:18 p. m.]

DETERMINATION OF PROPORTIONATE SHARES FOR FARMS IN DOMESTIC BEET SUGAR AREA FOR 1939 CROP

DECEMBER 23, 1938.

Whereas Section 302 of the Sugar Act of 1937 provides in part as follows:

(a) The amount of sugar or liquid sugar with respect to which payment may be made shall be the amount of sugar or liquid sugar commercially recoverable, as determined by the Secretary, from the sugar beets or sugarcane grown on the farm and marketed (or processed by the producer) not in excess of the proportionate share for the farm, as determined by the Secretary, of the quantity of sugar beets or sugarcane for the extraction of sugar or liquid sugar required to be processed to enable the producing area in which the crop of sugar beets or sugarcane is grown to meet the quota (and provide a normal carry-over inventory) estimated by the Secretary for such area for the calendar year during which the larger part of the sugar or liquid sugar from such crop normally would be marketed.

(b) In determining the proportionate shares with respect to a farm, the Secretary may take into consideration the past production on the farm of sugar beets and sugarcane marketed (or processed) for the extraction of sugar or liquid sugar and the ability to produce such sugar beets or sugarcane, and the Secretary shall, insofar as practicable, protect the interests of new producers and small producers and the interests of producers who are cash tenants, share-tenants, adherent planters, or share-croppers.

and

Whereas subsection (c) of section 301 of said act provides, as one of the conditions for payment to producers of sugar beets and sugarcane, as follows:

(c) That there shall not have been marketed (or processed) an amount (in terms of planted acreage, weight, or recoverable sugar content) of sugar beets or sugarcane grown on the farm and used for the production of sugar or liquid sugar to be marketed in, or so as to compete with or otherwise directly affect interstate or foreign commerce, in excess of the proportionate share for the farm, as determined by the Secretary pursuant to the provisions of section 302, of the total quantity of sugar beets or sugarcane required to be processed to enable the area in which such sugar beets or sugarcane are produced to meet the quota (and provide a normal carryover inventory) as estimated by the Secretary for such area for the calendar year during which the larger part of the sugar or liquid sugar from such crop normally would be marketed.

and

Whereas the Secretary of Agriculture, on September 15, 1938, estimated the amount (in terms of planted acreage) of sugar beets required to be processed from the 1939 crop to enable the beet sugar area to fill its quota (and provide a normal carryover inventory), estimated for the calendar year during which the larger part of the sugar from such crop normally would be marketed, to be 1,030,000 acres:

Now, therefore, I, H. A. Wallace, Secretary of Agriculture, do hereby determine that the proportionate share of sugar beets in terms of planted acres for any farm in the beet sugar area for the 1939 crop shall be the acreage established as follows:

A. In a district in which the total acreage requested for proportionate shares does not exceed the acreage allocation hereinafter made for such district, the proportionate share shall be the acreage requested.

B. In a district in which the total acreage requested for proportionate shares exceeds the acreage allocation hereinafter made for such district, the proportionate share for a farm for which a proportionate share is requested shall be calculated upon the basis of the average acreage of sugar beets planted on the farm during a period of not less than three and not more than ten consecutive years, including the year 1938 (the same years to be included for all farms in the district), and from the figure so obtained there shall be deducted (a) the acreage obtained by multiplying such average acreage for the farm by the percentage that the total of such average acreages for all farms in the district exceeds the district allocation, (b) the acreage by which the average acreage for the farm, as adjusted in (a) above, exceeds the acreage requested for the farm, and (c) any acreage by which the average acreage for the farm, as adjusted in (a) and (b) above, exceeds the ability to produce sugar beets, as hereinafter defined; and to the figure thus obtained there shall be added any acreage apportioned to the farm from the amount by which the total of such figures for all farms in the district is less than the acreage allocated to the district. In making such apportionment there shall be taken into consideration, first, requests from small producers, second, requests from new producers who are not small producers, and, third, requests from producers, other than small or new producers, requesting acreages in excess of their average acreage as adjusted in (a) above, and in all three cases consideration shall be given to ability to produce sugar beets, as measured by availability and suitability of land, area of available fields, availability of irrigation water, adequate drainage, availability of production and marketing facilities, and the production experience of the producer.

Provided, however, That the total of the proportionate shares established for farms by districts shall not be in excess of the following:

State and District	*Acres*
California:	
Alvarado, Tracy, and Hamilton City	37,628
Manteca and Woodland	52,044
Salinas	23,651
Clarksburg	14,954

Wyoming:	
Wheatland	7,825
Lovell	11,566
Torrington	20,935
Worland	13,474
Sheridan	6,140
Total	1,030,000

For the purposes of this determination:

1. A producer shall be deemed to be a small producer if in 1939 he operates a farm for which the proportionate share requested is less than 35% of the average planted sugar beet acreage per farm for the district in which such farm is included.

2. A producer shall be deemed to be a new producer if in 1939 he operates a farm on which sugar beets have not been planted during the period used as the measure of history of planted sugar beet acreage for the district in which such farm is included.

3. A district shall be deemed to include the farms with respect to which the operators signify intention to contract for the production of sugar beets for delivery to the beet sugar factory or factories identifying the district (specified above), and shall include only the farms located within the territory in which sugar beets are normally contracted for delivery to such factory or factories.

The proportionate shares for farms shall be established in accordance with this determination by a committee of sugar beet producers designated for the district by the appropriate Division of the Agricultural Adjustment Administration.

Done at Washington, D. C., this 23d day of December 1938. Witness my hand and the seal of the Department of Agriculture.

[SEAL] H. A. WALLACE,
Secretary of Agriculture.

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

SECURITIES AND EXCHANGE COMMISSION

PUBLIC UTILITY HOLDING COMPANY ACT OF 1935

AMENDMENT OF RULE U-12F-1 [1]

Pursuant to authority conferred upon it by Sections 12 (f), 20 (a) and 27 (a) of the Public Utility Holding Company Act of 1935, and deeming it appropriate in the public interest and for the protection of investors and consumers, the Securities and Exchange Commission hereby amends subparagraph (2) of paragraph (e) of Rule U-12F-1 [Sec. 15. U-12F-1] entitled "Sale of Public Utility Securities and Utility Assets to Associate Companies or Affiliates" by striking out of said sub-paragraph (2) the words "April 15, 1938," and inserting in lieu thereof "December 19, 1938."

Effective December 24, 1938.

By the Commission.

[SEAL] FRANCIS P. BRASSOR,
Secretary.

[F. R. Doc. 38-3904; Filed, December 27, 1938; 11:12 a. m.]

PUBLIC UTILITY HOLDING COMPANY ACT OF 1935

AMENDMENT OF RULE U-17C-11 [1]

Pursuant to authority granted by the Public Utility Holding Company Act of 1935 and particularly Sections 17 (c) and 20 (a) thereof and finding that such action will not adversely affect the public interest or the interest of investors or consumers and is appropriate to carry out the provisions of said Act, the Securities and Exchange Commission hereby amends Rule U-17C-11 [Sec. 15.U-17C-11] entitled "Independent Officers or Directors" by striking out of paragraph (c) of said rule the words "January 1, 1939," and by inserting in lieu thereof "April 1, 1939."

Effective December 31, 1938.

By the Commission.

[SEAL] FRANCIS P. BRASSOR,
Secretary.

TITLE 18—CONSERVATION OF POWER

FEDERAL POWER COMMISSION

[Order No. 57]

DIRECTING NATURAL-GAS COMPANIES HAVING AGREEMENTS PROVIDING FOR PERIODIC CHANGES IN RATES TO SUBMIT INFORMATION AND DATA SPECIFIED IN PROVISIONAL RULES AND REGULATIONS

DECEMBER 20, 1938.

Commissioners: Clyde L. Seavey, Acting Chairman; Claude L. Draper, Basil Manly, John W. Scott.

It appearing to the Commission that:

(a) Part 54, Section 54.3 C [2] of the Provisional Rules of Practice and Regulations Under the Natural Gas Act, provides that all rate schedules making a change in any rate, charge, classification or service, on file with the Commission, or in any rule, regulation or contract relating thereto, shall be filed with the Commission not less than thirty days prior to the proposed effective date thereof, unless a shorter period of time is authorized by the Commission; and as to each proposed change there shall be submitted to the Commission at the same time—(1) a statement outlining the reasons for the proposed change and the desirability thereof; (2) pertinent data supporting the statements in (1) above; and (3) an estimate of the probable sales and revenue under the rate after the proposed change becomes effective, for a period of 12 months thereafter;

(b) In many instances agreements of natural-gas companies, filed pursuant to Section 4 (c) of the Natural Gas Act, contain provisions whereby changes in rate schedules are to become effective periodically upon dates subsequent to the filing of such agreements, and in con-

[1] 2 F. R. 2197 (2555 DI).
[2] 3 F. R. 1687 DI.

nection with such changes certain natural-gas companies have not submitted the information and data specified in Part 54, Section 54.3 C of the Provisional Rules of Practice and Regulations Under the Natural Gas Act;

The Commission *orders* that:

Each natural-gas company having on file with the Commission an agreement or agreements providing for periodic change or changes therein, to become effective subsequent to the date of filing of such agreement or agreements shall, within not less than 30 days prior to the effective date of such change or changes, submit to the Commission the information and data specified in Part 54, Section 54.3 C of the Provisional Rules of Practice and Regulations Under the Natural Gas Act.

By the Commission.

[File No. 32-111]

IN THE MATTERS OF ARKANSAS WESTERN GAS COMPANY AND SOUTHERN UNION GAS COMPANY

ORDER

Arkansas Western Gas Company, a subsidiary of Southern Union Gas Company, a registered holding company, having filed applications pursuant to Section 6 (b) of the Public Utility Holding Company Act of 1935, and Rule U-12C-1 promulgated thereunder, in respect of (1) the issue and sale of $750,000 principal amount of its First Mortgage, Series A, Fifteen Year 6% Sinking Fund Bonds, (2) the issue and sale of 2,500 shares of its 6% Cumulative Preferred Stock, par value $50 per share, in exchange for $125,000 principal amount of its Five Year 7% Gold Debentures, and (3) the acquisition of $125,000 principal amount of its 7% Debentures, and having requested an order permitting a declaration to become effective pursuant to Section 7 of the Act regarding such "exercise of any privilege or right to alter the priorities, preferences, voting power or other rights of an outstanding security of such company" within the meaning of Section 6 (a) (2) of the Act as may be involved in (a) the reduction in the stated value of its no par common stock from $80 to $35 per share, and (b) changes in voting power incident to the issuance of the above-designated preferred stock; and

Southern Union Gas Company, a registered holding company, having filed an application, pursuant to Rule U-12D-1, for approval of the sale of said Debentures to Arkansas Western Gas Company; and

Public hearings on said matters having been held[1] after appropriate notice and the Commission having considered the record in these matters and having made and filed its findings and opinion herein:

It is ordered, That the applications filed pursuant to Section 6 (b) of the Act and Rule U-12C-1 by Arkansas Western Gas Company be granted, subject, however, to the following terms and conditions: (1) that the issue, sale, and exchange of said securities by Arkansas Western Gas Company shall be effected in accordance with the terms and conditions of, and for the purposes represented by, said applications; (2) that if the express authorization of the issue and sale of said bonds and preferred stock by the Department of Public Utilities of the State of Arkansas shall be revoked or otherwise terminated, the exemption provided in respect of such issue and sale shall immediately terminate without further order of this Commission; and (3) that within ten days after the issue and sale, and the acquisition, of said securities the applicant shall file with this Commission a Certificate of Notification showing that such issue and sale, and such acquisition have been effected in accordance with the terms and conditions of, and for the purposes represented by, said applications.

It is further ordered, That declarations regarding such alterations in the priorities, preferences, voting power or other rights as are involved in the reduction in stated value of Arkansas Western Gas Company's no par common stock from $85 to $35, and in the issuance by Arkansas Western Gas Company of 2,500 shares of its 6% Cumulative Preferred Stock, par value $50 per share, be and become effective forthwith, on the condition, however, that such matters shall be performed in all respects as set forth in said applications.

It is further ordered, That the application of Southern Union Gas Company, pursuant to Rule U-12D-1, is hereby approved, subject, however, to the condition that such sale shall be effected in compliance with and for the purposes represented by said application, and upon the further condition that Southern Union Gas Company shall file with this Commission, within ten days after the sale of said debentures, a Certificate of Notification to that effect.

By the Commission.

IN THE MATTER OF MONONGAHELA WEST PENN PUBLIC SERVICE COMPANY AND AMERICAN WATER WORKS AND ELECTRIC COMPANY, INCORPORATED

ORDER

Monongahela West Penn Public Service Company, a subsidiary of American Water Works and Electric Company, Incorporated, a registered holding company, having filed a declaration pursuant to Section 7 of the Public Utility Holding Company Act of 1935 regarding the reduction of the par value of its common stock from $25 per share to $15 per share and regarding the issue and sale of 200,000 additional shares of its common stock having such reduced par value; and said American Water Works and Electric Company, Incorporated, having filed an application pursuant to Section 10 (a) (1) of said Act for approval of the acquisition of such additional shares for the consideration of $3,000,000 or $15 per share;

Public hearings having been held[1] on the above matters after appropriate notice; and the Commission having made and filed its findings herein:

It is ordered, That said declaration by Monongahela West Penn Public Service Company be and become effective forthwith, subject however to the following conditions: That no charges (other than those required by other regulatory bodies having exclusive jurisdiction in the premises) shall be made to the capital surplus resulting from the reduction in the par value of declarant's stock unless prior notice of the making of such charge be given to this Commission, in which event the Commission reserves jurisdiction, after notice and opportunity for hearing, to disapprove such charge on the basis of the record herein and any additional evidence that may be adduced by any interested party; and in the event that the Commission shall notify declarant to show cause why such charge should not be approved, the charge in question shall not be made until expressly authorized by order of this Commission;

It is further ordered, That the application of American Water Works and Electric Company, Incorporated, be and the same hereby is approved.

By the Commission.

IN THE MATTER OF PENNSYLVANIA POWER COMPANY, THE COMMONWEALTH & SOUTHERN CORPORATION

ORDER

Pennsylvania Power Company, a subsidiary of The Commonwealth & Southern Corporation, a registered holding company, having filed an application and declarations pursuant to Sections 6 (b) and 7 of the Public Utility Holding Company Act of 1935 regarding the issue and sale of 42,000 shares of its $5 cumulative no-par preferred stock, 10,000 shares of its no-par common stock, and its 1½% promissory note in the principal amount of $3,000,000;

The Commonwealth & Southern Corporation having filed an application pursuant to Section 10 of the Act for the approval of the acquisition by it of the aforesaid 10,000 shares of no-par common stock to be acquired at the stated value of $300,000;

A joint hearing having been held[1] on said applications and declarations after appropriate notice, and the Commission having considered the record in this matter and having made and filed its findings herein;

[1] 3 F. R. 2859 DI.

It is ordered, That the issue and sale of 42,000 shares of such preferred stock be and the same hereby are exempted from the provisions of Section 6 (a) of the Act;

It is further ordered, That the declarations with respect to the aforesaid 10,000 shares of common stock and the promissory note in the principal amount of $3,000,000 be and become effective forthwith;

It is further ordered, That the acquisition of the aforesaid 10,000 shares of common stock by The Commonwealth & Southern Corporation is hereby approved; the Commission, however, reserves jurisdiction as to the amount at which The Commonwealth & Southern Corporation carries its investment in the common capital stock of Pennsylvania Power Company;

It is further ordered, That this order be subject to the following terms and conditions:

(1) That all acts in connection with said declarations and applications shall be performed in all respects as set forth in, and for the purposes represented by, said applications and declarations; and

(2) That in the event that the order of the Pennsylvania Public Service Commission expressly authorizing the issuance of the preferred stock shall be revoked, rescinded, or otherwise terminated, the exemption granted herein shall immediately terminate without further notice or order; and

(3) That within ten days after the issuance of the securities referred to herein, and the acquisition of the common stock, the declarant and applicants shall, respectively, file with this Commission certificates of notification showing that such issue and sale and acquisition have been effected in accordance with the terms and conditions of, and for the purposes represented by, the declarations and applications.

By the Commission.

FEDERAL REGISTER

VOLUME 3 NUMBER 252

Washington, Thursday, December 29, 1938

The President

EXECUTIVE ORDER

DOCUMENTS REQUIRED OF ALIENS ENTERING THE UNITED STATES

By virtue of and pursuant to the authority vested in me by the act of May 22, 1918, 40 Stat. 559, as extended by the act of March 2, 1921, 41 Stat. 1205–1217, I hereby prescribe the following regulations pertaining to documents required of aliens entering the United States (which regulations shall be applicable to Chinese and to Philippine citizens who are not citizens of the United States except as may be otherwise provided by special laws and regulations governing the entry of such persons):

PART I

1. Nonimmigrants must present unexpired passports or official documents in the nature of passports issued by the governments of the countries to which they owe allegiance or other travel documents showing their origin and identity, as prescribed in regulations issued by the Secretary of State, and valid passport visas, except in the following cases:

(a) A nonimmigrant alien coming within a category and domiciled in a country, island, or territory of the Western Hemisphere, specified in regulations issued by the Secretary of State, passing in transit through the United States or entering the United States temporarily.

(b) A nonimmigrant alien lawfully admitted into the United States who later goes in transit from one part of the United States to another through foreign contiguous territory.

(c) A nonimmigrant alien child born subsequent to the issuance of the passport visa of an accompanying parent, the visa not having expired.

(d) An alien who has previously been legally admitted into the United States with a diplomatic visa or with a passport visa as a nonimmigrant as defined by Section 3 (1) or Section 3 (6) of the Immigration Act of 1924 (43 Stat. 153, 154), and who has departed temporarily therefrom and returned within six months, not having proceeded to any place outside the countries, islands, and territories of the Western Hemisphere specified in regulations issued by the Secretary of State, and not having relinquished the status in which he was originally admitted.

2. A nonimmigrant alien not included in any of the foregoing exceptions who is passing in transit through the United States may present, in lieu of a passport visa, a transit certificate granted by an authorized officer of the United States.

3. A nonimmigrant alien not included in any of the exceptions specified in the preceding paragraphs who enters the United States for a period not exceeding ten days, landing temporarily while the vessel on which he is a passenger is in port or crossing the border, entering and departing via the same port of entry, may present, in lieu of a passport visa, a limited entry certificate granted by an authorized officer of the United States.

4. The Secretary of State is authorized in his discretion to waive the passport and visa requirements in cases of emergency for nonimmigrants, except that the Governor of the Virgin Islands is authorized in his discretion to waive the requirements in cases of emergency for nonimmigrant aliens applying for admission at a port of entry of the Virgin Islands.

5. No passport visa, transit certificate, or landing certificate shall be granted to an alien whose entry would be contrary to the public safety.

PART II

1. Immigrants must present unexpired passports, or official documents in the nature of passports, issued by the governments of the countries to which they owe allegiance, or other travel docu-

ments showing their origin and identity, prescribed in regulations issued by the Secretary of State, and valid immigration visas granted by the consular officers of the United States in accordance with the requirements of the Immigration Act of 1924 and the regulations issued thereunder, except in the following cases:

(a) An alien immigrant child born subsequent to the issuance of the immigration visa of an accompanying parent, the visa not having expired.

(b) An alien immigrant child born during the temporary visit abroad of an alien mother who has previously been legally admitted into the United States for permanent residence, under such regulations as may be prescribed.

(c) An alien immigrant who has previously been legally admitted into the United States for permanent residence, has departed temporarily therefrom and returned within six months, not having proceeded to any place outside the countries, islands, and territories of the Western Hemisphere specified in regulations issued by the Secretary of State.

(d) An alien immigrant who has previously been legally admitted into the United States for permanent residence, re-entering from a journey beginning in an American port, without transshipment from the original vessel to another vessel.

(e) An alien immigrant who has previously been legally admitted into the United States for permanent residence, has departed therefrom and has returned from a temporary visit abroad, and who presents an unexpired permit to re-enter, issued pursuant to section 10 of the Immigration Act of 1924.

2. An alien who has previously been legally admitted into the United States as a nonquota immigrant student, has departed temporarily therefrom and returned within six months, not having proceeded to any place outside the countries, islands, and territories of the Western Hemisphere specified in regulations issued by the Secretary of State and not having relinquished his student status, may re-enter without an immigration visa.

3. An immigrant Spanish national who on April 11, 1899 (whether adult or minor), was a *bona fide* resident of Puerto Rico or adjacent islands which comprised the Province of Puerto Rico, and who, in conformity with Article IX of the treaty between the United States and Spain of April 11, 1899, has preserved his allegiance to Spain, may present a passport visa, in lieu of an immigration visa, for entry into Puerto Rico. Such aliens may be admitted into Puerto Rico without regard to the provisions of the Immigration Act of 1924, except section 23. (Act of May 26, 1926, ch. 400, 44 Stat. 657).

4. In such classes of cases and under such conditions as may by regulations be prescribed, the immigration visa requirements may be waived, under section 13 (b) of the Immigration Act of 1924, and the passport requirements may also be waived, for an alien immigrant who has previously been legally admitted into the United States for permanent residence, has departed therefrom, and is returning from a temporary visit abroad.

5. In such classes of cases and under such conditions as may by regulations be prescribed by the Secretary of State, the passport requirements may be waived for any immigrant.

PART III

The Executive Secretary of the Panama Canal is hereby authorized to issue passport visas, transit certificates, landing certificates, and immigration visas to aliens coming to the United States from the Canal Zone. The Governor of American Samoa is hereby authorized to issue passport visas, transit certificates, landing certificates, and immigration visas to aliens coming to the United States from American Samoa. The Governor of Guam is hereby authorized to issue passport visas, transit certificates, landing certificates, and immigration visas to aliens coming to the United States from Guam.

PART IV

The documentary requirements for aliens applying for admission into American possessions outside the United States are to be prescribed by the competent authorities in such possessions, except in the case of the Philippine Islands, which are covered by separate Executive order.

PART V

The definitions contained in section 28 of the Immigration Act of 1924 shall be regarded as applicable to this order, except as otherwise specified herein.

PART VI

The Secretary of State and the Secretary of Labor are hereby authorized to make such additional rules and regulations, not inconsistent with this order, as may be deemed necessary for carrying out the provisions of this order and the statutes mentioned herein.

PART VII

This order shall take effect immediately and shall supersede the provisions of Executive Order No. 7865 [1] of April 12, 1938, entitled, "Documents Required of Aliens Entering the United States", but shall not supersede Executive Order No. 4049 of July 14, 1924, entitled, "Documents Required of Aliens Entering the United States on Airships", or Executive Order No. 7797 [2] of January 26, 1938, entitled, "Documents Required of Bona Fide Alien Seamen Entering the United States".

Rules, Regulations, Orders

TITLE 17—COMMODITIES AND SECURITIES EXCHANGES

SECURITIES AND EXCHANGE COMMISSION

PUBLIC UTILITY HOLDING COMPANY ACT OF 1935

ADOPTION OF RULE U-12F-2

Acting pursuant to the Public Utility Holding Company Act of 1935, and particularly section 20 (a) thereof, and finding such action necessary and appropriate to carry out the provisions of sections 6 (b), 7 (d) (4), 10 (b) (2), 12 (d), 12 (f), 12 (g), 13 (e) and 13 (f) [3] thereof, the Securities and Exchange Commission hereby adopts a rule to be designated Rule U-12F-2 and to read as follows:

SEC. 15.U-12F-2 (Rule U-12F-2). *Payment of Fees to Associates and Affiliates in Connection with an Acquisition or Sale of Securities.*

(a) In connection with an issue, sale or acquisition of any security with respect to which an application or declaration is required by sections 6, 7, 9, 10 or 12 (d), (f), or (g) [4] of the Act, no underwriter's or finder's fee shall be paid to—

(1) any company in the same holding company system as the applicant or declarant, or

(2) any affiliate of such company, or

(3) any person who the Commission finds stands in such relation to the declarant or applicant, or to the person by whom the fee is to be paid, that there is liable to be or to have been an absence of arm's-length bargaining with respect to the transaction. The Commission shall not make such finding unless it has issued an order to show cause why such finding should not be made, which order to show cause shall be returnable on the date and at the place fixed for hearing upon the application or declaration to which it is ancillary, unless the Commission otherwise orders. Proceedings on the order to show cause and on the application or declaration shall be consolidated, unless the Commission shall otherwise order. In appropriate cases, the Commission up application may make a finding or render an opinion for purposes of this paragraph in advance of any issue, sale, or acquisition of any security. Except for purposes of this rule, a finding by the Commission under this paragraph shall not constitute a finding for purposes of section 2 (a) (11) (D) [5] of the Act.

(b) Paragraph (a) of this rule shall not apply in respect of any underwriter's fee if it appears to the Commission that—

(1) appropriate and diligent effort was made to obtain competitive bids for the securities which are the subject of the application or declaration, by publication or otherwise, and the affiliate's bid was not less favorable than that of any other bidders'; or

(2) such effort was not practicable and (a) the fee to be paid does not exceed customary fees for similar services where the parties are dealing at arm's length, (b) the service rendered is necessary, and (c) the remuneration is reasonable in view of the cost of rendering the service, the time spent therein and other relevant factors.

(c) Paragraph (a) of this rule shall not apply in respect of any finder's fee if the necessity for the employment of the finder and the reasonableness of the fee are established by a fair preponderance of the evidence.

(d) An underwriter's fee within the meaning of this rule shall include any fee, commission, discount or other remuneration (except a finder's fee) paid in connection with a public offering of any securities to an underwriter as defined in the Securities Act of 1933, *Provided, however*, That the term shall not include any fee paid to an underwriter whose participation does not exceed 5% of the total offering, if such underwriter does not receive any commission or remuneration (whether for originating the issue or otherwise) in addition to the fee computed at the rate applicable to other underwriters who take the same or similar participation in the offering.

(e) A finder's fee is a fee (other than an underwriter's fee) paid for services (other than attorneys', accountants' and similar technical services) in connection with the negotiation or consummation of an acquisition, issue, or sale of securities or for services in securing underwriters, sellers or purchasers of securities. (C. 687, sec. 20, 49 Stat. 833; 15 U. S. C., Sup. III, 79t) [Rules and Regs., Rule U-12F-2, effective March 1, 1939]

By the Commission.

IN THE MATTER OF COLONIAL BEACON OIL COMPANY COMMON STOCK, WITHOUT PAR VALUE

ORDER SETTING HEARING ON APPLICATION TO STRIKE FROM LISTING AND REGISTRATION

The New York Stock Exchange, pursuant to Section 12 (d) of the Securities Exchange Act of 1934, as amended, and Rule X-12D2-1 (b) promulgated thereunder, having made application to strike from listing and registration the Common Stock, Without Par Value, of Colonial Beacon Oil Company; and

The Commission deeming it necessary for the protection of investors, that a hearing be held in this matter at which all interested persons be given an opportunity to be heard;

It is ordered, That the matter be set down for hearing at 10 A. M. on Tuesday, January 24, 1939 at the office of the Securities and Exchange Commission, 120 Broadway, New York City, and continue thereafter at such times and places as the Commission or its officer herein designated shall determine, and that general notice thereof be given; and

It is further ordered, That Adrian C. Humphreys, an officer of the Commission, be and he hereby is designated to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

By the Commission.

IN THE MATTER OF NORTH AMERICAN FINANCE CORP. 80¢ CUM. PRIOR PFD. STOCK, AND CLASS "A" COMMON STOCK PURCHASE WARRANTS

ORDER SETTING HEARING ON APPLICATION TO STRIKE FROM LISTING AND REGISTRATION

The Board of Trade of the City of Chicago, pursuant to Section 12 (d) of the Securities Exchange Act of 1934, as amended, and Rule X-12D2-1 (b) promulgated thereunder, having made application to strike from listing and registration the 80¢ Cumulative Prior Preferred Stock and Class "A" Common Stock Purchase Warrants of North American Finance Corporation; and

The Commission deeming it necessary for the protection of investors that a hearing be held in this matter at which all interested persons be given an opportunity to be heard;

It is ordered, That the matter be set down for hearing at 10 A. M. on Tuesday, January 24, 1939 at the office of the Securities and Exchange Commission, 105 West Adams St., Chicago, Illinois, and continue thereafter at such times and places as the Commission or its officer herein designated shall determine, and that general notice thereof be given; and

It is further ordered, That Henry Fitts, an officer of the Commission, be and he hereby is designated to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

By the Commission.

IN THE MATTER OF COLUMBUS AND SOUTHERN OHIO ELECTRIC COMPANY

ORDER EXEMPTING ISSUE AND SALE OF BONDS

Columbus and Southern Ohio Electric Company, a subsidiary of Continental Gas and Electric Corporation, a registered holding company, having filed an application and an amendment thereto pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935 for exemption from the provisions of section 6 (a) of the Act of the issue and sale of $1,900,000 principal amount of its First Mortgage and Collateral Trust Bonds, 3¼% Series due 1968;

A hearing on such matter having been held [2] after appropriate notice; the record in this matter having been examined; and the Commission having made and filed its findings herein;

It is ordered That the issue and sale of the aforesaid bonds in accordance with the terms and conditions set forth in, and for the purposes represented by, said amended application, be, and the same hereby are, exempted from the provisions of section 6 (a) of the Public Utility Holding Company Act of 1935, subject, however, to the following conditions:

(a) That if the express authorization of the issue and sale of such bonds by the Public Utilities Commission of Ohio shall be revoked, or shall otherwise terminate, this exemption shall immediately terminate without further order of this Commission;

(b) That all matters in connection with said application, as amended, shall be performed in all respects as set forth in and for the purposes represented by said application, as amended, provided, however, that no fee shall be paid to Dillon, Read & Co. in connection with the issue and sale of the said bonds pending further order of this Commission; and

(c) That within ten days after the issue and sale of such bonds the applicant shall file with this Commission a certificate of notification showing that such issue and sale have been effected in accordance with the terms and conditions of, and for the purposes represented by, said application, as amended, and in accordance with the terms of this order; and

It is further ordered, That the Commission reserves jurisdiction to determine, at a later date, whether the fee to be paid Dillon, Read & Co., in connection with the issue and sale of the said bonds, is or is not reasonable.

By the Commission.

IN THE MATTERS OF NORTHERN STATES POWER COMPANY (DELAWARE), NORTHERN STATES POWER COMPANY (WISCONSIN), NORTHERN STATES POWER COMPANY (MINNESOTA)

ORDER APPROVING APPLICATIONS AND DECLARATIONS, AS AMENDED

Northern States Power Company, a Delaware corporation, a registered holding company and a subsidiary of Standard Gas and Electric Company, also a registered holding company, Northern States Power Company, a Minnesota corporation, and Northern States Power Company, a Wisconsin corporation, having filed the following applications and declaration and amendments thereto, pursuant to Section 11 (e), Section 10, Section 6 (b) and Section 7 of the Public Utility Holding Company Act of 1935, and pursuant to Rule U-12D-1 adopted by this Commission under that Act:

1. An application (File No. 43-156) by Northern States Power Company, a Delaware corporation, for approval of a plan of recapitalization to effect a reduction in the capital of its Class B common stock from $7,291,663.33 to zero and in the capital of its Class A common stock from $34,155,100 to $8,538,775, to reduce the par value of the Class A common stock from $100 to $25 per share, to terminate the voting power of the Class B common stock on January 1, 1941 and to provide for the cancellation of said stock on January 1, 1944, except as hereinafter provided, to reduce the stated value of the assets of said corporation, and to take certain other action and to make certain accounting adjustments in connection therewith;

2. An application (File No. 56-4) by Northern States Power Company, a Delaware corporation, for approval, pursuant to Rule U-12D-1, of its sale to Northern States Power Company, a Minnesota corporation, of an aggregate principal amount of $2,117,500 of bonds issued by Northern States Power Company, a Wisconsin corporation, and 44,472 shares of the 7% Cumulative Preferred Stock and 25,000 shares of the common stock issued by said Wisconsin corporation and all of the outstanding shares of capital stock of Midland Public Service Company;

3. An application (File No. 46-102) by Northern States Power Company, a Minnesota corporation, for approval, pursuant to Section 10, of its acquisition of the securities referred to in paragraph (2) above to be sold to it by Northern States Power Company, a Delaware corporation, and of its acquisition of 80,000 shares of common stock to be issued by Northern States Power Company, a Wisconsin corporation, in satisfaction, in part, of said Wisconsin corporation's open account indebtedness to said Minnesota corporation in the amount of $16,980,000 and, in part, upon the condition of the cancellation of the balance of said indebtedness;

4. An application (File No. 32-94) by Northern States Power Company, a Wisconsin corporation, for exemption, pursuant to Section 6 (b), from the provisions of Section 6 (a) of said Act of the issue and sale of 80,000 shares of its common stock of a par value of $100 each, said shares to be issued to Northern States Power Company, a Minnesota corporation, for the purposes and upon the considerations as stated in paragraph (3) above, and for the issuance to holders of shares of preferred stock of said Wisconsin corporation of additional shares of its common stock through the exercise by the holders of said preferred shares of the right (which they will receive by amendment to the articles of incorporation of said Wisconsin corporation) to convert said shares of preferred stock into common stock of said Wisconsin corporation; the issue and sale of all of such common stock as aforesaid having been expressly authorized by the Public Service Commission of Wisconsin, and a declaration, pursuant to Section 7, with respect to the exercise by said Wisconsin corporation of the privilege or right to alter the priorities, preferences, voting power and other rights of the holders of the outstanding preferred stock of said Wisconsin corporation, including changing the preferred stock dividend rate from 7 per cent per annum to 5 per cent per annum after December 31, 1938 and providing that the holders of such preferred stock, at their option, may convert such stock into common stock upon the basis of one share of common stock for each share of preferred stock if the conversion is made on or before March 1, 1939 and one share of common stock for each one and fifteen-hundredths share of preferred stock if the conversion is made after March 1, 1939.

Public hearings on said matters having been held [1] after appropriate notice, and the Commission having considered the record in these matters and having made and filed its findings herein;

It is ordered, That said plan of recapitalization of Northern States Power Company, a Delaware corporation, be and it is hereby approved and that the applications and declarations, as amended, of the three corporations named in the caption of this order be and the same are hereby granted and shall be and become effective forthwith, all subject, however to the following terms and conditions:

(a) That the consummation of the plan of recapitalization of Northern States Power Company, a Delaware corporation, be effected in substantial compliance with the terms and conditions of, and for the purposes represented by, the application pertaining thereto above referred to;

(b) That Standard Gas and Electric Company, a Delaware corporation, forthwith execute (with the blanks appropriately filled) an agreement to be entered into between said corporation and Wilmington Trust Company, of Wilmington, Delaware, in the form of the agreement heretofore submitted to this Commission and made a part of the record in these proceedings, and deposit thereunder all shares of the Class B common stock of Northern States Power Company, a Delaware corporation, owned by said Standard Gas and Electric Company;

(c) That all appropriate and necessary corporate proceedings be taken forthwith by the three Companies which are named in the caption of this order to carry out the plan of recapitalization of Northern States Power Company, a Delaware corporation, approved by this order, and the other things to be done as described in the several applications and declaration, as amended, filed herein;

(d) That a statement to the effect that these conditions have been complied with, together with a copy of the agreement above referred to, as executed, be filed with the Commission on or before January 10, 1939.

It is further ordered, That all the outstanding shares of Class B common stock of Northern States Power Company, a Delaware corporation, shall be cancelled not later than January 1, 1944 and, for the purpose of facilitating such cancellation all certificates for said shares of Class B common stock shall be surrendered to said corporation not later than January 1, 1944 for cancellation, unless on or prior to said date this Commission shall have entered an order finding that during any period of twelve consecutive calendar months ending after January 1, 1939, and prior to January 1, 1944, the consolidated net income of the Delaware Company and its subsidiaries available for dividends after provision for fair and reasonable depreciation shall have exceeded the sum of (a) the dividend requirements for such period and dividends in arrears at the end of such period on any stock of the Company and of any of its subsidiaries entitled to a preference in the distribution of earnings (other than stock owned by the Company or any of its subsidiaries) and (b) the net income applicable to minority interests in the common stocks of its subsidiaries.

It is further ordered, That for the purposes of said plan and in accordance with the application, as amended, filed herein by Northern States Power Company, a Delaware corporation, Standard Gas and Electric Company forthwith execute the agreement referred to in clause (b) of the second preceding paragraph of this order and deposit thereunder the shares of Class B common stock of Northern States Power Company, a Delaware corporation, referred to in said clause (b).

By the Commission.

IN THE MATTER OF WILLIAM ENGLISH WALLING, II, EXECUTOR OF WILLOUGHBY G. WALLING, DECEASED

ORDER FOR FINAL COMPENSATION DISAPPROVED

William English Walling, II, as executor under the last will and testament of Willoughby G. Walling, deceased, having filed application pursuant to Rule U–11F–2, promulgated under Section 11 (f) of the Public Utility Holding Company Act of 1935, for the approval of final compensation to Willoughby G. Walling in a maximum amount of $25,000 of which $14,000 has heretofore been paid, for services rendered in connection with the reorganization of Utilities Power & Light Corporation, a Virginia corporation, under Section 77B of the Bankruptcy Act, as amended, now pending in the District Court of the United States for the Northern District of Illinois, Eastern Division;

A public hearing having been held[1] on said application, after appropriate notice; the applicant having waived a trial examiner's report, submission by him of proposed findings of fact to the Commission, submission to him of requested findings of fact by counsel to the Commission, the filing of briefs with the Commission and oral argument before the Commission; and the Commission having considered the record in this matter and having made and filed its findings and opinion herein:

It is ordered That the application of William English Walling, II, as executor of the will of Willoughby G. Walling for final compensation, be and hereby is, disapproved.

By the Commission.

TITLE 7—AGRICULTURE

AGRICULTURAL ADJUSTMENT ADMINISTRATION

RESULTS OF FLUE-CURED TOBACCO REFERENDUM

A PROCLAMATION BY THE SECRETARY OF AGRICULTURE

I, H. A. Wallace, Secretary of Agriculture, acting under and pursuant to, and by virtue of, the authority vested in me by Sec. 312 of the Agricultural Adjustment Act of 1938, as amended, do hereby make the following proclamation:

SECTION 727.103 *Results of flue-cured tobacco referendum.* In the referendum of farmers who were engaged in production of the 1938 crop of flue-cured tobacco, conducted by the Secretary of Agriculture on the 10th day of December, 1938, to determine whether such farmers were in favor of or opposed to the national marketing quota for flue-cured tobacco for the marketing year beginning July 1, 1939, the total number of votes cast was 233,393; and of the total number of votes so cast 132,460 votes, or 56.8 percent, were in favor of, and 100,933 votes, or 43.2 percent, were opposed to, such marketing quota. The national marketing quota for flue-cured tobacco for the marketing year beginning July 1, 1939, proclaimed by the Secretary of Agriculture on the 21st day of November, 1938,[1] is, therefore, terminated. (Sec. 312, 52 Stat. 46).

Done at Washington, D. C., this 29th day of December, 1938. Witness my hand and the seal of the Department of Agriculture.

[SEAL] H. A. WALLACE,
Secretary of Agriculture.

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

SECURITIES AND EXCHANGE COMMISSION

SECURITIES ACT OF 1933, SECURITIES EXCHANGE ACT OF 1934, AND PUBLIC UTILITY HOLDING COMPANY ACT OF 1935

AMENDMENT TO RULES OF PRACTICE

The Securities and Exchange Commission, acting pursuant to authority conferred upon it by the Securities Act of 1933, as amended, particularly Section 19 (a) thereof, [C. 38, sec. 19, 48 Stat. 85; C. 404, Sec. 209, 48 Stat. 908, 15 U. S. C. 17s] the Securities Exchange Act of 1934, as amended, particularly Section 23 (a) thereof, [C. 404, sec. 23, 48 Stat. 901; C. 462, sec. 8, 49 Stat. 1379; 15 U. S. C. 78W and Sup. III] and the Public Utility Holding Company Act of 1935, particularly Sections 19 and 20 (a) thereof, [C. 687, sec. 19, 49 Stat. 832; 15 U. S. C., Sup. III, 79s: C. 687, sec. 20, 49 Stat. 833; 15 U. S. C., Sup. III, 79t] and finding such action necessary and appropriate to carry out the provisions of those Acts, hereby amends Rule XVII [Sec. 1.XVII] of the Rules of Practice of the Commission to read as follows:

SEC. 1.XVII (Rule XVII) *Intervention.*

(a) Any interested representative, agency, authority, or instrumentality of the United States, and any interested State, State commission, State securities commission, municipality, or other political subdivision of a State, shall be permitted to intervene in any proceeding upon written request. Any other person may be permitted to intervene in any proceeding upon written application to the Commission showing that he possesses or represents a legitimate interest which is or may be inadequately represented in such proceeding, but no person will be permitted to intervene if after examination the Commission finds that, for any reason (including the existence of undesirable conflicts in the interests possessed or represented by the applicant), his participation in the proceeding would not be in the public interest, or for the protection of investors, or, in a proceeding under the Public Utility Holding Company Act of 1935, for the protection of consumers. Intervention shall be subject to such terms and conditions as the Commission may prescribe, which may

IN THE MATTER OF LONE STAR GAS CORPORATION

SUPPLEMENTAL ORDER APPROVING SALE OF SECURITIES

Lone Star Gas Corporation, a registered holding company, having filed an application and amendments thereto pursuant to Rule U-12D-1, promulgated under the Public Utility Holding Company Act of 1935, regarding the sale to Lone Star Gas Company, Texas Cities Gas Company, Council Bluffs Gas Company, The Dallas Gas Company, County Gas Company, Community Natural Gas Company, and Guthrie Gas Service Company, of securities issued by such subsidiary companies but held by the Corporation, in exchange for which the Corporation will receive other securities in lieu thereof.

A public hearing having been held on said applications, as amended, after appropriated notice;[1] the Commission having considered the record in this matter and having made and filed its findings herein;

It is ordered, That the sale of such securities in the manner and subject to the terms set forth in such amended application be and the same is hereby approved.

By the Commission.

[SEAL] FRANCIS P. BRASSOR,
Secretary.

IN THE MATTERS OF LONE STAR GAS COMPANY, TEXAS CITIES GAS COMPANY, COUNCIL BLUFFS GAS COMPANY, THE DALLAS GAS COMPANY, COUNTY GAS COMPANY, COMMUNITY NATURAL GAS COMPANY, GUTHRIE GAS SERVICE COMPANY

SUPPLEMENTAL ORDER RELATIVE TO EFFECTIVENESS OF DECLARATIONS

Lone Star Gas Company, Texas Cities Gas Company, Council Bluffs Gas Company, The Dallas Gas Company, County Gas Company, Community Natural Gas Company and Guthrie Gas Service Company, all subsidiary companies of Lone Star Gas Corporation, a registered holding company, have filed joint and combined declarations and amendments thereto pursuant to section 7 of the Public Utility Holding Company Act of 1935 regarding the issue and sale by each of said declarants of the following described securities:

Lone Star Gas Company:	
4½% note due August 1, 1953	$6,385,000
4½% note due August 1, 1953	1,345,000
4½% note due August 1, 1953	6,770,000
Texas Cities Gas Company:	
4½% note due August 1, 1953	3,400,000
30,000 shares common capital stock, par value $100 per share	3,000,000
10,000 shares common capital stock, par value $100 per share	1,000,000
Council Bluffs Gas Company:	
4½% Income note due August 1, 1953	1,350,000
12,000 shares common capital stock, par value $100 per share	1,200,000
The Dallas Gas Company:	
4½% note due August 1, 1953	300,000
6,530 shares common capital stock, par value $100 per share	653,000
County Gas Company:	
4½% note due August 1, 1953	100,000
Community Natural Gas Company:	
4½% note due August 1, 1953	4,000,000
4½% note due August 1, 1953	1,000,000
4½% note due August 1, 1953	2,000,000
50,000 shares common capital stock, par value $100 per share	5,000,000
Guthrie Gas Service Company:	
4½% Income note due August 1, 1953	25,000
4½% Income note due August 1, 1953	15,000

A joint hearing on these declarations, as amended, having been held after appropriate notice;[1] the Commission having duly considered the record in such matters and having filed its findings herein:

It is ordered, That such declarations be and become effective forthwith upon the condition, however, that the issue and sale of the aforesaid securities shall be effected in compliance with the terms and conditions set forth in and for the purposes represented by such declarations, as amended.

By the Commission.

EXECUTIVE ORDER

TRANSFER OF LANDS FROM THE COCHETOPA NATIONAL FOREST TO THE RIO GRANDE NATIONAL FOREST

COLORADO

By virtue of and pursuant to the authority vested in me by the act of June 4, 1897, 30 Stat. 11, 36 (U. S. C., title 16, sec. 473), and upon the recommendation of the Secretary of Agriculture, it is ordered that the following-described area be transferred from the Cochetopa National Forest to the Rio Grande National Forest:

NEW MEXICO PRINCIPAL MERIDIAN

All the area in Saguache County, Colorado, in Townships 42 North, Ranges 4 and 5 East; Townships 43 North, Ranges 4, 5, and 6 East, inclusive, and Townships 44 North, Ranges 4 and 5 East, lying within the boundaries of the Cochetopa National Forest and south and east of the divide between the Saguache Creek drainage and the Carnero Creek drainage, from Bowers Peak northeasterly, over Lookout Mountain, and Lake Mountain to the boundary line of the Cochetopa National Forest on the eastern section line of Section 3, Township 43 North, Range 6 East.

It is not intended by this order to give any publicly-owned lands a national-forest status which do not now have such a status, or to remove any publicly-owned lands from a national-forest status.

TITLE 7—AGRICULTURE

AGRICULTURAL ADJUSTMENT ADMINISTRATION

PART 723—RESULTS OF RICE REFERENDUM, 1939–40 MARKETING YEAR

I, H. A. Wallace, Secretary of Agriculture, acting under and pursuant to, and by virtue of, the authority vested in me by Section 355 of the Agricultural Adjustment Act of 1938, as amended, do hereby make the following proclamation:

SECTION 723.3 *Results of rice referendum.* In the referendum of producers who would be subject to the national marketing quota for rice for the marketing year beginning August 1, 1939, conducted by the Secretary of Agriculture on the 10th day of December, 1938, to determine whether such producers were in favor of or opposed to such quota, the total number of votes cast was 7,890; and of the total number of votes so cast 3,806 votes, or 48.2 percent, were in favor of, and 4,084 votes, or 51.8 percent, were opposed to, such marketing quota. The national marketing quota for rice for the marketing year beginning August 1, 1939, proclaimed by the Secretary of Agriculture on the 26th day of November, 1938,[1] shall not, therefore, become effective. (Sec. 355, 52 Stat. 62)

Done at Washington, D. C., this 30th day of December, 1938. Witness my hand and the seal of the Department of Agriculture.

[SEAL] H. A. WALLACE,
Secretary of Agriculture.

SUGAR DIVISION

[G. S. Q. R. Series 6, No. 2]

PART 821—SUGAR QUOTAS

SUGAR CONSUMPTION REQUIREMENTS FOR THE CALENDAR YEAR 1939 FOR THE TERRITORY OF HAWAII AND FOR PUERTO RICO

By virtue of the authority vested in the Secretary of Agriculture by the Sugar Act of 1937, approved September 1, 1937, I, H. A. Wallace, Secretary of Agriculture, in order to carry out the powers vested in me by the said act, do hereby make, prescribe, publish, and give public notice of these regulations, which shall have the force and effect of law and shall remain in force and effect until amended or superseded by orders or regulations hereafter made by the Secretary of Agriculture.

SEC. 821.31 *Consumption requirements and quotas*—(a) *Original consumption requirements.* It is hereby determined, pursuant to Section 203 of the Sugar Act of 1937 (hereinafter referred to as the "act"), that the amount of sugar needed to meet the requirements of consumers in the Territory of Hawaii for the calendar year 1939 is 29,412 short tons of sugar, raw value, and that the amount of sugar needed to meet the requirements of consumers in Puerto Rico for the calendar year 1939 is 70,812 short tons of sugar, raw value.

(b) *Original local consumption quotas.* There are hereby established, pursuant to section 203 of the said act, for local consumption in the Territory of Hawaii and in Puerto Rico, for the calendar year 1939, the following quotas:

Area:	*Quotas in terms of short tons, raw value*
Hawaii	29,412
Puerto Rico	70,812

(Sec. 203, 50 Stat. 905; 7 U. S. C., Sup. III, 1113)

SEC. 821.32 *Restrictions on marketing.* For the calendar year 1939, all persons are hereby forbidden, pursuant to section 209 of the said act, from marketing in the Territory of Hawaii or in Puerto Rico, for consumption therein, any sugar or liquid sugar after the quota for the year has been filled. (Sec. 209, 50 Stat. 908; 7 U. S. C., Sup. III, 1119)

In testimony whereof, I have hereunto set my hand and caused the official seal of the Department of Agriculture to be affixed in the District of Columbia, city of Washington, this 29th day of December 1938.

[SEAL] H. A. WALLACE,
Secretary of Agriculture.

FEDERAL TRADE COMMISSION

United States of America—Before Federal Trade Commission

At a regular session of the Federal Trade Commission held at its office in the City of Washington, D. C., on the 30th day of December, A. D. 1938.

Commissioners: Garland S. Ferguson, Chairman; Charles H. March, Ewin L. Davis, William A. Ayres, Robert E. Freer.

[File No. 21-335]

IN THE MATTER OF TRADE PRACTICE RULES FOR THE BABY CHICK INDUSTRY

PROMULGATION

Due proceedings having been held[1] under the trade practice conference procedure in pursuance of the Act of Congress approved September 26, 1914, as amended (Federal Trade Commission Act), and other provisions of law administered by the Commission;

It is now ordered, That the trade practice rules of Group I and Group II, as hereinafter set forth, which have been approved and received, respectively, by the Commission in this proceeding, be promulgated as of December 31, 1938.

STATEMENT BY THE COMMISSION

Trade practice rules for the Baby Chick Industry, as herein set forth, are promulgated by the Federal Trade Commission under its trade practice conference procedure.

The general purpose of the rules is to foster and promote fair competitive conditions and the protection of the purchasing and consuming public, and to this end to eliminate and prevent misrepresentation, deceptive concealment, and other unfair methods of competition or unfair or deceptive acts or practices.

In the course of the proceedings an industry's conference was held in St. Paul, Minnesota, under the Commission's auspices, and proposed trade practice rules were submitted by members of the industry. Subsequently, tentative action was taken by the Commission on the rules so submitted and a draft of proposed rules was made available upon public notice of at least fifteen days, in pursuance of which all interested and affected parties were afforded opportunity to present such pertinent facts, suggestions or objections as they desired and to be heard in respect to the proposed rules. At the public hearing held in Washington, all matters submitted orally or in writing were received and filed in the proceeding.

Thereafter, and upon consideration of the entire matter, final action was taken and the rules in the form appearing herein under Group I and Group II were respectively approved and received by the Commission.

The rules for the Baby Chick Industry herein promulgated supersede and replace prior rules for the industry as published by the Federal Trade Commission on November 25, 1933.

These rules promulgated by the Commission are designed to foster and promote fair competitive conditions in the interest of the industry and the public. They are not to be used, directly or indirectly, as part of or in connection with any combination or agreement to fix prices, or for the suppression of competition, or otherwise to unreasonably restrain trade.

Group I

The unfair trade practices which are embraced in these Group I rules are considered to be unfair methods of competition, unfair or deceptive acts or practices, or other illegal practices, prohibited, within the purview of the Federal Government, by acts of Congress, as construed in the decisions of the Federal Trade Commission or the courts; and appropriate proceedings in the public interest will be taken by the Commission to prevent the use, by any person, partnership, corporation or other organization, of such unlawful practices in or directly affecting interstate commerce.

Definition.—The term "baby chicks" as used in these rules shall be understood as including turkey poults, goslings, ducklings, or other live young poultry to be raised for breeding purposes or for the production of eggs and other poultry products.

RULE 1. *Misrepresentation of products.*—It is an unfair trade practice, in the course of or in connection with the offering for sale, sale or distribution of baby chicks, to make or publish, or cause to be made or published, directly or indirectly, any false, misleading or deceptive statement or representation (whether in the form of advertisement, guarantee, warranty, testimonial, endorsement, depiction, illustration, or other form of representation, however disseminated or published):

(a) Concerning the grade, quality, quantity, breed, pedigree, type, sex, sexing, quick maturity, uniform development, character, nature, origin, weight, color or size of such baby chicks; or

(b) Concerning the production, sale or distribution of any such baby chicks; or

(c) Concerning the purported supervision, endorsement or approval of any poultry breeding, hatching or other operation by Federal, State or other authority; or

(d) Concerning any other matter in relation to such baby chicks.

RULE 2. *Deceptive concealment of material facts.*—In advertising, offering for sale or selling baby chicks, it is an unfair trade practice for any member of the industry to conceal or fail or refuse to disclose any material facts for the purpose or with the effect of thereby misleading or deceiving purchasers, as for example:

(a) Filling baby chick orders with cockerels which have been obtained from sexed chicks or from other sources without having disclosed to the purchaser at the time of sale the fact that the baby chicks delivered are cockerels;

(b) Adding surplus cockerel chicks to so-called "straight-run" chicks and offering for sale, selling or delivering same to customers without informing the respective purchasers of the fact that such surplus or added cockerels have been included and without obtaining such purchasers' consent thereto.

NOTE.—The above examples are but a few illustrations of the scope of Rule 2.

RULE 3. (*a*) *Misuse of words "Guaranteed to Live", etc.*; (*b*) *Use of deceptive guarantees as to livability of baby chicks, etc.*—(a) It is an unfair trade practice to advertise, guarantee, describe or otherwise represent that baby chicks sold or offered for sale are "guaranteed to live", or to make similar statements or representations, with the purpose or with the tendency and capacity or effect of misleading or deceiving purchasers or prospective purchasers into the erroneous belief that the said baby chicks possess extraordinary stamina or other qualities which prevent disease or death.

(b) It is an unfair trade practice to make or publish, or cause to be made or published, directly or indirectly, any false, misleading or deceptive statement, guarantee, warranty or other representation concerning the livability, health or stamina of baby chicks sold or offered for sale.

RULE 4. *Misrepresentation as to yields of eggs.*—It is an unfair trade practice to advertise, guarantee, describe or otherwise represent, directly or indirectly, that very high yields of eggs are received from all flocks of a particular seller or producer when such is not the fact, or when such statement or representation is true only as to a small percentage or proportion of his flocks.

RULE 5.—*Misrepresentation as to blood testing, etc.*—(a) It is an unfair trade practice to advertise, guarantee, describe or otherwise represent, directly or indirectly, that all baby chicks or other poultry sold or offered for sale have been blood tested, pullorum tested, vaccinated, inoculated, or otherwise treated for any disease when such is not the fact, or when only a portion of the flocks supplying the eggs have been so treated or tested during the current season.

(b) It is an unfair trade practice to use any disease control term such as "pullorum tested", "blood tested", or the like, in advertising or otherwise, in such manner as to have the tendency and capacity or effect of misleading or deceiving purchasers or prospective purchasers into the belief that officially approved methods have been used in making these tests when such is not the fact.

RULE 6. *Deceptive substitution of inferior chicks for those ordered.*—It is an unfair trade practice to advertise, guarantee, describe or otherwise represent that the flocks of a particular seller or producer possess certain good qualities, such as ability to resist disease or to produce high yields of eggs, or the like, and then upon receipt of customers' orders for baby chicks from the flocks advertised, filling same from flocks of an inferior quality, without informing the purchasers of such substitution.

RULE 7. *Deceptive sale of chicks at purported bargain prices.*—It is an unfair trade practice to sell or offer to sell baby chicks of poor grade or quality at so-called "bargain prices" or at any other prices, through adverstisements or otherwise, from a farm or hatchery advertised or bearing a reputation for high grade production, without informing purchasers or prospective purchasers as to the poor grade or quality of such chicks and with the tendency and capacity or effect of thereby misleading or deceiving them into the erroneous belief that they are receiving a bargain when such is not the fact.

RULE 8. *Misrepresentation as to egg production qualities of poultry.*—In the case of a producer of baby chicks mating with his flocks a limited number of males having a record for transmitting high egg production qualities while mating therewith other males having no such record, it is an unfair trade practice to offer baby chicks for sale from his flocks, through advertising or otherwise, in such manner as to have the tendency and capacity or effect of misleading or deceiving purchasers into the belief that all of such chicks possess the same high egg production qualities as the said males of high pedigree, or that such flocks have been mated exclusively with males having a record for transmitting high egg production qualities, when such is not the fact.

RULE 9. *Deceptive use of "Leaders".*—It is an unfair trade practice to offer for sale, advertise or otherwise represent baby chicks as being of a certain high grade or quality, offered at claimed "bar-

[1] 3 F. R. 2801 DI.

[1] 3 F. R. 2801 DI.

[1] 3 F. R. 2293 DI.

gain prices" and under circumstances which have the capacity and tendency or effect of misleading or deceiving purchasers or prospective purchasers into the belief that an adequate supply of such chicks is available to purchasers at such prices, or that all chicks so offered for sale or sold under such representations and conditions are of the same high grade or quality, when such is not true in fact.

RULE 10. *Misuse of words "Hatchery", "Chickery", "Chick Nursery", "Farm", "Poultry Farm", "Breeding Farm", "Incubators", etc.*—(a) It is an unfair trade practice for any person, partnership or corporation by trade or corporate name, through advertising or otherwise, to hold himself or itself out as owning or operating a hatchery, chickery, chick nursery, farm, poultry farm, breeding farm, incubators or the like, when such is not the fact.

(b) In the sale or offering for sale of baby chicks, through advertising or otherwise, it is an unfair trade practice for any person, partnership or corporation to represent that such chicks have been produced by the said person, partnership or corporation, or have been produced under certain conditions, when such is not the fact.

RULE 11. *Deceptive guarantees or representations as to percentage of chicks alive at buyer's destination.*—It is an unfair trade practice to make false, misleading or deceptive guarantees, warranties, or other representations to the effect that a certain percentage of the chicks shipped will be alive at buyer's destination, and then fail to adjust losses pursuant to representations made, with the purpose or with the tendency and capacity or effect of misleading or deceiving purchasers or prospective purchasers.

RULE 12. *Misrepresenting chicks sold at auction, through shipment to fictitious consignees, through agents, salesmen or dealers, etc.*—It is an unfair trade practice to cause baby chicks to be sold under deceptive or misleading conditions, at auction sales, through shipment to fictitious consignees, or through agents, salesmen, dealers, or otherwise, whether by means of false, misleading or deceptive statements or representations or by means of deceptive concealment of material facts.

RULE 13. *Deceptive testimonials.*—It is an unfair trade practice for any member of the industry to publish or use misleading or deceptive testimonials regarding exceptional results alleged to have been obtained by buyers of his chicks, which testimonials are so worded as to have the tendency and capacity or effect of inducing purchasers or prospective purchasers to believe that all of such member's chicks may be expected to produce similar results for all buyers when such is not the fact.

RULE 14. *Misuse of word "Free".*—The use of the word "free", or the equivalent thereof, where not properly or fairly qualified when the article is in fact not free, with the tendency or capacity to mislead or deceive purchasers or prospective purchasers, is an unfair trade practice.

RULE 15. *Misrepresenting chicks as from stock entered in egg-laying contests or poultry shows, etc.*—It is an unfair trade practice to advertise, guarantee, describe or otherwise represent that baby chicks sold or offered for sale are from, or are closely related to, stock entered in egg-laying contests or poultry shows, or the like, when such is not the fact.

RULE 16. *Misuse of terms "trapnest", "trapped", etc.*—It is an unfair trade practice to use the terms "trapnest", "trapped", or the like, in such manner as to have the tendency and capacity or effect of misleading or deceiving purchasers or prospective purchasers into the belief that all baby chicks sold or offered for sale are hatched from eggs produced by hens that are actually being trapped, or have been trapped for at least one year, when such is not the fact.

RULE 17. *Deceptive depictions.*—It is an unfair trade practice to use photographs, cuts, engravings, illustrations, or pictorial or other depictions or devices, in catalogues, sales literature or advertisements, or otherwise, in such manner as to have the capacity and tendency or effect of misleading or deceiving purchasers or prospective purchasers as to the size, importance or location of the premises occupied by a member of the industry, as to such member's equipment, as to his breeding flocks or poultry products, or as to any phase of his poultry hatching, breeding, or other operations.

RULE 18. *Deceptive representations as to earnings, etc.*—It is an unfair trade practice to make false, misleading or deceptive statements or representations regarding opportunities for making money or actual or probable earnings of agents or dealers handling hatching eggs, baby chicks or other poultry, or of purchasers raising baby chicks or other poultry, which products are being offered for sale or sold by a member of the industry.

RULE 19. *Deception as to transportation charges.*—(a) It is an unfair trade practice to sell or offer to sell baby chicks, through advertising or otherwise, in such manner as to mislead or deceive purchasers or prospective purchasers into the belief that the prices quoted for such chicks are the prepaid or delivered prices when such is not the fact.

(b) It is an unfair trade practice, by failing correctly to inform customers or by other deception, to cause purchasers to believe that transportation costs will not be charged against them in C. O. D. charges or otherwise, when such is not true in fact.

RULE 20. *Publishing or circulating of false or misleading price quotations, price lists, etc.*—The publishing or circulating by any member of the industry of false or misleading price quotations, price lists, terms or conditions of sale, with the tendency and capacity or effect of misleading or deceiving purchasers or prospective purchasers, is an unfair trade practice.

RULE 21. *Misrepresenting offer as "special".*—It is an unfair trade practice to represent an offer as "special" when it is in fact a "regular" offer.

RULE 22. *Fictitious prices.*—Offering baby chicks for sale at prices purported to be reduced from what are in fact fictitious prices, or offering such chicks for sale at a purported reduction in price when such purported reduction is in fact fictitious, with the tendency and capacity or effect of misleading or deceiving purchasers or prospective purchasers, is an unfair trade practice.

RULE 23. *Misrepresenting offer as limited to time, etc.*—It is an unfair trade practice to represent an offer to be limited as to time or otherwise when such is not the fact.

RULE 24. *Bogus independents.*—It is an unfair trade practice to sell or offer to sell industry products through a pretended independent concern in such manner as to mislead or deceive purchasers or prospective purchasers into the erroneous belief that such concern is independent and in competition with that member of the industry owning or controlling such concern.

RULE 25. *Schemes involving lottery, misrepresentation or fraud.*—The offering or giving of prizes, premiums or gifts in connection with the sale of industry products or as an inducement thereto by any scheme which involves lottery, misrepresentation or fraud, is an unfair trade practice.

RULE 26. *Misuse of word "guarantee", etc.*—It is an unfair trade practice to use the word "guarantee", or any other word, expression or representation of similar import, in such manner as to have the tendency and capacity or effect of misleading or deceiving purchasers or prospective purchasers.

RULE 27. *Defamation of competitors or disparagement of their products.*—The defamation of competitors by falsely imputing to them dishonorable conduct, inability to perform contracts, questionable credit standing, or by other false representations, or the false disparagement of the grade, quality or manufacture of the products of competitors, or of their business methods, selling prices, values, credit terms, policies or services, is an unfair trade practice.

RULE 28. *"Loss leaders".*—The practice of selling any product of the industry below the seller's cost as a "loss leader" to induce the purchase of any other product of the industry, the sale of the latter being used to recoup the loss sustained on the "loss leader" product so sold, with the tendency or capacity to mislead or deceive purchasers or prospective purchasers, is an unfair trade practice.

RULE 29. *Inducing breach of contract.*—Inducing or attempting to induce the breach of existing lawful contracts between competitors and their customers or their suppliers by any false or deceptive means whatsoever, or interfering with or obstructing the performance of any such contractual duties or services by any such means, with the purpose and effect of unduly hampering, injuring or prejudicing competitors in their businesses, is an unfair trade practice.

RULE 30. *Enticing away the employees of competitors.*—Wilfully enticing away the employees of competitors, with the purpose and effect of unduly hampering, injuring or prejudicing competitors in their businesses, is an unfair trade practice.

RULE 31. *Espionage.*—The securing of information from competitors concerning their businesses by false or misleading statements or representations or by false impersonation of one in authority and the wrongful use thereof to unduly hinder or stifle the competition of such competitors is an unfair trade practice.

RULE 32. *Coercing purchase of one product as a prerequisite to the purchase of other products.*—The practice of coercing the purchase of one or more products as a prerequisite to the purchase of one or more other products where the effect may be to substantially lessen competition or tend to create a monopoly or to unreasonably restrain trade is an unfair trade practice.

RULE 33. *Consignment selling.*—It is an unfair trade practice for any member of the industry to use the practice of shipping goods to dealers or distributors on consignment or pretended consignment for the purpose and with the effect of artificially clogging trade outlets and unduly restricting competitors' use of said trade outlets in getting their goods to consumers through regular channels of distribution, or with such purpose to entirely close said trade outlets to such competitors so as to substantially lessen competition or tend to create a monopoly or to unreasonably restrain trade; provided, however, that nothing herein shall be construed or used as restricting or preventing consignment shipping or marketing of commodities in good faith, and without artificial interference with competitors' use of the usual channels of distribution in such manner as thereby to suppress competition or restrain trade.

RULE 34. *Selling below cost.*—The selling or offering for sale of baby chicks or "started chicks" below the seller's cost with the intent and with the effect of injuring a competitor and where the effect may be to substantially lessen competition or tend to create a monopoly or unreasonably restrain trade is an unfair trade practice; all elements recognized by good accounting practice as proper elements of such cost shall be included in determining cost under this rule.

RULE 35. (a) *Prohibited discriminatory prices, or rebates, refunds, discounts, credits, etc.,*[1] *which effect unlawful price discrimination.*—It is an unfair trade practice for any member of the industry engaged in commerce,[2] in the course of such commerce, to grant or allow, secretly or openly, directly or indirectly, any rebate, refund, discount, credit, or other form of price differential,[2] where such rebate, refund, discount, credit, or other form of price differential effects a discrimination in price between different purchasers of goods of like grade and quality, where either or any of the purchases involved therein are in commerce,[2] and where the effect thereof may be substantially to lessen competition or tend to create a monopoly in any line of commerce,[2] or to injure, destroy, or prevent competition with any person who either grants or knowingly receives the benefit of such discrimination or with customers of either of them: *Provided, however,*

(1) That the goods involved in any such transaction are sold for use, consumption, or resale within any place under the jurisdiction of the United States;

(2) That nothing herein contained shall prevent differentials which make only due allowance for differences in the cost of manufacture, sale, or delivery resulting from the differing methods or quantities in which such commodities are to such purchasers sold or delivered;

(3) That nothing herein contained shall prevent persons engaged in selling goods, wares, or merchandise in commerce[2] from selecting their own customers in bona fide transactions and not in restraint of trade;

(4) That nothing herein contained shall prevent price changes from time to time where made in response to changing conditions affecting either (a) the market for the goods concerned, or (b) the marketability of the goods, such as, but not limited to, actual or imminent deterioration of perishable goods, obsolescence of seasonal goods, distress sales under court process, or sales in good faith in discontinuance of business in the goods concerned.

(b) *Prohibited brokerage and commissions.*—It is an unfair trade practice for any member of the industry engaged in commerce,[2] in the course of such commerce, to pay or grant, or to receive or accept, anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, except for services rendered in connection with the sale or purchase of goods, wares, or merchandise, either to the other party to such transaction or to an agent, representative, or other intermediary therein where such intermediary is acting in fact for or in behalf, or is subject to the direct or indirect control, of any party to such transaction other than the person by whom such compensation is so granted or paid.

(c) *Prohibited advertising or promotional allowances, etc.*—It is an unfair trade practice for any member of the industry engaged in commerce[2] to pay or contract for the payment of advertising or promotional allowances or any other thing of value to or for the benefit of a customer of such member in the course of such commerce as compensation or in consideration for any services or facilities furnished by or through such customer in connection with the processing, handling, sale, or offering for sale of any products or commodities manufactured, sold or offered for sale by such member, unless such payment or consideration is available on proportionally equal terms to all other customers competing in the distribution of such products or commodities.

(d) *Prohibited discriminatory services or facilities.*—It is an unfair trade practice for any member of the industry engaged in commerce[2] to discriminate in favor of one purchaser against another purchaser or purchasers of a commodity bought for resale, with or without processing, by contracting to furnish or by furnishing, or by contributing to the furnishing of, any services or facilities connected with the processing, handling, sale or offering for sale of such commodity so purchased upon terms not accorded to all purchasers on proportionally equal terms.

(e) *Illegal price discrimination.*—It is an unfair trade practice for any member of the industry or other person engaged in commerce,[2] in the course of such commerce, to discriminate in price in any other respect contrary to Section 2 of the Clayton Act as amended by the Act of Congress approved June 19, 1936 (Public No. 692, 74th Congress), or knowingly to induce or receive a discrimination in price which is prohibited by such section as amended.

RULE 36. *Aiding or abetting use of unfair trade practices.*—For any member of the industry knowingly to aid or abet another member, or any other person, firm or corporation, in the use of unfair trade practices, is an unfair trade practice.

Group II

The trade practices embraced in Group II rules do not, *per se*, constitute vio-

[1] Paragraph (a) of Rule 35 shall not be construed as embracing practices prohibited by paragraphs (b), (c) and (d) of this rule.

[2] As herein used, the word "commerce" means trade or commerce among the several States and with foreign nations, or between the District of Columbia or any Territory of the United States and any State, Territory, or foreign nation, or between any insular possessions or other places under the jurisdiction of the United States, or between any such possession or place and any State or Territory of the United States or the District of Columbia or any foreign nation, or within the District of Columbia or any Territory or any insular possession or other place under the jurisdiction of the United States: Provided, That this shall not apply to the Philippine Islands.

lations of law. They are considered by the industry either to be unethical, uneconomical or otherwise objectional; or to be conducive to sound business methods which the industry desires to encourage and promote. Such rules, when they conform to the above specifications and are not violative of law, will be received by the Commission, but the observance of said rules must depend upon and be accomplished through the cooperation of the members of the industry concerned, exercised in accordance with existing law. Where, however, such practices are used in such manner as to become unfair methods of competition in commerce or a violation of any law over which the Commission has jurisdiction, appropriate proceedings will be instituted by the Commission as in the case of violation of Group I rules.

RULE A. The industry condemns the practice of disposing of baby chicks by shipping them to fictitious consignees or without an order or other consent of the consignee, necessitating the sale of such undeliverable shipments at public auction by agents of the common carrier in order to secure payment for transportation costs. Such practice is deemed by the industry to be harmful to the chicks and to facilitate the spread of disease.

RULE B. The industry condemns the practice of failing to give proper notice to purchasers of baby chicks of any change in the shipping schedule of an order thereby causing inconvenience and loss to purchasers.

RULE C. The industry condemns the practice of failing to ship baby chicks to customers as promptly as has been agreed upon, which practice frequently results in injury to the chicks and inconvenience and loss to customers.

RULE D. The industry approves the practice of handling business disputes between members of the industry and their customers in a fair and reasonable manner, coupled with a spirit of moderation and good will, and every effort should be made by the disputants themselves to compose their differences. If unable to do so they should, if possible, submit these disputes to arbitration.

RULE E. Lawful contracts are business obligations which should be performed in letter and in spirit. The repudiation of contracts by sellers on a rising market or by buyers on a declining market is condemned by the industry.

A Committee on Trade Practices is hereby created by the industry to cooperate with the Federal Trade Commission and to perform such acts as may be legal and proper to put these rules into effect.

Promulgated and issued by the Federal Trade Commission as of December 31, 1938.

[SEAL] C. G. DUGANNE,
Acting Secretary.

Notices

DEPARTMENT OF LABOR.

Wage and Hour Division.

IN THE MATTER OF THE APPLICATION OF HANDLERS OF FLUE-CURED, BURLEY, FIRE-CURED, AND DARK AIR-CURED TOBACCO FOR PARTIAL EXEMPTION FROM THE MAXIMUM HOURS PROVISIONS OF THE FAIR LABOR STANDARDS ACT PURSUANT TO SECTION 7 (B) (3) OF SAID ACT

Whereas, applications have been made by the Tobacco Association of the United States and sundry other parties engaged in the buying, handling, stemming, redrying, packing and storing of leaf tobacco of types 11, 12, 13, 14, 21, 22, 23, 24, 31, 35, 36 and 37 (as defined by the Bureau of Agricultural Economics of the United States Department of Agriculture), pursuant to Section 7 (b) (3) of the Fair Labor Standards Act of 1938 and Part 526 of regulations issued thereunder,[1] for partial exemption from the maximum hours provisions of Section 7 (a) of said Act pursuant to the provisions of said Section 7 (b) (3) applicable to industries found by the Administrator of the Wage and Hour Division to be of a seasonal nature, and

Whereas, it appears from said applications that:

(1) the operations of buying, handling, stemming, and redrying, of green leaf tobacco of the types above enumerated and the packing and storing thereof include operations essential to the preservation of a perishable agricultural product, and

(2) the plants of the green leaf tobacco handlers wherein said operations are performed, close at the end of the operating season each year except for maintenance, repair, clerical and sales work, and

(3) the earliest season begins about August first and the latest about January first and that the shortest season is about four weeks and the longest about four months, and

(4) green tobacco, being the materials used by the industry, is available for natural reasons only at the above indicated times of the year when the plants are in operation.

Now, therefore, upon consideration of the facts and reasons stated in said applications, the Administrator hereby determines, pursuant to Section 526.5 (c) of said Regulations, that a *prima facie* case has been shown for the granting of an exemption, pursuant to Section 7 (b) (3) of the Fair Labor Standards Act of 1938 and Section 526.3 of the Regulations issued thereunder, to that branch of the tobacco industry engaged in the buying, handling, stemming, and redrying of green leaf tobacco of the types set forth in said application and the packing and storing thereof.

In accordance with the procedure set forth in Section 526.5 of the regulations issued under said Act, the Administrator will receive objection to the granting of the exemption and request for hearing from any person interested for fifteen days following the publication in the FEDERAL REGISTER of this preliminary determination. If such objection and request for hearing is received, the Administrator will set the application for hearing before the Administrator or an authorized representative.

If no objection and request for hearing is received within fifteen days, the Administrator will make a finding upon the *prima facie* case shown upon said applications. The exemption shall become effective upon the publication of the finding in the FEDERAL REGISTER.

The said applications may be examined at Room 5321, U. S. Department of Labor, Washington, D. C.

Signed at Washington, D. C., this 30th day of December, 1938.

PAUL SIFTON,
Deputy Administrator.

SECURITIES AND EXCHANGE COMMISSION.

United States of America—Before the Securities and Exchange Commission

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 29th day of December, A. D. 1938.

[File No. 31-127]

IN THE MATTER OF THE APPLICATION OF FRANKLIN T. GRIFFITH, J. C. AINSWORTH AND E. B. MAC NAUGHTON, AS VOTING TRUSTEES UNDER THAT VOTING TRUST AGREEMENT DATED NOVEMBER 1, 1932 BETWEEN SAID TRUSTEES AND THE HOLDERS OF SHARES OF THE COMMON STOCK OF THE PACIFIC NORTHWEST PUBLIC SERVICE COMPANY (NOW PORTLAND ELECTRIC POWER COMPANY), FOR EXEMPTION FROM THE PROVISIONS OF THE PUBLIC UTILITY HOLDING COMPANY ACT OF 1935

ORDER REOPENING HEARING AND NOTICE THEREOF

An application for exemption pursuant to Section 3 (a) (1) of the Public Utility Holding Company Act of 1935 having been duly filed with this Commission by the above-named parties;

A hearing having been held on said application on the 17th day of January, 1936, before Charles S. Lobinger, an officer of the Commission, which hearing was closed on said date; and counsel for the Commission having moved that such hearing be reopened for the purpose of taking additional testimony and receiving additional evidence;

It is ordered, That a hearing on such matter be held on January 16, 1939, at 10:00 o'clock in the forenoon of that day, at the Securities and Exchange Building, 1778 Pennsylvania Avenue, N. W., Washington, D. C. On such day the hearing-room clerk in room 1102 will advise as to the room where such hearing will be held. At such hearing, if in respect of any declaration, cause shall be shown why such declaration shall become effective.

It is further ordered, That Robert P. Reeder or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under Section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice to continue or postpone said hearing from time to time.

Notice of such hearing is hereby given to such applicant and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before January 11, 1939.

The matter concerned herewith is in regard to the application for exemption as a holding company, filed by Franklin T. Griffith, J. C. Ainsworth and E. B. MacNaughton as Voting Trustees under that Voting Trust Agreement dated November 1, 1932 between said Trustees and the holders of shares of the Common Stock of the Pacific Northwest Public Service Company (now Portland Electric Power Company), for exemption from the provisions of the Act pursuant to Section 3 (a) (1) wherein it is alleged that the applicant and every subsidiary company thereof which is a public utility company from which such holding company derives, directly or indirectly, any material part of its income, are predominantly intrastate in character and carry on their business substantially in a single State in which such applicant and every such subsidiary company thereof are organized.

By the Commission.

[SEAL] FRANCIS P. BRASSOR,
Secretary.

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 29th day of December, A. D. 1938.

[File No. 31-128]

IN THE MATTER OF THE APPLICATION OF PORTLAND ELECTRIC POWER COMPANY, PORTLAND GENERAL ELECTRIC COMPANY

ORDER REOPENING HEARING AND NOTICE THEREOF

An application for exemption, pursuant to Section 3 (a) (1) of the Public Utility Holding Company Act of 1935, and pursuant to Section 2 (a) (8) of said Act for an order declaring Seattle Gas Company not to be a subsidiary of Portland General Electric Company, having been duly filed with this Commission by the above-named companies;

A hearing having been held on said application on the 17th day of January, 1936, before Charles S. Lobingier, an officer of the Commission, which hearing was closed on said date; and counsel for the Commission having moved that such hearing be reopened for the purpose of taking additional testimony and receiving additional evidence;

It is ordered, That a hearing on such matter be held on January 16, 1939, at 10:00 o'clock in the forenoon of that day, at the Securities and Exchange Building, 1778 Pennsylvania Avenue, N. W., Washington, D. C. On such day the hearing-room clerk in room 1102 will advise as to the room where such hearing will be held. At such hearing, if in respect of any declaration, cause shall be shown why such declaration shall become effective.

It is further ordered, That Robert P. Reeder or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under Section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice to continue or postpone said hearing from time to time.

Notice of such hearing is hereby given to such applicant and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before January 11, 1939.

The matter concerned herewith is in regard to the application for exemption as holding companies filed by Portland Electric Power Company and Portland General Electric Company pursuant to Section 3 (a) (1) of the Act and for an order declaring Seattle Gas Company not to be a subsidiary company of Portland General Electric Company, pursuant to Section 2 (a) (8) of said Act.

By the Commission.

United States of America—Before the Securities and Exchange Commission

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 29th day of December, A. D. 1938.

[File No. 31-179]

IN THE MATTER OF THE APPLICATION OF FRANKLIN T. GRIFFITH, J. C. AINSWORTH AND E. B. MAC NAUGHTON, TRUSTEES UNDER THAT DECLARATION OF TRUST MADE BY FRANKLIN T. GRIFFITH ON NOVEMBER 26, 1935, IN RE THE HOLDING OF 51,414 SHARES OF THE SECOND PREFERRED STOCK OF THE PORTLAND ELECTRIC POWER COMPANY FOR EXEMPTION FROM THE PROVISIONS OF THE PUBLIC UTILITY HOLDING COMPANY ACT OF 1935

ORDER REOPENING HEARING AND NOTICE THEREOF

An application for exemption pursuant to Section 3 (a) (1) of the Public Utility Holding Company Act of 1935 having been duly filed with this Commission by the above-named parties;

A hearing having been held on said application on the 17th day of January, 1936, before Charles S. Lobingier, an officer of the Commission, which hearing was closed on said date; and counsel for the Commission having moved that such hearing be reopened for the purpose of taking additional testimony and receiving additional evidence;

It is ordered, That a hearing on such matter be held on January 16, 1939, at 10:00 o'clock in the forenoon of that day, at the Securities and Exchange Building, 1778 Pennsylvania Avenue, N. W., Washington, D. C. On such day the hearing-room clerk in room 1102 will advise as to the room where such hearing will be held. At such hearing, if in respect of any declaration, cause shall be shown why such declaration shall become effective.

It is further ordered, That Robert P. Reeder or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under Section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice to continue or postpone said hearing from time to time.

Notice of such hearing is hereby given to such applicant and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before January 11, 1939.

The matter concerned herewith is in regard to the application for exemption as a holding company, filed by Franklin

T. Griffith, J. C. Ainsworth and E. B. MacNaughton, Trustees under that Declaration of Trust made by Franklin T. Griffith on November 26, 1935, in re the holding of 51,414 shares of the Second Preferred Stock of the Portland Electric Power Company for exemption from the provisions of the Act pursuant to Section 3 (a) (1) wherein it is alleged that the applicant and every subsidiary company thereof which is a public utility company from which such holding company derives, directly or indirectly, any material part of its income, are predominantly intrastate in character and carry on their business substantially in a single State in which such applicant and every such subsidiary company thereof are organized.

By the Commission.
